<u>Spinal Muscular Atrophy</u>	<u>Spinraza, Zolgensma</u>	<u>\$300,000</u>	<u>10/1/2019 – 6/30/2020</u>

The Department for Medicaid Services, at its discretion, may choose to carve-out certain drug therapies and/or therapeutic drug classes from managed care to be covered by the fee-for-service pharmacy benefit or the fee-for-service medical benefit. Products moving from managed care to fee-for-service will be notified in writing to the managed care organizations thirty (30) days prior to the change in coverage.

Pursuant to the High Cost Drug Stop Loss Program (HCDSLPL) described in the Rate Certification, the Contractor shall participate in the HCDSLPL for applicable incurred claims effective 10/1/19. The HCDSLPL will reimburse the Contractor for costs above the Attachment Point for approved high costs drugs, submitted to DMS with the required documentation. Within 30 days of the incurred date, the Contractor shall provide an invoice documenting how much was paid to the provider, the documentation will include at minimum:

- The Medicaid member ID,
- The incurred date of the claim,
- The actual cost paid to the provider, gross of any rebates,
- The actual acquisition cost with the invoice amount from the manufacturer or buyer of the drug provided to the Contractor by the provider,
- The amount of any rebates received by the Contractor,
- The applicable NDC or J-Code identifying the drug,
- The quantity of the drug,
- Documentation of any additional rebates the Contractor expects to receive in the future.

Upon review of the documentation and the submitted encounter data, DMS will issue a payment to the Contractor for costs above the attachment point. The attachment point will be applicable on a per person, per SFY, and per condition basis. Each case will be carefully reviewed accounting for the time a member is with a Contractor, their history of treatment, and other factors.

The following drugs will be covered under the HCDSLPL:

<u>Condition</u>	<u>Drug(s)</u>	<u>Attachment Point</u>	<u>Effective Date</u>
<u>Spinal Muscular Atrophy</u>	<u>Spinraza, Zolgensma</u>	<u>\$300,000</u>	<u>10/1/19</u>

The Department for Medicaid Services, at its discretion, may choose to carve-out certain drug therapies and/or therapeutic drug classes from managed care to be covered by the fee-for-service pharmacy benefit or the fee-for-service medical benefit. Products moving from managed care to fee-for-service will be notified in writing to the managed care organizations thirty (30) days prior to the change in coverage.

**11.0 Rate Component**

**11.1 Calculation of Rates**

The Capitation Rate has been established in accordance with 42 C.F.R. 438. The Capitation Rates are attached as **Appendix A. “Capitation Payment Rates”** and shall be deemed incorporated into this Contract and shall be binding to the Contractor and the Department, subject to CMS’ approval. If CMS fails to approve a component of the rates, the capitation payment rates shall be adjusted to reflect that disapproval.

## 11.2 Rate Adjustments

Prospective adjustments to the rates may be required if there are mandated changes in Medicaid services to the managed care population provided through this Contract as a result of legislative, executive, regulatory, or judicial action. Changes applicable to this Contract mandated by state or federal legislation, or executive, regulatory or judicial mandates, shall take effect on the dates specified in the legislation or mandate. In the event of such changes, any rate adjustments shall be made through the Contract amendment process.

Contractors are free to negotiate provider rates and methodologies that are tied to Medicaid fee-for-service reimbursement, but such ties shall not be considered to have any direct impact on rates. Changes to fee-for-service provider reimbursement rates or methodologies which may be mandated by legislative, executive, regulatory or judicial action shall not be considered as an impact to the Contractor that must be considered in setting and/or adjusting rates unless those changes are explicitly required under this Contract.

## 11.3 Health Insurers' Premium Fee under the ACA

The health insurers' premium fee (HIF) under the ACA is due in September for the preceding calendar year premiums each year unless otherwise modified. If the Contractor is or will be subject to the health insurer's premium fee for the Capitation Payments being made under this or a previously existing Managed Care Contract with the Commonwealth, the Commonwealth shall compensate the Contractor for that fee and for any federal taxes resulting from such compensation. To facilitate this payment, the Contractor shall provide the Department with the Insurer's Premium Fee assessment received from the Federal Government and the pro rata portion attributed to the Contractor's Capitation Payments under its Contract(s) for the preceding calendar year if available. In addition, the Contractor shall provide a certified statement from its Chief Financial Officer as to the effective Federal Tax Rate paid for the past five tax periods. These shall be submitted to the Department no later than September 1 of each year that the Insurer's premium fee is imposed. This payment method is contingent upon receipt of federal financial participation for the payment and CMS approval.

## 11.4 Medical Loss Ratio Adjustment

Beginning with State Fiscal Year 2020~~17~~<sup>18</sup> and continuing annually on a state fiscal year basis thereafter, the Contractor shall calculate/report a MLR consistent with 42 CFR 438.8 for the Medicaid populations covered under the managed care contract.

The MLR reporting process will begin ten (10) months after the end of each State Fiscal Year. If the Contract with the Contractor is not renewed at any time or is terminated at any time, the Medical Loss Ratio and Annual Statement will reflect an appropriately reduced number of months of experience instead of the full twelve (12) months.

The MLR information shall be conveyed from the Contractor to the Commonwealth through an MLR Reporting Template developed by the Commonwealth. An actuary and an officer of the company shall attest to the accuracy of the MLR calculation and the information reported in the MLR Reporting Template. The MLR Reporting Template, and any other information the Contractor wants to submit for consideration, shall be due to the Commonwealth no later than twelve (12) months after the end of the reporting period.

The Commonwealth shall then determine, within thirty (30) days of receipt of all information from all Contractors if any remittance is to be collected and notify the Contractor in writing. The Contractor shall then have fifteen (15) days to review the Commonwealth's findings and remit payment to the Commonwealth.

The Contractor shall cooperate with the Department or its contractor by supplying all clarifications and answers to inquiries within the requested timeframe. If the Contractor fails to submit information or respond to a Department request regarding the MLR calculation within the requested timeframe, it shall be subject to a penalty of \$500.00 per day until the information or response is received.

The MLR calculation for each MCO shall be the ratio of the numerator (42 CFR 438.8(e)) to the denominator (42 CFR 438(f)). A remittance from the MCO to the State shall occur if the MLR is less than ninety (90) percent. The remittance amount shall be calculated as follows:

~~the total annual capitation payment made to the Contractor for the combined ACA and Non-ACA populations and their associated healthcare costs shall be evaluated against a ninety (90) percent Minimum Medical Loss Ratio Requirement to determine whether a Payment Adjustment is warranted (determined pursuant to **Appendix B "Medical Loss Ratio Calculation"**). A Payment Adjustment (premium refund) shall occur if:~~

- A. ~~The~~ if the Contractor has an MLR Medical Loss Ratio of less than ninety (90) percent but greater than or equal to eighty-six (86) percent. The Contractor shall submit a ~~remittance~~ Payment Adjustment (premium refund) to the Commonwealth for seventy-five (75) percent of the difference between the dollar amount corresponding to actual medical loss ratio and the dollar amount corresponding to a 90% Medical Loss Ratio.
- B. ~~The~~ if the Contractor has an MLR Medical Loss Ratio less than 86%. The Contractor shall submit a ~~remittance~~ Payment Adjustment (premium refund) to the Commonwealth for the sum of: (a) 75% of the difference between the dollar amount corresponding to an 86% medical loss ratio and the dollar amount corresponding to a 90% loss ratio; and (b) one hundred (100) percent of the difference between the actual countable medical expenses for the Contractor and the dollar amount corresponding to an 86% MLR medical loss ratio.

~~The adjustment process will begin ten (10) months after the end of each State Fiscal Year. If the Contract with the Contractor is not renewed at any time or is terminated at any time, the Medical Loss Ratio and Annual Statement will reflect an appropriately reduced number of months of experience instead of the full twelve (12) months.~~

Expenses must be allocated in accordance with 42 CFR 438.8(g) including the following provisions:

- Each Contractor expense must be included under only one type of expense, unless a portion of the expense fits under the definition of, or criteria for, one type of expense and the remainder fits into a different type of expense, in which case the expense must be prorated between types of expenses.
- Expenditures that benefit multiple contracts or populations, or contracts other than those being reported, must be reported on pro rata basis.
- Expense allocation must be based on a generally accepted accounting method that is expected to yield the most accurate results.
- Shared expenses, including expenses under the terms of a management contract, must be apportioned pro rata to the contract incurring the expense.
- Expenses that relate solely to the operation of a reporting entity, such as personnel costs associated with the adjusting and paying of claims, must be borne solely by the reporting entity and are not to be apportioned to the other entities.

A credibility adjustment will be added to the MLR in accordance with 42 CFR 438.8(h) should the calculated MLR not meet the credibility thresholds established in 42 CFR 438.8(h)(4).

The Contractor shall meet all the reporting requirements stipulated in 42 CFR 438.8 including but not limited to 42 CFR 438.8(k).

The Contractor must require any third party vendor providing claims adjudication activities to provide all underlying data associated with the required MLR reporting (42 CFR 438.8(k)) to the Contractor within 180 days of the end of the MLR reporting year or within 30 days of being requested by the Contractor, whichever comes sooner, regardless of current contractual limitations, to calculate and validate the accuracy of MLR reporting.

The Contractor shall be required to submit an updated MLR reporting template should a retroactive rate change occur after the Contractor has submitted the initial MLR template.

~~As part of the financial reconciliation process described above, the Contractor shall calculate and report an MLR in a format and manner prescribed by the Department for expenses directly attributed or allocated for both the ACA and non-ACA combined beginning with State Fiscal Year 2017 and continuing annually on a state fiscal year basis thereafter. The report shall be in compliance with 42 C.F.R. 438.8(k) and shall include an attestation from the Contractor's actuary to the accuracy of the calculation in accordance with the requirements of 42 C.F.R. 438.8. The Contractor shall require Subcontractors/vendors providing claim adjudication activities to provide all underlying data associated with MLR reporting to the Contractor within 180 days of the end of the MLR reporting period or within thirty (30) days of Contractor's request for such information. The report, and any other information the Contractor wants to submit for consideration, shall be due to the Commonwealth thirty (30) calendar days after the end of the 12-month period described above.~~

~~The Commonwealth shall then determine, within 30 days of receipt of all information from all Contractors, if any adjustment is to be collected and notify the Contractor in writing. The Contractor shall then have fifteen (15) days to review the Commonwealth's findings and remit payment to the Commonwealth. Items for reconciliation, including non-claim specific items, are further described in **Appendix B "Medical Loss Ratio Calculation"** of this Contract. The calculation of the Medical Loss Ratio shall comply with the requirements of 42 C.F.R. 438.8. The Contractor shall cooperate with the Department or its contractor by supplying all clarifications and answers to inquiries within the requested timeframe. If the Contractor fails to submit information or respond to a Department request regarding Medical Loss Ratio Calculation within the requested timeframe, it shall be subject to a penalty of \$500.00 per day until the information or response is received.~~

~~If the Department makes a retroactive change to a capitation payment in a MLR reporting year that has already been submitted, upon the Department's request, the Contractor shall recalculate the MLR for any year affected by the change and submit a new MLR report meeting the applicable requirements~~

## **11.5 Physician Incentive Plans**

A template for any compensation arrangement between the Contractor and a physician, or physician group as that term is defined in 42 C.F.R. § 417.479(c); or between the Contractor and any other Primary Care Providers within the meaning of this Contract; or between the Contractor and any other Subcontractor (or like entity) shall be submitted to the Department for approval prior to its implementation. Approval is preconditioned on compliance with all applicable federal and Commonwealth laws and regulations and subject to Section 4.4 **"Approval of Department."** The Contractor shall provide information to any Enrollee upon request about any Physician Incentive Plan and/or any payments to Provider made pursuant to an incentive arrangement under this Section to a provider as required by applicable state or federal law.

## 11.6 Contractor Provider Payments

If a Contractor includes a Physician Incentive Plan, the activities included shall comply with requirements set forth in 42 C.F.R. 422.208 and 42 C.F.R. 422.210. The Disclosures to the Department for Contractors with Physician Incentive Plans shall include the following:

- A. The Contractor shall report whether services not furnished by a physician/group are covered by the incentive plan. No further disclosure is required if the Physician Incentive Payment does not cover services not furnished by a physician/group.
- B. The Contractor shall report type of incentive arrangement, e.g. withhold, bonus, capitation.
- C. The Contractor shall report percent of withhold or bonus (if applicable).
- D. The Contractor shall report panel size, and if patients are pooled, the approved method used.
- E. If the physician/group is at substantial financial risk, the Contractor shall report proof the physician/group has adequate stop loss coverage, including amount and type of stop-loss.

## 11.7 Co-Pays

If Contractor implements co-pays, those co-pays shall not exceed the Department's Fee for Service co-pays. The Contractor shall report on the Enrollees usage and co-payments, including recognition of the accumulation indicators for maximum out-of-pocket co-payments and cost sharing capitations per period that are shared through system files transmissions. The co-payment requirements for the Medicaid Program can be found in 907 KAR 1:604. Any cost sharing imposed by the Contractor shall be in accordance with 42 C.F.R. §§447.50 through 447.82.

Whether the Contractor imposes such co-pays or not, the actuarial value of the co-pays will be reflected in the Capitation Rate.

The Department may, at its discretion, mandate the imposition or collection of co-pays with at least ninety (90) days written notice to the Contractor.

## 12.0 Risk Adjustments

### 12.1 Purpose for Risk Adjustments

Risk adjustment uses information on an Enrollee's medical conditions, as reported in claims data, to predict health care costs and adjust payments to MCOs. Risk adjustment helps ensure payments to MCOs are more equitable and mitigates the impact of selection bias, thus protecting MCO solvency and reducing incentives for plans to avoid high-risk individuals. Risk adjustment is designed to be revenue neutral to the State.

### 12.2 Risk Adjustment Method

The capitation rates will be risk-adjusted on a prospective basis as described below:

#### A. Risk Adjustment Model

The CDPS + Rx model will be used. In general, the most recent available version of the model will be applied, though there may be circumstances in which an older version is preferred. Concurrent weights will be used to develop the risk profiles of Enrollees.

#### B. Calibration of Risk Weights

The Department shall consider implementing Kentucky-specific weights but is under no obligation to

incorporate revised risk weights during this contract period.

~~The Department shall phase in the calibration of risk weights over a fifteen (15) month period, with the full implementation of Kentucky-specific weights to be initiated on October 1, 2019.~~

B.C. Rate Cells excluded from Risk Adjustment

Dual Eligible rate cells are excluded from the risk adjustment calculation. Additional rate cells may also be excluded depending on changes in rate cell structure. Examples may include delivery payment and newborns.

C.D. Minimum Eligibility to Receive Risk Score

The minimum length of eligibility, which eligibility need not be continuous, during the risk analysis period in order for risk score to be considered in the MCO risk adjustment calculation is three months. Exceptions may apply for newborns and pregnant women.

Enrollees who do not receive a risk score shall be assigned a risk score that reflects the average risk for their rate cell, region, and MCO. Risk scores for these enrollees may be adjusted to reflect the individuals' demographic scores.

D.E. Risk Score Calculation

Twelve months of managed care encounter and fee-for-service claims data, excluding laboratory and x-ray claims, will be run through the risk model to calculate a risk score for each individual. Months of Medicaid eligibility during the 12-month analysis period are also calculated. Individual risk scores will be attributed to each MCO based on the MCO in which the person is enrolled as of a specific point in time. Raw risk scores and Enrollee months will be aggregated by rate cell, and attributed to the MCO, and relative risk adjustment scores will be calculated.

E.F. Payment Adjustment

Payment adjustments will be calculated by applying the risk adjustment scores to the negotiated capitation rates by rate cell.

G. Provider Settlements (Supplemental Pass-Through Payments)

Since MCO provider settlement obligations are a fixed amount each month, the per capita value of the settlement obligations is removed from each MCO's contracted rates prior to applying risk adjustment, and are added back in after applying risk adjustment. Revenue received for directed payments to providers may also be removed from each MCO's contracted rates prior to applying risk adjustment and added back in after applying risk adjustment.

F.H. Timing and Frequency

In general, 12 months of recent, reasonably complete data will be analyzed to develop the risk scores. Risk measurement periods will be set to provide a reasonable amount of claims runout. The Department will make updates to the risk scores at least twice per state fiscal year, either in the form of a full Enrollee re-score or an update for changes in Enrollee distributions, with all calculations including a budget neutrality adjustment.

### **13.0 Contractor's Financial Security Obligations**

#### **13.1 Solvency Requirements and Protections**

The Contractor shall be subject to requirements contained in KRS Chapter 304 and related administrative regulations regarding protection against insolvency and risk-based capital requirements. In addition, pursuant to KRS 304.3-125, the Commissioner has authority to require additional capital and surplus if it appears that an insurer is in a financially hazardous condition.

The Contractor shall cover continuation of services to Enrollees during insolvency, for the duration of the period for which payment has been made, as well as for inpatient admissions up until discharge.

In the event of the Contractor's insolvency, the Contractor shall not hold its Enrollees liable, except in instances of Enrollee fraud:

- A. For the Contractor's debts;
- B. For the covered services provided to the Enrollee, for which the Department does not pay the Contractor;
- C. For the covered services provided to the Enrollee for which the Department or the Contractor does not pay the individual or health care provider that furnishes the services under a contractual, referral, or other arrangement; and
- D. For covered services furnished under a contract, referral, or other arrangement, to the extent that those payments are in excess of the amount that the Enrollee would owe if the Contractor provided the services directly.

#### **13.2 Contractor Indemnity**

In no event shall the Commonwealth, FAC, the Department or Enrollee be liable for the payment of any debt or fulfillment of any obligation of the Contractor or any Subcontractor to any Subcontractor, supplier, Out-of-Network Provider or any other party, for any reason whatsoever, including the insolvency of the Contractor or any Subcontractor. The Contractor agrees that any Subcontract will contain a hold harmless provision.

The Contractor shall indemnify, defend, save and hold harmless the Commonwealth, FAC, the Department, its officers, agents, and employees (collectively, the "Indemnified Parties") from all claims, demands, liabilities, suits, judgments, or damages, including court costs and reasonable attorney fees made or asserted against or assessed to the Indemnified Parties (collectively the "Losses"), arising out of or connected in any way with this Contract or the performance or nonperformance by the Contractor, its officers, agents, employees; and suppliers, Subcontractors, or Providers, including without limitation any claim attributable to:

- A. The improper performance of any service, or improper provision of any materials or supplies, irrespective of whether the Department knew or should have known such service, supplies or materials were improper or defective;
- B. The erroneous or negligent acts or omissions, including without limitation, disregard of federal or Commonwealth law or regulations, irrespective of whether the Department knew or should have known of such erroneous or negligent acts;
- C. The publication, translation, reproduction, delivery, collection, data processing, use, or disposition of any information to which access is obtained pursuant to this Contract in a manner not authorized by this Contract or by federal or Commonwealth law or regulations, irrespective of whether the Department knew or should have known of such publication, translation, reproduction, delivery, collection, data processing, use, or disposition; or
- D. Any failure to observe federal or Commonwealth law or regulations, including but not limited

to, insurance and labor laws, irrespective of whether the Department knew or should have known of such failure.

Upon receiving notice, the Department shall give the Contractor written notice of any claim made against the Contractor for which the Indemnified Parties are entitled to indemnification, so that the Contractor shall have the opportunity to appear and defend such claim. The Indemnified Parties shall have the right to intervene in any proceeding or negotiation respecting a claim and to procure independent representation, all at the sole cost and expense of the Indemnified Parties. Under no circumstances shall the Contractor be deemed to have the right to represent the Commonwealth in any legal matter without express written permission from FAC. Notwithstanding the above, Contractor shall have no obligation to indemnify the Indemnified Parties for any losses due to the negligent acts or omissions or intentional misconduct of the Indemnified Parties.

### **13.3 Insurance**

The Contractor shall secure and maintain during the entire term of the Contract, and for any additional periods following termination of the Contract during which it is obligated to perform any obligations pursuant to this Contract, original, prepaid policies of insurance, in amounts, form and substance satisfactory to FAC, and non-cancelable except upon thirty (30) days prior written notice to FAC, providing coverage for property damage (all risks), business interruption, comprehensive general liability, motor vehicles, workers' compensation and such additional coverage as is reasonable or customary for the conduct of the Contractor's business in the Commonwealth.

### **13.4 Advances and Loans**

The Contractor shall not, without thirty (30) days prior written notice to and approval by the Department, make any advances to a related party or Subcontractor. The Contractor shall not, without similar thirty (30) day prior written notice and approval, make any loan or loan guarantee to any entity, including another fund or line of business within its organization. Such approval is subject to Section 4.4 "**Approval of Department.**" Written notice is to be submitted to the Department and if applicable to DOI. The prohibition on advances to Subcontractors contained in this subsection shall not apply to Capitation Payments or payments made by the Contractor to Contractor's Network for provision of Covered Services.

### **13.5 Provider Risks**

If a Provider assumes substantial financial risk for contracted services, the Contractor shall ensure that the Provider has adequate stop-loss protection. The Contractor shall provide the Department proof the Provider has adequate stop-loss coverage, including an amount and type of stop-loss.

## **14.0 Third Party Resources**

### **14.1 Coordination of Benefits (COB)**

The Contractor shall actively pursue, collect and retain all monies available from all available resources for services to Enrollees under this Contract except where the amount of reimbursement the Contractor can reasonably expect to receive is less than estimated cost of recovery.

Cost effectiveness of recovery is determined by, but not limited to, time, effort, and capital outlay required in performing the activity. The Contractor shall specify the threshold amount or other guidelines used in determining whether to seek reimbursement from a liable third party, or describe the process by which the Contractor determines seeking reimbursement would not be cost effective. The Contractor shall provide the guidelines to the Department for review and approval.

COB collections are the responsibility of the Contractor or its Subcontractors. Subcontractors shall report COB information to the Contractor. Contractor and Subcontractors shall not pursue collection from the Enrollee but directly from the third party payer. The Contractor shall only recoup payments to providers if the third party payer is Medicare. Access to Covered Services shall not be restricted due to COB collection. The Contractor will be subject to penalty should any Enrollee be denied access to Covered Services due to COB collection.

The Contractor shall maintain records of all COB collections. The Contractor shall demonstrate that appropriate collection efforts and appropriate recovery actions were pursued. The Department has the right to review all billing histories and other data related to COB activities for Enrollees. The Contractor shall seek information on other available resources from all Enrollees.

In order to comply with CMS reporting requirements, the Contractor shall submit a monthly COB Report for all Enrollee activity which the Department or its agent shall audit no less than every six (6) months. Additionally, Contractor shall submit a report that includes subrogation collections from auto, homeowners, or malpractice insurance, etc.

#### **14.2 Third Party Liability**

By law, Medicaid is the payer of last resort and as a result shall be used as a source of payment for covered services only after all other sources of payment have been exhausted. If an Enrollee has resources available for payment of expenses associated with the provision of Covered Services, other than those which are exempt under Title XIX of the Social Security Act, such resources are primary to the coverage provided by the Contractor, pursuant to this Contract, and must be exhausted prior to payment by the Contractor. The Capitation Rate set forth in this Contract has been adjusted to account for the primary liability of third parties to pay such expenses. The Contractor shall be responsible for determining the legal liability of third parties to pay for services rendered to Enrollees pursuant to this Contract. The Contractor shall maintain a current TPL Resource File which contains the Enrollee's current TPL information including coverage that has ended for the Enrollee. All funds recovered by the Contractor from Third Party Resources shall be treated as income to the Contractor to be used for eligible expenses under this Contract. Except as provided in Section 42, the Contractor and all Providers in the Contractor's Network are prohibited from directly receiving payment or any type of compensation from the Enrollee, except for Enrollee co-pays or deductibles from Enrollees for providing Covered Services. Enrollee co-pay, co-insurance or deductible amounts cannot exceed amounts specified in 907 KAR 1:604. Co-pays, co-insurance or deductible amounts may be increased only with the approval of the Department.

42 C.F.R. 433.138 requires that as a condition of Medicaid eligibility each Enrollee will be required to:

- A. Assign, in writing, his/her rights to the Contractor for any medical support or other Third Party Payments for medical services paid for by the Contractor; and
- B. Cooperate in identifying and providing information to assist the Contractor in pursuing third parties that may be liable to pay for care and services.

42 C.F.R. 433.138 requires the Contractor be responsible for actively seeking and identifying third party resources, i.e. health or casualty insurance, liability insurance and attorneys retained for tort action, through contact with the Enrollees, participating providers, and the Medicaid Agency. However, the Commonwealth may direct the Contractor to refrain from actively seeking and identifying third party resources for services that are covered only by the Medicaid program, as identified by the Department.

42 C.F.R. 433.139 requires the Contractor be responsible to assure that the Medicaid Program is the payer of last resort when other Third Party Resources are available to cover the costs of medical services provided to Medicaid Enrollees. When the Contractor is aware of other Third Party Resources, the Contractor shall avoid payment by “cost avoiding” (denying) the Claim and redirecting the provider to bill the other Third Party Resource as a primary payer. If the Contractor does not become aware of another Third Party Resource until after the payment for service, the Contractor is responsible to seek recovery from the Third Party Resource on a post-payment basis. See **Appendix C. “Third Party Payments/Coordination of Benefits.”** The Department or its agent will audit the Contractor’s Third Party practices and collections at least every six (6) months.

The Contractor shall respond to Enrollee and provider requests for COB or TPL updates according to the following timelines:

- A. For urgent requests, within forty-eight (48) hours; or
- B. For routine requests, within three (3) business days.

## 15.0 Management Information System

### 15.1 Contractor MIS

The Contractor shall maintain a Management Information System (MIS) that will provide support for all aspects of a managed care operation to include the following subsystems: Enrollee, third party liability, provider, reference, encounter/Claims processing, financial, utilization data/quality improvement and Surveillance Utilization Review Subsystem. The Contractor will also be required to demonstrate sufficient analysis and interface capacities. The Contractor’s MIS shall ensure medical information will be kept confidential at all times including but not limited to when data is moving and at rest, through security protocol, especially as that information relates to personal identifiers and sensitive services. The Contractor shall comply with 42 C.F.R. 438.242.

The Contractor shall provide such information in accordance with the format and file specifications for all data elements as specified in **Appendix D. “Management Information Systems Requirements”** hereto, and as may be amended from time to time.

The execution of the BAA is required prior to data exchanges being implemented.

The Contractor shall be responsible for meeting all system requirements, including but not limited to required testing, as directed by the Department. Upon request by the Department, the Contractor’s participation in Joint Application Development sessions for system or policy changes shall be required.

At least ten days prior to implementation, the Contractor shall notify the Department of any significant changes to the system that may impact the integrity of the data, including such changes as new Claims processing software, new Claims processing vendors and significant changes in personnel.

## 15.2 Contractor MIS Requirements

The Department's MIS system utilizes eight (8) subsystems to carry out the functions of the Medicaid program. The Contractor is not required to have actual subsystems as listed below, provided the requirements are met in other ways which may be mapped to the subsystem concept. The Contractor shall have the capacity to capture necessary data and provide it in formats and files that are consistent with the Commonwealth's functional subsystems as described below. The Contractor shall maintain flexibility to accommodate the Department's needs if a new system is implemented by the Commonwealth. These subsystems focus on the individual systems functions or capabilities which provide support for the following areas:

- A. Enrollee Subsystem;
- B. Third Party Liability (TPL);

- D. Reference Subsystem;
- E. Claims Processing Subsystem (to include Encounter Data);
- F. Financial Subsystem;

- F. Resolving all reporting errors in transaction submission and reconciliation; and
- G. Successfully transmitting required data to the Department.

## 15.3 Interface Capability

The interface subsystems support incoming and outgoing data from other organizations and allow the Contractor to maintain Enrollee Enrollment information and Enrollee-related information. It might include information from secondary sources to allow the tracking of population outcome data or other population information. At a minimum, there will be a Provider, Enrollee, Encounter Record and capitation interface. Specific requirements for the interface subsystem shall include such items as: defined data elements, formats, and file layouts including input and output job schedule with backend reporting and data reconciliation.

## 15.4 Access to Contractor's MIS

The Contractor shall provide the Department with log-in credentials in order to access Contractor's claims and customer service systems on a read-only basis at the Contractor's primary place of business during normal business hours. The Contractor shall provide the Department access to a locked space and office security credentials for use during business hours. All access under this Section shall comply with HIPAA's minimum necessary standards and any other applicable Commonwealth or federal law.

## 16.0 Encounter Data

### 16.1 Encounter Data Submission

The Contractor must ensure that the chosen topic areas for PIP's are not limited to only recurring, easily measured subsets of the health care needs of its Enrollees. The selected PIPs topics must consider: the prevalence of a condition in the enrolled population; the need(s) for a specific service(s); Enrollee demographic characteristics and health risks; and the interest of Enrollees in the aspect of care/services to be addressed.

The Contractor shall continuously monitor its own performance on a variety of dimensions of care and services for Enrollees, identify areas for potential improvement, carry out individual PIPs, undertake system interventions to improve care and services, and monitor the effectiveness of those interventions. The Contractor shall develop and implement PIPs to address aspects of clinical care and non-clinical services and are expected to have a positive effect on health outcomes and Enrollee satisfaction. While undertaking a PIP, no specific payments shall be made directly or indirectly to a provider or provider group as an inducement to reduce or limit medically necessary services furnished to an Enrollee. Performance reporting shall utilize standardized indicators appropriate to the performance improvement area. Minimum performance levels shall be specified for each performance improvement area, using standards derived from regional or national norms or from norms established by an appropriate practice organization. The norms and/or goals shall be pre-determined at the commencement of each performance improvement goal and the Contractor shall be monitored for achievement of demonstrable and/or sustained improvement.

The Contractor shall validate if improvements were sustained through periodic audits of the relevant data and maintenance of the interventions that resulted in improvement. The timeframes for reporting:

## **24.5 Selection Procedures for Foster Children, Adoption and Guardianship**

DCBS and DAIL staff are authorized to apply for Medicaid on behalf of foster children (DCBS) and guardianship clients (DAIL) through an expedited application process agreed on by the Department and DCBS and DAIL.

Enrollees who are children in foster care and adult guardianship clients may move frequently from one placement to another. The parties agree that the following procedures will be used to determine the residence of these Enrollees for the purpose of maintaining -a PCP selection.

**Foster Children.** For Enrollees who are in foster care, assignment will be based on where the foster child's DCBS case is located (which is usually the Medicaid Region where the child's family of origin resides). It is the responsibility of the DCBS to notify the Contractor of a foster child's change in placement.

**Adopted Children.** For Enrollees who have been adopted, the Enrollee's Medicaid Region of residence shall be determined by the adoptive parent's official residence.

**Adult Guardianship.** For Enrollees who are in adult guardianship status, the county of residence shall be where the Enrollee is living. Brief absences, such as for respite care or hospitalization, not to exceed one month, do not change the county of residence.

The DCBS shall notify the Department when an Enrollee's case is transferred to another area. The Department will include notice of the transfer in the HIPAA 834.

For former foster children under the age of 26 covered by the Expansion of Medicaid by the ACA, the county of residence shall be where the Enrollee is living.

## **24.6 Primary Care Provider (PCP) Changes**

The Contractor shall have written policies and procedures for allowing Enrollees to select or be assigned to a new PCP when such a change is mutually agreed to by the Contractor and Enrollee, when a PCP is terminated from coverage, or when a PCP change is as part of the resolution to an Appeal. The Contractor shall allow Enrollees to select another PCP within ten (10) days of the approved change or the Contractor shall assign a PCP to the Enrollee if a selection is not made within the time frame. Pursuant to 42 C.F.R. 438.52, for Enrollees in a designated rural area in which only the Contractor provides services, the restrictions on changing PCPs cannot be more restrictive than for Enrollee Disenrollment as outlined in Section 27.3 "**Enrollee Request for Disenrollment.**"

An Enrollee shall have the right to change the PCP ninety (90) days after the initial assignment and once a year regardless of reason, and at any time for any reason as approved by the Enrollee's Contractor. The Enrollee may also change the PCP if there has been a temporary loss of eligibility and this loss caused the Enrollee to miss the annual opportunity, if Medicaid or Medicare imposes sanctions on the PCP, or if the Enrollee and/or the PCP are no longer located in the same Medicaid Region.

The Enrollee shall also have the right to change the PCP at any time for cause. Good cause includes the Enrollee was denied access to needed medical services; the Enrollee received poor quality of care; and the Enrollee does not have access to providers qualified to treat his or her health care needs. If the Contractor approves the Enrollee's request, the assignment will occur no later than the first day of the second month following the month of the request.

PCPs shall have the right to request an Enrollee's Disenrollment from his/her practice and be reassigned to a new PCP in the following circumstances: incompatibility of the PCP/patient relationship; Enrollee has not utilized a service within one year of enrollment in the PCP's practice and the PCP has documented unsuccessful contact attempts by mail and phone on at least six (6) separate occasions during the year; or inability to meet the medical needs of the Enrollee.

PCPs shall not have the right to request an Enrollee's Disenrollment from their practice for the following: a change in the Enrollee's health status or need for treatment; an Enrollee's utilization of medical services; an Enrollee's diminished mental capacity; or, disruptive behavior that results from the Enrollee's special health care needs unless the behavior impairs the ability of the PCP to furnish services to the Enrollee or others. Transfer requests shall not be based on race, color, national origin, handicap, age or gender. The Contractor shall have authority to approve all transfers.

The initial PCP shall serve until the new PCP begins serving the Enrollee, barring ethical or legal issues. The Enrollee has the right to file a grievance regarding such a transfer.

The PCP shall make the change for request in writing. Enrollee may request a PCP change in writing, face to face or via telephone.

If the Contractor extends the timeline for an appeal not at the request of the Enrollee, the Contractor shall make reasonable efforts to give the Enrollee prompt oral notice of the delay and shall give the Enrollee written notice, within two (2) calendar days, of the reason for the decision to extend the timeframe and inform the Enrollee of the right to file another grievance if he or she disagrees with that decision. Additionally, if the Contractor fails to resolve an appeal within this 30-day timeframe, the Enrollee is deemed to have exhausted the Contractor's internal appeal process and may initiate a State Fair Hearing;
- H. Ensure individuals and subordinates of individuals who make decisions on grievances and appeals were not involved in any prior level of review;
- I. If the grievance or appeal involves a Medical Necessity determination, denial or expedited resolution or clinical issue, ensure that the grievance and appeal is heard by health care professionals who have the appropriate clinical expertise;

- R. Provide that oral inquiries seeking to appeal an adverse benefit determination are treated as appeals to establish the earliest possible filing date for the appeal and must be confirmed in writing;
- S. Not require an Enrollee or an Enrollee's representative to follow an oral request for an expedited appeal with a written request;
- T. Inform the Enrollee of the limited time to present evidence and allegations of fact or law in the case of an expedited appeal;
- U. Acknowledge receipt of each grievance and appeal;

If the Contractor continues or reinstates the Enrollee's benefits while the appeal is pending, the benefits must be continued until one of the following occurs:

- A. The Enrollee withdraws the appeal or request for a State Fair Hearing;
- B. The Enrollee does not request a State Fair Hearing with continuation of benefits within ten (10) days from the date the Contractor mails an adverse appeal decision; or

All grievance or appeal files shall be maintained in a secure and designated area and be accessible to the Department, its designee, or CMS upon request, for review. Grievance or appeal files shall be retained for ten (10) years following the final decision by the Contractor, HSD, an administrative law judge, judicial appeal, or closure of a file, whichever occurs later.

The Contractor shall have procedures for assuring that files contain sufficient information, as outlined at 42 C.F.R. 438.416, to identify the grievance or appeal, the date it was received, the nature of the grievance or appeal, notice to the Enrollee of receipt of the grievance or appeal, all correspondence between the Contractor and the Enrollee, the date the grievance or appeal is resolved, the resolution, the notices of final decision to the Enrollee, and all other pertinent information. An Enrollee may request a State Fair Hearing for an adverse benefit determination taken by the Contractor that denies or limits an authorization of a requested service or reduces, suspends, or terminates a previously authorized service. The standard timeframe for reaching a decision in a State Fair Hearing is found in KRS Chapter 13B.

Failure of the Contractor to comply with the State Fair Hearing requirements of the Commonwealth and federal Medicaid law in regard to an adverse benefit determination made by the Contractor or to appear and present evidence shall result in an automatic ruling in favor of the Enrollee.

The Contractor shall authorize or provide the disputed services promptly and as expeditiously as the Enrollee's health condition requires, but not later than 72 hours from the date the Contractor receives notice reversing the determination, if the services were not furnished while the appeal was pending and the State Fair Hearing results in a decision to reverse the Contractor's decision to deny, limit, or delay services. The Contractor shall pay for disputed services received by the Enrollee while the appeal was pending and the State Fair Hearing reverses a decision to deny authorization of the services.

Face to face marketing by the Contractor directed at Enrollees or potential Enrollees is strictly prohibited. In developing marketing materials such as written brochures, fact sheets, and posters, the Contractor shall abide by the following rules:

- A. No marketing materials shall be disseminated through the Contractor's Provider network. If the Contractor supplies branded health education materials to its Provider network, distribution shall be limited to the Contractor's Enrollees and not available to those visiting the Provider's facility. Such branded health education materials shall not provide enrollment or disenrollment information. - F. Threaten, coerce or make untruthful or misleading statements to potential Enrollees or Enrollees regarding the merits of enrollment with the Contractor or any other plan.

## **27.0 Enrollee Eligibility, Enrollment and Disenrollment**

### **27.1 Eligibility Determination**

The Department shall have the exclusive right to determine an individual's eligibility for the Medicaid Program and eligibility to become an Enrollee of the Contractor. Such determination shall be final and is not subject to review or appeal by the Contractor. Nothing in this section prevents the Contractor from providing the Department with information the Contractor believes indicates that the Enrollee's eligibility has changed.

### **27.2 Assignments of New Enrollees**

Due consideration shall be given to the following when making assignments for Enrollees who do not select an MCO when enrolling:

- A. Keeping the family together - Assign Enrollees of a family to the same MCO.
- B. Continuity of Care - Preserve the family's pre-established relationship with providers to the extent possible.
- C. Robust MCO Competition - equitable distribution of the participants among the MCOs.

In order to ensure equitable distribution of Enrollees there will be a MCO maximum threshold and a minimum threshold assigned. Those thresholds shall be developed prior to July 1, 2015, the start date of this Contract. If the Contractor was participating in the Managed Care Program as an MCO prior to entering into this Contract, its current enrollment shall not be reassigned on July 1, 2015. However, the thresholds developed for July 1, 2015 shall apply.

After June 30, 2015, the Department shall follow the steps below for the purpose of equitable distribution.

- A. All managed care Enrollees of a Medicaid family will be assigned to the same MCO.
- B. Continuity of Care – The Department will use Claims history to determine the most recent, regularly visited primary care physicians (PCP). The top three PCP providers for each Enrollee shall be considered. This determination will be based on the last 12 months of history with relative weights based on the time period of the visits. The weight shall be 1 thru 3 with 3 being assigned to visits in the most recent four months; 1 being assigned to visits in the earliest four-month period, and 2 being assigned to the visits in the middle four-month period. Next, each Enrollee's top three PCP Providers shall be matched against the provider network

of the Medicaid Region's MCOs and a "MCO network suitability score" shall be assigned to each family Enrollee.

- C. In order to give due consideration to children and individuals with specialized health care needs it is important that all family Enrollees are not treated equally in developing the family unit's overall MCO score. The ratio between the numbers of children eligible for managed care versus the number of adults eligible for managed care is almost 1.9 to 1. Therefore, the "MCO network suitability score" for a child shall be further multiplied by a factor of 1.9. Similarly, individuals with special health care needs (identified as SSI Adults, SSI Children, and Foster Care) shall have their score adjusted by a factor of 1.6 which represents the relative cost of these individuals relative to the cost of adults over 18. In the case of SSI Children and Foster Care both the child factor (1.9) and the special needs factor (1.6) shall be applied. After these adjustments, each family Enrollee's individual "MCO network suitability score" shall be added together to determine the family unit's "MCO network suitability score"
- D. The family shall be assigned to the MCO with the highest "MCO network suitability score" unless that MCO has exceeded its maximum threshold. Two maximum thresholds are defined for each Medicaid Region: Families and Children, and Others. If the family unit has both categories of individuals, then both thresholds shall apply. In a scenario where the applicable threshold(s) are exceeded, the family shall be assigned to the MCO with next highest score. If a tie exists between two eligible MCOs, see the following step used.
- E. In scenarios where multiple eligible MCOs have the same score for the family "MCO network suitability score", the MCOs which are under the minimum threshold shall be given preference, until the MCO reaches the minimum threshold.
- F. In scenarios where multiple MCOs have the same score for the family "MCO network suitability score" and all MCOs are above the minimum threshold, the family shall be assigned on a rotation basis.

### **27.3 General Enrollment Provisions**

The Department shall notify the Contractor of the Enrollees to be enrolled with the Contractor. The Contractor shall provide for a continuous open enrollment period throughout the term of the Contract for newly eligible Enrollees. The Contractor shall maintain staffing and service delivery network necessary to adhere to minimum standards for Covered Services.

Enrollees may voluntarily choose a Contractor. Enrollees who do not select a Contractor shall be assigned to a Contractor by the Department. The Department reserves the right to re-evaluate and modify the auto-assignment algorithm anytime for any reason, provided however, the Department shall provide written notice to Contractor of any modification of the auto-assignment algorithm before the implementation of such modification.

The Department may develop specific limitations regarding Enrollee enrollment with the Contractor to take into consideration quality, cost, competition and adverse selection.

Enrollment begins at 12:01 a.m. on the first day of the first calendar month for which eligibility is indicated on the eligibility file (HIPAA 834) transmitted to the Contractor, and shall remain until the Enrollee is disenrolled in accordance with disenrollment provisions of this Contract. Applicable state and federal law determines Membership for newborns. Membership begins on day of application for Enrollees who are presumptive eligible.

The Contractor shall be responsible for the provision and costs of all Covered Services beginning on or after the beginning date of Enrollment. In the event an Enrollee entering is receiving Medically Necessary Covered Services the day before Enrollment, the Contractor shall be responsible for the costs of continuation of such Medically Necessary Covered Services, without any form of prior approval and without regard to whether such services are being provided within or outside the Contractor's Network until such time as the Contractor can reasonably transfer the Enrollee to a service and/or Network Provider without impeding service delivery that might be harmful to the Enrollee's health.

### **27.7 Enrollee Eligibility File (HIPAA 834)**

The Department shall electronically transmit to the Contractor a HIPAA 834 transaction file daily to indicate new, terminated and changed Enrollees and a monthly listing of all Contractor's Enrollees. The Department shall submit with the monthly HIPAA 834 transaction file, a reconciliation of enrollment information pursuant to policies and procedures determined by the Department. The Department shall send the first enrollment data to Contractor in HIPAA 834 format.

The Contractor's Network shall include Providers from throughout the provider community. The Contractor shall comply with the any willing provider statute as described in 907 KAR 1:672 or as amended and KRS 304.17A-270. Part 438 to provide Enrollees with continuity of care and choice. The Contractor shall enroll at least one (1) Federally Qualified Health Centers (FQHCs) and one (1) Rural Health Clinic into its network for each Medicaid Region where available and at least one teaching hospital.

The Department will continue to enroll hospitals, nursing facilities, home health agencies, independent laboratories, preventive health care providers, FQHC, RHC and hospices. The Medicaid provider file will be available for review by the Contractor so that the Contractor can ascertain the status of a Provider with the Medicaid Program and the provider number assigned by the Kentucky Medicaid Program.

Providers performing laboratory tests are required to be certified under the CLIA. The Department will continue to update the provider file with CLIA information from the CASPER/QIES file formally known as OSCAR provided by the Centers for Medicare & Medicaid Services for all appropriate providers. This will make laboratory certification information available to the Contractor on the Medicaid provider file.

The Contractor shall have written policies and procedures regarding the selection and retention of Contractor's Network. The policies and procedures regarding selection and retention must not discriminate against providers who service high-risk populations or who specialize in conditions that require costly treatment or based upon that Provider's licensure or certification.

However, it is not intended, nor shall it serve as a substitute for the more detailed information relating to Covered Services which is contained in the State Medicaid Plan, applicable administrative regulations governing Kentucky Medicaid services and individual Medicaid program services manuals incorporated by reference in the administrative regulations.

After the Execution Date, to the extent a new or expanded Covered Service is added by the Department to Contractor's responsibilities under this Contract, ("New Covered Service") the financial impact of such New Covered Service will be evaluated from an actuarial perspective by the Department, and Capitation Rates to be paid to Contractor hereunder will be adjusted, if necessary, accordingly to Sections 11.2 "**Rate Adjustments**" and 41.3 "**Amendments**". The determination that a Covered Service is a New Covered Service is at the discretion of the Department. At least ninety (90) days before the effective date of the addition of a New Covered Service, the Department will provide written notice to Contractor of any such New Covered Service and any adjustment to the Capitation Rates herein as a result of such New Covered Service. This notice shall include: (i) an explanation of the New Covered Service; (ii) the amount of any adjustment to Capitation Rates herein as a result of such New Covered Service; and (iii) the methodology for any such adjustment.

The Contractor may provide, or arrange to provide, services in addition to the services described above provided quality and access are not diminished, the services are Medically Necessary health services and cost-effective. The cost for these additional services shall not be included in the Capitation Rate. The Contractor shall notify and obtain approval from Department for any new

services prior to implementation. The Contractor shall notify the Department by submitting a proposed plan for additional services and specify the level of services in the proposal.

For any Medicaid service provided by the Contractor that requires the completion of a specific form (e.g., hospice, sterilization, hysterectomy, or abortion), the form shall be completed according to the appropriate Kentucky Administrative Regulation (KAR). The Contractor shall require its Subcontractor or Provider to retain the form in the event of audit and a copy shall be submitted to the Department upon request.

The Contractor shall not prohibit or restrict a Provider from advising an Enrollee about his or her health status, medical care, or treatment, regardless of whether benefits for such care are provided under the Contract, if the Provider is acting within the lawful scope of practice.

If the Contractor is unable to provide within its network necessary **Covered Services**, it shall timely and adequately cover these services out of network for the Enrollee for as long as Contractor is unable to provide the services in accordance with 42 C.F.R. 438.206. The Contractor shall coordinate with out-of-network providers with respect to payment. The Contractor will ensure that cost to the Enrollee is no greater than it would be if the services were provided within the Contractor's Network.

An Enrollee who has received Prior Authorization from the Contractor for referral to a specialist physician or for inpatient care shall be allowed to choose from among all the available specialists and hospitals within the Contractor's Network, to the extent reasonable and appropriate.

### **31.2 Direct Access Services**

The Contractor shall make Covered Services available and accessible to Enrollees as specified in this Contract. The Contractor shall routinely evaluate Out-of-Network utilization and shall contact high volume providers to determine if they are qualified and interested in enrolling in the Contractor's network. If so, the Contractor shall enroll the provider as soon as the necessary procedures have been completed. When an Enrollee wishes to receive a direct access service or receives a direct access service from an Out-of-Network Provider, the Contractor shall contact the provider to determine if it is qualified and interested in enrolling in the network. If so, the Contractor shall enroll the provider as soon as the necessary enrollment procedures have been completed.

The Contractor shall ensure direct access and may not restrict the choice of a qualified provider by an Enrollee for the following services within the Contractor's Network:

- A. Primary care vision services, including the fitting of eye-glasses, provided by ophthalmologists, optometrists and opticians;
- B. Primary care dental and oral surgery services and evaluations by orthodontists and prosthodontists;
- C. Voluntary family planning in accordance with federal and state laws and judicial opinion;
- D. Maternity care for Enrollees under eighteen (18) years of age;
- E. immunizations to Enrollees under twenty-one (21) years of age;

The Contractor shall ensure direct access and may not restrict the Enrollee's access to services in accordance with 42 C.F.R. 438 and applicable state statutes and regulations.

### **31.3 Second Opinions**

At the Enrollee's request, the Contractor shall provide for a second opinion related to surgical procedures and diagnosis and treatment of complex and/or chronic conditions, within the Contractor's network, or arrange for the Enrollee to obtain a second opinion outside the network without cost to the Enrollee. The Contractor shall inform the Enrollee, in writing, at the time of Enrollment of the Enrollee's right to request a second opinion.

### **31.4 Billing Enrollees for Covered Services**

The Contractor and its Providers and Subcontractors shall not bill an Enrollee for Medically Necessary Covered Services with the exception of applicable co-pays or other cost sharing requirements provided under this Contract. Any Provider who knowingly and willfully bills an Enrollee for a Medicaid Covered Service shall be guilty of a felony and upon conviction shall be fined, imprisoned, or both, as defined in Section 1128B(d)(1) 42 U.S.C. 1320a-7b of the Social Security Act. This provision shall remain in effect even if the Contractor becomes insolvent.

However, if an Enrollee agrees in advance in writing to pay for a Non-Medicaid covered service, then the Contractor, the Contractor's Provider, or Contractor's Subcontractor may bill the Enrollee. The standard release form signed by the Enrollee at the time of services does not relieve the Contractor, Providers and Subcontractors from the prohibition against billing a Medicaid Enrollee in the absence of a knowing assumption of liability for a Non-Medicaid Covered Service. The form or other type of acknowledgement relevant to Medicaid Enrollee liability must specifically state the services or procedures that are not covered by Medicaid.

### **31.5 Referrals for Services Not Covered by Contractor**

When it is necessary for an Enrollee to receive a Medicaid service that is outside the scope of the Covered Services provided by the Contractor, the Contractor shall refer the Enrollee to a provider enrolled in the Medicaid fee-for-service program. The Contractor shall have written policies and procedures for the referral of Enrollees for Non-Covered Services that shall provide for the transition to a qualified health care provider and, where necessary, assistance to Enrollees in obtaining a new Primary Care Provider. The Contractor shall submit any desired changes to the established written referral policies and procedures to the Department for review and approval subject to Section 4.4 "**Approval of Department.**"

### **31.6 Interface with State Behavioral Health Agency**

- A. Contractor's Behavioral Health Director or designee will meet with the Department and DBHDID no less than quarterly to discuss State Mental Health Authority and Single State (substance abuse) Agency (SSA) protocols, rules and regulations including but not limited to:

  2. Other priority populations
  3. Targeted Case Management, Community Support Associate, and Peer Support provider certification training and process

### **31.7 Provider-Preventable Diseases**

The Contractor shall not pay a Provider for provider-preventable conditions that meet the following criteria:

- A. Is identified in the State Medicaid plan;
- B. Has been found by the Department, based upon a review of medical literature by qualified professionals, to be reasonably preventable through the application of procedures supported by evidence-based guidelines;
- C. Has a negative consequence for the Enrollee;

The Contractor and its providers must comply with the Mental Health Parity and Addiction Equity Act of 2008 and 42 C.F.R. 438 Subpart K, including the requirements that treatment limitations applicable to mental health or substance use disorder benefits are no more restrictive than the predominant treatment limitations applied to substantially all medical and surgical benefits covered by the Contractor and there are no separate treatment limitations that are applicable only with respect to mental health or substance use disorder benefits.

### **31.9 Institutions for Mental Disease (IMD) Expansion**

In accordance with 42 C.F.R. 438.3(e)(2), the Contractor may cover services or settings in lieu of services or settings covered under the State Plan, including an inpatient stay in an IMD for psychiatric or substance use disorder, for Enrollees aged 21 through 64 for a short term stay up to the number of days permitted by CMS.

- A. The services and settings will be reimbursable and subject to the requirements of 42 C.F.R. Part 438.
- B. Per 42 C.F.R. 438.3(e)(2)(ii), the Contractor may not require an Enrollee to receive services in an IMD.
- C. The Contractor shall track the number of days of the Enrollee's stay in an IMD during a calendar month. If the Enrollee's stay exceeds 15 calendar days in a given month, the Contractor shall notify the Department within five (5) business days.

- D. The Enrollee will remain in the Contractor's plan. For months when the Enrollee's stay exceeds 15 days, the Contractor will receive a pro-rated capitation payment for the days the Enrollee is not in the IMD. The rate to be paid for the days in the IMD shall be at the Contractor's negotiated rate between the Contractor and the provider.

### **32.3 Covered Outpatient Drugs**

The Contractor shall provide coverage of covered outpatient drugs and prescribed drugs as defined in Section 1927 of the Social Security Act, that meets the standard of coverage imposed by Section 1927 as if such standards applied directly to Contractor. If the Contractor's formulary does not provide coverage of a drug that is otherwise covered by Kentucky Medicaid for individuals in the FFS program, the Contractor shall ensure access and coverage to the off-formulary covered outpatient or prescribed drug in the same manner as Kentucky Medicaid FFS and in accordance with the prior authorization requirements of Section 1927.

### **32.4 Physician Administered Drugs**

The Contractor shall be responsible for reimbursement of physician administered drugs and biologics. - B. If the formulary and/or PDL prefers generic equivalents, Contractor shall provide a brand name exception process for prescribers to use when medically necessary.
- C. Publication of formulary and/or PDL:
  1. Contractor shall publish and make available via hard copy upon request, online/webpage or web portal, or by other relevant means of communication its current formulary and/or PDL to all Providers and Enrollees.

  3. The formulary and/or PDL shall be updated by the Contractor throughout the year and shall reflect changes such as, status of a drug, adds or deletes. Updates to the formulary and/or PDL shall be distributed in the formats herein mentioned no later than the effective

date of changes.

So long as the Contractor complies with the requirements of Section 1927, Contractor may adopt different formularies and/or PDLs than those of the Department and apply different utilization management tools or practices such as, but not limited to, prior authorization requirements.

### **32.6 Alignment of Clinical Criteria and Pharmacy Based Programs and Initiatives**

To assist the Department in its efforts to address some of Kentucky's greatest health concerns; including but not limited to Hepatitis and substance use disorders, the Contractor shall, when and as directed by the Department, align with Department sponsored clinical criteria, pharmacy based programs and other initiatives. The Department may at any time during this Contract notify the Contractor of drug class or specific drug product clinical criteria, pharmacy based programs, or initiatives focused on drug utilization or outcomes. The Contractor shall align its criteria and processes and comply with such requirements no later than ninety (90) calendar days after written notification is sent from the Department. Any systems or policy and process changes required to implement new requirements shall be made at no cost to the Department.

### **32.7 Reimbursement Rates and Dispensing Fees**

The Department shall set, create, or approve, and may change at any time for any reason, reimbursement rates between the Contractor or a pharmacy benefit manager or administrator or the like subcontractor and a pharmacy Provider, or an entity which contracts on behalf of a pharmacy. Reimbursement rates shall include dispensing fees which take into account applicable CMS guidance. The pharmacy benefit manager or administrator or the like subcontracted by the Contractor shall notify the Department directly or through the Contractor no less than thirty (30) calendar days in advance of any proposed change of over five percent (5%) in the product reimbursement rates for a pharmacy Provider licensed in the state. The Department may disallow such a change by notifying the Contractor at any time prior to the implementation date of the change. If the Department disallows the proposed change, the Contractor shall require its subcontracted pharmacy benefit manager or administrator or the like to reprocess all affected claims without undue delay at the old reimbursement rate.

The Department may consider any information ascertained pursuant to this Contract in the setting, creation, or approval of reimbursement rates and dispensing fees subject to this section.

Beginning on the effective date of this Contract and pursuant to 18 RS HB 200, Medicaid Benefits, section (16), the Contractor shall comply and ensure that any subcontractor engaged to reimburse for drug products through POS/retail claims complies with all dispensing fee requirements set by this Contract. The Contractor shall or shall cause and ensure its subcontracted agent or entity to pay an additional dispensing fee of two dollars (\$2.00) without reduction of any kind or for any reason. This additional dispensing fee amount shall be in addition to the dispensing fee remitted to pharmacies for POS/retail claims as calculated or determined by contractual provisions negotiated directly with the dispensing pharmacy or any entity who contracts on behalf of the dispensing pharmacy whether negotiated by the Contractor, any subcontracted pharmacy benefit manager or administrator or the like.

### **32.8 Pharmacy and Therapeutics Committee**

The Contractor shall utilize a Pharmacy and Therapeutics Committee (P&T) in accordance with KAR Title 907. The P&T shall meet in Kentucky periodically throughout the calendar year as necessary and make recommendations to the Contractor for changes to the PDL or drug formulary. The P&T shall be considered an advisory committee to a public body thereby making it subject to Kentucky's Open Meetings Law found in KRS 61.800 to 61.850. Prior to each new calendar year,

the Contractor shall give notice to the Department of the time, date and location of the P&T meetings. The Contractor shall make every reasonable effort to ensure that meeting dates and times for the P&T do not conflict with the meeting times for other MCO P&T or FFS P&T meetings. This shall be for the purpose of allowing attendance and travel for interested parties and the Department's pharmacy staff. Final decisions are to be posted and maintained on the Contractor's pharmacy information webpage and/or web portal.

### **32.9 Pharmacy Claims Payment Administration**

All claims adjudicated as payable shall be for eligible Enrollees, to enrolled Providers, for approved services, and in accordance with the payment rules and other policies, regulations, and statutes of the Department.

  - 2. Identifying and denying claims that contain invalid Provider numbers including where the Taxonomy/National Provider Identifier (NPI) or Provider number is missing or is invalid. Claims containing errors shall be returned to the originating Provider;
  - 3. Identifying Providers on all pharmacy claims by their specific NPI; Drug Enforcement Administration (DEA) numbers, Taxonomy, or any other identifying number as required by CHFS, the Department, or HIPPA shall be captured by the Provider files;
  - 4. Utilizing a system that has the functionality to process claims requiring International Classification of Diseases Ninth Revision (ICD-9) and International Classification of Diseases Tenth Revision (ICD-10) codes; and

  - 1. The term "pay" means either send the Provider cash or cash equivalent in full satisfaction of the clean claim, or give the Provider a credit against any outstanding balance owed by that Provider to the Contractor.
  - 2. The term "clean claim" means a properly completed paper or electronic claim submitted in compliance with NCPDP standards and approved for payment.
  - 3. Resubmission of a claim with further information and/or documentation shall constitute a new claim for purposes of establishing the time frame for claims processing.
  - 4. Contractor shall pay the claim or advise the Provider that the claim submitted is denied and specify all reasons for the denial.
- D. Contractor shall also provide the ability to process claims on batch electronic media and paper

claims submitted directly for processing. Paper claims may include, but not limited to, those submitted in situations when an Enrollee has to visit an out-of-network pharmacy in an emergency. Paper claims shall be submitted on the NCPDP UCF version D.0.

1. Contractor shall process and adjudicate paper claims within ten (10) calendar days of receipt.
  2. Contractor shall assign ICNs to all batch claims within twenty-four (24) hours of receipt.
  3. Contractor shall maintain electronic backup of batch claims for the duration of the contract.
  4. Electronic batch claims shall be adjudicated through the same processing logic as the POS claims.
- E. Claims (837) and Remittance Advices (R/A) (835) shall use the American National Standards Institute (ANSI) X12 Electronic Data Interface (EDI) standard required for HIPAA compliance.
- F. Contractor shall notify the Department in writing no later than one (1) calendar day from discovery of any POS processing and/or claims adjudication issue that is or has the potential to significantly impact processing time for claims submissions, claims adjudication, and/or continuity of Enrollee drug therapy. A significant impact means for this purpose a threshold of one hundred (100) or more Enrollees impacted by the issue. Notification shall be followed by a written explanation of the root cause and corrective action.
- G. Contractor shall establish a unique Medicaid-specific Processor Identification (BIN)/Issuer Identification Number (IIN), Processor Control Number (PCN), and Group Number combination for POS pharmacy claims processing, to ensure Medicaid claims are not the same as Contractor's commercial and/or Medicare Part D business lines.
- H. Contractor shall develop, maintain and distribute to Providers a procedure and billing manual that lists detailed billing instructions.

### **32.10 Drug Utilization Review (DUR) Program**

The Contractor shall operate a drug utilization review (DUR) program that complies with the requirements described in Section 1927(g) of the Social Security Act and 42 C.F.R. Part 456, Subpart K, and as required by the Department, as if such requirements applied directly to Contractor instead of the Department. The Contractor's DUR program shall satisfy the minimum requirements for prospective and retrospective DUR as described in Section 1927(g) of the Social Security Act, amended by the OBRA of 1990, and as followed herein.

- A. DUR standards shall ensure that Providers screen for allergies, idiosyncrasies, chronic conditions that may relate to drug utilization, potential drug therapy problems, and provide counseling to the Enrollee in accordance with existing pharmacy laws and federal regulations.
- B. DUR standards shall also encourage proper drug utilization by ensuring maximum compliance, minimizing potential fraud, waste and abuse, and taking into consideration both the quality and cost of the pharmacy benefit.
- C. Contractor shall include review of mental health/substance use and narcotic drugs in its DUR program.
- D. The DUR services and activities shall include, but not be limited to:
  1. Monitoring, managing and profiling prescribing patterns;
  2. Educating contracted Providers regarding compliance to formulary and/or PDL and appropriate prescribing practices; and
  3. Administering intervention practices with the goal of improving prescribing patterns for contracted Providers:
    - a. Whose prescribing patterns or practices appear to be operating outside of industry or peer norms or as may be defined by the Department;
    - b. Who are noncompliant as it relates to formulary and/or PDL adherence and/or generic prescription patterns; and/or
    - c. Who are failing to follow required PA processes and procedures.
- E. Reports and/or results of DUR program reviews shall be provided where applicable to Contractor's network Providers.
- F. A DUR program shall include current clinical standards for each category of DUR, i.e.

therapeutic duplication, drug-drug interaction, disease-drug interactions, maximum daily dosage, and therapy duration.

G. If at any time during this Contract DUR requirements are revised to align with State or federal laws, regulations or guidance, or Department policy, Contractor shall make all necessary changes to remain in compliance.

G.H. Effective October 1, 2019 all managed care organizations (MCOs) contracted with Kentucky Department for Medicaid Services will have drug utilization review provisions as outlined in Section 1004 of the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) for Patients and Communities Act. These provisions will include utilizing safety edits related to duplicate and early fills, quantity limits, dosage limits, and morphine milligram equivalents (MME). All MCOs will utilize safety edits for concurrent prescribing of opioids and benzodiazepines and opioids and antipsychotics. Additionally, all MCOs must have a program in place to monitor antipsychotic medications by children and document the appropriate actions taken based on the program. All MCOs must have in place a process that identifies fraud or abuse of controlled substances by individuals enrolled, health care providers prescribing drugs to individuals so enrolled, and pharmacies dispensing drugs to individuals so enrolled.

The Contractor shall provide a detailed description of its drug utilization review program activities to the Department on an annual basis. The actual date shall be determined by the Department and in sufficient time to gather the information necessary to comply with and time submit the CMS Annual DUR report. The Contractor shall provide all data necessary for appropriate CMS Annual DUR Report submissions including, but not limited to, completing the Contractor's portion of the actual annual report template furnished by CMS and within the requested timeframe.

### **32.11 Pharmacy Drug Rebate Administration**

Pursuant to the Affordable Care Act and 42 C.F.R. 438.3(s), CMS requires States to collect CMS level rebates on all Medicaid MCO utilization. In order for the Department to comply with this requirement the Contractor shall be required to report timely drug utilization data that is necessary for the Department to bill manufacturers for rebates in accordance with section 1927 (b) (1) (A) of the Social Security Act no later than forty-five (45) calendar days or as required by the Department after the end of each quarterly rebate period. Therefore, covered outpatient or prescribed drugs dispensed by Contractor to Enrollees, including diabetic testing supplies, insulin, and those drug products administered by network Providers in an office/clinical or other non-institutional setting, are subject to the same manufacturer rebate requirements as Kentucky Medicaid FFS outpatient drugs. Such utilization information must include, at a minimum, information on the total number of units of each dosage form, strength, date of service (date of dispense), paid date (actual date claim was paid) and package size by NDC of each covered outpatient drug and prescribed drug dispensed or covered by the Contractor's plan. The Contractor shall submit this NDC level information on drugs, biologics, and other Provider administered products, including, but not limited to drug codes (e.g. J-Code/Q-Code/A-Code), units and conversions consistent with federal and Department requirements. The Department or its designated contractor shall provide this claims level detail to manufacturers to assist in dispute resolutions. However, since the Department is not the POS Claims processor, resolutions of unit disputes are dependent upon cooperation of the Contractor. The Contractor shall assist the Department in resolving drug rebate disputes with the manufacture.

If at any time during this Contract, requirements are revised to align with State or federal laws, regulations or guidance, Contractor shall make all changes necessary to remain in compliance.

### **32.12 340B Transactions**

The Contractor shall submit all drug encounters including physician administered drugs, with the exception of in-patient hospital drug encounters, to the Department pursuant to the requirements

of this Contract. The Contractor shall maintain the systems capability and methodology to appropriately identify 340B claims in real time, prospectively, and retrospectively. The Contractor shall support all Department based efforts and initiatives for 340B claim identification at a claim level of detail, including the utilization of the NCPDP fields designed for this purpose. Contractor shall require pharmacy Providers or processing vendors to identify 340B purchased drugs on claims in accordance with Department requirements.

The Department shall deliver notice of billing guide changes to Contractor as necessary and with implementation deadlines. If program changes occur, these shall be at no cost to the Department.

### **32.13 Pharmacy Prior Authorizations**

The Contractor shall conduct a Prior Authorization (PA) program that complies with the requirements of section 1927(d)(5) of the Social Security Act and with Department requirements, as if such requirements apply to the Contractor instead of the Department.

The Contractor's PA program shall ensure there is no undue disruption of an Enrollee's access to care; shall prevent penalization of the Provider or Enrollee, financially or otherwise, for such PA requests or approvals; and shall incorporate the minimum requirements described herein:

- A. Clinical PA review criteria shall be aligned with FDA approved indications, best clinical practice standards, and/or other national standards.
- B. A physician peer review shall be available upon a Provider's request for any denial made at a pharmacist review level.
- C. PA determinations including those from escalated reviews shall be made and communicated to the requesting Provider within twenty-four (24) hours from the initial request including weekends in compliance with the provisions of OBRA 1990 mandate, Section 1927 of the Social Security Act, and other federal regulations.
- D. All PA activities and decisions shall be documented in Contractor's online pharmacy case management system. This information shall be available for immediate review at the Department's request or other timeframe as specified by the Department.
- E. In the event a prescription is for a drug awaiting PA and the pharmacy cannot reach the prescribing physician, and when the dispensing pharmacist using reasonable clinical judgment deems it necessary to avoid imminent harm or injury to the Enrollee, a seventy-two (72) hour emergency supply shall be provided. If the physician prescribed an amount of drug that is less than a seventy-two (72) hour supply but is packaged so that it must be dispensed intact, the pharmacist may dispense the packaged drug and Contractor shall pay for this quantity even if it exceeds a calculated seventy-two (72) hour supply. Contractor shall instruct the pharmacy Providers how to perform the override in the NCPDP environment of the POS pharmacy claims processing system.
- F. Contractor's PA process shall include procedures for Enrollee appeals and grievances submitted by the Enrollee or the prescriber authorized to act on behalf of the Enrollee related to PAs denied after the final escalated review. Contractor's procedures for PA related appeals and grievances shall be in accordance with Section 25.2 Enrollee Grievance and Appeal Policies and Procedures and Section 28.9 Provider Grievances and Appeals of this Contract.

## **42.3 Fast Track Enrollment**

Applicants shall be given the opportunity to expedite enrollment into the Premium Plan by making a Fast Track Payment, in accordance with the Kentucky HEALTH Business Requirements. If determined eligible for coverage, submission of a Fast Track Payment shall render a Kentucky HEALTH Enrollee eligible for Kentucky HEALTH coverage effective the first day of the month that the payment is made, which may be as early as the first day of the month of application. If the applicant's eligibility is pending upon electronic application for a reason other than income verification, the amount of the Fast Track Payment shall be a premium dollar amount defined by the Department. If eligibility is determined in real time and the individual is a Conditionally Eligible Enrollee, or has submitted an application which is pending but whose income has been verified, the Fast Track Payment shall be the calculated premium amount determined in accordance with Section 42.5.2 "Premiums." The Department shall establish the dollar amount of the Fast Track Payment and may adjust the amount at any time. The Department shall provide the Contractor at least sixty (60) days advance written notice of any change in the dollar amount of the Fast Track Payment.

The opportunity to make a Fast Track Payment shall not be available to applicants who are in a Presumptive Eligibility period. Notwithstanding the foregoing, if an Enrollee in a Presumptive Eligibility period submits a Medicaid application with other household Enrollees who are not in a Presumptive Eligibility period, the case will have a Fast Track option; however, the Enrollee in a Presumptive Eligibility period shall not be eligible to transfer to the Premium Plan until the next administratively feasible month, in order to avoid an overlap in coverage in the Copayment Plan.

Applicants who select the option to make a Fast Track Payment on the application shall also select whether to join the Contractor's network. Once both selections are made, the Cabinet shall direct the applicant to the Contractor's electronic payment portal.

The Contractor shall establish and maintain an electronic portal for Fast Track Payments which integrates with the IEES electronic application portal, and by which Fast Track Payments may be accepted. The Contractor's electronic portal shall display language, which meets the readability requirements of Section 23.5 "Enrollee Information Materials," indicating the implications for an applicant's enrollment effective date in the event that a Fast Track Payment is not made. Such language shall be subject to Department review and approval.

The Contractor, via its electronic portal, shall accept and process Fast Track Payments made by credit card, debit card, pre-paid debit card, and electronic check. The Contractor's electronic portal shall provide the applicant a confirmation number upon the real-time processing of a payment. Additionally, the Contractor shall send a payment record in accordance with the Kentucky HEALTH Business Requirements, including, but not limited to inclusion of the payment date. Pursuant to the Kentucky HEALTH Business Requirements, the Contractor shall store the application identification number provided by IEES, the payment amount, and the payment date for the purpose of matching Fast Track Payments to HIPAA 834 records.

Upon receipt of the payment record for applicants who made a Fast Track Payment, IEES shall set the eligibility effective date as the first day of the month in which the Fast Track Payment was received by the Contractor. If no HIPAA 834 is received indicating the eligibility status of an applicant who has made a Fast Track Payment within sixty (60) days of the Contractor's original receipt of the Fast Track Payment, the Contractor shall issue a refund of the full amount within the next ten (10) business days.

If the applicant is determined eligible for Kentucky HEALTH as Cost Sharing Required or Cost Sharing Optional Enrollee, the Contractor shall calculate the difference between the Fast Track Payment made by the applicant and the actual premium obligation owed by the Enrollee as indicated on the HIPAA 834. The Enrollee's subsequent invoice shall display the following:

- A. If the applicant's Fast Track Payment was made for a dollar amount more than the calculated premium amount as indicated on the HIPAA 834, the amount paid in excess of the premium shall be credited to the Enrollee's account, and the Enrollee's first invoice shall reflect the amount due as the calculated premium for the subsequent coverage month minus the amount of the excess Fast Track Payment.
- B. If the applicant's Fast Track Payment was made for an amount less than the calculated premium amount as indicated on the HIPAA 834, the additional amount owed to complete the Enrollee's premium obligation shall be reflected on the Enrollee's first invoice, and the invoice shall reflect the amount due as the calculated premium for the subsequent coverage month plus the difference between the amount of the Fast Track Payment made and the total premium amount owed.

If the Contractor receives a HIPAA 834 with a matching Fast Track Payment indicator prior to the run cycle for Batch Invoicing on the fifteenth day of the month, the Contractor shall add the Enrollee to the batch scheduled on the fifteenth of the month during which the eligibility determination was made. If the Contractor receives a HIPAA 834 with a matching Fast Track Payment indicator after the Contractor's run cycle for Batch Invoicing on the fifteenth of the month, the Contractor shall send one (1) additional invoice to the Enrollee within three (3) business days of receiving the HIPAA 834. This Ad Hoc Invoice shall be due the first day of the following month. The Contractor shall then add the Enrollee to the Batch Invoicing for the following month.

If an applicant is determined Medicaid eligible but not as a Kentucky HEALTH Enrollee, or is enrolled as Cost Sharing Exempt, and no other Enrollee of the household is Cost Sharing Required or Cost Sharing Optional and enrolled with the Contractor, then the Contractor shall issue a refund of the full amount of the Fast Track Payment within ten (10) business days of receipt of the HIPAA 834 record indicating such eligibility. Additionally, if an applicant is determined eligible as a Former Foster Youth or Medically Frail Enrollee, the Contractor shall issue a refund of the Fast Track Payment if requested by the Enrollee. When a refund of a Fast Track Payment is made to a Cost Sharing Optional Enrollee, the Contractor shall transmit the refund information to the Department in accordance with the Kentucky HEALTH Business Requirements in order to facilitate Enrollee transition out of the Premium Plan without application of a Non-Payment Penalty. Refunds of Fast Track Payment shall be made to the original source of payment.

#### 42.4 Kentucky HEALTH Presumptive Eligibility

Individuals determined presumptively eligible for Kentucky HEALTH shall be enrolled with an MCO for the Presumptive Eligibility period. Presumptive Eligibility applicants shall be given the opportunity to select an MCO at the point of application. The Department shall assign the applicant in the absence of a self-selection.

The Contractor shall provide covered benefits during the Presumptive Eligibility period in accordance with the table below.

Category	Description	Presumptive Eligibility Benefits
PEAD	Presumptively Eligible ACA Expansion Enrollee	ABP (refer to Section 42.10)
PEPC	Presumptively Eligible Parent and Caretaker Relative	State Plan Benefits (refer to Section 31.0)
PEC1 PEC2 PEC4	Presumptively Eligible Child	State Plan Benefits (refer to Section 31.0)
PEPR	Presumptively Eligible Pregnant Woman	Ambulatory Prenatal Care (as required under 42 CFR §435.1103)

The Contractor shall not send premium invoices during the Presumptive Eligibility period. Presumptively eligible ACA Expansion Enrollees and Parent and Caretaker Relatives shall be responsible for copayments for all services received during the Presumptive Eligibility period. The Contractor shall charge copayments to these Enrollees in accordance with Section 42.5.3 "Copayments" and deduct the applicable copayment amount from provider claims reimbursement.

The Presumptive Eligibility period shall end either (i) the last day of the month following the start of the Presumptive Eligibility period for individuals who do not file a Medicaid application; (ii) the day of the Medicaid application denial; or (iii) for individuals found fully eligible for Kentucky HEALTH, the first day of the month of the eligibility determination.

The HIPAA 834 shall contain information on presumptively eligible Enrollees who have been determined fully eligible for Kentucky HEALTH. ACA Expansion Enrollees and Parent and Caretaker Relatives transitioning from Presumptive Eligibility to fully eligible Kentucky HEALTH Enrollees shall be enrolled in the Copayment Plan initially, regardless of FPL, to provide sufficient time for the Enrollee to make a premium payment and avoid a coverage gap. Kentucky HEALTH Children, Former Foster Youth, Pregnant Women and Medically Frail Enrollees transitioning from

Presumptive Eligibility to fully eligible Kentucky HEALTH Enrollees shall be enrolled in Kentucky HEALTH with no cost sharing requirement.

The Contractor shall send a prospective initial premium invoice within three (3) business days of receipt of a record on the HIPAA 834 indicating that the ACA Expansion Enrollee or Parent and Caretaker Relative Enrollee has transitioned from Presumptive Eligibility to the Copayment Plan. The invoice shall be due to be paid within sixty (60) days. The Contractor shall report invoice details to IEES in accordance with the Kentucky HEALTH Business Requirements. Enrollees transitioning from a Presumptive Eligibility period who do not make an initial premium payment within sixty (60) days of the invoice date shall be subject to a Non-Payment Penalty as outlined in Section 42.8.12 "Non-Payment of Premiums and Non-Payment Penalties." If the Enrollee pays the invoice on or before its due date, the Contractor shall report the payment to IEES as part of its daily payment reporting, in accordance with the Kentucky HEALTH Business Requirements, which shall trigger conversion of the Enrollee to the Premium Plan effective the first day of the month following the month in which the payment was made. The Contractor shall then initiate ongoing Batch Invoicing as described in Section 42.8.1 "Batch Invoicing Obligations."

**42.5 Kentucky HEALTH Cost Sharing**

**42.5.1 Cost Sharing Obligations**

All Kentucky HEALTH Enrollees shall be responsible for making financial contributions toward their health care coverage either through payment of premiums or copayments, except for the following groups:

Pregnant Women;

Kentucky HEALTH Children; and

Former Foster Youth and Medically Frail Enrollees, who may optionally pay premiums to gain access to the My Rewards Account.

**42.5.2 Premiums**

The Contractor shall impose monthly premiums in accordance with the premium amount reflected on the HIPAA 834 for all Conditionally Eligible and Premium Plan Enrollees. Premiums shall be calculated by the Department based on an enrollee's MAGI household FPL. The Department shall have the right to adjust the premium amounts at any time and shall provide the Contractor at least sixty (60) days advance written notice of such adjustments becoming effective, after the initial premium. Initial premium amounts shall be charged as outlined in the table below. Kentucky HEALTH premiums shall be applied to the entire MAGI household enrolled with the Contractor. For example, if a husband and wife are both enrolled with the Contractor, and their combined income is below twenty-five percent (25%) FPL, a total monthly premium of one dollar (\$1.00) shall be charged to the household by the Contractor. Kentucky HEALTH MAGI households with a premium obligation who are enrolled with multiple MCOs shall be charged a premium for each MCO with which they are enrolled. For example, if a husband and wife are enrolled in separate MCOs and their income is below twenty-five percent (25%) FPL, each MCO with which they are enrolled shall charge a one dollar (\$1.00) monthly premium.

<b>FPL</b>	<b>Monthly Premium Amount</b>
≤25% FPL	\$1.00

>25% - ≤50%	\$4.00
>50% - ≤100%	\$8.00
>100% - ≤138%	\$15.00

For Kentucky HEALTH Enrollees with an income above one hundred percent (100%) FPL, premiums shall increase based on length of enrollment in Kentucky HEALTH. The duration of enrollment shall be calculated based on the Kentucky HEALTH Enrollee within a MAGI household with the longest enrollment in Kentucky HEALTH. The Contractor shall charge escalating premiums in accordance with the table below.

<b>Duration of Kentucky HEALTH Enrollment</b>	<b>Monthly Premium</b>
0-24 months	\$15.00
25-36 months	\$22.50
37-48 months	\$30.00
49+ months	\$37.50

The Contractor shall accommodate the premium schedule in accordance with any future modifications made by the Department. The Department shall provide sixty (60) days advanced notice to the Contractor of any such modifications.

**42.5.3 Copayments**

The Contractor shall impose copayment requirements on all Copayment Plan Enrollees. The copayment schedule shall be the copayments approved by CMS in the Kentucky Medicaid State Plan. The Contractor shall update the copayment schedule in accordance with any future modifications made by the Department. The Department shall provide sixty (60) days advanced notice to the Contractor of any such modifications.

The Contractor shall establish education efforts, policies, and procedures for contracted providers to collect copayments from Kentucky HEALTH Enrollees enrolled in the Copayment Plan at the time of service. In accordance with 42 CFR §447.52, providers shall not deny care or services to any Enrollee at or below one hundred percent (100%) FPL because of his or her inability to pay the copayment. The Contractor shall implement the following mechanisms to enforce this policy: (i) provider education; (ii) documentation in the provider manual; and (iii) assistance to Enrollees who report that they have been denied services due to inability to pay.

Additionally, the Contractor shall reduce the payment it makes to providers by the amount of the Enrollee’s copayment obligation, regardless of whether the provider has collected the payment. The Contractor shall ensure that copayments are not imposed on the following exempt services:

1. Emergency Services as defined at Section 1932(b)(2) of the Social Security Act and 42 CFR §438.114(a);
2. Family planning services and supplies described in Section 1905(a)(4)(C) of the Social Security Act, including contraceptives and pharmaceuticals for which the State can claim enhanced federal match under Section 1903(a)(5) of the Social Security Act;

3. Preventive Services, defined as (i) all the preventive services assigned a grade of A or B by the United States Preventive Services Task Force (USPSTF); or (ii) all approved adult vaccines, including their administration, recommended by the Advisory Committee on Immunization Practices, as well as the influenza vaccine; or (iii) preventive care and screening recommended by the Health Resources and Services Administration Bright Future Program Project; or (iv) preventive services recommended by the Institute of Medicine;
4. Pregnancy-related services, which in accordance with 42 C.F.R. 447.56 shall include all services provided to pregnant Kentucky HEALTH Enrollees; and
5. Provider-preventable services as defined in 42 CFR §447.26(b).

In imposing a copayment for an emergency room visit for a non-emergent service, the Contractor shall ensure compliance with 42 CFR §447.54 and Section 42.11 "Non-Emergency Use of the Emergency Room". The Contractor shall consider an emergency room visit emergent, for purposes of waiving the copayment, if the Enrollee had a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in the following:

1. Placing the health of the Enrollee (or, for a pregnant woman, the health of the woman or her unborn child) in serious jeopardy;
2. Serious impairment to bodily functions; or
3. Serious dysfunction of any bodily organ or part.

The Contractor shall not limit what constitutes a non-emergent visit, for purposes of imposition of the copayment, on the basis of lists of diagnoses or symptoms. Conditional Eligibility, Initial Invoicing, and Payment Processing

#### **42.6 Conditional Eligibility, Initial Invoicing, and Payment Processing**

##### **42.6.1 Conditional Eligibility Welcome Packet and Initial Invoicing**

Within three (3) business days of receipt of a HIPAA 834 with a new Conditionally Eligible Enrollee, the Contractor shall send a Kentucky HEALTH welcome packet. The Kentucky HEALTH welcome packet shall include, at minimum, an initial premium invoice and a welcome letter. The Contractor's welcome packet shall be subject to Department review and approval in accordance with Section 4.4 "Approval of Department."

The initial premium invoice shall meet the requirements of Section 42.8.1 "Batch Invoicing Obligations." Additionally, it shall include: (i) a clear indication that benefit coverage is conditioned upon premium payment, including a description of how the benefit effective date is impacted by premium payment; and (ii) that the individual may change MCOs until the first payment is made, including clarification that once initial payment is made, the Enrollee may only change MCOs for cause, except during the annual open enrollment period.

The welcome letter shall be tailored individually to address differences for households with income at or below one hundred percent (100%) FPL, and those with income above one hundred percent (100%) FPL. The welcome letter shall include the following:

- A. An explanation that payment is due sixty (60) days from the date of first invoice;
- B. An explanation that eligibility shall be effective the first day of the month during which a timely payment is made;
- C. An explanation of the consequences of non-payment, which shall be as follows:
  1. For households with income at or below one hundred percent (100%) FPL, the letter

- shall explain that if an initial premium payment is not received within sixty (60) calendar days of the invoice date, coverage in the Copayment Plan shall begin the first day of the month in which the sixty (60) day payment period ends. Further, it may describe the benefits of enrollment in the Premium Plan versus Copayment Plan, including, but not limited to, predictability in healthcare costs and access to the My Rewards Account; and
2. For households with income above one hundred percent (100%) FPL, the letter shall indicate that failure to make an initial premium payment within sixty (60) days of the invoice date shall result in denial of eligibility and the requirement to reapply for Kentucky HEALTH coverage;
- D. A description of the option to change the Enrollee's MCO before payment is made and how to do so;
  - E. Information about requirements for reporting any changes that may impact eligibility;
  - F. An explanation that once initial payment is made, an Enrollee may only change MCOs for cause, except during the annual open enrollment period.

The Contractor shall invoice Conditionally Eligible Enrollees experiencing transitions or changes in accordance with Kentucky HEALTH Business Requirements. Transitions which may occur during the conditional eligibility period which impact Contractor invoicing include, but are not limited to (i) case changes; (ii) Medically Frail determinations; (iii) pregnancy reports; and (iv) MCO changes.

#### **42.6.2 Conditional Eligibility Initial Invoice Reporting**

The Contractor shall send conditionally eligible invoice information to IEES daily and in accordance with the Kentucky HEALTH Business Requirements.

#### **42.6.3 Conditional Eligibility Reporting of Payment and Non-Payment**

The Contractor shall report payments received from Conditionally Eligible Enrollees on a daily basis to IEES. The Contractor shall report the payment date as the date of receipt; however, payment records shall only be sent after the payment has cleared. Notwithstanding the foregoing, the Contractor shall ensure the timely processing of payments and shall send payment records to IEES within one (1) business day of the payment clearing and no later than the sixth day of the month following receipt of payment. The Conditionally Eligible Enrollee shall become fully eligible for Kentucky HEALTH effective the first day of the month of the reported premium payment date. The Contractor shall transition Conditionally Eligible Enrollees who become fully eligible for Kentucky HEALTH to ongoing Batch Invoicing in accordance with Kentucky HEALTH Business Requirements.

Once the Contractor has confirmed from all payment sources that payment was not received by the due date (sixty (60) days following the date of invoice), the Contractor shall send IEES a termination record indicating the Enrollee's late payment. When either a late payment is reported, or no record is sent by the Contractor within seventy-five (75) days of the initial eligibility determination date, the Conditionally Eligible Enrollee shall be subject to non-payment penalties in accordance with Section 42.6.5 "Non-Payment Penalty During Conditional Eligibility."

If the Contractor receives a payment of an initial invoice following the close of the sixty (60) day payment period, the payment shall not be reported to IEES as payment of the initial invoice. Rather, for individuals in households with income at or below one hundred percent (100%) FPL, the Contractor shall retain the payment and apply it to a future invoice. For individuals in households with income above one hundred percent (100%) FPL, the Contractor shall refund the payment within thirty (30) days of receipt.

#### **42.6.4 Conditional Eligibility Payment Reminders**

The Contractor shall send a minimum of two (2) written payment reminder notices to Conditionally Eligible Enrollees between the date of initial invoice and the close of the sixty (60) day payment period. Payment reminders shall not be required once payment of the initial invoice is made. The intervals by which these payment reminders are sent shall be at the discretion of the Contractor. The Contractor's payment reminder notices shall be subject to Department review and approval in accordance with Section 4.4 "Approval of Department."

#### **42.6.5 Non-Payment Penalty During Conditional Eligibility**

Conditionally Eligible Enrollees shall make a premium payment within sixty (60) days of the Contractor's invoice date. IEES shall determine Conditionally Eligible Enrollees' payment as untimely upon the first of (i) receipt of the Contractor's non-payment file; or (ii) passage of seventy-five (75) days since the Enrollee was determined eligible for Kentucky HEALTH.

Conditionally Eligible Enrollees over one hundred percent (100%) FPL who fail to make a premium payment within sixty (60) days of the invoice date shall be denied eligibility for Kentucky HEALTH. A Conditionally Eligible Enrollee over one hundred percent (100%) FPL who has previously been denied eligibility for Kentucky HEALTH shall submit a new application should they wish to participate in Kentucky HEALTH, and no non-payment penalty shall be applied. The Contractor shall have no ongoing responsibilities to a formerly Conditionally Eligible Enrollee who has been denied eligibility for Kentucky HEALTH. Notwithstanding the foregoing, if the Contractor has received a partial payment from the Conditionally Eligible Enrollee that does not satisfy the individual's full premium obligation, the Contractor shall issue a refund of the partial payment within thirty (30) days.

Conditionally Eligible Enrollees at or below one hundred percent (100%) FPL who fail to make a premium payment within sixty (60) days of the invoice date shall be enrolled in the Copayment Plan effective the first day of the month in which the sixty (60) day payment period expires. The Enrollee shall then receive a six (6) month Non-Payment Penalty effective the first of the next administratively feasible month.

These Enrollees shall be given the opportunity to opt into the Premium Plan to gain access to the My Rewards Account. No Non-Payment Penalty shall be applied to Medically Frail or Former Foster Youth who choose not to make premium payments. The Contractor shall not be required to continue invoicing Cost Sharing Optional Enrollees who have opted out of premium payments. However, the Contractor shall develop an outreach program, subject to Department approval, targeted to Cost Sharing Optional Enrollees to assist them in learning about the benefits of the Premium Plan. #### **42.8.5 Payment Processing and Reporting**

The Contractor shall communicate all information regarding premium payments to IEES in accordance with the Kentucky HEALTH Business Requirements. This shall include, but shall

not be limited to, transmission of the Contractor invoice date for each Kentucky HEALTH Enrollee with a premium obligation, premium payments received, and the date of payment receipt. The Contractor shall transmit records of all premium payments and non-payments for ongoing Batch Invoicing no later than the sixth day of each month.

However, the Kentucky HEALTH Enrollee shall pay the monthly premium payment in full, and all other amounts due, within sixty (60) calendar days of the invoice date or be subject to a Non-Payment Penalty described in Section 42.8.12 "Non-Payment of Premiums and Non-Payment Penalties."

As such, the Contractor shall track partial payments of premiums, but shall only send a payment record to IEES after the complete premium payment has cleared.

The Contractor shall also accept pre-payments of future premium contributions. The Contractor shall track such payments as a credit toward future premium payments. The Contractor shall continue to send monthly Batch Invoices when prepayments have been made; the invoice shall reflect the premium amount due with any prepayment listed as a credit applied to the premium.

#### **42.8.6 Delinquent Payment Notices**

If an Enrollee has not made the required premium payment for the current month of coverage, the Contractor shall send the Enrollee a delinquent payment notice. The first notice may be sent as early as the second day of the month of coverage for which payment has not been received and shall be sent no later than the seventh day of the month of coverage for which the premium payment was to be applied. If the Contractor does not receive a premium payment from an Enrollee for a second consecutive month, a second delinquent payment notice shall be sent. This notice may be sent as early as the second day of the second unpaid coverage month and shall be sent no later than the seventh day of the second coverage month of non-payment.

The Contractor shall develop three (3) separate delinquent payment notices targeted to: (i) individuals at or below one hundred percent (100%) FPL; (ii) individuals above one hundred

percent (100%) FPL; and Cost Sharing Optional Enrollees who have opted into premium payments. The notice targeted by FPL shall include an explanation noting a change in income moving the Enrollee above or below one hundred percent (100%) FPL will impact the type of Non-Payment Penalty applied. These notices shall advise the Enrollee of (i) the delinquent payment; (ii) the date that the payment shall be made to prevent a Non-Payment Penalty; (iii) the option for Medically Frail screening; (iv) consequences of nonpayment of required premiums; and (v) information about reporting changes in circumstances, including household income. The notice targeted to households with only Cost Sharing Optional Enrollees shall indicate that the Enrollee shall no longer have access to the My Rewards Account if payment is not received.

The Contractor's delinquent payment notices are subject to Department review and approval in accordance with Section 4.4 "Approval of Department."

#### **42.8.7 Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Periods**

The Contractor shall not be required to invoice Enrollees who have been assessed a Non-Payment Penalty. However, the Contractor shall conduct outreach to these Enrollees, in accordance with a Contractor-developed and Department-approved outreach strategy. At a minimum, as part of its outreach strategy, the Contractor shall correspond to the Enrollee in writing during the month in which the penalty is effectuated, which shall include details necessary to facilitate Enrollee payment. This communication shall include, at a minimum: (i) how to remove the Non-Payment Penalty; (ii) amount of premium owed; (iii) forms of payment accepted; (iv) where payment can be made; and (v) the overall benefits of Kentucky HEALTH, including the benefits of participating in the Premium Plan for individuals on the Copayment Plan.

Notwithstanding the foregoing, the Contractor shall send a premium invoice on the fifteenth of the month prior to the end of an Enrollee's Non-Payment Penalty period. This invoice shall include a cover letter indicating that the Enrollee's penalty period is ending and the Enrollee need only make one (1) premium payment to enter the Premium Plan and regain access to the My Rewards Account. The invoice shall only require payment of the upcoming coverage month.

The Contractor shall not invoice Enrollees in a Community Engagement Suspension. However, the Contractor shall develop an outreach program approved by the Department to assist such Enrollees in regaining coverage. At a minimum, this outreach shall include requirements for ending the Community Engagement Suspension and the overall benefits of Kentucky HEALTH.

#### **42.8.8 Invoicing During Kentucky HEALTH Transition Scenarios**

The Contractor shall follow Kentucky HEALTH Business Requirements for invoicing Enrollees under any of the following transition scenarios: (i) from Cost Sharing Optional to Cost Sharing Required; (ii) from Cost Sharing Exempt to Cost Sharing Required; and (iii) from Cost Sharing Required to Cost Sharing Optional.

#### **42.8.9 Third Party Payment of Premiums**

Third parties are permitted to contribute toward a Kentucky HEALTH Enrollee's premium up to one hundred percent (100%) of the Enrollee's monthly premium obligation. The Contractor shall credit third party contributions to the Enrollee's balance upon receipt and may not use the contribution for any other purpose.

If a third party contributes more than one (1) month premium payment, the Contractor shall treat the excess funds as a prepayment, tracking the overpayment as a credit toward future premium payments. The Contractor shall continue to send the Enrollee an ongoing Batch Invoice on the fifteenth day of each month, with the prepayment listed as a credit.

Any third party contributions that exceed an Enrollee's total premium obligation for the remainder of the Benefit Year shall be returned by the Contractor to the contributing third party within thirty (30) days of receipt.

The Contractor shall ensure healthcare providers or provider-related entities making premium payments on behalf of Kentucky HEALTH Enrollees have criteria for providing assistance that does not distinguish between Enrollees based on whether or not they will receive services from the contributing provider(s) or class of provider(s). Further, the Contractor shall ensure that contributing providers do not include the cost of Kentucky HEALTH premium contributions in the cost of care for purposes of Medicare and Medicaid cost reporting or as part of a Medicaid shortfall or uncompensated care.

The Contractor shall maintain a record of all contributions made by third parties on behalf of Enrollees and make reports available to the Department in the timeframe, frequency and format requested. The Contractor shall not make any premium contribution on behalf of a Kentucky HEALTH Enrollee. Further, the Contractor shall be prohibited from reducing the premium amount below the limits established by the Department as described in Section 42.5.2 "Premiums."

#### **42.8.10 Premium Recalculations**

Enrollees shall report to the Cabinet all changes which may affect eligibility and their required premium contribution, including changes in income and family size. The Department shall notify the Contractor, via the HIPAA 834, of changes to premium amounts as a result of reported changes. The Contractor shall begin invoicing Kentucky HEALTH Enrollees the updated premium amount in the billing cycle in which the change is effective. If the Contractor receives the change in premium amount after the monthly invoice has already been sent, the amount shall be adjusted on the next month's premium invoice. If the premium payment received after the adjusted premium amount is effective exceeds the new monthly premium obligation, the Contractor shall apply the surplus amount as a credit toward future months' premiums. If the premium payment received after the adjusted premium amount is effective is less than the new monthly premium obligation, the Contractor shall add the remaining balance to the Enrollee's next monthly invoice.

#### **42.8.11 Premium Refunds**

If an individual makes a premium payment following termination of enrollment or transfer to another MCO, the Contractor shall apply the payment to any Past Due amounts or Debt owed to the Contractor by the individual. If there are no Past Due amounts or Debt, Contractor shall refund the payment to the individual. If the payment exceeds the Past Due or Debt amount, the Contractor shall apply the payment to the Past Due or Debt amount and refund to the individual any remaining credit. Such refunds shall be made to the individual within thirty (30) days of the last date of the Enrollee's participation with the Contractor. The Contractor shall report payment of Past Due amounts and refunds to IEES. The Contractor shall not report the terminated individual's payment as a payment toward a future month of coverage.

If an Enrollee makes a payment while in a suspended status, the Contractor shall apply the payment in accordance with Kentucky HEALTH Business Requirements. However, if a

suspended individual requests a refund of an advanced payment, the Contractor shall refund the payment within thirty (30) days of the request.

In accordance with 42 CFR §447.56, Pregnant Women shall be Cost Sharing Exempt. Enrollees are required to report changes, including pregnancy; therefore, the Contractor is not obligated to retroactively refund premiums paid for months prior to Contractor identification or Kentucky HEALTH Enrollee self-report of pregnancy. The Contractor shall implement strategies to educate Enrollees on the requirement to report pregnancy to the Cabinet. However, once the Contractor is aware of a Kentucky HEALTH Enrollee's pregnancy, the Contractor shall ensure that no premiums are imposed on the pregnant Enrollee. Therefore, in the event that the Contractor has received a prospective premium payment from a woman who is subsequently identified as pregnant, the Contractor shall refund the premium payment for the future month of coverage, within thirty (30) days of the notification of pregnancy. Notwithstanding the foregoing, the Contractor shall apply the premium payment to the Enrollee's premium obligation at the end of her sixty (60) day post-partum period, if that is the preference indicated by the Enrollee. Additionally, the Contractor shall not refund the payment if there are household Enrollees also enrolled in the Premium Plan with the Contractor as the Kentucky HEALTH premium payment is a family premium payment.

#### **42.8.12 Non-Payment of Premiums and Non-Payment Penalties**

If a Cost Sharing Required Enrollee fails to make a premium payment by the due date of an ongoing Batch Invoice, the Contractor shall send a non-payment file no later than the sixth day of the month. There shall be no immediate consequence to an Enrollee the first time they are sent in a non-payment status on the Contractor's monthly payment status file. If an Enrollee is included on a second consecutive non-payment file from the Contractor, a Non-Payment Penalty shall become effective the first day of the following month if the Enrollee does not ensure that all owed payments are up-to-date prior to the penalty effective date.

The Non-Payment Penalty for Enrollees whose household income is over one hundred percent (100%) FPL shall be suspension from Kentucky HEALTH enrollment. Kentucky HEALTH Enrollees with income at or below one hundred percent (100%) FPL shall be enrolled in the Copayment Plan. Under the Copayment Plan, Enrollees shall be subject to a copayment for every Kentucky HEALTH service received, as outlined in Section 42.5.3 "Copayments." Additionally, the Department shall deduct twenty-five dollars (\$25) from the Enrollee's My Rewards Account. The My Rewards Account shall also be suspended for the duration of the Enrollee's enrollment in the Copayment Plan, and the Enrollee shall be unable to either use funds from the account or accrue funds in the account for services or activities completed during the suspension.

The Contractor shall report any payments received by the Enrollee to cure the Non-Payment Penalty before it is effectuated, and in accordance with the Kentucky HEALTH Business Requirements. If the Enrollee makes payment prior to the end of the month before the Non-Payment Penalty effective date, but with insufficient time for the Contractor to send a payment record which voids the Non-Payment Penalty prior to it taking effect, the following shall occur:

- A. Enrollees with an income at or below one hundred percent (100%) FPL who were moved to the Copayment Plan shall be moved to the Premium Plan effective the first day of the following month to avoid retroactively overlaying coverage. The Contractor shall invoice these Enrollees during the Batch Invoicing cycle on the fifteenth day of the month to reflect the premium due for the following month of coverage in the Premium Plan.
- B. Enrollees with income over one hundred percent (100%) FPL whose enrollment was suspended shall be enrolled in the Premium Plan effective the first day of the month with no gap in coverage. The Contractor shall continue invoicing the Enrollee on the Batch Invoicing cycle.

The Contractor shall wait until receipt of a HIPAA 834 record to take any actions associated with the Non-Payment Penalty, including suspension or movement from the Premium Plan to the Copayment Plan.

Notwithstanding the foregoing, the following Kentucky HEALTH Enrollees shall not be subject to a Non-Payment Penalty: (i) Cost Sharing Optional Enrollees; and (ii) Enrollees determined to have good cause for non-payment as described in Section 42.8.13 “Good Cause for Premium Non-Payment.”

A Non-Payment Penalty shall remain effective for six (6) months unless the Kentucky HEALTH Enrollee (i) completes early re-entry requirements outlined in Section 42.8.14 “Non-Payment Early Re-Entry;” (ii) has a good cause for non-payment; or (iii) during the penalty period becomes pregnant, is determined to be Medically Frail, or otherwise becomes eligible for Medicaid under an eligibility group not subject to a Non-Payment Penalty.

In the absence of early re-entry, the Contractor shall send one (1) premium invoice the month before the expiration of the Enrollee’s Non-Payment Penalty. The invoice shall include a cover letter indicating that the Enrollee’s Non-Payment Penalty is ending and that the Enrollee shall make at least one (1) prospective premium payment to transition back to the Premium Plan and regain access to the My Rewards Account. The Contractor may still pursue collection of Debt in accordance with Section 42.8.16 “Debt Collection.” Upon expiration of the Non-Payment Penalty, the effective date of an Enrollee’s transition from the Copayment Plan to the Premium Plan shall be the first day of the month following premium payment. The effective date of an Enrollee’s transition from a suspended status to the Premium Plan shall be the first day of the month in which the premium payment is made.

Enrollees with income at or below one hundred percent (100%) FPL who opt not to make a premium payment at the close of the Non-Payment Penalty period shall remain enrolled with the Contractor in the Copayment Plan with no additional Non-Payment Penalty. Suspended Enrollees with income above one hundred percent (100%) FPL who opt not to make a premium payment at the close of the Non-Payment Penalty period shall remain suspended. The Contractor shall continue outreach to these Enrollees in accordance with Section 42.8.7 “Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Periods.”

**42.8.13 Good Cause for Premium Non-Payment**

An Enrollee who fails to make the required premium payment for any of the following reasons shall not be subject to a Non-Payment Penalty:

- A. The Enrollee is hospitalized or otherwise incapacitated, or has a disability as defined by the ADA, Section 504 of the Rehabilitation Act, or Section 1557 of the Affordable Care Act, and as a result is unable to pay premiums during the entire sixty (60) day payment period; has a disability and was not provided with reasonable modifications needed to pay the premium; or has a disability, and there were no reasonable modifications which would have enabled the Enrollee to pay premiums during the entire sixty (60) day payment period;
- B. An individual in the Enrollee’s immediate family who was living in the same home as the Enrollee was institutionalized or died during the sixty (60) day payment period; an immediate family Enrollee living in the same home as the Enrollee has a disability as defined by the ADA, Section 504 of the Rehabilitation Act, or Section 1557 of the Affordable Care Act, and caretaking or other disability-related responsibilities resulted in the Enrollee’s inability to pay the premiums;
- C. The Enrollee was evicted from his or her home or experienced homelessness during the sixty (60) day payment period;

- D. The Enrollee was the victim of a declared natural disaster, such as a flood, storm, earthquake, or serious fire, that occurred during the sixty (60) day payment period; or
- E. The Enrollee was a victim of domestic violence during the sixty (60) day payment period.

The Contractor shall be responsible for educating Enrollees on the good cause reasons for premium non-payment as outlined in paragraphs A through E of this subsection, as well as the process for reviewing and processing premium non-payment good cause requests. Kentucky HEALTH Enrollees may report good cause for premium non-payment to the Cabinet or the Contractor. If the report is made to the Contractor, the Contractor shall complete the following:

- A. Gather the good cause reason reported by the Enrollee;
- B. Determine if the reported reason is in alignment with the non-payment good cause reasons outlined in paragraphs A through E of this subsection;
- C. Determine how many months, and for which months, the good cause reason applies. If a good cause reason only applies to one (1) month, the Contractor shall log the good cause reason for the one (1) month;
- D. Inform the Enrollee of the obligation to provide verification to the Cabinet, the acceptable forms of verification, and the process for submission; and
- E. Send the file to IEES with premium non-payment good cause records in accordance with the Kentucky HEALTH Business Requirements.

The Contractor shall continue to invoice Enrollees with a pending good cause request during the ongoing Batch Invoicing schedule. Because only verified good cause reasons shall be accepted, and these must be reviewed and confirmed by the Cabinet, the Contractor shall continue to invoice the Enrollee and reflect non-payments as Past Due until receipt of verification from the Department that the good cause request has been approved. The Contractor may collect any Debt owed as a result of the good cause non-payment; however, the unpaid amounts shall be considered a Debt owed, rather than a Past Due amount that is required in order to avoid a penalty.

#### **42.8.14 Non-Payment Penalty Early Re-Entry**

Kentucky HEALTH Enrollees subject to a Non-Payment Penalty may re-enter the Premium Plan prior to the expiration of the six (6) month penalty period by completing early re-entry requirements. These early re-entry requirements shall include: (i) payment of any applicable Past Due premium amounts; (ii) payment of one (1) month's future premium payment; and (iii) completion of a Re-Entry Course. Enrollees may only exit the Non-Payment Penalty period once during any Benefit Year.

The Contractor shall not be responsible for providing Re-Entry Courses. Rather, the Contractor shall implement outreach and communication strategies to Enrollees in a Non-Payment Penalty period as described in Section 42.8.7 "Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Periods." Additionally, the Contractor shall ensure that its call center staff are prepared to answer inbound calls from Enrollees in a Non-Payment Penalty period with information regarding the requirements for early re-entry.

#### **42.8.15 4% Maximum Cost Sharing**

In accordance with the Special Terms and Conditions and 42 CFR §447.56, a Kentucky HEALTH Enrollee's total cost sharing shall not exceed four percent (4%) of the Enrollee's MAGI household income applied on a quarterly basis. Upon receipt of a HIPAA 834 file indicating that a Kentucky HEALTH Enrollee has reached the four percent (4%) cost sharing limit, for Kentucky HEALTH Enrollees in the Copayment Plan, the Contractor shall ensure that copayments are no longer collected from the Enrollee and are not deducted from provider

claims reimbursement through the end of the calendar quarter. For Kentucky HEALTH Enrollees enrolled in the Premium Plan, the Contractor shall send monthly premium invoices reflecting a premium obligation of one dollar (\$1.00) for the remainder of the calendar quarter. In the event that a Kentucky HEALTH Enrollee made a premium payment in excess of one dollar (\$1.00) after the five percent (5%) limit has been met, the Contractor shall apply the amount paid over one dollar (\$1.00) to a future coverage month and reflect the credit on the next invoice. The Contractor shall process updated HIPAA 834 files reflecting the reinstatement of cost sharing for the next calendar quarter and begin charging copayments and premiums in accordance with Kentucky HEALTH policies as outlined in this Contract.

#### **42.8.16 Debt Collection**

The Contractor may pursue unpaid premiums for months in which a Kentucky HEALTH Enrollee was fully enrolled but did not make a premium payment. Unpaid premiums during months of conditional eligibility shall not be collected by the Contractor. In pursuing the payment of Debt by an Enrollee, the Contractor shall not: (i) report the Debt to credit reporting agencies; (ii) place a lien on an Enrollee's home; (iii) refer the case to debt collectors; (iv) file a lawsuit; (v) seek a court order to seize a portion of the Enrollee's earnings; or (vi) sell the Debt for collection by a third party.

#### **42.9 MCO Change Policies**

Kentucky HEALTH Enrollees with a mandatory premium contribution and Medically Frail Enrollees may change MCOs without cause if the change is requested prior to (i) the date on which the Enrollee pays an initial premium; or (ii) the date on which the Enrollee has enrolled in Kentucky HEALTH after the sixty (60) day initial payment period has expired. Pregnant Women, Former Foster Youth, Kentucky HEALTH Children and KCHIP Enrollees may change MCOs within the first ninety (90) days of enrollment with an MCO.

All Kentucky HEALTH Enrollees may request disenrollment for cause in accordance with Section 27.13 "Enrollee Request for Disenrollment" and for any reason during the annual open enrollment period. The Department shall not approve retroactive MCO changes for cause for Kentucky HEALTH Enrollees; therefore, the Contractor shall be required to work with the Department to resolve issues related to an Enrollee's disenrollment request prior to a prospective MCO transfer. If an Enrollee is transferred from the Contractor to another MCO, the Contractor shall refund any applicable premium payment received for a future coverage month within thirty (30) days of the Enrollee's last date of participation with the Contractor.

#### **42.10 Kentucky HEALTH Alternative Benefit Plan**

Beginning July 1, 2018, ACA Expansion Enrollees shall receive all services, including coverage criteria, limitations and procedures, identified in the Kentucky HEALTH ABP. In the event that the requirements of the ABP conflict with any of the terms of this Contract, the requirements of the ABP shall prevail.

The ABP shall cover the ten (10) essential health benefits: (i) ambulatory patient services; (ii) Emergency Services; (iii) hospitalization; (iv) maternity and newborn care; (v) mental health and substance use disorder services, including behavioral health treatment; (iv) prescription drugs; (vii) rehabilitative and habilitative services and devices; (viii) laboratory services; (ix) preventive and wellness services and chronic disease management; and (x) pediatric services. The ABP shall also specify and cover additional pregnancy-only benefits which the Contractor shall only make available for ACA Expansion Enrollees who are pregnant. Additionally, the Contractor shall ensure that all ACA Expansion Enrollees under age twenty-one (21) are covered for EPSDT benefits in

accordance with Section 33.1 “EPSDT.” This shall include, but is not limited to, vision and dental coverage which are otherwise not covered under the ABP.

#### **42.10.1 Populations Exempt from Kentucky HEALTH ABP**

The following Kentucky HEALTH Enrollees shall not receive the ABP benefits described in Section 42.10 “Kentucky HEALTH ABP”:

- A. Parents and Caretaker Relatives;
- B. TMA;
- C. Former Foster Youth;
- D. Pregnant Women who are not ACA Expansion Enrollees;
- E. Kentucky HEALTH Children;
- F. KCHIP recipients; and
- G. Medically Frail Enrollees.

The Contractor shall ensure that the Enrollees described in this Section have access to Covered Services in accordance with Section 31 “Covered Services.”

#### **42.11 Non-Emergency Use of the Emergency Room**

To impose copayments and My Rewards Account deductions for non-emergency use of the emergency room, as described in Sections 42.5.3 “Copayments” and 42.15 “My Rewards Account,” the Contractor shall ensure that any hospital in its network providing non-emergency care in its emergency room to a Kentucky HEALTH Enrollee shall first conduct an appropriate medical screening pursuant to 42 CFR §489.24 to determine that the Enrollee does not require Emergency Services. The Contractor shall instruct its provider network of the following emergency room services copayment and My Rewards Account deduction policies and procedures, as well as the circumstances under which the hospital shall waive or return the copayment:

- A. Inform Enrollees in the Copayment Plan of the amount of their cost sharing obligation for non-emergency services provided in the emergency room;
- B. Inform Enrollees with a My Rewards Account that non-emergency visits shall result in a deduction to the My Rewards Account, and the deduction amount shall escalate for each inappropriate visit during the Benefit Year;
- C. Provide the Enrollee with the name and location of an available and accessible alternative non-emergency services provider;
- D. Determine that the alternative provider can provide services to the Enrollee in a timely manner with the imposition of a lesser cost sharing amount; and
- E. Provide a referral to coordinate scheduling for treatment by the alternative provider.

#### **42.12 Medically Frail**

Enrollees who meet the definition of Medically Frail shall be enrolled in Kentucky HEALTH, but shall not be subject to: (i) Community Engagement requirements; (ii) mandatory cost sharing through premiums or copayments; or (iii) enrollment in the ABP. Medically Frail Enrollees may pay premiums in order to access a My Rewards Account. In accordance with 42 CFR §440.315(f), a person shall be determined Medically Frail if the Enrollee has a disabling mental disorder (including serious mental illness); chronic substance use disorder; serious and complex medical condition; or physical, intellectual or developmental disability which significantly impairs the Enrollee’s ability to perform one or more activities of daily living.

As described in the subsections below, Enrollees shall be identified as Medically Frail in one of the following ways: (i) State identification based on eligibility data; (ii) Enrollee self-attestation; and (iii)

Contractor identification through either the Provider Attestation Scoring Tool or Medically Frail Identification Tool.

#### **42.12.1 State Identification of Medically Frail**

Individuals eligible for Kentucky HEALTH who are diagnosed with HIV/AIDs as identified by the Ryan White Program, or receiving Retirement, Survivors and Disability Insurance (RSDI) income based upon a disability, or Enrollees with refugee status following their first year of entrance into the United States, shall automatically be determined Medically Frail at the point of application. The Contractor shall not be responsible for initial confirmation or annual reconfirmation of the Medically Frail status of these Enrollees.

#### **42.12.2 Self-Attestation of Medically Frail**

Applicants and Enrollees who self-attest to chronic homelessness or inability to complete activities of daily living (ADL) and who become otherwise eligible for Kentucky HEALTH will receive six (6) months of Medically Frail status. The Contractor shall verify the Enrollee's Medically Frail status prior to the expiration of the six (6) month period. The Contractor shall provide the results of the verification to the State and to the Enrollee in accordance with Kentucky HEALTH Business Requirements and Section 42.12.3 "Contractor Medically Frail Determination."

#### **42.12.3 Contractor Medically Frail Determination**

Applicants and Enrollees can also self-report a variety of health indicators through the Cabinet operated IEES self-service portal or with the assistance of a DCBS case worker in the IEES worker portal. Upon self-attestation of a physical or behavioral health disorder, the individual will be directed to contact the Contractor to begin the Medically Frail determination process.

Enrollees may also be identified as Potentially Medically Frail through Contractor completion of the HRA, as described in Section 35.1 "Health Risk Assessment." Completion of the HRA and Enrollee self-reporting, with the exception of the self-attestation indicators specified in Section 42.12.2 "Self-Attestation of Medically Frail," does not automatically result in designation of an Enrollee as Medically Frail.

Within thirty (30) days of identification of an Enrollee as Potentially Medically Frail through the HRA, the Contractor shall determine if the Enrollee meets the Medically Frail criteria, utilizing the Medically Frail Identification Tool. If the Medically Frail Identification Tool determines the Enrollee as Possibly Medically Frail, the Contractor shall assist the Enrollee or Conditionally Eligible Enrollee in scheduling an appointment with a medical provider, who shall complete the Provider Attestation. The Contractor shall accept completed Provider Attestations, at a minimum, via fax, mail and electronically. Upon receipt of the Provider Attestation, the Contractor shall process the Provider Attestation through the Provider Attestation Scoring Tool.

The Contractor shall also identify Medically Frail Enrollees through ongoing use, on at least a monthly basis, of the Medically Frail Identification Tool. In utilizing the Medically Frail Identification Tool, the Contractor shall include all claims data, including but not limited to, denied claims, Medicare crossover claims and TPL claims. An Enrollee shall be considered Medically Frail if the Medically Frail Identification Tool identifies the Enrollee as automatically Medically Frail. If the Medically Frail Identification Tool identifies the Enrollee as Possibly Medically Frail, the Contractor shall assist the Enrollee in scheduling an appointment with their medical provider for completion of the Provider Attestation within sixty (60) days.

The Contractor shall notify the Department in accordance with the Kentucky HEALTH Business Requirements when an Enrollee is determined Medically Frail by the Contractor through either the Medically Frail Identification Tool or the Provider Attestation Scoring Tool. Upon receipt of the confirmation, the Department shall transfer the Enrollee to Medicaid State Plan benefits, in accordance with Section 31.1 "Medicaid Covered Services," effective the first day of the month following the Medically Frail confirmation.

Following the Medically Frail determination, the Contractor shall be responsible for notifying the Enrollee, in writing, of the decision, using a Medically Frail notice template developed by the Department. The notice shall include, at minimum, the following information:

- A. The Medically Frail designation decision;
- B. For denials of Medically Frail status, the reasons for the determination and the Enrollee's right to appeal;
- C. A description of any changes to the Enrollee's benefits; and
- D. A description of applicable changes to the Enrollee's cost sharing obligations.

Enrollees with an active My Rewards Account who were enrolled in the Premium Plan prior to a Medically Frail determination shall continue enrollment in the Premium Plan. The Contractor shall ensure, in accordance with Section 42.8.1 "Batch Invoicing," that premium invoices sent to the Enrollee following the Medically Frail determination clearly indicate that the premium obligation is optional, including consequences for non-payment. Enrollees determined Medically Frail who have a suspended My Rewards Account shall continue to have their My Rewards Account suspended, but shall no longer be responsible for copayments for services received.

#### **42.12.4 Ongoing Review**

Enrollees determined Medically Frail by the Contractor shall be deemed Medically Frail for twelve (12) months. The Contractor shall utilize the Medically Frail Identification Tool and Provider Attestation Scoring Tool to review the status of all Medically Frail Enrollees prior to the expiration of their twelve (12) month period. Enrollees who are reconfirmed Medically Frail shall receive an additional twelve (12) month Medically Frail determination.

The Contractor shall track when it identifies Enrollees whose Medically Frail status has ended prior to the end of the twelve (12) month period through the monthly run of the Medically Frail Identification Tool or via the Provider Attestation as described in Section 42.12.3 "Contractor Medically Frail Determination." If the Contractor determines that the Enrollee's Medically Frail status has ended, the Enrollee shall lose the Medically Frail designation effective the first day of the month following the determination. The Contractor shall notify the Enrollee of the denial in accordance with Section 42.12.3 "Contractor Medically Frail Determination."

Additionally, the Contractor shall review all Kentucky HEALTH Children, KCHIP Enrollees and Former Foster Youth at least thirty (30) days prior to aging out of their eligibility category and Pregnant Women prior to the end of their postpartum period to determine if they are Medically Frail.

#### **42.12.5 Department Audit**

The Department shall conduct regular audits of the Contractor's Medically Frail assessment and confirmation process pursuant to Section 42.12.3 "Contractor Medically Frail Determination" to determine appropriate identification and placement of Medically Frail Enrollees. The Department may subcontract this audit function.

#### **42.13 Community Engagement Initiative**

The Contractor shall:

- A. Communicate Community Engagement requirements through the Enrollee handbook and other Enrollee education materials;
- B. Suspend premium invoicing if an Enrollee enters a Community Engagement Suspension status, as communicated on the HIPAA 834. However, the Contractor shall continue invoicing other Enrollees in the same case who have a premium obligation;
- C. Conduct outreach to Enrollees in a Community Engagement Suspension in accordance with the Department-approved outreach plan described in Section 42.8.7 "Invoicing and Outreach During Kentucky HEALTH Penalty and Suspension Period;"
- D. Reinstate Batch Invoicing upon notice of an Enrollee's Community Engagement Suspension as defined in the Kentucky HEALTH Business Requirements;
- E. Ensure that the Enrollee call center can address basic Enrollee inquiries regarding Community Engagement, including, but not limited to:
  1. Community Engagement requirements;
  2. Applicable exemptions and how to report meeting an exemption requirement;
  3. How to report Community Engagement hours;
  4. How to avoid Community Engagement Suspension when an Enrollee falls short in a given month;
  5. How to appeal a Community Engagement Suspension;
  6. Providing referrals to the appropriate State or vendor Community Engagement resources; and
  7. Requirements for early re-entry from a suspension status.

#### **42.14 Deductible Account**

The Contractor shall establish a Deductible Account for all Kentucky HEALTH Enrollees except for Kentucky HEALTH Children, KCHIP Enrollees, and Pregnant Women. The beginning balance of a Deductible Account shall be one thousand dollars (\$1,000), regardless of a Kentucky HEALTH Enrollee's date of enrollment. The Contractor shall track the first one thousand dollars (\$1,000) of non-preventive services received by Enrollees with a Deductible Account and deduct such expenses from the Deductible Account balance. The Contractor shall ensure that the amount deducted for each non-preventive service received equals the actual dollar amount that the Contractor reimbursed to the provider and is not based on the Department's fee-for-service schedule. The Contractor shall not deduct expenses for any preventive services received from the Deductible Account. For purposes of this requirement, the definition of preventive services shall be developed by the Department based on U.S. Preventive Services Task Force (USPSTF) and Centers for Disease Control (CDC) age and gender appropriate preventive services. The Contractor shall comply with the list of preventive services provided by the Department and any updates thereto.

Kentucky HEALTH Enrollees who become pregnant shall have their Deductible Account frozen during their pregnancy and through their sixty (60) day post-partum period. The Contractor shall ensure that healthcare expenses are not deducted from the Deductible Account of a female Enrollee during her pregnancy. Kentucky HEALTH applicants who are pregnant at the time of application shall not have a Deductible Account established until the close of their sixty (60) day post-partum period.

The Contractor shall send a monthly Deductible Account statement to all Kentucky HEALTH Enrollees by the tenth day of each month, utilizing the Department's standardized template. The statement shall be sent in the preferred mode selected by the Enrollee, either via mail or electronically. The Deductible Account statement shall list, at minimum: (i) the previous statement balance; (ii) claims applied to the account during the time period in which the statement applies,

including pharmacy claims; (iii) the remaining Deductible Account balance; (iv) an explanation of benefits (EOB) summary for all services received by the Enrollee during the statement period; and (v) the Contractor's helpline number for Kentucky HEALTH Enrollees to contact with questions or concerns regarding the statement.

The Contractor shall continue to send the Deductible Account Statement monthly, even after the full balance has been depleted. The Contractor shall not display a negative Deductible Account balance; rather, the balance shall be displayed as zero dollars (\$0) when funds have been depleted. Exhaustion of the Deductible Account before the end of the Enrollee's Benefit Year shall not change the Contractor's covered service requirements, and the Contractor shall continue to ensure that the Enrollee is able to access covered services.

The Contractor shall implement mechanisms to ensure that its call center staff are able to view an Enrollee's Deductible Account balance and relevant transactions in order to assist with Enrollee phone calls related to the Deductible Account.

To encourage the appropriate utilization of healthcare services, Kentucky HEALTH Enrollees are eligible to have up to one-half of their remaining Deductible Account balance transferred to their My Rewards Account following the close of the Benefit Year. Enrollees with a My Rewards Account that is suspended or inactive shall not be eligible for such a transfer. The percentage of the Deductible Account balance eligible for transfer to a My Rewards Account shall be based on the number of active months of the Enrollee's enrollment in Kentucky HEALTH within a Benefit Year. For purposes of this requirement, active months are months in which an Enrollee is not disenrolled or in a suspension status. Ninety (90) days after the end of the calendar year, the Contractor shall transmit all Deductible Account balances maintained by its Kentucky HEALTH Enrollees to the Department's designee in accordance with the Kentucky HEALTH Business Requirements. The Contractor shall continue to process claims received after this transmission, but shall not be responsible for continuing to track such expenditures against Deductible Accounts.

In the event that a Kentucky HEALTH Enrollee with a Deductible Account changes MCOs during a Benefit Year, the Enrollee's Deductible Account balance information shall transfer to the Enrollee's new MCO. To facilitate this transfer, the Contractor shall transmit the Enrollee's Deductible Account balance information in accordance with the Kentucky HEALTH Business Requirements. The Contractor shall not be required to track expenditures against the Enrollee's Deductible Account from the effective date of the Enrollee's transfer to another MCO, although the Contractor shall remain responsible for claims incurred prior to the date of transfer.

Pregnant Enrollees who are in a penalty status from their previous enrollment, however, shall not be eligible for a My Rewards Account, unless they complete a Re-Entry Course.

The My Rewards Account may be utilized by Enrollees to access the following services:

- A. Routine dental benefits;
- B. Routine vision benefits;
- C. Limited reimbursement for fitness activities; and
- D. Other services designated by the Department.

Only ACA Expansion Enrollees receiving ABP benefits shall be required to utilize the My Rewards Account to access routine dental and vision benefits. The Contractor shall be responsible for

providing routine dental and vision services for all other Kentucky HEALTH Enrollees, as described in Section 42.10.1 “Populations Exempt from Kentucky HEALTH ABP,” and including ACA Expansion Enrollees who are pregnant or nineteen (19) or twenty (20) years of age. The Contractor shall ensure that if claims are submitted to the Contractor, or any applicable subcontracted entities, for dental or vision services for ACA Expansion Enrollees, the denial reason codes and explanations shall be clear that while benefits are not reimbursed by the Contractor, reimbursement may be available through the My Rewards Account.

Kentucky HEALTH Enrollees may accrue funds in their My Rewards Account by completing activities as outlined in the Kentucky HEALTH Business Requirements. The Contractor shall not be responsible for operating the My Rewards Account; however, the Contractor shall provide customer service and transmit data, in accordance with the Kentucky HEALTH Business Requirements, regarding Enrollee participation in My Rewards Account accrual activities.

Activities eligible for My Rewards Account accrual shall be subject to change by the Department, and the Department shall provide the Contractor sixty (60) days advance notice of any such modification. The Contractor shall comply with all modifications to the activities eligible for accrual and shall begin communicating Enrollee completion of new activities for which the Contractor is responsible to the Department immediately upon the modification effective date.

Deductions shall be taken from an Enrollee’s My Rewards Account for improper use of hospital emergency room services. The Contractor shall educate its provider network regarding this My Rewards Account deduction policy and ensure compliance with the requirements of Section 42.11 “Non-Emergency Use of the Emergency Room.” The deduction shall be applied based on the number of improper visits as described in the table below.

1st visit	\$20
2nd visit	\$50
3rd visit or more	\$75

The Contractor shall review paid emergency room claims against the Department established list of ICD-10 diagnoses, which indicate non-emergent use of the emergency room. If the Contractor's review determines that the emergency room claim included a primary diagnosis on the non-emergent diagnosis list, the Contractor shall verify whether the Enrollee contacted the twenty-four (24) nurse hotline described in Section 23.1 "Required Functions" within twenty-four (24) hours prior to the emergency room visit. If such a call was made, the visit shall be treated as a valid emergency room visit and the Enrollee shall not be subject to a My Rewards Account deduction. If no call was made to the nurse hotline, the emergency room visit shall be considered improper, and an Enrollee with an active My Rewards Account on the date of service shall be subject to a My Rewards Account deduction. Notwithstanding this policy, if a behavioral health diagnosis is included on the emergency room claim, the visit shall be considered appropriate, and the Enrollee shall not be subject to a My Rewards Account deduction, regardless of whether the primary diagnosis on the claim is included on the non-emergent diagnosis list. The Contractor shall communicate inappropriate use of the emergency room by an Enrollee to IEES in accordance with the Kentucky HEALTH Business Requirements.

The Contractor shall comply with any updates to the non-emergent diagnoses list in accordance with any future modifications made by the Department. The Department shall provide thirty (30) days advance notice to the Contractor of any such modifications.

Kentucky HEALTH Enrollees shall be exempted from the six (6) month recertification penalty period if they meet a just cause exemption, as defined by the Department. Additionally, Kentucky HEALTH Enrollees may complete a Re-Entry Course to initiate early re-entry into Kentucky HEALTH prior to the expiration of the six (6) month recertification penalty period.

To facilitate the continuous enrollment of Kentucky HEALTH Enrollees, and to minimize the number of Enrollees subject to the recertification penalty, the Contractor is encouraged to assist Enrollees in the recertification process. Permitted assistance may include:

**Third Party Liability (TPL) Subsystem**

In order to ensure that federal third party liability requirements are met and to maximize savings from available Third Party Resources, identification and recovery of Third Party Resources must be a joint effort between the Department and the Contractor. The Department will provide Contractor with the Medicare effective dates.

The Third Party Liability (TPL) processing function permits the Contractor to utilize the private health, Medicare, and other third-party resources of its Members and ensures that the Contractor is the payer of last resort. This function works through a combination of cost avoidance (non-payment of billed amounts for which a third party may be liable) and post-payment recovery (post-payment collection of Contractor paid amounts for which a third party is liable).

Cost avoidance is the preferred method for processing claims with TPL. This method is implemented automatically by the MIS through application of edits and audits which check claim information against various data fields on recipient, TPL, reference, or other MIS files. Post-payment recovery is primarily a back-up process to cost avoidance, and is also used in certain situations where cost avoidance is impractical or unallowable.

The TPL information maintained by the MIS must include Member TPL resource data, insurance carrier data, health plan coverage data, threshold information, and post payment recovery tracking data. The TPL processing function will assure the presence of this information for use by the Edit/Audit Processing, Financial Processing, and Claim Pricing functions, and will also use it to perform the functions described in this subsection for TPL Processing.

A. Inputs

The following are required inputs to the TPL function of the MIS:

1. Member eligibility, Medicare, and TPL, information from the Department via proprietary file formats.
2. Enrollment and coverage information from private insurers/health plans, state plans, and government plans.

  - diagnosis codes, procedure codes, or other indicators suggesting trauma or accident;
  - indication that a TPL payment has been made for the claim (including Medicare);
  - indication that the Member has reported the existence of TPL to the Provider submitting the claim;
  - indication that TPL is not available for the service claimed.

The computerized database must contain and hold a complete and accurate representation of all services covered by the Contractor, and by all providers and Subcontractors rendering services for the contract period. The Contractor shall be responsible for monitoring the integrity of the database and facilitating its appropriate use for such required reports as encounter data, and targeted performance improvement studies.

Contractor shall comply with the requirements of 42 CFR 455.20 (a) by employing a selected sample method approved by CMS and the Department of verifying with Members whether the services billed by provider were received.

The utilization/quality improvement subsystem combines data from other subsystems, and/or external systems, to produce reports for analysis which focus on the review and assessment of access, availability and continuity of services, quality of care given, detection of over and underutilization of services, and the development of user-defined reporting criteria and standards. This system profiles

utilization of Providers and Members and compares them against experience and norms for comparable individuals.

**Edit/Audit Processing**

The Claims processing subsystem collects, processes, and stores data on all health services delivered. The functions of this subsystem are Claims payment processing and capturing medical service utilization data. Claims are screened

against the provider and Member subsystems. The Claims processing subsystem captures all medically related services, including medical supplies, using standard codes (e.g. HCPCS, ICD9-CM/ICD-10 CM/PCS diagnosis and procedure code, Revenue Codes, ADA Dental Codes and NDCs) rendered by medical providers to a Member regardless of remuneration arrangement (e.g. capitation/fee-for-service). The Contractor shall be required to electronically transmit Encounter Record to the Department on a weekly basis, or on a department approved schedule that is determined by the Contractor's financial schedule.

The Contractor's Claims processing/encounter subsystem shall contain such items as: apply edit and audit criteria to verify timely, accurate and complete Encounter Record; edit for prior-authorized Claims; identify error codes for Claims.

The Edit/Audit Processing function ensures that Claims are processed in accordance with Department and Contractor policy and the development of accurate encounters to be transmitted to the department. This processing includes application of non-history-related edits and history-related audits to the Claim. Claims are screened against Member and Provider eligibility information; pending and paid/denied claims history; and procedure, drug, diagnosis, and edit/audit information. 2. Edit to assure that the services for which payment is requested are covered.
3. Edit to assure that all required attachments are present.
4. Maintain a function to process all Claims against an edit/audit criteria table and an error disposition file (maintained in the Reference Data Maintenance function) to provide flexibility in edit and audit processing.
5. Edit for prior authorization requirements and to assure that a prior authorization number is present on the Claim and matches to an active Prior Authorization on the MIS.

6. Edit Prior-Authorized claims and cut back billed units or dollars, as appropriate, to remaining authorized units or dollars, including Claims and adjustments processed within the same cycle.
7. Maintain edit disposition to deny Claims for services that require Prior Authorization if no Prior Authorization is identified or active.
8. Update the Prior Authorization record to reflect the services paid on the Claim and the number of services still remaining to be used.
9. Perform relationship and consistency edits on data within a single Claim for all Claims.
10. Perform automated audit processing (e.g., duplicate, conflict, etc.) using history Claims, suspended Claims, and same cycle Claims.

12. Identify exact duplicate claims.
13. Perform automated audits using duplicate and suspect-duplicate criteria to validate against history and same cycle claims.
14. Perform all components of National Correct Coding Initiative (NCCI) edits
15. Maintain audit trail of all error code occurrences linked to a specific Claim line or service, if appropriate.
16. Edit and suspend each line on a multi-line Claim independently.

18. Identify and track all edits and audits posted to the claim from suspense through adjudication.
19. Update Claim history files with both paid and denied Claims from the previous audit run.
20. Maintain a record of services needed for audit processing where the audit criterion covers a period longer than thirty-six (36) months (such as once-in-a-lifetime procedures).
21. Edit fields in Appendices D and E for validity (numerical field, appropriate dates, values, etc.).

### **Claims Pricing**

This Appendix was developed to provide, for illustration purposes only, the Contractor with a summary of currently covered Kentucky Medicaid services and to communicate guidelines for the submission of specified Medicaid reports. The summary is not meant to act, nor serve as a substitute for the then current administrative regulations and the more detailed information relating to services which is contained in administrative regulations governing provision of Medicaid services (907 KAR Chapters 1, 3 4, 8, 9, 10, 11, 13, 15 and 17) and in individual Medicaid program services benefits summaries incorporated by reference in the administrative regulations. If the Contractor questions whether a service is a Covered Service or Non-Covered Service, the Department reserves the right to make the final determination, based on the then current administrative regulations in effect at the time of the contract.

Administrative regulations and incorporated by reference Medicaid program services benefits summaries may be accessed by contacting:

Kentucky Cabinet for Health and Family Services  
Department for Medicaid Services  
275 East Main Street, 6th Floor

## APPENDIX I. TRANSITION/COORDINATION OF CARE PLANS

Upon receipt of a HIPAA 834 indicating that a Member is transferring from one Medicaid Managed Care Organization (Former MCO) to another MCO (New MCO), the Former MCO shall be responsible to contact the New MCO, the recipient and the recipient's providers in order to transition existing care. A Prior Authorization (PA) shall be honored by the New MCO for 90 days or until the recipient or provider is contacted by the New MCO regarding the PA. If the recipient and provider are not contacted by the New MCO, the existing Medicaid PA shall be honored until expired.

### **Hospital Admission Prior to the Member's Transition.**

If the Member is an in-patient in any facility at the time of transition, the entity responsible for the Member's care at the time of admission shall continue to provide coverage for the Member at that facility, including all Professional Services, until the recipient is discharged from the facility for the current admission. An inpatient admission within fourteen (14) calendar days of discharge for the same diagnosis shall be considered a "current admission." The "same diagnosis" is defined as the first five digits of a diagnosis code.

### **Outpatient Facility Services and Non-Facility Services**

Effective on the Member's Transition date, the New MCO will be responsible for outpatient services both facility and non-facility. Outpatient reimbursement includes outpatient hospital, ambulatory surgery centers, and renal dialysis centers.

### **Nursing Homes**

Eligibility for Long Term Care in a Nursing Facility (NF) includes some financial requirements not needed for basic Medicaid eligibility. When an eligible member enters an NF the facility must receive a Level of Care (LOC) determination to ensure the member meets medical criteria for Nursing Facility. That LOC is passed electronically to the DCBS eligibility worker, triggering the eligibility determination for this additional benefit. That determination can generally be completed within thirty days. *Once LTC eligible, worker entries exempt the member from managed care effective with the next feasible month.* If the worker action is completed prior to cut off (eight business days before the end of the month), managed care ends at the last day of current month. If the action is after cut off, managed care ends the last day of the following month. During this transition, the MCO will be responsible for ancillary, physician and pharmaceuticals charges and the Department will reimburse for those services billed by Nursing Facility. Once exempt from Managed Care, the Department will be responsible for all eligible services associated with this recipient.

### **Waiver Participation**

1915(c) Home and Community Based Services Waiver programs are simply added benefits for eligible members; however, the action that exempts those members from being subject to Managed Care resides with the DCBS eligibility

worker. These services require a Level of Care (LOC). The LOC is passed electronically to the DCBS eligibility worker; receipt of the LCO triggers the eligibility worker to complete entries within the eligibility system. Those entries exempt the member from managed care effective the next feasible month. If the worker action is completed prior to cut off (eight business days before the end of the month), managed care ends at the last day of current month. If the action is after cut off, managed care ends the last day of the following month. During this transition, the MCO will be responsible for all services except the additional Waiver benefits. The Waiver Services will be paid by the Department as fee for service. Coding in our billing system allows the Waiver Service to be processed during the transition period, once the eligibility worker has completed the necessary entries. Once exempt from Managed Care the Department will be responsible for all services associated with this recipient.

### **Transplants**

Follow up care provided on or after the Member's Transition that is billed outside the Global Charges, will be the responsibility of the New MCO.

### **Eligibility Issues**

For a Member who loses eligibility during an inpatient stay, an MCO is responsible for the care through discharge if the hospital is compensated under a DRG methodology or through the day of ineligibility if the hospital is compensated under a per diem methodology.

Reporting Criteria:

General Specifications	Definition
Date Format	All report dates not otherwise specified are to be in the following format: mm/dd/yyyy
<List Other by Name>	The report is to include all Main/Trunk lines that the MCO or the MCO subcontractors maintain. Additional sections of the report are to be added as needed.

Row Label	Description
Number of Calls	Number of calls received including answered, abandoned and blocked.
Number of Calls Abandoned	Calls into the call centers that are terminated by the persons originating the call before answer by a staff person. (URAC standards measure this as the calls that disconnect after 30 seconds when a live individual would have answered the call. If there is a pre-recorded message or greeting for the caller, the 30-second measurement begins after the

	message/greeting has ended).
% Abandoned Calls	The percentage of calls into the call center that are terminated by the persons originating the call before answer by a staff person. (URAC standards measure this as the percentage of calls that disconnect after 30 seconds when a live individual would have answered the call. If there is a pre-recorded message or greeting for the caller, the 30-second measurement begins after the message/greeting has ended)
Average Speed to Answer (seconds)	The average delay in seconds that inbound telephone calls encounter waiting in the telephone queue of a call center before answer by a staff person (URAC measures the speed of answer starting at the point when a live individual would have answered the call. If there is a pre-recorded message or greeting for the caller, the time it takes to respond to the call – average speed of answer – begins after the message/greeting has ended).
Highest Maximum Delay (minutes)	The one call during the reporting period that had the greatest delay in speed to answer measured in minutes.
% Calls Answered on or before 4th Ring	The percentage of calls answered on or before the fourth ring.
% Calls Receiving Busy Signal	The percentage of incoming telephone calls 'blocked' or not completed because switching or transmission capacity is unavailable, as compared to the total number of calls encountered. Blocked calls usually occur during peak call volume periods and result in callers receiving a busy signal.
% Calls Answered within 30 Seconds	The percentage of calls answered within thirty seconds.
Average Length of Call (minutes)	The average length of all calls answered measured in minutes.

Column Label	Description
Total All Incoming Calls/VDN	Report a total for all incoming calls to the Main/Trunk line.
<name of split>	A separate column needs to be added to the report for each individual Split/VDN maintained for the Main/Trunk line.
mm/yyyy	The reporting period represented by a two character number for the month (mm) and a four character number for the year (yyyy). Example: January 2012 would be represented as 01/2012.

## Introduction

Wakely has been retained by the Commonwealth of Kentucky, Department for Medicaid Services (DMS) to provide actuarial and consulting services related to the development of capitation rates for its Medicaid Managed Care Program effective April 1, 2019 through June 30, 2020 (Apr19-Jun20). This report summarizes the key features of the Kentucky HEALTH 1115 Waiver impacting the capitation rates and serves as a supplement to the document “Wakely - KY Rate Certification Apr19-Jun20.pdf” which includes documentation and the actuarial certification for the development of the actuarially sound capitation rates as required under 42 CFR 438.4 and Actuarial Standard of Practice (ASOP) 49. That document describes the rate development for the rating period Apr19-Jun20 based on the current Medicaid managed care contract, prior to the effectuation of the Kentucky HEALTH 1115 Waiver proposed by the Commonwealth of Kentucky.

At the time of this report, the approval and implementation timeline for Kentucky HEALTH has not yet been finalized. Therefore, **all estimates presented in this document are intended for illustrative purposes only**. Wakely has developed illustrative capitation rates for the Apr19-Jun20 period under the scenario that Kentucky HEALTH had been effective April 1, 2019. The enclosed file “Wakely Appendix 1 - KY Medicaid Apr19-Jun20 - Illustrative Waiver Ratebook.xlsx” includes additional detail related to the illustrative rate development. This report provides policy information and documentation related to changes in the development of the actuarially sound capitation rates due to the Kentucky HEALTH 1115 Waiver. Due to the uncertainty around the timing of the Kentucky HEALTH program implementation, all capitation rates should be considered illustrative and are subject to change based on final Kentucky HEALTH approval, timing, possible changes to program details, and associated assumptions.

## Limitations

The information contained in this report was prepared as documentation that supports the development of the illustrative actuarially sound capitation rate ranges for the Commonwealth of Kentucky’s Medicaid managed care program. The information may not be appropriate for any other purpose.

The information contained in this report, including the exhibits, has been prepared for the Kentucky Department for Medicaid Services (DMS) and their advisors. It is our understanding that the information contained in this report may be utilized in a public document. To the extent that the information contained in this report is provided to third parties, the report should be distributed in its entirety. Any user of the data must possess a certain level of expertise in actuarial science and healthcare modeling so as not to misinterpret the data presented.

Wakely makes no representations or warranties regarding the contents of this report to third parties. Likewise, third parties are instructed that they are to place no reliance upon this report

prepared for DMS by Wakely that would result in the creation of any duty or liability under any theory of law by Wakely or its employees to third parties.

The illustrative capitation rates may not be appropriate for any individual MCO. Results will differ if actual experience is different from the assumptions contained in the capitation rate setting documentation. Each MCO should evaluate the rates in the context of their own experience, expenses, capital and surplus, and profit requirements prior to agreeing to contract with DMS. Wakely provides no guarantee, either written or implied, that the data and information is 100% accurate or error free.

Wakely has relied on information provided by DMS and the participating Medicaid MCOs in the development of the illustrative capitation rates. We have relied upon DMS and the MCOs for the accuracy of the data provided. We have reviewed the data for reasonableness, but have not performed any independent audit or otherwise verified the accuracy of the data/information. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete. To the extent that the data provided is not accurate, the capitation rate development would need to be modified to reflect the revised information.

Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in this analysis.

Guidelines issued by the American Academy of Actuaries require actuaries to include their professional qualifications in all actuarial communications. The authors of this report are members of the American Academy of Actuaries and meet the qualification standards for performing the analyses contained herein.

## Illustrative Rate Summary

A summary of the illustrative Medicaid managed care capitation rates by category of aid for the Apr19-Jun20 rate period are shown in Table 1 below. Note, the rate cell structure applicable to Kentucky HEALTH differs from the current Medicaid managed care rate structure. The composite rates shown are based on statewide projected Apr19-Jun20 enrollment under the assumption that Kentucky HEALTH was effective April 2019. The rates displayed exclude supplemental payments and the Health Insurer Fee (HIF).

## Kentucky HEALTH Program Description

Kentucky's Section 1115 Waiver program is referred to as **Kentucky HEALTH: Helping to Engage & Achieve Long Term Health**. The following key changes have been incorporated in the illustrative Waiver capitation rates and enrollment projections, assuming the Kentucky HEALTH program was implemented on April 1, 2019. To the extent that such program provisions change, it is possible that such changes will impact the projected rates and projected enrollment. In addition, any changes to the phase-in schedule will also impact these rates and enrollment. As of April 1, 2019, provisions impacting benefits and eligibility and enrollment criteria for applicable members under the Waiver are as follows:

- **Medically frail determination.** Beginning in early 2018, MCOs implemented identification procedures for Medically frail individuals. A person will be determined medically frail if the individual has a disabling mental disorder, chronic substance use disorder, serious and complex medical conditions or a physical, intellectual or developmental disability that significantly impairs their ability to perform activities of daily living. Persons who are chronically homeless are also considered medically frail. Medically frail members will be exempt or have optional participation in several aspects of the Kentucky HEALTH program.
- **Premium Plan.** Most Kentucky HEALTH adults will be initially enrolled in the premium plan and required to pay a monthly premium. Premiums will be based on income and duration of enrollment. Members in the premium plan will not be subject to copayments and will be eligible for My Rewards. Pregnant women, children, and presumptive eligible members are exempt from premiums, and medically frail members have the option to participate in the premium plan. Kentucky HEALTH adults above 100% federal poverty level (FPL) who are otherwise non-exempt from the premium plan will be disenrolled after 60 consecutive days of non-payment of premiums. These members have the ability to be re-enrolled by paying for missed

premium payments.

- Copayment Plan. Kentucky HEALTH adults below 100% FPL cannot be disenrolled for non-payment of premium but will move to a Copayment Plan for premium non-payment. Members in the Copayment Plan are subject to all copayments under the state plan.
- Community Engagement requirements. Kentucky HEALTH adults will be expected to meet community engagement requirements in order to retain Medicaid coverage. Several exemptions exist, including but not limited to: children, medically frail, pregnant women, members over age 64, former foster care youth, primary caregivers and full-time students. The community engagement requirements are assumed to be phased in by geographic area according to the schedule shown in Appendix 2. Members will have a 90-day grace period for non-compliance with community engagement requirements, after which eligibility will be suspended.
- My Rewards. Kentucky HEALTH members enrolled in the premium plan will have access to a benefit account referred to as My Rewards. Members can earn funds by completing qualifying activities such as health goals, obtaining preventive services, and exceeding Community Engagement requirements. My Rewards funds can be used to access certain dental and vision services, and for optional benefits such as gym memberships.
- Retroactive eligibility. Claims for retroactive time periods up to 3 months prior to a member's date of application for Medicaid eligibility will no longer be covered for Kentucky HEALTH adults, with the exception of pregnant women and former foster care youth.
- Waiver of copayments. Copayments will be waived for medically frail, former foster care youth and transitional medicaid assistance (TMA) population groups.
- Dental and vision benefits. Dental and vision benefits will be shifted to My Rewards for Kentucky HEALTH Expansion Adults age 21 and over.

The five-year Waiver demonstration period includes a randomized control trial (RCT), consisting of approximately 42,350 individuals randomly selected who would otherwise qualify for the Kentucky HEALTH program. These RCT members will be excluded from the Kentucky HEALTH requirements and will experience no changes from current Medicaid benefits. Additionally, survivors of domestic violence and refugees will have the same benefits and cost sharing requirements as the medically frail population. SSI Children and Adults, Dual Eligible, and Foster Care Children are excluded from Kentucky HEALTH.

## Kentucky HEALTH Capitation Rate Structure

In order to increase credibility and stability of experience within each rate cell, and to align with Kentucky HEALTH, a revised rate cell structure is anticipated to be incorporated when the Waiver becomes effective. Appendix 3 includes a summary of eligibility group by type of assistance (TOA)

code.

A separate delivery payment will also be incorporated as part of the rate cell structure changes. MCOs will receive a single payment associated with a delivery event, excluding deliveries for Dual Eligible members. The delivery payment rate reflects estimated costs for professional and institutional claims for specified procedure codes and DRGs. The payment rate will account for multiple births and stillbirths in a single payment, but will not account for claims incurred by the newborn baby. The separation of a delivery payment is budget neutral to the overall capitation rate development and therefore has no impact on the estimated total program costs. The delivery payment will not be risk adjusted and will not include supplemental payments. Separate delivery payments were developed for regions A and B, but do not vary by eligibility group. Appendix 1, Exhibit 9 includes the Apr19-Jun20 delivery payment and estimated deliveries based on the criteria shown in Appendix 4.

Modifications to the recommended rate cell structure, including the criteria for delivery payment, are subject to change in the future.

## Projected Benefit Costs

Please see “Wakely - KY Rate Certification Apr19-Jun20.pdf” for a detailed description of the development of rates effective April 1, 2019 through June 30, 2020. The data, assumptions, and methodologies described in that report serve as the basis for determining the illustrative Waiver rate estimates. Additional assumptions are then applied to develop the Waiver rate estimates. The following list describes the additional data, assumptions and methodologies used to determine adjustments for each program change associated specifically with the Waiver. For purposes of developing the illustrative rates, Wakely assumed the Waiver was effective April 1, 2019.

### **Removal of Retroactive Eligibility Requirements for Kentucky HEALTH Adults.**

Medicaid eligible members currently can request retroactive coverage up to 3 months prior to the application date. With the implementation of Kentucky HEALTH, this policy for retroactive eligibility will be eliminated for most Kentucky HEALTH adults. Retroactive eligibility will still be available for pregnant women, children, and former foster care youth. The policy for Non Kentucky HEALTH members will be unchanged. Wakely was provided eligibility data on retroactive eligibility in the base period. We excluded both the member months and the associated claims for historical retroactivity. The estimated impact of this change was approximately -1.5% for the Kentucky HEALTH population.

**My Rewards Dental and Vision Benefit Changes.** Kentucky HEALTH seeks to provide its members with a commercial health insurance experience to better prepare members for a transition to the commercial health insurance market. In support of this goal, eligible

Kentucky HEALTH members will have access to an account referred to as “My Rewards”. The My Rewards account allows eligible members to access an array of enhanced health benefits that otherwise are not covered under a member’s eligible benefit plan. Certain dental and vision services that were previously covered by the managed care program, will no longer be covered and instead will be provided via the member’s My Rewards account. This change is applicable to Kentucky HEALTH Expansion Adults age 21 and older, excluding medically frail and pregnant women. Wakely excluded the dental and vision procedure codes that will no longer be the responsibility of the MCOs under the Kentucky HEALTH program. The impact of this adjustment was approximately -0.5% for the Kentucky HEALTH population.

**Kentucky HEALTH Base Capitation Rates Gross of Premiums and Copays.** The Kentucky HEALTH program includes three cost sharing options depending on member characteristics and eligibility: (1) Premium Plan, (2) Copay Plan, and (3) No Cost Share. The No Cost Share plan includes children, pregnant women, and medically frail or former foster care members choosing not to pay premiums. All other members initially default to the Premium Plan. For adult members above 100% of federal poverty level (FPL), non-payment of premium can result in disenrollment from Kentucky Medicaid, if corrective action is not taken within the penalty period. Members below 100% of FPL that do not pay premiums will be shifted to the Copay Plan and will not lose coverage.

Wakely developed base capitation rates gross of any premiums or copays for the Kentucky HEALTH adult population. This adjustment represents an increase of approximately 0.4% for the Kentucky HEALTH population.

Kentucky HEALTH members in the premium plan will have premium payments based on FPL and duration of enrollment. The premium calculation will be determined during eligibility determination, and MCOs will invoice members for this amount. DMS will reduce the capitation paid to MCOs for this calculated premium amount for each member in the Premium Plan. Similar to members in the premium option, DMS will reduce the capitation paid to MCOs for the estimated average copay for applicable Kentucky HEALTH adults in the Copay Plan.

The total projected benefit costs are provided by region and rate cell in Appendix 1 (Exhibits 6A – 6C). These exhibits show the estimated impact of the trend and program change adjustments used to determine the projected benefit costs.

## Projected Non-Benefit Costs

The administration costs were increased to include additional costs associated with several new MCO contract requirements to support the Kentucky HEALTH 1115 Waiver program implementation. The additional administration costs include expenses for community engagement efforts, medically frail population identification, the My Rewards program, additional mailers,

member outreach and communication, new reporting and MMIS interface requirements, as well as other ancillary costs as a result of the Waiver. The total increase in administration costs is approximately \$33.7 million annually.

Administrative costs were allocated to the new delivery payment based on the estimated variable portion of the administration as a percentage of premium for the rate cells that include women of child bearing age. Based on a review of the MCO submitted financial reports, it was assumed that 30% of the administration is related to variable costs. This results in a delivery administration range of 3.4%-3.7%. The delivery administration amount was then converted to dollars based on the projected deliveries in the contract period, and removed from the projected Apr19-Jun20 administration dollars for the rate cells that included women of child bearing age. This re-allocation of administration dollars was budget neutral, meaning there were no additional administration dollars included in the Apr19-Jun20 illustrative capitation rates for the delivery payments.

Table 2 shows the administration costs as a percentage of revenue, prior to any state or federally mandated premium fees or assessments. The table includes both the lower and upper bounds of the rate range.

**Table 2: Summary of Administration Cost Percentage by Category of Aid  
(excluding margin, assessments, and taxes)**

Upper Bound	10.5%	10.3%	9.4%	7.8%	7.9%	9.1%	3.7%

## Other Rate Development Considerations

**Data Smoothing.** The data was examined for distortions resulting from rate cells with small population sizes or outlier claims. While most capitation rate cells were determined to be credible on their own, additional smoothing was performed on a budget neutral basis to improve the credibility of small rate cells. Costs were redistributed between the 0-2 month, 3-12 month and over age 1 rate cells for SSI Child and Foster Care Children based on statewide relativities on a budget neutral basis. In addition, the experience for the two infant rate cells were combined for Kentucky HEALTH children and KCHIP children in order to achieve greater credibility.

The rate cell relativities and the calculation of all combined rate cells are illustrated in Appendix 1, Exhibit 8.

**Risk Adjustment.** Capitation rates will be risk adjusted based on encounter data to account for differences in the morbidity of the populations between MCOs. Details around

risk adjustment timing and data sources are subject to change, pending the final effective date of the Waiver.

**Retrospective Acuity Adjustment.** The introduction of the Kentucky HEALTH 1115 Waiver includes a number of program changes which are expected to impact enrollment and potentially member behavior. Due to the significant uncertainty about the risk of the population as the Waiver provisions are implemented and phased-in, and consistent with guidance from the CMS 2018-2019 Medicaid Managed Care Rate Development Guide, a retrospective acuity adjustment is expected to be applied to the Kentucky HEALTH population in the first year of implementation.

The retrospective acuity adjustment relies on risk scores to capture the change in acuity for individuals pre and post waiver implementation. While the exact specifications are still to be determined, the retrospective acuity adjustment will include the following provisions:

- The adjustment will only be applicable to the three Kentucky Health adult rate cells, separately for each rate cell: KYH Other Expansion Adults, KYH Expansion Adults - Medically Frail/RCT, and KYH Other Adults.
- Average member-level risk scores will be calculated based on diagnosis codes for services incurred prior to the Waiver implementation date.
- The acuity adjustment will be based on the actual average risk score for the members enrolled throughout the rating period (numerator), compared to the average risk score for the population prior to the waiver implementation (denominator), adjusted for new entrants and population mix changes within a rate cell already incorporated in the base capitation rates.
- The average risk scores used in the calculation will be member-month weighted.
- The acuity adjustment factor will not vary by MCO and will be applied to the risk adjusted rate. The adjustment may differ by rate cell and region due to the phase-in of the community engagement requirements by region.
- Wakely anticipates using Kentucky-specific risk weights for the retrospective acuity adjustment calculations. However, using national weights, or a blend of weights, may also be considered.

**Exhibit 7.** This claim rate development exhibit illustrates the crosswalk between rate cells analyzed in the base period with the final rate cells under Kentucky HEALTH. Note the following with regard to the two KYH Expansion Adult rate cells:

- The rate cell ‘KYH Expansion Adults - Medically Frail Age 19 or Older’ includes the combination of projected medically frail adults and RCT members.
- The rate cell ‘KYH Other Expansion Adults Age 19 or Older’ includes all other members from the current MAGI Adult population.
- The base data category described as ‘MF Possibles’ includes members who were identified as potential candidates for medically frail based on the evaluation of claims and diagnosis information. The conversion of these members to actual medically frail status will not be determined until Kentucky HEALTH is implemented. Exhibit 7 illustrates the assumed distribution of these members between the two KYH Expansion Adult rate cells.

## INTRODUCTION

Wakely has been retained by the Commonwealth of Kentucky, Department for Medicaid Services (DMS) to provide actuarial and consulting services related to the development of capitation rates for its Medicaid Managed Care Program. This information and analysis was prepared for, and is only to be relied on by, DMS management.

This file contains summaries of the data, adjustments, and projection assumptions used in the development of capitation rates. Using the information in this analysis for other purposes may not be appropriate. Wakely does not intend to create a reliance to third parties. If materials are released to third parties, the material should be provided in its entirety, including caveats regarding the possible variability of results and Wakely's reliance on data sources provided by DMS and the MCOs.

KY Health Adult capitation rates displayed are gross of premiums and copay adjustments. The net capitation rates paid by DMS for KY Health Adult populations will be reduced by the member specific premium or the average copay PMPM. Capitation rates listed as "KYH Expansion Adults - Medically Frail Age 19 or Older" include RCT members as well.

## DATA

Wakely has relied on information provided by DMS and MCOs in the development of the capitation rates. We have relied upon DMS and MCOs for the accuracy of the data provided. We have reviewed the data for reasonableness, but have not performed any independent audit or otherwise verified the accuracy of the data/information. In order to assign claims into categories of service as shown throughout this ratebook, Wakely relied on major categories of service (inpatient, outpatient, professional, and pharmacy) indicated in the data provided by DMS. Costs associated with Delivery Payment are not included in Exhibits 1 - 8. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete. To the extent that the data provided is not accurate, the analysis would need to be modified to reflect the revised information.

## DISCLOSURES AND LIMITATIONS

**Responsible Actuaries** Mary Hegemann and Maria Dominiak are the actuaries responsible for this communication. We are members of the American Academy of fellows of the Society of Actuaries. We both meet the Qualification Standards of the American Academy of Actuaries to issue this analysis.

**Risks and Uncertainties** The assumptions and resulting estimates included in this analysis are inherently uncertain. Users of the results should be qualified to use it and understand the results and the inherent uncertainty. Actual results may vary, potentially materially, from our estimates. Wakely does not warrant or guarantee the projected values included in the analysis. It is the responsibility of the organization receiving this output to review the assumptions carefully and notify Wakely of any potential concerns.

Capitation rates may not be appropriate for any individual MCO. Results will differ if actual experience is different from the assumptions contained in the capitation rate setting documentation. Each MCO should evaluate the rates in the context of their own experience, expenses, capital and surplus, and profit requirements prior to agreeing to contract with DMS. Wakely provides no guarantee, either written or implied, that the data and information is 100% accurate or error free.

**Conflict of Interest** We are financially independent and free from conflict concerning all matters related to performing the actuarial services underlying this analysis. In addition, Wakely is organizationally and financially independent from the Commonwealth of Kentucky.

**Deviations from ASOPS** Wakely completed the analysis using sound actuarial practice. To the best of my knowledge, the report and methods used in the analysis are in compliance with the appropriate Actuarial Standards of Practice (ASOP) with no known deviations.

DMS,

Based on the correspondence below, we have modified the rate certification materials to reflect two rating periods: Apr19-Jun19 and Jul19-Jun20 (SFY20). The combined SFY20 rate period replaces the previous separate four quarters of rates. The changes only impacted the following:

- Rate certification: References to quarterly rates replaced as appropriate to reflect two rating periods. There were no changes to the key exhibits or figures because these still reflect the full 15M period.
- Appendix 1, Exhibit 10
- Appendix 2, Exhibit 2

To clarify, the Apr19-Jun19 rates are identical to what was previously provided and the risk adjusted rates provided on 4/8 are not impacted.

Please let us know if you have any questions or comments. If none, please submit the attached files to CMS.

Thanks,

Tom Garrity, ASA, MAAA

**Subject:** RE: Apr19-Jun20 Ratebook and Quarterly Rates

Steve,

The primary reason that we went with quarterly non-waiver rates was the possibility of the waiver moving forward at any point during SFY20. If the waiver going live prior to July 1, 2020 is no longer a possibility (or odds are near zero), then a 12-month rate effective July 1, 2019 – June 30, 2020 would make more sense. Please verify if that is DMS's intent; we will adjust the certification and ratebook accordingly once we receive confirmation from DMS.

As a reminder, with any rate cycle there may need to be mid-year rate modifications due to new program changes. However, if rates are within 1.5%, no revised certification would be required.

There are two other concepts to consider. I'm assuming neither of these would change prior to July 1, 2020 either:

- Rate structure: CMS has recommended that we change/condense the rate structure. While this change got coupled with the waiver due to operational challenges, this is likely to remain a concern of CMS's.
- Risk adjustment with Kentucky-specific weights: This also got coupled with the waiver (since the weights were based on the new structure, with a separate delivery payment). There is no requirement from CMS to make this change, but the MCOs did request this change more than two years ago.

Thank you.  
Mary

**Subject:** RE: Apr19-Jun20 Ratebook and Quarterly Rates

Since we do not anticipate a go-live of the waiver before July 2020, would we still do the quarterly rates or a 12-mth rate? I discussed that with Commissioner Steckel yesterday and after she discussed with Secretary Meier, they believe the 12-mth rate would also be appropriate but I was unsure what that would mean for the process going forward or how it would impact the rate books for the RFP. Just a thought

Hi Steve and DMS team,

We have added a new Exhibit 10 to Appendix 1 which shows the rate ranges for each of the five quarterly rate periods. Steve, we think this addresses your valid comments and provides an extra step of transparency with the quarterly rates.

Please let us know if there are any additional questions or concerns with the attached final certification documents.

If no remaining questions, please submit these documents (one PDF, and two Excel files) to CMS and also feel free to share with MCOs.

Thanks,

Tom Garrity, ASA, MAAA

**My Concerns:**

1. If Appendix 1 is what you are using in the rate certification but appendix 2 is what we use in the MCO contract, will CMS not ask why the rates in the contract fall outside the range?
2. Will the MCO's also ask why that rates are below the low end of what was previously provided to them?

3. I just want to ensure that we completely communicate the message to the MCOs and that the correct rates are used for contracting/rate certification purposes.
4. What am I missing?

Thank you

**Subject:** Apr19-Jun20 Ratebook and Quarterly Rates

Hello DMS,

Attached are the two appendices that accompany the Apr19-Jun20 rate certification we sent over yesterday. Appendix 1 is the Ratebook reflecting the full 15 month rating period, similar to what we've previously provided. Appendix 2 listed only the selected rates at the 15<sup>th</sup> percentile. The first tab applies only to the 3-month period Apr19-Jun19 and includes base capitation rates, supplemental rates, and HIF rates. The second tab includes the base rates for each of the five quarters between Apr19 and Jun20. As mentioned previously, supplemental and HIF rate for SFY20 will be determined at a later date as more information is available.

Note that these rates (and the rate certification provided yesterday) reflect the limited amount of pre-waiver admin implementation requirements that Mary described in the email below.

Please let us know if you have any questions on the certification or these workbooks. After you have a chance to review, we can remove Draft references and finalize the documents.

Thanks,

Tom Garrity, ASA, MAAA

**Subject:** Administrative Expenses - pre-waiver implementation

Good evening.

As a follow-up to our discussion earlier today, we thought some more about the Commissioner's comment regarding the timing around the possible legal delays pertaining to the waiver through June 2020. **Our recommendation is to keep the admin assumptions currently in the (non-waiver) rate development**; this would be consistent with what has been shown to the MCOs and to DMS over the last 3 weeks. We also recommend shortening our explanation within the certification (page 37) to be as follows (this description no longer outlines the various tasks required by the MCOs):

The administration costs were also increased to include additional costs associated with several new MCO contract requirements to support the Kentucky HEALTH 1115 Waiver program implementation. The total additional funds for waiver implementation is approximately \$6 million on an annualized basis.

Background

In the development of the non-waiver rates, we assumed a portion (1/3) of the "waiver admin" spent by MCOs (as reported in MRTs) would exist in the coming rate period, as plans would need to maintain some level of activity in preparation of the waiver. This represents about \$1M per year per MCO. This includes preparing systems for identification of medically frail member communications, among other things. Since they already set up most of these systems, this amount is greatly reduced from what was included in the prior rates.

Recommendation

We believe it is appropriate to continue this assumption, unless DMS is telling plans immediately to cease preparation of the waiver and if plans no longer have contractual obligations around such activities. Our understanding is that they will continue to have some requirements over this 15 month period (e.g., Humana continues to work on identifying medically frail). If this is not the case, please let us know and we will incorporate that change into the rates tomorrow. Also, please let us know if you have any concerns about the certification wording stated above.

Thank you.  
Mary

# Introduction and Rate Summary

## Introduction

Wakely has been retained by the Commonwealth of Kentucky, Department for Medicaid Services (DMS) to provide actuarial and consulting services related to the development of capitation rates for its Medicaid Managed Care Program effective April 1, 2019 through June 30, 2020 (Apr19-Jun20).

This report provides documentation and the actuarial certification for the development of the actuarially sound capitation rates as required under 42 CFR 438.4 and Actuarial Standard of Practice (ASOP) 49. These sources require that capitation rates be actuarially sound, meaning that the capitation rates and other revenue sources are projected to provide for all reasonable, appropriate, and attainable costs that are required under the terms of the contract and for the operation of the managed care plans for the time period and the population covered under the terms of the contract, and that such capitation rates are developed in accordance with the relevant requirements of 42 CFR 438.4(b). For purposes of this definition, other revenue sources include, but are not limited to, expected reinsurance and governmental stop-loss cash flows, governmental risk adjustment cash flows, and investment income. For purposes of this definition, costs include, but are not limited to, expected health benefits, health benefit settlement expenses, administrative expenses, the cost of capital, and government-mandated assessments, fees, and taxes. The rates developed within this document are compliant with both 42 CFR 438.4 and all relevant actuarial standards of practice, including ASOP 49.

This report reflects the necessary requirements and supporting documentation for an actuarial certification under 42 CFR 438.4(a) and rate development standards under 42 CFR 438.5(b). A crosswalk between the certification and the 2018-2019 Rate Development Guide is also provided in Appendix 4.

## Limitations

The information contained in this report was prepared as documentation that supports the development of the actuarially sound capitation rate ranges for the Commonwealth of Kentucky's Medicaid managed care program. The information may not be appropriate for any other purpose.

The information contained in this report, including the exhibits, has been prepared for the Kentucky Department for Medicaid Services (DMS) and their advisors. It is our understanding that the information contained in this report will be shared with CMS and may be utilized in a public document. To the extent that the information contained in this report is provided to third parties, the report should be distributed in its entirety. Any user of the data must possess a certain level of expertise in actuarial science and healthcare modeling so as not to misinterpret the data.

presented.

Wakely makes no representations or warranties regarding the contents of this report to third parties. Likewise, third parties are instructed that they are to place no reliance upon this report prepared for DMS by Wakely that would result in the creation of any duty or liability under any theory of law by Wakely or its employees to third parties.

The capitation rates have been certified as actuarially sound. However, the capitation rates may not be appropriate for any individual MCO. Results will differ if actual experience is different from the assumptions contained in the capitation rate setting documentation. Each MCO should evaluate the rates in the context of their own experience, expenses, capital and surplus, and profit requirements prior to agreeing to contract with DMS. Wakely provides no guarantee, either written or implied, that the data and information is 100% accurate or error free.

Wakely has relied on information provided by DMS and the participating Medicaid MCOs in the development of the capitation rates. We have relied upon DMS and the MCOs for the accuracy of the data provided. We have reviewed the data for reasonableness, but have not performed any independent audit or otherwise verified the accuracy of the data/information. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete. To the extent that the data provided is not accurate, the capitation rate development would need to be modified to reflect the revised information.

Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in this analysis.

Guidelines issued by the American Academy of Actuaries require actuaries to include their professional qualifications in all actuarial communications. The authors of this report are members of the American Academy of Actuaries and meet the qualification standards for performing the analyses contained herein.

## Rate Summary

A summary of the changes in the Medicaid managed care capitation rates by category of aid from the prior rate setting period of July 2018 through March 2019 (Jul18-Mar19) are shown in Table 1 below. The composite rates illustrated for both Jul18-Mar19 and Apr19-Jun20 have been developed based on Apr19-Jun20 projected enrollment and exclude supplemental payments and the Health Insurer Fee (HIF).

**Table 1: Capitation Rates Excluding Supplemental Payments and HIF, Changes from Jul18-Mar19 to Apr19-Jun20 (the Full 15-month Period)**

Category of Aid	Jul18-Mar19 PMPM	Apr19-Jun20 PMPM	Overall Rate Change
Families and Children	\$284.91	\$296.05	3.9%
SSI Adult	\$1,321.91	\$1,420.34	7.4%
Dual Eligible	\$178.83	\$212.70	18.9%
SSI Child	\$957.73	\$978.18	2.1%
Foster Care	\$432.58	\$444.64	2.8%
Former Foster Care Child	\$439.20	\$454.98	3.6%
MAGI	\$528.70	\$550.15	4.1%
Composite	\$446.99	\$468.57	4.8%

The primary drivers of the overall rate change included the use of updated base period data, trends, program changes, and administrative cost changes.

## A. Overview of Rate Setting Methodology

Below is a summary of the steps Wakely performed to develop the capitation rates. The steps follow the required rate development standards in accordance with 42 CFR 438.5(b). Additional detail is provided in the relevant sections below.

### ***Step 1: Identify and develop the base utilization and price data for each rate cell***

The capitation rates were primarily developed from historical claims and enrollment data from the managed care enrolled populations and included only services covered under the MCO contract. Encounter data and eligibility files for the incurred period July 1, 2017 through June 30, 2018 were the primary data sources used to determine the base data period.

The utilization and unit costs for each service category from the base period data were adjusted for a number of items, including but not limited to: incomplete data, removal of non-state plan services, copayments waived by the MCOs, removal of experience for incarcerated members, pharmacy rebates, graduate medical education (GME), removal of costs related to Institutions for Mental Diseases (IMD) exclusions, third party liability (TPL), cost settlements, provider incentive/risk sharing arrangements and other non-system claims attributable to the base data period. The unadjusted data along with the base data adjustments is summarized in Appendix 1 (Exhibits 1A – 1C) for each region and rate cell.

### ***Step 2: Develop and apply trend factors to base data***

Trend factors were used to project the adjusted base period data forward to the contract period. The trend factors were developed separately for each major category of service and category of aid. Trend factors were based primarily on a review of the Kentucky Medicaid managed care historical experience over the last three years. Assumed trend factors were applied to adjusted claim costs for each category of service, from the midpoint of the base experience period (December 30, 2017) to the midpoint of the fifteen month rating period (November 15, 2019), which is approximately 22.5 months.

Note that rates have been developed separately for the three month period Apr19-Jun19 and for the twelve month period Jul19-Jun20 (SFY20). To break out the full fifteen month rating period into these two rating periods, the following trend periods were applied:

- Approximately 16.5 months to rating period April 2019 – June 2019
- Approximately 24 months to rating period July 2019 – June 2020

***Step 3: Make appropriate and reasonable adjustments for program and policy changes not otherwise reflected in trend***

We adjusted the base period experience for known policy and program changes that have occurred or are expected to be implemented between the base period and the end of the rating period. These program changes included the following, which are described in more detail later in this document:

- changes in reimbursement rates for Federally Qualified Health Centers (FQHCs)
- change in Hepatitis C treatment threshold
- pharmacy dispensing fee increase
- vaccine coverage at point of sale pharmacies
- inpatient hospital DRG changes
- urine drug screen policy changes
- elimination of copayments for KCHIP3 population
- expanded physical, occupational, and speech therapy coverage
- shift of therapeutic service from DCBS to MCOs for certain foster care children
- SUD residential treatment expanded capacity and coverage

Adjustments were applied to reflect changes in the Medicaid program that occurred between the base period and the rating period. The resulting per member per month costs (PMPMs) established the adjusted benefit expense by rate cell and region for the contract period.

***Step 4: Develop the non-benefit component of the rate***

An administrative allowance was calculated from MCO financial reports and was added to the projected benefits costs. The administrative load varied by category of aid and included both general administrative costs as well as costs for care coordination and care management.

We also included explicit adjustments of 1% of revenue for the target profit margin and 1% for the Commonwealth's premium assessment. The health insurance provider fee (HIF) is estimated as a range in the certification and will be reconciled to actual fees when payments are due.

***Step 5: Review resulting rates***

The resulting per member per month costs were then reviewed for reasonableness. The data was examined for distortions resulting from rate cells with small population sizes or outlier claims. Additional smoothing was performed on a budget neutral basis to improve the credibility of small rate cells. Costs were redistributed between the infant and child age 1-5 rate cells for SSI Child and Foster Care Children on a budget neutral basis. In addition, we consolidated the experience for Former Foster Care rate cells 18-20 and 21-25 and MAGI Adult rate cells Under 19 and 19-24 to increase credibility.

We also compared the resulting capitation rate change with the MCOs' past Medical Loss Ratio (MLR) experience through SFY18-2H and found capitation rate changes for Jul18-Mar19 and Apr19-Jun20 to be reasonable.

***Step 6: Apply risk adjustment***

The rates presented in this rate certification are the base capitation rates before risk adjustment. Risk adjustment is applied to the capitation rates excluding supplemental and HIF payments on a cost neutral basis within each category of aid and region, such that the MCOs with higher than average member risk scores receive capitation payments above their contracted rates, and MCOs with lower than average member risk scores receive capitation payments below their contracted rates. For a given rate group (category of aid), the total capitation payments are equivalent to the amount that would have been paid to all the MCOs if risk adjustment were not applied.

# Section I. Medicaid Managed Care Rates

## 1. General Information

### A. Rating Period

The actuarial certification contained in this report is effective for capitation rates for the three month rating period from April 1, 2019 through June 30, 2019 (Apr19-Jun19) and for the twelve month rating period from July 1, 2019 through June 30, 2020 (SFY20). At this time, the only changes in rates between the rating periods is the duration of trend applied. In possible future amendments to this rate certification, program changes effective mid-year could also be incorporated specific to SFY20.

### B. Required Documentation

This report contains appropriate documentation of all elements described in the rate certification, including data used, assumptions made, the basis for the assumptions, and methods for analyzing data and developing assumptions and adjustments.

### C. Index

Appendix 4 includes an index referencing the 2018-2019 CMS Medicaid Managed Care Rate Development Guide.

### D. Required Elements

#### I. ACTUARIAL CERTIFICATION

The actuarial certification is provided in Appendix 3. Ms. Hegemann and Ms. Dominiak meet the requirements for an actuary in 42 CFR 438.2 including the qualification standards established by the American Academy of Actuaries and follow the practice standards established by the Actuarial Standards Board, and certify that the final rates meet the applicable standards in 42 CFR §438.

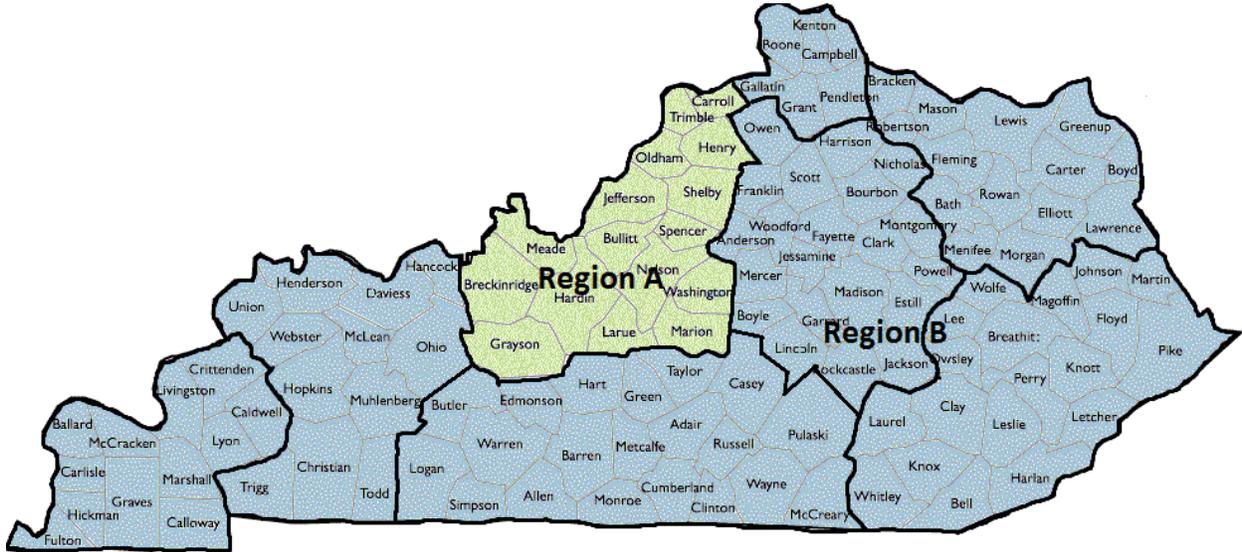

#### II. CERTIFIED RATES

The certified capitation rates for each rating period, region, and rate cell are shown in Appendix 2. There are two regions and 39 rate cells, for a total of 78 rate cells.

The rates were established for two regions to reflect regional differences in claim costs, access, and managed care in the Commonwealth of Kentucky. Table 2

provides a map of Kentucky, its counties, and the regions used for rate setting. The borders within Region B indicate the regions prior to July 2018.

**Table 2: Summary of Regions and Counties**

Region	Counties
Region A	Breckinridge, Bullitt, Carroll, Grayson, Hardin, Henry, Jefferson, Larue, Marion, Meade, Nelson, Oldham, Shelby, Spencer, Trimble, Washington
Region B	Rest of State

**III. CONTRACT RATES**

The final contract rates selected by DMS are within the actuarially sound capitation rate ranges for all rate cells. The range has been developed such that any assumption selected within the range is actuarially sound and is reasonable, appropriate, and attainable. The range represents variation of two assumptions: annual trend rates and administrative expenses. The range between the high and the low rate for each rate cell, prior to risk adjustment, is between 2.0% and 2.5%. A point estimate of trend and a point estimate of administrative expenses were not chosen or developed in order to develop capitation rates. Rather, DMS negotiated the final contracted rates with the MCOs that were within the actuarially sound ranges.

The contract rates represent the rates prior to risk adjustment. The base rate, supplemental payment add-on, and HIF add-on are shown separately and added together to determine the total payment rate.

#### IV. PROGRAM DESCRIPTION

##### ***(a) Overview of Kentucky's Medicaid managed care program***

Since 2013, the Commonwealth of Kentucky has operated a statewide, mandatory risk-based managed care program, referred to as Medicaid Managed Care, for most Medicaid beneficiaries covering acute, primary, and specialty services, including behavioral health and dental services.

As of the date of this certification, the Commonwealth contracts with five health plans to manage care for beneficiaries. All plans are statewide. Four plans, Aetna, Anthem Health Plan, Humana, and Wellcare of Kentucky are national, for-profit plans. Passport Health Plan is a local, non-profit plan. Anthem Health Plan is the newest MCO in the state and started enrolling members in 2014.

In January 2014, Kentucky expanded managed care through an Alternative Benefit Plan (ABP) for the newly eligible adult population, referred to as the "ACA" population. The ACA adult populations are mandatorily enrolled in existing MCOs. Kentucky required the MCOs to expand their provider networks, as needed, to ensure adequate access to the full range of services offered in the ABP. The ABP services provided outside of managed care (fee-for-service) for the expanded populations are intermediate care facilities for individuals with an intellectual disability, hospice services provided to an enrollee in an institution, school-based health services, health access nurturing development services, early intervention program services, and nursing facility services for enrollees.

##### ***(b) Rating period***

This actuarial certification is effective for the rating period April 1, 2019 through June 30, 2020, reflecting two separate rating periods:

- April 1, 2019 through June 30, 2019
- July 1, 2019 through June 30, 2020

##### ***(c) Covered populations***

To be enrolled in the Medicaid managed care program, the individual shall be eligible to receive Medicaid assistance under one of the aid categories defined below:

- Temporary Assistance to Needy Families (TANF);

- Children and family related;
- Aged, blind, and disabled Medicaid only;
- Pass through;
- Poverty level pregnant women and children, including presumptive eligibility;
- Aged, blind, and disabled receiving State Supplementation;
- Aged, blind, and disabled receiving Supplemental Security Income (SSI);
- Under the age of twenty-one (21) years and in an inpatient psychiatric facility;
- Children under the age of eighteen (18) who are receiving adoption assistance and have special needs;
- Dual eligible;
- Disabled Children;
- Foster Care Children;
- Adults age 19 to 64 with income under 138% of the Federal Poverty Level;  
or
- Former Foster Care Children up to age 26.

**(d) Eligibility or enrollment criteria**

Medicaid beneficiaries are required to enroll in managed care on a mandatory basis. The MCO is also responsible for providing coverage to some individuals who are retroactively determined eligible for Medicaid and are eligible for retroactive Medicaid coverage, including children, pregnant women and former foster care. Retroactive Medicaid coverage is defined as a period of time up to three (3) months prior to the application month. The MCO is not responsible for retroactive coverage for SSI members.

Members excluded from Medicaid managed care include:

- Individuals who shall spend down to meet eligibility income criteria;
- Individuals currently Medicaid eligible and have been in a nursing facility for more than thirty (30) days;
- Individuals determined eligible for Medicaid due to a nursing facility

- admission including those individuals eligible for institutionalized hospice;
- Individuals served under the Supports for Community Living, Michele P, home and community-based, or other 1915(c) Medicaid waivers;
  - Qualified Medicare Beneficiaries (QMBs), specified low income Medicare beneficiaries (SLMBs) or Qualified Disabled Working Individuals (QDWIs);
  - Timed limited coverage for illegal aliens for emergency medical conditions;
  - Working Disabled Program;
  - Individuals in an intermediate care facility for individuals with intellectual disabilities (ICF-IDD);
  - Individuals who are eligible for the Breast or Cervical Cancer Treatment Program; and
  - Individuals otherwise eligible while incarcerated in a correction facility.

## 2. Data

### A. Capitation Rate Data

This section provides a description of the base data used to develop the capitation rates. The base period data described below is shown in Appendix 1 (Exhibits 1A – 1C).

#### I. DESCRIPTION OF THE DATA

##### *(a) Types of data used*

The following are the primary data sources relied upon in the development of the capitation rates:

- Encounter data submitted by the MCOs and processed by DMS
- Capitation payment files provided by DMS containing enrollment and eligibility information
- Fee-for-service (FFS) claims data and other supplemental data files processed by DMS
- MCO reconciliation templates (MRT) containing financial information completed and attested by each MCO
- Statutory financial statement data

Wakely primarily relied on encounter data for the base period in the capitation rate setting which will be discussed in detail later in the certification.

##### *(b) Data time periods used*

The capitation rates were developed primarily with data for claims incurred between July 1, 2017 and June 30, 2018.

The encounter data used for the base period reflects claims paid and processed through DMS's encounter system through December 31, 2018 for medical and pharmacy claims.

The Medicaid Rate Template (MRT) completed by each MCO contain summarized data incurred from January 1, 2013 to November 30, 2018 with paid runout through November 30, 2018.

The actuarial analyses used to develop base data adjustments and other adjustments were based primarily on detailed claims data incurred from January 1, 2016 through August 31, 2018 for medical claims and through November 30, 2018 for pharmacy claims. IBNR and trend analyses also included evaluation of medical claim costs incurred through August 31, 2018, available in the MRTs, and pharmacy encounter data incurred through November 30, 2018.

In addition, monthly DCBS payment reports for January 2018 through November 2018 were utilized to analyze the impact of a program change described later in this certification.

**(c) Data sources**

DMS provided the detailed enrollment, encounter, and FFS data to Wakely. Prior to Wakely receiving the data, it had been processed through DMS's Medicaid Management Information System (MMIS), which applied encounter edits based on FFS Medicaid claim requirements as well as other validation requirements. In addition, Wakely received MRTs from each MCO (via DMS).

**(d) Sub-capitation**

The MCOs provided information on their sub-capitation agreements in the MRTs as well as information regarding the sub-capitation records and paid claims captured in the encounter data. Wakely made an adjustment to the base encounter data to include the remaining sub-capitation payment amounts that are not included in the encounter data (less a portion of the sub-capitation that was allocated to administrative expenses). In addition, Wakely adjusted the units in each service category receiving a sub-capitation adjustment such that the cost per unit after applying the sub-capitation adjustment did not change from the average cost per unit for the original encounter claims within that service category. This adjustment increased base claims by approximately \$44.0 million (or 0.8%).

**II. DATA QUALITY**

**(a) Data validation**

The base data used to set the capitation rates relies primarily on the encounter data received from DMS. Wakely relied on detailed data provided by DMS and

the MCOs as well as other information to correctly interpret the data and issues impacting the data. Wakely reviewed the data for reasonability, but did not audit the data. Wakely used the data to calculate all adjustments unless otherwise stated within this certification.

**(i) Completeness**

In developing the capitation rates, Wakely first reviewed the encounter data processed through MMIS. Wakely summarized the encounter and eligibility data by various segments including high-level category of service, region, category of aid, and month for each MCO. Wakely reviewed these results for reasonability, including variability by month, to review the completeness of the data. In addition, Wakely compared the results to those reported in the MRTs completed by the MCOs with information contained at a similar level of detail.

Wakely found that the results aligned closely between the encounter data and the MCO reported data in the MRTs and determined the encounter data was sufficiently credible to use for rate setting for four out of five MCOs. For one MCO, we observed deficiencies in encounter claims incurred in SFY18. The concern with encounter data submission has been discussed with the MCO, and the MCO is taking steps to improve the encounter claims submission.

In accordance with the Actuarial Stand of Practice (ASOP) No. 23, Data Quality, it is Wakely's actuarial determination that an alternative source of information for this MCO must be utilized for the rate development. We believe that utilizing the MCO's November 2018 MRT is the best alternative to encounters available at this time. Rates were developed using the encounter data that was available, but with additional adjustments by service category and aid category based on comparison to MRT information. These adjustments are reflected in the completion factors within Appendix 1.

To reinforce the importance of encounter data, DMS began applying penalties for insufficient or untimely encounter data submissions beginning in October 2014. These penalties are continuing to improve encounter submissions over time.

Wakely separately reviewed the enrollment data using a similar process. The data aligned closely to the MRTs for all MCOs; Wakely relied solely on the capitation file provided by DMS for enrollment and eligibility information.

**(ii) Accuracy**

Eligibility and claim records submitted through DMS's encounter process are reviewed similarly to the validation checks under FFS Medicaid requirements, which include verification that the services for which the claims are submitted are covered services. In addition, DMS applies other validation requirements to the data to ensure its appropriateness and accuracy before it is accepted into the encounter system.

In addition, Wakely performed data validation checks of the monthly utilization, unit cost, and per member per month cost at the category of aid, region, and category of service level to review for reasonability. As mentioned above, Wakely also compared the detailed claims data to that reported by the MCOs in their financial statements. Wakely further applied a filter such that only claims associated with a valid enrollment record were included in the development of the capitation rate. The base data required some additional adjustments in order to be appropriate for use in rate setting. These adjustments will be discussed in more detail later in the certification.

**(iii) Consistency**

As discussed previously, Wakely reviewed the data at a monthly level to ensure the data was consistent over time on various levels (including by MCO and high-level service category). In addition, Wakely compared the base data to summarized rate books from previous certifications to ensure consistency over time. Wakely did see some variance in data metrics over time and corresponded with MCOs to better understand if there were changes in operational systems, contracting, claims processing, or data submissions that could have caused the observed variances.

**(b) Actuary's assessment**

In accordance with the Actuarial Standard of Practice (ASOP) No. 23, Data Quality, we disclose that we have relied on DMS and the MCOs for the data used in the development of capitation rates. We have reviewed the data for reasonableness, but have not performed any independent audit or otherwise verified the accuracy of the data/information. If the underlying information is incomplete or inaccurate, our estimates may be impacted, potentially significantly.

We found the combination of the encounter data and the MRTs to be of

appropriate quality for purposes of developing actuarially sound capitation rates. Wakely verified the encounter data against MCO-supplied financials and the prior certified rate book. However, the quality of the encounter data submissions vary by MCO. Wakely made appropriate adjustments to the base data as discussed within this certification.

DMS is continuing to work internally as well as with the MCOs to improve the quality of the encounter data, and Wakely anticipates continued reliance on the encounter data as the main source for rate setting in future time periods.

**(c) Data concerns**

There are significant issues with the encounter data for one MCO as discussed above. The concern has been addressed by applying base adjustments to encounter data based on supplemental MRT information. DMS has worked closely with this MCO, as well as all MCOs, to improve their encounter data submissions.

There were multiple versions of the MRTs submitted by plans. Wakely worked with the plans to validate the information supplied. As mentioned previously, one MCO had issues submitting encounters, which led to the decision by Wakely to place more reliance on their MRT. Due to these data quality concerns and increased reliance on the MRT report, DMS will be having an audit performed of this MCO's MRT report for claims incurred period of July 1, 2017 through June 30, 2018. Current rates may be revised depending on the results of this audit.

**III. USE OF MANAGED CARE ENCOUNTER DATA**

Managed care encounter data (supplemented with MRT data for one MCO) was the primary data source used in the development of the capitation rates.

**IV. RELIANCE ON A DATA BOOK**

Development of the capitation rates did not rely on a data book or other summarized data source. We were provided with detailed claims data for all covered services and populations. Summary exhibits are shown in Appendix 1 (Exhibits 1A – 1C).

**B. Base Data Adjustments**

Capitation rates were developed primarily from encounter and MRT data with dates of service between July 1, 2017 and June 30, 2018. Adjustments were made to the base

experience for completion, removal of non-state plan services, copayments waived by the MCOs, removal of experience for incarcerated members, removal of costs related to Institutions for Mental Diseases (IMD) exclusions, sub-capitation true ups, pharmacy rebates, Commission for Children with Special Health Care Needs (CCSHCN), graduate medical education (GME), third party liability (TPL), cost settlements, provider incentives/risk sharing arrangements, other non-system claims, reimbursement changes, and other program adjustments.

## I. DATA CREDIBILITY

The base data experience includes over 15.5 million member months and was determined to be fully credible. No credibility adjustments were made in developing overall rates. Budget neutral smoothing adjustments were made by combining the experience for several small rate cells at the region level.

## II. COMPLETION FACTORS

The Apr19-Jun20 capitation rates are based on encounter claims incurred from July 1, 2017 through June 30, 2018, paid and processed through December 31, 2018. Completion factors were developed for each MCO and for five consolidated categories of service. All completion factors were developed consistently with the underlying data source used in rate development. MCO financial data through November 30, 2018 was also considered when setting IBNR. For the MCO with encounter data concerns, the completion factors reflect the additional adjustment based on comparison to MRT reports. The following table summarizes the completion factors applicable to the base data by region, service category, and aid category.

**Table 3a: Summary of Completion Factors – Region A**

Aid Category	Inpatient	Outpatient	Professional	Pharmacy	Dental
Families and Children	1.16	1.16	1.18	1.00	1.00
SSI without Medicare	1.05	1.09	1.04	1.00	1.00
Dual Eligibles	1.13	1.04	1.03	1.00	1.00
Foster Care Children	1.15	1.13	1.20	1.00	1.00
MAGI / Former Foster	1.12	1.09	1.14	1.00	1.00

**Table 3b: Summary of Completion Factors – Region B**

Aid Category	Inpatient	Outpatient	Professional	Pharmacy	Dental
Families and Children	1.05	1.04	1.05	1.00	1.00
SSI without Medicare	1.03	1.02	1.02	1.00	1.00
Dual Eligibles	1.05	1.02	1.03	1.00	1.00
Foster Care Children	1.03	1.03	1.02	1.00	1.00

Aid Category	Inpatient	Outpatient	Professional	Pharmacy	Dental
MAGI / Former Foster	1.05	1.03	1.04	1.00	1.00

For encounter data, the development patterns between incurred date and processed date is longer than typically experienced with MCO payments to providers. We observed longer average lags between service date and paid/processed date based on encounter claim lags compared to claim lags provided with MRT submissions.

### III. ERRORS FOUND IN THE DATA

Beyond those already discussed, there were some additional data concerns, which Wakely mitigated through adjustments to the base data.

- Approximately \$7.5M of duplicate pharmacy claims across multiple aid categories were identified and removed from base data.
- One MCO had an error in coordination of benefits logic that resulted in overpayments for Dual enrollees. The MCO has proceeded with the recoupment process and this will ultimately be reflected in the encounter data. Since this recoupment was not reflected in the base claims used in rate development, a reduction of \$1.2M was made to the base period claims to correct the overpayment.

### IV. PROGRAM CHANGES

There were two significant historical program changes that were implemented during the base data period that required an adjustment. The impact of these historical program changes is described in further detail below.

**Hep-C Treatment Eligibility Requirements.** DMS changed the policy for Hep-C treatment eligibility requirements which is expected to significantly increase access to Hep-C treatments for eligible members. DMS required that all MCOs will implement a change in fibrosis score from the prior F3/F4 requirements to F0 before Jul18-Mar19. Based on a review of data from other states that implemented a similar change in the fibrosis score, emerging MCO experience, along with discussions with DMS pharmacy staff, Wakely assumed a 130% increase in the number of members undergoing Hep-C treatment for the Apr19-Jun20 contract period.

**Inpatient Hospital DRG Changes.** The Commonwealth revised hospital reimbursement based on updated versions of the Medicare Severity Diagnosis Related Grouper, (MS-DRG). On October 1, 2017, version 35 became effective; and version 36 became effective October 1, 2018. The Commonwealth pays

most acute care hospitals at 95% of the Medicare reimbursement amount for inpatient FFS services. Wakely surveyed the MCOs and all MCOs indicated that the majority of their inpatient hospital contracts were tied to Medicaid fee-for-service rates.

To estimate the impact of this inpatient hospital reimbursement change, we calculated the change in DRG weights released by CMS, weighted by the prevalence of DRGs in Kentucky Medicaid managed care that were consistent between updated versions.

Wakely estimated the impact of the change to version 35 effective October 1, 2017 to be approximately 1.7%. This change was incorporated as a base adjustment with overall estimated impact of approximately 0.1%.

## **V. EXCLUDED PAYMENTS OR SERVICES FROM THE DATA**

The following adjustments were made to the base experience data to reflect non-emergency transportation services (NEMT), incarcerated members, copayments, and value added services. Additional adjustments for non-system claims were made to reflect appropriate payments or recoupments reported by the MCOs that are not submitted through the encounter data system.

### **NEMT**

NEMT services were included in the encounter data received from DMS. Wakely removed these services from the development of the capitation rates since MCOs are not responsible for providing these services under the contract. NEMT (approximately \$165.2M) was removed from the base period data prior to its summarization.

### **Incarcerated members**

Medicaid eligible beneficiaries who are incarcerated are not eligible for managed care. Wakely received a supplemental data file from DMS containing enrollment records for incarcerated members. Wakely used the information to remove enrollment records and associated claim amounts from the base period for members who had an overlapping incarceration period. This adjustment lowered base claims by approximately \$18.2 million (or -0.3%) and member months by approximately 38,230 (or -0.2%).

### **Copayments**

In many cases, the MCOs reduce or waive copayment amounts otherwise applicable under the state plan. Wakely completed a member-level analysis adjusting the claim amounts in the detailed encounter data to what the amounts would have been if all plans collected the copay covered under the state plan. The analysis was done separately for each MCO to reflect the variances in their copay structures. It also accounted for populations that are not subject to copayments. This adjustment lowered base claims by approximately \$19.0 million (or -0.3%).

### **Federally Qualified Health Center and Rural Health Clinic payments.**

DMS policy requires that all FQHCs and RHCs be reimbursed at the lesser of Usual and Customary (U&C) costs or the Prospective Payment System (PPS) rates established by the Commonwealth. The policy is reflected as new language in the July 1, 2017 MCO contract allowing the MCOs to limit payments to FQHCs and RHCs to the PPS rate consistent with DMS policy.

For claims that exceeded the PPS rate, we capped the payment at no more than the appropriate PPS rate for that FQHC/RHC. The total payments in excess of the PPS rate during the base data period was estimated to be approximately \$6.1 million. The adjustment factors were calculated separately for each rate cell and were applied to the FQHC/RHC category of service line as a separate base adjustment factor. The overall impact to the capitation rates was a reduction of 0.1%.

### **Institutions for Mental Diseases (IMDs)**

Effective January 1, 2018, IMDs were eligible for coverage through Medicaid managed care plan contracts. MCOs may cover services or settings in lieu of services or settings covered under the State Plan, including an inpatient stay in an IMD for psychiatric or substance use disorder (SUD), for enrollees aged 21 through 64 for a short term stay of up to 15 days per calendar month. Claims were removed from the base experience period when the IMD stays for enrollees aged 21 through 64 exceeded 15 days, if the stay was not for SUD treatment. This is in compliance with CMS requirements. The adjustment lowered base claims by approximately \$2.7 million (or 0.0%).

### **Value added services**

Wakely excluded all services in the encounter data that do not reflect approved state plan services. These services included dental cleanings beyond the state plan limit, sports physicals, and meal programs for members discharged from inpatient stays in the hospital. The source of the adjustment was both the detailed encounter data

and program costs provided by the MCOs. This adjustment lowered base claims by approximately \$1.1 million (or 0.0%).

### **Non-system payment adjustments**

Wakely adjusted the base data claims for non-system expenses reported by the MCOs in their submitted MRTs as incurred costs. The majority of these non-system benefit costs are paid or recouped as aggregate payments and, therefore, are not submitted through the detailed encounter data process.

- *Pharmacy rebates received by MCOs.* The amount of -\$61.9 million (or -1.1%) was allocated to pharmacy service categories for all regions and rate cells based on the distribution of pharmacy paid claim amounts; no adjustment was made for utilization.
- *Third party liability (TPL).* The majority of the claim amounts in the detailed claims were net of TPL payments. Only a small portion of TPL was paid outside of the detailed encounter systems. The amount -\$23.4 million (or -0.4%) was allocated to all service categories, regions, and rate cells according to the distribution of all paid claims; no adjustment was made for utilization.
- *Graduate Medical Education (GME).* The amount of \$15.5 million (or 0.3%) was allocated to inpatient service categories for all rate cells and regions based on the inpatient paid claim amounts; no adjustment was made for utilization.
- *Commission for Children with Special Health Care Needs (CCSHCN).* A portion of CCSHCN costs were contained in the encounter data. The amount of \$5.8 million (or 0.1%) was paid outside of the encounter data. The additional payments were allocated based on the claim distribution of the CCSHCN claims contained within the encounter data by region, rate cell, and category of service. A utilization adjustment was also incorporated so that the price per unit of service did not change from this adjustment.
- *Provider incentive/risk payments.* This adjustment accounts for risk sharing/incentive/bonus (pay for performance) payments made by MCOs to primary care and specialty physicians. The amount of \$6.7 million (or 0.1%) was allocated to professional service categories for all regions and rate cells based on professional claims distribution; no adjustment was made for utilization.
- *Other non-system claims.* These payments account for miscellaneous non-system payments made by the MCOs, including provider and other claim settlements and other small adjustments. We relied on detailed descriptions provided by the MCOs to assess the appropriateness of the non-system claims for inclusion in the base data. The amount of \$22.8 million (or 0.4%) was allocated

to all service categories, regions, and rate cells according to the distribution of all claims; no adjustment was made for utilization.

### 3. Projected Benefit Costs and Trends

#### A. State Plan Services

The final adjusted base data is based on state plan services only and does not include any value added or in lieu of services in accordance with 42 CFR 438.4(b)(6). To project the adjusted base data forward to the rating period, we developed additional adjustments for trends and program changes. This section describes the data, assumptions and methodologies used to develop the projected benefit costs.

#### B. Federal Financial Participation

Please note that any variations in the assumptions used to develop the projected benefit costs for covered populations are based on a consistent rate setting methodology and rate development standards. The same methodology and data sources were used to develop the trend and program change adjustments for the ACA population as was used for the non-ACA population and were not based on the rate of federal financial participation.

#### C. Changes in the Development of Projected Benefit Costs

A description of the data, assumptions and methodologies used to develop the projected benefit costs, including all significant and material items are described in further detail below.

#### D. Trend, Program Change Adjustments, and Managed Care Efficiency

##### I. TREND DEVELOPMENT

This section discusses the data, assumptions, and methodologies used to develop the benefit cost trends from the historical base period to the Apr19-Jun20 rating period. We evaluated prospective trend rates primarily using historical experience for the Kentucky Medicaid managed care program, as well as other data sources.

The primary data source used to develop benefit cost trends is historical monthly incurred claims data provided by the MCOs in the MRTs for the covered populations. Data used for trend development included three years of experience, from September 2015 through August 2018. For pharmacy, we reviewed updated

encounter data files with claims incurred from January 2016 through November 2018 and processed through December 2018.

Other data sources reviewed include:

- *Kentucky historical encounter data.* We reviewed historical medical encounter data for the period January 2015 through August 2018. However, given that the encounter data reporting quality varied during this time period, we did not believe that this data source was sufficiently reliable for non-pharmacy trend development.
- *Kentucky Medicaid MCO survey of prospective trends.* MCOs provided DMS their independent estimates of historical and projected trends by major category of aid and category of service. We reviewed the MCO projections to gauge the reasonableness of the final trend factors.
- CMS Office of the Actuary Reports on National Health Expenditure (NHE) projections and Medicaid cost projections. These national reports were reviewed to help qualitatively assess the direction of future Medicaid trends.
- *Industry Drug Trend Reports* including reports from Express Scripts, Magellan Rx Managements, CVS Caremark, Prime Therapeutics and Drug Channels Institute. These reports were reviewed to qualitatively assess the direction of future Medicaid pharmacy trends.
- *Health care economic indices* including the Consumer Price Index (local, regional and national). These indices were reviewed to qualitatively assess the direction of future price trends.
- *Other state Medicaid trend adjustments.* The trend adjustment factors in other southern and mid-western states were reviewed for the relevant categories of service and categories of aid to assess the reasonableness of the projected trend range for Kentucky.

The per member per month historical summary MCO claims data reported in the MRTs was stratified by month, category of aid, and major category of service. The data was adjusted for completion and normalized for demographic changes and historical one-time reimbursement changes. We developed trend rates to adjust the base experience data (midpoint of December 30, 2017) to the midpoint of the fifteen month rating period (November 15, 2019), which is approximately 22.5 months. To break out the full fifteen month rating period into two rating periods, the following trend periods were applied.

- Approximately 16.5 months to rating period April 2019 – June 2019

- Approximately 24 months to rating period July 2019 – June 2020

Trend rates were developed by category of aid (Families and Children, SSI without Medicare, Dual Eligible, Foster Care Children, and MAGI Adults), by age group (children and adults) and by major service category (Home Health, Inpatient, Outpatient Emergency Room (ER), Outpatient Non-ER, Professional, Non Hep-C Pharmacy, Hep-C Pharmacy and Dental). For Former Foster Care members, we used the same trends as the MAGI Adults. For Dual Eligible members, we used the same trends as the SSI Adults.

Trends were developed based primarily on the historical claims and encounter experience from the covered populations. Regression analyses were performed and analyzed by MCO and aggregated to assess resulting historical and emerging trends for each category of service and category of aid. We used actuarial judgment where necessary to moderate unusually high or low trend values that appeared to be outliers or where the observed trends were expected to be more moderate between the base period and the rating period. We also reviewed other data sources, including the MCO surveys, CMS national health expenditure projections, industry reports, and experience in other states, to qualitatively assess the reasonableness of the resulting historical trends overall and how the observed trends may change in the future. These qualitative analyses were also used to inform the range of trends included in the rate range development.

Inpatient hospital trends were evaluated by category of aid for all inpatient services combined consistent with the level of detail available in the source MRT data. The overall IP trends were allocated between IP maternity and IP non-maternity based on the historical claims. Inpatient trend factors do not reflect changes in hospital DRG changes, which were implemented separately as one-time program changes and are described in more detail in section I-3.D.iii below.

In Apr19-Jun20, the Hep-C costs were projected as a separate category of service to account for several changes in available drug therapies. After reviewing the MCO encounter data, as well as querying the MCOs about the current and expected Hep-C utilization, the Apr19-Jun20 capitation rates include a 9% decrease in scripts per person, and a 6% decrease in the cost of each script. These trend reductions are offset by an increase in the number of Hep-C users due to a change in Fibrosis score from F3/F4 to F0, as described in further detail in the program change section below.

The reduction in Hep-C costs is primarily driven by an assumed increase in the use of several new, less expensive Hep-C therapies, primarily the use of Mavyret. Mavyret requires a 2 month treatment course compared to other therapies which require 3 month treatment courses, reducing the scripts per person. Mavyret is also

significantly less expensive than other therapies with an assumed post-rebate per script cost of \$12,700. The introduction of the lower cost drug Mavyret decreases the average cost per script to \$14,100, compared to historical experience with other therapies of approximately \$24,000 per script. Together, these changes resulted in a Hep-C pharmacy trend of -8.0% annually.

## II. TREND SUMMARY

Table 4 summarizes the lower bound per member per month trend by category of aid and category of service. Table 5 summarizes the upper bound per member per month trend by category of aid and category of service. We developed the trend range by varying the best estimate trends by +/- 0.5% for all categories of service except Hep-C pharmacy and inpatient maternity.

In addition, we observed a significant decline in enrollment for the Expansion Adults starting April, 2018. Since the majority of the enrollment decline occurred outside of the trend data period, we made an additional acuity adjustment to account for the expected change in the health risk of the population remaining in Medicaid. To determine the acuity adjustment, we evaluated the impact of enrollment changes by month in the Expansion Adult rate cell, considering changes to overall acuity due to members staying, leaving, and joining Medicaid. We used member risk scores to determine relative acuity for members that stayed, left and joined, and then calculated the overall enrollment impact due to the shift in the proportional enrollment of each of these groups. The acuity adjustment was a 1.0% increase to the Expansion Adult rate cell, or 0.4% overall.

### Trend Variations

We developed trends by population category and major category of service to better reflect variation of trends in service mix by population. For example, for the pharmacy trend assumption development, we further reviewed experience for specialty, brand and generic drugs, with additional considerations for how new drugs that launched during the trend period or are anticipated to launch would impact trend. This different mix of specialty, brand, and generic drugs contributes to the variation in pharmacy trends by population group.

The total composite annualized prospective trend increased from Jul18-Mar19 to Apr19-Jun20 by approximately 0.6% to 0.7%. For Jul18-Mar19, trend factors also incorporated the estimated impact of hospital DRG changes. Hospital DRG changes were accounted for separately as a program change for Apr19-Jun20 and are not reflected in trend factors. Accounting for this different treatment of hospital DRG changes, the estimated impact of total composite annualized prospective trend is approximately a 0.8% to 0.9% increase compared to Jul18-Mar19.

This increase was primarily driven by increases in non Hep-C pharmacy trends observed in encounter data, particularly specialty pharmacy unit costs. These observations were consistent with PBM reports and industry trend studies reviewed in our trend development.

### III. PROGRAM CHANGE ADJUSTMENTS

The following summarizes the significant prospective program changes implemented after the end of the base data period that required an adjustment. These changes and estimated impacts are described in detail below along with the data, assumptions and methodologies used.

**Pharmacy Dispensing Fee Increase.** Effective July 1, 2018 and pursuant to 18 RS HB 200, Medicaid Benefits, section (16), contracted MCOs shall ensure that any subcontractor engaged to reimburse for drug products through point of sale (POS)/retail claims pays an additional dispensing fee of \$2.00 per script. This additional dispensing fee amount shall be in addition to the dispensing fee remitted to pharmacies for POS/retail claims as calculated or determined by contractual provisions negotiated directly with the dispensing pharmacy or any entity who contracts on behalf of the dispensing pharmacy. To determine this change, we calculated the impact of a \$2.00 per script increase to historical pharmacy scripts as a proportion of total pharmacy costs by rate cell and region. This program change results in an approximate 0.7% (\$50M annualized) increase to the Apr19-Jun20 capitation payments.

**Vaccine Coverage at Point of Sale Pharmacies.** Beginning approximately September 2018, MCOs were required to cover certain vaccines administered by pharmacies at the point of sale. MCOs vary regarding which vaccines are available at point of sale pharmacies and their contracted rates. Wakely reviewed the emerging experience as well as MCO projected costs to estimate the impact of this program change. This change results in an approximate 0.0% (<\$1M annualized) increase to the Apr19-Jun20 capitation payments.

**Inpatient Hospital DRG Changes.** As described above, the Commonwealth revised hospital reimbursement based on updated versions of the Medicare Severity Diagnosis Related Group, (MS-DRG). Version 36 became effective October 1, 2018. To estimate the impact of this inpatient hospital reimbursement change, we calculated the change in DRG weights released by CMS, weighted by the prevalence of DRGs in Kentucky Medicaid managed care that were consistent between versions.

Wakely estimated the impact of the change to version 36 effective October 1, 2018 to be approximately 1.1%. This change was incorporated as a program adjustment with overall estimated impact of approximately 0.3%.

No rate adjustment has been made to account for the anticipated change to version 37 effective October 1, 2019. The impact of this DRG change on the

capitation rates will be analyzed, once final details are released by CMS.

**Urine Drug Screen Policy Changes.** MCOs implemented customized changes to their urine drug screening policies between July 2018 and March 2019. Changes include additional restrictions for presumptive urine drug testing, prior authorization requirements and annual limits. Wakely reviewed the policy changes for each MCO and developed a separate adjustment factor for each MCO. This program change results in an approximate 0.1% (-\$5.4M annualized) reduction to the Apr19-Jun20 capitation payments.

**Copayments.** Beginning January 1, 2019, all Managed Care Organizations (MCOs) and providers will be required to charge copays for specific non-preventative services given to some Kentucky Medicaid beneficiaries in accordance with the state plan. Wakely did not make an additional adjustment for this policy change since the base data was adjusted to be net of all state plan copayments in accordance with CMS rate setting guidelines.

**KCHIP 3 Elimination of Copayments.** Effective January 1, 2019 copayments and cost sharing for KCHIP Category 3 populations will be waived. Prior to January 1, 2019, only Category 3 populations were not exempt from copayments; therefore, this policy change will result in all KCHIP populations being exempt from copayments and cost sharing. This program change results in an approximate 0.0% (\$1.3M annualized) increase to the Apr19-Jun20 capitation payments.

**Expanded Physical, Occupational, and Speech Therapy Coverage.** Effective March 2019, therapy coverage will be expanded to an annual limit of twenty rehabilitative visits and an annual limit of twenty habilitative visits for each type of therapy: physical, occupational, and speech. The previous limit was twenty visits for rehabilitative and habilitative visits combined. To determine the impact of this change, Wakely reviewed the utilization for each type of therapy in CY 2017 and applied an adjustment to calculate the cost of the expanded visit limits. Wakely applied the adjustment only to members in the base data period who reached the prior 20-visit limit for rehabilitative and habilitative therapies combined. This program change results in an approximate 0.1% (\$3.5M annualized) increase to the Apr19-Jun20 capitation payments.

**Shift of Therapeutic Services from DCBS to MCOs.** Effective April 1, 2019, MCOs will be responsible for covering therapeutic services for children who are enrolled in the 5S program and receiving services from the Maryhurst facility. Previously, these claims were reimbursed fee-for-service by DCBS as part of a bundled payment rate. DCBS will continue to pay the room & board costs for these children. Wakely utilized prior 5S program membership staying in the

Maryhurst facility to estimate the impact of this program change. This change results in an approximate 0.1% (\$5.2M annualized) increase to the Apr19-Jun20 capitation payments.

**SUD Residential Treatment Expanded Capacity and Coverage.** Effective April 1, 2019, certified Medicaid providers will be able to provide residential services for Substance Use Disorders for up to 96 beds, an increase from the prior limit of 16 beds. We considered the number of facilities meeting certification requirements, current occupancy rates at residential treatment facilities, and the available amount of unused capacity at certified facilities. This change results in an approximate 0.1% (\$7M annualized) increase to the Apr19-Jun20 capitation payments.

***(d) Non-Material Program Changes***

Wakely examined the following program changes and did not find them to be material based on our review of the experience data and policy change. Therefore, no adjustment was made.

- **Early Elective Delivery Policy.** Effective November 2017, claims for non-medically necessary labor inductions and caesarean deliveries on or before 39 weeks of gestation will be denied. Based on a review of the data provided by the MCOs and discussions with DMS and other information, Wakely did not make an adjustment to the Apr19-Jun20 rates for this policy change.
- **Removal of Prior Authorization Requirements for Buprenorphine** Effective in February 2019, MCOs were required to waive prior authorization for a supply of buprenorphine 24 mg and below. Based on discussions with the DMS pharmacy director, denial rates prior to the DMS policy change were very low. Therefore, Wakely did not assume a utilization change.
- **Additional Immunizations for School Aged Children.** Effective July 2017, the Kentucky Administrative Regulation 902 KAR 2:060 was amended for the school year beginning on or after July 1, 2018 to require: (1) a 2-Dose Series of HepA for children age 12 months through 18 years and (2) Quadrivalent meningococcal vaccine (MenACWY) booster dose for children age 16 years. This program change was not determined to have a material effect on the Apr19-Jun20 rating period as most children were expected to have met this new requirement prior to the start of the 2018-19 school year.
- **Coverage of de-certified days for behavioral health inpatient stays.** Effective July 2018, MCOs are required to remain financially responsible for the continued inpatient care for individuals in an inpatient psychiatric facility who could otherwise be transferred from the facility to a step down

psychiatric residential treatment facility (PRTF) if capacity were made available. This policy clarification primarily affected foster care children under the guardianship of the Department for Community Based Services (DCBS). Based on information provided by DCBS, MCOs and discussions with DMS, Wakely did not make an adjustment to the Apr19-Jun20 rates for this policy change.

#### **IV. MANAGED CARE EFFICIENCY**

Wakely did not apply a separate explicit adjustment for managed care efficiencies outside of trend. Instead, we assumed that MCOs may be able to moderate the historical observed trends further through a continued focus on utilization and case management, value based purchasing models and other efficiencies to moderate future trends. This moderation is reflected in the lower bound of our trend range assumption.

#### **E. Mental Health Parity**

At the time of this certification, no additional services were deemed necessary by DMS to comply with the parity standards of the Mental Health Parity and Addiction Equity Act.

#### **F. In Lieu of Services**

The projected benefit costs do not include costs for any in lieu of services.

#### **G. Institutions for Mental Diseases (IMDs)**

IMDs are eligible for coverage through Medicaid managed care plan contracts starting January 1, 2018. These services were previously covered under Medicaid FFS. Wakely's analysis of the IMD services was based on a review of the SFY18 encounter data for adults ages 21 to 64 who received treatment in an IMD while enrolled in a managed care plan. Wakely's rate development includes utilization of services at the IMDs, priced at the same fee schedule as services at non-IMD providers. Because the same fee schedule applies to IMDs and non-IMDs in Kentucky's fee-for-service program, there was no adjustment to base period costs for this consideration.

Effective April 1, 2019, Kentucky expanded IMD services for individuals with a substance use disorder from 15 days to a statewide average of 30 days for certified Medicaid providers. This program change is authorized under the new 1115 waiver for SUD services as costs which are not otherwise matchable under section 1903 of the Act.

## H. Retrospective Eligibility

The MCO is responsible for providing coverage to individuals who are retroactively determined eligible for Medicaid. Retroactive Medicaid coverage is defined as a period of time up to three (3) months prior to the application month. The MCO is not responsible for retroactive coverage for SSI Members.

The retroactive coverage period and corresponding eligibility segments are included in the base period data reported by the MCOs.

## I. Summary of Projected Benefit Costs

The projected benefit costs are provided by region and rate cell in Appendix 1 (Exhibits 6A – 6C). These exhibits show the estimated impact of the trend and program change adjustments on the projected benefit costs.

# 4. Pass-Through Payments

This section provides information on the pass through payments reflected in the Apr19-Jun19 capitation rates. Pass through payments for the Jul19-Jun20 rating period will be included in a future amendment once final pass through payments have been determined for FY20.

## A. Pass Through Payment Definition

For purposes of this report, a pass through payment is any amount required by the state to be added to the contracted payment rates between MCOs and hospitals, physicians or nursing facilities that is not for one of the following purposes:

- a specific service or benefit provided to a specific enrollee covered under the contract;
- a provider payment methodology permitted under 42 CFR 438.6(c)(1)(i) through (iii) for services and enrollees covered under the contract;
- a sub-capitated payment arrangement for a specific set of services and enrollees covered under the contract;
- graduate medical education (GME) payments;
- FQHC or RHC wrap around payments.

## B. Pass-Through Supplemental Payments

The Commonwealth requires MCOs to make pass-through payments for hospitals and physicians.

### I. DESCRIPTION OF THE PASS-THROUGH PAYMENTS

The Commonwealth of Kentucky includes enhanced reimbursement for specific provider groups in the capitation rates in order to preserve the ability of the provider entities to provide essential services to Commonwealth residents.

### II. TOTAL AMOUNT OF THE PASS-THROUGH PAYMENTS

The total pass-through payments included in the capitation rates are:

- \$89,021,238 for the period of Apr19-Jun19, this amount, when combined with the amount for Jul18-Mar19 of \$269,613,610, equals a total SFY19 pass-through payment amount of \$ 358,634,848. The original certification for Jul18-Mar19 included pass-through payments of \$268,976,136; this number has been updated based on actual enrollment through January 2019 to be \$269,613,610.
- Supplemental payments for the period of Jul19-Jun20 are still to be determined. The supplemental payment amounts for Jul19-Jun20 will be updated in a subsequent certification, once these amounts are known.

The PMPM rates included in the MCO contract for the pass-through payments are shown in Appendix 2.

### III. PROVIDERS RECEIVING THE PASS-THROUGH PAYMENTS

Table 6 lists the specific providers receiving the supplemental payments for Apr19-Jun19.

**Table 6: Supplemental Payments for Apr19-Jun19**

Total		\$269,613,291	\$89,021,557	\$358,634,848

#### IV. FINANCING MECHANISM FOR THE PASS-THROUGH PAYMENTS

The supplemental payments were incorporated as a separate PMPM add-on to the capitation rates and vary by rate cell and region based on the base period utilization and costs of the specific providers eligible for the supplemental payments. The total aggregate supplemental payment amounts were developed based on a comparison of the supplemental payments in the capitation rates as of July 5, 2016, as well as the allowable supplemental payments in the SFY19 Base Calculations.

Wakely compared the aggregate supplemental payment for hospitals to the base amounts for the pass through payments described in Section 4.B.vii below to ensure compliance with 42 CFR 438.6 of the amended Final Rule for pass-through payments released January 18, 2017.

The aggregate supplemental payments were then distributed to each region and rate cell, based on historical utilization, and converted to prospective PMPMs based on the projected enrollment in the capitation rates. The supplemental payment add-on includes a 1% non-benefit expense margin and a 1% adjustment for the Commonwealth's premium assessment. The supplemental payment is not risk adjusted and will be reconciled against actual pass-through payments paid by the MCOs to the eligible providers to ensure that total aggregate supplemental payments to each provider do not exceed DMS's aggregate target.

The supplemental payments will be provided to the MCOs through monthly capitation payments based on the supplemental payment PMPM in each rate cell. DMS will inform the MCOs of the amounts that must be paid to the eligible providers. The MCOs will then pass this amount through to the providers.

Since there is likely to be a difference between the supplemental payment included in the contracted rate and the total aggregate supplemental payment amount targeted to each provider, the payments will be reconciled after a six-month run-out

period following the end of SFY19 and SFY20. Final reconciliation payments will be made based on a comparison of the actual MCO supplemental payments to providers and the aggregate target amount shown in Table 6.

## **V. PRIOR PASS-THROUGH PAYMENT AMOUNTS**

The amount of pass-through payments in the previous rating period (SFY18-1H & SFY18-2H) were \$349,687,595 (\$143,337,333 Professional and \$206,350,262 Institutional).

The amount of pass-through payments in SFY19 are (Jul18-Mar19 & Apr19-Jun19) were \$349,687,595 (\$143,337,333 Professional and \$206,350,262 Institutional).

## **VI. PASS-THROUGH PAYMENTS AS OF JULY 5, 2016**

The total annualized pass-through payments in the approved capitation rates as of July 5, 2016 were \$358,634,849 (\$143,337,333 Professional and \$215,297,515 Institutional).

## **VII. BASE AMOUNT FOR HOSPITAL PASS-THROUGH PAYMENTS**

To calculate the base amounts for the hospital pass-through payments, Wakely relied primarily on encounter data for a 12-month period two years prior to the rating period, September 2016 through August 2017. This is the same time period as was used for the base period data in the Jul18-Mar19 rate development. Although this time period is not exactly two years prior to the rating period, this experience period was chosen instead of SFY17 due to data issues observed with encounter claims for July and August 2016 and to be consistent with the base data time period.

To estimate the amount Medicare FFS would have paid for inpatient and outpatient services utilized by the eligible population under the MCO contract, base period inpatient and outpatient encounter data for all MCOs was repriced using the time period specific Medicare Inpatient and Outpatient Prospective Payment System (IPPS and OPSS) methodologies. Completion factors were then applied to the repriced inpatient and outpatient data, and these amounts were then reduced by 10% in SFY19 (Section I, Item 4.E.i.c.i.A). The actual MCO paid encounter data for the MCOs was used to estimate the MCO inpatient and outpatient payments and was similarly adjusted to estimate completion (Section I, Item 4.E.i.c.i.B).

The aggregate SFY19 Base Amount for Inpatient and Outpatient services is approximately \$277 million based on the difference between (1) the amount Medicare FFS would have paid for those inpatient and outpatient hospital services utilized by the eligible population under the MCO contract during the base period

and (2) the amount the MCOs paid (not including pass-through payments) for those inpatient and outpatient hospital services utilized by the eligible populations under the MCO contract during the base period. No amounts were paid for eligible populations under Medicaid FFS. Note, these amounts remain the same as the prior certification for SFY19.

## 5. Projected Non-Benefit Costs

### A. Variations in Assumptions

All variations in assumptions used to develop the projected non-benefit costs for covered populations were based on valid rate development standards and were not based on the rate of Federal financial participation associated with the covered populations. The same methodology was used consistently for all categories of aid.

### B. Development of Projected Non-Benefit Costs

#### I. DATA, ASSUMPTIONS, AND METHODOLOGY

The actuarially sound capitation rate ranges include provisions for administration, profit/risk and contingency, care coordination, and care management, as well as any state levied premium taxes and assessments. These items are collectively referred to as the non-benefit costs.

The process for the evaluation of the projected non-benefit costs focused first on administration costs. Administration costs include general administration costs together with care coordination and care management expenses.

The base data used to develop the costs for administration functions was developed primarily from the SFY18 MCO submitted financial information provided in the MRTs. The MRT information was not audited but was reviewed for reasonableness. Additional detail by category of aid was requested in the MRT submissions, which was used to stratify and normalize the administration costs between the MCOs. Two of the five MCOs reported administration costs by category of aid in the MRTs; the other three MCOs continued to report a constant administration cost PMPM across all categories of aid. To obtain appropriate administration cost relativities between the categories of aid, Wakely averaged the category of aid administration relativities based on the two MCOs that reported administration at the category of aid level. These relativities, as well as MCO specific risk scores, were used to normalize each MCO's administration costs for membership and acuity mix.

Prior to adding additional costs associated with implementing the KY Health waiver, the administration rate range was established by setting the lower bound equal to the lowest normalized administration PMPM among all the MCOs. The upper bound was set at the statewide average normalized administration PMPM across all MCOs.

The lower and upper bound PMPMs were trended forward to the contract period using the average of Medical Consumer Price Index (CPI) and Non-Medical Urban CPI rates to recognize that part of the administration costs is dependent on the volume of medical claims, such as claims processing expenses and care management, and part of the administration costs are for fixed business costs which are more likely to increase with Non-Medical CPI, such as staff salaries and building costs.

The administration costs were also increased to include additional costs associated with ongoing activities to support the Kentucky HEALTH 1115 Waiver program implementation. The total additional funds for waiver implementation is approximately \$6 million on an annualized basis based on historical observed costs associated with the waiver implementation.

The lower and upper bound administration composite PMPMs were multiplied by the category of aid administration relativities to determine the resulting category of aid level lower and upper bound administration PMPMs. The PMPM was converted to a percentage of revenue and allocated across all rate cells within the same category of aid.

Profit, risk, and contingency was assumed to be 1% across the rate range, as in previous contract periods. In evaluating the appropriateness of the 1% margin, Wakely reviewed historical changes in the MCO-specific and program-wide Risk

Based Capital (RBC) levels and concluded that the 1% margin was reasonable and appropriate for this program.

In addition, a 1% state assessment is included in the non-benefit costs for all MCOs.

## II. MATERIAL CHANGES FROM THE PRIOR CERTIFICATION

There are no material changes to the methodologies used to develop the non benefit expenses when compared to the prior certification.

### C. Non-Benefit Cost Components

Non-benefit costs include all components of non-benefit expenses. They are developed separately for administrative costs (including care coordination and care management), margin, and taxes/fees.

### D. Summary of Non-Benefit Costs

Table 8 shows the administration costs as a percentage of revenue, prior to any state or federally mandated premium fees or assessments. The table includes both the lower and upper bounds of the rate range.

**Table 8: Summary of Administration Cost Percentage by Category of Aid (excluding margin and assessments)**

	TANF Adults	TANF Children	SSI Adults and Children	Dual Eligible	Foster Care	MAGI / Former Foster Care
Lower Bound	9.0%	8.4%	7.3%	7.4%	8.5%	8.3%
Upper Bound	9.6%	9.0%	7.8%	7.9%	9.1%	8.9%

### E. Health Insurer Fee

Pursuant to section 9010 of the Affordable Care Act (ACA), the ACA imposes a fee on health insurers, including most Medicaid managed care plans. Not-for-profit insurers with more than 80% of their premium from Medicaid, Medicare, and Children's Health Insurance Program risk contracts are exempt from the fee. HIF as a percentage of capitation rates is remaining consistent for Apr19-Dec19 and will be updated with an amended certification for Jan20-Jun20 when more information is available about the Fee Year 2021 HIF. For Apr19-Dec19, the health insurance provider fee (HIF) is estimated to be 2.5% of total premium for the for profit entities, and 0% for the nonprofit entities, and will be reconciled to actual fees when payments are due.

## 6. Rate Range Development

Wakely developed rate ranges by varying the trend and administrative cost load assumptions. All other rate setting assumptions and adjustments were the same between the lower and upper bound of the rate range. Please see the relevant sections for trend and non-benefit expenses above for a description of how the lower bound and upper bound assumptions were developed. Appendix 1 includes summaries of the base capitation rate ranges for the fifteen month period Apr19-Jun20 (Exhibit 9), as well as for the three month rate period Apr19-Jun19 and the twelve month rate period Jul19-Jun20 (Exhibit 10).

The final certified rates were developed based on an evaluation of the rate ranges. DMS negotiates the final contracted rates with the MCOs based on selecting the same percentile of the actuarially sound rate ranges for each and every rate cell. The same rates are paid to each MCO prior to risk adjustment. The base rate and supplemental payment add-on are shown separately and are added together to determine the total payment rate. The final certified rates are included in Appendix 2.

## 7. Risk Mitigation, Incentives and Related Contractual Provisions

### A. Risk Mitigation

Capitation rates for the contract period will be risk adjusted based on encounter data to account for differences in the morbidity of the populations between the MCOs. Wakely will support DMS in developing the risk adjustment factors for the April 1, 2019 rates. Additionally, the MCO contract includes provisions for a minimum medical loss ratio, which is described in further detail below. As noted in Sections I-4 above, the pass through payment component of the rate will be reconciled to actual payments made by the MCOs.

### B. Rate Certification and Supporting Documentation

#### I. RISK ADJUSTMENT MODEL

Wakely uses the CDPS + Rx version 6.2 risk adjustment model developed by the University of California, San Diego to assign the risk markers to enrollees. The national concurrent weights included with the model are used to develop the risk scores for the population. Wakely may update CDPS versions and the risk weights within the rating period to reflect Kentucky-specific experience.

#### II. DATA AND ADJUSTMENTS

For risk-adjusted rates effective April 1, 2019, Wakely developed member-level risk scores using detailed medical and pharmacy encounter data and FFS claims data incurred from November 2017 to October 2018 (and paid through February 2019). Detailed capitation data as of March 2019 was used for enrollment and eligibility information, including MCO identification. The risk scores will apply to the rates effective April 1, 2019 such that the resulting risk adjusted rates are budget neutral to the Commonwealth.

The risk scores are based on the first 12 diagnosis codes for facility and physician encounters with the exception of lab and x-ray services. The capitation payments are adjusted using risk scores for all rate cells with the exception of the dual eligible population. In order to receive a risk score, a member must have at least three months of enrollment information within the base period, with the exception of newborns and pregnant women, who are required to have only one month of enrollment. The average risk scores are summarized by MCO, rate cell, and region. New members (who enrolled after the base period) and members who do not meet the enrollment threshold in the base period receive the average risk score for their rate cell, region, and MCO.

### **III. MATERIAL CHANGES FROM THE PRIOR CERTIFICATION**

There are no material changes in the risk adjustment methodology.

### **IV. FREQUENCY**

For the Apr19-Jun19 rate period, risk scores have been updated effective April 1, 2019. We anticipate that risk scores by MCO will be updated for a remix of enrollment for the July 1, 2019 effective rates, and periodically throughout the rating period.

### **V. HOW THE RISK SCORES WILL BE USED TO ADJUST CAPITATION RATES**

There are two components within the base capitation rates that are not risk adjusted: HIF and pass-through payments. Pass-through payments are a portion of the contracted base rates that are passed through the MCOs to specific hospitals and other eligible providers. Prior to the application of the risk adjustment results, the pass-through payment and HIF amounts are removed from the base rates. The risk scores are then applied to the capitation rates at a MCO, region, and rate cell level.

The risk scores for each MCO, rate cell, and region are adjusted such that they are budget neutral on a region and rate group level. These risk factors are then applied to the base capitation rates, and the supplemental payments and HIF (if applicable) are then added back to develop the risk adjusted capitation rate.

## **VI. AN ATTESTATION THAT THE RISK ADJUSTMENT IS BUDGET NEUTRAL**

Wakely attests that the risk adjustment process will be budget neutral within each time period that it is applied.

### **C. Risk Corridor**

The Commonwealth does not have any risk sharing arrangements with the contracted MCOs.

### **D. Medical Loss Ratio**

The MCO contracts include a minimum medical loss ratio (MLR) requirement for all population groups combined. The total annual capitation payment made to the contracted MCOs for the covered members and their associated health care costs will be evaluated against a 90% MLR requirement to determine whether a payment adjustment is warranted. If a MCO's MLR is between 86% and 90%, the MCO will refund the Commonwealth 75% of the difference between the dollar amount corresponding to a 90% MLR and the actual allowable medical expenses for the MCO. If a MCO's MLR is less than 86%, the MCO will refund the Commonwealth the sum of: (a) 75% of the difference between the dollar amount corresponding to a 90% MLR and the dollar amount corresponding to an 86% MLR; and (b) 100% of the difference between the dollar amount corresponding to an 86% MLR and the actual allowable medical expenses for the MCO. The MLR is calculated in accordance with the federal Medicaid calculation standards in 42 CFR 438.8 and is based on claims submitted and paid within 12 months after the end of each state fiscal year period. Appendix B of the MCO contract includes additional detail on the methodology used to calculate the MLR.

### **E. Reinsurance**

The Commonwealth does not have any reinsurance requirements under the contract. The Commonwealth does not provide state-sponsored reinsurance to the contracted MCOs or require the MCOs to purchase commercial reinsurance.

### **F. Incentives**

The Commonwealth historically operated an incentive program based on HEDIS measures. Effective January 1, 2018, this incentive program was discontinued.

## **8. Other Rate Development Considerations**

## **A. Data Smoothing**

The data was examined for distortions resulting from rate cells with small population sizes or outlier claims. While most capitation rate cells were determined to be credible on their own, additional smoothing was performed on a budget neutral basis to improve the credibility of small rate cells.

Costs were redistributed between the infant and child age 1-5 rate cells for SSI Child and Foster Care Children on a budget neutral basis. Given the lack of credibility, we analyzed the cost relativities in the base period between the infant and child age 1 to 5 populations for SSI Children and Foster Care Children, respectively, across all regions combined. The resulting cost relativities of 6.76 for SSI Children and 4.06 for Foster Care Children were applied to each region on a budget neutral basis.

In addition, we consolidated the experience for Former Foster Care rate cells 18-20 and 21-25 and MAGI Adult rate cells Under 19 and 19-24 to increase credibility.

The rate cell relativities and the calculation of all combined rate cells are illustrated in Appendix 1, Exhibit 8.

## **B. Enhanced FMAP**

Family planning services are eligible for a 90% federal matching assistance percentage (FMAP). This FMAP is different from the regular state FMAP. The portion of the rate attributable to family planning services will be calculated using the same percentages by rate cell and region as those used in the prior certification.

The Kentucky Children's Health Insurance program (KCHIP) receives enhanced FMAP under Title XXI and covers children under age 19 in families with incomes less than 213 percent of the federal poverty level. The KCHIP Medicaid expansion up to 150 percent of the federal poverty level has the same benefits as traditional Medicaid. The KCHIP separate insurance program for those with income above 150 percent of the federal poverty level (KCHIP III) does not provide non-emergency transportation or Early Periodic Screening, Diagnosis and Treatment Special Services (EPSDT). Copayments were also required through December 31, 2018, but will no longer be applicable beginning January 1, 2019. These benefit differences are reflected in the base data or corresponding adjustments. The costs for the KCHIP population are included in the Families and Children rating category.

Additionally, the ACA population is eligible for enhanced FMAP and the corresponding capitation rates are shown as separate rate cells. The methodology used to develop the

rate ranges for the ACA population is based on the same data sources and is consistent with the methodology used to develop the rate ranges for the non-ACA population.

### **C. Effective Date of Changes**

All changes to the Medicaid program are reflected consistently with the assumptions used to develop the capitation rates in accordance with the effective date of the change.

### **D. Generally Accepted Actuarial Practices and Principles**

The rate ranges were developed using generally accepted actuarial practices and principles and,

1. in the actuary's judgment, reflect all reasonable, appropriate and attainable costs under the contract;
2. There are no adjustments to the rates performed outside the rate setting process;
3. DMS selects the final contracted rates based on a percentile of the actuarially sound rate ranges for each and every rate cell. The same base rates are paid to each MCO prior to risk adjustment. Therefore, the final contracted rate for each rate cell is actuarially sound.

## **9. Procedures for Rate Certifications for Rate and Contract Amendments**

This certification is a new rate certification for the period April 1, 2019 through June 30, 2020. Future amendments to this rate certification are anticipated due to additional program changes effective mid-year, supplemental payments, and HIF.

## Section II. Medicaid Managed Care Rates with Long-Term Services and Supports

Long-term services and supports are excluded from managed care.

## Section III. New Adult Group Capitation Rates

The development of the rates for the ACA population was based on the same data sources and is consistent with the methodology used to develop the rates for the non-ACA population.

## Appendix 3: Actuarial Certification

I, Mary Hegemann and I, Maria Dominiak are associated with the firm Wakely Consulting Group, LLC (Wakely). We are Members of the American Academy of Actuaries and Fellows of the Society of Actuaries. We meet the qualification standards established by the American Academy of Actuaries and have followed the standards of practice established by the Actuarial Standards Board. We have been retained by the Commonwealth of Kentucky Department for Medicaid Services and are generally familiar with the state-specific Medicaid program, eligibility rules, and benefit provisions.

The capitation rates provided with this certification are considered “actuarially sound” for purposes of 42 CFR 438.4, according to the following criteria:

- the capitation rates have been developed in accordance with generally accepted actuarial principles and practices;
- the capitation rates are appropriate for the Medicaid populations to be covered, and Medicaid services to be furnished under the contract; and,
- the capitation rates meet the applicable requirements of 42 CFR 438.

For the purposes of this certification, “actuarial soundness” is defined as in ASOP 49:

“Medicaid capitation rates are “actuarially sound” if, for business for which the certification is being prepared and for the period covered by the certification, projected capitation rates and other revenue sources provide for all reasonable, appropriate, and attainable costs. For purposes of this definition, other revenue sources include, but are not limited to, expected reinsurance and governmental stop-loss cash flows, governmental risk-adjustment cash flows, and investment income. For purposes of this definition, costs include, but are not limited to, expected health benefits; health benefit settlement expenses; administrative expenses; the cost of capital, and government-mandated assessments, fees, and taxes.”

The assumptions used in the development of the “actuarially sound” capitation rates have been documented in this actuarial report for the Commonwealth of Kentucky. The “actuarially sound” capitation rates that are associated with this certification are effective for the rate period April 1, 2019 through June 30, 2020.

The capitation rates under the contract all fall within the actuarially sound rate range and are considered actuarially sound.

The “actuarially sound” capitation rates are based on a projection of future events. Actual experience may be expected to vary from the experience assumed in the rates.

In developing the “actuarially sound” capitation rates, we have relied upon data and information provided by the Commonwealth and the contracted MCOs. We did not audit the data. However, we did review the data for reasonableness and consistency.

The capitation rates developed may not be appropriate for any specific health plan. An individual health plan will need to review the rates in relation to the benefits that it will be obligated to provide. The health plan should evaluate the rates in the context of its own experience, expenses, capital and surplus, and profit requirements prior to agreeing to contract with the Commonwealth. The health plan may require rates above, equal to, or below the “actuarially sound” capitation rates that are associated with this certification.

## INTRODUCTION

Wakely has been retained by the Commonwealth of Kentucky, Department for Medicaid Services (DMS) to provide actuarial and consulting services related to the development of capitation rates for its Medicaid Managed Care Program. This information and analysis was prepared for, and is only to be relied on by, DMS management.

This file contains summaries of the data, adjustments, and projection assumptions used in the development of capitation rates. Using the information in this analysis for other purposes may not be appropriate. Wakely does not intend to create a reliance to third parties. If materials are released to third parties, the material should be provided in its entirety, including caveats regarding the possible variability of results and Wakely's reliance on data sources provided by DMS and the MCOs.

## DATA

Wakely has relied on information provided by DMS and MCOs in the development of the capitation rates. We have relied upon DMS and MCOs for the accuracy of the data provided. We have reviewed the data for reasonableness, but have not performed any independent audit or otherwise verified the accuracy of the data/information. In order to assign claims into categories of service as shown throughout this ratebook, Wakely relied on major categories of service (inpatient, outpatient, professional, and pharmacy) indicated in the data provided by DMS. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete. To the extent that the data provided is not accurate, the analysis would need to be modified to reflect the revised information.

## DISCLOSURES AND LIMITATIONS

**Responsible Actuaries** Mary Hegemann and Maria Dominiak are the actuaries responsible for this communication. We are members of the American Academy of fellows of the Society of Actuaries. We both meet the Qualification Standards of the American Academy of Actuaries to issue this analysis.

**Risks and Uncertainties** The assumptions and resulting estimates included in this analysis are inherently uncertain. Users of the results should be qualified to use it and understand the results and the inherent uncertainty. Actual results may vary, potentially materially, from our estimates. Wakely does not warrant or guarantee the projected values included in the analysis. It is the responsibility of the organization receiving this output to review the assumptions carefully and notify Wakely of any potential concerns.

Capitation rates may not be appropriate for any individual MCO. Results will differ if actual experience is different from the assumptions contained in the capitation rate setting documentation. Each MCO should evaluate the rates in the context of their own experience, expenses, capital and surplus, and profit requirements prior to agreeing to contract with DMS. Wakely provides no guarantee, either written or implied, that the data and information is 100% accurate or error free.

**Conflict of Interest** We are financially independent and free from conflict concerning all matters related to performing the actuarial services underlying this analysis. In addition, Wakely is organizationally and financially independent from the Commonwealth of Kentucky.

**Deviations from ASOPS** Wakely completed the analysis using sound actuarial practice. To the best of my knowledge, the report and methods used in the analysis are in compliance with the appropriate Actuarial Standards of Practice (ASOP) with no known deviations.
