INVITATION TO BID

Agricultural Land

Boatwright Wildlife Management Area

Tract 1- Ballard

GENERAL TERMS AND CONDITIONS

Scope of Project

Tract 1- Ballard

At the request of the Department of Fish and Wildlife Resources, hereinafter referred to as the "KDFWR," the Division of Real Properties issues this invitation to bid **1 Tract** of agricultural land.

Tract 1 (Ballard)- approximately **1101 harvestable acres** for wildlife and/or crop left standing for wildlife. This lease of agricultural land is situated within the Ballard Wildlife Management Area in Ballard County, Kentucky.

Purpose of Leasing: The properties will be leased primarily for agricultural purposes to ensure a permanent and continued supply of food for wildlife, providing sport and recreation for present and future residents of this state. Leasing the property produces income that offsets operational expenses of the area and is part of an overall habitat and land management program for fish and wildlife uses.

Each field can be identified by the tract name and field number, which corresponds to the listing in the bid forms. The supervising biologist assigns the tract numbers. The bid forms show the annual acres of soybeans and yellow corn, or an alternative crop, for each field. Bidders will be bidding cash per acre on 2 separate tracts/bid forms for

TRACT	Name	Harvestable Ac	Units/Fields
1	**Ballard**	**1101**	"See Crop Summary" **1165.4 Acres Total**

.

The Ballard tract consists of 33 fields labeled on field summary maps and crop summary sheet below as shown on Exhibit A.

Wildlife designated sections and acreages will be determined by the Supervising Biologist. Bidders are encouraged and expected to meet with the supervising biologist to discuss the location of the designated wildlife sections. In the event the wildlife acreage is deemed a failure, KDFWR retains the right to claim the next available adjacent acreage for wildlife management. This acreage will not be removed from the rental payment under these circumstances. Financial loss accrued due to natural losses can be handled through the lessee's insurance provider(s).

The land is to be utilized to produce small grains, by the **NO-TILL/MINIMAL TILL METHOD ONLY, unless prior approval is granted from the** supervising biologist. Tenants shall not disturb, mow, spray, or otherwise alter these fields or borders without approval of the Supervising Biologist. See the Land Use Conditions and Contract Annex for further information.

Each field can be identified by the tract name and field number, which corresponds to the listing on the bid form. The Supervising Biologist assigns the tract and field numbers. Bids should indicate the annual **cash bid** per acre that the bidder is willing to pay for each acre. Bidders will cash bid on two (2) separate Tracts.

Persons interested in responding to this Invitation to Bid must submit the enclosed form of sealed bid (page ___ herein). All bids should be submitted on or before **Thursday, November 19, 2026, at 3 p.m. ET**. This Invitation to Bid and the Bidder's response, when accepted by KDFWR, will govern any license agreement issued as a result of this Invitation to Bid. The license agreement shall be effective as of the date the Secretary of the Finance and Administration Cabinet executes it.

Section I
Performance

PROPERTY TO BE LEASED:

Tract 1 Ballard

The land to be leased is operated by the Kentucky Department of Fish and Wildlife Resources (KDFWR) and is utilized to implement, operate, and manage a fish and wildlife program following an approved wildlife management plan.

The land to be bid consists of approximately **1165.4 acres in 1 Main Tract** (consisting of 33 fields), located near Oscar & Monkeys Eyebrow, Kentucky. The land is to be used to produce annual grains, such as soybeans and corn/milo.

The Lessee will be required to plant up to **1,101** acres of crop (soybeans) or an alternate crop (Corn, Milo, ETC.) as requested by the Lessee and approved by the supervising biologist, in the amount indicated (please see attached bid form for a breakdown of acres by field).

With approval from the supervising biologist, any crop left standing after March 15 may be harvested by the tenant or an alternate designated by the agency in preparation for planting the following year's crop. Any such harvest shall be conducted on a 50/50 share basis, with 50% of the harvested crop allocated to the tenant and 50% allocated to the Kentucky Department of Fish and Wildlife Resources (KDFWR). The tenant shall pay KDFWR the market value of its 50% share by check made payable to the Kentucky Department of Fish and Wildlife Resources.

The combined total of all fields) is 1165.4 acres. Please see the attached bid form for a breakdown by tract of all acres.

Bids should indicate the annual per acre rental that the Bidder is willing to pay for the entire row crop acreage each year for row crop acreage.

Rental payments will be based on the amount of acreage planted *(any field practice, such as Spraying, disking, mowing, etc., constitutes planting)* in that cropping year.

The Bidder(s) is not expected to pay rental on acreage that is left fallow or planted in food plots as designated by KDFWR during each cropping year.

The bidder will be required to plant the crop specified on the field schedule sheet for that year. No other crop will be permitted, and the field will remain fallow for that year.

REQUIREMENTS:

The Lessee will **NOT** be required to plant food plot/leave acres within this contract. However, yellow corn (preferred) or an alternate crop as specified by the supervising biologist, in the amount indicated (please see attached bid form for a breakdown of acres by tract).

The corn shall be planted as early in April as weather allows and must be planted prior to June 15th each year unless approval from the supervising biologist due to extenuating circumstances.
The yellow corn should produce a mid-range yield of 60-100 bushels per acre. The tenant must use acceptable seasonal weed and grass control in the yellow corn and/or alternate crop if required. Alternate crops may include, but are not limited to, hybrid sunflowers, millet, buckwheat, milo, soybeans, and/or wheat, at the discretion of the area manager. Alternative crops shall be fertilized according to the results of the soil test. Wheat shall be planted at the rate of 2 bushels per acre, and a seedbed prepared and planted no later than September 15. Wheat can be spread or drilled. The wheat seed can be bin run with a germination test of 85 to 90%. The corn shall be planted at a population of 30,000 to 32,000 plants per acre in 30-inch to 32-inch rows, using a hybrid variety compatible with local soils, and fertilized to achieve a mid-range yield of 80 to 100 bushels per acre. Alternate crop seeds shall be new seed. Maps will be provided by the area manager for planting food plots. Maps will be followed for all planting unless weather conditions prohibit; changes will be made at the area manager's discretion.

Additional requirements, such as (Disking, Mowing, debris removal, etc.) after harvest of certain crops, may be required to address crop residue after floods known as drift. It will be the responsibility of the lessee to remove any drift from fields, levees, roads, ditches, etc. that impedes the farming practices outlined. Coordination with the supervising biologist is necessary to adhere to practices that align with the area's management plan.

Coordination with the supervising biologist is necessary to adhere to practices that align with the area's management plan.

NON-PLANTED ACRES:

In the event that the successful bidder(s) cannot/do not plant all production acres in the contract, vegetation must be controlled through chemical or mechanical means. The cost associated with the vegetation will be the responsibility of the successful bidder(s). The vegetation control methods and chemicals will be at the discretion of the area manager. They will be selected based on wildlife management goals (e.g., ridges may be disked, and low ground may be sprayed with a broadleaf, selective herbicide).

ACCESS:

Due to water level fluctuations of the Ohio River and limited access roads, the Department cannot guarantee access to all leased fields. It shall be the responsibility of the bidders to determine the conditions of access to the fields for which they bid.

Goods & Services

Tract 1
Ballard

ROAD MAINTENANCE:

As part of the road maintenance due to farming activities, the successful bidder(s) will be required to provide up to $60,000 worth of white rocks. The cost will be deducted from the Tenant's final contract payment each year. Receipts and weight tickets will be required for all rock. The managing KDFWR staff will specify the rock size and delivery location.

GREEN BROWSE & FOOD PLOT SEED:

As part of the wildlife management efforts, the successful bidder(s) will be required to provide up to $20,000 of green browse and/or food plot seed and supplies. The cost associated will be subtracted from the successful bidder's final contract payment. The winter wheat may be bin run or cleaned seed wheat. Receipts and weight tickets will be provided for winter wheat.

CHEMICAL/FERTILIZER AND APPLICATION:

As part of our food plot program, the successful bidder(s) will be required to provide up to $50,000 worth of chemical and fertilizer, as well as application services. The cost will be deducted from the tenant's final contract payment at the end of the year. The chemical/fertilizer and areas chemically treated and fertilized will be at the discretion of the area manager. Receipts will be required for all chemicals, fertilizer, and application costs.

HEAVY EQUIPMENT SERVICES:

As part of area maintenance, the successful bidder(s) will be required to provide up to $25,000 worth of heavy equipment services. The cost will be deducted from the tenant's final contract payment at the end of the year. Heavy equipment services will be at the discretion of the area manager.

OTHER GOODS & SERVICES

An additional $25,000, plus any combination of goods or services listed, may be reallocated by the supervising biologist to meet the property's management goals. Each good or service listed above represents an example of an annual allotment for the contract. However, any amount not utilized will be payable with the annual rent on December 1st annually.

Row Crop:

ACREAGE CALCULATIONS

At the end of each cropping year, KDFWR staff will use GPS equipment to confirm the acreage planted in each field. In the event of crop failure because of natural events (flooding, hail, etc.), the Bidder(s) will still be expected to pay rent. Financial losses accrued because of crop losses due to natural events should be handled through the Bidder's insurance provider(s).

ADDITIONAL STANDING CROP FOR WILDLIFE

The cash rental is for contract planted acres only. As part of the wildlife management strategy for wintering waterfowl, additional cover crops and small grains are planted by area staff annually. The cost of this is supported through goods and services payments. These food plot acres are sometimes left standing by wildlife and may not be fully utilized. As part of a crop management strategy for preparing the plot for next season's planting the supervising biologist will allow harvest of those food plot areas. The share of the crop may not be altered until after March 15th, provided approval is obtained from the supervising biologist.

With approval from the supervising biologist, any crop left standing after March 15 may be harvested by the tenant or an alternate designated by the agency in preparation for planting the following year's crop. Any such harvest shall be conducted on a 50/50 share basis, with 50% of the harvested crop allocated to the tenant and 50% allocated to the Kentucky Department of Fish and Wildlife Resources (KDFWR). The tenant shall pay KDFWR the market value of its 50% share by check made payable to the Kentucky Department of Fish and Wildlife Resources.

Additionally, prior to harvest, in each cropping year, the Bidder(s) shall contact KDFWR personnel to determine the location where crops are to be left standing in each field. The pattern in which crops are left standing is important for the overall management plan on the WMA and is often the primary reason for having row-crop production in the field.

> ***Therefore, failure to contact KDFWR personnel prior to harvest concerning where crops are to be left standing will result in a penalty of $750, payable at the end of the cropping season when cash rental payments are due.***

WITHDRAWN, RETIRED, AND/OR NON-CROP AREAS

Several fields and portions of fields on the property have been retired as part of habitat management programs. Additionally, during certain cropping years, portions of a field(s) may be left out of row-crop production to improve wildlife habitat or provide public hunting opportunities on the WMA. Bidder(s) will be notified of these areas prior to each cropping year by the Supervising Biologist. Bidder shall not disturb, mow, crop, apply herbicides to, or otherwise alter any non-crop areas without approval by the Supervising Biologist.

> ***Damage to non-crop areas as a result of farming activities conducted by the Bidder(s) will result in a financial penalty at the end of each cropping year. The penalty for damage to a non-crop area will be $350 per acre and will be paid at the end of the cropping year, at the same time annual cash rental payments are due or payable with goods and services throughout the contract.***

The acreage of non-crop damage will be calculated by KDFWR staff under the direction of the Supervising Biologist using GPS equipment, and descriptions of the damage will be thoroughly documented in writing. KDFWR recognizes that accidents and minor mistakes do occur; therefore, the

penalty for damage to non-crop areas applies only when blatant negligence is determined by the Supervising Biologist.

The bidder will be responsible for repairing, replacing, and installing any structures (Pits, Blinds, well discharges, water control structures, gates, roads, etc.) that may be damaged during cropping activities by the bidder or any contractor the bidder uses for cropping activities. All damage should be reported immediately to the supervising biologist, and repairs should be made at the earliest convenience.

In fields where corn is to be planted, the Bidder(s) are not permitted to "patch in beans." In areas of the field where it was too wet to plant corn that year, the Bidder(s) may plant soybeans at a later date, whenever drier conditions prevail. The same applies to areas that are too wet to plant soybeans during the initial planting date of the field. Those areas of the field that were not planted initially will be allowed to grow up in natural vegetation during the cropping year and shall not be disturbed by the Bidder(s).

All crops must be harvested on or before November 1st each contract year

If conditions are not suitable for harvest due to weather, flooding, etc. exceptions may be made in advance with approval from the supervising biologist.

The Department of Fish and Wildlife reserves the right to withdraw acreage from the annual leases at its discretion for the purposes of soil and water conservation and/or wildlife habitat management practices at any time during the contract period.

It will be the responsibility of each Bidder to examine the areas upon which cropping will take place and make their own determination for the logistics of cropping. KDFWR must approve all ingress and egress routes to the fields prior to the commencement of cropping activities.

ANNUAL REPORTS

The successful Bidder(s) will provide an annual report (forms to be provided) of the following.

The Lessee will provide a typed report of the following when making the final payment:

a. **Acreage planted and reported to the FSA office.**
b. **Fertilizer and/or lime applied per acre by field number.**
c. **Herbicide brand and application per acre by field number.**
d. **Harvest removed by field numbers (in total bushels).**

f. **If an insurance claim is made, a copy of it must be given.**
g. **If corn cannot be planted, then the lessee must purchase and plant the annual grain specified at the manager's discretion.**
h. **Any and all receipts/cancelled checks that will be deducted from the successful bidder's final payment. These paid invoices and receipts shall be submitted no more than 30 days from the date of service to be deducted from the contract.**

Section II

Terms and Conditions for Both Hay and Row Crop

The successful Bidder(s) shall be responsible for maintaining their entire leased premises in a clean and sanitary condition throughout their lease term. The successful Bidder further agrees that upon the

expiration or termination of their lease agreement, they will return the leased premises in as good an order as received, subject to ordinary wear and tear and acts of God, which are expected.

The successful Bidder(s) will be required to perform soil tests as required by contract on fields they utilize and provide copies of the test and proof of fertilizer application. For consistency, the University of Kentucky's Extension offices in each county should be used for the soil test services. **Soil tests are required in the second and fourth years of the contract**; all test results and field locations shall be kept on file at the appropriate local office location for each property involved.

The successful Bidder(s) shall comply with soil test recommendations for lime and fertilizer. The successful Bidder(s) must apply no less than half of the recommended rate of lime or 2 tons/acre, whichever is lesser. Fertilizers must be applied at a rate of at least 85% of the soil test recommendations.

Spring field preparations shall not begin prior to March 15 without prior approval of the Supervising Biologist. Minimum conventional tillage and no-till is encouraged.

No fall tillage should take place except for the establishment of cover crops and erosion control. Tillage for fall cover crops should be performed no later than November 15th without approval of the Supervising Biologist.

There will be no application of restricted-use herbicides as designated by the United States Environmental Protection Agency and the U. S. Fish and Wildlife Service. (See the Supervising Wildlife Biologist for an up to date list or consult the local chemical dealer.)

There will be no use of insecticides upon KDFWR-owned or managed lands.

The Successful Bidder, as defined in KRS 45A.030 (10) agrees that the Department of Fish and Wildlife, the Finance and Administration Cabinet, the Auditor of Public Accounts, and the Legislative Research Commission, or their duly authorized representatives, shall have access to any books, documents,

papers, records, or other evidence, which are directly pertinent to this contract for the purpose of financial audit or program review. Records and other prequalification information confidentially disclosed as part of the bid process shall not be deemed as directly pertinent to the contract and shall be exempt from disclosure as provided in KRS 61.878(1)(c). The Successful Bidder also recognizes that any books, documents, papers, records, or other evidence received during a financial audit or program review shall be subject to the Kentucky Open Records Act, KRS 61.870 to 61.884.

(See attachment below)

Section XVI

TERMINATION FOR DEFAULT/CANCELLATION CLAUSE

If at any time during the period in which the resulting License Agreement is in effect, the Successful Bidder defaults on any obligation incurred hereunder, then the Agreement shall be subject to termination by the Commonwealth with no right of recourse remaining in the Successful Bidder. All rights and benefits herein conferred shall be deemed forfeited, and the Successful Bidder covenants that it shall quietly surrender possession of the licensed premises to the Commonwealth, provided however, that before any termination shall occur under this Paragraph, the Successful Bidder shall be given written notice and be allowed thirty (30) days from the date of receipt of such notice in which to cure such default or noncompliance. If said default or noncompliance is cured within the above period, then the License Agreement shall remain in full force and effect.

The procedure for termination of the License Agreement under this Paragraph shall be as follows:

- The Commonwealth shall deliver, by certified mail, to the Successful Bidder, a "Notice of Termination" which shall specify
    - (i) the reason(s) for termination of the License Agreement
    - (ii) the extent to which performance under this License Agreement is to be terminated
    - (iii) the date upon which termination shall become effective.

- The Successful Bidder shall stop performance under the License Agreement on the date indicated and to the extent specified in said "Notice of Termination", unless the default or noncompliance is cured within the period stated in the notice.
- The rights and remedies of the Commonwealth provided in the above Paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or in equity.

Cancellation Clause

Either party may cancel the resulting lease for no cause by providing written notice to the other party, specifying the cancellation date, with such notice to be given at least thirty (30) days before the cancellation date. Time to be computed from the date of mailing notice. Upon said cancellation, the successful Bidder shall quit the premises and return them in as good an order as received, ordinary wear and tear and natural decay excepted. Any cancellation of this Agreement, however caused, shall be entirely without prejudice to the rights of the Commonwealth then accrued hereunder. The

Department may cancel all or part of the cropping contract without reservation, in order to install its desired wildlife habitat projects on the property.

Section XVII
TAXES

The Successful Bidder shall pay all taxes which may be lawfully imposed by the Commonwealth and its political subdivisions and shall secure and pay for all permits and licenses which the Commonwealth or a political subdivision may require.

Section XVIII

REMOVAL OF PERSONAL PROPERTY UPON EXPIRATION, CANCELLATION, OR TERMINATION FOR DEFAULT

All of the Successful Bidder's equipment (excluding fixtures), supplies, and materials shall be removed from the licensed premises, at the Successful Bidder's sole expense, fifteen (15) days after cancellation, termination, or expiration date of the License Agreement. Failure to remove personal property from the Licensed Premises shall also be deemed a lack of compliance with "satisfactory" clean-up/restoration, shall be considered abandonment of the property, and the property shall become titled with the Commonwealth.

Section XIX
EMPLOYMENT PRACTICES

The Successful Bidder shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, national origin, age (except as provided by law), marital status, political affiliation, or disability. The successful Bidder must take affirmative action to ensure that employees, as well as applicants for employment, are treated without discrimination because of their race, color, religion, sex, national origin, status, political affiliation, or disability. Such action shall include, but is not limited to, the following: employment, promotion, demotion or transfer, recruitment or recruitment advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. The Successful Bidder agrees to post notices in conspicuous places, available to employees and applicants for employment, setting forth the provisions of this clause.

Section XXI
RIGHT OF ENTRY

The Commonwealth, its agents, and employees, reserve the right to enter upon the WMA premises at reasonable times to inspect the premises, operation, and equipment, or for any purposes in connection with work necessary to the benefit of the Commonwealth.

Section XXII
ASSIGNMENT

The Successful Bidder shall not voluntarily, involuntarily, or by operation of law assign, sublet, or otherwise transfer the License Agreement or any interest created therein to any other person, association, partnership, corporation, or other entity without first obtaining in each and every instance the Commonwealth's prior written consent. Any attempt to assign, sublet, or otherwise transfer the License Agreement, or any interest created therein, without such consent shall be void. If an assignment, sublet, or transfer is made with the consent of the Commonwealth, then the Successful Bidder shall not be relieved from the performance of all terms, covenants, and conditions of the License Agreement. If the Commonwealth gives consent to any such assignment, subletting, or transfer once, such consent shall not operate as a waiver of the necessity for obtaining the Commonwealth's consent to any subsequent assignment, subletting, or transfer. No assignment will be effective or binding against the Commonwealth until such time as the assignee executes an amendment, signed by all parties, reflecting such assignment.

Section XXIII
INDEPENDENT CONTRACTOR STATUS

The Successful Bidder shall be an independent contractor and all persons employed by him/her in the exercise of the privileges granted therein shall be employees, agents, and servants of successful Bidder only and not the Commonwealth.

Section XXIV
MODIFICATIONS/CHANGES

No modification or change of any provision in this bid shall be made, or construed to have been made, except with the prior written agreement of both parties through an amendment to the License Agreement executed by all parties. Memoranda of Understanding and correspondence shall not be construed as amendments to the License.

If any provision of the license is declared or found to be illegal, unenforceable, or void, then both the Commonwealth and the Successful Bidder shall be relieved of all obligations arising under such provision. If the remainder of the license is capable of performance, it shall not be affected by such declaration or finding and shall be fully performed.

Section XXV
OFFER OF GRATUITIES

By submitting a bid, the Successful Bidder certifies that no member of or delegate of Congress, nor any elected or appointed official or employee of the Commonwealth of Kentucky, has or will benefit financially or materially from this procurement. The Commonwealth may terminate any license agreement arising from this procurement if it is determined that gratuities of any kind were either offered to or received by any of the aforementioned officials or employees from the Successful Bidder, their agents, or employees.

Section XXVI
ENTIRE AGREEMENT

This bid package represents the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior negotiations, representations, or agreements, either written or oral, between the parties hereto relating to the subject matter hereof and shall be independent of and have no effect upon any other agreement.

Section XXVII
FORCE MAJEURE

The Successful Bidder will not be liable to the Commonwealth if failure to perform the agreement arises out of causes beyond the control and without the fault or negligence of the Successful Bidder. Such causes may include, but are not restricted to, acts of God, fire, quarantine restrictions, strikes, and freight embargoes. In all cases, the failure to perform must be beyond the control and without fault or negligence of the successful Bidder. The Successful Bidder will take all possible steps to recover from such occurrences.

Section XXVIII
COMMONWEALTH'S PROPERTY

The Successful Bidder shall be responsible for the proper care and custody of any Commonwealth property furnished for the Successful Bidder's use in connection with the performance of the resulting license agreement. This responsibility includes the repair and/or replacement due to loss, damage, or negligence, normal wear and tear expected.

Section XXIX
VENUE

The laws of the Commonwealth of Kentucky shall govern this bid and the resulting License Agreement. Any legal proceeding against the Commonwealth or the departments regarding this License Agreement or any resultant agreement shall be brought in the Commonwealth of Kentucky administrative or judicial forms. The venue will be in Franklin County, Commonwealth of Kentucky.

In the event that either party deems it necessary to take legal action to enforce any provision of this License Agreement, and in the event the Commonwealth prevails, the Successful Bidder agrees to pay all expenses of such action, including attorneys' fees and costs at all states of litigation, as set by the court or hearing officer.

Section XXX
ADDITIONAL TERMS/CONDITIONS

Additional items/services, terms and/or conditions that come within the scope of the license agreement and are found to be needed by the Commonwealth may be added to the license agreement.

Section XXXI
CONFLICT OF INTEREST

No official or employee of the Commonwealth, and no other public official of the Commonwealth of Kentucky or the federal government who exercises any functions or responsibilities in the review or approval of the undertaking or carrying out of the project shall, before the completion of the project, voluntarily acquire any personal interest, direct or indirect, in the license or proposed license.

The Successful Bidder covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which would conflict in any manner or degree with the performance of its services hereunder. The Successful Bidder further covenants that in the performance of the license, no person having any such known interests shall be employed. By entering into the license agreement, the Successful Bidder covenants that it is not in violation of KRS Chapter 11A (Executive Branch Code of Ethics).

Section XXXII
