<b>Total</b>		<b>289</b>	<b>ACRES FOR RENT</b>				

\*Indicates fields where water will be held longer in the spring on years when soybeans are to be planted.

\*Should corn planting be delayed due to water conditions beyond June 1, the tenant shall plant grain sorghum in lieu of corn.

\*\*25% of Yellow Corn/Grain Sorghum will be left standing in each field after harvest\*\*

\*\*The successful bidder will be required to deliver 800 bushels of wheat seed each year\*\*

**I PROPOSE TO PAY A CASH BID PRICE PER ACRE:**

**FOR ROW CROP ON TRACT CAVANAUGH/MUDDY \$ \_\_\_\_\_ / ACRE**

\*By signing this form, I accept that I will be leaving a percentage of each crop type in the field for wildlife use and that the crop to be left will be designated by the managing KDFWR staff; prior to harvest. I also accept that KDFWR may withdraw acreage annually from this cropping activity. Additionally, I recognize and accept that in fields where soybeans are to be planted that year, water will be held in the field for longer periods, resulting in loss of acreage. Bidder will only be required to pay on the amount of acreage planted, which will be confirmed by KDFWR staff using GPS equipment.
