**INVITATION TO BID
AGRICULTURE LAND
LAKE CUMBERLAND WILDLIFE MANAGEMENT AREA
PULASKI COUNTY, KENTUCKY**

At the request of the Department of Fish and Wildlife Resources, the Division of Real Properties issues this Invitation to Bid on the lease of approximately 100 acres of agricultural land at the Lake Cumberland Wildlife Management Area (WMA) located in Pulaski and Russell Counties, Kentucky. The land is to be utilized for the productions of small grains or soybeans, as indicated in the enclosed bid forms.

Property to Be Leased: The land to be leased is licensed to the Department of Fish and Wildlife Resources by the U.S. Corps of Engineers and is utilized for the purpose of implementing, operating and managing a fish and wildlife program in accordance with an approved wildlife management plan. It consists of 100 acres divided into three (3) management units: (1) Coldweather Creek, (2) Poynter Creek, and (3) Yellowhole. Fields can be identified by unit names and tract numbers corresponding to the listing in the enclosed bid form. The three (3) units comprise one lease and are not separated into three leases. The bid forms list a five year crop rotation for each field. Crop rotations may be altered under special circumstances and are subject to negotiation. Some fields will be left idle or fallow during some years. The bidder is not expected to pay the annual rental fee for those fields that are fallow.

This agricultural lease will be in effect for the 2021 – 2025 crop years.

Several fields and portions of fields have been retired as part of wildlife habitat management programs and shall not be sprayed, mowed, or otherwise disturbed without approval of the Area Manager. See attached “Terms and Conditions” for further information.

Maps, History and Site Visit: Maps showing the property to be leased are included in this bid package. Bidders are urged and expected to inspect the property to be leased and to satisfy themselves as to all general and local conditions that may affect the cost of compliance with the lease, to the extent such information is reasonably obtainable. In no event will failure to inspect the site constitute grounds for a claim after award of the lease

Purpose of Leasing: The property will be leased for agricultural purposes, primarily to insure a supply of food for area wildlife populations and to furnish recreational opportunities for public users of the Lake Cumberland Wildlife Management Area. Leasing the property will produce income to offset operational expenses of the area as part of an overall habitat management program for the benefit of fish and wildlife populations on the area. Income derived from lands owned by the U.S. Corps of Engineers will be utilized to improve and maintain wildlife habitat and public access facilities on that tract.

Bid Forms: Bid forms are available at the by calling the Area Manager at (502) 661-5568, the Kentucky Department of Fish and Wildlife in Frankfort, Kentucky at (502) 546-3400, or the Division of Real Properties in Frankfort, Kentucky by calling (502) 564-2205. The management area is divided into three (3) management units. Bid forms list all fields by management units. All fields are identified by Unit Name and Field Number. The bid forms show a five year rotation for each field.

Bids: Bidders are bidding a per acre price on three (3) units. The three (3) units comprise one lease and are not separated into three leases. The total acreage contained within the three units equals 100 acres. The Commonwealth of Kentucky policy prohibits acceptance of bids from state employees. The minimum bid for each unit is \$15.00 per acre. **NO BIDS WILL BE ACCEPTED BELOW THE MINIMUM PER ACRE PRICE AS SHOWN ON THE BID FORM.**

Rental rates quoted in response to this Invitation to Bid shall remain firm for the term of the resulting leases. All bidders shall be notified by mail of the results. The Commonwealth of Kentucky reserves the unqualified right to reject any and/or all bids. The Commonwealth reserves the right to give preference to bidders of entire management units over a small number of tracts.

NOTE: THE DEPARTMENT OF FISH AND WILDLIFE RESOURCES REQUIRES FIVE PERCENT (5%) OF ALL CROPS WILL BE LEFT STANDING IN THE FIELD AS A FOOD SOURCE FOR WILDLIFE. THE FIVE PERCENT (5%) WILL BE CONSIDERED AS PART OF THE ANNUAL PAYMENT.

The share of crop left in the field shall become the property of the KY Department of Fish and Wildlife Resources and may not be altered until after March 15th and then only under the terms of a negotiated contract from the Public Lands Biologist. For further information, contact the Lake Cumberland Wildlife Management Area Manager.

Bidders should submit their bids on the enclosed Bid Forms and these should be completely filled out, signed, and submitted in the enclosed bid envelope, with deposit. All bidders will be notified by mail of the results. The Commonwealth of Kentucky reserves the unqualified right to reject any and/or all bids. For further information contact: Michael Strunk, 135 Realty Lane, Somerset, KY, 42051. Phone (502) 661-5568.

Bid Revisions/Adjustments: Share bids in response to this invitation shall remain firm for the entire 5 years of the resulting lease. If a bidder withdraws from the lease; the next highest share bidder will be contacted to assume the remaining terms of the lease.

Access: Because of water level fluctuations of the Lake Cumberland and limited access roads, the Department cannot guarantee access to all leased fields. It shall be the responsibility of the bidders to determine the conditions of access to the fields that s/he bids on.

Term of Lease: The successful bidders shall be required to enter into a lease contract with the Department of Fish and Wildlife Resources for a term of one year, to be renewed for four successive one year periods (for a total of five years). Renewals will take place between February 1 - 15 of each year. The lease will be for a crop year (March 15 - October 25) unless special circumstances warrant otherwise. **All cropping and harvesting activities will be completed by October 25th.**

Payment of Rental: The successful bidders shall enter into lease contracts with the Department of Fish and Wildlife Resources on an annual basis (annually renewable for four years). A payment of 10% deposit must accompany the lease when signed by the Bidder and the balance is due on or before December 15 of same year. Money orders, cashier's checks, certified checks are to be made payable to the Department of Fish and Wildlife Resources. **A THREE PERCENT (3%) LATE CHARGE WILL APPLY IF BALANCE IS NOT RECEIVED BY SPECIFIED**

DATE. The lease agreements shall provide for a final payment of the balance of each contract due December 15 of each contract year. Final payments will be calculated on a price bid per acre of crop planted format.

Liability: The successful bidders agree to indemnify and hold harmless the Commonwealth from any and all claims, demands, damages, actions, costs, including attorney's fees, and charges for which the Commonwealth may be subject, or for which the Commonwealth, or the successful bidders, may be required to pay by reason of injury to any person or property or loss of life or property resulting from or in any way connected to the character, condition or use of the leased premises or any means of ingress thereto, or egress therefrom unless such injury or loss arises directly from the negligence of the Commonwealth, or any of its officers, agents or employees, while acting within the scope of their employment. The successful bidder shall, at their own expense, assume defense of such claims and actions for damages or judgments arising directly from the negligence of the Commonwealth, any of its departments or agencies, or any of its officers, agents, or employees while acting within the scope of their employment.

Termination for Default:

- (a) If at any time during the period in which the lease agreements are in effect, the successful bidders, in the opinion of the Commonwealth, defaults on any obligation incurred hereunder, including, but not limited to the obligation to pay rent, as provided in the resulting agreements, then the agreements shall be subject to termination by the Commonwealth, with no right of recourse remaining in the successful bidders. All rights and benefits therein conferred shall be deemed forfeited, and the successful bidders covenant that they shall quietly surrender possession of the demised premises to the Commonwealth, provided however, that before any termination shall occur under this section, the successful bidders shall be given written notice and be allowed thirty days from the date of receipt of such notice in which to cure such default or noncompliance. If said default or noncompliance is cured within the above time period, then the lease agreements shall remain in full force and effect.
- (b) The procedure for termination of the lease agreements under this section shall be as follows:
 1. The Commonwealth shall deliver, by certified mail, to the successful bidders a "Notice of Termination" which shall specify (a) the nature of the termination; (b) the extent to which use under the lease agreements are to be terminated; and (c) the date upon which termination becomes effective.
 2. The successful bidders shall stop use under the lease agreement on the date indicated and to the extent specified in said "Notice of Termination", unless the default on noncompliance is cured within the time period stated in the notice.
- (c) In the event of termination for default, the successful bidders shall be responsible for repaying to the Commonwealth any and all monetary sums due the Commonwealth under the lease agreements, up to and including the effective date of termination.

- (d) The rights and remedies for the Commonwealth provided in the agreements shall not be exclusive, and are in addition to any other rights and remedies provided by law or in equity.

Cancellation Clause: Either party may cancel the resulting lease for no cause by giving written notice to the other party, specifying the date of cancellation, with such notice to be given not less than thirty (30) days prior to the date of such cancellation. Time to be computed from date of mailing notice. Upon said cancellation, successful bidder shall quit the premises and return them in a good order as received, ordinary wear and tear and natural decay excepted. Any cancellation of this Agreement, however caused, shall be entirely without prejudice to the rights of the Commonwealth then accrued hereunder.

Method of Award: One lease will be awarded for all of the tracts on the wildlife management area on a highest bid amount to that responsible, responsive bidder whose offer conforming to this Invitation to Bid will be most advantageous to the Commonwealth. The Commonwealth of Kentucky reserves the right to reject any and all bids and to waive technicalities. A bidder's past performance under lease shall be a consideration and may be a factor in the award of a lease.

Adding Terms and Conditions: Additional terms and conditions that come within the scope of the resultant leases and found to be needed may be added to each lease if mutually agreeable to both the successful bidder and the Department of Fish and Wildlife Resources.

Good Faith Deposit: A good faith deposit must be submitted with each bid in an amount equal to ONE HUNDRED DOLLARS (\$100.00). **Only one \$100 good faith deposit is required for bidding on tracts.** The good faith deposit should be made payable to the Kentucky State Treasurer (cash will not be accepted). All such deposits will be returned promptly on unsuccessful bids. The deposits made with the successful bids will be retained by the agency and later applied to the lease payment.

NOTE: FOR FUTURE INFORMATION PLEASE CONTACT: Kyle Burnett, 135 Realty Lane Somerset, KY 42501. Telephone: (502) 661-5568. Monday – Friday 8am - 4:30 pm eastern time.

TERMS AND CONDITIONS

A. General

1. Bidders are per acre bidding on three (3) units containing multiple fields The Lessee may not sublease any part of the lease unit to a second party.
2. The Lessee shall assume responsibility for maintenance of all the crop including furnishing all equipment, labor and supplies, pay all expenses necessary and incidental to compliance with the provisions and conditions set forth herein unless otherwise specified in the contract.
3. The Lessee will be required to leave 5% of the crop acreage standing in each tract, in a pattern to be specified by the area supervisor prior to harvesting.
4. Specific crops may be planted at the discretion of the Lessee, however, no less than one-third (1/3) of each tract must be planted in corn each year. Each field must be planted in corn no less than one of every three years.
5. The Lessee assumes all risk and/or damage by reason of flooding or other natural disaster. In the event of a weather related crop loss and resulting crop insurance settlement the damaged crop will remain in the field for wildlife cover and food.
6. The Lessee is required to utilize good agricultural practices in accordance with the requirements of crop planted so as to avoid undue erosion or damage to existing wildlife or wildlife habitat. Conventional tillage is an acceptable practice but reduced tillage, low-till and no-till are preferred methods.
7. The Lessee will be responsible to maintain records of the acreage planted and to report same to the appropriate Farm Service Agency office.
8. The Department may over seed wheat or other cover crops in the fall in selected fields. The Department will pay these costs. The Lessee will destroy or incorporate the remaining cover crop the next cropping season based on the field rotation plan.
9. The hunting, trapping, fishing and other rights are retained by the Commonwealth which also retains the right of access to the property for the purpose of fish and wildlife management, public hunting and fishing opportunity. Reasonable care will be exercised to prevent damage to the property or crops of the Lessee. The Lessee shall not deny the public access to any portion of the wildlife management area unless it is proven that damage to the crop will result.
10. **The Lessee will provide a written report (forms to be provided) of the following:**
 - a. Acreage planted and reported to the FSA office.
 - b. Fertilizer and/or lime applied per acre by field number.
 - c. Herbicide applied per acre by field number.
 - d. Harvest removed by field numbers (in total bushel).

11. The Lessee will be responsible for damage to state properties and facilities as a result of cropping activity. Should the Lessee or his employees damage state owned or installed fixtures restitution will be made during that crop year. Damages may include but are not limited to damage/destruction of public hunting blinds, tree/shrub planting, boundary markers/fencing, building, gates, water control structures/facilities, dikes, dams, levees and vegetation.

Should damage occur to the tenant's crop as a result of actions by department staff or agents, appropriate adjustments will be made to the final crop payments on an acre damage/estimated production format.

12. No part of any lease unit may be placed in any federal land retirement program by the Lessee.
13. No Livestock shall be permitted.
14. If irrigation facilities are necessary, such facilities shall be provided by and at the expense of the Lessee, and shall be approved by the Area Manager.
15. The Lessee shall not erect any permanent or temporary structures on the leased premises.
16. The Lessee shall be responsible for maintaining their entire leased premises in a clean and sanitary condition throughout their lease term. The Lessee further agrees that upon the expiration or termination of their lease agreement, they will return the leased premises in as good an order as received, ordinary wear and tear, and acts of God expected.
17. The Lessee shall comply with the Conservation Plan on file at the local county Natural Resource Conservation Service office and follow recommended land practices.
18. The Lessee will follow planned crop rotations in agricultural operations. Consecutive years of same crop is prohibited, i.e. continuous production of the same grain crop in the same field is not allowed, unless weather dictates otherwise and at the permission of the Supervising Manager.
19. The Lessee may, with permission from the area supervisor, utilize existing structures on the leased premises.

B. Soil Testing/Fertilization/Lime

1. The Lessee will be required to perform soil tests as required by contract on fields they utilize and provide copies of the test and proof of fertilizer application. For consistency, the University of Kentucky's Extension offices in each county should be used for the soil test services. Tests are recommended a minimum of every two years; all test results and field locations shall be kept on file at the appropriate local office location for each property involved.

The Lessee shall comply with soil test recommendations for lime at no less than half of the recommended rate or 2 tons/acre, whichever is lesser.

2. For the application of Nitrogen, Phosphorous, and Potassium the following recommendation should be followed as a general rule of thumb by the lessee: If Phosphorous and Potassium levels, according to the soil test, are in the Medium to High range it is not necessary to make an application. Applications should be made if range levels fall into the Low to Medium categories. No less than the minimum recommendations should be applied in these instances. Maximum levels should never be exceeded and are generally not recommended due to their inefficacy. Test results showing the need for trace elements should be treated on an as needed basis. Nitrogen applications should be made for the minimum expected yield. High-end recommended and arbitrary applications are not environmentally or economically sound and should not be made.

Nitrogen tests are recommended when feasible. A general recommendation of 1.5 units of nitrogen per bushel of expected yield for the respective field can be used. Corn should be fertilized to yield no less than 80 bu/acre. Nitrogen fixing cover crops are encouraged and recommended to be used whenever possible. The use of anhydrous ammonia as a nitrogen source is not recommended because of the cumulative damage to soil microorganisms and a general decline in soil tilth. Department staff will not utilize anhydrous ammonia and will recommend all tenants convert to other more environmentally friendly forms of Nitrogen such as Urea, Diammonium Phosphate, etc.

C. Tillage Practices

1. Tillage methods and residue coverage should be consistent and conform to the N.R.C.S. Conservation Plan that is on file. Practices such as, but not limited to, no-till, conservation tillage, low-till are all encouraged.
2. Spring field preparations, (disking, plowing) shall not begin prior to March 15 without prior approval of the area supervisor. Minimum conventional tillage and no-till is encouraged where applicable.
3. No fall tillage (plowing or disking) should take place except for the establishment of cover crops, permanent grass/hay sowing, erosion control or fescue conversions. Tillage for fall cover crops or fall sown grain crops should be performed no later than November 15th without approval of the area supervisor.

Conventional plowing is not recommended in any of the above situations. Para-plow tillage is acceptable for the disturbance of hardpans and this may be used in the approval of the land manager. Chisel plowing is not accepted for fall use. No soil disturbances should be performed after November 15th.

D. Riparian Vegetation/Buffer zones

Riparian vegetation stabilizes stream banks, provides thermal insulation, reduces stream sediment loads and protects streams from soil, chemical and fertilizer runoff from crop fields. Buffer zones also act as wildlife corridors, travel-ways, escape cover and access-ways. Riparian strips/buffer zones should be either protected or established

along/adjacent to all, streams, wetlands, and waterways and crop lands/field borders on Department Wildlife Management Areas.

1. All streams, (perennial, intermittent, storm event, etc) shall be protected by a riparian zone for a minimum of 50 feet, (preferably 100 feet) on each side of the stream bank. There shall be no canopy disturbance within the first 50 feet of this zone.
2. Ponds, lakes, reservoirs, seasonal and permanent wetlands and other aquatic systems shall have at least a **50 foot riparian zone** (preferably 100 feet) on all sides. This zone shall be of undisturbed soil but is subject to rotational mowing or burning by KDFWR when it is a necessary component of management (for example waterfowl flight corridors).
3. Other field borders such as property boundaries, fence rows, roadsides, etc. shall have a vegetated strip of not less than **30 feet** of undisturbed soil.

E. Herbicides

1. **There will be no application of restricted use herbicides** as designated by the United States Environmental Protection Agency and the U. S. Fish and Wildlife Service. (See the area supervisor for an up to date list or consult the local chemical dealer).
2. There will be no use of insecticides upon Department owned or managed lands.
3. Herbicides are to be used only according to label directions.
4. Only the lowest recommended amount of the chemical that will efficiently and effectively control the weed shall be used.
5. Rotating herbicides will be recommended and used to avoid the development of resistant weeds.
6. Herbicides will not be used within 50 feet of any stream, river, lake, reservoir, wetland or body of water or in accordance with the label directions. Special consideration will be given to prevent any adverse impacts to highly unique habitats which may be host to special flora and fauna.
7. The Lessee shall report herbicide use on a yearly basis using forms provided.
8. Any herbicide containers will be disposed of using any available state, county, or local disposal program. In the absence of available programs, the container must be handled and disposed of following all label directions for that specific container.

F. Noxious Weeds

Tenants will be required to control the following noxious weeds within their rented/leased fields: *Thistle: Muss, Scott, Nodding, Canadian; Field Bindweed; Marijuana; Johnson grass; Sicklepod; Water Hemp; and Multi flora Rose.* Tillage and harvest equipment should be cleaned prior to moving to another field which will help limit weed seed transportation. Noxious weeds will not be controlled in any way that will adversely affect or have any detrimental impact on any wildlife or habitat.

BID FORM

Subject to the Instructions, Terms and Conditions and Authentication of Bid and Affidavit of Non-Collusion and Non-Conflict of Interest.
