(NET 1 B_C)Availability of Practitioners

Anthem Blue Cross Blue Shield of Kentucky Medicaid
REPORT YEAR: 2019 MEASUREMENT YEAR: 2018
Date: 05/20/2019

Kentucky completes an annual practitioner availability analysis for both their primary care and specialty care practitioners. The analysis includes established ratios (practitioner to member) and geographic distribution to meet the needs of our membership

Please note: The health plan has delegated behavioral health services to Anthem Medicaid Behavioral Health (AMBH), a wholly-owned subsidiary of Anthem and a sister organization to the health plan. Anthem Medicaid Behavioral Health is an NCQA fully accredited MBHO. As such the behavioral health provider network evaluation is delegated and reported via our delegation agreement and the health plan is eligible for automatic credit for specified behavioral health activities.

Table 1 identifies the established types of Primary Care Practitioners (PCP) and High-Volume and High-Impact Specialists. The pre-determined availability standards are aligned with each practitioner type. The high-volume and high-impact specialists may change as they are identified annually via claims and encounter data.

ANALYSIS

Table 2: Qualitative Analysis: Primary Care Practitioners

Practitioner Types	*Family Practice / General Practice, Internal Medicine and Pediatrician*
Participants	The Health Plan's QMC reviewed the results of the survey to determine the compliance rates for PCPs, High Volume and High Impact Specialist. This committee consist of leadership and staff from the Quality Management, Utilization Management, Provider Departments, and includes the Medical Director. This committee has the authority to impact any outliers of compliance.
Process of analysis	A group of associates consisting of quality management and provider solutions representatives/senior leadership met to discuss and analyze results of the plan's Q4 2018 GeoAccess analysis. PCP availability standards were met, and the group utilized the brainstorming technique to evaluate availability enhancements.
Key drivers of results (special cause/common cause)	Anthem BCBS Kentucky Medicaid's goal for Primary Care Practitioner (PCP) availability is 1 PCP per 1,500 members, (1:1500). In 2018, Anthem performed well above the goal for all PCP types (Urban and Rural) at 1:29 members.
Barriers identified	The Anthem BCBS Kentucky Medicaid Quality Management Committee (QMC) which consists of executive level staff reviewed the data regarding PCP availability and noted compliance well below the threshold for action with result comparison ratio to goal.
Scope/severity of issue	No barriers were noted for ratio to goal, nor with urban or rural geo access to goal.
Opportunity for improvement identified	No action is required for ratio to goal, nor with urban or rural geo access to goal. No opportunities for improvement exist for this measure at this time, however, the plan will continue to monitor its GeoAccess on a quarterly basis, in order to quickly identify and address any future gaps that may occur.

Practitioner Group			Access/Availability Standards	Rate/Threshold Standard	Results: Rate/Threshold	Goal Met?
Type	Practitioner					
High-Volume Specialists	OB/GYNs	Urban	Ratio: Specialist to members	1:2,500	1:30	Y
			1 provider within 60 miles	95%	100%	Y
		Rural	Ratio: Specialist to members	1:2,500	1:30	Y
			1 provider within 60 miles	95%	100%	Y

Table 4: Qualitative Analysis: High-Volume Specialists

Practitioner Type	OB/GYNs
Participants	The Health Plan's QMC reviewed the results of the survey to determine the compliance rates for PCPs, High Volume and High Impact Specialist. This committee consist of leadership and staff from the Quality Management, Utilization Management, Provider Departments, and includes the Medical Director. This committee has the authority to impact any outliers of compliance.
Process of analysis	A group of associates consisting of quality management and provider solutions representatives/senior leadership met to discuss and analyze results of the plan's Q4 2018 GeoAccess analysis. OB/GYNs availability standards were met, and the group utilized the brainstorming technique to evaluate availability enhancements.
Key drivers of results (special cause/common cause)	Anthem BCBS Kentucky Medicaid's goal for OB/GYNs availability is 1 per 1,500 members. In 2018, Anthem performed well above the goal: (Urban and Rural) OB/GYNs (1:248).
Barriers identified	The Anthem BCBS Kentucky Medicaid Quality Management Committee (QMC) which consists of executive level staff reviewed the data regarding High-Volume Specialist availability and noted compliance well below the threshold for action with result comparison ratio to goal, as well as with result comparison to GeoAccess. Although all goals were met, the QMC will continue to monitor OB/GYN availability.
Scope/severity of issue	No barriers were noted for ratio to goal, nor with urban or rural geo access to goal.
Opportunity for improvement identified	No action is required for ratio to goal, nor with urban or rural geo access to goal. No opportunities for improvement exist for this measure at this time, however, the plan will continue to monitor its GeoAccess on a quarterly basis, in order to quickly identify and address any future gaps that may occur.

This committee consist of leadership and staff from the Quality Management, Utilization Management, Provider Departments, and includes the Medical Director. This committee has the authority to impact any outliers of compliance.
Process of analysis	A group of associates consisting of quality management and provider solutions representatives/senior leadership met to discuss and analyze results of the plan's Q4 2018 GeoAccess analysis. Oncologist availability standards were met, and the group utilized the brainstorming technique to evaluate availability enhancements.
Key drivers of results (special cause/common cause)	Anthem's goal for Oncologist availability is 1 per 2,500 members. In 2018, Anthem performed well above the goal: (Urban and Rural) Oncologist (1:334).
Barriers identified	The Anthem BCBS Kentucky Medicaid Quality Management Committee (QMC) which consists of executive level staff reviewed the data regarding High-Impact Specialist availability and noted compliance well below the threshold for action with result comparison ratio to goal, as well as with result comparison to GeoAccess. Although all goals were met, the QMC will continue to monitor Oncologist availability.

ANALYSIS: Opportunities to Improve Practitioner Availability

The QMC reviewed the data collected for 2018 on provider availability for all PCP types and high-volume and high-impact specialists. Through the analysis of the data; key drivers and barriers to improvement were identified. Table 10 indicates the results of this analysis with priorities determined and specifies the actions taken:

MCO Network Adequacy

MCO Network Adequacy and Capacity for the Medicaid Advisory Council (MAC)

MCO Name _Anthem Blue Cross and Blue Shield Medicaid_

Date Submitted to DMS _01/01/20_

Please ensure your Narrative includes the following (Regional and Statewide challenges):
Provider and specialty types that present member access challenges for your MCO (please identify whether it is a network challenge or capacity).

Anthem has a very comprehensive, statewide network that includes over 20,000 providers. The overall network composition is as follows:
       Network Composition:
         • Hospitals   110
         • PCP   Over 3,600
         • Specialist   Over 14,000
         • Behavioral Health   Over 2,000
 	
Anthem closely monitors network adequacy and compliance with access standards through quarterly Geo Access reports. We also review and respond to the monthly DMS network adequacy analysis. In addition, network access issues are tracked from member disenrollment requests and member/provider grievances. If a circumstance arises where a participating provider cannot be located, Anthem will negotiate a single case agreement with a non-participating provider to ensure access to care.
 	
If services are needed from a provider who is in the credentialing/contracting process, a single case agreement may be completed as an interim step.

MCO Network Adequacy

What actions steps is your MCO taking to address these challenges (i.e. recruitment of these provider and specialty groups).

Anthem continuously analyzes the network to ensure competitiveness and marketability.   In addition, Anthem is evaluating non-participating utilization reports and member disenrollment requests to identify additional recruitment opportunities.

Anthem has secured the following key provider agreements during November and December to increase member access:

Please talk about how your MCO ensures that your Directory is accurate (and updated) as it relates to Network Adequacy and Capacity. Include what measures have been taken during this time frame.
Anthem produces both a paper and online provider directory. The paper directory is available on the health plan website or upon request by contacting Member/Provider Services. On the Anthem website, a PDF of the paper directory is available, as well as a provider search tool. The provider search tool provides the most up-to-date provider information and participation status. A link to the search tool has been included below. The provider search tool is updated on a weekly basis. https://mediproviders.anthem.com/ky/pages/findadoc.aspx

Kentucky Department for Medicaid Services
MCO Report # 13: Access and Delivery Network Narrative

MCO Name:	**DMS Use Only**
Report Date: 10/18/19	Received Date:
Report Period From: 07/01/19	Reviewed Date:
Report Period To: 09/30/19	Reviewer:

I.   Summary of Complaints - Access Issues

A. Provider

During the third quarter 2019, there was one provider grievance received. If a grievance is received for network access, it is resolved by assisting providers in finding a participating provider for referral or admission. If services from an out-of-network provider are needed, a single case agreement will be completed.

B. Member

Approximately eight member grievances around access issues were received and resolved in the third quarter 2019. The nature of these grievances was excessive wait times and/or network availability.

II.   Network Access Problems

A. Issue

Anthem closely monitors network adequacy and compliance with access standards through quarterly Geo Access reports. We also review and respond to the monthly DMS network adequacy analysis. In addition, network access issues are tracked from member disenrollment requests, member grievances, and out-of-network utilization reports. If a circumstance arises where a participating provider cannot be located, Anthem will negotiate a single case agreement with a non-participating provider to ensure access to care.

B. Remedial Action Taken

Anthem will continue to closely monitor access issues as they arise. We will identify an alternative participating provider or negotiate a single case agreement with a non-participating provider to ensure access to care.

Anthem has secured the following key provider agreements during the third quarter to increase member access, specifically for behavioral health services:
