We determined that a material weakness existed in our internal control over financial reporting relating to the operation of an element of our process for calculating the amount owed to California by our California health plan. More specifically, a Medicaid Expansion contract amendment executed in the fourth quarter of 2016 changed the medical loss ratio corridor formula and such amendment was not initially considered in determining the liability. As a result, we understated net income by $44 million for the year ended December 31, 2016, which was material to our consolidated results for the year ended December 31, 2016. This amount was corrected prior to the issuance of our consolidated financial statements as of and for the year ended December 31, 2016.

Because of this material weakness, management concluded that we did not maintain effective internal control over financial reporting as of December 31, 2016, based on criteria described in *Internal Control - Integrated Framework* (2013) issued by COSO.

Remediation Plan for Material Weakness

We are executing the remediation plan developed to address the material weakness reported as of December 31, 2016. The remediation efforts we have implemented include the development of robust protocols to ensure that the control, relating to the review of a contractual amendment affecting the computation of the Medicaid Expansion medical loss ratio corridor for our California health plan, is operating as designed. We believe these measures will remediate the material weakness identified above and will strengthen our internal control over financial reporting for the computation of our California Medicaid Expansion medical loss ratio corridor. We currently are targeting to complete the implementation of the control enhancements during 2017. We will test the ongoing operating effectiveness of the control enhancements subsequent to implementation, and consider the material weakness remediated after the applicable remedial control enhancements operate effectively for a sufficient period of time. If the remedial measures described above are insufficient to address the material weakness described above, or are not implemented timely, or additional deficiencies arise in the future, material misstatements in our interim or annual financial statements may occur in the future and could have the effects described in “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016.

Changes in Internal Control Over Financial Reporting: Except as described above, management did not identify any change in our internal control over financial reporting during the fiscal quarter ended June 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

LEGAL PROCEEDINGS

For information regarding legal proceedings, see Notes to Consolidated Financial Statements, Note 13, “Commitments and Contingencies.”

RISK FACTORS

Certain risk factors may have a material adverse effect on our business, financial condition, cash flows, or results of operations, and you should carefully consider them. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in “Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2016 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017. The risk factors described herein, and in our 2016 Annual Report on Form 10-K and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition, cash flows, or results of operations.

The Restructuring Plan may be disruptive, and we may not fully realize the anticipated benefits.

As discussed herein, we recently initiated a comprehensive Restructuring Plan to improve our profitability and operational efficiency. As part of that Restructuring Plan, we are re-designing core operating processes such as provider payment, utilization management, quality monitoring and improvement, and information technology. We are also streamlining our organization structure, including eliminating redundant layers of management. Finally, we are reducing our workforce by approximately 10%, or 1,400 full-time-equivalent positions. While we expect to benefit from the implementation of the Restructuring Plan, estimates of cost savings are inherently uncertain, and we may not be able to achieve these cost savings, or the expected operating efficiencies, within the periods we have projected, or at all. Restructuring activities may also result in a loss of continuity or institutional knowledge, inefficiency, depressed employee morale, and litigation during transitional periods and thereafter. Internal restructurings can also require a significant amount of time and focus from management and other employees, which may divert attention from our ongoing business operations. In addition, our implementation of the Restructuring Plan will require significant upfront costs. Our estimate of the costs necessary to achieve the cost savings we have identified may prove to be inaccurate, and any increase in such costs may affect our ability to achieve our anticipated cost savings within the period we have projected, or at all. If the Restructuring Plan fails to achieve all of the anticipated benefits, our business, financial condition, cash flows, or results of operations could be materially and adversely affected.

An impairment charge with respect to our recorded goodwill, or our finite-lived intangible assets, could have a material impact on our financial results.

As of December 31, 2016, the carrying amounts of goodwill and intangible assets, net, amounted to $620 million, and $140 million, respectively. Intangible assets are amortized generally on a straight-line basis over their estimated useful lives. For the reasons described below, as of June 30, 2017 the carrying amounts of goodwill and intangible assets, net, had declined to $559 million, and $112 million, respectively.

Goodwill represents the excess of the purchase price over the fair value of net assets acquired in business combinations. Goodwill is not amortized, but is subject to an annual impairment test. We are required to test at least annually for impairment, or more frequently if adverse events or changes in circumstances indicate that the asset may be impaired. We estimate the fair values of our reporting units using discounted cash flows.

Finite-lived, separately-identified intangible assets acquired in business combinations are assets that represent future expected benefits but lack physical substance (such as purchased contract rights and provider contracts). Following the identification of any potential impairment indicators, to determine whether an impairment exists, we would compare the carrying amount of a finite-lived intangible asset with the undiscounted cash flows that are expected to result from the use of the asset or related group of assets.

In the discounted cash flow analyses, we must make assumptions about a wide variety of internal and external factors, and consider the price that would be received to sell the reporting unit as a whole in an orderly transaction between market participants at the measurement date. Significant assumptions include financial projections of free

cash flow (including significant assumptions about operations, capital requirements and income taxes), long-term growth rates for determining terminal value beyond the discretely forecasted periods, and discount rates. If these assumptions differ from actual results, the outcome of our impairment tests could be adversely affected.

Based on our impairment tests, we recorded $72 million in non-cash impairment losses for goodwill and intangibles, primarily relating to our Pathways subsidiary. In the course of developing our restructuring and profitability improvement plan, we determined that future benefits to be derived from Pathways (including integration with our health plans) will be less than previously anticipated.

We cannot accurately predict the amount and timing of any future impairment charges. Additional events could occur that would cause us to further revise our estimates and assumptions used in analyzing the value of our goodwill, and intangible assets, net. For example, if the responsive bid of one or more of our health plans is not successful, we will lose our Medicaid contract in the applicable state or states. If such state health plans have recorded goodwill and intangible assets, net, the contract loss could result in a non-cash impairment charge. Additionally, if we are unable to procure new state MMIS contracts, the outcome of our goodwill impairment tests could be adversely affected and result in a non-cash impairment charge. Such a non-cash impairment charge could have a material adverse impact on our financial results.

UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

ISSUER PURCHASES OF EQUITY SECURITIES

Purchases of common stock made by us, or on our behalf during the quarter ended June 30, 2017, including shares withheld by us to satisfy our employees' income tax obligations, are set forth below:

	Total Number of Shares Purchased [1]	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares Authorized to Be Purchased Under the Plans or Programs
April 1 - April 30	12,389	$ 45.60	—	$ —
May 1 - May 31	223,661	$ 62.45	—	$ —
June 1 - June 30	—	$ —	—	$ —
Total	236,050	$ 61.56	—	

(1) During the three months ended June 30, 2017, we withheld 236,050 shares of common stock under our 2011 Equity Incentive Plan to settle employee income tax obligations.

INDEX TO EXHIBITS

Exhibit No.	Title
4.1	Indenture, dated June 6, 2017, by and among Molina Healthcare, Inc., the Guarantors party thereto and U.S. Bank National Association, as Trustee. Filed as Exhibit 1.1 to registrant's Form 8-K filed June 6, 2017.
4.2	Form of 4.875% Senior Notes due 2025. Included in Exhibit 1.1 to registrant's Form 8-K filed June 6, 2017.
4.3	Form of Guarantees in connection with Indenture dated June 6, 2017. Included in Exhibit 1.1 to registrant's Form 8-K filed June 6, 2017.
10.1	Third Amendment to Credit Agreement dated as of May 19, 2017, by and among Molina Healthcare, Inc., the Guarantors party thereto, the Lenders party thereto and SunTrust Bank, in its capacities as Administrative Agent, Issuing Bank and Swingline Lender. Filed as Exhibit 10.1 to registrant's Form 8-K filed May 22, 2017.
10.2	Amended and Restated Employment Agreement with Joseph W. White, dated June 5, 2017, and effective as of May 2, 2017. Filed as Exhibit 10.1 to registrant's Form 8-K filed June 7, 2017.
10.3	Waiver and Release Agreement, dated June 24, 2017, by and between J. Mario Molina and Molina Healthcare, Inc. Filed as Exhibit 10. 1 to registrant's Form 8-K filed June 28, 2017.
10.4	Waiver and Release Agreement, dated June 26, 2017, by and between John Molina and Molina Healthcare, Inc. Filed as Exhibit 10.2 to registrant's Form 8-K filed June 28, 2017.
10.5	Purchase Agreement, dated May 22, 2017, by and among the Company, the guarantors party thereto and SunTrust Robinson Humphrey, Inc., as representative of the several initial purchasers named in Schedule A thereto. Filed as Exhibit 1.1 to registrant's Form 8-K filed May 23, 2017.
31.1	Certification of Interim Chief Executive Officer and Chief Financial Officer pursuant to Rules 13a-14(a)/15d-14(a) under the Securities Exchange Act of 1934, as amended.
32.1	Certification of Interim Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

THE GUARANTORS PARTY HERETO

$330,000,000

4.875% Senior Notes due 2025

INDENTURE

Dated as of June 6, 2017

U.S. BANK NATIONAL ASSOCIATION

as Trustee

TABLE OF CONTENTS

INDENTURE

This INDENTURE dated as of June 6, 2017, is by and among Molina Healthcare, Inc., a Delaware corporation (the "***Company***"), the Guarantors (as defined herein) party hereto from time to time and U.S. Bank National Association, a national banking association, as trustee (the "***Trustee***").

RECITALS OF THE COMPANY

A. The Company has duly authorized the execution and delivery of this Indenture to provide for the issuance of 4.875% Senior Notes due 2025 issued on the date hereof (the "***Initial Notes***").

B. All things and acts necessary to make this Indenture the legal, valid and binding obligation of the Company have been done.

RECITALS OF THE GUARANTORS

A. Each of the Guarantors is a Subsidiary of the Company and desires to make the Subsidiary Guarantees provided for herein.

B. All things and acts necessary to make this Indenture the legal, valid and binding obligation of each of the Guarantors have been done.

NOW, THEREFORE, THIS INDENTURE WITNESSETH:

For, and in consideration of the premises and the purchase of the Notes by the Holders (as defined herein) thereof, the Company, the Guarantors and the Trustee mutually covenant and agree, for the equal and ratable benefit of the Holders of the Notes, as follows:

ARTICLE 1

DEFINITIONS AND INCORPORATION BY REFERENCE

Section 1.01 Definitions.

For all purposes of this Indenture, except as otherwise expressly provided or unless the context otherwise requires:

"***Additional Notes***" means any additional 4.875% Senior Notes due 2025 issued from time to time after the Issue Date under the terms of this Indenture other than pursuant to Sections 2.08, 2.09, 2.12, 3.06 or 9.05 of this Indenture.

"***Affiliate***" of any specified Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For purposes of this definition, "***control***," as used with respect to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise. For purposes of this definition, the terms "***controlling***," "***controlled by***" and "***under common control with***" have correlative meanings.

"***Agent***" means any Note Registrar, co-registrar, Paying Agent or additional paying agent.

"***Appendix***" has the meaning specified in Section 2.01 of this Indenture.

"***Applicable Premium***" means the greater of:

(1) 1.0% of the principal amount of the Notes being redeemed; or

(2) the excess of:

(a) the present value at such Redemption Date of (i) the Redemption Price of the Notes at June 15, 2020 *plus* (ii) all remaining required interest payments due on the Notes through, but not including, June 15, 2020 (excluding accrued but unpaid interest to the Redemption Date), computed using a discount rate equal to the Treasury Rate as of such Redemption Date *plus* 50 basis points; over

(b) the then outstanding principal amount of the Notes.

The Company shall calculate or cause the Applicable Premium to be calculated.

"***Applicable Procedures***" means, with respect to any transfer, redemption or exchange of or for beneficial interests in any Global Note, the rules and procedures of the Depositary that apply to such transfer, redemption or exchange.

"***Attributable Debt***" means, as of any date upon which a determination of the amount thereof shall be computed, as of any particular time, the present value, calculated using a rate of interest implicit in such transaction determined in accordance with GAAP, of the obligation of a lessee for rental payments during the remaining term of any lease (including any period for which such lease has been extended or may, at the option of the lessor, be extended).

"***Bankruptcy Law***" means Title 11, U.S. Code or any similar federal or state law for the relief of debtors, or the law of any other jurisdiction relating to bankruptcy, insolvency, winding up, liquidation, reorganization or relief of debtors.

"***Beneficial Owner***" has the meaning assigned to such term in Rule 13d-3 and Rule 13d-5 under the Exchange Act, except that in calculating the beneficial ownership of any particular "person" (as that term is used in Section 13(d)(3) of the Exchange Act), such "person" will be deemed to have beneficial ownership of all securities that such "person" has the right to acquire by conversion or exercise of other securities, whether such right is currently exercisable or is exercisable only upon the occurrence of a subsequent condition.

"***Board of Directors***" means:

(1) with respect to a corporation, the board of directors of the corporation or any committee thereof duly authorized to act on behalf of such board;

(2) with respect to a partnership, the Board of Directors of the general partner of the partnership;

(3) with respect to a limited liability company, the managing member or members or any controlling committee or managing members thereof; and

(4) with respect to any other Person, the board or committee of such Person serving a similar function.

"***Board Resolution***" of a Person means a copy of a resolution certified by the secretary or an assistant secretary (or individual performing comparable duties) of the applicable Person to have been duly adopted by the Board of Directors of such Person and to be in full force and effect on the date of such certification, and delivered to the Trustee.

"***Business Day***" means any day other than a Legal Holiday.

"***Capital Lease Obligation***" means, at the time any determination is to be made, the amount of the liability in respect of a capital lease that would at that time be required to be capitalized on a balance sheet in accordance with GAAP as in effect on the date of this Indenture. In the event of a change under GAAP (or the application thereof) requiring all leases to be capitalized, only those leases that would result or would have resulted in Capital Lease Obligations on the date of this Indenture (assuming for purposes hereof that they were in existence on the date of this Indenture) shall be considered Capital Lease Obligations and all calculations and deliverables under this Indenture shall be made in accordance therewith.

"***Capital Stock***" means:

(1) in the case of a corporation, corporate stock;

(2) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock;

(3) in the case of a partnership or limited liability company, partnership or membership interests (whether general or limited); and

(4) any other interest or participation that confers on a Person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing Person.

"***Cash Equivalents***" means:

(1) United States dollars;

(2) securities issued or directly and fully guaranteed or insured by the United States government or any agency or instrumentality of the United States government (*provided* that the full faith and credit of the United States is pledged in support of those securities) having maturities of not more than 24 months from the date of acquisition;

(3) certificates of deposit and Eurodollar time deposits with maturities of 12 months or less from the date of acquisition, bankers' acceptances with maturities not exceeding 12 months and overnight bank deposits, in each case, with any lender party to the Credit Agreement or with any domestic commercial bank having capital and surplus in excess of $250.0 million;

(4) repurchase obligations with a term of not more than thirty days for underlying securities of the types described in clauses (2) and (3) above entered into with any financial institution meeting the qualifications specified in clause (3) above;

(5) commercial paper rated at least A1 by S&P or at least P1 by Moody's (or reasonably equivalent ratings of another internationally recognized ratings agency) and in each case maturing within 12 months after the date of acquisition;

(6) readily marketable direct obligations issued by any state of the United States or any political subdivision with a rating of AA or higher from S&P or Aa3 or higher from Moody's (or reasonably equivalent ratings of another internationally recognized ratings agency) with maturities of 24 months or less from the date of acquisition;

(7) Indebtedness issued by Persons with a rating of A or higher from S&P or A2 or higher from Moody's (or reasonably equivalent ratings of another internationally recognized ratings agency) in each case with maturities not exceeding 24 months from the date of acquisition; and

(8) money market funds substantially all of the assets of which constitute Cash Equivalents of the kinds described in clauses (1) through (7) of this definition.

"***Change of Control***" means the occurrence of any of the following:

(1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of the Company and its Consolidated Subsidiaries, taken as a whole, to any "person" or "group" (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act);

(2) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any "person" or "group" (as defined above) becomes the Beneficial Owner, directly or indirectly, of more than 50% of the Voting Stock of the Company, measured by voting power rather than number of shares; or

(3) the approval by the holders of Capital Stock of the Company of any plan or proposal for the liquidation or dissolution of the Company (whether or not otherwise in compliance with the provisions of this Indenture).

Notwithstanding the foregoing, a transaction will not be deemed to involve a Change of Control under clause (2) above if (i) the Company becomes a direct or indirect Wholly Owned Subsidiary of a holding company and (ii) the direct or indirect holders of the Voting Stock of such holding company immediately following that transaction are substantially the same as the holders of the Company's Voting Stock immediately prior to that transaction.

"***Code***" means the U.S. Internal Revenue Code of 1986, as amended.

"***Company***" means Molina Healthcare, Inc., a Delaware corporation, and any successor thereto.

"***Company Order***" means a written order signed in the name of the Company by an Officer and delivered to the Trustee or, with respect to Sections 2.02, 2.09, 2.12 and 9.05, any other employee of the Company named in an Officer's Certificate delivered to the Trustee.

"***Consolidated Subsidiary***" means a Subsidiary of the Company, the accounts of which are consolidated with those of the Company in accordance with GAAP.

"***Consolidated Total Assets***" means, as of the most recent balance sheet date referenced in the financial statements that have been filed with the SEC or delivered in accordance with Section 4.09 immediately preceding the date on which any determination is being made, the total assets of the Company and its Consolidated Subsidiaries calculated in accordance with GAAP.

"***Corporate Trust Office of the Trustee***" shall be at the address of the Trustee specified in Section 12.02 hereof, or such other address as to which the Trustee may give notice to the Company.

"***Credit Agreement***" means that certain Credit Agreement, dated as of June 12, 2015, by and among the Company, the other loan parties party thereto, the lenders party thereto and SunTrust Bank, as administrative agent, including any related notes, guarantees, collateral documents, instruments and agreements executed in connection therewith, and, in each case, as amended, restated, modified, renewed, refunded, replaced (whether upon or after termination or otherwise) or refinanced (including by means of sales of debt securities to institutional investors) in whole or in part from time to time.

"***Credit Facilities***" means one or more debt facilities or agreements (including, without limitation, the Credit Agreement), note purchase agreements, indentures or commercial paper facilities, in each case with banks or other institutional lenders or investors providing for revolving credit loans, term loans, receivables financing (including through the sale of receivables to such lenders or to special purpose entities formed to borrow from such lenders against such receivables), debt securities or letters of credit, in each case, as amended, restated, modified, renewed, refunded, replaced or refinanced (including any agreement to extend the maturity thereof and adding additional borrowers or guarantors and by means of sales of debt securities to institutional investors) in whole or in part from time to time under the same or any other agent, lender or group of lenders, underwriter or group of underwriters and including increasing the amount of available borrowings thereunder.

"***Custodian***" means, with respect to the Notes issuable or issued in whole or in part in global form, the Person specified in Section 2.05 as Custodian with respect to the Notes, and any and all successors thereto appointed as custodian hereunder and having become such pursuant to the applicable provisions of this Indenture.

"***Default***" means any event that is, or with the passage of time or the giving of notice or both would be, an Event of Default.

"***Definitive Note***" means a certificated Note registered in the name of the Holder thereof and issued in accordance with Sections 2.08 or 2.12 hereof, in substantially the form of Exhibit 1 to the Appendix (as defined herein) except that such Note shall not bear the Global Note legend set forth in Exhibit 1 to the Appendix and shall not have the "Schedule of Exchanges of Interests in Global Note" attached thereto.

"***Depositary***" means, with respect to the Notes issuable or issued in whole or in part in global form, the Person specified in Section 2.05 hereof as the Depositary with respect to the Notes, and any and all successors thereto appointed as Depositary hereunder and having become such pursuant to the applicable provisions of this Indenture.

"***Disqualified Stock***" means any Capital Stock that, by its terms (or by the terms of any security into which it is convertible, or for which it is exchangeable, in each case at the option of the holder of the Capital Stock), or upon the happening of any event, matures or is mandatorily redeemable, pursuant to a sinking fund obligation or otherwise, or redeemable at the option of the holder of the Capital Stock, in whole or in part, on or prior to the date that is 91 days after the date on which the Notes mature; *provided*,

however, that only the portion of Capital Stock which so matures or is mandatorily redeemable, is so convertible or exchangeable at the option of the holder thereof or is so redeemable at the option of the holder thereof prior to such date shall be deemed to be Disqualified Stock; *provided*, *further*, *however*, that if such Capital Stock is issued to any employee or to any plan for the benefit of employees of the Company or its Subsidiaries or by any such plan to such employees, such Capital Stock shall not constitute Disqualified Stock solely because it may be required to be repurchased by the Company in order to satisfy applicable statutory or regulatory obligations or as a result of such employee's termination, death or disability; *provided*, *further*, that any class of Capital Stock of such Person that by its terms authorizes such Person to satisfy its obligations thereunder by delivery of Capital Stock that is not Disqualified Stock shall not be deemed to be Disqualified Stock.

"***dollars***" and the sign "***$***" mean the lawful money of the United States of America.

"***Equity Interests***" means Capital Stock and all warrants, options or other rights to acquire Capital Stock (but excluding any debt security that is convertible into, or exchangeable for, Capital Stock).

"***Equity Offering***" means (i) a public or private sale of Capital Stock (other than Disqualified Stock) of the Company or (ii) a public or private sale of Capital Stock (other than Disqualified Stock) of a direct or indirect parent entity of the Company (to the extent the net proceeds therefrom are contributed to the common equity capital of the Company), in each case, other than to a Subsidiary of the Company or pursuant to a registration statement on Form S-8 (or any successor form) under the Securities Act or any similar offering in any other jurisdiction or otherwise issuable under any employee benefit plan of the Company or such parent entity of the Company, as the case may be.

"***Exchange Act***" means the Securities Exchange Act of 1934, as amended.

"***Funded Debt***" means all indebtedness for the repayment of money borrowed, whether or not evidenced by a bond, debenture, note or similar instrument or agreement, having a final maturity of more than 12 months after the date of its creation or having a final maturity of less than 12 months after the date of its creation but by its terms being renewable or extendable beyond 12 months after such date at the option of the borrower. For the purpose of determining "***Funded Debt***" of any Person, there shall be excluded any particular indebtedness if, on or prior to the final maturity thereof, there shall have been deposited with the proper depositary in trust the necessary funds for the payment, redemption or satisfaction of such indebtedness.

"***GAAP***" means generally accepted accounting principles set forth in the opinions and pronouncements of the Accounting Principles Board of the American Institute of Certified Public Accountants and statements and pronouncements of the Financial Accounting Standards Board or in such other statements by such other entity as have been approved by a significant segment of the accounting profession, which are in effect from time to time.

"***Global Note***" has the meaning specified in the Appendix.

"***Government Securities***" means securities that are:

(1) direct obligations of the United States of America for the timely payment of which its full faith and credit is pledged; or

(2) obligations of a Person controlled or supervised by and acting as an agency or instrumentality of the United States of America or a member of the European Union, the timely

payment of which is unconditionally guaranteed as a full faith and credit obligation by the United States of America, which, in each case, are not callable or redeemable at the option of the issuer thereof, and shall also include a depository receipt issued by a bank (as defined in Section 3(a)(2) of the Securities Act) as custodian with respect to any such Government Securities or a specific payment of principal of or interest on any such Government Securities held by such custodian for the account of the holder of such depository receipt; *provided, however*, that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depository receipt from any amount received by the custodian in respect of the Government Securities or the specific payment of principal of or interest on the Government Securities evidenced by such depository receipt.

"***Guarantee***" means a guarantee other than by endorsement of negotiable instruments for collection in the ordinary course of business, direct or indirect, in any manner, including, without limitation, by way of a pledge of assets or through letters of credit or reimbursement agreements in respect thereof, of all or any part of any Indebtedness. The terms "***Guaranteed***" and "***Guarantees***" have a corresponding meaning.

"***Guarantor***" means any Subsidiary that executes a Subsidiary Guarantee in accordance with the provisions of this Indenture and its respective successors and assigns.

"***Hedging Obligations***" means, with respect to the Company or any of its Consolidated Subsidiaries, the obligations of such Person under (a) interest rate swap agreements (whether from fixed to floating or from floating to fixed), interest rate cap agreements and interest rate collar agreements, (b) other agreements or arrangements designed to manage interest rates or interest rate risk and (c) other agreements or arrangements designed to protect such Person against fluctuations in currency exchange rates or commodity prices.

"***Holder***" means a Person in whose name a Note is registered in the Note Register.

"***Indebtedness***" means any indebtedness for money borrowed, with respect to any specified Person, which, in accordance with GAAP, would be reflected on such specified Person's most recent balance sheet date referenced in the financial statements immediately preceding the date on which such indebtedness for money borrowed is determined.

"***Indenture***" means this instrument, as originally executed or as it may from time to time be supplemented or amended in accordance with Article 9 hereof.

"***Initial Notes***" has the meaning specified in the first recital of this Indenture.

"***Initial Purchasers***" means SunTrust Robinson Humphrey, Inc., Barclays Capital Inc., J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. LLC, Wells Fargo Securities, LLC and MUFG Securities Americas Inc.

"***Interest Payment Dates***" shall have the meaning set forth in paragraph 1 of each Note.

"***Issue Date***" means June 6, 2017.

"***Legal Holiday***" means Saturday, Sunday or other day on which banking institutions in The City of New York, the city in which the Corporate Trust Office of the Trustee is located or the jurisdiction of the place of payment are authorized or obligated by law, regulation or executive order to close.

"***Lien***" means, with respect to any asset or property, a mortgage, pledge, security interest or other lien or encumbrance in respect of such asset or property.

"***Moody's***" means Moody's Investors Service, Inc. or any successor to the ratings agency business thereof.

"***Notes***" means the Initial Notes and any Additional Notes. The Initial Notes and any Additional Notes shall be treated as a single class for all purposes of this Indenture, including waivers, amendments, redemptions and offers to purchase, and unless the context otherwise requires, all references to the Notes shall include the Initial Notes and any Additional Notes.

"***Offering Memorandum***" means the final Offering Memorandum dated May 22, 2017 relating to the Notes.

"***Officer***" means, with respect to the Company, the Chairman of the Board, Chief Executive Officer (including, if applicable, any interim Chief Executive Officer), Chief Financial Officer, President, Chief Accounting Officer, Chief Legal Officer, any Executive Vice President, Senior Vice President or Vice President, the Treasurer or the Secretary of the Company and, with respect to a Guarantor, the President, Chief Financial Officer, Chief Operating Officer, any Vice President or the Secretary of such Guarantor.

"***Officer's Certificate***" means a certificate signed by an Officer of the Company.

"***Opinion of Counsel***" means a written opinion from legal counsel which meets the requirements of Section 12.05 hereof. The counsel may be an employee of or counsel to the Company.

"***Person***" means an individual, corporation, partnership, limited liability company, joint venture, association, joint-stock company, trust, unincorporated organization or any other entity or organization, including a government or political subdivision or an agency or instrumentality thereof.

"***Predecessor Note***" of any particular Note means every previous Note evidencing all or a portion of the same Indebtedness as that evidenced by such particular Note; and any Note authenticated and delivered under Section 2.09 in lieu of a lost, destroyed or stolen Note shall be deemed to evidence the same Indebtedness as the lost, destroyed or stolen Note.

"***Principal Property***" means, with respect to any Person, all of such Person's interests in any kind of property or asset (including the capital stock in and other securities of any other Person), except such as the Board of Directors by resolution determines in good faith (taking into account, among other things, the materiality of such property to the business, financial condition and earnings of the Company and its Consolidated Subsidiaries taken as a whole) not to be material to the business of the Company and its Consolidated Subsidiaries, taken as a whole.

"***Redemption Date***," when used with respect to any Note to be redeemed, shall mean the date specified for redemption of such Note in accordance with the terms of such Note and this Indenture.

"***Redemption Price***," when used with respect to any Note to be redeemed, means the price at which it is to be redeemed pursuant to the terms of such Note and this Indenture.

"***Regular Record Date***" for the interest payable on any Interest Payment Date means the applicable date specified as a "***Record Date***" on the face of the Note.

"***Responsible Officer***," when used with respect to the Trustee, means any officer within the corporate trust department of the Trustee (or any successor group of the Trustee) with direct responsibility for the administration of this Indenture and also means, with respect to a particular corporate trust matter relating to this Indenture, any other officer to whom such matter is referred because of his or her knowledge of and familiarity with the particular subject, and who shall have direct responsibility for the administration of this Indenture.

"***S&P***" means Standard & Poor's Ratings Service, a division of The McGraw Hill Companies, Inc., or any successor to the ratings agency business thereof.

"***SEC***" means the Securities and Exchange Commission.

"***Securities Act***" means the Securities Act of 1933, as amended.

"***Significant Subsidiary***" means any Subsidiary that would be a "significant subsidiary" as defined in Article 1, Rule 1-02 of Regulation S-X, promulgated pursuant to the Securities Act, as such regulation is in effect on the Issue Date.

"***Special Record Date***" for the payment of any Defaulted Interest on the Notes means a date fixed by the Company pursuant to Section 2.14 hereof.

"***Stated Maturity***" means, with respect to any installment of interest or principal on any series of Indebtedness, the date on which the payment of interest or principal was scheduled to be paid in the original documentation governing such Indebtedness, and will not include any contingent obligations to repay, redeem or repurchase any such interest or principal prior to the date originally scheduled for the payment thereof.

"***Subsidiary***" means, with respect to any specified Person:

(1) any corporation, association or other business entity of which more than 50% of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees of the corporation, association or other business entity is at the time owned or controlled, directly or indirectly, by that Person or one or more of the other Subsidiaries of that Person (or a combination thereof); and

(2) any partnership (a) the sole general partner or the managing general partner of which is such Person or a Subsidiary of such Person or (b) the only general partners of which are that Person or one or more Subsidiaries of that Person (or any combination thereof).

"***Subsidiary Guarantee***" means a Guarantee by each Guarantor of the Company's obligations under this Indenture and on the Notes, executed pursuant to the provisions of this Indenture.

"***TIA***" means the Trust Indenture Act of 1939, as amended, and the rules and regulations thereunder.

"***Trade Payables***" means, with respect to any Person, any accounts payable or any other indebtedness or monetary obligation to trade creditors, physicians, hospitals, health maintenance organizations or other health care providers created, assumed or Guaranteed by such Person or any of its Subsidiaries arising in the ordinary course of business in connection with the acquisition of goods and services.

"***Treasury Rate***" means, as of any Redemption Date, the yield to maturity at the time of computation of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) which has become publicly available at least two Business Days prior to the Redemption Date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from the Redemption Date to June 15, 2020; *provided*, *however*, that if the period from the redemption date to June 15, 2020 is not equal to the constant maturity of a United States Treasury security for which a weekly average yield is given, the Treasury Rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of United States Treasury securities for which such yields are given, except that if the period from the Redemption Date to June 15, 2020 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year shall be used. We will (a) calculate the Treasury Rate as of the second Business Day preceding the applicable Redemption Date and (b) prior to such Redemption Date file with the trustee an Officer's Certificate setting forth the Treasury Rate and showing the calculation of each in reasonable detail.

"***Trustee***" means the Person named as the "Trustee" in the first paragraph of this Indenture until a successor Trustee shall have become such pursuant to the applicable provisions of this Indenture, and thereafter "Trustee" shall mean such successor Trustee.

"***Uniform Commercial Code***" or "***UCC***" means the New York Uniform Commercial Code as in effect from time to time.

"***Voting Stock***" of any Person as of any date means the Capital Stock of such Person that is at the time entitled to vote in the election of the Board of Directors of such Person.

"***Wholly Owned Subsidiary***" means any Subsidiary all of the outstanding voting securities of which (other than directors' qualifying shares or shares required by applicable law or regulation to be held by a Person other than the Company or another Subsidiary of the Company) shall at the time be owned or controlled, directly or indirectly, by the Company or one or more Wholly Owned Subsidiaries, or by the Company and one or more Wholly Owned Subsidiaries, or any similar business organization which is so owned or controlled.

Section 1.03 Incorporation by Reference of Trust Indenture Act.

(a) Whenever this Indenture refers to a provision of the TIA, the provision is incorporated by reference in and made a part of this Indenture.

(b) All other terms used in this Indenture that are defined by the TIA, defined by TIA reference to another statute or defined by SEC rule under the TIA and not otherwise defined herein have the meanings so assigned to them either in the TIA, by another statute or SEC rule, as applicable.

Section 1.04 Rules of Construction.

(a) Unless the context otherwise requires:

(1) a term has the meaning assigned to it;

(2) an accounting term not otherwise defined herein has the meaning assigned to it in accordance with GAAP;

(3) "or" is not exclusive;

(4) words in the singular include the plural, and in the plural include the singular;

(5) unless otherwise indicated, all references in this Indenture to "Articles," "Sections" and other subdivisions are to the designated Articles, Sections and subdivisions of this Indenture as originally executed;

(6) the words "herein," "hereof" and "hereunder" and other words of similar import refer to this Indenture as a whole and not to any particular Article, Section or other subdivision;

(7) "including" means "including without limitation";

(8) provisions apply to successive events and transactions; and

(9) references to sections of or rules under the Securities Act, the Exchange Act or the TIA shall be deemed to include substitute, replacement or successor sections or rules adopted by the SEC from time to time thereunder.

ARTICLE 2

THE NOTES

Section 2.01 Form Generally.

Provisions relating to the Initial Notes are set forth in the Rule 144A / Regulation S Appendix attached hereto (the "***Appendix***"), which is hereby incorporated in, and expressly made part of, this Indenture. The Initial Notes and the Trustee's certificate of authentication shall be substantially in the form of Exhibit 1 to the Appendix, which is hereby incorporated in, and expressly made a part of, this Indenture. The Notes may have notations, legends or endorsements required by law, stock exchange rule, agreements to which the Company is subject, if any, or usage (*provided* that any such notation, legend or endorsement is in a form reasonably acceptable to the Company). Each Note shall be dated the date of its authentication. The terms of the Notes set forth in the Appendix and exhibits thereto are part of the terms of this Indenture.

Section 2.02 Execution, Authentication, Delivery and Dating.

Two Officers shall sign the Notes for the Company by manual, facsimile or electronic signature. If an Officer whose signature is on a Note no longer holds that office at the time a Note is authenticated, the Note shall nevertheless be valid.

A Note shall not be valid until authenticated by the manual signature of the Trustee. The signature shall be conclusive evidence that the Note has been authenticated under this Indenture.

At any time and from time to time after the execution and delivery of this Indenture, the Company may deliver Notes executed by the Company to the Trustee for authentication, together with a Company Order for the authentication and delivery of such Notes; and the Trustee in accordance with such Company Order shall authenticate and deliver such Notes.

On the Issue Date, the Company shall deliver the Initial Notes in the aggregate principal amount of $330,000,000 executed by the Company to the Trustee for authentication, together with a Company Order directing the Trustee to authenticate the Notes and certifying that all conditions precedent to the issuance of Notes contained herein have been fully complied with, and the Trustee in accordance with such Company Order shall authenticate and deliver such Initial Notes. At any time and from time to time after the Issue Date, the Company may deliver Additional Notes executed by the Company to the Trustee for authentication, together with a Company Order for the authentication and delivery of such Additional Notes, directing the Trustee to authenticate the Additional Notes and certifying that all conditions

precedent to the issuance of Additional Notes contained herein have been fully complied with, and the Trustee in accordance with such Company Order shall authenticate and deliver such Additional Notes.

The Trustee shall receive a Company Order, an Officer's Certificate and an Opinion of Counsel that it may reasonably require in connection with the authentication of Notes. Such Company Order shall specify the amount of Notes to be authenticated and the date on which the original issue of Notes is to be authenticated. Each Note shall be dated the date of its authentication.

No Note shall be entitled to any benefit under this Indenture or be valid or obligatory for any purpose unless there appears on such Note a certificate of authentication substantially in the form provided for in the applicable exhibit to the Appendix, duly executed by the Trustee by manual signature of an authorized signatory, and such certificate upon the applicable Note shall be conclusive evidence, and the only evidence, that such Note has been duly authenticated and delivered hereunder and is entitled to the benefits of this Indenture.

In case the Company, pursuant to Article 5 of this Indenture, shall be consolidated or merged with or into another Person (whether or not the Company is the surviving Person) or shall sell, transfer, convey, lease or otherwise dispose of its properties and assets substantially as an entirety to any Person, and the successor Person resulting from such consolidation, or surviving such merger, or into which the Company shall have been merged, or the Person which shall have received a conveyance, transfer, lease or other disposition as aforesaid, shall have executed a supplemental indenture hereto with the Trustee pursuant to Article 5 of this Indenture, any of the Notes authenticated or delivered prior to such consolidation, merger, sale, transfer, conveyance, lease or other disposition may, from time to time, at the request of the successor Person, be exchanged for other Notes executed in the name of the successor Person with such changes in phraseology and form as may be appropriate, but otherwise in substance of like tenor as the Notes surrendered for such exchange and of like principal amount; and the Trustee, upon a Company Order of the successor Person, shall authenticate and deliver Notes as specified in such request for the purpose of such exchange. If Notes shall at any time be authenticated and delivered in any new name of a successor Person pursuant to this Section in exchange or substitution for or upon registration of transfer of any Notes, such successor Person, at the option of the Holders but without expense to them, shall provide for the exchange of all Notes at the time outstanding for Notes authenticated and delivered in such new name.

Section 2.03 [Reserved].

Section 2.04 Amount of Notes.

The aggregate principal amount of Notes which may be authenticated and delivered under this Indenture is unlimited. The Notes may have notations, legends or endorsements required by law, stock exchange rules or usage. The Notes shall be in minimum denominations of $2,000 and integral multiples of $1,000 in excess of $2,000.

Except as provided in the Appendix and Exhibits hereto, all Notes shall be substantially identical except as to the date from which interest shall accrue and except as may otherwise be provided in any indenture supplemental hereto.

If any of the terms of the Notes are established by action taken pursuant to a Board Resolution, a copy of any appropriate record of such action shall be certified by the Secretary or an Assistant Secretary of the Company and delivered to the Trustee at or prior to the delivery of the Officer's Certificate setting forth the terms of the Notes.

Section 2.05 Note Registrar and Paying Agent.

The Company shall maintain, with respect to the Notes, an office or agency where Notes may be presented for registration of transfer or for exchange ("***Note Registrar***") and an office or agency where Notes may be presented for payment ("***Paying Agent***") in the United States. The Note Registrar shall keep a register (the "***Note Register***") of the Notes and of their transfer and exchange. The Company may appoint one or more co-registrars and one or more additional paying agents. The term "***Note Registrar***" includes any co-registrar and the term "***Paying Agent***" includes any additional paying agent. The Company may change any Paying Agent or Note Registrar without notice to any Holder. The Company shall notify the Trustee in writing of the name and address of any Agent not a party to this Indenture. If the Company fails to appoint or maintain another entity as Note Registrar or Paying Agent, the Trustee shall act as such. The Company or any of its Consolidated Subsidiaries may act as Paying Agent or Note Registrar.

The Company initially appoints The Depository Trust Company ("***DTC***") to act as Depositary with respect to the Global Notes.

The Company initially appoints the Trustee to act as Note Registrar and Paying Agent and to act as Custodian with respect to the Global Notes, and the Trustee hereby agrees so to initially act.

Section 2.06 Paying Agent to Hold Money in Trust.

The Company shall require each Paying Agent (other than the Trustee) to agree in writing that the Paying Agent will hold in trust, for the benefit of Holders or the Trustee, all money held by the Paying Agent for the payment of principal of, premium, if any, or interest on the Notes, and will notify the Trustee of any default by the Company in making any such payment. While any such default continues, the Trustee may require a Paying Agent to pay all funds held by it relating to the Notes to the Trustee. The Company at any time may require a Paying Agent to pay all funds held by it to the Trustee. Upon payment over to the Trustee, the Paying Agent (if other than the Company or a Consolidated Subsidiary) shall have no further liability for such funds. If the Company or a Consolidated Subsidiary acts as Paying Agent, it shall segregate and hold in a separate trust fund for the benefit of the Holders all funds held by it as Paying Agent. Upon any Event of Default under Section 6.01(f) or (h) hereof relating to the Company, the Trustee shall automatically serve as Paying Agent for the Notes.

In the event that the Paying Agent receives funds in advance of any due date, the Paying Agent shall be entitled to invest such funds in the U.S. Bank Money Market Deposit Account or any substantially similar successor account, any earnings on which shall be for the account of the Company.

Section 2.07 Holder Lists.

The Trustee shall preserve in as current a form as is reasonably practicable the most recent list available to it of the names and addresses of all Holders and shall otherwise comply with TIA § 312(a). If the Trustee is not the Note Registrar, the Company shall furnish or cause to be furnished to the Trustee at least seven Business Days before each Interest Payment Date and at such other times as the Trustee may request in writing, a list in such form and as of such date as the Trustee may reasonably require of the names and addresses of the Holders and the Company shall otherwise comply with TIA § 312(a).

Section 2.08 Registration; Registration of Transfer and Exchange.

Upon surrender for registration of transfer of any Notes at an office or agency of the Company designated pursuant to Section 4.02 hereof for such purpose, and subject to the provisions of Section 2.2 to the Appendix, the Company shall execute, and the Trustee shall authenticate and deliver, in the name of the designated transferee or transferees, one or more new Notes of any authorized denominations, of a like aggregate principal amount. The Company shall not charge a service charge for any registration of transfer or exchange, but the Company may require payment of a sum sufficient to pay all taxes, assessments or other governmental charges that may be imposed in connection with the transfer or exchange of the Notes from the Holder requesting such transfer or exchange (other than any exchange of a temporary Note for a permanent Note not involving any change in ownership or any exchange pursuant to Sections 2.12, 3.06 or 9.05 hereof, not involving any transfer).

At the option of the Holders, Notes may be exchanged for other Notes of any authorized denomination or denominations of like aggregate principal amount and tenor, upon surrender of the Notes to be exchanged at such office or agency. Whenever any Notes are so surrendered for exchange, the Company shall execute, and the Trustee shall authenticate and deliver, the certificated Notes which the Holder making the exchange is entitled to receive.

All Notes issued upon any registration of transfer or exchange of Notes shall be the valid obligations of the Company, evidencing the same debt, and entitled to the same benefits under this Indenture, as the Notes surrendered upon such registration of transfer or exchange.

Every Note presented or surrendered for registration of transfer or for exchange shall be duly endorsed, or be accompanied by a written instrument of transfer in form satisfactory to the Company and the Note Registrar duly executed, by the Holder thereof or his or her attorney duly authorized in writing.

The Company shall not be required (i) to issue, register the transfer of or exchange any Notes during a period beginning 15 days before any selection of Notes to be redeemed or during the period between a Record Date and the next succeeding Interest Payment Date or (ii) to register the transfer of or exchange any Note so selected for redemption, in whole or in part, except the unredeemed portion of any Note being redeemed in part.

Section 2.09 Replacement Notes.

If any mutilated Note is surrendered to the Trustee or the Company and the Trustee and the Company receives evidence to their satisfaction of the destruction, loss or theft of any Note, the Company shall issue and, upon receipt of a Company Order, the Trustee shall authenticate a replacement Note. If required by the Trustee or the Company, the Holder of such Note shall provide indemnity that is sufficient, in the judgment of the Trustee to protect the Trustee, any of its Agents and any authenticating agent and in the judgment of the Company to protect the Company, the Trustee, any Agent and any authenticating agent from any loss that any of them may suffer in connection with such replacement. If required by the Company, such Holder shall reimburse the Company for its reasonable expenses in connection with such replacement.

Every replacement Note issued in accordance with this Section 2.09 shall be the valid obligation of the Company, evidencing the same debt as the destroyed, lost or stolen Note, and shall be entitled to all of the benefits of this Indenture equally and proportionately with all other Notes duly issued hereunder.

Section 2.10 Outstanding Notes.

The Notes outstanding at any time shall be the entire principal amount of Notes represented by all of the Global Notes and Definitive Notes authenticated by the Trustee except for those cancelled by it, those delivered to it for cancellation, those subject to reductions in beneficial interests in a Global Note effected by the Trustee in accordance with the provisions hereof, and those described in this Section 2.10 as not outstanding. Except as set forth in Section 2.11 hereof, a Note shall not cease to be outstanding because the Company or an Affiliate of the Company holds the Note.

If a Note is replaced pursuant to Section 2.09 hereof, it shall cease to be outstanding unless the Trustee receives proof satisfactory to it that the replaced Note is held by a bona fide purchaser.

If the principal amount of any Note is considered paid under Section 4.01 hereof, it shall cease to be outstanding and interest on it shall cease to accrue.

If the Paying Agent (other than the Company, a Subsidiary or an Affiliate of any thereof) holds, on a Redemption Date, a Purchase Date or a maturity date, funds sufficient to pay Notes payable on that date, then on and after that date such Notes shall be deemed to be no longer outstanding and shall cease to accrue interest.

Section 2.11 Treasury Notes.

In determining whether the Holders of the required principal amount of Notes have concurred in any direction, waiver or consent, Notes owned by the Company, or by any Affiliate of the Company, shall be disregarded and deemed not to be outstanding, except that for the purpose of determining whether the Trustee shall be protected in relying on any such direction, waiver or consent, only Notes that a Responsible Officer of the Trustee knows are so owned shall be so disregarded.

Section 2.12 Temporary Notes.

Until certificates representing Notes are ready for delivery, the Company may prepare and, upon receipt of a Company Order in accordance with Section 2.02 hereof, the Trustee shall authenticate temporary Notes. Temporary Notes shall be substantially in the form of Definitive Notes but may have variations that the Company considers appropriate for temporary Notes and as shall be reasonably acceptable to the Trustee. Without unreasonable delay, the Company shall prepare and the Trustee shall authenticate Global Notes or Definitive Notes in exchange for temporary Notes, as applicable. After preparation of Definitive Notes, the temporary Note will be exchangeable for Definitive Notes upon surrender of the temporary Notes.

Holders of temporary Notes shall be entitled to all of the benefits of this Indenture as permanent Notes.

Section 2.13 Cancellation.

The Company at any time may deliver Notes to the Trustee for cancellation. The Note Registrar and Paying Agent shall forward to the Trustee any Notes surrendered to them for registration of transfer, exchange or payment. The Trustee and no one else shall cancel all Notes surrendered for registration of transfer, exchange, payment, replacement or cancellation and shall dispose of cancelled Notes in accordance with its customary procedures (subject to the record retention requirements of the Exchange Act or other applicable laws) unless by written order, signed by an Officer of the Company, the Company directs them to be returned to it.

Certification of the disposal of all cancelled Notes shall be delivered to the Company from time to time upon request. The Company may not issue new Notes to replace Notes that it has paid or that have been delivered to the Trustee for cancellation.

Section 2.14 Payment of Interest; Defaulted Interest.

Interest on any Note which is payable, and is punctually paid or duly provided for, on any Interest Payment Date shall be paid to the person in whose name such Note (or one or more Predecessor Notes) is registered at the close of business on the Regular Record Date for such interest.

If the Company defaults in a payment of interest on the Notes which is payable ("***Defaulted Interest***"), it shall pay the Defaulted Interest in any lawful manner *plus*, to the extent lawful, interest payable on the Defaulted Interest, to the Persons who are Holders on a subsequent Special Record Date, in each case at the rate provided in the Notes. The Company shall notify the Trustee in writing of the amount of Defaulted Interest proposed to be paid on the Notes and the date of the proposed payment. The Company shall fix or cause to be fixed each such Special Record Date and payment date, *provided* that no such Special Record Date shall be less than 10 days prior to the related payment date for such Defaulted Interest. At least 15 days before the Special Record Date, the Company (or, upon the written request of the Company delivered at least 5 Business Days before such notice is to be mailed (or such other period acceptable to the Trustee), the Trustee in the name and at the expense of the Company) shall mail or cause to be mailed to Holders a notice that states the Special Record Date, the related payment date and the amount of such interest to be paid.

Subject to the foregoing provisions of this Section 2.14 and Section 2.08 hereof, each Note delivered under this Indenture upon registration of transfer of or in exchange for or in lieu of any other Note shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Note.

Section 2.15 CUSIP or ISIN Numbers.

The Company in issuing the Notes may use "CUSIP" and/or "ISIN" numbers (if then generally in use), and, if so, the Trustee shall use "CUSIP" and/or "ISIN" numbers in notices of redemption or Offers to Purchase as a convenience to Holders; *provided*, *however*, that any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice of a redemption or notice of a Change of Control Offer and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption or Change of Control Offer shall not be affected by any defect in or omission of such numbers. The Company shall promptly notify the Trustee of any change in the "CUSIP" and/or "ISIN" numbers.

Section 2.16 Additional Notes.

The Company shall be entitled to issue Additional Notes under this Indenture from time to time after the Issue Date, which shall have identical terms as the Initial Notes issued on the Issue Date, other than with respect to the date of issuance and issue price and first payment of interest. The Initial Notes issued on the Issue Date and any Additional Notes shall be treated as a single class for all purposes under this Indenture, including directions, waivers, amendments, consents, redemptions and offers to purchase; *provided, however*, that a separate CUSIP and/or ISIN number (if then generally in use) will be issued for the Additional Notes, unless the Notes and such Additional Notes are treated as fungible for U.S. federal income tax purposes.

With respect to any Additional Notes, the Company shall set forth in a Board Resolution and an Officer's Certificate, a copy of each of which shall be delivered to the Trustee, the following information:

(1) the aggregate principal amount of such Additional Notes to be authenticated and delivered pursuant to this Indenture; and

(2) the issue price, the issue date and the CUSIP and/or ISIN number of such Additional Notes.

Section 2.17 Record Date.

The record date for purposes of determining the identity of Holders of Notes entitled to vote or consent to any action by vote or consent or permitted under this Indenture shall be determined as provided for in TIA § 316(c).

Section 2.18 Persons Deemed Owners.

Prior to due presentment of a Note for registration of transfer, the Company, the Trustee and any agent of the Company or the Trustee may treat the person in whose name such Note is registered as the owner of such Note for the purpose of receiving payment of principal of and (subject to Sections 2.07 and 2.13 hereof) interest on such Note and for all other purposes whatsoever, whether or not such Note be overdue, and neither the Company, the Trustee nor any agent of the Company or the Trustee shall be affected by notice to the contrary.

None of the Company, the Trustee, any Paying Agent or the Note Registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests of a Note in global form or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Notwithstanding the foregoing, nothing herein shall prevent the Company, the Trustee or any agent of the Company or the Trustee from giving effect to any written certification, proxy or other authorization furnished by the Depositary or impair, as between the Depositary and its participants, the operation of customary practices of the Depositary governing the exercise of the rights of a holder of a beneficial interest in any Global Note.

Section 2.19 Computation of Interest.

Interest on the Notes will be computed on the basis of a 360-day year comprised of twelve 30-day months. Interest on the Initial Notes will accrue from June 6, 2017. If any Interest Payment Date falls on a day that is a Legal Holiday, the required payment will be made on the next succeeding Business Day and no interest on such payment will accrue in respect of the delay.

ARTICLE 3

REDEMPTION AND PREPAYMENT

Section 3.01 Notices to Trustee.

Except as set forth in Paragraph 5 of the reverse side of the form of the Notes set forth in Exhibit 1 to the Appendix, the Company will not be entitled to redeem the Notes at its option prior to their Stated Maturity.

If the Company elects to redeem Notes, it shall furnish to the Trustee, at least 30 days but not more than 60 days before a Redemption Date, an Officer's Certificate setting forth (a) the applicable section of this Indenture and the Notes pursuant to which the redemption shall occur, (b) the Redemption Date, (c) the principal amount of Notes to be redeemed, (d) the Redemption Price and (e) any conditions to such redemption.

Section 3.02 Selection of Notes to Be Redeemed.

(a) If less than all of the Notes are to be redeemed at any time, the Trustee will select the Notes for redemption as follows:

(1) if the Notes are listed on any national securities exchange, in compliance with the requirements of the principal national securities exchange on which the Notes are listed; or

(2) if the Notes are not listed on any national securities exchange, based on a method that most nearly approximates a pro rata basis unless otherwise required by law or Depository requirements.

In the event of partial redemption, the particular Notes to be redeemed shall be selected, unless otherwise provided herein, not less than 30 nor more than 60 days prior to the Redemption Date by the Trustee from the outstanding Notes not previously called for redemption.

(b) The Trustee shall promptly notify the Company in writing of the Notes selected for redemption and, in the case of any Note selected for partial redemption, the principal amount thereof to be redeemed. Notes and portions of Notes selected shall be in minimum denominations of $2,000 and integral multiples of $1,000 in excess thereof; except that if all of the Notes of a Holder are to be redeemed, the entire outstanding amount of Notes held by such Holder, even if not an integral multiple of $1,000, shall be redeemed. Except as provided in the preceding sentence, provisions of this Indenture that apply to Notes called for redemption also apply to portions of Notes called for redemption.

Section 3.03 Notice of Redemption.

At least 30 days but not more than 60 days prior to a Redemption Date, the Company shall deliver or cause to be delivered by electronic transmission (for Notes held in book-entry form) or first class mail, a notice of redemption to each Holder whose Notes are to be redeemed at such Holder's registered address appearing in the Note Register, except that redemption notices may be delivered more than 60 days prior to a Redemption Date if the notice is issued in connection with a satisfaction and discharge or defeasance, in each case, pursuant to Article 8 hereof.

The notice shall identify the Notes to be redeemed and shall state:

(a) the Redemption Date;

(b) the appropriate method for calculation of the Redemption Price, but need not include the Redemption Price itself; the actual Redemption Price shall be set forth in an Officer's Certificate delivered to the Trustee no later than two (2) Business Days prior to the Redemption Date;

(c) if any Note is being redeemed in part, the portion of the principal amount of such Note to be redeemed and that, after the Redemption Date upon surrender of such Note, if applicable, a new Note or Notes in principal amount equal to the unredeemed portion shall be issued upon cancellation of the original Note;

(d) the name and address of the Paying Agent;

(e) that Notes called for redemption must be surrendered to the Paying Agent to collect the Redemption Price;

(f) that, unless the Company defaults in making such redemption payment, interest on Notes called for redemption ceases to accrue on and after the Redemption Date;

(g) the applicable section of this Indenture pursuant to which the Notes called for redemption are being redeemed;

(h) that no representation is made as to the correctness of the CUSIP and/or ISIN numbers, if any, listed in such notice or printed on the Notes; and

(i) any conditions to such redemption.

At the Company's request, the Trustee shall provide the notice of redemption in the Company's name and at its expense; *provided*, *however*, that the Company shall have delivered to the Trustee, at least 45 days (or such shorter period as may be acceptable to the Trustee) prior to the Redemption Date, an Officer's Certificate requesting that the Trustee provide such notice (in the name and at the expense of the Company) and setting forth the information to be stated in such notice as provided in this Section 3.03.

Section 3.04 Effect of Notice of Redemption.

Once notice of redemption is delivered in accordance with Section 3.03 hereof, Notes called for redemption shall become irrevocably due and payable on the Redemption Date at the Redemption Price.

Any redemption of the Notes may, at the Company's discretion, be subject to one or more conditions precedent. In addition, if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice shall state that, in the Company's discretion, the Redemption Date may be delayed until such time as any or all of such conditions shall be satisfied (or waived by the Company in its sole discretion), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied (or waived by the Company in its sole discretion) by the Redemption Date, or by the Redemption Date so delayed.

Section 3.05 Deposit of Redemption Price.

On or prior to 11:00 a.m. Eastern time on any Redemption Date, the Company shall deposit with the Trustee or with the Paying Agent (or, if the Company or any of its Consolidated Subsidiaries is the Paying Agent, shall segregate and hold in trust) money sufficient to pay the Redemption Price of and, if applicable, accrued and unpaid interest on all Notes to be redeemed on that date. The Trustee or the Paying Agent shall promptly, and in any event within two (2) Business Days after the Redemption Date, return to the Company any money deposited with the Trustee or the Paying Agent by the Company in excess of the amounts necessary to pay the Redemption Price of, and accrued and unpaid interest, if any, on, all Notes to be redeemed, and any outstanding fees and expenses of the Trustee.

If the Company complies with the provisions of the preceding paragraph, on and after the Redemption Date, interest shall cease to accrue on the Notes or the portions of Notes called for purchase or redemption in accordance with Section 3.08 hereof, whether or not such Notes are presented for payment. If a Note is redeemed on or after a Regular Record Date but on or prior to the related Interest Payment Date, then any accrued and unpaid interest, if any, shall be paid to the Person in whose name such Note was registered at the close of business on such Regular Record Date. If any Note called for redemption shall not be so paid upon surrender for redemption because of the failure of the Company to comply with the preceding paragraph, interest shall be paid on the unpaid principal from the Redemption Date up to and including such date as such principal is paid, and to the extent lawful on any interest not paid on such unpaid principal, in each case at the rate provided in the Notes and in Section 4.01 hereof.

Section 3.06 Notes Redeemed in Part.

Upon surrender of a Note that is redeemed in part, the Company shall issue and, upon receipt of a Company Order in accordance with Section 2.02 hereof, the Trustee shall authenticate for the Holder at the expense of the Company a new Note equal in principal amount to the unredeemed portion of the Note surrendered.

Section 3.07 Mandatory Redemption.

Except as set forth in Section 4.08, the Company shall not be required to make mandatory redemption or sinking fund payments with respect to, or offer to purchase, the Notes.

Section 3.08 Change of Control Offer.

(a) In the event that, pursuant to Section 4.08 hereof, the Company shall be required to commence a Change of Control Offer, it shall follow the procedures specified below.

(b) The Company shall cause a notice of the Change of Control Offer to be sent at least once to the Dow Jones News Service or similar business news service in the United States.

(c) The Company shall commence the Change of Control Offer by sending, by first-class mail (or electronic transmission), with a copy to the Trustee, to each Holder at such Holder's address appearing in the Note Register, a notice the terms of which shall govern the Change of Control Offer stating:

(1) that the Change of Control Offer is being made pursuant to this Section 3.08 and Section 4.08, that a Change of Control has occurred, and the circumstances and relevant facts regarding the Change of Control;

(2) the principal amount of Notes required to be purchased pursuant to Section 4.08 (the "***Offer Amount***"), the purchase price set forth in Section 4.08 (the "***Purchase Price***"), the Offer Period and the Purchase Date (each as defined below);

(3) that all Notes timely tendered and not withdrawn shall be accepted for payment;

(4) that any Note not tendered or accepted for payment shall continue to accrue interest;

(5) that, unless the Company defaults in making such payment, any Note accepted for payment pursuant to the Change of Control Offer shall cease to accrue interest after the Purchase Date;

(6) that Holders electing to have a Note purchased pursuant to a Change of Control Offer may elect to have Notes purchased equal to $2,000 or in integral multiples of $1,000 in excess of $2,000 only;

(7) that Holders electing to have a Note purchased pursuant to any Change of Control Offer shall be required to surrender the Note, with the form entitled "Option of Holder to Elect Purchase" on the reverse of the Note completed, or transfer by book-entry transfer, to the Company, the Depositary, if appointed by the Company, or a Paying Agent at the address specified in the notice before the close of business on the third Business Day before the Purchase Date;

(8) that Holders shall be entitled to withdraw their election if the Company, the Depositary or the Paying Agent, as the case may be, receives, not later than the expiration of the Offer Period, a telegram, facsimile transmission or letter setting forth the name of the Holder, the principal amount of the Note (or portions thereof) the Holder delivered for purchase and a statement that such Holder is withdrawing its election to have such Note purchased;

(9) [Reserved];

(10) that Holders whose Notes are purchased in part shall be issued new Notes equal in principal amount to the unpurchased portion of the Notes surrendered (or transferred by book-entry transfer); and

(11) any other procedures the Holders must follow in order to tender their Notes (or portions thereof) for payment and the procedures that Holders must follow in order to withdraw an election to tender Notes (or portions thereof) for payment.

(d) The Change of Control Offer shall remain open for a period of at least 30 days but no more than 60 days following its commencement, except to the extent that a longer period is required by applicable law (the "***Offer Period***"). No later than five (5) Business Days (and in any event, no later than the 60th day following the Change of Control) after the termination of the Offer Period (the "***Purchase Date***"), the Company shall purchase the Offer Amount or, if less than the Offer Amount has been tendered, all Notes tendered in response to the Change of Control Offer. Payment for any Notes so purchased shall be made in the same manner as interest payments are made. The Company shall publicly announce the results of the Change of Control Offer on or as soon as practicable after the Purchase Date.

(e) On or prior to the Purchase Date, the Company shall, to the extent lawful:

(1) accept for payment, the Offer Amount of Notes or portions of Notes properly tendered and not withdrawn pursuant to the Change of Control Offer, or if less than the Offer Amount has been tendered, all Notes tendered;

(2) deposit with the Paying Agent funds in an amount equal to the Purchase Price in respect of all Notes or portions of Notes properly tendered and not withdrawn; and

(3) deliver or cause to be delivered to the Trustee the Notes properly accepted together with an Officer's Certificate stating the aggregate principal amount of Notes or portions of Notes being purchased by the Company and that such Notes or portions thereof were accepted for payment by the Company in accordance with the terms of this Section 3.08.

(f) The Paying Agent (or the Company, if acting as the Paying Agent) shall promptly (and in any event, not later than 60 days from the date of the Change of Control) deliver or wire transfer to each tendering Holder the Purchase Price deposited with the Paying Agent by the Company (or, if all the Notes are then in global form, make such payment through the facilities of DTC). In the event that any portion of the Notes surrendered is not purchased by the Company, the Company shall promptly execute and issue a new Note in a principal amount equal to such unpurchased portion of the Notes surrendered, and, upon receipt of a Company Order in accordance with Section 2.02 hereof, the Trustee shall authenticate and deliver (or cause to be transferred by book-entry) such new Note to such Holder, in a principal amount equal to any unpurchased portion of the Notes surrendered; *provided*, *however*, that each such new Note shall be in a principal amount of $2,000 or an integral multiple of $1,000 in excess of $2,000. Any Note not so accepted shall be promptly mailed or delivered by the Company to the Holder thereof.

(g) If the Purchase Date is after a Regular Record Date and on or before the related Interest Payment Date, any accrued and unpaid interest shall be paid to the Person in whose name a Note is registered at the close of business on such Regular Record Date.

(h) The Company shall comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with Section 4.08, this Section 3.08 or other provisions of this Indenture, the Company shall comply with applicable securities laws and regulations and shall not be deemed to have breached its obligations under Section 4.08, this Section 3.08 or such other provision by virtue of such compliance.

Other than as specifically provided in this Section 3.08, any purchase pursuant to this Section 3.08 shall be made in accordance with the provisions of Sections 3.01 through 3.06 hereof.

ARTICLE 4

COVENANTS

Section 4.01 Payment of Notes.

The Company shall pay or cause to be paid the principal of, premium, if any, and interest on, the Notes on the dates and in the manner provided in this Indenture and the Notes. Principal, premium, if any, and interest shall be considered paid on the date due if the Paying Agent, if other than the Company or a Consolidated Subsidiary thereof, holds as of 11:00 a.m. Eastern Time on the due date money

deposited by the Company in immediately available funds and designated for and sufficient to pay all principal, premium, if any, and interest then due. Such Paying Agent shall return to the Company promptly, and in any event, no later than five (5) Business Days following the date of payment, any money (including accrued interest) that exceeds such amount of principal, premium, if any, and interest paid on the Notes. If a payment date is a Legal Holiday at a place of payment, payment may be made at that place on the next succeeding day that is not a Legal Holiday, and no interest shall accrue on such payment for the intervening period.

The Company shall pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue principal and premium, if any, from time to time on demand at a rate per annum equal to the rate of interest then in effect; it shall pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue installments of interest (without regard to any applicable grace periods), from time to time on demand at the same rate to the extent lawful.

Section 4.02 Maintenance of Office or Agency.

(a) The Company shall maintain an office or agency (which may be an office or drop facility of the Trustee or an Affiliate of the Trustee, Note Registrar or co-registrar) where Notes may be presented or surrendered for registration of transfer or for exchange and where notices and demands to or upon the Company in respect of the Notes and this Indenture may be made. The Company shall give prompt written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the Company shall fail to maintain any such required office or agency or shall fail to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be made at the Corporate Trust Office of the Trustee, and the Company hereby appoints the Trustee as its agent to receive all such presentations, surrenders, notices and demands.

(b) The Company may also from time to time designate one or more other offices or agencies where the Notes may be presented or surrendered for any or all such purposes and may from time to time rescind such designations. The Company shall give prompt written notice to the Trustee of any such designation or rescission and of any change in the location of any such other office or agency.

(c) The Company hereby designates the Corporate Trust Office of the Trustee, as one such office, drop facility or agency of the Company in accordance with Section 2.05 hereof.

Section 4.03 Limitation Upon Liens.

(a) So long as any Notes remain outstanding, the Company will not, and will not permit any Consolidated Subsidiary to, issue, assume or guarantee any Indebtedness that is secured by a Lien upon or with respect to any Principal Property, or on any shares of Capital Stock of any Consolidated Subsidiary that owns a Principal Property (unless all obligations and indebtedness thereby secured are held by, and the related Lien is granted to, the Company or a Consolidated Subsidiary) unless

(i) the Notes are secured by a Lien equally and ratably with (or prior to) any and all other obligations and Indebtedness secured by such Lien, or

(ii) the aggregate principal amount of all Indebtedness secured by such a Lien of the Company or a Consolidated Subsidiary then outstanding, together with all Attributable Debt of the Company and its Consolidated Subsidiaries in respect of Sale and Leaseback Transactions (other than Sale and Leaseback Transactions permitted by Section 4.04) then outstanding would not exceed the greater of (x) 10% of Consolidated Total Assets and (y) $850.0 million;

(b) The provisions of Section 4.03(a) shall not prevent, restrict or apply to the following Liens (collectively, "*Permitted Liens*"), and Indebtedness secured by one or more Permitted Liens shall be excluded in any computation of Indebtedness secured by a Lien pursuant the foregoing clause (ii) of Section 4.03(a):

(i) Liens existing as of the Issue Date on any property or assets owned or leased by the Company or any Consolidated Subsidiary;

(ii) Liens on property or assets of, or on any shares of stock or Indebtedness of, any Person existing at the time such Person becomes a Consolidated Subsidiary and not created in contemplation of such event;

(iii) Liens (A) on any property or assets or shares of stock existing at the time of acquisition thereof (including acquisition through merger or consolidation) and not created in contemplation of such event or to secure the payment of all or any part of the purchase price or construction cost thereof, or (B) to secure any Indebtedness incurred prior to, at the time of or within 270 days after the later of acquisition of such property or assets or shares of stock or Indebtedness or the completion of any such construction and the commencement of operation of such property, for the purpose of financing all or any part of the purchase price or construction cost thereof;

(iv) Liens on any property or assets to secure all or any part of the cost of acquisition, development, operation, construction, alteration, repair, lease, design, installation or improvement of all or any part of such property or assets, or to secure Indebtedness (including Capital Lease Obligations) incurred prior to, at the time of or within 270 days after the completion of such acquisition, development, operation, construction, alteration, repair, lease, design, installation or improvement, whichever is later, for the purpose of financing all or any part of such cost;

(v) Liens in favor of, or which secure Indebtedness owing to, the Company or a Consolidated Subsidiary;

(vi) Liens arising from the assignment of monies due and to become due under contracts between the Company or any Consolidated Subsidiary and the United States of America, any State, Commonwealth, Territory or possession thereof or any agency, department, instrumentality or political subdivision of any thereof; or Liens in favor of the United States of America, any State, Commonwealth, Territory or possession thereof or any agency, department, instrumentality or political subdivision of any thereof, to secure progress, advance or other payments pursuant to any contract or provision of any statute, or pursuant to the provisions of any contract not directly or indirectly in connection with securing Indebtedness;

(vii) any deposit or pledge as security for the performance of any statutory obligations, bid, tender, contract, lease, government contract, performance bond or undertaking not made directly or indirectly in connection with the securing of Indebtedness; any deposit or pledge with any governmental agency required or permitted to qualify the Company or any Consolidated Subsidiary to conduct business, to maintain self-insurance or to obtain the benefits of any law pertaining to worker's compensation, unemployment insurance, pensions, social security or similar matters, or to obtain any stay or discharge in any legal or administrative proceedings; landlord's, mechanics', worker's, repairmen's, materialmen's, warehousemen's and other like liens imposed by law and securing obligations that are not yet overdue by more than 30 days or are being contested in good faith, and deposits or pledges to obtain releases thereof; any

security interest created in connection with the sale, discount or guarantee of notes, chattel mortgages, leases, accounts receivable, trade acceptances or other paper, or contingent repurchase obligations, arising out of sales of merchandise in the ordinary course of business; liens for taxes, assessments or other government charges or claims that are not yet delinquent or being contested in good faith; any deposit or pledge in connection with appeal or surety bonds; or other deposits or pledges similar to those referred to in this clause (vii);

(viii) judgment Liens; and Liens arising by reason of any attachment, decree or order of any court or other governmental authority, so long as any appropriate legal proceedings which may have been initiated for review of such attachment, decree or order shall not have been finally terminated or so long as the period within which such proceedings may be initiated shall not have expired;

(ix) Liens created after the date of this Indenture on property leased to or purchased by the Company or any Consolidated Subsidiary after that date and securing, directly or indirectly, obligations issued by a State, a Territory or a possession of the United States of America, or any political subdivision of any of the foregoing, or the District of Columbia, to finance the cost of acquisition or cost of construction of such property;

(x) survey exceptions, easements, zoning restrictions, licenses, title restrictions, rights-of-way and similar encumbrances on real property imposed by law or incurred or granted by the Company or any Consolidated Subsidiary in the ordinary course of business that do not secure any material monetary obligations and do not materially interfere with the ordinary conduct of business of the Company and its Consolidated Subsidiaries, taken as a whole;

(xi) Liens upon real or personal property leased after the date of this Indenture in the ordinary course of business by the Company or any Consolidated Subsidiary in favor of the lessor created at the inception of the lease transaction, securing obligations of the Company or those of any Consolidated Subsidiary under or in respect of such lease and extending to or covering only the property subject to such lease and improvements thereon;

(xii) minor imperfections in title that do not materially interfere with the ordinary conduct of business of the Company and its Consolidated Subsidiaries, taken as a whole;

(xiii) Liens securing indebtedness or any other obligations under the Credit Agreement and/or Hedging Obligations related thereto;

(xiv) Liens created in connection with the depositing of the proceeds from the Notes in a separate deposit account as set forth in Section 4.05;

(xv) Liens arising from Uniform Commercial Code financing statement filings regarding leases entered into by the Company or any of its Consolidated Subsidiaries in the ordinary course of business;

(xvi) licenses, leases or subleases and other intellectual property rights granted to others not interfering in any material respect with the business of the Company or any Consolidated Subsidiary of the Company;

(xvii) Liens in the nature of normal and customary rights of setoff upon deposits of cash in favor of banks or other depository institutions;

(xviii) Liens of a collection bank arising in the ordinary course of business under Section 4-210 of the Uniform Commercial Code in effect in the relevant jurisdiction covering only the items being collected upon;

(xix) Liens solely on any cash earnest money deposits made by the Company or any of its Consolidated Subsidiaries in connection with any letter of intent or purchase agreement permitted by this Indenture;

(xx) Liens in favor of customs and revenue authorities arising as a matter of law to secure payment of customs duties in connection with the importation of goods; and

(xxi) any extension, renewal, substitution or replacement (or successive extensions, renewals, substitutions or replacements), as a whole or in part, of any Lien referred to in subparagraphs (i) through (xx) above or the Indebtedness secured thereby; *provided* that (A) such extension, renewal, substitution or replacement Lien shall be limited to all or any part of the same property or assets or shares of stock that secured the Lien extended, renewed, substituted or replaced (plus improvements, accessions, after-acquired property, proceeds or dividends or distributions in respect thereof and any other property or assets not then constituting a Principal Property) and (B) to the extent, if any, that the Indebtedness secured by such Lien at such time is increased, the amount of such increase shall not be excluded from Indebtedness under any computation under this Section 4.03.

Debt created by the Company or any Consolidated Subsidiary shall not be cumulated with a guarantee of the same Indebtedness by the Company or any other Consolidated Subsidiary for the same financial obligation.

Section 4.04 Limitation on Sale and Leaseback Transactions.

(a) So long as any Notes remain outstanding, the Company will not itself, and will not permit any Consolidated Subsidiary to, enter into any arrangement after the date of this Indenture with any Person (not including the Company or any Consolidated Subsidiary) which provides for the leasing by the Company or any such Consolidated Subsidiary of any Principal Property which was or is owned by the Company or such Consolidated Subsidiary (except for temporary leases of not more than three years), which property has been or is to be sold or transferred to such Person more than 120 days after the later of (i) the date on which such Principal Property has been acquired by the Company or such Consolidated Subsidiary and (ii) the date of completion of construction and commencement of full operation thereof by the Company or any Consolidated Subsidiary (a "***Sale and Leaseback Transaction***").

(b) The foregoing limitation shall not apply to any Sale and Leaseback Transaction if:

(i) the net proceeds to the Company or such Consolidated Subsidiary from such sale or transfer is equal to or exceeds the fair value (as determined by the Board of Directors of the Company) of the Principal Property so leased,

(ii) the Company or such Consolidated Subsidiary could incur Indebtedness secured by a Lien on the Principal Property to be leased pursuant to Section 4.03 in an amount equal to the Attributable Debt with respect to such Sale and Leaseback Transaction without equally and ratably securing the Notes or

(iii) the Company, within 120 days after the effective date of any such Sale and Leaseback Transaction, applies an amount equal to the fair value (as determined by the Board of Directors of the Company) of the Principal Property so sold and leased back at the time of entering into such arrangement (as determined by the Company) to

(A) the prepayment or retirement of Funded Debt (including securities constituting Funded Debt) of the Company; or

(B) the acquisition of additional real property for the Company or any Consolidated Subsidiary.

(c) A Sale and Leaseback Transaction shall not include any such arrangement for financing air, water or noise pollution control facilities or sewage or solid waste disposal facilities or involving industrial development bonds which are tax-exempt pursuant to Section 103 of the United States Internal Revenue Code, as amended (or which receive similar tax treatment under any subsequent amendments thereto or successor laws thereof).

Section 4.05 Limitation on Use of Proceeds.

(a) No later than 10 Business Days after the Issue Date, the Company will deposit the net proceeds from the Initial Notes into a newly-formed segregated deposit account in the name of the Company, and such net proceeds will be invested (and may be reinvested) in cash and Cash Equivalents. Amounts contained in such account will be used by the Company

(i) on or prior to August 20, 2018, to (a) redeem, repurchase, repay, tender for, or acquire or retire for value (whether through one or more tender offers, open market repurchases, redemptions or similar transactions) all or any portion of the Company's 1.625% Convertible Senior Notes due 2044 (the "***1.625% Convertible Notes***") or to satisfy the cash portion of any consideration due upon any conversion of the 1.625% Convertible Notes pursuant to the requirements contained in the indenture governing the 1.625% Convertible Notes, and/or (b) make any interest payments due on all or any portion of the Initial Notes,

(ii) on or after August 20, 2018, to repurchase all or any portion of the 1.625% Convertible Notes that the Company is obligated to repurchase pursuant to the requirements contained in the indenture governing the 1.625% Convertible Notes and

(iii) subsequent to August 20, 2018 (or such earlier date in the event that there are no longer any 1.625% Convertible Notes outstanding), in any other manner not otherwise prohibited by this Indenture, subject to the Company complying with clauses (i) or (ii) of this Section 4.05(a) prior to any such amounts being used or applied in accordance with this clause (iii). For payments made pursuant to Section 4.05(a)(i) or, to the extent applicable, Section 4.05(a)(ii), amounts permitted to be released from the segregated account shall include amounts necessary to pay principal, any accrued and unpaid interest due on the date of any redemption, repurchase, repayment, tender, acquisition or retirement for value or to satisfy the cash portion of any consideration due upon any conversion of the 1.625% Convertible Notes, premiums (including tender premiums) and fees and expenses incurred in connection therewith.

(b) Prior to release of proceeds of the Initial Notes from the segregate account pursuant to clauses (i) and (ii) of Section 4.05(a), the Company shall deliver to the Trustee an Officer's Certificate certifying that the proposed use of proceeds from such segregated account is in compliance with this

Section 4.05. No such Officer's Certificate shall be required in the event funds are released from such segregated account pursuant to Section 4.05(a)(iii).

Section 4.06 Compliance Certificates.

(a) The Company shall deliver to the Trustee, within 90 days after the end of each fiscal year, commencing with the fiscal year ending December 31, 2017, an Officer's Certificate stating that a review of the activities of the Company and its Subsidiaries during the preceding fiscal year (or, with respect to the first such certificate, the period from the Issue Date to December 31, 2017), has been made under the supervision of the signing Officer with a view to determining whether the Company and the Guarantors have kept, observed, performed and fulfilled their obligations under this Indenture, and further stating, as to such Officer signing such certificate, that to the best of his or her knowledge the Company and the Guarantors have kept, observed, performed and fulfilled each and every covenant contained in this Indenture and none is in default in the performance or observance of any of the terms, provisions and conditions of this Indenture (or, if a Default or Event of Default shall have occurred, describing all such Defaults or Events of Default of which he or she may have knowledge and what action the Company is taking or proposes to take with respect thereto) and that to the best of his or her knowledge no event has occurred and remains in existence by reason of which payments on account of the principal of, premium, if any, or interest on the Notes is prohibited or if such event has occurred, a description of the event and what action the Company is taking or proposes to take with respect thereto.

(b) The Company shall deliver to the Trustee, within 30 days after becoming aware thereof, written notice in the form of an Officer's Certificate of any event that with the giving of notice and/or the lapse of time would become an Event of Default, its status and what action the Company is taking or proposes to take with respect thereto.

Section 4.07 Waiver of Certain Covenants.

The Company may omit in any particular instance to comply with any term, provision or condition set forth in Section 4.03 or Section 4.04 with respect to the Notes if the Holders of at least a majority in principal amount of the outstanding Notes shall either waive such compliance in such instance or generally waive compliance with such term, provision or condition, but no such waiver shall extend to or affect such term, provision or condition, except to the extent so expressly waived, and, until such waiver shall become effective, the obligations of the Company and the duties of the Trustee in respect of any such term, provision or condition shall remain in full force and effect.

Section 4.08 Repurchase at the Option of Holders Upon a Change of Control.

(a) Except as provided in Section 4.08(c), upon the occurrence of a Change of Control, each Holder of the Notes shall have the right to require the Company to repurchase all or any part (equal to $2,000 or an integral multiple of $1,000 in excess thereof) of such Holder's Notes pursuant to an offer (the "***Change of Control Offer***") at a purchase price (the "***Change of Control Purchase Price***") equal to 101% of the principal amount of the Notes to be repurchased, plus accrued and unpaid interest, to, but not including, the repurchase date specified by the Company in the notice referred to below (subject to the right of Holders of record on the relevant Record Date to receive interest due on the relevant Interest Payment Date).

(b) Except as provided in Section 4.08(c) or (d), within 30 days following any Change of Control, the Company shall send a notice to each Holder of the Notes, by first-class mail at such Holder's address appearing in the Note Register, or, in the case of Notes held in book-entry form, by electronic

transmission in accordance with the applicable procedures of the Depositary, with a copy to the Trustee, stating:

(i) that a Change of Control has occurred (or, with respect to a notice sent in advance of a Change of Control, is expected to occur) and a Change of Control Offer is being made pursuant to this Section 4.08 and that all Notes timely tendered will be accepted for payment;

(ii) the Change of Control Purchase Price and the repurchase date (the "***Change of Control Purchase Date***"), which will be, subject to any contrary requirements of applicable law, a Business Day no earlier than 30 days nor later than 60 days from the date the notice is mailed;

(iii) the circumstances and relevant facts regarding the Change of Control; and

(iv) the procedures, determined by the Company consistent with this Indenture, that Holders of the Notes must follow in order to tender their Notes (or portions thereof) for payment, and the procedures that Holders of the Notes must follow in order to withdraw an election to tender Notes (or portions thereof) for payment.

(c) The Company will not be required to make a Change of Control Offer following a Change of Control if:

(i) A third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in this Indenture applicable to a Change of Control Offer made by the Company and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer, or

(ii) notice of redemption in respect of all of the outstanding Notes has been given pursuant to Section 3.03.

(d) A Change of Control Offer may be made in advance of, or conditioned upon, a Change of Control if a definitive agreement is in place.

(e) On the Change of Control Payment Date, the Company shall (i) accept for payment on a pro rata basis Notes or portions thereof properly tendered pursuant to the applicable Change of Control Offer; (ii) deposit with the Paying Agent the Change of Control Purchase Price in respect of all Notes or portions thereof so accepted; and (iii) deliver, or cause to be delivered, to the Trustee all Notes or portions thereof so accepted together with an Officer's Certificate specifying the Notes or portions thereof accepted for payment by the Company. The Paying Agent shall promptly disburse to the holders of Notes so accepted payment in an amount equal to the purchase price, and the Trustee shall promptly authenticate upon receipt of a Company Order and send (or cause to be transferred by book entry) to such holders a new Note equal in principal amount to any unpurchased portion of the Note surrendered; *provided* that each Note purchased and each new Note issued shall be in a minimum principal amount of $2,000 or integral multiples of $1,000 in excess thereof.

(f) Subject to applicable escheat laws, the Trustee and the Paying Agent shall return to the Company any cash that remains unclaimed, together with interest or dividends, if any, thereon, held by them for the payment of the Change of Control Purchase Price; *provided*, *however*, that, (x) to the extent that the aggregate amount of cash deposited by the Company pursuant to subclause (ii) of clause (e) above exceeds the aggregate Change of Control Purchase Price of the Notes or portions thereof to be

purchased, then the Trustee shall hold such excess for the Company and (y) unless otherwise directed by the Company in writing, promptly after the Business Day following the Change of Control Purchase Date the Trustee shall return any such excess to the Company together with interest, if any, thereon.

(g) The Company will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act, and any other securities laws or regulations in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of this covenant, the Company will comply with the applicable securities laws and regulations and will not be deemed to have breached the Company's obligations under this covenant by virtue of this compliance.

(h) If Holders of not less than 90% in aggregate principal amount of the outstanding Notes validly tender and do not withdraw such Notes in a Change of Control Offer and the Company, or any third party making a Change of Control Offer in lieu of the Company as described above, purchases all of the Notes validly tendered and not withdrawn by such Holders, the Company will have the right, upon not less than 30 nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all Notes that remain outstanding following such purchase at a Redemption Price in cash equal to the applicable Change of Control payment plus, to the extent not included in the Change of Control payment, accrued and unpaid interest to, but not including, the Redemption Date.

Section 4.09 Reports to Holders.

(a) Notwithstanding that the Company may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, if not filed electronically with the SEC through EDGAR (or any successor system), the Company will provide to the Trustee and the Holders of the Notes, within 15 days of the time periods specified in the SEC's rules and regulations with respect to a non-accelerated filer (after giving effect to any grace period provided by Rule 12b-25 under the Exchange Act):

(i) all quarterly and annual financial information that would be required to be contained in a filing with the SEC on Forms 10-Q and 10-K if the Company were required to file such Forms, including a "Management's Discussion and Analysis of Financial Condition and Results of Operations" and, with respect to the annual information only, a report on the annual financial statements by the Company's independent registered public accounting firm; and

(ii) all current reports that would be required to be filed with the SEC on Form 8-K if the Company were required to file such reports. The requirement for the Company to provide information may be satisfied by posting such reports, documents and information on its website within the time periods specified herein.

(b) To the extent any information is not provided within the time periods specified in Section 4.09(a) and such information is subsequently provided, the Company will be deemed to have satisfied its obligations with respect thereto at such time and any Default or Event of Default with respect thereto shall be deemed to have been cured.

(c) In addition, the Company and the Guarantors have agreed that, for so long as any Notes remain outstanding, if at any time the Company is not subject to Section 13 or Section 15(d) of the Exchange Act, they will furnish to the Holders and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act. Delivery of any reports, information and documents to the Trustee pursuant to this Section 4.09(a) is for informational

purposes only and the Trustee's receipt of such shall not constitute actual or constructive notice of any information contained therein or determinable from information contained therein, including the Company's compliance with any of its covenants pursuant to this Article 4 (as to which the Trustee is entitled to rely exclusively on Officer's Certificates).

Section 4.10 Taxes.

The Company shall pay, and shall cause each of its Subsidiaries to pay, prior to delinquency, all material taxes, assessments and governmental levies, except such as are being contested in good faith and by appropriate proceedings or where the failure to effect such payment is not adverse in any material respect to the Holders.

Section 4.11 Stay, Extension and Usury Laws.

The Company covenants (to the extent that it may lawfully do so) that it shall not at any time insist upon, plead, or in any manner whatsoever claim or take the benefit or advantage of, any stay, extension or usury law wherever enacted, now or at any time hereafter in force, that may affect the covenants or the performance of this Indenture; and the Company (to the extent that it may lawfully do so) hereby expressly waives all benefit or advantage of any such law, and covenants that it shall not, by resort to any such law, hinder, delay or impede the execution of any power herein granted to the Trustee, but shall suffer and permit the execution of every such power as though no such law has been enacted.

Section 4.12 Corporate Existence.

Subject to Article 5 hereof, the Company shall do or cause to be done all things necessary to preserve and keep in full force and effect (i) its corporate existence, and the corporate, partnership or other existence of each Subsidiary, in accordance with the respective organizational documents (as the same may be amended from time to time) of the Company or any such Subsidiary and (ii) the rights (charter and statutory), licenses and franchises of the Company and its Subsidiaries; *provided*, *however*, that the Company shall not be required to preserve any such right, license or franchise, or the corporate, partnership or other existence of any Subsidiary, if the Board of Directors shall determine that the preservation thereof is no longer desirable in the conduct of the business of the Company and its Subsidiaries, taken as a whole, and that the loss thereof is not adverse in any material respect to the Holders of the Notes, or that such preservation is not necessary in connection with any transaction not prohibited by this Indenture.

ARTICLE 5

SUCCESSORS

Section 5.01 Merger, Consolidation or Sale of Assets.

(a) The Company may not, directly or indirectly, consolidate or merge with or into another Person (whether or not the Company is the surviving Person) or sell, assign, transfer, convey, lease or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions, to another Person, unless:

(1) either:

(A) the Company is the surviving Person; or

(B) the Person formed by or surviving any such consolidation or merger (if other than the Company) or to which such sale, assignment, transfer, lease, conveyance or other disposition has been made is an entity organized or existing under the laws of the United States of America, any state thereof or the District of Columbia; *provided* that, if such entity is not a corporation, a co-obligor of the Notes is a corporation;

(2) the Person formed by or surviving any such consolidation or merger (if other than the Company) or the Person to which such sale, assignment, transfer, conveyance or other disposition has been made assumes by supplemental indenture and joinders all the obligations of the Company under the Notes and this Indenture pursuant to agreements in form satisfactory to the Trustee;

(3) immediately after such transaction no Default or Event of Default exists; and

(4) the Company shall deliver, or cause to be delivered, to the Trustee, in form satisfactory to the Trustee, an Officer's Certificate and an Opinion of Counsel, each stating that such transaction or series of transactions and the supplemental indenture, if any, in respect thereto comply with this Section 5.01 and that all conditions precedent herein provided for relating to such transaction or series of transactions have been satisfied.

(b) The sale, assignment, transfer, lease, conveyance or other disposition of all or substantially all of the properties or assets of one or more Subsidiaries of the Company, which properties or assets, if held by the Company instead of such Subsidiaries, would constitute all or substantially all of the properties or assets of the Company on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties or assets of the Company.

(c) Upon any transaction or series of transactions that are of the type described in, and are effected in accordance with, conditions described in this Section 5.01, the surviving entity shall succeed to, and be substituted for, and may exercise every right and power of, the Company or the Guarantor, as applicable, under this Indenture and the Notes with the same effect as if such surviving entity had been named as the Company or the Guarantor, as applicable, of the Notes; and when a surviving entity duly assumes all of the obligations and covenants of the Company or the Guarantor, as applicable, pursuant to this Indenture, the Notes and the Subsidiary Guarantee, the Company or the Guarantor, as applicable, or any other predecessor Person shall be relieved of such obligations.

(d) Section 5.01(a) will not apply to any sale, assignment, transfer, conveyance, lease or other disposition of assets between or among the Company or any of its Consolidated Subsidiaries. Clause (3) of Section 5.01(a) will not apply to (1) any merger or consolidation of the Company or a Guarantor with or into another Guarantor for any purpose or (2) the merger of the Company or a Guarantor with or into an Affiliate solely for the purpose of reincorporating the Company or such Guarantor, as the case may be, in another jurisdiction under the laws of the United States, any state of the United States or the District of Columbia so long as the amount of Indebtedness of the Company and its Consolidated Subsidiaries is not increased thereby.

Section 5.02 Successor Corporation Substituted.

The Person formed by or surviving any consolidation or merger described in Section 5.01 (if other than the Company) or the Person to which any sale, assignment, transfer, conveyance or other disposition described in Section 5.01 has been made, as applicable, shall succeed to, and be substituted

for, and may exercise every right and power of the Company under this Indenture and the Notes; *provided*, *however*, that the predecessor entity shall not be released from any of the obligations or covenants under this Indenture, including with respect to the payment of the Notes in the case of:

(a) a sale, transfer, assignment, conveyance or other disposition (unless such sale, transfer, assignment, conveyance or other disposition is of all or substantially all of the assets of the Company, taken as a whole), or

(b) a lease.

ARTICLE 6

DEFAULTS AND REMEDIES

Section 6.01 Events of Default.

"***Event of Default***" with respect to the Notes, wherever used herein, means any one of the following events which shall have occurred and be continuing:

(a) default in the payment of any installment of interest upon any Note as and when it becomes due and payable, and continuance of such default for a period of 30 days;

(b) default in the payment of all or any part of the principal of or premium, if any, on any Note as and when it becomes due and payable either at Stated Maturity, upon any redemption, by declaration or otherwise;

(c) failure to comply with Section 4.09 for 120 days after either the Trustee notifies the Company of the failure or the Holders of at least 25% in principal amount of the outstanding Notes affected by the failure notify us and the Trustee of the failure;

(d) default in the performance, or breach, of any covenant or warranty of the Company contained in the Notes or in this Indenture (other than a covenant or warranty a default in the performance or breach of which is elsewhere in this Section 6.01 specifically dealt with or which has been expressly included in this Indenture solely for the benefit of the Notes), and continuance of such default or breach for a period of 90 days after the date on which written notice specifying such default or breach and requiring the Company to remedy the same and stating that such notice is a "Notice of Default" hereunder shall have been given to the Company by the Trustee, or to the Company and the Trustee by the Holders of at least 25% in principal amount of the outstanding Notes affected by the failure;

(e) failure by the Company to make any payment, on or before the end of the applicable grace period, after the maturity of any Indebtedness of the Company with an aggregate principal amount then outstanding in excess of $100.0 million or the acceleration of Indebtedness of the Company with an aggregate principal amount then outstanding in excess of $100.0 million as a result of a default with respect to such Indebtedness, and such Indebtedness, in either case, is not discharged or such acceleration shall not have been cured, waived, rescinded or annulled within a period of 30 days after there shall have been given, by registered or certified mail, to the Company by the Trustee or to the Company and the Trustee by the Holders of at least 25% in principal amount of the outstanding Notes affected by the failure, a written notice specifying such failure to pay or acceleration and requiring the Company to cause such acceleration to be cured, waived, rescinded or annulled or to cause such Indebtedness to be discharged and stating that such notice is a "Notice of Default" hereunder;

(f) the entry by a court having jurisdiction in the premises of (i) a decree or order for relief in respect of the Company in an involuntary case or proceeding under any applicable federal or state bankruptcy, insolvency, reorganization or other similar law or (ii) a decree or order adjudging the Company a bankrupt or insolvent, or approving as properly filed a petition seeking reorganization, arrangement, adjustment or composition of or in respect of the Company under any applicable federal or state law, or appointing a custodian, receiver, liquidator, assignee, trustee, sequestrator or other similar official of the Company or for all or any substantial part of its property, or ordering the winding-up or liquidation of its affairs, and the continuance of such decree or order for relief or any such other decree or order unstayed and in effect for a period of 90 consecutive days;

(g) the Subsidiary Guarantee by any of the Guarantors ceases to be, or is asserted in writing by the Company or such Guarantor not to be, in full force and effect or enforceable in accordance with its terms (except as contemplated or permitted by the terms of the Subsidiary Guarantee or this Indenture);

(h) the commencement by the Company or any Guarantor of a voluntary case or proceeding under any applicable federal or state bankruptcy, insolvency reorganization or other similar law, or of any other case or proceeding to be adjudicated a bankrupt or insolvent, or the consent by it to the entry of a decree or order for relief in respect of the Company in an involuntary case or proceeding under any such law, or the filing by it of a petition or answer or consent seeking reorganization or relief under any applicable federal or state law, or the consent by it to the filing of such petition or to the appointment of or taking possession by a custodian, receiver, liquidator, assignee, trustee, sequestrator or similar official of the Company or for all or any substantial part of its property, or the making by it of a general assignment for the benefit of creditors; or

(i) any other Event of Default provided with respect to the Notes.

Section 6.02 Acceleration.

If any Event of Default (other than those of the type described in Section 6.01(f) or (h)) occurs and is continuing, the Trustee may or the Holders of at least 25% in aggregate principal amount of outstanding Notes may, declare the principal, premium, if any, and accrued and unpaid interest, if any, of all the outstanding Notes, to be due and payable by notice in writing to the Company and the Trustee specifying the respective Event of Default and that such notice is a notice of acceleration (the "***Acceleration Notice***"), and the same shall become immediately due and payable.

In the case of an Event of Default specified in Section 6.01(f) or (h) the principal, premium, if any, and accrued and unpaid interest, if any, of all of the outstanding Notes shall become due and payable immediately without any further action or notice on the part of the Trustee or the Holders.

The Holders of at least a majority in aggregate principal amount of the outstanding Notes by notice to the Trustee and the Company may rescind and annul any declaration of acceleration if the rescission would not conflict with any judgment or decree and if all existing Events of Default have been cured or waived except nonpayment of principal, premium or interest that has become due solely because of the acceleration. No such rescission shall affect any subsequent Default or impair any right consequent thereto.

Section 6.03 Other Remedies.

If an Event of Default occurs and is continuing, the Trustee may pursue any available remedy to collect the payment of principal, premium, if any, and interest on the Notes or to enforce the performance of any provision of the Notes or this Indenture.

The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding. A delay or omission by the Trustee or any Holder in exercising any right or remedy accruing upon an Event of Default shall not impair the right or remedy or constitute a waiver of or acquiescence in the Event of Default. All remedies shall be cumulative to the extent permitted by law.

Section 6.04 Waiver of Defaults.

(a) The Holders of at least a majority in aggregate principal amount of the Notes then outstanding by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default or Event of Default and its consequences under this Indenture, except a continuing Default or Event of Default in the payment of interest on, or the principal of, the Notes.

(b) Upon any waiver of a Default or Event of Default, such Default shall cease to exist, and any Event of Default arising therefrom shall be deemed cured for every purpose of this Indenture but no such waiver shall extend to any subsequent or other Default or Event of Default or impair any right consequent thereon.

Section 6.05 Control by Majority.

Subject to Sections 7.01 (including the Trustee's receipt of the security or indemnification described in Section 7.01(e)), 7.02(f) and 7.07 hereof, in case an Event of Default shall occur and be continuing, the Holders of at least a majority in aggregate principal amount of the Notes then outstanding shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee with respect to the Notes.

Section 6.06 Limitation on Suits.

No Holder of a Note may pursue any remedy with respect to this Indenture or the Notes unless:

(a) such Holder has previously given to the Trustee written notice of a continuing Event of Default or the Trustee receives the notice from the Company;

(b) Holders of at least 25% in aggregate principal amount of the Notes then outstanding make a written request to the Trustee to pursue the remedy;

(c) such Holder or Holders offer to the Trustee security or indemnity reasonably satisfactory to the Trustee against any loss, liability or expense;

(d) the Trustee does not comply with such request within 60 days after receipt of the request and the offer of security or indemnity; and

(e) during such 60-day period, Holders of a majority in aggregate principal amount of the then outstanding Notes do not give the Trustee a direction inconsistent with such request.

The preceding limitations shall not apply to a suit instituted by a Holder for enforcement of payment of principal of, and premium, if any, or interest on, a Note on or after the respective due dates for such payments set forth in such Note.

A Holder may not use this Indenture to affect, disturb or prejudice the rights of another Holder or to obtain a preference or priority over another Holder.

Section 6.07 Rights of Holders to Receive Payment.

Notwithstanding any other provision of this Indenture (including Section 6.06), the right of any Holder to receive payment of principal, premium, if any, and interest on the Notes held by such Holder, on or after the respective due dates expressed in the Notes (including in connection with a Change of Control Offer), or to bring suit for the enforcement of any such payment on or after such respective dates, shall not be impaired or affected without the consent of such Holder.

Section 6.08 Collection Suit by Trustee.

If an Event of Default specified in Section 6.01(a) or (b) occurs and is continuing, the Trustee is authorized to recover judgment in its own name and as trustee of an express trust against the Company for the whole amount of principal of, premium, if any, and interest then due and owing (together with interest on overdue principal and, to the extent lawful, interest) and such further amount as shall be sufficient to cover the costs and expenses of collection, including the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel.

Section 6.09 Trustee May File Proofs of Claim.

The Trustee shall be authorized to file such proofs of claim and other papers or documents as may be necessary or advisable in order to have the claims of the Trustee (including any claim for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel) and the Holders allowed in any judicial proceedings relative to the Company (or any other obligor upon the Notes), its assets or its property and shall be entitled and empowered to collect, receive and distribute any money or other property payable or deliverable on any such claims and any custodian in any such judicial proceeding is hereby authorized by each Holder to make such payments to the Trustee, and in the event that the Trustee shall consent to the making of such payments directly to the Holders, to pay to the Trustee any amount due to it for the reasonable compensation, expenses, disbursements and advances of the Trustee, its agents and counsel, and any other amounts due the Trustee under Section 7.07 hereof. To the extent that the payment of any such compensation, expenses, disbursements and advances of the Trustee and its agents and counsel, and any other amounts due the Trustee under Section 7.07 hereof out of the estate in any such proceeding, shall be denied for any reason, payment of the same shall be secured by a Lien on, and shall be paid out of, any and all distributions, moneys, securities and any other properties that the Holders may be entitled to receive in such proceeding whether in liquidation or under any plan of reorganization or arrangement or otherwise. Nothing herein contained shall be deemed to authorize the Trustee to authorize or consent to or accept or adopt on behalf of any Holder any plan of reorganization, arrangement, adjustment or composition affecting the Notes or the rights of any Holder, or to authorize the Trustee to vote in respect of the claim of any Holder in any such proceeding.

Section 6.10 Priorities.

If the Trustee collects any money pursuant to this Article 6, it shall pay out the money in the following order:

First: to the Trustee, its agents and attorneys for amounts due under Section 7.07 hereof, including payment of all compensation, expenses and liabilities incurred, and all advances made, by the Trustee and the costs and expenses of collection;

Second: to Holders for amounts due and unpaid on the Notes for principal, premium, if any, and interest ratably, without preference or priority of any kind, according to the amounts due and payable on the Notes for principal, premium, if any, and interest, respectively; and

Third: to the Company or to such party as a court of competent jurisdiction shall direct.

The Trustee may fix a record date and payment date for any payment to Holders pursuant to this Section 6.10.

Section 6.11 Undertaking for Costs.

In any suit for the enforcement of any right or remedy under this Indenture or in any suit against the Trustee for any action taken or omitted by it as a Trustee, a court in its discretion may require the filing by any party litigant in such suit of an undertaking to pay the costs of such suit, and the court in its discretion may assess reasonable costs, including reasonable attorneys' fees and expenses, against any party litigant in such suit, having due regard to the merits and good faith of the claims or defenses made by the party litigant. This Section 6.11 shall not apply to a suit by the Trustee, a suit by the Company, a suit by a Holder pursuant to Section 6.07 hereof, or a suit by Holders of more than 10% in principal amount of the then-outstanding Notes.

ARTICLE 7

TRUSTEE

Section 7.01 Duties of Trustee.

(a) If an Event of Default has occurred and is continuing, the Trustee shall exercise such of the rights and powers vested in it by this Indenture, and use the same degree of care and skill in its exercise, as a prudent Person would exercise or use under the circumstances in the conduct of such Person's own affairs.

(b) Except during the continuance of an Event of Default:

(1) the duties of the Trustee shall be determined solely by the express provisions of this Indenture and the Trustee need perform only those duties that are specifically set forth in this Indenture and no others, and no implied covenants or obligations shall be read into this Indenture against the Trustee; and

(2) in the absence of bad faith on its part, the Trustee may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon certificates or opinions furnished to the Trustee and conforming to the requirements of this Indenture. However, in the case of certificates or opinions specifically required by any provision herein to be furnished to it, the Trustee shall examine the certificates and opinions to determine whether or not they conform to the requirements of this Indenture (but need not confirm or investigate the accuracy of mathematical calculations or other facts stated therein).

(c) The Trustee may not be relieved from liabilities for its own negligent action, its own negligent failure to act, or its own willful misconduct, except that:

(1) this paragraph does not limit the effect of paragraph (b) of this Section 7.01;

(2) the Trustee shall not be liable for any error of judgment made in good faith by a Responsible Officer, unless it is proved that the Trustee was negligent in ascertaining the pertinent facts; and

(3) the Trustee shall not be liable with respect to any action it takes or omits to take in good faith in accordance with a direction received by it pursuant to Section 6.05 hereof.

(d) Whether or not therein expressly so provided, every provision of this Indenture that in any way relates to the Trustee is subject to paragraphs (a), (b), (c) and (e) of this Section 7.01.

(e) No provision of this Indenture shall require the Trustee to expend or risk its own funds or incur any liability. The Trustee shall be under no obligation to exercise any of the rights or powers vested in it by this Indenture at the request or direction of any Holders pursuant to this Indenture, unless such Holders shall have offered to the Trustee security or indemnity satisfactory to the Trustee against any loss, liability or expense which might be incurred by it in compliance with such request or direction.

(f) The Trustee shall not be liable for interest on any money received by it except as the Trustee may agree in writing with the Company. Money or property held in trust by the Trustee need not be segregated from other funds or property except to the extent required by law.

(g) The Trustee shall have no duty to calculate or verify the calculations of the Applicable Premium.

Section 7.02 Rights of Trustee.

(a) The Trustee may conclusively rely upon any document believed by it to be genuine and to have been signed or presented by the proper Person.

(b) Before the Trustee acts or refrains from acting, it may require an Officer's Certificate or an Opinion of Counsel or both. The Trustee shall not be liable for any action it takes or omits to take in good faith in reliance on such Officer's Certificate or Opinion of Counsel. The Trustee may consult with counsel of its selection and the advice of such counsel or any Opinion of Counsel shall be full and complete authorization and protection from liability in respect of any action taken, suffered or omitted by it hereunder in good faith and in reliance thereon.

(c) The Trustee shall not be liable for any action it takes or omits to take in good faith that it believes to be authorized or within the rights or powers conferred upon it by this Indenture.

(d) Unless otherwise specifically provided in this Indenture, any demand, request, direction or notice from the Company shall be sufficient if signed by an Officer of the Company.

(e) The Trustee shall not be deemed to have notice of any Default or Event of Default unless a Responsible Officer of the Trustee has actual knowledge thereof or unless written notice of any event which is in fact such a Default or Event of Default is received by a Responsible Officer of the Trustee at the Corporate Trust Office of the Trustee from the Company or the Holders of at least 25% in aggregate principal amount of the outstanding Notes, and such notice references the specific Default or Event of Default, the Notes and this Indenture.

(f) The Trustee shall not be required to give any bond or surety in respect of the performance of its power and duties hereunder.

(g) The Trustee shall have no duty to inquire as to the performance of the Company's covenants herein.

(h) The Trustee may execute any of the trusts or powers hereunder or perform any duties hereunder either directly or by or through agents or attorneys and the Trustee shall not be responsible for any misconduct or negligence on the part of any agent or attorney appointed with due care by it hereunder.

(i) [Reserved].

(j) In no event shall the Trustee be responsible or liable for special, indirect, or consequential loss or damage of any kind whatsoever (including, but not limited to, loss of profit) irrespective of whether the Trustee has been advised of the likelihood of such loss or damage and regardless of the form of action.

(k) [Reserved].

(l) The rights, privileges, protections, immunities and benefits given to the Trustee, including, without limitation, its right to be indemnified, are extended to, and shall be enforceable by, the Trustee in each of its capacities hereunder, and each agent, custodian and other Person employed to act hereunder by or on behalf of the Trustee.

(m) The Trustee shall not be bound to make any investigation into the facts or matters stated in any resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order, bond, debenture, note, other evidence of indebtedness or other paper or document, but the Trustee, in its discretion, may make such further inquiry or investigation into such facts or matters as it may see fit, and, if the Trustee shall determine to make such further inquiry or investigation, it shall be entitled to examine the books, records and premises of the Company, personally or by agent or attorney at the sole cost of the Company and shall incur no liability or additional liability of any kind by reason of such inquiry or investigation.

(n) None of the provisions of this Indenture shall require the Trustee to expend or risk its own funds or otherwise to incur any liability, financial or otherwise, in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers if it shall have reasonable grounds for believing that repayment of such funds or indemnity satisfactory to it against such risk or liability is not assured to it.

Section 7.03 Individual Rights of Trustee.

The Trustee in its individual or any other capacity may become the owner or pledgee of Notes and may otherwise deal with the Company or any Affiliate of the Company with the same rights it would have if it were not Trustee. However, in the event that the Trustee acquires any conflicting interest within the meaning of the TIA it must eliminate such conflict within 90 days, apply to the SEC for permission to continue as Trustee or resign. Any Agent may do the same with like rights and duties. The Trustee shall also be subject to Sections 7.10 and 7.11 hereof.

Section 7.04 Trustee's Disclaimer.

The Trustee shall not be responsible for and makes no representation as to the validity or adequacy of this Indenture or the Notes, it shall not be accountable for the Company's use of the proceeds from the Notes or any money paid to the Company or upon the Company's direction under any provision of this Indenture, it shall not be responsible for the use or application of any money received by any Paying Agent other than the Trustee, and it shall not be responsible for any statement or recital herein or any statement in the Notes or any other document in connection with the sale of the Notes or pursuant to this Indenture other than its certificate of authentication and any other certificate or other document executed by the Trustee and delivered to the Company.

Section 7.05 Notice of Defaults.

If a Default or Event of Default occurs and is continuing and if it is known to a Responsible Officer of the Trustee, the Trustee shall mail to Holders a notice of the Default or Event of Default within 90 days after such Default or Event of Default becomes known to a Responsible Officer. Except in the case of a Default or Event of Default in payment of principal of, premium, if any, or interest on any Note, the Trustee may withhold the notice if and so long as a Responsible Officer in good faith determines that withholding the notice is in the interests of the Holders.

Section 7.06 Reports by Trustee to Holders.

Within 60 days after each May 15 beginning with the May 15 following the Issue Date, and for so long as Notes remain outstanding, the Trustee shall mail to the Holders a brief report dated as of such reporting date that complies with TIA § 313(a) (but if no event described in TIA § 313(a) has occurred within the twelve months preceding the reporting date, no report need be transmitted). The Trustee also shall comply with TIA § 313(b)(2). The Trustee shall also transmit by mail all reports as required by TIA § 313(c).

A copy of each report at the time of its mailing to the Holders shall be mailed to the Company and filed with the SEC and each stock exchange on which the Notes are listed in accordance with TIA § 313(d). The Company shall promptly notify the Trustee when the Notes are listed on any stock exchange and any delisting thereof.

Section 7.07 Compensation and Indemnity.

The Company shall pay to the Trustee from time to time compensation for its acceptance of this Indenture and services hereunder. The Trustee's compensation shall not be limited by any law on compensation of a trustee of an express trust. The Company shall reimburse the Trustee promptly upon request for all reasonable disbursements, advances and expenses incurred or made by it in addition to the compensation for its services. Such expenses shall include the reasonable compensation, disbursements and expenses of the Trustee's agents and counsel.

The Company, and the Guarantors, shall, jointly and severally, indemnify the Trustee, its directors, officers, employees, agents and any predecessor Trustee against any and all losses, claims, damages, penalties, fines, liabilities or expenses, including incidental and out-of-pocket expenses and reasonable attorneys' fees and expenses (for purposes of this Article, "***losses***") incurred by it arising out of or in connection with the acceptance or administration of its duties under this Indenture, including the costs and expenses of enforcing this Indenture against the Company (including this Section 7.07) and defending itself against any claim (whether asserted by the Company or any Holder or any other Person) or liability in connection with the exercise or performance of any of its powers or duties hereunder, except to the extent such losses have been determined to have been caused by its own negligence or willful misconduct. The Trustee shall notify the Company promptly of any claim of which a Responsible Officer has received written notice and for which it may seek indemnity. Failure by the Trustee to so notify the Company shall not relieve the Company of its obligations under this Section 7.07. The Company shall defend the claim, and the Trustee shall cooperate in the defense. The Trustee may have separate counsel if the Trustee has been reasonably advised by counsel that it is advisable for the Trustee to engage separate counsel, and the Company shall pay the reasonable fees and expenses of such counsel. Neither the Company nor any Guarantor need pay for any settlement made without the Company's consent, which consent shall not be unreasonably withheld. Neither the Company nor any Guarantor need pay any expense or indemnify against any loss incurred by the Trustee through the Trustee's own willful misconduct or gross negligence, as determined by a final non-appealable order of a court of competent jurisdiction not subject to appeals.

The obligations of the Company and the Guarantors under this Section 7.07 shall survive the satisfaction and discharge of this Indenture, the resignation or removal of the Trustee and payment in full of the Notes.

To secure the Company's and Guarantors' payment obligations in this Section, the Trustee shall have a Lien prior to the Notes on all money or property held or collected by the Trustee, except that held in trust to pay principal, premium, if any, and interest on particular Notes. Such Lien shall survive the satisfaction and discharge of this Indenture and the resignation and removal of the Trustee hereunder.

When the Trustee incurs expenses or renders services after an Event of Default specified in Section 6.01(f) or (h) hereof occurs, the expenses and the compensation for the services (including the fees and expenses of its agents and counsel) are intended to constitute expenses of administration under any Bankruptcy Law.

Section 7.08 Replacement of Trustee.

A resignation or removal of the Trustee and appointment of a successor Trustee shall become effective only upon the successor Trustee's acceptance of appointment as provided in this Section 7.08.

The Trustee may resign in writing at any time upon 30 days' prior notice to the Company and be discharged from the trust hereby created by so notifying the Company. The Holders of a majority in aggregate principal amount of the then outstanding Notes may remove the Trustee by so notifying the Trustee and the Company in writing. The Company may remove the Trustee if:

(a) the Trustee fails to comply with Section 7.10 hereof;

(b) the Trustee is adjudged bankrupt or insolvent or an order for relief is entered with respect to the Trustee under any Bankruptcy Law;

(c) a custodian or public officer takes charge of the Trustee or its property; or

(d) the Trustee becomes incapable of acting.

If the Trustee resigns or is removed or if a vacancy exists in the office of Trustee for any reason (the Trustee in such event being referred to herein as the retiring Trustee), the Company shall promptly appoint a successor Trustee.

Within one year after the successor Trustee takes office, the Holders of a majority in principal amount of the then outstanding Notes may appoint a successor Trustee to replace the successor Trustee appointed by the Company.

If a successor Trustee does not take office within 30 days after the retiring Trustee resigns or is removed, the retiring Trustee, the Company, or the Holders of at least 10% in aggregate principal amount of the then outstanding Notes may, at the expense of the Company, petition any court of competent jurisdiction for the appointment of a successor Trustee.

If the Trustee, after written request by any Holder who has been a Holder for at least six months, fails to comply with Section 7.10 hereof, such Holder may petition any court of competent jurisdiction for the removal of the Trustee and the appointment of a successor Trustee.

A successor Trustee shall deliver a written acceptance of its appointment to the retiring Trustee and to the Company and enter into a supplemental indenture with the retiring Trustee and the Company in which it assumes the rights, powers and duties of the Trustee under this Indenture. Thereupon, the resignation or removal of the retiring Trustee shall become effective, and the successor Trustee shall have all the rights, powers and duties of the Trustee under this Indenture. The successor Trustee shall mail a notice of its succession to the Holders. Subject to the Lien provided for in Section 7.07 hereof, the retiring Trustee shall promptly transfer all property held by it as Trustee to the successor Trustee; *provided*, *however*, that all sums owing to the Trustee hereunder shall have been paid. Notwithstanding replacement of the Trustee pursuant to this Section 7.08, the Company's obligations under Section 7.07 hereof shall continue for the benefit of the retiring Trustee.

In the case of an appointment hereunder of a separate or successor Trustee with respect to the Notes, the Company, any retiring Trustee and each successor or separate Trustee with respect to the Notes shall execute and deliver a supplemental indenture hereto (1) which shall contain such provisions as shall be deemed necessary by the Company or retiring Trustee or desirable to confirm that all the rights, powers, trusts and duties of any retiring Trustee with respect to the Notes have been assumed by a successor Trustee and in the case where any retiring Trustee is retiring only with respect to some of the Notes that the rights, powers, trusts and duties of any retiring Trustee with respect to the Notes as to which any such retiring Trustee is not retiring shall continue to be vested in such retiring Trustee and (2) that shall add to or change any of the provisions of this Indenture as shall be necessary to provide for or facilitate the administration of the trusts hereunder by more than one Trustee, it being understood that nothing herein or in such supplemental indenture shall constitute such Trustee co-trustees of the same trust and that each such separate, retiring or successor Trustee shall be Trustee of a trust or trusts hereunder separate and apart from any trust or trusts hereunder administered by any such other Trustee.

Section 7.09 Successor Trustee by Merger, etc.

If the Trustee consolidates, merges or converts into, or transfers all or substantially all of its corporate trust business to, another corporation or banking association, the successor corporation or

banking association without any further act shall, if such successor corporation or banking association is otherwise eligible hereunder, be the successor Trustee.

Section 7.10 Eligibility; Disqualification.

There shall at all times be a Trustee hereunder that is a Person organized and doing business under the laws of the United States of America or of any state thereof that is authorized under such laws to exercise corporate trustee power, that is subject to supervision or examination by federal or state authorities and that has a combined capital and surplus of at least $50.0 million (or a wholly owned subsidiary of a bank or trust company, or of a bank holding company, the principal subsidiary of which is a bank or trust company having a combined capital and surplus of at least $50.0 million) as set forth in its most recent published annual report of condition.

This Indenture shall always have a Trustee who satisfies the requirements of TIA § 310(a)(1), (2) and (5). The Trustee is subject to TIA § 310(b).

Section 7.11 Preferential Collection of Claims Against Company.

The Trustee is subject to TIA § 311(a), excluding any creditor relationship listed in TIA § 311(b). A Trustee who has resigned or been removed shall be subject to TIA § 311(a) to the extent indicated therein.

ARTICLE 8

SATISFACTION AND DISCHARGE OF THE INDENTURE AND DEFEASANCE

Section 8.01 Satisfaction and Discharge of Notes; Discharge of Indenture.

This Indenture will be discharged and will cease to be of further effect as to all Notes issued hereunder when:

(a) all outstanding Notes previously authenticated and delivered (other than destroyed, lost or stolen Notes that have been replaced or Notes that are paid pursuant to Section 4.01 or Notes for whose payment money or Notes have theretofore been held in trust and thereafter repaid to the Company, as provided in Section 8.05) have been delivered to the Trustee for cancellation and the Company has paid all sums payable by it hereunder; or

(b) all of the Notes not theretofore delivered to the Trustee for cancellation mature within one year, or the Notes have become due and payable by reason of the mailing of a notice of redemption or otherwise, and (A) the Company irrevocably deposits or causes to be deposited with the Trustee as trust funds in trust solely for the benefit of the Holders of such Notes, funds (including money, Government Securities or any combination thereof) in amounts as will be sufficient in the good faith opinion of the Company without consideration of any reinvestment of any interest thereon, to pay and discharge the entire indebtedness on such Notes not already delivered to the Trustee for cancellation, for principal of and interest on the Notes to maturity or redemption, as the case may be, and to pay all other sums payable by it hereunder, together with irrevocable instructions from the Company directing the Trustee to apply such funds to the payment thereof at maturity or redemption, as the case may be, (B) no Default or Event of Default with respect to the Notes shall have occurred and be continuing on the date of such deposit, (C) such deposit will not result in a breach or violation of, or constitute a default under, this Indenture or any other agreement or instrument to which the Company is a party or by which it is bound and (D) the

Company has delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, in each case stating that all conditions precedent provided for herein relating to the satisfaction and discharge of the outstanding Notes and this Indenture have been complied with.

With respect to the foregoing clauses (a) and (b), the Company's obligations under Section 7.07 shall survive. With respect to the foregoing clause (b), the Company's obligations in Sections 2.01, 2.02, 2.05, 2.06, 2.07, 2.08, 2.09, 2.10, 4.01, 4.02, 7.08, 7.09, 8.04, 8.05 and 8.06 shall survive until the Notes are no longer outstanding. After any such irrevocable deposit, this Indenture shall cease to be of any further effect (except as otherwise expressly provided herein) and the Trustee upon request shall acknowledge in writing the satisfaction and discharge of the Company's obligations under the Notes and this Indenture with respect to the Notes except for those surviving obligations specified above.

Section 8.02 Legal Defeasance.

Except as otherwise provided for in the Notes, the Company will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 91st day after the date of the deposit referred to in clause (a) of this Section 8.02, and the provisions of this Indenture will no longer be in effect with respect to the Notes, and the Trustee, at the expense of the Company, shall execute such instruments reasonably requested by the Company acknowledging the same if:

(a) the Company has irrevocably deposited or caused to be irrevocably deposited with the Trustee (or another Trustee satisfying the requirements of Section 7.10) and conveyed all right, title and interest to the Trustee for the benefit of the Holders of Notes, under the terms of an irrevocable trust agreement in form and substance satisfactory to the Trustee as trust funds in trust, specifically pledged to the Trustee for the benefit of such Holders of Notes for payment of the principal of and interest, if any, on the Notes, and dedicated solely to, the benefit of such Holders, in and to (1) money in an amount, (2) Government Securities that, through the payment of interest and principal in respect thereof in accordance with their terms, will provide, not later than one day before the due date of any payment referred to in this clause (a), money in an amount or (3) a combination thereof in an amount sufficient, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee, to pay and discharge, without consideration of the reinvestment of such interest and after payment of all federal, state and local taxes or other charges and assessments in respect thereof payable by the Trustee, the principal of and interest on the outstanding Notes on the Stated Maturity of such principal or interest; *provided* that the Trustee shall have been irrevocably instructed to apply such money or the proceeds of such Government Securities to the payment of such principal and interest with respect to the Notes;

(b) the Company has delivered to the Trustee either (x) an Opinion of Counsel to the effect that Holders of Notes will not recognize income, gain or loss for United States federal income tax purposes as a result of the Company's exercise of its option under this Section 8.02 and will be subject to United States federal income tax on the same amount and in the same manner and at the same times as would have been the case if such option had not been exercised, which Opinion of Counsel shall be based upon (and accompanied by a copy of) a ruling of the Internal Revenue Service to the same effect unless there has been a change in applicable federal income tax law after the Issue Date of such Notes such that a ruling is no longer required or (y) a ruling received from the Internal Revenue Service to the same effect as the aforementioned Opinion of Counsel;

(c) immediately after giving effect to such deposit, on a pro forma basis, no Default or Event of Default with respect to the Notes shall have occurred and be continuing on the date of such deposit or,

insofar as Sections 6.01(f) and 6.01(h) are concerned, to the Company's knowledge, will occur and be continuing at any time during the period ending on the 91st day after such date of such deposit; and

(d) the Company has delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, in each case stating that all conditions precedent provided for herein relating to the defeasance contemplated by this Section 8.02 have been complied with.

Notwithstanding the foregoing, prior to the end of the 91-day period referred to in clause (c) of this Section 8.02, none of the Company's obligations under this Indenture with respect to the Notes shall be discharged. Subsequent to the end of such 91-day period with respect to this Section 8.02, the Company's obligations in 2.01, 2.02, 2.08, 2.09, 8.04, 8.05 and 8.06 and the rights, powers, trusts, duties and immunities of the Trustee hereunder shall survive such satisfaction and discharge until the Notes are no longer outstanding, and thereafter, the Company's obligations to the Trustee under Section 7.07 shall survive.

After any such irrevocable deposit, this Indenture shall cease to be of any further effect (except as otherwise expressly provided herein) and the Trustee upon request shall acknowledge in writing the discharge of the Company's obligations under the Notes and this Indenture with respect to the Notes except for those surviving obligations in the immediately preceding paragraph.

Section 8.03 Defeasance of Certain Obligations.

Except as otherwise provided for in the Notes, the Company and the Guarantors may omit to comply with any term, provision or condition set forth in Sections 4.03, 4.04, 4.06, 4.08, 4.09, and 5.01 and clause (d) of Section 6.01 and a breach with respect to Sections 4.03, 4.04, 4.06, 4.08, 4.09 and 5.01 and clause (d) of Section 6.01 shall be deemed not to be an Event of Default, in each case with respect to the outstanding Notes, and the Guarantors (including any Subsidiary of the Company who becomes a guarantor under the Credit Agreement subsequent to the date of this Indenture and who otherwise would be required to provide a Subsidiary Guarantee hereunder) shall be deemed to have been discharged from their obligations with respect to all Subsidiary Guarantees if:

(a) with reference to this Section 8.03, the Company has irrevocably deposited or caused to be irrevocably deposited with the Trustee (or another trustee satisfying the requirements of Section 7.10) and conveyed all right, title and interest to the Trustee for the benefit of the Holders of Notes, under the terms of an irrevocable trust agreement in form and substance satisfactory to the Trustee as trust funds in trust, specifically pledged to the Trustee for the benefit of such Holders of Notes for payment of the principal of and interest, if any, on the Notes, and dedicated solely to, the benefit of such Holders, in and to (A) money in an amount, (B) Government Securities that, through the payment of interest and principal in respect thereof in accordance with their terms, will provide, not later than one day before the due date of any payment referred to in this clause (i), money in an amount or (C) a combination thereof in an amount sufficient, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee, to pay and discharge, without consideration of the reinvestment of such interest and after payment of all federal, state and local taxes or other charges and assessments in respect thereof payable by the Trustee, the principal of and interest on the outstanding Notes on the Stated Maturity of such principal or interest; *provided* that the Trustee shall have been irrevocably instructed to apply such money or the proceeds of such Government Securities to the payment of such principal and interest with respect to the Notes;

(b) the Company has delivered to the Trustee an Opinion of Counsel to the effect that the Holders of Notes will not recognize income, gain or loss for United States federal income tax purposes as

a result of such deposit and defeasance of such covenants and Events of Default and will be subject to United States federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred;

(c) immediately after giving effect to such deposit on a pro forma basis, no Default or Event of Default with respect to the Notes shall have occurred and be continuing on the date of such deposit or, insofar as Sections 6.01(f) and 6.01(h) are concerned, to the Company's knowledge, will occur and be continuing at any time during the period ending on the 91st day after such date of such deposit;

(d) if the Notes are then listed on a national Notes exchange, the Company has delivered to the Trustee an Opinion of Counsel to the effect that the Notes will not be delisted as a result of such deposit, defeasance and discharge; and

(e) the Company has delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, in each case stating that all conditions precedent provided for herein relating to the defeasance contemplated by this Section 8.03 have been complied with.

Section 8.04 Application of Trust Money.

Subject to Section 8.06, the Trustee or Paying Agent shall hold in trust money or Government Securities deposited with it pursuant to Section 8.01, 8.02 or 8.03, as the case may be, and shall apply the deposited money and the money from Government Securities in accordance with the Notes and this Indenture to the payment of principal of and interest on the Notes; but such money need not be segregated from other funds except to the extent required by law.

Section 8.05 Repayment to Company.

Subject to Sections 7.08, 8.01, 8.02 and 8.03, the Trustee and the Paying Agent shall promptly pay to the Company upon request set forth in an Officer's Certificate any excess money held by them at any time and thereupon shall be relieved from all liability with respect to such money. The Trustee and the Paying Agent shall pay to the Company upon request any money held by them with respect to the Notes for the payment of principal or interest that remains unclaimed for two years; *provided* that the Trustee or Paying Agent before being required to make any payment may cause to be published at the expense of the Company once in a newspaper of general circulation in The City of New York or mail to each Holder of Notes entitled to such money at such Holder's address (as set forth in the Note Register) notice that such money remains unclaimed and that after a date specified therein (which shall be at least 30 days from the date of such publication or mailing) any unclaimed balance of such money then remaining will be repaid to the Company. After payment to the Company, Holders of Notes entitled to such money must look to the Company or the Guarantors, as the case may be, for payment as general creditors unless an applicable law designates another Person, and all liability of the Trustee and such Paying Agent with respect to such money shall cease.

Section 8.06 Reinstatement.

If the Trustee or Paying Agent is unable to apply any money or Government Securities in accordance with Section 8.01, 8.02 or 8.03, as the case may be, by reason of any legal proceeding or by reason of any order or judgment of any court or governmental authority enjoining, restraining or otherwise prohibiting such application, the Company's obligations under this Indenture and the Notes shall be revived and reinstated as though no deposit had occurred pursuant to Section 8.01, 8.02 or 8.03, as the case may be, until such time as the Trustee or Paying Agent is permitted to apply all such money or

Government Securities in accordance with Section 8.01, 8.02 or 8.03, as the case may be; *provided* that, if the Company has made any payment of principal of or interest on any Notes because of the reinstatement of its obligations, the Company shall be subrogated to the rights of the Holders of such Notes to receive such payment from the money or Government Securities held by the Trustee or Paying Agent.

ARTICLE 9

AMENDMENT, SUPPLEMENT AND WAIVER

Section 9.01 Without Consent of Holders of Notes.

Notwithstanding Section 9.02, the Company, each of the Guarantors (except no existing Guarantor need execute a supplemental indenture with respect to clause (g) below) and the Trustee may amend or supplement this Indenture, the Notes or any Subsidiary Guarantee without notice to or the consent of any Holder:

(a) to cure any ambiguity, defect, inconsistency, omission or mistake;

(b) to comply with Article 5;

(c) to evidence and provide for the acceptance of appointment hereunder by a successor trustee;

(d) to provide for uncertificated Notes in addition to or in place of certificated Notes;

(e) to add to the covenants of the Company for the protection of the Holders of Notes, to add any additional Events of Default with respect to the Notes, or to surrender any right or power conferred upon the Company;

(f) to convey, transfer, assign, mortgage or pledge to the Trustee as security for the Notes any property or assets;

(g) to allow any Guarantor to execute a supplemental indenture in respect of a Subsidiary Guarantee;

(h) to release Guarantors in compliance with Section 10.05;

(i) to secure the Notes, including pursuant to the requirements of Section 4.03;

(j) to conform this text of this Indenture, the Notes or any Subsidiary Guarantee to any provision of the "Description of Notes" section of the Offering Memorandum to the extent that the Trustee has received an Officer's Certificate stating that such text constitutes an unintended conflict with the corresponding provision in such "Description of Notes";

(k) to comply with requirements of any securities depository with respect to the notes;

(l) to establish the terms of Notes as permitted by Section 3.01;

(m) to make any change that, in the good faith opinion of the Board of Directors of the Company, does not materially and adversely affect the rights of any Holder;

(n) to provide for the assumption of the Company's or a Guarantor's obligations to holders of the Notes and Subsidiary Guarantees in the case of a merger or consolidation or sale of all or substantially all of the Company's or such Guarantor's assets, as applicable; or

(o) to provide for or confirm the issuance of Additional Notes otherwise permitted to be incurred by this Indenture.

Section 9.02 With Consent of Holders of Notes.

Subject to Sections 6.04 and 6.07 and without prior notice to the Holders, the Company, each of the Guarantors and the Trustee may amend or supplement this Indenture and the Notes with the written consent of the Holders of a majority in principal amount of the Notes then outstanding (voting as one class), and the Holders of a majority in principal amount of the Notes then outstanding (voting as one class) by written notice to the Trustee may waive future compliance by the Company with any provision of this Indenture or the Notes.

Notwithstanding the provisions of this Section 9.02, without the consent of each Holder affected, an amendment, supplement or waiver, including a waiver pursuant to Section 6.04, may not:

(a) extend the Stated Maturity of the principal of, or any installment of principal or interest on, any Note;

(b) reduce the principal amount of or rate of interest on any Note, or any amount payable upon redemption thereof, except as provided in this Indenture or the Notes;

(c) change any place or currency of payment of principal of or interest on any Note;

(d) impair the right to institute suit for the enforcement of any payment on or after the Stated Maturity on any Note;

(e) reduce the percentage or principal amount of outstanding Notes the consent of whose Holders is necessary to modify or amend this Indenture or to waive compliance with certain provisions of or certain Defaults under this Indenture;

(f) waive an uncured default in the payment of principal of or interest on any Note; or

(g) modify any of the provisions of this Section 9.02, except to increase any such percentage or to provide that certain other provisions of this Indenture cannot be modified or waived without the consent of the Holder of each outstanding Note affected thereby.

It shall not be necessary for the consent of the Holders under this Section 9.02 to approve the particular form of any proposed amendment, supplement or waiver, but it shall be sufficient if such consent approves the substance thereof.

After an amendment, supplement or waiver under this Section 9.02 becomes effective, the Company shall mail to the Holders affected thereby a notice briefly describing the amendment, supplement or waiver. The Company will mail supplemental indentures to Holders upon request. Any failure of the Company to mail such notice, or any defect therein, shall not, however, in any way impair or affect the validity of any such supplemental indenture or waiver.

Section 9.03 Action by Holders; Record Dates.

Whenever in this Indenture it is provided that the Holders of a specified principal amount of the outstanding Notes may take any action (including the making of any demand or request, the giving of any notice, consent or waiver or the taking of any other action), the fact that at the time of taking any such action the Holders of such specified amount have joined therein may be evidenced (a) by any instrument or any number of instruments of similar tenor executed by such Holders in person or by agent or proxy appointed in writing, or (b) the record of the Holders voting in favor thereof at any meeting of the Holders duly called, or (c) any combination of such instrument or instruments and any such record of such a meeting of the Holders.

Subject to the provisions of Sections 7.02 and 12.06, proof of the execution of any instrument by a Holder or its agent or proxy shall be sufficient if the ownership of the Notes shall be proved by (a) the Note Register or by a certificate of the Registrar; or (b) in accordance with such reasonable rules and regulations as may be prescribed by the Trustee or in any other manner which the Trustee may deem sufficient.

The Company may, but shall not be obligated to, fix a record date for the purpose of determining the Holders entitled to consent to any amendment, supplement or waiver. If a record date is fixed, then, notwithstanding the first paragraph of this Section 9.03, those Persons who were Holders at such record date (or their duly designated proxies) and only those Persons shall be entitled to consent to such amendment, supplement or waiver or to revoke any consent previously given, whether or not such Persons continue to be Holders after such record date. No such consent shall be valid or effective for more than 90 days after such record date.

After an amendment, supplement or waiver becomes effective, it shall bind every Holder of Notes unless it is of the type described in the second paragraph of Section 9.02. In case of an amendment or waiver of the type described in the second paragraph of Section 9.02, the amendment or waiver shall bind each Holder who has consented to it and every subsequent Holder of a Note that evidences the same indebtedness as the Note of the consenting Holder.

Section 9.04 Revocation and Effect of Consents.

Until an amendment, supplement or waiver becomes effective, a consent to it by a Holder is a continuing consent by the Holder and every subsequent Holder of a Note or portion of a Note that evidences the same debt as the Note of the consenting Holder, even if notation of the consent is not made on any Note. However, any such Holder or subsequent Holder may revoke the consent as to its Note or portion of its Note. Such revocation shall be effective only if the Trustee receives the notice of revocation before the date the amendment, supplement or waiver becomes effective. An amendment, supplement or waiver shall become effective on receipt by the Trustee of written consents from the Holders of the requisite percentage in principal amount of the outstanding Notes.

Section 9.05 Notation on or Exchange of Notes.

If an amendment, supplement or waiver changes the terms of a Note, the Trustee may require the Holder to deliver such Note to the Trustee. At the Company's expense, the Trustee may place an appropriate notation on such Note about the changed terms and return it to the Holder, and the Trustee may place an appropriate notation on any Note thereafter authenticated. Alternatively, if the Company or the Trustee so determines, the Company in exchange for such Note shall issue and the Trustee shall

authenticate a new Note that reflects the changed terms. Failure to make the appropriate notation, or issue a new Note, shall not affect the validity and effect of such amendment, supplement or waiver.

Section 9.06 Trustee to Sign Amendments, etc.

The Trustee shall be provided with, and shall be fully protected in relying upon, an Officer's Certificate and an Opinion of Counsel stating that the execution of any amendment, supplement or waiver authorized pursuant to this Article Nine is authorized or permitted by this Indenture and that it will be valid and binding upon the Company, subject to customary exceptions. Subject to the preceding sentence, the Trustee shall sign such amendment, supplement or waiver if the same does not adversely affect the rights, duties, liabilities or immunities of the Trustee. The Trustee may, but shall not be obligated to, execute any such amendment, supplement or waiver that affects the Trustee's own rights, duties or immunities under this Indenture or otherwise.

ARTICLE 10

SUBSIDIARY GUARANTEE

Section 10.01 Subsidiary Guarantees.

Subject to this Article 10, each of the Guarantors hereby agrees, jointly and severally, to unconditionally guarantee to each Holder of a Note authenticated and delivered by the Trustee and to the Trustee and its successors and assigns, irrespective of the validity and enforceability of this Indenture, the Notes or the obligations of the Company hereunder or thereunder, that: (a) the principal of and interest on the Notes will be promptly paid in full when due, whether at Stated Maturity, by acceleration, redemption, purchase or otherwise, and (b) all other obligations of the Company to the Holders or the Trustee under this Indenture and the Notes will be fully and punctually performed within the grace period set forth in Section 6.01(d), if applicable. Failing payment when due of any amount so guaranteed or any performance so guaranteed for whatever reason, the Guarantors shall be jointly and severally obligated to pay the same immediately. Each Guarantor agrees that this is a guarantee of payment and not a guarantee of collection.

The Guarantors hereby agree that their obligations hereunder shall be unconditional, irrespective of the validity, regularity or enforceability of the Notes or this Indenture, the absence of any action to enforce the same, any waiver or consent by any Holder of the Notes with respect to any provisions hereof or thereof, the recovery of any judgment against the Company, any action to enforce the same or any other circumstance which might otherwise constitute a legal or equitable discharge or defense of a guarantor. Each Guarantor hereby waives diligence, presentment, demand of payment, filing of claims with a court in the event of insolvency or bankruptcy of the Company, any right to require a proceeding first against the Company, protest, notice and all demands whatsoever and covenant that this Subsidiary Guarantee shall not be discharged except by complete performance of the obligations contained in the Notes and this Indenture.

If any Holder or the Trustee is required by any court or otherwise to return to the Company, the Guarantors or any custodian, trustee, liquidator or other similar official acting in relation to either the Company or the Guarantors, any amount paid by either to the Trustee or such Holder, this Subsidiary Guarantee, to the extent theretofore discharged, shall be reinstated in full force and effect.

Each Guarantor agrees that it shall not be entitled to any right of subrogation in relation to the Holders of Notes in respect of any obligations guaranteed hereby until payment in full of all obligations

guaranteed hereby. Each Guarantor further agrees that, as between the Guarantors, on the one hand, and the Holders and the Trustee, on the other hand, (x) the maturity of the obligations guaranteed hereby may be accelerated as provided in Article 6 for the purposes of this Subsidiary Guarantee, notwithstanding any stay, injunction or other prohibition preventing such acceleration in respect of the obligations guaranteed hereby, and (y) in the event of any declaration of acceleration of such obligations as provided in Article 6, such obligations (whether or not due and payable) shall forthwith become due and payable by such Guarantor for the purpose of this Subsidiary Guarantee. The Guarantors shall have the right to seek contribution from any non-paying Guarantor so long as the exercise of such right does not impair the rights of the Holders under the Subsidiary Guarantee.

In case any provision of any Subsidiary Guarantee shall be invalid, illegal or unenforceable, the validity, legality, and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

Each payment to be made by a Guarantor in respect of its Subsidiary Guarantee shall be made without set-off, counterclaim, reduction or diminution of any kind or nature.

As used in this Section 10.01, the term "***Trustee***" shall also include each of the Paying Agent, Registrar and Transfer Agent, as applicable.

Section 10.02 Limitation on Guarantors Liability.

Each Guarantor and, by its acceptance of Notes, each Holder hereby confirms that it is the intention of all such parties that the Subsidiary Guarantee of such Guarantor not constitute a fraudulent transfer or conveyance for purposes of any Bankruptcy Law, the Uniform Fraudulent Conveyance Act, the Uniform Fraudulent Transfer Act or any similar federal or state law to the extent applicable to any Subsidiary Guarantee. To effectuate the foregoing intention, the Trustee, the Holders and the Guarantors hereby irrevocably agree that the obligations of such Guarantor will be limited so that, after giving effect to such maximum amount and all other contingent and fixed liabilities of such Guarantor that are relevant under such laws, and after giving effect to any collections from, rights to receive contribution from or payments made by or on behalf of any other Guarantor in respect of the obligations of such other Guarantor under this Article 10, will not result in the obligations of such Guarantor under its Subsidiary Guarantee constituting a fraudulent transfer or conveyance.

Section 10.03 Execution and Delivery of Subsidiary Guarantee.

To evidence its Subsidiary Guarantee set forth in Section 10.01, each Guarantor hereby agrees that the Notes shall bear a notation substantially in the form annexed hereto as Exhibit A stating that such Notes are guaranteed by the Guarantors in accordance with this Article 10 and may be released upon the terms and conditions set forth in this Indenture.

Each Guarantor hereby agrees that its Subsidiary Guarantee set forth in Section 10.01 shall remain in full force and effect notwithstanding any failure to endorse on each Note a notation of such Subsidiary Guarantee.

If an Officer of a Guarantor whose signature is on this Indenture no longer holds that office at the time the Trustee authenticates the Note on which a Subsidiary Guarantee is endorsed, such Subsidiary Guarantee shall be valid nevertheless.

The delivery of any Note by the Trustee, after the authentication thereof hereunder, shall constitute due delivery of the Subsidiary Guarantees set forth in this Indenture on behalf of the Guarantors.

In the event that a Subsidiary of the Company (other than a Guarantor) becomes a guarantor under the Credit Agreement subsequent to the date of this Indenture, the Company shall cause such Subsidiary to become a Guarantor and to execute a supplemental indenture and Subsidiary Guarantee within 10 Business Days of the date when such event occurs.

Section 10.04 Guarantors May Consolidate, etc., on Certain Terms.

Except as otherwise provided in Section 10.05, no Guarantor may consolidate with or merge with or into (unless such Guarantor is the surviving Person) another Person unless:

(a) subject to Section 10.05, the Person formed by or surviving any such consolidation or merger (if other than a Guarantor or the Company) unconditionally assumes all of the obligations of such Guarantor under the Notes and this Indenture pursuant to a supplemental indenture on the terms set forth herein or therein; and

(b) immediately after giving effect to such transaction, no Default or Event of Default shall have occurred and be continuing; *provided*, *however*, that this requirement shall not apply to any consolidation or merger of a Guarantor with or into the Company or another Guarantor.

In case of any such consolidation or merger, and upon the assumption by the successor Person, by supplemental indenture, executed and delivered to the Trustee and satisfactory in form to the Trustee, of the due and punctual performance of all of the covenants and conditions of this Indenture to be performed by the Guarantor, such successor Person shall succeed to and be substituted for the Guarantor with the same effect as if it had been named herein as a Guarantor and such predecessor Guarantor shall be discharged from its obligations under the Notes and this Indenture.

Except as set forth in Articles 4 and 5, and notwithstanding clauses (a) and (b) above, nothing contained in this Indenture or in any of the Notes shall prevent any consolidation or merger of a Guarantor with or into the Company or another Guarantor, or shall prevent any sale or conveyance of the property of a Guarantor as an entirety or substantially as an entirety to the Company or another Guarantor.

Section 10.05 Release.

To the extent that a Guarantor is released as a guarantor under the Credit Agreement or the Credit Agreement is refinanced without such Guarantor being a guarantor under the new credit facility, or in the event the Credit Agreement is otherwise terminated, then such Guarantor (in the event of a termination of the Credit Agreement, all Guarantors) will be automatically and unconditionally released and discharged of any obligations under its Subsidiary Guarantee, without the consent of any Holder:

(a) to the same extent that such Guarantor was released and relieved of any obligations under the Credit Agreement;

(b) concurrently with any direct or indirect sale, issuance, exchange, disposition, conveyance or transfer (by merger or otherwise) of any Equity Interests of such Guarantor following which such Guarantor is no longer a Subsidiary of the Company, or of all or substantially all the assets of such Guarantor (determined on a consolidated basis for such Guarantor and its Subsidiaries), in accordance

with the applicable provisions of this Indenture following which such Guarantor is no longer a Subsidiary of the Company; or

(c) upon the Company exercising its legal defeasance or covenant defeasance options pursuant to Section 8.02 or 8.03 or the Company's obligations under this Indenture being discharged in accordance with Section 8.01 and the Notes.

Upon delivery by the Company to the Trustee of an Officer's Certificate and an Opinion of Counsel to the effect that such release has occurred in accordance with the provisions of this Indenture, the Trustee shall execute any documents reasonably requested by the Company in order to evidence the release of any Guarantor from its obligations under its Subsidiary Guarantee.

Any Guarantor not released from its obligations under its Subsidiary Guarantee shall remain liable for the full amount of the principal of and interest on the Notes and for the other obligations of any Guarantor under this Indenture as provided in this Article 10.

Section 10.06 Benefits Acknowledged.

Each Guarantor acknowledges that it will receive direct and indirect benefits from the financing arrangements contemplated by this Indenture, that it has received adequate value and fair consideration and that the Guarantee and waivers made by it pursuant to its Subsidiary Guarantee are knowingly made in contemplation of such benefits.

ARTICLE 11

[RESERVED]

ARTICLE 12

MISCELLANEOUS

Section 12.01 [Reserved].

Section 12.02 Notices.

Any notice or communication by the Company or the Trustee to the other is duly given if in writing and delivered in person or mailed by first class mail (registered or certified, return receipt requested), facsimile transmission or overnight air courier guaranteeing next-day delivery, to the other's address:

If to the Company:

Molina Healthcare, Inc.
200 Oceangate, Suite 100
Long Beach, CA 90802
Attention: Joseph W. White, Chief Financial Officer
Telecopier No.: (562) 499-0612

If to the Trustee:

U.S. Bank National Association
633 West Fifth Street, 24th Floor
Los Angeles, CA 90071
Attention: Paula Oswald
Telecopier No.: (213) 615-6197

The Company or the Trustee, by notice to the other, may designate additional or different addresses for subsequent notices or communications.

All notices and communications (other than those sent to the Trustee) shall be deemed to have been duly given: at the time delivered by hand, if personally delivered; five Business Days after being deposited in the mail, postage prepaid, if mailed; when receipt acknowledged, if sent by facsimile transmission; and the next Business Day after timely delivery to the courier, if sent by overnight air courier guaranteeing next-day delivery. All notices and communications to the Trustee shall be deemed duly given and effective only upon receipt.

Any notice or communication to a Holder shall be mailed by first class mail, certified or registered, return receipt requested, or by overnight air courier guaranteeing next-day delivery to its address shown on the Note Register or, if required or permitted by Section 3.03 or 3.08(c), by electronic transmission.

Failure to mail a notice or communication to a Holder or any defect in it shall not affect its sufficiency with respect to other Holders.

If a notice or communication is mailed or delivered in the manner provided above within the time prescribed, it is duly given, whether or not the addressee receives it.

If the Company sends a notice or communication to Holders, it shall mail a copy to the Trustee and each Agent at the same time.

The Trustee agrees to accept and act upon instructions or directions pursuant to this Indenture sent by unsecured e-mail, pdf, facsimile transmission or other similar unsecured electronic methods, *provided*, *however*, that the Trustee shall have received an incumbency certificate listing persons designated to give such instructions or directions and containing specimen signatures of such designated persons, which such incumbency certificate shall be amended and replaced whenever a person is to be added or deleted from the listing. If the Company elects to give the Trustee e-mail or facsimile instructions (or instructions by a similar electronic method) and the Trustee in its discretion elects to act upon such instructions, the Trustee's understanding of such instructions shall be deemed controlling. The Trustee shall not be liable for any losses, costs or expenses arising directly or indirectly from the Trustee's reliance upon and compliance with such instructions notwithstanding such instructions conflict with or are inconsistent with a subsequent written instruction. The Company agrees to assume all risks arising out of the use of such electronic methods to submit instructions and directions to the Trustee, including without limitation the risk of the Trustee acting on unauthorized instructions, and the risk or interception and misuse by third parties.

Notwithstanding any other provision of this Indenture or any Note, where this Indenture or any Note provides for notice of any event (including any notice of redemption or purchase) to a Holder of a Global Note (whether by mail or otherwise), such notice shall be sufficiently given if given to DTC (or its designee) pursuant to the standing instructions from DTC or its designee.

Section 12.03 Communication by Holders of Notes with Other Holders of Notes.

Holders may communicate pursuant to TIA § 312(b) with other Holders with respect to their rights under this Indenture or the Notes. The Company, the Trustee, the Note Registrar and anyone else shall have the protection of TIA § 312(c).

Section 12.04 Certificate and Opinion as to Conditions Precedent.

Upon any request or application by the Company to the Trustee to take any action under any provision of this Indenture, the Company shall furnish to the Trustee:

(a) an Officer's Certificate in form reasonably satisfactory to the Trustee (which shall include the statements set forth in Section 12.05 hereof) stating that, in the opinion of the signer, all conditions precedent and covenants, if any, provided for in this Indenture relating to the proposed action have been complied with; and

(b) an Opinion of Counsel in form reasonably satisfactory to the Trustee (which shall include the statements set forth in Section 12.05 hereof) stating that, in the opinion of such counsel, all such conditions precedent and covenants have been complied with.

Section 12.05 Statements Required in Certificate or Opinion.

Each certificate or opinion with respect to compliance with a condition or covenant provided for in this Indenture (other than a certificate provided pursuant to TIA § 314(a)(4)) shall comply with the provisions of TIA § 314(e) and shall include:

(a) a statement that the Person making such certificate or opinion has read such covenant or condition;

(b) a brief statement as to the nature and scope of the examination or investigation upon which the statements or opinions contained in such certificate or opinion are based;

(c) a statement that, in the opinion of such Person, he or she has made such examination or investigation as is necessary to enable such Person to express an informed opinion as to whether or not such covenant or condition has been complied with; and

(d) a statement as to whether or not, in the opinion of such Person, such condition or covenant has been complied with.

With respect to matters of fact, an Opinion of Counsel may rely on an Officer's Certificate, certificates of public officials or reports or opinions of experts.

Section 12.06 Rules by Trustee and Agents.

The Trustee may make reasonable rules for action by or at a meeting of Holders. The Note Registrar or Paying Agent may make reasonable rules and set reasonable requirements for its functions.

Section 12.07 No Personal Liability of Directors, Officers, Incorporators, Employees or Stockholders.

None of the Company's nor its Subsidiaries' directors, officers, employees, incorporators, members, partners or stockholders, as such, shall have any liability for any obligations of the Company or the Guarantors under the Notes, this Indenture, the Subsidiary Guarantees, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes.

Section 12.08 Governing Law.

THE LAWS OF THE STATE OF NEW YORK SHALL GOVERN AND BE USED TO CONSTRUE THIS INDENTURE AND THE NOTES WITHOUT GIVING EFFECT TO APPLICABLE PRINCIPLES OF CONFLICTS OF LAW TO THE EXTENT THAT THE APPLICATION OF THE LAWS OF ANOTHER JURISDICTION WOULD BE REQUIRED THEREBY.

Section 12.09 No Adverse Interpretation of Other Agreements.

This Indenture may not be used to interpret any other indenture, loan or debt agreement of the Company or its Subsidiaries or of any other Person. Any such indenture, loan or debt agreement may not be used to interpret this Indenture.

Section 12.10 Successors.

All covenants and agreements of the Company in this Indenture and the Notes shall bind its successors. All covenants and agreements of the Trustee in this Indenture shall bind its successors.

Section 12.11 Severability.

In case any provision in this Indenture or in the Notes shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

Section 12.12 Counterpart Originals.

The parties may sign any number of copies of this Indenture. The exchange of copies of this Indenture and of signature pages by facsimile or pdf transmission shall constitute effective execution and delivery of this Indenture as to the parties hereto. Each signed copy shall be an original, but all of them together shall represent one and the same agreement.

Section 12.13 Table of Contents, Headings, etc.

The Table of Contents, Cross-Reference Table and Headings in this Indenture have been inserted for convenience of reference only, are not to be considered a part of this Indenture and shall in no way modify or restrict any of the terms or provisions hereof.

Section 12.14 [Reserved].

Section 12.15 Waiver of Jury Trial.

EACH OF THE COMPANY, THE GUARANTORS AND THE TRUSTEE HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY LEGAL PROCEEDING ARISING OUT OF OR RELATING TO THIS INDENTURE, THE NOTES OR THE TRANSACTION CONTEMPLATED HEREBY.

Section 12.16 Force Majeure.

In no event shall the Trustee be responsible or liable for any failure or delay in the performance of its obligations hereunder arising out of or caused by, directly or indirectly, forces beyond its control, including, without limitation, strikes, work stoppages, accidents, acts of war or terrorism, civil or military disturbances, nuclear or natural catastrophes or acts of God, and interruptions, loss or malfunctions of utilities, communications or computer (software and hardware) services; it being understood that the Trustee shall use reasonable efforts which are consistent with accepted practices in the banking industry to resume performance as soon as practicable under the circumstances.

Section 12.17 USA Patriot Act.

The parties hereto acknowledge that in accordance with Section 326 of the USA Patriot Act, the Trustee, like all financial institutions and in order to help fight the funding of terrorism and money laundering, is required to obtain, verify, and record information that identifies each person or legal entity that establishes a relationship or opens an account with the Trustee. The parties to this Indenture agree that they will provide the Trustee with such information as it may request in order for the Trustee to satisfy the requirements of the USA Patriot Act.

[Signatures on following page]

IN WITNESS WHEREOF, the parties have caused this Indenture to be duly executed.

PROVISIONS RELATING TO INITIAL NOTES

1. Definitions

1.1 Definitions.

For the purposes of this Appendix the following terms shall have the meanings indicated below:

"Certificated Note" means a certificated Initial Note (other than a Global Note) bearing, if required, the restricted notes legend set forth in Section 2.2(e) of this Appendix.

"Distribution Compliance Period," with respect to any Notes, means the period of 40 consecutive days beginning on and including the later of (i) the day on which such Notes are first offered to Persons other than distributors (as defined in Regulation S under the Securities Act) in reliance on Regulation S and (ii) the issue date with respect to such Notes.

"Notes Custodian" means the custodian with respect to a Global Note (as appointed by the Depositary), or any successor Person thereto and shall initially be the Trustee.

"Purchase Agreement" means (1) with respect to the Initial Notes issued on the Issue Date, the Purchase Agreement dated May 22, 2017, among the Company, the Guarantors and SunTrust Robinson Humphrey, Inc., as representative of the Initial Purchasers, and (2) with respect to each issuance of Additional Notes, the purchase agreement or underwriting agreement among the Company, the Guarantors and the Persons purchasing such Additional Notes.

"QIB" means a "qualified institutional buyer" as defined in Rule 144A.

"Transfer Restricted Notes" means Notes that bear or are required to bear the legend relating to restrictions on transfer relating to the Securities Act set forth in Section 2.2(e) hereto.

1.2 Other Definitions.

Term	Defined in Section
"Agent Members"	2.1(b)
"Clearstream"	2.1(a)
"Euroclear"	2.1(a)
"Global Notes"	2.1(a)
"Regulation S"	2.1(a)
"Regulation S Global Note"	2.1(a)
"Rule 144A"	2.1(a)
"Rule 144A Global Note"	2.1(a)

1.3 Capitalized terms used in this Appendix, but not defined, have the meanings ascribed to such terms in the Indenture to which this Appendix is attached.

2. The Notes.

2.1 (a) Form and Dating. The Initial Notes shall be offered and sold by the Company pursuant to a Purchase Agreement. The Initial Notes shall be resold initially only to (i) QIBs in reliance on Rule 144A under the Securities Act ("Rule 144A") and (ii) Persons other than U.S. Persons (as defined in Regulation S) in reliance on Regulation S under the Securities Act ("Regulation S"). Initial Notes may thereafter be transferred to, among others, QIBs and purchasers in reliance on Regulation S, subject to the restrictions on transfer set forth herein. Initial Notes initially resold pursuant to Rule 144A shall be issued initially in the form of one or more permanent global Notes in definitive, fully registered form (collectively, the "Rule 144A Global Note"); and Initial Notes initially resold pursuant to Regulation S shall be issued initially in the form of one or more global Notes in fully registered form (collectively, the "Regulation S Global Note"), in each case without interest coupons and with the global Notes legend and the restricted notes legend set forth in Exhibit 1 hereto, which shall be deposited on behalf of the purchasers of the Initial Notes represented thereby with the Notes Custodian and registered in the name of the Depositary or a nominee of the Depositary, duly executed by the Company and authenticated by the Trustee as provided in the Indenture. Except as set forth in the immediately succeeding paragraph, beneficial ownership interests in the Regulation S Global Note shall be held only through the Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear") and Clearstream Banking S.A. ("Clearstream") (as indirect participants in the Depositary) and shall not be exchangeable for interests in the Rule 144A Global Note or any other Note prior to the expiration of the Distribution Compliance Period and then, after the expiration of the Distribution Compliance Period, may be exchanged for interests in a Rule 144A Global Note only upon certification in the form attached hereto as Exhibit 3 or otherwise in a form reasonably satisfactory to the Trustee that beneficial ownership interests in such Regulation S Global Note are owned either by non-U.S. persons or U.S. persons who purchased such interests in a transaction that is exempt from the registration requirements under the Securities Act.

Prior to the expiration of the Distribution Compliance Period, beneficial interests in Regulation S Global Notes may be exchanged for interests in Rule 144A Global Notes if (1) such exchange occurs in connection with a transfer of Notes in compliance with Rule 144A and (2) the transferor of the beneficial interest in the Regulation S Global Note first delivers to the Trustee a written certificate (in a form substantially similar to that attached hereto as Exhibit 2) to the effect that the beneficial interest in the Regulation S Global Note is being transferred (a) to a Person who the transferor reasonably believes to be a QIB that is purchasing for its own account or the account of a QIB in a transaction meeting the requirements of Rule 144A, and (b) in accordance with all applicable securities laws of the States of the United States and other jurisdictions.

Beneficial interests in a Rule 144A Global Note may be transferred to a Person who takes delivery in the form of an interest in a Regulation S Global Note, whether before or after the expiration of the Distribution Compliance Period, subject to Applicable Procedures, only if the transferor first delivers to the Trustee a written certificate (in a form substantially similar to that attached hereto as Exhibit 2) to the effect that such transfer is being made in accordance with Rule 903 or 904 of Regulation S or Rule 144 (if applicable).

The Rule 144A Global Note and the Regulation S Global Note are collectively referred to herein as "Global Notes." The aggregate principal amount of the Global Notes may from time to time be increased or decreased by adjustments made on the records of the Trustee and the Depositary or its nominee as hereinafter provided.

(b) Book-Entry Provisions. This Section 2.1(b) shall apply only to a Global Note deposited with or on behalf of the Depositary.

The Company shall execute and the Trustee shall, in accordance with this Section 2.1(b), authenticate and deliver initially one or more Global Notes that (a) shall be registered in the name of the Depositary or the nominee of the Depositary and (b) shall be delivered by the Trustee to the Depositary or pursuant to the Depositary's instructions or held by the Trustee as custodian for the Depositary. The Company has entered into a letter of representations with the Depositary in the form provided by the Depositary and the Trustee and each Agent are hereby authorized to act in accordance with such letter and Applicable Procedures.

Members of, or participants in, the Depositary ("Agent Members") shall have no rights under the Indenture with respect to any Global Note held on their behalf by the Depositary or by the Trustee as the custodian of the Depositary or under such Global Note, and the Company, the Trustee and any agent of the Company or the Trustee shall be entitled to treat the Depositary as the absolute owner of such Global Note for all purposes whatsoever. Notwithstanding the foregoing, nothing herein shall prevent the Company, the Trustee or any agent of the Company or the Trustee from giving effect to any written certification, proxy or other authorization furnished by the Depositary or impair, as between the Depositary and its Agent Members, the operation of customary practices of such Depositary governing the exercise of the rights of a holder of a beneficial interest in any Global Note.

(c) Certificated Notes. Except as provided in this Section 2.1, Section 2.2 or 2.3, owners of beneficial interests in Global Notes shall not be entitled to receive physical delivery of Certificated Notes.

2.2 Transfer and Exchange.

(a) Transfer and Exchange of Certificated Notes. When Certificated Notes are presented to the Note Registrar with a request:

(x) to register the transfer of such Certificated Notes; or

(y) to exchange such Certificated Notes for an equal principal amount of Certificated Notes of other authorized denominations,

the Note Registrar shall register the transfer or make the exchange as requested if its reasonable requirements for such transaction are met; *provided*, *however*, that the Certificated Notes surrendered for transfer or exchange:

(i) shall be duly endorsed or accompanied by a written instrument of transfer in form reasonably satisfactory to the Company and the Note Registrar, duly executed by the Holder thereof or its attorney duly authorized in writing; and

(ii) if such Certificated Notes are required to bear a restricted notes legend, they are being transferred or exchanged pursuant to an effective registration statement under the Securities Act, pursuant to Section 2.2(b) or pursuant to clause (A), (B) or (C) below, and are accompanied by the following additional information and documents, as applicable:

(A) if such Certificated Notes are being delivered to the Note Registrar by a Holder for registration in the name of such Holder, without transfer, a certification from such Holder to that effect; or

(B) if such Certificated Notes are being transferred to the Company, a certification to that effect; or

(C) if such Certificated Notes are being transferred (x) pursuant to an exemption from registration in accordance with Rule 144A, Regulation S or Rule 144 under the Securities Act; or (y) in reliance upon another exemption from the requirements of the Securities Act: (i) a certification to that effect (in the form set forth on the reverse of the Note) and (ii) if the Company so requests, an Opinion of Counsel or other evidence reasonably satisfactory to the Company as to the compliance with the restrictions set forth in the legend set forth in Section 2.2(e)(i).

(b) Restrictions on Transfer of a Certificated Note for a Beneficial Interest in a Global Note. A Certificated Note may not be exchanged for a beneficial interest in a Rule 144A Global Note or a Regulation S Global Note except upon satisfaction of the requirements set forth below. Upon receipt by the Trustee of a Certificated Note, duly endorsed or accompanied by appropriate instruments of transfer, in form satisfactory to the Trustee, together with:

(i) certification, in a form substantially similar to that attached hereto as Exhibit 2, that such Certificated Note is either (A) being transferred to a QIB in accordance with Rule 144A or (B) being transferred after expiration of the Distribution Compliance Period by a Person who initially purchased such Note in reliance on Regulation S to a buyer who elects to hold its interest in such Note in the form of a beneficial interest in the Regulation S Global Note; and

(ii) written instructions directing the Trustee to make, or to direct the Notes Custodian to make, an adjustment on its books and records with respect to such Rule 144A Global Note (in the case of a transfer pursuant to clause (b)(i)(A)) or Regulation S Global Note (in the case of a transfer pursuant to clause (b)(i)(B)) to reflect an increase in the aggregate principal amount of the Notes represented by the Rule 144A Global Note or Regulation S Global Note, as applicable, such instructions to contain information regarding the Depositary account to be credited with such increase,

then the Trustee shall cancel such Certificated Note and cause, or direct the Notes Custodian to cause, in accordance with the standing instructions and procedures existing between the Depositary and the Notes Custodian, the aggregate principal amount of Notes represented by the Rule 144A Global Note or Regulation S Global Note, as applicable, to be increased by the aggregate principal amount of the Certificated Note to be exchanged and shall credit or cause to be credited to the account of the Person specified in such instructions a beneficial interest in the Rule 144A Global Note or Regulation S Global Note, as applicable, equal to the principal amount of the Certificated Note so cancelled. If no Rule 144A Global Notes or Regulation S Global Notes, as applicable, are then outstanding, the Company shall issue and the Trustee shall authenticate, upon receipt of a Company Order, a new Rule 144A Global Note or Regulation S Global Note, as applicable, in the appropriate principal amount.

(c) Transfer and Exchange of Global Notes.

(i) The transfer and exchange of Global Notes or beneficial interests therein shall be effected through the Depositary, in accordance with the Indenture (including applicable restrictions on transfer set forth herein, if any) and the procedures of the Depositary therefor. A transferor of a beneficial interest in a Global Note shall deliver to the Note Registrar a written order given in accordance with the Depositary's procedures containing information regarding the participant account of the Depositary to be credited with a beneficial interest in the Global Note. The Note Registrar shall, in accordance with such instructions instruct the Depositary to credit to the account of the Person specified in such instructions a

beneficial interest in the Global Note and to debit the account of the Person making the transfer the beneficial interest in the Global Note being transferred.

(ii) If the proposed transfer is a transfer of a beneficial interest in one Global Note to a beneficial interest in another Global Note, the Note Registrar shall reflect on its books and records the date and an increase in the principal amount of the Global Note to which such interest is being transferred in an amount equal to the principal amount of the interest to be so transferred, and the Note Registrar shall reflect on its books and records the date and a corresponding decrease in the principal amount of the Global Note from which such interest is being transferred.

(iii) Notwithstanding any other provisions of this Appendix (other than the provisions set forth in Section 2.3), a Global Note may not be transferred as a whole except by the Depositary to a nominee of the Depositary or by a nominee of the Depositary to the Depositary or another nominee of the Depositary or by the Depositary or any such nominee to a successor Depositary or a nominee of such successor Depositary.

(iv) In the event that a Global Note is exchanged for Certificated Notes pursuant to Section 2.3 of this Appendix, such Notes may be exchanged only in accordance with such procedures as are substantially consistent with the provisions of this Section 2.2 (including the certification requirements set forth on the reverse of the Initial Notes (as set forth in Exhibit 2, hereto) intended to ensure that such transfers comply with Rule 144A, Regulation S or another applicable exemption under the Securities Act, as the case may be) and such other procedures as may from time to time be adopted by the Company.

(d) Restrictions on Transfer of Regulation S Global Notes. Subject to Section 2.1(a), during the Distribution Compliance Period, beneficial ownership interests in Regulation S Global Notes may only be sold, pledged or transferred in accordance with the Applicable Procedures and only (i) to the Company, (ii) in an offshore transaction in accordance with Regulation S (other than a transaction resulting in an exchange for an interest in another Regulation S Global Note) or (iii) pursuant to an effective registration statement under the Securities Act, in each case in accordance with any applicable securities laws of any State of the United States.

(e) Legend.

(i) Except as permitted by the following paragraph (ii), each Note certificate evidencing the Global Notes (and all Notes issued in exchange therefor or in substitution thereof), in the case of Notes offered otherwise than in reliance on Regulation S shall bear a legend in substantially the following form:

> THIS NOTE (OR ITS PREDECESSOR) WAS ORIGINALLY ISSUED IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND THIS NOTE MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED IN THE ABSENCE OF SUCH REGISTRATION OR AN APPLICABLE EXEMPTION THEREFROM. EACH PURCHASER OF THIS NOTE IS HEREBY NOTIFIED THAT THE SELLER OF THIS NOTE MAY BE RELYING ON THE EXEMPTION FROM THE PROVISIONS OF SECTION 5 OF THE SECURITIES ACT PROVIDED BY RULE 144A THEREUNDER.
>
> THE HOLDER OF THIS NOTE AGREES FOR THE BENEFIT OF THE COMPANY THAT (A) THIS NOTE MAY BE OFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (I) TO THE COMPANY, (II) IN THE UNITED STATES TO A PERSON WHOM THE

SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT) IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A, (III) TO AN INSTITUTIONAL "ACCREDITED INVESTOR" WITHIN THE MEANING OF RULE 501(a) (1), (2), (3), (7) AND (8) UNDER THE SECURITIES ACT THAT IS AN INSTITUTIONAL INVESTOR ACQUIRING THE NOTE FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF SUCH AN INSTITUTIONAL "ACCREDITED INVESTOR," IN EACH CASE IN A MINIMUM PRINCIPAL AMOUNT OF $250,000, (IV) OUTSIDE THE UNITED STATES IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH RULE 904 UNDER THE SECURITIES ACT, (V) PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT PROVIDED BY RULE 144 THEREUNDER (IF AVAILABLE) OR (VI) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT, IN EACH OF CASES (I) THROUGH (VI) IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES, AND (B) THE HOLDER WILL, AND EACH SUBSEQUENT HOLDER IS REQUIRED TO, NOTIFY ANY PURCHASER OF THIS NOTE FROM IT OF THE RESALE RESTRICTIONS REFERRED TO IN (A) ABOVE.

Each certificate evidencing a Note offered in reliance on Regulation S shall, in addition to the foregoing, bear a legend in substantially the following form:

THIS NOTE (OR ITS PREDECESSOR) WAS ORIGINALLY ISSUED IN A TRANSACTION ORIGINALLY EXEMPT FROM REGISTRATION UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND MAY NOT BE TRANSFERRED IN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, ANY U.S. PERSON EXCEPT PURSUANT TO AN AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND ALL APPLICABLE STATE SECURITIES LAWS. TERMS USED ABOVE HAVE THE MEANINGS GIVEN TO THEM IN REGULATION S UNDER THE SECURITIES ACT.

Each Certificated Note shall also bear the following additional legend:

IN CONNECTION WITH ANY TRANSFER, THE HOLDER WILL DELIVER TO THE COMPANY AND THE NOTE REGISTRAR SUCH CERTIFICATES AND OTHER INFORMATION AS THEY MAY REASONABLY REQUIRE TO CONFIRM THAT THE TRANSFER COMPLIES WITH THE FOREGOING RESTRICTIONS.

(ii) Upon any sale or transfer of a Transfer Restricted Note (including any Transfer Restricted Note represented by a Global Note) pursuant to Rule 144 under the Securities Act, the Note Registrar shall permit the transferee thereof to exchange such Transfer Restricted Note for a Certificated Note that does not bear the legend set forth above and rescind any restriction on the transfer of such Transfer Restricted Note, if the transferor thereof certifies in writing to the Note Registrar that such sale or transfer was made in reliance on Rule 144 (such certification to be in the form set forth on the reverse of the Note).

(f) Cancellation or Adjustment of Global Note. At such time as all beneficial interests in a Global Note have been exchanged for Certificated Notes, redeemed, purchased or cancelled, such Global Note shall be returned to the Depositary for cancellation or retained and cancelled by the Trustee. At any time prior to such cancellation, if any beneficial interest in a Global Note is exchanged for Certificated

Notes, redeemed, purchased or cancelled, the principal amount of Notes represented by such Global Note shall be reduced and an adjustment shall be made on the books and records of the Trustee (if it is then the Notes Custodian for such Global Note) with respect to such Global Note, by the Trustee or the Notes Custodian, to reflect such reduction.

(g) No Obligation of the Trustee.

(i) The Trustee shall have no responsibility or obligation to any beneficial owner of a Global Note, a member of, or a participant in the Depositary or other Person with respect to the accuracy of the records of the Depositary or its nominee or of any participant or member thereof, with respect to any ownership interest in the Notes or with respect to the delivery to any participant, member, beneficial owner or other Person (other than the Depositary) of any notice (including any notice of redemption) or the payment of any amount, under or with respect to such Notes. All notices and communications to be given to the Holders and all payments to be made to Holders under the Notes shall be given or made only to or upon the order of the registered Holders (which shall be the Depositary or its nominee in the case of a Global Note). The rights of beneficial owners in any Global Note shall be exercised only through the Depositary subject to the applicable rules and procedures of the Depositary. The Trustee may rely and shall be fully protected in relying upon information furnished by the Depositary with respect to its members, participants and any beneficial owners. Neither the Trustee nor any Agent shall have responsibility for any actions taken or not taken by the Depositary.

(ii) The Trustee shall have no obligation or duty to monitor, determine or inquire as to compliance with any restrictions on transfer imposed under the Indenture or under applicable law with respect to any transfer of any interest in any Note (including any transfers between or among Depositary participants, members or beneficial owners in any Global Note) other than to require delivery of such certificates and other documentation or evidence as are expressly required by, and to do so if and when expressly required by, the terms of the Indenture, and to examine the same to determine substantial compliance as to form with the express requirements hereof.

2.3 Certificated Notes.

(a) A Global Note deposited with the Depositary or with the Trustee as Notes Custodian for the Depositary pursuant to Section 2.1 shall be transferred to the beneficial owners thereof in the form of Certificated Notes in an aggregate principal amount equal to the principal amount of such Global Note, in exchange for such Global Note, only if such transfer complies with Section 2.2 hereof and (i) the Depositary notifies the Company that it is unwilling or unable to continue as depository for such Global Note and the Depositary fails to appoint a successor depository or if at any time such depository ceases to be a “clearing agency” registered under the Exchange Act, in either case, and a successor depository is not appointed by the Company within 90 days of such notice, or (ii) an Event of Default has occurred and is continuing or (iii) the Company, in its sole discretion, notifies the Trustee in writing that it elects to cause the issuance of Certificated Notes under the Indenture (although Regulation S Global Notes at the Company’s election pursuant to this clause may not be exchanged for Certificated Notes prior to (a) the expiration of the Distribution Compliance Period and (b) the receipt of any certificates required under the provisions of Regulation S).

(b) Any Global Note that is transferable to the beneficial owners thereof pursuant to this Section 2.3 shall be surrendered by the Depositary to the Trustee located at its principal corporate trust office to be so transferred, in whole or from time to time in part, without charge, and the Trustee shall authenticate and deliver, upon such transfer of each portion of such Global Note, an equal aggregate

principal amount of Certificated Notes of authorized denominations. Any portion of a Global Note transferred pursuant to this Section 2.3 shall be executed, authenticated and delivered only in minimum denominations of $2,000 principal amount and any integral multiple of $1,000 in excess thereof and registered in such names as the Depositary shall direct. Any Certificated Note delivered in exchange for an interest in the Transfer Restricted Note shall, except as otherwise provided by Section 2.2(e) hereof, bear the restricted notes legend and certificated notes legend set forth in Exhibit 1 hereto.

(c) Subject to the provisions of Section 2.3(b) hereof, the registered Holder of a Global Note shall be entitled to grant proxies and otherwise authorize any Person, including Agent Members and Persons that may hold interests through Agent Members, to take any action which a Holder is entitled to take under the Indenture or the Notes.

(d) In the event of the occurrence of one of the events specified in Section 2.3(a) hereof, the Company shall promptly make available to the Trustee a reasonable supply of Certificated Notes in definitive, fully registered form without interest coupons. In the event that such Certificated Notes are not issued, the Company expressly acknowledges, with respect to the right of any Holder to pursue a remedy pursuant to the Indenture, including, without limitation, pursuant to Section 6.05, the right of any beneficial owner of Notes to pursue such remedy with respect to the portion of the Global Note that represents such beneficial owner's Notes as if such Certificated Notes had been issued.

[FORM OF REVERSE SIDE OF INITIAL NOTE]
4.875% Senior Notes due 2025

Capitalized terms used herein shall have the meanings assigned to them in the Indenture referred to below unless otherwise indicated.

1. ***Interest.*** Molina Healthcare, Inc., a Delaware corporation (the "***Company***"), promises to pay interest on the principal amount of this Note at 4.875% per annum until maturity. The Company shall pay interest semi-annually on June 15 and December 15 of each year, or if any such day is not a Business Day, on the next succeeding Business Day (each an "***Interest Payment Date***") and no interest shall accrue on such payment as the result of such delay. Interest shall accrue from the most recent date to which interest has been paid on the Notes (or one or more Predecessor Notes) or, if no interest has been paid, from June 6, 2017. The Company shall pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue principal and premium, if any, from time to time at a rate per annum equal to the rate of interest under the Indenture and this Note; it shall pay interest (including post-petition interest in any proceeding under any Bankruptcy Law) on overdue installments of interest (without regard to any applicable grace periods), from time to time at the same rate to the extent lawful. Interest shall be computed on the basis of a 360-day year of twelve 30-day months.

2. ***Method of Payment.*** The Company shall pay interest on the Notes (except Defaulted Interest) to the Persons in whose name this Note (or one or more Predecessor Notes) is registered at the close of business on the June 1 or December 1 next preceding the Interest Payment Date, even if such Notes are cancelled after such record date and on or before such Interest Payment Date, except as provided in Section 2.14 of the Indenture with respect to Defaulted Interest. The Notes shall be payable as to principal, premium, if any, and interest at the office or agency of the Company maintained for such purpose, or, at the option of the Company, payment of interest may be made by check mailed to the Holders at their addresses set forth in the Note Register; *provided*, *however*, that payment by wire transfer of immediately available funds shall be required with respect to principal of and interest and premium, if any, on, all Global Notes and all other Notes the Holders of which shall have provided wire transfer instructions to the Company or the Paying Agent. Such payment shall be in such coin or currency of the United States of America as at the time of payment is legal tender for payment of public and private debts.

3. ***Paying Agent and Note Registrar.*** Initially, U.S. Bank National Association, the Trustee under the Indenture, shall act as Paying Agent and Note Registrar. The Company may change any Paying Agent or Note Registrar without notice to any Holder. The Company or any of its Consolidated Subsidiaries may act in any such capacity.

4. ***Indenture.*** The Company issued the Notes under an Indenture dated as of June 6, 2017 (the "***Indenture***") among the Company, the Guarantors and the Trustee. The terms of the Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (15 U.S. Code §§ 77aaa-77bbbb). The Notes are subject to all such terms, and Holders are referred to the Indenture and such Act for a statement of such terms. To the extent any provision of this Note conflicts with the express provisions of the Indenture, the provisions of the Indenture shall govern and be controlling.

5. ***Optional Redemption.***

(a) Except pursuant to clauses (b), (c) and (d) of this paragraph 5, the Notes shall not be redeemable at the option of the Company prior to June 15, 2020.

(b) Prior to June 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon not less than 30 nor more than 60 days' notice, at a Redemption Price equal to 100% of the principal amount of the Notes redeemed, plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, but not including, the Redemption Date (subject to the rights of Holders of Notes on the relevant record date to receive interest due on the relevant interest payment date).

"***Applicable Premium***" means the greater of:

(1) 1.0% of the principal amount of the Notes being redeemed; or

(2) the excess of:

(A) the present value at such Redemption Date of (i) the Redemption Price of the Notes at June 15, 2020 *plus* (ii) all required remaining interest payments due on the Notes through, but not including, June 15, 2020 (excluding accrued but unpaid interest to the Redemption Date), computed using a discount rate equal to the Treasury Rate as of such Redemption Date *plus* 50 basis points; over

(B) the then outstanding principal amount of the Notes.

The Company shall calculate or cause the Applicable Premium to be calculated.

(c) Prior to June 15, 2020, the Company may on any one or more occasions redeem up to 40% of the aggregate principal amount of the Notes (calculated after giving effect to any issuance of Additional Notes), upon not less than 30 nor more than 60 days' notice, with the net cash proceeds of one or more Equity Offerings at a redemption price of 104.875% of the principal amount thereof, plus accrued and unpaid interest, if any, to the Redemption Date (subject to the right of holders of record on the relevant Record Date to receive interest due on the relevant Interest Payment Date); *provided* that (i) at least 60% of the aggregate principal amount of the Notes (calculated after giving effect to any issuance of Additional Notes) originally issued remains outstanding immediately after each such redemption and (ii) the redemption occurs within 180 days after the closing of the related Equity Offering.

(d) On or after June 15, 2020, the Company may on any one or more occasions redeem all or a part of the Notes, upon not less than 30 nor more than 60 days' notice, at the redemption prices (expressed as a percentage of principal amount of the Notes) set forth below, plus accrued and unpaid interest, if any, to, but not including, the Redemption Date (subject to the rights of Holders of Notes on the relevant Record Date to receive interest due on the relevant Interest Payment Date), if redeemed during the twelve-month period beginning on June 15 of the years indicated below:

Year	Percentage
2020	102.438%
2021	101.219%
2022 and thereafter	100.000%

6. ***Mandatory Redemption.*** Except as set forth in Sections 4.08 of the Indenture, the Company shall not be required to make mandatory redemption or sinking fund payments with respect to the Notes.

7. ***Repurchase at Option of Holder.***

(a) Upon the occurrence of a Change of Control, Article 3 and Section 4.08 of the Indenture shall apply to the extent applicable.

8. ***Notice of Redemption.*** Notice of redemption shall be mailed at least 30 days but not more than 60 days before the Redemption Date to each Holder whose Notes are to be redeemed at its registered address. Notes in denominations larger than $2,000 may be redeemed in part but only in integral multiples of $1,000 in excess of $2,000, unless all of the Notes held by a Holder are to be redeemed. Unless the Company defaults in the payment of the Redemption Price, interest shall cease to accrue on the Notes or portions thereof called for redemption on the applicable Redemption Date.

9. ***Denominations, Transfer, Exchange.*** The Notes are in registered form without coupons in minimum denominations of $2,000 and integral multiples of $1,000 in excess of $2,000. The transfer of Notes may be registered and Notes may be exchanged as provided in the Indenture. The Note Registrar and the Trustee may require a Holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a Holder to pay any taxes and fees required by law or permitted by the Indenture. The Company need not exchange or register the transfer of any Note or portion of a Note selected for redemption, except for the unredeemed portion of any Note being redeemed in part. Also, the Company need not exchange or register the transfer of any Notes for a period of 15 days before a selection of Notes to be redeemed or during the period between a Record Date and the corresponding Interest Payment Date.

10. ***Persons Deemed Owners.*** The registered Holder of a Note may be treated as its owner for all purposes.

11. ***Amendment, Supplement and Waiver.*** The Indenture, Notes or Subsidiary Guarantees may be amended or supplemented as provided in the Indenture.

12. ***Defaults and Remedies.*** The Events of Default relating to the Notes are defined in Section 6.01 of the Indenture. If any Event of Default occurs and is continuing, the Trustee or the Holders of at least 25% in aggregate principal amount of the then outstanding Notes may declare the principal, premium, if any, and accrued and unpaid interest of all the outstanding Notes to be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising from certain events of bankruptcy or insolvency described in the Indenture, all outstanding Notes shall become due and payable immediately without further action or notice. Subject to certain limitations, Holders of at least a majority in aggregate principal amount of the then outstanding Notes may direct the Trustee in its exercise of any trust or power.

The Holders of at least a majority in aggregate principal amount of the Notes then outstanding by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default or Event of Default and its consequences under the Indenture, except a continuing Default or Event of Default in the payment of interest on, or the principal of, the Notes, and rescind any acceleration and its consequences with respect to the Notes.

The Company is required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and the Company is required within 30 days of becoming aware of any Default or Event of Default, to deliver to the Trustee a statement specifying such Default or Event of Default.

13. ***Trustee Dealings with Company.*** Subject to certain limitations, the Trustee in its individual or any other capacity may become the owner or pledgee of Notes and may otherwise deal with the Company or any Affiliate of the Company with the same rights it would have if it were not Trustee.

14. ***No Recourse Against Others.*** None of the Company's nor its Subsidiaries' directors, officers, employees, incorporators, members, partners or stockholders, as such, shall have any liability for any obligations of the Company or the Guarantors under the Notes, this Indenture, the Subsidiary Guarantees, or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes.

15. ***Authentication.*** This Note shall not be valid until authenticated by manual signature of the Trustee or an authenticating agent.

16. ***Abbreviations.*** Customary abbreviations may be used in the name of a Holder or an assignee, such as: TEN COM (= tenants in common), TEN ENT (= tenants by the entireties), JT TEN (= joint tenants with right of survivorship and not as tenants in common), CUST (= Custodian), and U/G/M/A (= Uniform Gifts to Minors Act).

17. ***CUSIP and ISIN Numbers.*** The Company has caused CUSIP and ISIN numbers to be printed on the Notes and has directed the Trustee to use CUSIP and ISIN numbers in notices of redemption as a convenience to Holders. No representation is made as to the accuracy of such numbers either as printed on the Notes or as contained in any notice of redemption and reliance may be placed only on the other identification numbers placed thereon.

18. ***Governing Law.*** THE LAWS OF THE STATE OF NEW YORK SHALL GOVERN AND BE USED TO CONSTRUE THIS NOTE WITHOUT GIVING EFFECT TO APPLICABLE PRINCIPALS OF CONFLICTS OF LAW TO THE EXTENT THAT THE APPLICATION OF THE LAWS OF ANOTHER JURISDICTION WOULD BE REQUIRED THEREBY.

The Company shall furnish to any Holder upon written request and without charge a copy of the Indenture. Requests may be made to:

ASSIGNMENT/TRANSFER FORM

To assign and transfer this Note, fill in the form below:

I or we assign and transfer this Note to _____

(Print or type assignee's name, address and zip code)

_____

(Insert assignee's soc. sec. or tax I.D. No.)

and irrevocably appoint _____ agent to transfer this Note on the books of the Company. The agent may substitute another to act for him.

Date: _____ Your Signature: _____

(Sign exactly as your name appears on the other side of this Note.)

In connection with any transfer of this Note occurring prior to the date which is the date following the expiration of the applicable holding period set forth in Rule 144(d) of the Securities Act of 1933, as amended (the "***Securities Act***"), of this Note, the undersigned confirms that it has not utilized any general solicitation or general advertising in connection with such transfer, is making such transfer in accordance with the applicable securities laws of the States of the United States and other jurisdictions and is making such transfer pursuant to one of the following:

CHECK ONE BOX BELOW

☐ (1) to the Company; or

☐ (2) in the United States to a person whom the seller reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) in a transaction meeting the requirements of Rule 144A; or

☐ (3) to an institutional "accredited investor" within the meaning of Rule 501(a) (1), (2), (3), (7) and (8) under the Securities Act that is an institutional investor acquiring the note for its own account or for the account of such an institutional "accredited investor," in each case in a minimum principal amount of $250,000; or

☐ (4) outside the United States in an offshore transaction in accordance with Rule 904 under the Securities Act; or

☐ (5) pursuant to an exemption from registration under the Securities Act provided by Rule 144 thereunder (if available); or

☐ (6) pursuant to an effective registration statement under the Securities Act.

Unless one of the boxes is checked, the Trustee shall refuse to register the Note evidenced by this certificate in the name of any person other than the registered holder thereof; *provided*, *however*, that if box (5) is checked, the Trustee shall be entitled to require, prior to registering any such transfer of this Note, such legal opinions, certifications and other information as the Company have reasonably requested to confirm that such transfer is being made pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act, such as the exemption provided by Rule 144 under such Act.

Signature

Signature Guarantee:

Signature must be guaranteed

Signature

Signatures must be guaranteed by an "eligible guarantor institution" meeting the requirements of the Note Registrar, which requirements include membership or participation in the Security Transfer Agent Medallion Program ("STAMP") or such other "signature guarantee program" as may be determined by the Note Registrar in addition to, or in substitution for, STAMP, all in accordance with the Securities Exchange Act of 1934, as amended.

TO BE COMPLETED BY PURCHASER IF (2) ABOVE IS CHECKED.

The undersigned represents and warrants that it is purchasing this Note for its own account or an account with respect to which it exercises sole investment discretion and that it and any such account is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act, and is aware that the sale to it is being made in reliance on Rule 144A and acknowledges that it has received such information regarding the Company as the undersigned has requested pursuant to Rule 144A or has determined not to request such information and that it is aware that the transferor is relying upon the undersigned's foregoing representations in order to claim the exemption from registration provided by Rule 144A.

Re: 4.875% Senior Notes due 2025 (the "Notes") of Molina Healthcare, Inc. (the "***Company***")

Reference is hereby made to the Indenture, dated as of June 6, 2017 (as amended and supplemented from time to time, the "***Indenture***"), among the Company, the Guarantors named therein and U.S. Bank National Association, as Trustee. Capitalized terms used but not defined herein shall have the meanings given them in the Indenture.

This is to certify with respect to $_____ principal amount of the Notes that, except as set forth below, we have received in writing, by tested telex or by electronic transmission, from member organizations appearing in our records as persons being entitled to a portion of such principal amount (our "***Member Organizations***") certifications with respect to such portion, that such portion is beneficially owned by (a) non-U.S. person(s) or (b) U.S. person(s) who purchased the portion beneficially owned by such U.S. person(s) in transactions that did not require registration under the Securities Act of 1933, as amended (the "***Act***"). As used in this paragraph the term "U.S. person" has the meaning given to it by Regulation S under the Act.

We further certify:

(i) that we are not making available herewith for exchange (or, if relevant, exercise of any rights or collection of any interest) any portion of the Regulation S Global Note excepted in such certifications; and

(ii) that as of the date hereof we have not received any notification from any of our Member Organizations to the effect that the statements made by such Member Organizations with respect to any portion of the part submitted herewith for exchange (or, if relevant, exercise of any rights or collection of any interest) are no longer true and cannot be relied upon as the date hereof.

We understand that this certification is required in connection with certain securities laws of the United States. In connection therewith, if administrative or legal proceedings are commenced or threatened in connection with which this certification is or would be relevant, we irrevocably authorize you or the Company to produce this certification to any interested party in such proceedings.

Dated: _____, 20__

Yours faithfully,
[Euroclear or Clearstream Luxembourg]

EXHIBIT A

FORM OF NOTATION OF GUARANTEE

For value received, each Guarantor (which term includes any successor Person under the Indenture), jointly and severally, unconditionally guarantees, to the extent set forth in, and subject to the provisions of, the Indenture, dated as of June 6, 2017 (the "***Indenture***"), among Molina Healthcare, Inc., as issuer (the "***Company***"), the Guarantors listed on the signature pages thereto and U.S. Bank National Association, as trustee (the "***Trustee***"), (a) the due and punctual payment of the principal of, premium, if any, and interest on the Notes, whether at maturity, by acceleration, redemption or otherwise, the due and punctual payment of interest on overdue principal and premium, if any, and, to the extent permitted by law, interest and the due and punctual performance of all other obligations of the Company to the Holders or the Trustee all in accordance with the terms of the Indenture and (b) in case of any extension of time of payment or renewal of any Notes or any of such other obligations, that the same will be promptly paid in full when due or performed in accordance with the terms of the extension or renewal, whether at stated maturity, by acceleration or otherwise. The obligations of the Guarantors to the Holders of Notes and to the Trustee pursuant to the Subsidiary Guarantee and the Indenture are expressly set forth in Article 10 of the Indenture and reference is hereby made to the Indenture for the precise terms of the Guarantee. This Subsidiary Guarantee is subject to release as and to the extent set forth in Sections 8.02, 8.03 and 10.05 of the Indenture. Each Holder of a Note, by accepting the same agrees to and shall be bound by such provisions. Capitalized terms used herein and not defined are used herein as so defined in the Indenture.

THIRD AMENDMENT TO CREDIT AGREEMENT

THIS THIRD AMENDMENT TO CREDIT AGREEMENT, dated as of May 19, 2017 (this "Amendment"), is entered into among Molina Healthcare, Inc., a Delaware corporation (the "Borrower"), the Guarantors party hereto, the Lenders party hereto, and SunTrust Bank, in its capacity as Administrative Agent (the "Administrative Agent"). Capitalized terms used herein and not otherwise defined shall have the meanings ascribed thereto in the Credit Agreement (as defined below).

RECITALS

WHEREAS, the Borrower, the Guarantors, the Lenders and the Administrative Agent are parties to that certain Credit Agreement, dated as of June 12, 2015 (as amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement"); and

WHEREAS, the Borrower has requested, and the Required Lenders have agreed, to amend the Credit Agreement as set forth herein.

NOW, THEREFORE, in consideration of the agreements contained herein and in the Credit Agreement, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

AGREEMENT

1. Amendments to the Credit Agreement.

1.1 The definition of Specified Cash in Section 1.1 of the Credit Agreement is amended to read as follows:

"Specified Cash" shall mean cash of the Borrower that constitutes, and Permitted Investments of the Borrower that are made with, the net cash proceeds of Indebtedness permitted to be incurred under Section 7.1 (the "Specified Indebtedness"), that are either (a) subject to customary escrow arrangements between the Borrower and the holders of such Specified Indebtedness prior to their use for one of the following purposes: (i) refinancing, tendering for, or otherwise redeeming or repaying Indebtedness of the Borrower or its Restricted Subsidiaries or (ii) to finance any Permitted Acquisition that has been identified in writing to the Administrative Agent with a closing date that is not later than 365 days after the incurrence of such Specified Indebtedness or (b) held in a segregated account of the Borrower and subject to a covenant in the documentation for such Specified Indebtedness that restricts the use of such cash or Permitted Investments of the Borrower to the limited purpose of (i) refinancing, tendering for, or otherwise redeeming or repaying Indebtedness of the Borrower or its Restricted Subsidiaries or (ii) paying interest on the Specified Indebtedness; provided, that if such cash or Permitted Investments no longer satisfy the conditions in this clause (b), they shall cease to constitute Specified Cash hereunder.

1.2 Section 7.2 of the Credit Agreement is amended to delete the "and" after clause (h), to insert an "and" after clause (i) and to add a new clause (j) to read as follows:

(j) customary escrow arrangements and segregated accounts (to the extent such segregated account is deemed to have incurred an encumbrance in connection with any covenants applicable to the proceeds contained in such segregated account), in each case, permitted by the definition of Specified Cash.

2 . Effectiveness; Conditions Precedent. This Amendment shall be effective as of the date hereof, upon receipt by the Administrative Agent of this Amendment, duly executed by the Borrower, the Guarantors, the Required Lenders and the Administrative Agent.

3. Amendment is a "Loan Document". This Amendment shall be deemed to be, and is, a Loan Document and all references to a "Loan Document" in the Credit Agreement and the other Loan Documents (including, without limitation, all such references in the representations and warranties in the Credit Agreement and the other Loan Documents) shall be deemed to include this Amendment.

4. Representations and Warranties; No Default. Each Loan Party hereby represents and warrants to the Administrative Agent, each Lender, the Swingline Lender and the Issuing Bank that, (a) the representations and warranties of each Loan Party contained in the Credit Agreement, any other Loan Document, or any document furnished at any time under or in connection with the Credit Agreement or any other Loan Document, are true and correct in all material respects (other than any representation and warranty that is expressly qualified by materiality, in which case such representation and warranty is true and correct in all respects) on and as of the date hereof, except to the extent that such representations and warranties specifically refer to an earlier date, in which case they are true and correct in all material respects (other than any representation and warranty that is expressly qualified by materiality, in which case such representation and warranty is true and correct in all respects) as of such earlier date and (b) no Default or Event of Default exists.

5. Reaffirmation of Obligations. Each Loan Party (a) acknowledges and consents to all of the terms and conditions of this Amendment, (b) affirms all of its obligations under the Loan Documents (as amended by this Amendment) and (c) agrees that this Amendment and all documents, agreements and instruments executed in connection with this Amendment do not operate to reduce or discharge such Loan Party's obligations under the Loan Documents (except to the extent such obligations are modified pursuant to this Amendment).

6. No Other Changes. Except as modified hereby, all of the terms and provisions of the Loan Documents shall remain in full force and effect and nothing herein shall limit or waive any right, power or remedy of the Administrative Agent or the Lenders under the Loan Documents.

7. Counterparts; Delivery. This Amendment may be executed in counterparts, and all of said counterparts taken together shall be deemed to constitute one and the same instrument. Delivery of an executed counterpart of a signature page of this Amendment by facsimile transmission or by any other electronic imaging means (including .pdf), shall be effective as delivery of a manually executed counterpart of this Amendment.

8. Fees and Expenses. The Borrower agrees to pay all reasonable out-of-pocket fees and expenses of the Administrative Agent in connection with the preparation, execution and delivery of this Amendment, including without limitation the reasonable fees and expenses of Moore & Van Allen, PLLC, counsel to the Administrative Agent.

9. Governing Law. THIS AMENDMENT AND ANY CLAIMS, CONTROVERSY, DISPUTE OR CAUSE OF ACTION (WHETHER IN CONTRACT OR TORT OR OTHERWISE) BASED UPON, ARISING OUT OF OR RELATING TO THIS AMENDMENT AND THE TRANSACTIONS CONTEMPLATED HEREBY SHALL BE CONSTRUED IN ACCORDANCE WITH AND BE GOVERNED BY THE LAW (WITHOUT GIVING EFFECT TO THE CONFLICT OF LAW PRINCIPLES THEREOF EXCEPT FOR SECTIONS 5-1401 AND 5-1402 OF THE NEW YORK GENERAL OBLIGATIONS LAW) OF THE STATE OF NEW YORK.

[SIGNATURE PAGES FOLLOW]

IN WITNESS WHEREOF, the parties hereto have caused this Third Amendment to Credit Agreement to be duly executed as of the date first above written.

AMENDED AND RESTATED EMPLOYMENT AGREEMENT

This Amended and Restated Employment Agreement (this "**Agreement**") is entered into on June 5, 2017, effective as of May 2, 2017 (the "**Effective Date**"), between Joseph White (the "**Executive**") and Molina Healthcare, Inc. (the "**Employer**").

RECITALS

The Employer desires to establish its right to the services of the Executive in the capacities described below, on the terms and conditions hereinafter set forth, and the Executive is willing to accept such employment on such terms and conditions. The parties hereto have previously entered into an Amended and Restated Change in Control Agreement dated as of December 31, 2009 (the "**Change in Control Agreement**"), which shall continue in effect as modified hereby. The parties hereto have also previously entered into an Employment Agreement dated as of June 14, 2013 (the "**Existing Agreement**"), and this Agreement supersedes the Existing Agreement.

The parties desire to amend and restate the Existing Agreement on the terms set forth below.

NOW, THEREFORE, in consideration of the above premises and the following mutual covenants and conditions, the parties agree as follows:

1. Employment. The Employer shall employ the Executive as its Chief Financial Officer and as its interim President and Chief Executive Officer, and the Executive hereby accepts such employment on the following terms and conditions. The Executive shall serve as the interim President and Chief Executive Officer during the period beginning May 2, 2017 and continuing until the Employer's Board of Directors (the "**Board**") appoints a permanent President and Chief Executive Officer or otherwise removes the Executive from the position of interim President and Chief Executive Officer (such period, the "**Interim CEO Term**"). The Executive understands and agrees that he or she is an at-will employee, and the Executive and the Employer can, and shall have the right to, terminate the employment relationship at any time for any or no reason, with or without notice, and with or without cause, subject to the payment provisions contained in Paragraph 7 of this Agreement. Nothing contained in this Agreement or any other agreement shall alter the at-will relationship. In the event that the Executive ceases to be employed by the Employer for any reason, the Executive shall tender his or her resignation from all positions he or she holds with the Employer, effective on the date his or her employment is terminated.

2. Duties. The Executive shall work for the Employer in a full-time capacity. The Executive shall, during the term of this Agreement, have the duties, responsibilities, powers, and authority customarily associated with the position of Chief Financial Officer. In addition, the Executive shall, during the Interim CEO Term, have the duties, responsibilities, powers, and authority customarily associated with the position of interim President and Chief Executive Officer. During the Interim CEO Term, the Executive shall report to and follow the direction of the Board. Following the expiration of the Interim CEO Term, the Executive, in his position as Chief Financial Officer, shall report to and follow the direction of, the Chief Executive Officer of the Employer. In addition to, or in lieu of, the foregoing, the Executive also shall perform such other and unrelated

services and duties as may be assigned to him from time to time by the Employer. The Executive shall diligently, competently, and faithfully perform all duties, and shall devote his or her entire business time, energy, attention, and skill to the performance of duties for the Employer or its affiliates and will use his or her best efforts to promote the interests of the Employer. Notwithstanding the foregoing, the Executive shall be permitted to (i) engage in charitable and community affairs, and (ii) make direct investments of any character in any non-competing business or businesses and to manage such investments (but not be involved in the day-to-day operations of any such business); provided, in each case, and in the aggregate, that such activities do not interfere with the performance of the Executive's duties hereunder.

3. Executive Loyalty. Except as otherwise permitted by Paragraph 2, the Executive shall devote all of his or her time, attention, knowledge, and skill solely and exclusively to the business and interests of the Employer, and the Employer shall be entitled to all benefits and profits arising from or incident to any and all work, services, and advice of the Executive. The Executive expressly agrees that during the term of this Agreement, he or she shall not engage, directly or indirectly, as a partner, officer, director, member, manager, stockholder, advisor, agent, employee, or in any other form or capacity, in any other business similar to that of the Employer.

4. Term of Employment. This Agreement shall be effective as of the Effective Date and shall continue in effect until terminated in accordance with Paragraph 6, provided that Executive shall only hold the position of interim President and Chief Executive Officer for the Interim CEO Term, and the termination of such Interim CEO Term shall not in and of itself be deemed to constitute a termination of the Executive's employment or termination of his services which would otherwise entitle the Executive to receive any termination compensation or benefits under this Agreement.

5. Compensation.

A. The Employer shall pay the Executive (i) an annual base salary of $650,000 (the "**Base Salary**") with respect to Executive's position as Chief Financial Officer, payable in substantially equal installments in accordance with the Employer's payroll policy from time to time in effect and (ii) during the Interim CEO Term, an additional special salary of $100,000 per month with respect to Executive's position as interim President and Chief Executive Officer. The Executive's Base Salary and monthly special salary shall be subject to any payroll or other deductions as may be required to be made pursuant to law, government order, or by agreement with, or consent of, the Executive. The Compensation Committee of the Board shall review at least annually the Executive's Base Salary for possible increase and may, in its sole discretion and in accordance with applicable rules and regulations of the Securities and Exchange Commission and the New York Stock Exchange, periodically adjust the Executive's Base Salary.

B. The Executive shall be eligible to earn annual performance and/or discretionary bonuses as determined each year at the discretion of the Compensation Committee of the Board. The Executive shall be entitled to participate in all bonus or incentive plans applicable to the senior executives of the Employer. Bonus compensation earned and payable pursuant hereto shall be paid in the calendar year following the fiscal year for which the bonus is earned, and in no event shall such payment be made later than December 31 of such following calendar year.

C. The Executive shall be eligible, at the discretion of the Compensation Committee of the Board, for grants of equity compensation pursuant to an equity compensation agreement. Any equity compensation will be granted under and subject to the terms and conditions of an equity compensation plan of the Employer as then in effect.

D. During the term of this Agreement, the Employer shall include the Executive in any 401(k), deferred compensation, savings plan, life insurance, disability insurance, medical, dental or health insurance, paid time off, and other benefit plans or programs maintained by the Employer for the benefit of its executives. The Executive acknowledges and agrees that certain fringe benefits may be subject to income tax withholding and reporting to the extent required by the Internal Revenue Code of 1986, as amended (the "**Code**").

E. The Employer shall reimburse the Executive for all reasonable and approved business expenses, provided the Executive submits paid receipts or other documentation acceptable to the Employer and as required by the Internal Revenue Service to qualify as ordinary and necessary business expenses under the Code.

F. The Employer and the Executive each acknowledge that amounts paid under this Paragraph 5 are subject to any policy on the recovery of compensation (i.e., a so-called "clawback policy"), as may be adopted by the Employer, and as thereafter amended from time to time, in order to comply with applicable law.

6. Termination. The Executive's services shall terminate upon the first to occur of the following events:

A. Upon the Executive's date of death or the date the Executive is given written notice that he or she has been determined to be disabled by the Board. For purposes of this Agreement, the Executive shall be deemed to be disabled if the Executive, as a result of illness or incapacity, shall be unable to perform substantially his or her required duties for a period of four (4) consecutive months or for any aggregate period of six (6) months in any twelve (12) month period.

B. On the date the Employer provides the Executive with written notice that he or she is being terminated for "Cause." For purposes of this Agreement, the Executive shall be deemed terminated for "**Cause**" if the Employer terminates the Executive after the Executive:

(1) shall be indicted or convicted of, or admitted, plea bargained, or entered a plea of no contest or nolo contendere to, any felony or any other act involving fraud, theft, misappropriation, dishonesty, or embezzlement;

(2) shall have committed intentional acts that materially impair the goodwill or business of the Employer or cause material damage to its property, goodwill, or business;

(3) shall have refused to, or willfully failed to, perform his or her material duties hereunder; or

(4) shall have engaged in conduct that constitutes a breach of any fiduciary duty or duty of loyalty owed to the Employer or its affiliates; or

(5) shall have violated any state or federal securities laws,

provided, however, that to the extent the event giving rise to Cause is susceptible to cure, the Employer shall not terminate the Executive's employment hereunder unless the Executive has not, within thirty (30) days following receipt of notice of termination from the Employer (which notice shall set forth in reasonable detail the specific conduct of the Executive that constitutes Cause and the specific provisions of this Agreement on which the Employer relies) taken all reasonable steps to cure such event giving rise to Cause.

Any voluntary termination by the Executive in anticipation of a termination for Cause under this subparagraph B, or a separation for other than Cause at a time when grounds for termination for Cause exist, shall be deemed a termination for Cause.

C. On the date the Employer terminates the Executive's employment for any reason, other than a reason otherwise set forth in this Paragraph 6.

D. On the date the Executive terminates his or her employment for "Good Reason." For purposes of this Agreement, "**Good Reason**" means:

(1) the assignment to the Executive of any duties materially inconsistent in any respect with Paragraph 2 of this Agreement, or any other action by the Employer that results in a material diminution in the Executive's authority, duties or responsibilities, provided, however, that in no event shall the termination or removal of the Executive from his position as interim President and Chief Executive Officer constitute Good Reason hereunder;

(2) any material diminution in the Executive's Base Salary or bonus opportunity;

(3) any material change in the geographic location of the Executive's principal place of employment; or

(4) any material breach of this Agreement by the Employer.

A termination of employment by the Executive for Good Reason shall be effectuated by giving the Employer written notice ("**Notice of Termination for Good Reason**") of the termination within thirty (30) days of the event constituting Good Reason setting forth in reasonable detail the specific conduct of the Employer that constitutes Good Reason and the specific provisions of this Agreement on which the Executive relies. A termination of employment by the Executive

for Good Reason shall be effective on the thirtieth (30th) day following the date when the Notice of Termination for Good Reason is given, unless the Employer cures the condition or event constituting Good Reason within thirty (30) days following receipt of the Executive's Notice of Termination for Good Reason.

E. On the date the Executive resigns for any reason other than a reason set forth in this Paragraph 6, provided that the Executive shall give the Employer thirty (30) days written notice prior to such date of his or her intention to so resign and provided further, that notwithstanding such notice period, the Employer may elect to terminate the Executive's employment at any time prior to the expiration of such notice period, so long as Employer pays the Executive that which would otherwise be due for the notice period.

7. Compensation Upon Termination.

A. If the Executive's services are terminated for any reason, the Executive shall be entitled to his or her salary through his or her final date of active employment plus any accrued but unused vacation pay. The Executive also shall be entitled to any benefits mandated under the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA) or required under the terms of any death, insurance, or retirement plan, program, or agreement provided by the Employer and to which the Executive is a party or in which the Executive is a participant, including, but not limited to, any short-term or long-term disability plan or program, if applicable.

B. If the Executive's services are terminated pursuant to Paragraph 6C or 6D other than within twelve (12) months following a Change in Control Event (as defined in Paragraph 7C below), and the Executive complies with the release requirements set forth in Paragraph 7E, the Executive shall be entitled to receive, in addition to the payments and benefits set forth in Paragraph 7A, the following payments and benefits: (1) an amount equal to one hundred percent (100%) of the Executive's Base Salary then in effect as of the date of his or her termination of employment; (2) a pro rata portion of the Termination Bonus for the year in which the Executive's employment is terminated, based on the number of entire months of such year that have elapsed through the date of the Executive's termination of employment as a fraction of twelve (12); (3) a cash payment of $50,000 for health and welfare benefits; and (4) notwithstanding any provision in the applicable award agreement(s) to the contrary, any non-vested restricted shares awarded pursuant to Paragraph 5C of this Agreement, which shares would otherwise have vested based solely upon the lapse of time, shall immediately vest on the Executive's last day of employment, and any non-vested restricted shares awarded pursuant to Paragraph 5C of this Agreement, the restrictions on which shares would lapse based upon the failure to satisfy, as of the Executive's last day of employment, the relevant performance conditions associated with such shares, shall be forfeited. The term "**Termination Bonus**" shall mean an amount equal to one hundred percent (100%) of the Executive's Base Salary then in effect.

C. If the Executive's services are terminated pursuant to Paragraph 6C or 6D within twelve (12) months following a Change in Control Event, and the Executive complies with the release requirements in Paragraph 7E, the Executive shall be entitled to receive all of the payments and benefits set forth in Section 2 of the Change in Control Agreement and, if applicable,

under Section IV of the Change in Control Severance Plan. For purposes of this Agreement, "**Change in Control Event**" shall have the meaning of Change in Control as defined in Section 1(b) of the Change in Control Agreement and in Section 2(g) of the Change in Control Severance Plan, as applicable. The definitions of "Cause," "Disability" and "Good Reason" set forth in Paragraph 6 of this Agreement shall control the Executive's eligibility for severance under Section 2 of the Change in Control Agreement, and, if applicable, under Section IV of the Change in Control Severance Plan.

D. The Executive shall have no duty to mitigate damages and none of the payments provided in this Paragraph 7 shall be reduced by any amounts earned or received by the Executive from a third party at any time. Notwithstanding anything to the contrary in Paragraph 7C, if, in connection with a Change in Control Event, the Executive voluntarily enters a new written employment agreement with the Employer or the successor entity, the Executive will no longer be entitled to the payments and benefits under Paragraph 7C.

E. The Executive shall be entitled to the payments set forth in Paragraphs 7B or 7C above, if and as applicable, provided he or she signs the Form of Release of Claims and Covenant Not To Sue attached as Exhibit A to the Change in Control Agreement. The Executive must sign and tender (and not revoke) the release as described above not later than sixty (60) days following the Executive's last day of employment, or such earlier date as required by the Employer, and if the Executive fails or refuses to do so, the Executive shall forfeit the right to such termination compensation as would otherwise be due and payable. If the severance payments are otherwise subject to Section 409A of the Code, subject to Paragraph 15, they shall be paid on the first pay period following the date that is sixty (60) days after the Executive's employment terminates. If the payments are not otherwise subject to Section 409A of the Code, they shall be paid on the first pay period after the release becomes effective.

8. Confidentiality. The Executive will not at any time (whether during or after his or her employment with the Employer), unless compelled by lawful process, disclose or use for his or her own benefit or purposes or the benefit or purposes of any other person, firm, partnership, joint venture, association, corporation or other business organization, entity or enterprise other than the Employer and any of its subsidiaries or affiliates, any trade secrets, or other confidential data or information relating to customers, development programs, costs, marketing, trading, investment, sales activities, promotion, credit and financial data, financing methods, or plans of the Employer or of any subsidiary or affiliate of the Employer (collectively, "**Confidential Information**"); provided that the foregoing shall not apply to information which is not unique to the Employer or which is generally known to the industry or the public other than as a result of the Executive's breach of this covenant. The Executive agrees that upon termination of his or her employment with the Employer for any reason, he or she will return to the Employer immediately all memoranda, books, papers, plans, information, letters and other data, and all copies thereof or therefrom, in any way relating to the business of the Employer and its affiliates, except that he or she may retain personal notes, notebooks and diaries that do not contain confidential information of the type described in the preceding sentence. The Executive further agrees that he or she will not retain or use for his or her account at any time any trade names, trademark or other proprietary business designation used or owned in connection with the business of the Employer or its affiliates.

Notwithstanding anything herein to the contrary, the Executive is hereby notified, in accordance with the Defend Trade Secrets Act of 2016, that the Executive will not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that: (a) is made (i) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney; and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or (b) is made in a complaint or other document that is filed under seal in a lawsuit or other proceeding. The Executive is further notified that if he or she files a lawsuit for retaliation by the Employer for reporting a suspected violation of law, the Executive may disclose the Employer's trade secrets to his or her attorney and use the trade secret information in the court proceeding if the Executive (a) files any document containing the trade secret under seal; and (b) does not disclose the trade secret, except pursuant to court order. Further, notwithstanding anything in this Agreement to the contrary, nothing contained herein prohibits the Executive from reporting, without the prior authorization of the Employer and without notifying the Employer, possible violations of federal law or regulation to the United States Securities and Exchange Commission, the United States Department of Justice, the United States Congress or other governmental agency having apparent supervisory authority over the business of the Employer, or making other disclosures that are protected under the whistleblower provisions of Federal law or regulation.

9. Non-Solicitation and Non-Disparagement

A. Non-Solicitation (Employees). During the Executive's employment with the Employer and for twelve (12) months after the Executive's date of termination, the Executive shall not, directly or indirectly, either as an individual or as an employee, agent, consultant, advisor, independent contractor, general partner, officer, director, stockholder, investor, lender, or in any other capacity whatsoever, of any person, firm, corporation, or partnership, induce or attempt to induce, or hire, any person, who at the time of such inducement or hire is an employee of the Employer (or who was, within the six (6) months prior to such inducement or hire, an employee) to perform work or service for any other person or entity other than the Employer.

B. Non-Solicitation (Customers). During the Executive's employment with the Employer and for twelve (12) months after the Executive's date of termination, the Executive shall not, directly or indirectly: (i) contact or solicit, or direct any person, firm, corporation, association or other entity to contact or solicit, any of the Employer's customers for the purpose of providing any products and/or services that are the same as or similar to the products and services provided by the Employer to its customers during the term of the Executive's employment; or (ii) divert or attempt to divert, for his or her direct or indirect benefit, or for the benefit of any other person, firm, corporation, association or other entity, the business of any customer of the Employer; or (iii) influence or attempt to influence any customer of the Employer to transfer its business to the Executive or any person, firm, corporation, association or other entity; or (iv) in any other manner knowingly interfere with, disrupt or attempt to disrupt the relationship of the Employer with any of its customers, and in each of (i) through (iv) if such activities post termination of employment involve the use of trade secrets or other Confidential Information, as defined in Paragraph 8, of the Employer. In addition, the Executive will not disclose the identity of any such customers to any person, firm, corporation, association, or other entity for any reason or purpose whatsoever.

C. Nondisparagement. The Executive agrees that he or she will not disparage the Employer or its directors, officers, employees, affiliates, subsidiaries, predecessors, successors or assigns in any written or oral communications to any third party. The Executive further agrees that he or she will not direct anyone to make any disparaging oral or written remarks to any third parties.

D. Inventions. The Executive recognizes and agrees that all ideas, inventions, patents, copyrights, copyright designs, trade secrets, trademarks, processes, discoveries, enhancements, software, source code, catalogues, prints, business applications, plans, writings, and other developments or improvements and all other intellectual property and proprietary rights and any derivative work based thereon (the "**Inventions**") made, conceived, or completed by the Executive, alone or with others, during the term of his or her employment, whether or not during working hours, that are within the scope of the Employer's business operations or that relate to any of the Employer's work or projects (including any and all inventions based wholly or in part upon ideas conceived during the Executive's employment with the Employer), are the sole and exclusive property of the Employer. The Executive further agrees that (1) he or she will promptly disclose all Inventions to the Employer and hereby assigns to the Employer all present and future rights he or she has or may have in those Inventions, including without limitation those relating to patent, copyright, trademark or trade secrets; and (2) all of the Inventions eligible under the copyright laws are "work made for hire." At the request of the Employer, the Executive will do all things deemed by the Employer to be reasonably necessary to perfect title to the Inventions in the Employer and to assist in obtaining for the Employer such patents, copyrights or other protection as may be provided under law and desired by the Employer, including but not limited to executing and signing any and all relevant applications, assignments or other instruments. The Executive hereby irrevocably designates and appoints the Employer and its duly authorized officers and agents as the Executive's agents and attorneys-in-fact to act for and on the Executive's behalf and instead of the Executive, to execute and file any documents and to do all other lawfully permitted acts to further the above purposes with the same legal force and effect as if executed by the Executive, and the Executive acknowledges that this designation and appointment constitutes an irrevocable power of attorney and is coupled with an interest. Notwithstanding the foregoing, pursuant to Sections 2870 and 2872 of the California Labor Code, the Employer hereby notifies the Executive that the provisions of this Paragraph 9D shall not apply to any Inventions for which no equipment, supplies, facility or trade secret information of the Employer was used and which were developed entirely on the Executive's own time, unless (1) the Invention relates (i) to the business of the Employer, or (ii) to actual or demonstrably anticipated research or development of the Employer, or (2) the Invention results from any work performed by the Executive for the Employer. A copy of Code Sections 2870 and 2872 will be made available to the Executive upon his or her request.

10. Notices. All notices and other communications hereunder shall be in writing and shall be deemed delivered and effective upon the earliest of (a) personal delivery, (b) electronic confirmation of a facsimile transmission received in its entirety at the applicable facsimile number indicated below with a confirmatory copy sent for overnight delivery the next business day by recognized overnight commercial courier service (such as Federal Express), with all charges prepaid or charged to the sender's account, to the applicable address set forth below or (c) delivery by recognized overnight courier service, with all charges prepaid or charged to the sender's account,

to the applicable address set forth below or at such other address as shall be specified in writing in accordance with this Paragraph:

If to the Executive, to:

Joseph White
3521 Loma View Drive
Altadena, CA 91001

If to Employer, to:

Molina Healthcare, Inc.
Attention: Chief Legal Officer
200 Oceangate, Suite 100
Long Beach, CA 90802
Facsimile No: 916-646-4572

11. Waiver of Breach. A waiver by the Employer of a breach of any provision of this Agreement by the Executive shall not operate or be construed as a waiver or estoppel of any subsequent breach by the Executive. No waiver shall be valid unless in writing and signed by an authorized officer of the Employer.

12. Assignment. This Agreement is personal in its nature and neither of the parties hereto shall, without the consent of the other, assign or transfer this Agreement or any rights or obligations hereunder; provided, however, that, in the event of a merger, consolidation, or transfer or sale of all or substantially all of the assets of the Employer with or to any other individual(s) or entity, this Agreement shall, subject to the provisions hereof, be binding upon and inure to the benefit of such successor and such successor shall discharge and perform all the promises, covenants, duties, and obligations of the Employer hereunder.

13. Entire Agreement. This Agreement sets forth the entire and final agreement and understanding of the parties and contain all of the agreements made between the parties with respect to the subject matter hereof. This Agreement supersedes any and all other agreements, either oral or in writing, between the parties hereto, with respect to the subject matter hereof, including the Existing Agreement; provided, however, that the Change in Control Agreement shall remain in effect as modified hereby. No change or modification of this Agreement shall be valid unless in writing and signed by the Employer and the Executive.

14. Severability. If any provision of this Agreement shall be found invalid or unenforceable for any reason, in whole or in part, then such provision shall be deemed modified, restricted, or reformulated to the extent and in the manner necessary to render the same valid and enforceable, or shall be deemed excised from this Agreement, as the case may require, and this Agreement shall be construed and enforced to the maximum extent permitted by law, as if such provision had been originally incorporated herein as so modified, restricted, or reformulated or as if such provision had not been originally incorporated herein, as the case may be. The parties further

agree to seek a lawful substitute for any provision found to be unlawful; provided, that, if the parties are unable to agree upon a lawful substitute, the parties desire and request that a court or other authority called upon to decide the enforceability of this Agreement modify those restrictions in this Agreement that, once modified, will result in an agreement that is enforceable to the maximum extent permitted by the law in existence at the time of the requested enforcement.

15. Section 409A.

A. The Employer and the Executive intend that the payments and benefits provided for in this Agreement either be exempt from Section 409A of the Code, or be provided in a manner that complies with Section 409A of the Code, and any ambiguity herein shall be interpreted so as to be consistent with the intent of this Paragraph 15. In no event whatsoever shall the Employer be liable for any additional tax, interest or penalty that may be imposed on the Executive by Code Section 409A or damages for failing to comply with Section 409A. Notwithstanding anything contained herein to the contrary, all payments and benefits under Paragraph 7 of this Agreement shall be paid or provided only at the time of a termination of the Executive's employment that constitutes a "separation from service" from the Employer within the meaning of Section 409A of the Code and the regulations and guidance promulgated thereunder (determined after applying the presumptions set forth in Treas. Reg. Section 1.409A-1(h)(1)). Further, if at the time of the Executive's termination of employment with the Employer, the Executive is a "specified employee" as defined in Section 409A of the Code as determined by the Employer in accordance with Section 409A of the Code, and the deferral of the commencement of any payments or benefits otherwise payable hereunder as a result of such termination of employment is necessary in order to prevent any accelerated or additional tax under Section 409A of the Code, then the Employer will defer the commencement of the payment of any such payments or benefits hereunder (without any reduction in payments or benefits ultimately paid or provided to the Executive) until the date that is at least six (6) months following the Executive's termination of employment with the Employer (or the earliest date permitted under Section 409A of the Code), whereupon the Employer will pay the Executive a lump-sum amount equal to the cumulative amounts that would have otherwise been previously paid to the Executive under this Agreement during the period in which such payments or benefits were deferred.

B. Notwithstanding anything to the contrary in this Agreement, in-kind benefits and reimbursements provided under this Agreement during any calendar year shall not affect in-kind benefits or reimbursements to be provided in any other calendar year, other than an arrangement providing for the reimbursement of medical expenses referred to in Section 105(b) of the Code, and are not subject to liquidation or exchange for another benefit. Notwithstanding anything to the contrary in this Agreement, reimbursement requests must be timely submitted by the Executive and, if timely submitted, reimbursement payments shall be promptly made to the Executive following such submission, but in no event later than December 31st of the calendar year following the calendar year in which the expense was incurred. In no event shall the Executive be entitled to any reimbursement payments after December 31st of the calendar year following the calendar year in which the expense was incurred. This subparagraph B shall only apply to in-kind benefits and reimbursements that would result in taxable compensation income to the Executive.

C. In the event that following the date hereof the Employer or the Executive reasonably determines that any compensation or benefits payable under this Agreement may be subject to Section 409A of the Code, the Employer and the Executive shall work together to adopt such amendments to this Agreement or adopt other policies or procedures (including amendments, policies and procedures with retroactive effect), or take any other commercially reasonable actions necessary or appropriate to (x) exempt the compensation and benefits payable under this Agreement from Section 409A of the Code and/or preserve the intended tax treatment of the compensation and benefits provided with respect to this Agreement or (y) comply with the requirements of Section 409A of the Code and related Department of Treasury guidance.

16. Execution of Agreement. This Agreement may be executed in several counterparts, each of which shall be considered an original, but which when taken together, shall constitute one agreement.

17. Recitals. The recitals to this Agreement are incorporated herein as an integral part hereof and shall be considered as substantive and not precatory language.

18. Arbitration. Any controversy, claim or dispute between the parties relating to the Executive's employment or termination of employment, whether or not the controversy, claim or dispute arises under this Agreement, shall be resolved by arbitration in accordance with the Employment Arbitration Rules and Mediation Procedures ("**Rules**") of the American Arbitration Association through a single arbitrator in Los Angeles County, California selected in accordance with the Rules (provided, however, that any controversy or claim arising under Paragraphs 8 or 9 will be resolved, at the election of the Employer, either (i) under this Paragraph 18 or (ii) in accordance with Paragraph 19). The foregoing notwithstanding, claims for workers' compensation, unemployment compensation benefits or any other claims that, as a matter of law, the parties cannot agree to arbitrate shall not be covered by this Paragraph 18. A copy of the Rules will be provided to the Executive upon his or her written request to the Employer. The decision of the arbitrator shall be rendered within thirty (30) days of the close of the arbitration hearing and shall include written findings of fact and conclusions of law reflecting the appropriate substantive law. Judgment upon the award rendered by the arbitrator may be entered in any court having jurisdiction thereof in the State of California. In reaching his or her decision, the arbitrator shall have no authority (a) to change or modify any provision of this Agreement, (b) to base any part of his or her decision on public policy arguments or the common law principle of constructive termination, or (c) to award punitive damages or any other damages not measured by the prevailing party's actual damages and may not make any ruling, finding or award that does not conform to this Agreement. The American Arbitration Association rules regarding discovery shall apply to arbitration under this Paragraph 18. Each party shall bear all of his or its own legal fees, costs and expenses of arbitration; provided, however, that the Employer shall be responsible for the costs of the arbitrator.

19. Governing Law. This Agreement shall be governed by, and construed in accordance with, the laws of the State of California, without reference to its conflict of law provisions. Furthermore, as to Paragraphs 8 or 9, the Executive agrees and consents to submit to personal jurisdiction in the state of California in any state or federal court of competent subject matter jurisdiction situated in Los Angeles County, California. The Executive further agrees that the sole

and exclusive venue for any suit arising out of, or seeking to enforce, the terms of Paragraphs 8 or 9 of this Agreement shall be in a state or federal court of competent subject matter jurisdiction situated in Los Angeles County, California, unless the Employer elects arbitration in accordance with Paragraph 18. In addition, the Executive waives any right to challenge in another court any judgment entered by such Los Angeles County court or to assert that any action instituted by the Employer in any such court is in the improper venue or should be transferred to a more convenient forum. **Further, the Executive waives any right he or she may otherwise have to a trial by jury in any action to enforce the terms of this Agreement.**

IN WITNESS WHEREOF, the parties have set their signatures on the date first written above.

MOLINA HEALTHCARE, INC.	EXECUTIVE:
/s/ Jeff D. Barlow	*/s/ Joseph White*
By: Jeff D. Barlow	Joseph White
Its: Chief Legal Officer	

Exhibit 10.1

WAIVER AND RELEASE AGREEMENT

This Waiver and Release Agreement ("**Agreement**" and/or "**Release**") is made by and between J. Mario Molina ("**Executive**"), on the one hand, and Molina Healthcare, Inc., a Delaware corporation (the "**Company**"), on the other hand (collectively, the "**Parties**").

WHEREAS, Executive and Company previously entered into that certain Second Amended and Restated Employment Agreement, dated as of March 16, 2016 (the "**Employment Agreement**"); and capitalized terms used but not defined herein shall have the meanings ascribed to them in the Employment Agreement;

WHEREAS, Executive's employment with Company was terminated without Cause under Section 6(b) of the Employment Agreement, effective May 2, 2017 ("**Termination Date**");

WHEREAS, under the Employment Agreement, Executive's receipt of certain severance benefits as a result of the termination of his employment is contingent on his execution of a general release and waiver of claims against Company, any revocation of release period provided by law has run, and Executive has not revoked the release of claims and covenant not to sue within such period;

WHEREAS, Executive and Company desire to resolve all outstanding matters with respect to Executive's employment with and separation of employment from Company; and

WHEREAS, Executive and Company desire to fully release all claims which Executive in any capacity may have or claim to have, including without limitation claims arising out of or in any way relating to Executive's employment with and separation of employment from Company.

NOW, THEREFORE, Executive and Company agree as follows:

1. Termination of Employment. Executive's employment with Company was terminated on the Termination Date. All positions Executive held with Company and any of its subsidiaries (whether as an employee, officer, director, consultant, committee member or otherwise) have ceased, except for his position as a director on the Board of Directors of Company (the "**Board of Directors**"). After the Termination Date, Executive shall have no employment duties or responsibilities to Company and no authority to act on its behalf (except solely for actions in Executive's capacity as a director on the Board of Directors, subject to all policies, guidelines and other provisions, in each case that now exist or that may be adopted from time to time, applicable to directors on the Board of Directors) or speak on its behalf (except solely for statements made in Executive's capacity as a director but only to the extent so authorized by Company). Executive will promptly sign all appropriate documents reasonably requested by Company to facilitate or reflect his separation from service from Company.

2. Payments and Benefits. As a result of the termination of Executive's employment with Company, Executive is entitled to receipt of payments under Section 6(b) of the Employment

Agreement, subject to satisfying the condition precedent set forth in Section 12 of the Employment Agreement that Executive shall have executed this Agreement and that any revocation of release period provided by law shall have expired without revocation by Executive within such period. The Parties agree that the actual amounts payable under Section 6(b) of the Employment Agreement (other than the Accrued Obligations, which are addressed in Section 3 below) are set forth below:

a. Cash Payment. Pursuant to Sections 6(b)(i)(1), (2) and (5) of the Employment Agreement, Executive will receive a cash payment equal to $5,690,000, subject to applicable withholding, which represents the sum of (i) $5,000,000, representing the amount equal to 400% of $1,250,000, which is Executive's Base Salary in effect as of the Termination Date ("**Base Salary**"), (ii) $625,000, representing the Pro Rata Bonus; and (iii) $65,000, representing eighteen months of health and welfare benefits as contemplated under Section 4(a) of the Employment Agreement (in lieu of any obligation of Company to continue to provide health and welfare benefit coverage to Executive). The cash payment described in this Section 2(a) shall be paid to Executive in accordance with the timing described in Section 6(b)(iii)(A) of the Employment Agreement, based on his status as a Specified Employee on the date of Executive's Separation from Service.

b. 401(k) Contributions. Consistent with Section 6(b)(i)(4) of the Employment Agreement, Executive is fully vested in his and Company's contributions to Executive's 401(k) plan account.

c. Equity Compensation. Pursuant to Section 6(b)(ii) of the Employment Agreement, Executive shall be entitled to one hundred percent vesting of all outstanding Equity Compensation previously granted to Executive pursuant to equity compensation agreements accepted by Executive as a condition to each such grant, as more particularly set forth on Attachment A, subject to applicable withholding. All such grants of Equity Compensation are set forth on Attachment A, and Executive does not hold or have rights to any Equity Compensation not listed on Attachment A. With respect to the Performance Stock Unit Awards granted on March 1, 2017, and in accordance with the applicable equity compensation agreement pursuant to which such grant was issued to Executive, Company shall deliver one share of common stock of Company for each Performance Stock Unit Award that vested as a result of Executive's termination of employment, subject to applicable withholding. All Equity Compensation listed on Attachment A shall continue to be governed by the terms of the applicable equity compensation plans and equity compensation agreements pursuant to which such grants were issued to Executive.

3. Accrued Obligations. The Parties acknowledge and agree that Company has paid or will pay Executive the following payments and benefits, subject to applicable withholding, which consist of the actual Accrued Obligations payable in accordance with Section 6(b)(i)(3) of the Employment Agreement, whether or not Executive signs this Agreement:

a. Base Salary, PTO and 2016 Incentive Compensation. Company has paid Executive a lump sum cash payment of $259,615.58, subject to applicable withholding, which represents the sum of (i) $57,692.35, representing his accrued but unpaid Base Salary as of the Termination Date, (ii) $201,923.23, representing his accrued but unused PTO as of the Termination Date and (iii) $0, representing his unpaid annual incentive compensation in respect of the 2016

fiscal year (it being agreed that all 2016 annual incentive compensation payable to Executive was paid by Company in March 2017). For the avoidance of doubt, the Parties acknowledge and agree that Executive had 336 hours of accrued but unused PTO as of the Termination Date.

b. Expense Reimbursement. Company has paid or will promptly reimburse Executive for all reasonable expenses incurred in connection with the performance of his duties under Section 1 of the Employment Agreement through the Termination Date in accordance with Company's expense reimbursement policies, subject to applicable withholding.

c. Vested Benefits. Company shall provide the vested benefits to which Executive is entitled, if any, as a result of the termination of his employment under the employee benefit plans and arrangements of Company described in Sections 4(a) and 4(c) through 4(f) of the Employment Agreement, subject to applicable withholding. For the avoidance of doubt, the Parties agree that these benefits consist solely of the following: (i) Non-Qualified Deferred Compensation Plan Account Balance of $5,663,625.62, to be distributed as a lump sum in accordance with the timing required by the terms of the Non-Qualified Deferred Compensation Plan and Code Section 409A; and (ii) Executive Disability Coverage paid through May 26, 2017.

4. General Release.

Executive, for himself and for his heirs, executors, administrators, successors, and assigns, does hereby irrevocably and unconditionally waive, release and forever discharge, Company, its past and present parents, subsidiaries, affiliates, divisions, predecessors, successors, and assigns, and its and their respective current and former employees, officers, directors and agents (collectively, the "**Released Parties**"), from any and all past or present claims, demands, causes of action, lawsuits, grievances, obligations, damages, expenses, attorneys' fees, and liabilities of whatever kind or nature, known or unknown (all hereinafter referred to as "**Claims**"), which he ever had, now has, or may hereafter claim to have had, against the Released Parties or any of them based on any events, facts or circumstances arising at any time on or before the date of this Agreement, including but not limited to claims that relate to Executive's service with Company and/or the separation from such service; provided that the foregoing release applies to current and former employees, officers, directors and agents only to the extent of Claims based on their actions (or failures to act) within the course or scope of their employment or service on the Board of Directors, as applicable, or otherwise made by reason of the fact that any such individual is or was an employee, officer, director or agent of Company, or is or was serving at the request of Company as a director, employee or agent of another company, partnership, joint venture, trust or other enterprise (this proviso, the "Claim Limitation Caveat"). Executive agrees that this general release of Claims includes, but is not limited to, (a) claims of race, age, gender, sexual orientation, religious or national origin discrimination or any other legally protected status under Title VII of the Civil Rights Act of 1964, as amended; the Civil Rights Act of 1991; the Age Discrimination in Employment Act of 1967, as amended ("**ADEA**"); and under any other federal, state or local laws, as amended; (b) claims based on any other federal, state or local laws, including but not limited to the Equal Pay Act; the Americans with Disabilities Act; the Americans with Disabilities Act Amendments Act; the Labor Management Relations Act; the Family and Medical Leave Act; the Employee Retirement Income Security Act ("**ERISA**"); the Sarbanes-Oxley Act of 2002, the Worker Adjustment and Retraining Notification Act (" **WARN**"); the California WARN Act; the California Fair Employment and Housing Act; the

California Labor Code; the California Family Rights Act, the California Industrial Welfare Commission Wage Orders; the California Constitution; and the California Government Code, as well as any amendments to those laws; (c) claims of disputed wages or entitlement to any other pay; (d) claims of wrongful discharge or retaliation; (e) claims of breach of any implied or express contract or covenant; (f) claims for violation of personnel policies, handbooks, or any covenant of good faith and fair dealing; (g) claims for promissory estoppel; (h) ERISA claims; (i) claims for wrongful denial of insurance or other benefits; (j) claims based on any public policy violation or on any tort, such as invasion of privacy, sexual harassment, defamation, fraud, misrepresentation and/or infliction of emotional distress; and (k) claims relating to Executive's service as a director on the Board of Directors or actions taken by the directors on the Board of Directors or any of them as directors. Execution of this Agreement by Executive operates as a complete bar and defense against any and all Claims that may be made by Executive against the Released Parties or any of them, subject to the Claim Limitation Caveat. Executive expressly understands that among the various claims and rights being waived by Executive in this Agreement are those arising under the ADEA, and in that regard Executive specifically acknowledges that Executive has read and understands the provisions of Section 9 below before signing this Agreement.

5. Exclusions from General Release; Protected Rights.

Notwithstanding anything to the contrary in Section 4 above, Executive is not prohibited from making or asserting: (a) Executive's rights under this Agreement and any claims arising from the breach of this Agreement by Company, including any claim for breach of Company's obligation to make the payments described in Sections 2 and 3 above; (b) any claims for unemployment compensation, workers' compensation or state disability insurance benefits pursuant to the terms of applicable state laws; (c) any claim for vested benefits under any Company-sponsored retirement or welfare benefit plan; (d) Executive's rights, if any, to indemnity and/or advancement of expenses pursuant to applicable state law, Company's articles, bylaws, or any indemnification agreement between Company and Executive; and/or to the protections of any director' and officers' liability policies of Company; (e) any right Executive may have to obtain contribution as permitted by law in the event of entry of judgment against Executive as a result of any act or failure to act for which Company and Executive are held jointly liable; (f) any claim that arises based on events or facts arising at any time after the date of execution of this Agreement (including any such claim arising under this Agreement or the Employment Agreement); and (g) any other right that may not be released by private agreement.

6. Protected Rights.

Nothing in this Agreement limits Executive's rights to file a charge with, or report possible violations of law or regulation to, or communicate with, any governmental agency or federal or state regulatory authority or self-regulatory organization, or to make other disclosures that are protected under any law or regulation, or to cooperate with any investigation or proceeding by any governmental agency, federal or state regulatory authority, or self-regulatory organization, or to receive an award for information provided to any securities regulatory agency or authority. If the Executive files a charge or participates in an investigative proceeding of the EEOC or another governmental agency relating to Company as described in this Section 6, or is otherwise made a party to any such proceedings or other proceedings of a type described in Section 4 hereof, Executive will not seek and will not accept any personal equitable or monetary relief in connection with such charge or investigative or other proceeding if the charge or proceeding pertains to a claim that is

released by this Agreement; provided, however, that this Agreement does not limit the Executive's right to receive an award for information provided to any governmental agencies under any whistleblower program. In addition, Executive acknowledges that an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made (a) in confidence to a federal, state, or local government official or to an attorney solely for the purpose of reporting or investigating a suspected violation of law, or (b) in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. Executive understands and acknowledges further that an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual files any document containing the trade secret under seal and does not disclose the trade secret, except pursuant to court order. Notwithstanding the foregoing, under no circumstance is Executive authorized to disclose any attorney-client privileged information of Company or any of Company's attorney work product without Company's prior written consent or as otherwise expressly required by law. The exclusions and protections contained in this Section 6 override any language to the contrary in any other part of this Agreement.

7. Waiver of Unknown Claims.

It is Executive's intention (and Executive agrees) that Executive's execution of this Agreement will forever bar every claim, demand or cause of action it releases. Executive agrees that this Agreement shall constitute a complete defense to any such claim, demand or cause of action. Executive recognizes that Executive may have some claim, demand or cause of action against Company or any other Released Party which are part of the Claims that this Agreement releases of which Executive is unaware and unsuspecting which Executive is giving up by execution of this Agreement, but it is Executive's intention (and Executive agrees) that in executing this Agreement he shall be deprived of such claim, demand or cause of action and shall be prevented from asserting it against Company or any other Released Party. In furtherance of this intention, Executive expressly waives any and all rights and benefits conferred upon Executive by the provisions of Section 1542 of the California Civil Code (or any similar provision(s) of any other jurisdiction). Section 1542 provides:

> **"A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor."**

8. Period for Review and Consideration of Agreement.

Executive confirms that he has been given until July 17, 2017 to review and consider this Agreement before signing it, which review period is at least twenty-one (21) days. Executive understands that he may use as much or as little of this period as he wishes prior to signing the Agreement. Executive and Company mutually agree to extend the deadline set forth in Section 12 of the Employment Agreement from July 1, 2017 (which is 60 days following Executive's Separation of Service) to July 17, 2017.

To accept this Agreement, Executive must return an executed copy of this Agreement to Molina Healthcare, Inc., Attn: Jeff Barlow, 200 Oceangate, Long Beach, CA 90802; fax: (916) 646-4572; email: Jeffrey.Barlow@molinahealthcare.com by 5:00 p.m. (Pacific) on July 17, 2017.

9. Revocation.

In order to comply with the Older Workers Benefits Protection Act (29 U.S.C. Section 626(f)) and effectuate the release by Executive of any potential claims under the ADEA, Executive agrees as follows. Executive specifically acknowledges that he is waiving and releasing any rights he may have under the ADEA in exchange for the consideration paid. Executive acknowledges that the consideration given for this waiver and release is in addition to anything of value to which he was already entitled. Executive has carefully reviewed this Agreement and understands the terms and conditions it contains. By entering into this Agreement Executive is giving up potentially valuable legal rights and he intends to be bound by all the terms and conditions set forth in this Agreement. Executive is entering into this Agreement freely, knowingly and voluntarily. Executive has been advised to consult, and has consulted, legal counsel before executing the Agreement. Executive does not waive any rights or claims that may arise from acts or events occurring after the date this Agreement is signed by Executive.

If this Agreement is signed by Executive and returned to Company within the time specified in Section 8 above, Executive may revoke this Agreement within seven (7) calendar days following the date on which Executive signs this Agreement. Accordingly, this Agreement shall not become effective or enforceable until the eighth (8th) calendar day after Executive signs this Agreement (the "**Effective Date**"). Revocation must be made by delivery of a written notice of revocation to Company in the manner described in Section 8 above by 5:00 p.m. Pacific on the seventh (7th) calendar day following the date on which Executive signs this Agreement.

If this Agreement is revoked within the seven (7)-day revocation period, none of the provisions of the Agreement shall be effective or enforceable.

10. Cooperation.

Executive will cooperate fully with Company and its counsel, upon their request, with respect to the defense, prosecution, or conduct of potential or pending proceedings (including without limitation any litigation, arbitration, regulatory proceeding, investigation, or governmental action) against, involving or on behalf of any Company entity that relates in whole or in part to events which transpired while Executive was employed with Company. Executive agrees to render such cooperation in a reasonably timely fashion and to provide Company personnel and counsel with the full benefit of his knowledge with respect to any such matter, and will make himself reasonably available at reasonable times and locations for interviews, depositions, or court appearances at the request of Company or its counsel. In seeking such cooperation, Company will take into account Executive's conflicting professional and personal commitments. Company agrees to compensate Executive at the rate of $300 per hour. for any cooperation required by and requested pursuant to this paragraph. Company acknowledges that Executive may have his personal counsel present for discovery or other adversarial proceedings at his own expense (except to the extent payment for counsel is provided under any applicable indemnification policy or director or officer insurance).

11. Acknowledgements.

Executive represents and agrees that he has been and is hereby advised to and had the opportunity to thoroughly discuss, and has discussed, all aspects of this Agreement with his attorney, and that he had a reasonable period of time within which to consider the Agreement, and that he has carefully read and fully understands all of the provisions of this Agreement, and that he is knowingly and voluntarily entering into this Agreement. Executive further acknowledges that Executive has no

right to any future employment by Company, and that except as set forth in Section 2 and 3 above, and except in connection with Executive's service as a director on the Board of Directors, as of the Termination Date, Executive is not entitled to any wages or compensation (including without limitation bonuses or incentive compensation), perquisites, other benefits, stock awards, stock options, stock appreciation rights, or other equity-based or cash-based awards from Company. Executive has not suffered any job-related illness or injury during employment with Company for which Executive has not already filed a claim, and Executive has disclosed to Company in writing any pending or previously filed claim relating to an on-the-job injury or illness, and the termination of Executive's employment by Company is not related to any such on-the-job injury or illness.

12. Withholding.

Company may withhold, or cause to be withheld, from any payments or benefits under this Agreement all amounts required to be withheld pursuant to federal, state or local tax laws.

13. Tax Matters.

Executive has not relied upon any representation, express or implied, made by Company or any of its representatives as to the tax consequences of this Agreement to Executive and Executive hereby releases the Released Parties from any and all liability to him or on behalf of him in connection with any such tax consequences. Executive agrees that any liability he incurs for federal, state or local tax payments or penalties on him arising from any portion of the payments made under the Employment Agreement or this Agreement shall be Executive's sole responsibility.

14. Assignment of Claims.

Executive hereby represents and warrants that he has not heretofore assigned or transferred or purported to assign or transfer to anyone or any entity any claims, assertions of claims, demands, actions, causes of action, or suits based upon, arising out of, pertaining to, concerning or connected with any other matters herein released.

15. Non-Admission of Liability.

It is understood and agreed by Executive that the payment of consideration to which reference is made in this Agreement does not constitute an admission or concession of liability by Company on account of any claim or potential claim by Executive.

16. No Current/Future Actions Filed; Covenant Not To Sue.

Executive represents and warrants that no type of administrative or legal action arising out of claims waived and/or released by this Agreement has been filed to date and that he will not sue or become party to any litigation arising out of claims waived or released by this Agreement. If Executive hereafter commences or becomes party to any action or proceeding against any Released Party based upon any of the claims waived and/or released by this Agreement, the Released Parties will be entitled to apply for an injunction to restrain such violation. This Agreement may be pleaded by the Released Parties as a defense, counterclaim or cross-claim in any such action or proceeding.

17. Dispute Resolution.

The Parties acknowledge that the provisions of Sections 22 and 23 of the Employment Agreement apply to disputes arising out of or relating to this Agreement and that, to the extent that any dispute subject to the provisions of Section 22 of the Employment Agreement would implicate the factors set forth in *Armendariz v. Foundation Health Psychare Services, Inc.*, 6 P.3d 669 (Cal. 2000) or its progeny to be applied, the Parties hereby agree and consent to their application, including the

requirement that Company shall pay all additional costs peculiar to the arbitration to the extent such costs would not otherwise be incurred in a court proceeding (for instance, Company will pay the arbitrator's fees to the extent they exceed court filing fees).

18. Entire Agreement.

Executive acknowledges that no promises or representations other than those set forth in this Agreement have been made to Executive to induce Executive to sign this Agreement, and that Executive only has relied on promises expressly stated herein. The Parties agree that nothing in this Agreement shall affect the provisions of the Employment Agreement that survive the termination of Executive's employment with Company. No amendments or modifications to this Agreement shall be binding unless made in a writing specifically referencing this Agreement and signed by Executive and Company.

19. Waiver.

The failure by either Party to insist upon strict compliance with any term or provision of this Agreement shall not operate or be construed as a waiver of such term or provision. The waiver by either Party of a breach of any term or provision of this Agreement must be in writing signed by such Party in order to be binding and, further, shall not operate or be construed as a waiver of a subsequent breach of the same provision by any Party or of the breach of any other term or provision of this Agreement.

20. Governing Law; Construction.

This Agreement shall be governed by, and construed and enforced in accordance with, the internal laws of the State of California, without regard to its conflict of laws provisions. The language of this Agreement shall not be construed for or against any particular party. The headings used herein are for reference only and shall not affect the construction of this Agreement.

21. Assignment; Binding Effect.

This Agreement is only assignable by Company (provided that no such assignment will relieve Company of its obligations under this Agreement to Executive). This Agreement shall be binding upon and inure to the benefit of each Party and its or his successors and assigns and, with respect to Executive, his spouse, heirs, legatees, executors, administrators, and representatives, and, with respect to the releases and waivers made herein, will inure to the benefit of the Released Parties.

22. Section 409A Provisions.

The provisions of Annex A to the Employment Agreement are hereby incorporated herein by reference as if fully set forth herein and shall apply to the payments made under this Agreement or the Employment Agreement, except as expressly set forth in this Agreement or the Employment Agreement.

23. Severability.

If any provision of this Agreement is held by a court of competent jurisdiction or arbitrator to be invalid, void or unenforceable, the remaining provisions shall, nevertheless, continue in full force and effect without being impaired or invalidated in any way, and the provision held to be invalid, void or unenforceable shall be deemed to be severed or limited, but only to the extent necessary to render the remaining portion of such provision and the remaining provisions of the Agreement enforceable to the maximum extent permitted by law.

24. Counterparts.

This Agreement may be executed in one or more counterparts, each of which shall constitute an original, and all of which shall constitute one instrument.

Exhibit 10.2

WAIVER AND RELEASE AGREEMENT

This Waiver and Release Agreement ("**Agreement**" and/or "**Release**") is made by and between John Molina ("**Executive**"), on the one hand, and Molina Healthcare, Inc., a Delaware corporation(the "**Company**"), on the other hand (collectively, the "**Parties**").

WHEREAS, Executive and Company previously entered into that certain Second Amended and Restated Employment Agreement, dated as of March 16, 2016 (the "**Employment Agreement**"); and capitalized terms used but not defined herein shall have the meanings ascribed to them in the Employment Agreement;

WHEREAS, Executive's employment with Company was terminated without Cause under Section 6(b) of the Employment Agreement, effective May 2, 2017 ("**Termination Date**");

WHEREAS, under the Employment Agreement, Executive's receipt of certain severance benefits as a result of the termination of his employment is contingent on his execution of a general release and waiver of claims against Company, any revocation of release period provided by law has run, and Executive has not revoked the release of claims and covenant not to sue within such period;

WHEREAS, Executive and Company desire to resolve all outstanding matters with respect to Executive's employment with and separation of employment from Company; and

WHEREAS, Executive and Company desire to fully release all claims which Executive in any capacity may have or claim to have, including without limitation claims arising out of or in any way relating to Executive's employment with and separation of employment from Company.

NOW, THEREFORE, Executive and Company agree as follows:

1. Termination of Employment. Executive's employment with Company was terminated on the Termination Date. All positions Executive held with Company and any of its subsidiaries (whether as an employee, officer, director, consultant, committee member or otherwise) have ceased, except for his position as a director on the Board of Directors of Company (the "**Board of Directors**"). After the Termination Date, Executive shall have no employment duties or responsibilities to Company and no authority to act on its behalf (except solely for actions in Executive's capacity as a director on the Board of Directors, subject to all policies, guidelines and other provisions, in each case that now exist or that may be adopted from time to time, applicable to directors on the Board of Directors) or speak on its behalf (except solely for statements made in Executive's capacity as a director but only to the extent so authorized by Company). Executive will promptly sign all appropriate documents reasonably requested by Company to facilitate or reflect his separation from service from Company.

2. Payments and Benefits. As a result of the termination of Executive's employment with Company, Executive is entitled to receipt of payments under Section 6(b) of the Employment

Agreement, subject to satisfying the condition precedent set forth in Section 12 of the Employment Agreement that Executive shall have executed this Agreement and that any revocation of release period provided by law shall have expired without revocation by Executive within such period. The Parties agree that the actual amounts payable under Section 6(b) of the Employment Agreement (other than the Accrued Obligations, which are addressed in Section 3 below) are set forth below:

a. Cash Payment. Pursuant to Sections 6(b)(i)(1), (2) and (5) of the Employment Agreement, Executive will receive a cash payment equal to $4,040,000, subject to applicable withholding, which represents the sum of (i) $3,600,000, representing the amount equal to 400% of $900,000, which is Executive's Base Salary in effect as of the Termination Date ("**Base Salary**"), (ii) $375,000, representing the Pro Rata Bonus; and (iii) $65,000, representing eighteen months of health and welfare benefits as contemplated under Section 4(a) of the Employment Agreement (in lieu of any obligation of Company to continue to provide health and welfare benefit coverage to Executive). The cash payment described in this Section 2(a) shall be paid to Executive in accordance with the timing described in Section 6(b)(iii)(A) of the Employment Agreement , based on his status as a Specified Employee on the date of Executive's Separation from Service.

b. 401(k) Contributions. Consistent with Section 6(b)(i)(4) of the Employment Agreement, Executive is fully vested in his and Company's contributions to Executive's 401(k) plan account.

c. Equity Compensation. Pursuant to Section 6(b)(ii) of the Employment Agreement, Executive shall be entitled to one hundred percent vesting of all outstanding Equity Compensation previously granted to Executive pursuant to equity compensation agreements accepted by Executive as a condition to each such grant, as more particularly set forth on Attachment A, subject to applicable withholding. All such grants of Equity Compensation are set forth on Attachment A, and Executive does not hold or have rights to any Equity Compensation not listed on Attachment A. With respect to the Performance Stock Unit Awards granted on March 1, 2017, and in accordance with the applicable equity compensation agreement pursuant to which such grant was issued to Executive, Company shall deliver one share of common stock of Company for each Performance Stock Unit Award that vested as a result of Executive's termination of employment, subject to applicable withholding. All Equity Compensation listed on Attachment A shall continue to be governed by the terms of the applicable equity compensation plans and equity compensation agreements pursuant to which such grants were issued to Executive.

3. Accrued Obligations. The Parties acknowledge and agree that Company has paid or will pay Executive the following payments and benefits, subject to applicable withholding, which consist of the actual Accrued Obligations payable in accordance with Section 6(b)(i)(3) of the Employment Agreement, whether or not Executive signs this Agreement:

a. Base Salary, PTO and 2016 Incentive Compensation. Company has paid Executive a lump sum cash payment of $186,922.94, subject to applicable withholding, which represents the sum of (i) $41,538.43, representing his accrued but unpaid Base Salary as of the Termination Date, (ii) $145,384.51, representing his accrued but unused PTO as of the Termination

Date and (iii) $0, representing his unpaid annual incentive compensation in respect of the 2016 fiscal year (it being agreed that all 2016 annual incentive compensation payable to Executive was paid by Company in March 2017). For the avoidance of doubt, the Parties acknowledge and agree that Executive had 336 hours of accrued but unused PTO as of the Termination Date.

b. Expense Reimbursement. Company has paid or will promptly reimburse Executive for all reasonable expenses incurred in connection with the performance of his duties under Section 1 of the Employment Agreement through the Termination Date in accordance with Company's expense reimbursement policies, subject to applicable withholding.

c. Vested Benefits. Company shall provide the vested benefits to which Executive is entitled, if any, as a result of the termination of his employment under the employee benefit plans and arrangements of Company described in Sections 4(a) and 4(c) through 4(f) of the Employment Agreement, subject to applicable withholding. For the avoidance of doubt, the Parties agree that these benefits consist solely of the following: (i) Non-Qualified Deferred Compensation Plan Account Balance of $485,860.81, to be distributed in ten (10) annual installments in accordance with the timing required by the terms of the Non-Qualified Deferred Compensation Plan and Code Section 409A; and (ii) Executive Disability Coverage paid through May 26, 2017.

4. General Release.

Executive, for himself and for his heirs, executors, administrators, successors, and assigns, does hereby irrevocably and unconditionally waive, release and forever discharge, Company, its past and present parents, subsidiaries, affiliates, divisions, predecessors, successors, and assigns, and its and their respective current and former employees, officers, directors and agents (collectively, the "**Released Parties**"), from any and all past or present claims, demands, causes of action, lawsuits, grievances, obligations, damages, expenses, attorneys' fees, and liabilities of whatever kind or nature, known or unknown (all hereinafter referred to as "**Claims**"), which he ever had, now has, or may hereafter claim to have had, against the Released Parties or any of them based on any events, facts or circumstances arising at any time on or before the date of this Agreement, including but not limited to claims that relate to Executive's service with Company and/or the separation from such service; provided that the foregoing release applies to current and former employees, officers, directors and agents only to the extent of Claims based on their actions (or failures to act) within the course or scope of their employment or service on the Board of Directors, as applicable, or otherwise made by reason of the fact that any such individual is or was an employee, officer, director or agent of Company, or is or was serving at the request of Company as a director, employee or agent of another company, partnership, joint venture, trust or other enterprise (this proviso, the "Claim Limitation Caveat"). Executive agrees that this general release of Claims includes, but is not limited to, (a) claims of race, age, gender, sexual orientation, religious or national origin discrimination or any other legally protected status under Title VII of the Civil Rights Act of 1964, as amended; the Civil Rights Act of 1991; the Age Discrimination in Employment Act of 1967, as amended ("**ADEA**"); and under any other federal, state or local laws, as amended; (b) claims based on any other federal, state or local laws, including but not limited to the Equal Pay Act; the Americans with Disabilities Act; the Americans with Disabilities Act Amendments Act; the Labor Management Relations Act; the Family and Medical Leave Act; the Employee Retirement Income Security Act ("**ERISA**"); the Sarbanes-Oxley Act of 2002, the Worker Adjustment and Retraining Notification

Act ("**WARN**"); the California WARN Act; the California Fair Employment and Housing Act; the California Labor Code; the California Family Rights Act, the California Industrial Welfare Commission Wage Orders; the California Constitution; and the California Government Code, as well as any amendments to those laws; (c) claims of disputed wages or entitlement to any other pay; (d) claims of wrongful discharge or retaliation; (e) claims of breach of any implied or express contract or covenant; (f) claims for violation of personnel policies, handbooks, or any covenant of good faith and fair dealing; (g) claims for promissory estoppel; (h) ERISA claims; (i) claims for wrongful denial of insurance or other benefits; (j) claims based on any public policy violation or on any tort, such as invasion of privacy, sexual harassment, defamation, fraud, misrepresentation and/or infliction of emotional distress; and (k) claims relating to Executive's service as a director on the Board of Directors or actions taken by the directors on the Board of Directors or any of them as directors. Execution of this Agreement by Executive operates as a complete bar and defense against any and all Claims that may be made by Executive against the Released Parties or any of them, subject to the Claim Limitation Caveat. Executive expressly understands that among the various claims and rights being waived by Executive in this Agreement are those arising under the ADEA, and in that regard Executive specifically acknowledges that Executive has read and understands the provisions of Section 9 below before signing this Agreement.

5. Exclusions from General Release; Protected Rights.

Notwithstanding anything to the contrary in Section 4 above, Executive is not prohibited from making or asserting: (a) Executive's rights under this Agreement and any claims arising from the breach of this Agreement by Company, including any claim for breach of Company's obligation to make the payments described in Sections 2 and 3 above; (b) any claims for unemployment compensation, workers' compensation or state disability insurance benefits pursuant to the terms of applicable state laws; (c) any claim for vested benefits under any Company-sponsored retirement or welfare benefit plan; (d) Executive's rights, if any, to indemnity and/or advancement of expenses pursuant to applicable state law, Company's articles, bylaws, or any indemnification agreement between Company and Executive; and/or to the protections of any director' and officers' liability policies of Company; (e) any right Executive may have to obtain contribution as permitted by law in the event of entry of judgment against Executive as a result of any act or failure to act for which Company and Executive are held jointly liable; (f) any claim that arises based on events or facts arising at any time after the date of execution of this Agreement (including any such claim arising under this Agreement or the Employment Agreement); and (g) any other right that may not be released by private agreement.

6. Protected Rights.

Nothing in this Agreement limits Executive's rights to file a charge with, or report possible violations of law or regulation to, or communicate with, any governmental agency or federal or state regulatory authority or self-regulatory organization, or to make other disclosures that are protected under any law or regulation, or to cooperate with any investigation or proceeding by any governmental agency, federal or state regulatory authority, or self-regulatory organization, or to receive an award for information provided to any securities regulatory agency or authority. If the Executive files a charge or participates in an investigative proceeding of the EEOC or another governmental agency relating to Company as described in this Section 6, or is otherwise made a party to any such proceedings or other proceedings of a type described in Section 4 hereof, Executive will not seek and will not accept any personal equitable or monetary relief in connection with such

charge or investigative or other proceeding if the charge or proceeding pertains to a claim that is released by this Agreement; provided, however, that this Agreement does not limit the Executive's right to receive an award for information provided to any governmental agencies under any whistleblower program. In addition, Executive acknowledges that an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret that is made (a) in confidence to a federal, state, or local government official or to an attorney solely for the purpose of reporting or investigating a suspected violation of law, or (b) in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. Executive understands and acknowledges further that an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual files any document containing the trade secret under seal and does not disclose the trade secret, except pursuant to court order. Notwithstanding the foregoing, under no circumstance is Executive authorized to disclose any attorney-client privileged information of Company or any of Company's attorney work product without Company's prior written consent or as otherwise expressly required by law. The exclusions and protections contained in this Section 6 override any language to the contrary in any other part of this Agreement.

7. Waiver of Unknown Claims.

It is Executive's intention (and Executive agrees) that Executive's execution of this Agreement will forever bar every claim, demand or cause of action it releases. Executive agrees that this Agreement shall constitute a complete defense to any such claim, demand or cause of action. Executive recognizes that Executive may have some claim, demand or cause of action against Company or any other Released Party which are part of the Claims that this Agreement releases of which Executive is unaware and unsuspecting which Executive is giving up by execution of this Agreement, but it is Executive's intention (and Executive agrees) that in executing this Agreement he shall be deprived of such claim, demand or cause of action and shall be prevented from asserting it against Company or any other Released Party. In furtherance of this intention, Executive expressly waives any and all rights and benefits conferred upon Executive by the provisions of Section 1542 of the California Civil Code (or any similar provision(s) of any other jurisdiction). Section 1542 provides:

> **"A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor."**

8. Period for Review and Consideration of Agreement.

Executive confirms that he has been given until July 17, 2017 to review and consider this Agreement before signing it, which review period is at least twenty-one (21) days. Executive understands that he may use as much or as little of this period as he wishes prior to signing the Agreement. Executive and Company mutually agree to extend the deadline set forth in Section 12 of the Employment Agreement from July 1, 2017 (which is 60 days following Executive's Separation of Service) to July 17, 2017.

To accept this Agreement, Executive must return an executed copy of this Agreement to Molina Healthcare, Inc., Attn: Jeff Barlow, 200 Oceangate, Long Beach, CA 90802; fax: (916) 646-4572; email: Jeffrey.Barlow@molinahealthcare.com by 5:00 p.m. Pacific on July 17, 2017.

9. Revocation.

In order to comply with the Older Workers Benefits Protection Act (29 U.S.C. Section 626(f)) and effectuate the release by Executive of any potential claims under the ADEA, Executive agrees as follows. Executive specifically acknowledges that he is waiving and releasing any rights he may have under the ADEA in exchange for the consideration paid. Executive acknowledges that the consideration given for this waiver and release is in addition to anything of value to which he was already entitled. Executive has carefully reviewed this Agreement and understands the terms and conditions it contains. By entering into this Agreement Executive is giving up potentially valuable legal rights and he intends to be bound by all the terms and conditions set forth in this Agreement. Executive is entering into this Agreement freely, knowingly and voluntarily. Executive has been advised to consult, and has consulted, legal counsel before executing the Agreement. Executive does not waive any rights or claims that may arise from acts or events occurring after the date this Agreement is signed by Executive.

If this Agreement is signed by Executive and returned to Company within the time specified in Section 8 above, Executive may revoke this Agreement within seven (7) calendar days following the date on which Executive signs this Agreement. Accordingly, this Agreement shall not become effective or enforceable until the eighth (8th) calendar day after Executive signs this Agreement (the "**Effective Date**"). Revocation must be made by delivery of a written notice of revocation to Company in the manner described in Section 8 above by 5:00 p.m. Pacific on the seventh (7th) calendar day following the date on which Executive signs this Agreement.

If this Agreement is revoked within the seven (7)-day revocation period, none of the provisions of the Agreement shall be effective or enforceable.

10. Cooperation.

Executive will cooperate fully with Company and its counsel, upon their request, with respect to the defense, prosecution, or conduct of potential or pending proceedings (including without limitation any litigation, arbitration, regulatory proceeding, investigation, or governmental action) against, involving or on behalf of any Company entity that relates in whole or in part to events which transpired while Executive was employed with Company. Executive agrees to render such cooperation in a reasonably timely fashion and to provide Company personnel and counsel with the full benefit of his knowledge with respect to any such matter, and will make himself reasonably available at reasonable times and locations for interviews, depositions, or court appearances at the request of Company or its counsel. In seeking such cooperation, Company will take into account Executive's conflicting professional and personal commitments. Company agrees to compensate Executive at the rate of $300 per hour. for any cooperation required by and requested pursuant to this paragraph. Company acknowledges that Executive may have his personal counsel present for discovery or other adversarial proceedings at his own expense (except to the extent payment for counsel is provided under any applicable indemnification policy or director or officer insurance).

11. Acknowledgements.

Executive represents and agrees that he has been and is hereby advised to and had the opportunity to thoroughly discuss, and has discussed, all aspects of this Agreement with his attorney, and that he had a reasonable period of time within which to consider the Agreement, and that he has carefully read and fully understands all of the provisions of this Agreement, and that he is knowingly and voluntarily entering into this Agreement. Executive further acknowledges that Executive has no

right to any future employment by Company, and that except as set forth in Section 2 and 3 above, and except in connection with Executive's service as a director on the Board of Directors, as of the Termination Date, Executive is not entitled to any wages or compensation (including without limitation bonuses or incentive compensation), perquisites, other benefits, stock awards, stock options, stock appreciation rights, or other equity-based or cash-based awards from Company. Executive has not suffered any job-related illness or injury during employment with Company for which Executive has not already filed a claim, and Executive has disclosed to Company in writing any pending or previously filed claim relating to an on-the-job injury or illness, and the termination of Executive's employment by Company is not related to any such on-the-job injury or illness.

12. Withholding.

Company may withhold, or cause to be withheld, from any payments or benefits under this Agreement all amounts required to be withheld pursuant to federal, state or local tax laws.

13. Tax Matters.

Executive has not relied upon any representation, express or implied, made by Company or any of its representatives as to the tax consequences of this Agreement to Executive and Executive hereby releases the Released Parties from any and all liability to him or on behalf of him in connection with any such tax consequences. Executive agrees that any liability he incurs for federal, state or local tax payments or penalties on him arising from any portion of the payments made under the Employment Agreement or this Agreement shall be Executive's sole responsibility.

14. Assignment of Claims.

Executive hereby represents and warrants that he has not heretofore assigned or transferred or purported to assign or transfer to anyone or any entity any claims, assertions of claims, demands, actions, causes of action, or suits based upon, arising out of, pertaining to, concerning or connected with any other matters herein released.

15. Non-Admission of Liability.

It is understood and agreed by Executive that the payment of consideration to which reference is made in this Agreement does not constitute an admission or concession of liability by Company on account of any claim or potential claim by Executive.

16. No Current/Future Actions Filed; Covenant Not To Sue.

Executive represents and warrants that no type of administrative or legal action arising out of claims waived and/or released by this Agreement has been filed to date and that he will not sue or become party to any litigation arising out of claims waived or released by this Agreement. If Executive hereafter commences or becomes party to any action or proceeding against any Released Party based upon any of the claims waived and/or released by this Agreement, the Released Parties will be entitled to apply for an injunction to restrain such violation. This Agreement may be pleaded by the Released Parties as a defense, counterclaim or cross-claim in any such action or proceeding.

17. Dispute Resolution.

The Parties acknowledge that the provisions of Sections 22 and 23 of the Employment Agreement apply to disputes arising out of or relating to this Agreement and that, to the extent that any dispute subject to the provisions of Section 22 of the Employment Agreement would implicate the factors set forth in *Armendariz v. Foundation Health Psychare Services, Inc.*, 6 P.3d 669 (Cal. 2000) or its progeny to be applied, the Parties hereby agree and consent to their application, including the

requirement that Company shall pay all additional costs peculiar to the arbitration to the extent such costs would not otherwise be incurred in a court proceeding (for instance, Company will pay the arbitrator's fees to the extent they exceed court filing fees).

18. Entire Agreement.

Executive acknowledges that no promises or representations other than those set forth in this Agreement have been made to Executive to induce Executive to sign this Agreement, and that Executive only has relied on promises expressly stated herein. The Parties agree that nothing in this Agreement shall affect the provisions of the Employment Agreement that survive the termination of Executive's employment with Company. No amendments or modifications to this Agreement shall be binding unless made in a writing specifically referencing this Agreement and signed by Executive and Company.

19. Waiver.

The failure by either Party to insist upon strict compliance with any term or provision of this Agreement shall not operate or be construed as a waiver of such term or provision. The waiver by either Party of a breach of any term or provision of this Agreement must be in writing signed by such Party in order to be binding and, further, shall not operate or be construed as a waiver of a subsequent breach of the same provision by any Party or of the breach of any other term or provision of this Agreement.

20. Governing Law; Construction.

This Agreement shall be governed by, and construed and enforced in accordance with, the internal laws of the State of California, without regard to its conflict of laws provisions. The language of this Agreement shall not be construed for or against any particular party. The headings used herein are for reference only and shall not affect the construction of this Agreement.

21. Assignment; Binding Effect.

This Agreement is only assignable by Company (provided that no such assignment will relieve Company of its obligations under this Agreement to Executive). This Agreement shall be binding upon and inure to the benefit of each Party and its or his successors and assigns and, with respect to Executive, his spouse, heirs, legatees, executors, administrators, and representatives, and, with respect to the releases and waivers made herein, will inure to the benefit of the Released Parties.

22. Section 409A Provisions.

The provisions of Annex A to the Employment Agreement are hereby incorporated herein by reference as if fully set forth herein and shall apply to the payments made under this Agreement or the Employment Agreement, except as expressly set forth in this Agreement or the Employment Agreement.

23. Severability.

If any provision of this Agreement is held by a court of competent jurisdiction or arbitrator to be invalid, void or unenforceable, the remaining provisions shall, nevertheless, continue in full force and effect without being impaired or invalidated in any way, and the provision held to be invalid, void or unenforceable shall be deemed to be severed or limited, but only to the extent necessary to render the remaining portion of such provision and the remaining provisions of the Agreement enforceable to the maximum extent permitted by law.

24. Counterparts.

This Agreement may be executed in one or more counterparts, each of which shall constitute an original, and all of which shall constitute one instrument.

PURCHASE AGREEMENT

May 22, 2017

SUNTRUST ROBINSON HUMPHREY, INC.
As Representative of the Initial Purchasers
303 Peachtree Street, 10th Floor
Atlanta, GA 30308

Ladies and Gentlemen:

Molina Healthcare, Inc., a Delaware corporation (the "**Company**"), proposes to issue and sell to SunTrust Robinson Humphrey, Inc. ("**SunTrust**") and the other several Initial Purchasers named in Schedule A attached hereto (collectively, the "**Initial Purchasers**"), acting severally and not jointly, the respective amounts set forth in such Schedule A of $330,000,000 aggregate principal amount of the Company's 4.875% Senior Notes due 2025 (the "**Notes**") which will be unconditionally guaranteed jointly and severally on a senior basis as to principal, premium, if any, and interest (the "**Guarantees**") by the subsidiaries of the Company listed on the signature pages hereto (each individually, a "**Guarantor**" and collectively, the "**Guarantors**"). The Notes and the Guarantees attached thereto are herein collectively referred to as the "**Securities**". The Securities will be issued pursuant to an indenture, to be dated as of Closing Date (as defined below) (the "**Indenture**"), among the Company, the Guarantors and U.S. Bank National Association, as trustee (the "**Trustee**"). SunTrust has agreed to act as the representative of the several Initial Purchasers (the "**Representative**") in connection with the offering and sale of the Securities.

No later than ten business days after the Closing Date (as defined below), the Company will deposit the net proceeds from the issuance and sale of the Notes into a newly-formed segregated deposit account in the name of the Company, and such net proceeds will be invested (and may be reinvested) in cash and cash equivalents. Amounts contained in such account will be used by the Company (i) on or prior to August 20, 2018, to (a) redeem, repurchase, repay, tender for, or acquire or retire for value (whether through one or more tender offers, open market repurchases, redemptions or similar transactions) all or any portion of the Company's 1.625% Convertible Senior Notes due 2044 (the "**1.625% Convertible Notes**") or to satisfy the cash portion of any consideration due upon any conversion of the 1.625% Convertible Notes pursuant to the requirements contained in the indenture governing the 1.625% Convertible Notes, and/or (b) make any interest payments due on all or any portion of the Notes, (ii) on or after August 20, 2018, to repurchase all or any portion of the 1.625% Convertible Notes that the Company is obligated to repurchase pursuant to the requirements contained in the indenture governing the 1.625% Convertible Notes and (iii) subsequent to August 20, 2018 (or such earlier date in the event that there are no longer any 1.625% Convertible Notes outstanding), in any other manner not otherwise prohibited by the Indenture, subject to the Company complying with clauses (i) or (ii) prior to any such amounts being used or applied in accordance with this clause (iii). The issuance and sale of the Notes, the issuance of the Guarantees, the use of the net proceeds from the issuance and sale of the Notes as more fully described in the Pricing Disclosure Package (as defined below) and the Final Offering Memorandum (as defined

below) and the payment of transaction costs are referred to herein collectively, as the "**Transactions**." This Purchase Agreement (this "**Agreement**"), the Securities and the Indenture are referred to herein as the "**Transaction Documents**."

The Securities are to be offered and sold to or through the Initial Purchasers without being registered with the Securities and Exchange Commission (the "**Commission**") under the Securities Act of 1933 (as amended, the "**Securities Act**," which term, as used herein, includes the rules and regulations of the Commission promulgated thereunder), in reliance upon exemptions therefrom. Pursuant to the terms of the Securities and the Indenture, investors who acquire the Securities shall be deemed to have agreed that the Securities may only be resold or otherwise transferred, after the date hereof, if such Securities are registered for sale under the Securities Act or if an exemption from the registration requirements of the Securities Act is available (including the exemptions afforded by Rule 144A under the Securities Act ("**Rule 144A**") or Regulation S under the Securities Act ("**Regulation S**")). The Company agrees that the Initial Purchasers may resell, subject to the conditions set forth herein, all or a portion of the Securities to purchasers (the "**Subsequent Purchasers**") on the terms set forth in the Pricing Disclosure Package.

In connection with the sale of the Securities, the Company has prepared and delivered to each Initial Purchaser copies of a Preliminary Offering Memorandum, dated May 22, 2017 (the "**Preliminary Offering Memorandum**"). Prior to the time when the sales of the Securities were first made (the "**Time of Sale**"), the Company has prepared and delivered to each Initial Purchaser a Pricing Supplement, dated May 22, 2017 (the "**Pricing Supplement**"), describing the terms of the Securities, each for use by such Initial Purchaser in connection with its solicitation of offers to purchase the Securities. A copy of the Pricing Supplement is attached hereto as Schedule B-1. The Preliminary Offering Memorandum and the Pricing Supplement are herein referred to as the "**Pricing Disclosure Package**." Promptly after this Agreement is executed and delivered, the Company will prepare and deliver to each Initial Purchaser a final offering memorandum dated the date hereof (the "**Final Offering Memorandum**").

All references herein to the terms "**Pricing Disclosure Package**" and "**Final Offering Memorandum**" shall be deemed to mean and include all information filed under the Securities Exchange Act of 1934 (as amended, the "**Exchange Act**," which term, as used herein, includes the rules and regulations of the Commission promulgated thereunder) prior to the Time of Sale and incorporated by reference in the Pricing Disclosure Package (including the Preliminary Offering Memorandum) or the Final Offering Memorandum (as the case may be), and all references herein to the terms "**amend**," "**amendment**" or "**supplement**" with respect to the Final Offering Memorandum shall be deemed to mean and include all information filed under the Exchange Act after the Time of Sale that are deemed to be incorporated by reference in the Final Offering Memorandum.

The Company hereby confirms its agreements with the Initial Purchasers as follows:

SECTION 1. **Purchase, Sale and Delivery of the Securities.**

(a) Each of the Company and the Guarantors agrees to issue and sell to the several Initial Purchasers, all of the Securities, and subject to the conditions set forth herein and on the basis of the

representations, warranties, terms and agreements herein, the Initial Purchasers agree, severally and not jointly, to purchase from the Company and the Guarantors the aggregate principal amount of the Notes set forth opposite their names on Schedule A, at a purchase price of 99.0% of the principal amount thereof payable on the Closing Date.

(b) One or more certificates for the Securities in definitive form to be purchased by the Initial Purchasers shall be delivered to, and payment therefor shall be made at, the offices of Latham & Watkins LLP (or such other place as may be agreed to by the Company and SunTrust) at 9:00 a.m. New York City time, on June 6, 2017, or such other time and date as SunTrust shall designate by notice to the Company (the time and date of such closing are called the "**Closing Date**"). The Company hereby acknowledges that circumstances under which SunTrust may provide notice to postpone the Closing Date as originally scheduled include, but are in no way limited to, any determination by the Company or the Initial Purchasers to recirculate to investors copies of an amended or supplemented Offering Memorandum or a delay as contemplated by the provisions of Section 15 hereof.

(c) The Company shall deliver, or cause to be delivered, to SunTrust for the accounts of the several Initial Purchasers certificates for the Securities at the Closing Date against the irrevocable release of a wire transfer of immediately available funds for the amount of the purchase price therefor. The certificates for the Securities shall be in such denominations and registered in the name of Cede & Co., as nominee of The Depository Trust Company (the "**Depositary**"), and shall be made available for inspection on the business day preceding the Closing Date at a location in New York City, as SunTrust may designate. Time shall be of the essence, and delivery at the time and place specified in this Agreement is a further condition to the obligations of the Initial Purchasers.

(d) Each Initial Purchaser severally and not jointly represents and warrants to, and agrees with, the Company that:

(i) it will solicit offers for the Securities only (a) from, and will offer such Securities only to, persons who it reasonably believes are "qualified institutional buyers" within the meaning of Rule 144A ("**Qualified Institutional Buyers**") in transactions meeting the requirements of Rule 144A or (b) upon the terms and conditions set forth in Annex I to this Agreement;

(ii) it is an institutional "accredited investor" within the meaning of Rule 501(a)(1), (2), (3) or (7) under the Securities Act; and

(iii) it has not solicited offers for, or offered or sold, and will not solicit offers for, or offer to sell the Securities in any manner involving a public offering within the meaning of Section 4(a)(2) of the Securities Act.

SECTION 2. **Representations and Warranties of the Company and the Guarantors.** Each of the Company and the Guarantors, jointly and severally, hereby represents, warrants and covenants to each Initial Purchaser that, as of the date hereof and as of the Closing Date (references in this Section 2 to the "**Offering Memorandum**" are to (x) the Pricing Disclosure Package in the case of representations and

warranties made as of the date hereof and (y) the Final Offering Memorandum in the case of representations and warranties made as of the Closing Date):

(a) **The Pricing Disclosure Package and Offering Memorandum.** Neither the Pricing Disclosure Package, as of the Time of Sale, nor the Final Offering Memorandum, as of its date or (as amended or supplemented in accordance with Section 3(b) hereof, as applicable) as of the Closing Date, contains any untrue statement of a material fact or omits to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; provided that the Company and the Guarantors make no representation or warranty with respect to any statements or omissions made in reliance upon and in conformity with information relating to any Initial Purchaser furnished to the Company in writing by such Initial Purchaser through the Representative expressly for use in the Pricing Disclosure Package, the Final Offering Memorandum or amendment or supplement thereto, as the case may be, it being understood and agreed that only such information furnished by or on behalf of any Initial Purchaser consists of the information described as such in Section 7(b) hereof. The Company and the Guarantors have not distributed and will not distribute, prior to the later of the Closing Date and the completion of the Initial Purchasers' distribution of the Securities, any offering material in connection with the offering and sale of the Securities other than the Pricing Disclosure Package and the Final Offering Memorandum.

(b) **No Registration Required.** Assuming the accuracy of the representations and warranties of the Initial Purchasers set forth in Section 1 hereof and compliance by the Initial Purchasers with the procedures set forth in Section 5 hereof, it is not necessary in connection with the offer, sale and delivery of the Securities to the Initial Purchasers and to each Subsequent Purchaser in the manner contemplated by this Agreement and the Offering Memorandum to register the Securities under the Securities Act or to qualify the Indenture under the Trust Indenture Act of 1939 (as amended, the "**Trust Indenture Act**," which term, as used herein, includes the rules and regulations of the Commission promulgated thereunder).

(c) **Eligibility for Resale Under Rule 144A.** The Securities are eligible for resale pursuant to Rule 144A and will not be, at the Closing Date, of the same class as securities listed on a national securities exchange registered under Section 6 of the Exchange Act or quoted in a U.S. automated interdealer quotation system.

(d) **No Integration of Offerings.** None of the Company, its affiliates (as defined in Rule 501 under the Securities Act) (each, an "**Affiliate**"), or any person acting on its or any of their behalf (other than the Initial Purchasers, as to whom the Company makes no representation or warranty) has, directly or indirectly, solicited any offer to buy or offered to sell, or will, directly or indirectly, solicit any offer to buy or offer to sell, in the United States or to any United States citizen or resident, any security which is or would be integrated with the sale of the Securities in a manner that would require the Securities to be registered under the Securities Act.

(e) **No General Solicitation.** None of the Company, its Affiliates, or any person acting on its or any of their behalf (other than the Initial Purchasers, as to whom the Company makes no representation

or warranty) has engaged or will engage, in connection with the offering of the Securities, in any form of general solicitation or general advertising within the meaning of Rule 502 under the Securities Act other than by means of a Permitted General Solicitation (as defined below). With respect to those Securities sold in reliance upon Regulation S, (i) none of the Company, its Affiliates or any person acting on its or their behalf (other than the Initial Purchasers, as to whom the Company makes no representation or warranty) has engaged or will engage in any directed selling efforts within the meaning of Regulation S and (ii) each of the Company and its Affiliates and any person acting on its or their behalf (other than the Initial Purchasers, as to whom the Company makes no representation or warranty) has complied with and will comply with the offering restrictions set forth in Regulation S.

(f) **Company Additional Written Communications; Permitted General Solicitations.** The Company has not prepared, made, used, authorized, approved or distributed and will not prepare, make, use, authorize, approve or distribute (x) any written communication that constitutes an offer to sell or a solicitation of an offer to buy the Securities other than (i) the Pricing Disclosure Package, (ii) the Final Offering Memorandum and (iii) any electronic road show or other written communications other than any Permitted General Solicitation, in each case used in accordance with Section 3(b) hereof or (y) any general solicitation other than any such solicitation (i) listed on Schedule B-2 hereto or (ii) in accordance with Section 3(j) hereof (each such solicitation referred to in clause (i) and (ii), a "**Permitted General Solicitation**"). Each such communication or Permitted General Solicitation by the Company or its agents and representatives (other than the Initial Purchasers, in their capacity as such) pursuant to clause (iii) of the preceding sentence (each, a "**Company Additional Written Communication**"), when taken together with the Pricing Disclosure Package, did not as of the Time of Sale, and at the Closing Date will not, contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; provided that this representation, warranty and agreement shall not apply to statements in or omissions from each such Company Additional Written Communication made in reliance upon and in conformity with information furnished to the Company in writing by any Initial Purchaser through the Representative expressly for use in any Company Additional Written Communication.

(g) **Incorporated Documents.** The documents incorporated or deemed to be incorporated by reference in the Offering Memorandum at the time they were or hereafter are filed with the Commission (collectively, the "**Incorporated Documents**") complied and will comply in all material respects with the requirements of the Exchange Act. Each such Incorporated Document, when taken together with the Pricing Disclosure Package, did not as of the Time of Sale, and at the Closing Date will not, contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(h) **The Purchase Agreement.** This Agreement has been duly authorized, executed and delivered by the Company and the Guarantors.

(i) **The Indenture.** The Indenture has been duly authorized by the Company and the Guarantors and, at the Closing Date, will have been duly executed and delivered by the Company and the Guarantors and will constitute a valid and binding agreement of the Company and the Guarantors,

enforceable against the Company and the Guarantors in accordance with its terms, except as the enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws relating to or affecting the rights and remedies of creditors or by general equitable principles.

(j) **The Notes and the Guarantees.** The Notes to be purchased by the Initial Purchasers from the Company will on the Closing Date be in the form contemplated by the Indenture, have been duly authorized for issuance and sale pursuant to this Agreement and the Indenture and, at the Closing Date, will have been duly executed by the Company and, when authenticated in the manner provided for in the Indenture and delivered against payment of the purchase price therefor, will constitute valid and binding obligations of the Company, enforceable in accordance with their terms, except as the enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws relating to or affecting the rights and remedies of creditors or by general equitable principles, and will be entitled to the benefits of the Indenture. The Guarantees of the Notes on the Closing Date when issued will be in the respective forms contemplated by the Indenture and have been duly authorized for issuance pursuant to this Agreement and the Indenture; the Guarantees of the Notes, at the Closing Date, will have been duly executed by each of the Guarantors and, when the Notes have been duly executed and authenticated in the manner provided for in the Indenture and issued and delivered against payment of the purchase price therefor, the Guarantees of the Notes will constitute valid and binding agreements of the Guarantors, enforceable in accordance with their terms, except as the enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws relating to or affecting the rights and remedies of creditors or by general equitable principles and will be entitled to the benefits of the Indenture.

(k) **Descriptions of the Transaction Documents.** Each Transaction Document conforms in all material respects to the description thereof contained in the Offering Memorandum.

(l) **No Material Adverse Change.** Since the date of the most recent financial statements of the Company included or incorporated in the Offering Memorandum (exclusive of any amendment or supplement thereto), (i) there has not been any change in the capital stock, long-term debt, notes payable or current portion of long-term debt of the Company or any of its subsidiaries, or any dividend or distribution of any kind declared, set aside for payment, paid or made by the Company on any class of capital stock, or any material adverse change, or any development involving a prospective material adverse change, in or affecting the business, properties, management, financial position, stockholders' equity, results of operations or prospects of the Company and its subsidiaries taken as a whole; (ii) neither the Company nor any of its subsidiaries has entered into any transaction or agreement that is material to the Company and its subsidiaries taken as a whole or incurred any liability or obligation, direct or contingent, that is material to the Company and its subsidiaries taken as a whole; and (iii) neither the Company nor any of its subsidiaries has sustained any material loss or interference with its business from fire, explosion, flood or other calamity, whether or not covered by insurance, or from any labor disturbance or dispute or any action, order or decree of any court or arbitrator or governmental or regulatory authority, except in each case as otherwise disclosed in the Offering Memorandum (exclusive of any amendment or supplement thereto).

(m) **Independent Accountants.** Ernst & Young LLP, which has issued its opinion with respect to the audited financial statements (including the related notes thereto) incorporated by reference in the Offering Memorandum is an independent registered public accounting firm with respect to the Company and its subsidiaries within the meaning of the applicable rules and regulations adopted by the Commission and the Public Company Accounting Oversight Board (United States) and as required by the Securities Act and the Exchange Act.

(n) **Preparation of the Financial Statements.** The financial statements, together with the related schedules and notes, included or incorporated by reference in the Offering Memorandum present fairly the financial position of the Company and its consolidated subsidiaries at the dates indicated and the statement of operations, stockholders' equity and cash flows of the Company and its consolidated subsidiaries for the periods specified; said financial statements have been prepared in conformity with generally accepted accounting principles as applied in the United States ("**GAAP**") applied on a consistent basis throughout the periods involved. The supporting schedules, if any, present fairly in accordance with GAAP the information required to be stated therein. The selected financial data and the summary financial information incorporated by reference in the Offering Memorandum present fairly the information shown therein and have been compiled on a basis consistent with that of the audited financial statements incorporated by reference therein. The interactive data in eXtensible Business Reporting Language incorporated by reference in the Offering Memorandum fairly present the information called for in all material respects and have been prepared in accordance with the Commission's rules and guidelines applicable thereto.

(o) **Incorporation and Good Standing.** The Company and each of its subsidiaries have been duly organized and are validly existing and in good standing under the laws of their respective jurisdictions of organization, are duly qualified to do business and are in good standing in each jurisdiction in which their respective ownership or lease of property or the conduct of their respective businesses requires such qualification, and have all power and authority necessary to own or hold their respective properties and to conduct the businesses in which they are engaged, except where the failure to be so duly organized, qualified or in good standing or have such power or authority would not, individually or in the aggregate, have a material adverse effect on the business, properties, management, financial position, stockholders' equity, results of operations or prospects of the Company and its subsidiaries taken as a whole or on the performance by each of the Company and the Guarantors of its obligations under each of the Transaction Documents to which it is a party (a "**Material Adverse Effect**"); other than the subsidiaries listed on Schedule C to this Agreement, the Company does not own or control, directly or indirectly, any corporation, association or other entity or 5% or more of the shares of capital stock or any other equity interest in any firm, partnership, joint venture, association or other entity.

(p) **Capitalization.** As of March 31, 2017, on a consolidated basis, after giving effect to the Transactions, the Company would have an authorized and outstanding capitalization as set forth in the section of the Offering Memorandum entitled "Capitalization"; all of the outstanding shares of capital stock, including the common stock (the "**Common Stock**"), of the Company have been duly authorized and validly issued and are fully paid and non-assessable, have been issued in compliance with all applicable securities laws and are not subject to any pre-emptive or similar rights; except as described in

the Offering Memorandum, there are no outstanding rights (including, without limitation, pre-emptive rights), warrants or options to acquire, or instruments convertible into or exchangeable for, any shares of capital stock or other equity interest in the Company or any of its subsidiaries, or any contract, commitment, agreement, understanding or arrangement of any kind relating to the issuance of any capital stock of the Company or any such subsidiary, any such convertible or exchangeable securities or any such rights, warrants or options; all the outstanding shares of capital stock or other equity interests of each subsidiary owned, directly or indirectly, by the Company have been duly and validly authorized and issued, are fully paid and non-assessable and are owned directly or indirectly by the Company, free and clear of any lien, charge, encumbrance, security interest, restriction on voting or any other claim of any third party.

(q) **No Termination of Agreements.** Except as otherwise disclosed in the Offering Memorandum, neither the Company nor any subsidiary has sent or received any communication regarding termination of, or intent not to renew, any of the contracts or agreements referred to or described in the Offering Memorandum, and no such termination or non-renewal has been threatened by the Company or any subsidiary or, to the knowledge of the Company and the Guarantors, any other party to any such contract or agreement, except in each such case for any termination or non-renewal that could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect.

(r) **No Material Actions or Proceedings.** Except as otherwise disclosed in the Offering Memorandum, there are no legal, governmental or regulatory investigations, actions, suits or proceedings pending to which the Company or any of its subsidiaries is or may be a party or to which any property of the Company or any of its subsidiaries is or may be the subject that, individually or in the aggregate, if determined adversely to the Company or any of its subsidiaries, could reasonably be expected to have a Material Adverse Effect; except as otherwise disclosed in the Offering Memorandum, to the knowledge of the Company and the Guarantors no such investigations, actions, suits or proceedings are threatened or contemplated by any governmental or regulatory authority.

(s) **Solvency.** Each of the Company and the Guarantors is, and immediately after the Closing Date will be, Solvent. As used herein, the term "**Solvent**" means, with respect to any person on a particular date, that on such date (i) the fair market value of the assets of such person is greater than the total amount of liabilities (including contingent liabilities) of such person, (ii) the present fair salable value of the assets of such person is greater than the amount that will be required to pay the probable liabilities of such person on its debts as they become absolute and matured, (iii) such person is able to realize upon its assets and pay its debts and other liabilities, including contingent obligations, as they mature and (iv) such person does not have unreasonably small capital.

(t) **Non-Contravention; No Authorizations or Approvals.** Neither the Company nor any of its subsidiaries is (i) in violation of its charter, bylaws or similar organizational document; (ii) in default, and no event has occurred that, with notice or lapse of time or both, would constitute such a default, in the due performance or observance of any term, covenant or condition contained in any indenture, mortgage, deed of trust, loan agreement, note, lease or other agreement or instrument to which the Company or any of its subsidiaries is a party or by which the Company or any of its subsidiaries is bound (including,

without limitation, the Company's $500 million revolving credit facility, 5.375% notes due 2022, 1.125% convertible notes due 2020 and the 1.625% Convertible Notes) or to which any of the property or assets of the Company or any of its subsidiaries is subject; or (iii) in violation of any law or statute or any judgment, order, rule or regulation of any court or arbitrator or governmental or regulatory authority, except, in the case of clauses (ii) and (iii) above, for any such default or violation that could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect. The execution, delivery and performance of the Transaction Documents by the Company and the Guarantors party thereto, and the issuance and delivery of the Securities, and consummation of the transactions contemplated hereby and thereby and by the Offering Memorandum have been duly authorized by all necessary corporate or limited liability company action and will not (i) conflict with or result in a breach or violation of any of the terms or provisions of, or constitute a default under, or result in the creation or imposition of any lien, charge or encumbrance upon any property or assets of the Company or any of its subsidiaries pursuant to, any indenture, mortgage, deed of trust, loan agreement, note, lease or other agreement or instrument to which the Company or any of its subsidiaries is a party or by which the Company or any of its subsidiaries is bound or to which any of the property or assets of the Company or any of its subsidiaries is subject, (ii) result in any violation of the provisions of the charter or by-laws or similar organizational documents of the Company or any of its subsidiaries or (iii) result in the violation of any law or statute or any judgment, order, rule or regulation of any court or arbitrator or governmental or regulatory authority. No consent, approval, authorization, order, registration or qualification of or with any court or arbitrator or governmental or regulatory authority is required for the execution, delivery and performance of the Transaction Documents by the Company and the Guarantors to the extent a party thereto, or the issuance and delivery of the Securities, or consummation of the transactions contemplated hereby and thereby and by the Offering Memorandum, other than as have been obtained or made by the Company and are in full force and effect under the Securities Act, applicable securities laws of the several states of the United States or provinces of Canada.

(u) **Related Party Transactions.** No relationship, direct or indirect, exists between or among the Company or any of its subsidiaries, on the one hand, and the directors, officers, stockholders, customers or suppliers of the Company or any of its subsidiaries, on the other, that is required by the Securities Act to be disclosed in a registration statement on Form S-1 which is not so disclosed in the Offering Memorandum.

(v) **Intellectual Property.** The Company and its subsidiaries own or possess adequate rights to use or can acquire on reasonable terms all material patents, patent applications, trademarks, service marks, trade names, trademark registrations, service mark registrations, copyrights, licenses and know-how (including trade secrets and other unpatented and/or unpatentable proprietary or confidential information, systems or procedures) (collectively, "Intellectual Property Rights") necessary for the conduct of their respective businesses; and the expected expiration of any of such Intellectual Property Rights would not have a Material Adverse Effect. Neither the Company nor any of its subsidiaries has received any notice of any claim of infringement of or conflict with any such Intellectual Property Rights of others.

(w) **All Necessary Permits, etc.** The Company and each subsidiary possess all licenses, certificates, permits and other authorizations issued by, and have made all declarations and filings with,

the appropriate federal, state, local or foreign governmental or regulatory authorities that are necessary for the ownership or lease of their respective properties or the conduct of their respective businesses as described in the Offering Memorandum, except where the failure to possess or make the same could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect; and except as otherwise disclosed in the Offering Memorandum, neither the Company nor any of its subsidiaries has received notice of any revocation or modification of any such license, certificate, permit or authorization.

(x) **Title to Properties.** Except as otherwise disclosed in the Offering Memorandum, the Company and its subsidiaries have good and marketable title in fee simple to, or have valid rights to lease or otherwise use, all items of real and personal property that are material to the respective businesses of the Company and its subsidiaries, in each case free and clear of all liens, encumbrances, claims and defects and imperfections of title except those that (i) do not materially interfere with the use made and proposed to be made of such property by the Company and its subsidiaries or (ii) could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect.

(y) **Tax Law Compliance.** The Company and its subsidiaries have paid all U.S. federal, state, local and foreign taxes which are due and payable (except assessments against which appeals have been or will be promptly taken in good faith and as to which adequate reserves have been provided in accordance with GAAP) and filed all U.S. federal and material state, local and foreign tax returns required to be filed through the date hereof; and except as otherwise disclosed in the Offering Memorandum, there is no tax deficiency that has been, or could reasonably be expected to be, asserted against the Company or any of its subsidiaries or any of their respective properties or assets except for any tax deficiencies that could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect.

(z) **Investment Company Act.** Neither the Company nor any Guarantor is, nor after giving effect to the offering and sale of the Securities and the application of the proceeds thereof, will be, required to register as an "investment company" or an entity "controlled" by an "investment company" within the meaning of the Investment Company Act of 1940, as amended, and the rules and regulations of the Commission thereunder.

(aa) **Insurance.** The Company and its subsidiaries have insurance covering their respective properties, operations, personnel and businesses, including business interruption insurance, which insurance is in amounts and insures against such losses and risks as are generally maintained by companies of established repute engaged in the same or similar businesses; and neither the Company nor any of its subsidiaries has (i) received notice from any insurer or agent of such insurer that capital improvements or other expenditures are required or necessary to be made in order to continue such insurance or (ii) any reason to believe that it will not be able to renew its existing insurance coverage as and when such coverage expires or to obtain similar coverage at reasonable cost from similar insurers as may be necessary to continue its business.

(bb) **No Stabilization or Manipulation.** None of the Company or any of the Guarantors has taken and none will take, directly or indirectly, any action designed to or that might be reasonably

expected to cause or result in stabilization or manipulation of the price of any security of the Company to facilitate the sale or resale of the Securities.

(cc) **Sarbanes-Oxley.** There is and has been no failure on the part of the Company or any of the Company's directors or officers, in their capacities as such, to comply with any provision of the Sarbanes-Oxley Act of 2002 and the rules and regulations promulgated in connection therewith (the "**Sarbanes-Oxley Act**"), including Section 402 related to loans and Sections 302 and 906 related to certifications.

(dd) **Internal Accounting Controls.** The Company and its subsidiaries maintain systems of "internal control over financial reporting" (as defined in Rule 13a-15(f) of the Exchange Act) that comply with the requirements of the Exchange Act and have been designed by, or under the supervision of, their respective principal executive and principal financial officers, or persons performing similar functions, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP, including, but not limited to internal accounting controls sufficient to provide reasonable assurance that (i) transactions are executed in accordance with management's general or specific authorizations; (ii) transactions are recorded as necessary to permit preparation of financial statements in conformity with GAAP and to maintain asset accountability; (iii) access to assets is permitted only in accordance with management's general or specific authorization; (iv) the recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences; and (v) the interactive data in eXtensible Business Reporting Language included or incorporated by reference in the Offering Memorandum and the Pricing Disclosure Package fairly present the information called for in all material respects and are prepared in accordance with the Commission's rules and guidelines applicable thereto. Except as described in the Offering Memorandum, since the end of the Company's most recent audited fiscal year, there has been (i) no material weakness in the Company's internal control over financial reporting (whether or not remediated) and (ii) no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting (including any corrective actions with regard to significant deficiencies and material weaknesses). The Company's auditors and the Audit Committee of the Board of Directors of the Company have been advised of: (i) all significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the Company's ability to record, process, summarize and report financial information; and (ii) any fraud, whether or not material, that involves management or other employees who have a significant role in the Company's internal controls over financial reporting.

(ee) **Disclosure Controls and Procedures.** The Company has established and maintains and evaluates "disclosure controls and procedures" (as such term is defined in Rules 13a-15 and 15d-15 under the Exchange Act) and "internal control over financial reporting" (as such term is defined in Rules 13a-15 and 15d-15 under the Exchange Act); such disclosure controls and procedures are designed to ensure that material information relating to the Company and its consolidated subsidiaries is made known to the Company's interim Chief Executive Officer and its Chief Financial Officer by others within the Company or any of its subsidiaries, and such disclosure controls and procedures are effective to perform the functions for which they were established; the Company's independent registered public accountants and

the Audit Committee of the Board of Directors of the Company have been advised of: (i) all significant deficiencies or material weaknesses, if any, in the design or operation of internal controls which could adversely affect the Company's ability to record, process, summarize and report financial data; and (ii) all fraud, if any, whether or not material, that involves management or other employees who have a role in the Company's internal controls; all "significant deficiencies" and "material weaknesses" (as such terms are defined in Rule 1-02(a)(4) of Regulation S-X under the Securities Act) of the Company, if any, have been identified to the Company's independent registered public accountants and are disclosed in the Offering Memorandum; the principal executive officer and principal financial officer of the Company have made all certifications required by the Sarbanes-Oxley Act and any related rules and regulations promulgated by the Commission, and the statements contained in each such certification are complete and correct; the Company, the subsidiaries and the Company's directors and officers are each in compliance in all material respects with all applicable effective provisions of the Sarbanes-Oxley Act and the rules and regulations of the Commission and the New York Stock Exchange (the "**NYSE**") promulgated thereunder.

(ff) **Margin Regulations.** The issuance, sale and delivery of the Securities will not violate Regulation T, Regulation U or Regulation X of the Board of Governors of the Federal Reserve System or any other regulation of such Board of Governors.

(gg) **Environmental Laws.** Except as otherwise disclosed in the Offering Memorandum, (i) the Company and its subsidiaries (A) are, and at all prior times were, in compliance with any and all applicable federal, state, local and foreign laws, rules, regulations, requirements, decisions and orders relating to the protection of human health or safety, the environment, natural resources, hazardous or toxic substances or wastes, pollutants or contaminants (collectively, "**Environmental Laws**"), (B) have received and are in compliance with all permits, licenses, certificates or other authorizations or approvals required of them under applicable Environmental Laws to conduct their respective businesses, and (C) have not received notice of any actual or potential liability under or relating to any Environmental Laws, including for the investigation or remediation of any disposal or release of hazardous or toxic substances or wastes, pollutants or contaminants, and have no knowledge of any event or condition that would reasonably be expected to result in any such notice, and (ii) there are no costs or liabilities associated with Environmental Laws of or relating to the Company or its subsidiaries, except in the case of each of (i) and (ii) above, for any such failure to comply, or failure to receive required permits, licenses or approvals, or cost or liability, as could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect; and (iii) except as otherwise disclosed in the Offering Memorandum, (A) there are no proceedings that are pending, or that are known to be contemplated, against the Company or any of its subsidiaries under any Environmental Laws in which a governmental entity is also a party, other than such proceedings regarding which it is reasonably believed no monetary sanctions of $100,000 or more will be imposed, (B) the Company and its subsidiaries are not aware of any issues regarding compliance with Environmental Laws, or liabilities or other obligations under Environmental Laws or concerning hazardous or toxic substances or wastes, pollutants or contaminants, that could reasonably be expected to have a Material Adverse Effect, and (C) none of the Company and its subsidiaries anticipates material capital expenditures relating to any Environmental Laws. Except as otherwise disclosed in the Offering Memorandum, there has been no storage, generation, transportation, handling, treatment,

disposal, discharge, emission, or other release of any kind of toxic wastes or hazardous substances, including, but not limited to, any naturally occurring radioactive materials, brine, drilling mud, crude oil, natural gas liquids and other petroleum materials, by, due to or caused by the Company or any of its subsidiaries (or, to the knowledge of the Company and the Guarantors, any other entity (including any predecessor) for whose acts or omissions the Company or any of its subsidiaries is or could reasonably be expected to be liable) upon any of the property now or previously owned or leased by the Company or any of its subsidiaries, or upon any other property, in violation of any Environmental Laws or in a manner or to a location that could reasonably be expected to give rise to any liability under the Environmental Laws, except for any violation or liability which could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect.

(hh) **ERISA.** Each employee benefit plan, within the meaning of Section 3(3) of the Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), for which the Company or any member of its "Controlled Group" (defined as any organization which is a member of a controlled group of corporations within the meaning of Section 414 of the Internal Revenue Code of 1986, as amended (the "**Code**")) would have any liability (each, a "**Plan**") has been maintained in compliance with its terms and the requirements of any applicable statutes, orders, rules and regulations, including but not limited to ERISA and the Code except for any noncompliance which could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect; (i) no prohibited transaction, within the meaning of Section 406 of ERISA or Section 4975 of the Code, has occurred with respect to any Plan excluding transactions effected pursuant to a statutory or administrative exemption; (ii) for each Plan that is subject to the funding rules of Section 412 of the Code or Section 302 of ERISA, there has been no failure to satisfy the minimum funding standard of Section 412 of the Code, whether or not waived, and none is reasonably expected to occur; (iii) the fair market value of the assets of each Plan exceeds the present value of all benefits accrued under such Plan (determined based on those assumptions used to fund such Plan); (iv) no "reportable event" (within the meaning of Section 4043(c) of ERISA) has occurred or is reasonably expected to occur; and (v) neither the Company nor any member of the Controlled Group has incurred, nor reasonably expects to incur, any liability under Title IV of ERISA (other than contributions to the Plan or premiums to the Pension Benefit Guaranty Corporation, in the ordinary course and without default) in respect of a Plan (including a "multiemployer plan", within the meaning of Section 4001(a)(3) of ERISA).

(ii) **No Labor Disturbance.** No labor disturbance by or dispute with employees of the Company or any of its subsidiaries exists or, to the knowledge of the Company and the Guarantors, is contemplated or threatened and the Company is not aware of any existing or imminent labor disturbance by, or dispute with, the employees of any of its or its subsidiaries' principal suppliers, contractors or customers, except, in each case, as could not reasonably be expected to have a Material Adverse Effect.

(jj) **No Unlawful Payments.** None of the Company, any of its subsidiaries or, to the knowledge of the Company and the Guarantors, any director, officer, agent, employee, affiliate or other person acting on behalf of the Company or any of its subsidiaries is aware of or has taken any action, directly or indirectly, that would result in a violation by such persons of the Foreign Corrupt Practices Act of 1977, as amended, and the rules and regulations thereunder (the "**FCPA**"), including, without

limitation, making use of the mails or any means or instrumentality of interstate commerce corruptly in furtherance of an offer, payment, promise to pay or authorization of the payment of any money, or other property, gift, promise to give, or authorization of the giving of anything of value to any "foreign official" (as such term is defined in the FCPA) or any foreign political party or official thereof or any candidate for foreign political office, in contravention of the FCPA and the Company, its subsidiaries and, to the knowledge of the Company and the Guarantors, its affiliates have conducted their businesses in compliance with the FCPA and have instituted and maintain policies and procedures designed to ensure, and which are reasonably expected to continue to ensure, continued compliance therewith.

(kk) **No Conflict with Money Laundering Laws.** The operations of the Company and its subsidiaries are and have been conducted at all times in compliance with applicable financial recordkeeping and reporting requirements of the USA Patriot Act, the Bank Secrecy Act of 1970, as amended, the money laundering statutes of all jurisdictions, the rules and regulations thereunder and any related or similar rules, regulations or guidelines, issued, administered or enforced by any governmental agency (collectively, the "**Money Laundering Laws**"); and no action, suit or proceeding by or before any court or governmental agency, authority or body or any arbitrator or non-governmental authority involving the Company or any of its subsidiaries with respect to the Money Laundering Laws is pending or, to the knowledge of the Company and the Guarantors, threatened.

(ll) **No Conflict with Sanctions Laws.** Neither the Company nor any of its subsidiaries nor, to the knowledge of the Company and the Guarantors, any director, officer, agent, employee or affiliate of the Company or any of its subsidiaries is currently subject to any sanctions administered or enforced by the Office of Foreign Assets Control of the United States Treasury Department, the U.S. Department of Commerce, the U.S. Department of State, the United Nations Security Council, the European Union, Her Majesty's Treasury or any other relevant sanctions authority; and the Company will not directly or indirectly use the proceeds of the offering of the Securities contemplated hereby, or lend, contribute or otherwise make available such proceeds to any subsidiary, joint venture partner or other person or entity for the purpose of financing the activities of any person currently subject to any sanctions administered or enforced by such authorities.

(mm) **Forward-Looking Information.** No "forward-looking statement" (within the meaning of Section 27A of the Securities Act or Section 21E of the Exchange Act) contained in the Offering Memorandum has been made or reaffirmed without a reasonable basis or has been disclosed other than in good faith.

(nn) **Statistical and Market-Related Data.** Nothing has come to the attention of the Company that has caused the Company to believe that the statistical and market-related data included or incorporated by reference in the Offering Memorandum is not based on or derived from sources that are reliable and accurate in all material respects.

(oo) **USA Patriot Act.** The Company acknowledges that, in accordance with the requirements of the USA Patriot Act, the Initial Purchasers are required to obtain, verify and record information that identifies their respective clients, including the Company, which information may include the name and

address of their respective clients, as well as other information that will allow the Initial Purchasers to properly identify their respective clients.

(pp) **No Restrictive Agreements.** Except as otherwise disclosed in the Offering Memorandum, no subsidiary of the Company is currently prohibited, directly or indirectly, under any agreement or other instrument to which it is a party or is subject, from paying any dividends to the Company, from making any other distribution on such subsidiary's capital stock, from repaying to the Company any loans or advances to such subsidiary from the Company or from transferring any of such subsidiary's properties or assets to the Company or any other subsidiary of the Company.

(qq) **Health Care Law Filings and Licensure.** Except as set forth in or contemplated in the Offering Memorandum, all reports, documents, claims, notices or approvals required to be filed, obtained, maintained or furnished pursuant to any Health Care Law (as defined below) or as otherwise required by the Centers for Medicare & Medicaid Services, Medicare or Medicaid or similar state program (each a "**Government Program**"), or applicable state departments of insurance, health and/or public health or any other governmental authority, have been so filed, obtained, maintained or furnished, and all such reports, documents, claims and notices were complete and correct in all material respects on the date filed (or were corrected in or supplemented by a subsequent filing), except where the failure to do so could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect. Each of the Company and its subsidiaries which are licensed to conduct the business of health insurance or of a health maintenance organization is in current compliance with applicable deposit, reserve, risk based or other capital requirements imposed by each applicable state department of insurance. Additionally, the Company and each such subsidiary of the Company currently maintains all cash, marketable securities or other assets required to be retained by the Company or any of its subsidiaries pursuant to any applicable Health Care Laws, including any state statutory capital reserve requirements. None of the Company, its subsidiaries, nor, to the knowledge of the Company and the Guarantors, any officer, director, employee or other agent of the Company or any of its subsidiaries, has engaged on behalf of the Company or such subsidiary in any of the following: (i) knowingly and willfully making or causing to be made a false statement or representation of a material fact in any applications for any benefit or payment under a Government Program or from any third party (where applicable federal or state law prohibits such payments to third parties); (ii) knowingly and willfully making or causing to be made any false statement or representation of a material fact for use in determining rights to any benefit or payment under a Government Program or from any third party (where applicable federal or state law prohibits such payments to third parties); (iii) knowingly and willfully failing to disclose knowledge by a claimant of the occurrence of any event affecting the initial or continued right to any benefit or payment under a Government Program or from any third party (where applicable federal or state law prohibits such payments to third parties) on its own behalf or on behalf of another, with intent to secure such benefit or payment fraudulently; (iv) knowingly and willfully offering, paying, soliciting or receiving any remuneration (including any kickback, bribe or rebate), directly or indirectly, overtly or covertly, in cash or in kind (A) in return for referring an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made in whole or in part by a Government Program or plan or any third party (where applicable federal or state law prohibits such payments to third

parties), or (B) in return for purchasing, leasing or ordering or arranging for or recommending the purchasing, leasing or ordering of any good, facility, service, or item for which payment may be made in whole or in part by a Government Program or plan or any third (where applicable federal or state law prohibits such payments to third parties).

(rr) **Government Programs and Health Care Laws.** To the extent required in connection with their respective businesses, each of the Company and its subsidiaries is in compliance with each of its contracts and all other conditions of participation in a Government Program in the state or states in which such entity operates except where failure to be in compliance could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect; neither the Company nor any of its subsidiaries is subject to any pending, or, to the knowledge of the Company and the Guarantors, threatened or contemplated action, audit or investigation which could reasonably be expected to result in a revocation, suspension, termination, restriction or non-renewal of any third party payor participation agreement or the Company's or any significant subsidiary's participation in any Government Program; and the Company and each significant subsidiary has been in compliance with all applicable Health Care Laws, except as set forth in or contemplated in the Offering Memorandum and except to the extent that failure to be in compliance could not reasonably be expected, individually or in the aggregate, to have a Material Adverse Effect. For purposes of this Agreement, "**Health Care Laws**" shall mean all federal, state and local laws governing managed care organizations, health maintenance organizations, health insurance or other risk bearing entity, for the payment of health care services, including, without limitation: (i) Titles XVIII and XIX of the Social Security Act, governing the Medicare and Medicaid programs and regulations pertaining thereto, and all state laws and regulations governing the Medicaid programs; (ii) Sections 1320a-7, 1320a-7a and 1320a-7b of Title 42 of the United States Code; (iii) the False Claims Act, 31 U.S.C. Sections 3729-3733; (iv) the Stark law, 42 U.S.C. § 1395nn; (v) the Federal Criminal False Claims Act, 18 U.S.C. § 287; (vi) the False Statements Relating to Health Care Matters statute, 18 U.S.C. § 1035; (vii) the Health Care Fraud statute, 18 U.S.C. § 1347; (viii) the Health Insurance Portability and Accountability Act of 1996, as amended by the Health Information Technology for Economic and Clinical Health Act and applicable state health care privacy and security laws; (ix) any fee-splitting statutes and corporate practice of medicine laws and regulations in the states in which the Company and each significant subsidiary operates a community clinic; and (x) any and all other similar laws, the regulations promulgated pursuant to each of (i) through (x), each as amended from time to time. The Company and each subsidiary have taken reasonable actions designed to ensure that they do not allow any individual with an ownership or control interest (as defined in 42 U.S.C. § 1320a-3(a)(3)) in the Company or any subsidiary or any officer, director or managing employee (as defined in 42 U.S.C. § 1320a-5(b)) of the Company or any subsidiary who would be a person excluded from participation in any federal health care program (as defined in 42 U.S.C. § 1320a-7b(f)) as described in 42 U.S.C. § 1320a- 7(b)(8) to participate in any such federal health care program maintained by the Company or any significant subsidiary; and the Company and its significant subsidiaries have structured their respective business practices in a manner reasonably designed to comply with the federal and state laws regarding physician ownership of (or financial relationship with), and the referral to entities providing, healthcare related goods or services, and laws requiring disclosure of financial interests held by physicians in entities to which they may refer patients for the provisions of health care related goods and services, and the

Company reasonably believes that it is in material compliance with such laws. There are no proceedings that are pending, or that are known by the Company to be contemplated, against the Company or any of its subsidiaries under any Health Care Laws in which a governmental entity is also a party, other than such proceedings that could not reasonably be expected to have a Material Adverse Effect. Except as otherwise disclosed in the Offering Memorandum, neither the Company, nor any of its subsidiaries, has any material outstanding overpayments or refunds due under the Government Program contracts.

(ss) **Business with Cuba.** The Company has complied with all provisions of Section 517.075, Florida Statutes (Chapter 92-198, Laws of Florida) relating to doing business with the Government of Cuba or with any person or affiliate located in Cuba.

(tt) **Regulation S.** The Company, the Guarantors and their respective affiliates and all persons acting on their behalf (other than the Initial Purchasers, as to whom the Company and the Guarantors make no representation) have complied with and will comply with the offering restrictions requirements of Regulation S in connection with the offering of the Securities outside the United States and, in connection therewith, the Offering Memorandum will contain the disclosure required by Rule 902 under the Securities Act. The Company is a "reporting issuer", as defined in Rule 902 under the Securities Act.

(uu) **No Registration Rights.** Except as described in the Offering Memorandum, there are no contracts, agreements or understandings between the Company, any Guarantor and any person granting such person the right (other than rights that have been waived in writing or otherwise satisfied) to require the Company or any Guarantor to file a registration statement under the Securities Act with respect to any securities of the Company or any Guarantor owned or to be owned by such person or in any securities being registered pursuant to any other registration statement filed by the Company or any Guarantor under the Securities Act.

Any certificate signed by an officer of the Company or any Guarantor and delivered to the Initial Purchasers or to counsel for the Initial Purchasers shall be deemed to be a representation and warranty by the Company or such Guarantor to each Initial Purchaser as to the matters set forth therein.

SECTION 3. **Covenants of the Company and the Guarantors.** Each of the Company and the Guarantors, jointly and severally, further covenants and agrees with each Initial Purchaser as follows:

(a) **Copies of the Offering Memorandum.** The Company will furnish to the Initial Purchasers and to counsel for the Initial Purchasers, without charge, as many copies of the Pricing Disclosure Package and the Final Offering Memorandum and any amendments and supplements thereto as they shall reasonably request.

(b) **Final Offering Memorandum; Amendments and Supplements.** The Company will prepare and deliver to the Initial Purchasers the Final Offering Memorandum in the form approved by the Representative. The Company will not amend or supplement the Final Offering Memorandum prior to the Closing Date unless the Representative shall previously have been furnished a copy of the proposed amendment or supplement a reasonable period of time prior to the proposed use or filing, and shall not have reasonably objected to such amendment or supplement. Before making, preparing, using,

authorizing, approving or distributing any Company Additional Written Communication, the Company will furnish to the Representative a copy of such written communication for review and will not make, prepare, use, authorize, approve or distribute any such written communication to which the Representative reasonably objects.

(c) **Amendments and Supplements to the Final Offering Memorandum and Other Securities Act Matters.**

At any time prior to the Closing Date, if (i) any event occurs or condition exists as a result of which any of the Pricing Disclosure Package, as then amended or supplemented, would include any untrue statement of a material fact or omit to state any material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading or (ii) it is necessary to amend or supplement any of the Pricing Disclosure Package, to comply with applicable law, the Company and the Guarantors will immediately notify the Initial Purchasers thereof and will prepare and (subject to Section 3(a) hereof) provide to the Initial Purchasers such amendments or supplements to any of the Pricing Disclosure Package so that the statements in any of the Pricing Disclosure Package as so amended or supplemented will not, in the light of the circumstances under which they were made, be misleading or so that any of the Pricing Disclosure Package will comply with all applicable law.

Prior to the completion of the placement of the Securities by the Initial Purchasers with the Subsequent Purchasers, if any event occurs or condition exists as a result of which it is necessary to amend or supplement the Final Offering Memorandum, as then amended or supplemented, in order to make the statements therein, in the light of the circumstances when the Final Offering Memorandum is delivered to a Subsequent Purchaser, not misleading, or if in the judgment of the Representative or counsel for the Initial Purchasers it is otherwise necessary to amend or supplement the Final Offering Memorandum to comply with applicable law, the Company and the Guarantors agree to promptly prepare (subject to this Section 3) and provide at its own expense to the Initial Purchasers, amendments or supplements to the Final Offering Memorandum so that the statements in the Final Offering Memorandum as so amended or supplemented will not, in the light of the circumstances at the Closing Date and at the time of sale of the Securities, be misleading or so that the Final Offering Memorandum, as amended or supplemented, will comply with all applicable law.

The Company hereby expressly acknowledges that the indemnification and contribution provisions of Section 7 hereof are specifically applicable and relate to each offering memorandum, registration statement, prospectus, amendment or supplement referred to in this Section 3.

(d) **Use of Proceeds.** The Company shall apply the net proceeds from the sale of the Securities as described under the caption "Use of Proceeds" in the Pricing Disclosure Package.

(e) **The Depositary.** The Company will assist the Initial Purchasers and use commercially reasonable efforts to permit the Securities to be eligible for clearance and settlement through the facilities of the Depositary.

(f) **Additional Information.** So long as any of the Securities are "restricted securities" within the meaning of Rule 144(a)(3) under the Securities Act, at any time when the Company is not subject to Section 13 or 15(d) of the Exchange Act, for the benefit of holders and beneficial owners from time to time of the Securities, the Company shall furnish, at its expense, upon request, to holders and beneficial owners of the Securities and prospective purchasers of the Securities information satisfying the requirements of Rule 144A(d).

(g) **No Other Securities.** During the period of 60 days following the date hereof, the Company will not, without the prior written consent of SunTrust (which consent may be withheld at the sole discretion of SunTrust), directly or indirectly, sell, offer, contract or grant any option to sell, pledge, transfer or establish an open "put equivalent position" within the meaning of Rule 16a-1 under the Exchange Act, or otherwise dispose of or transfer, or announce the offering of, or file any registration statement under the Securities Act in respect of, any debt securities of the Company or securities exchangeable for or convertible into debt securities of the Company, except (i) as contemplated by this Agreement, (ii) for the vesting of or removal or lapse of restrictions on restricted stock or other awards under any employee benefit plan or agreement disclosed in the Offering Memorandum in accordance with the terms of such plan or agreement, and (iii) for the filing of any registration statement in respect of securities offered pursuant to the terms of any existing employee benefit plan or agreement disclosed in the Offering Memorandum, in each case without SunTrust's prior written consent.

(h) **Blue Sky Compliance.** Each of the Company and the Guarantors shall cooperate with the Representative and counsel for the Initial Purchasers to qualify or register (or to obtain exemptions from qualifying or registering) all or any part of the Securities for offer and sale under the securities laws of the several states of the United States, the provinces of Canada or any other jurisdictions designated by the Representative, shall comply with such laws and shall continue such qualifications, registrations and exemptions in effect so long as required for the distribution of the Securities. None of the Company or any of the Guarantors shall be required to qualify as a foreign corporation or to take any action that would subject it to general service of process in any such jurisdiction where it is not presently qualified or where it would be subject to taxation as a foreign corporation. The Company will advise the Representative promptly of the suspension of the qualification or registration of (or any such exemption relating to) the Securities for offering, sale or trading in any jurisdiction or any initiation or threat of any proceeding for any such purpose, and in the event of the issuance of any order suspending such qualification, registration or exemption, each of the Company and the Guarantors shall use its best efforts to obtain the withdrawal thereof at the earliest possible moment.

(i) **No Integration.** The Company agrees that it will not and will cause its Affiliates, directly or through any agent, not to make any offer or sale of securities of the Company of any class if, as a result of the doctrine of "integration" referred to in Rule 502 under the Securities Act, such offer or sale would render invalid the sale of the Securities pursuant hereto.

(j) **No General Solicitation or Directed Selling Efforts.** The Company agrees that it will not and will not permit any of its Affiliates or any other person acting on its or their behalf (other than the Initial Purchasers, as to which no covenant is given) to (i) solicit offers for, or offer or sell, the Securities

by means of any form of general solicitation or general advertising within the meaning of Rule 502(c) of Regulation D without the prior written consent of the Representative or in any manner involving a public offering within the meaning of Section 4(a)(2) of the Securities Act or (ii) engage in any directed selling efforts with respect to the Securities within the meaning of Regulation S, and the Company will and will cause all such persons to comply with the offering restrictions requirement of Regulation S with respect to the Securities.

(k) **Legended Securities.** Each certificate for a Security will bear the legend contained in "Notice to Investors" in the Preliminary Offering Memorandum for the time period and upon the other terms stated in the Preliminary Offering Memorandum.

(l) **No Resales.** The Company will not, and will not permit any of its affiliates (as defined in Rule 144A under the Securities Act) to, resell any of the Securities that have been acquired by any of them, other than pursuant to an effective registration statement under the Securities Act or in accordance with Rule 144 under the Securities Act.

(m) **Additional Issuer Information.** Subject to Section 3(b) hereof, prior to the completion of the placement of the Securities by the Initial Purchasers with the Subsequent Purchasers, the Company shall file, on a timely basis, with the Commission all reports and documents required to be filed under Section 13 or 15 of the Exchange Act. Additionally, at any time when the Company is not subject to Section 13 or 15 of the Exchange Act, for the benefit of holders and beneficial owners from time to time of the Securities, the Company shall furnish, at its expense, upon request, to holders and beneficial owners of the Securities and prospective purchasers of the Securities information satisfying the requirements of Rule 144A(d).

The Representative on behalf of the several Initial Purchasers, may, in its sole discretion, waive in writing the performance by the Company or any Guarantor of any one or more of the foregoing covenants or extend the time for their performance.

SECTION 4. **Conditions of the Obligations of the Initial Purchasers.** The obligations of the several Initial Purchasers to purchase and pay for the Securities shall be subject to the accuracy of the representations and warranties of the Company and the Guarantors in Section 2 hereof, in each case as of the date hereof and as of the Closing Date, as if made on and as of the Closing Date and to the timely performance by the Company of its covenants and other obligations hereunder, and to each of the following additional conditions:

(a) **Comfort Letters.** The Initial Purchasers shall have received on each of the date hereof and the Closing Date a letter, dated the date hereof or the Closing Date, as the case may be, in form and substance satisfactory to the Initial Purchasers and counsel to the Initial Purchasers, from Ernst & Young LLP, independent registered public accounting firm, containing statements and information of the type ordinarily included in accountants' "comfort letters" to underwriters with respect to the financial statements and certain financial information contained or incorporated in the Pricing Disclosure Package and Final Offering Memorandum; provided that the letter shall use a "cut-off date" within three days of

the date of such letter and that their procedures shall extend to financial information in the Final Offering Memorandum not contained or incorporated in the Pricing Disclosure Package. References to the Final Offering Memorandum in this paragraph with respect to either letter referred to above shall include any amendment or supplement thereto at the date of such letter.

(b) **No Material Adverse Change.** For the period from and after the date of this Agreement and prior to the Closing Date, no event or condition of a type described in Section 2(l) hereof shall have occurred or shall exist, the effect of which in the judgment of the Representative makes it impracticable or inadvisable to proceed with the offering, sale or delivery of the Securities on the terms and in the manner contemplated by this Agreement, the Pricing Disclosure Package and the Final Offering Memorandum.

(c) **No Ratings Agency Change.** For the period from and after the date of this Agreement and prior to the Closing Date, there shall not have occurred any downgrading, nor shall any notice have been given of any intended or potential downgrading or of any review for a possible change that does not indicate the direction of the possible change, in the rating accorded the Company or any of its subsidiaries or any of their securities or indebtedness by any "nationally recognized statistical rating organization" as such term is used by the Commission in Section 15E under the Exchange Act.

(d) **Opinion of Counsel for the Company.** On the Closing Date, the Initial Purchasers shall have received the favorable opinion, dated as of the Closing Date, of Boutin Jones Inc., counsel for the Company, in form and substance satisfactory to the Initial Purchasers and counsel to the Initial Purchasers, the form of which is attached as Exhibit A hereto.

(e) **Opinion of Chief Legal Officer.** On the Closing Date, the Initial Purchasers shall have received the favorable opinion, dated as of the Closing Date, of Jeffrey D. Barlow, the Company's Chief Legal Officer and Secretary, in form and substance satisfactory to the Initial Purchasers and counsel to the Initial Purchasers, the form of which is attached as Exhibit B hereto.

(f) **Opinion of Counsel for the Initial Purchasers.** On the Closing Date, the Initial Purchasers shall have received the favorable opinion, dated as of the Closing Date, of Latham & Watkins LLP, counsel for the Initial Purchasers, with respect to such matters as may be reasonably requested by the Initial Purchasers.

(g) **Officer's Certificate.** On the Closing Date, the Initial Purchasers shall have received a certificate, dated as of the Closing Date, executed by the Chief Executive Officer or Chief Financial Officer of the Company and each Guarantor, to the effect set forth in Sections 4(b) and 4(c) hereof, and further to the effect that: (i) the representations, warranties and covenants of the Company and the Guarantors set forth in Section 2 hereof were true and correct as of the date hereof and are true and correct as of the Closing Date with the same force and effect as though expressly made on and as of the Closing Date; and (ii) each of the Company and the Guarantors has complied with all the agreements and satisfied all the conditions on its part to be performed or satisfied at or prior to the Closing Date.

(h) **Indenture and Securities.** The Indenture shall have been duly executed and delivered by a duly authorized officer of the Company, each of the Guarantors and the Trustee, and the Securities shall

have been duly executed and delivered by a duly authorized officer of the Company and duly authenticated by the Trustee.

(i) **Use of Proceeds.** On the Closing Date, the Company shall place the net proceeds from the offering of the Securities in a segregated deposit bank account in the name of the Company, such net proceeds to be used as described under the caption "Use of Proceeds" in the Pricing Disclosure Package and the Final Offering Memorandum.

(j) **Additional Documents.** On or before the Closing Date, the Initial Purchasers and counsel for the Initial Purchasers shall have received such information, documents and opinions as they may reasonably request.

If any condition specified in this Section 4 is not satisfied or waived by the Representative when and as required to be satisfied, this Agreement may be terminated by the Representative by notice to the Company at any time on or prior to the Closing Date, which termination shall be without liability on the part of any party to any other party, subject to survival of the provisions referenced in Section 8 hereof.

SECTION 5. **Offer and Sale Procedures.** Each of the Initial Purchasers, on the one hand, and the Company and each of the Guarantors, on the other hand, hereby agree to observe the following procedures in connection with the offer and sale of the Securities:

(a) Offers and sales of the Securities will be made only by the Initial Purchasers or Affiliates thereof qualified to do so in the jurisdictions in which such offers or sales are made. Each such offer or sale of the Securities shall be made only to persons whom the offeror or seller reasonably believes to be Qualified Institutional Buyers or non-U.S. persons outside the United States to whom the offeror or seller reasonably believes offers and sales of the Securities may be made in reliance upon Regulation S upon the terms and conditions set forth in Annex I hereto, which Annex I is hereby expressly made a part hereof.

(b) Upon original issuance by the Company, and until such time as the same is no longer required under the applicable requirements of the Securities Act, the Securities (and all securities issued in exchange therefor or in substitution thereof) shall bear the following legend:

"THIS NOTE (OR ITS PREDECESSOR) WAS ORIGINALLY ISSUED IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE UNITED STATES SECURITIES ACT OF 1933 (THE "SECURITIES ACT"),AND THIS NOTE MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED IN THE ABSENCE OF SUCH REGISTRATION OR AN APPLICABLE EXEMPTION THEREFROM. EACH PURCHASER OF THIS NOTE IS HEREBY NOTIFIED THAT THE SELLER OF THIS NOTE MAY BE RELYING ON THE EXEMPTION FROM THE PROVISIONS OF SECTION 5 OF THE SECURITIES ACT PROVIDED BY RULE 144A THEREUNDER.

THE HOLDER OF THIS NOTE AGREES FOR THE BENEFIT OF THE COMPANY THAT (A) THIS NOTE MAY BE OFFERED, RESOLD, PLEDGED OR OTHERWISE TRANSFERRED, ONLY (I) TO THE COMPANY, (II) IN THE UNITED STATES TO A

PERSON WHOM THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT) IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A, (III) TO AN INSTITUTIONAL "ACCREDITED INVESTOR" WITHIN THE MEANING OF RULE 501(a)(1), (2), (3), (7) AND (8) UNDER THE SECURITIES ACT THAT IS AN INSTITUTIONAL INVESTOR ACQUIRING THE NOTE FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF SUCH AN INSTITUTIONAL "ACCREDITED INVESTOR," IN EACH CASE IN A MINIMUM PRINCIPAL AMOUNT OF $250,000 (IV) OUTSIDE THE UNITED STATES IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH RULE 904 OF THE SECURITIES ACT, (V) PURSUANT TO AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT PROVIDED BY RULE 144 THEREUNDER (IF AVAILABLE) OR (VI) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT, IN EACH OF CASES (I) THROUGH (VI) IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES, AND (B) THE HOLDER WILL, AND EACH SUBSEQUENT HOLDER IS REQUIRED TO, NOTIFY ANY PURCHASER OF THIS NOTE FROM IT OF THE RESALE RESTRICTIONS REFERRED TO IN (A) ABOVE."

Following the sale of the Securities by the Initial Purchasers to Subsequent Purchasers pursuant to the terms hereof, except as expressly set forth in Sections 7(b) and 7(d) hereof, the Initial Purchasers shall not be liable or responsible to the Company or the Guarantors for any losses, damages or liabilities suffered or incurred by the Company or the Guarantors for any reason, including any losses, damages or liabilities under the Securities Act, arising from or relating to any resale or transfer of any Security.

SECTION 6. **Payment of Expenses.**

(a) Whether or not the transactions contemplated in this Agreement are consummated or this Agreement is terminated, the Company and the Guarantors will pay or cause to be paid all costs, fees and expenses incident to the performance of its and the Guarantors' obligations under this Agreement and in connection with the transactions contemplated hereby, including, without limitation, (i) all expenses incident to the preparation, issuance and delivery of the Securities, (ii) all costs and expenses related to the issuance and delivery of the Securities to the Initial Purchasers, including any transfer or other taxes payable thereon, (iii) all fees, disbursements and expenses of the Company's counsel, the Company's accountants and other advisors (if any) in connection with the issuance and sale of the Securities and all other fees or expenses in connection with the preparation of the Pricing Disclosure Package, any Permitted General Solicitation and the Final Offering Memorandum and all amendments and supplements thereto, and the Transaction Documents, including all printing costs associated therewith, and the delivering of copies thereof to the Initial Purchasers, (iv) the fees and expenses of the Trustee, including the fees and disbursements of counsel for the Trustee in connection with the Indenture and the Securities, (v) all filing fees, attorneys' fees and expenses incurred by the Company, the Guarantors or the Initial Purchasers in connection with qualifying or registering (or obtaining exemptions from the qualification or registration of) all or any part of the Securities for offer and sale under the securities laws of the several states of the United States, the provinces of Canada or other jurisdictions designated by the Initial Purchasers

(including, without limitation, the cost of preparing, printing and mailing preliminary and final blue sky or legal investment memoranda and any related supplements to the Pricing Disclosure Package or the Final Offering Memorandum), (vi) any fees payable in connection with the rating of the Securities with the ratings agencies, (vii) any filing fees incident to, and any reasonable fees and disbursements of counsel to the Initial Purchasers in connection with the review by FINRA, if any, of the terms of the sale of the Securities (viii) all fees and expenses (including reasonable fees and expenses of counsel) of the Company and the Guarantors in connection with approval of the Securities by the Depositary for "book-entry" transfer, and the performance by the Company and the Guarantors of their respective other obligations under this Agreement and (ix) all costs and expenses relating to investor presentations, including any "road show" presentations undertaken in connection with the marketing of the offering of the Securities, including, without limitation, expenses associated with the production of road show slides and graphics and fees and expenses of any consultants engaged in connection with the road show presentations. It is understood, however, that except as provided in this Section 6 and Section 8 hereof, the Initial Purchasers shall pay their own expenses, including the fees and disbursements of their counsel.

(b) If the sale of the Securities provided for herein is not consummated because any condition to the obligations of the Initial Purchasers set forth in Section 5 hereof is not satisfied, because this Agreement is terminated pursuant to Section 8 hereof or because of any failure, refusal or inability on the part of the Company or the Guarantors to perform all obligations and satisfy all conditions on its part to be performed or satisfied hereunder other than by reason of a default by any of the Initial Purchasers, the Company and the Guarantors will reimburse the Initial Purchasers upon demand for all reasonable out-of-pocket expenses (including, without limitation, fees and disbursements of counsel, printing expenses, travel expenses, postage, facsimile and telephone charges) that shall have been incurred by them in connection with the proposed purchase, offering and sale of the Securities.

SECTION 7. **Indemnification.**

(a) **Indemnification by the Company and the Guarantors.** Each of the Company and the Guarantors, jointly and severally, agrees to indemnify and hold harmless each Initial Purchaser, its affiliates, directors, officers and employees, and each person, if any, who controls (within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act) any Initial Purchaser against any and all losses, claims, damages, liabilities or expenses, joint or several, to which such Initial Purchaser, affiliate, director, officer, employee or controlling person may become subject, under the Securities Act, the Exchange Act or other federal or state statutory law or regulation, or at common law or otherwise (including in settlement of any litigation, if such settlement is effected with the written consent of the Company), insofar as such losses, claims, damages, liabilities or expenses (or actions in respect thereof as contemplated below) arise out of or are based upon any untrue statement or alleged untrue statement of a material fact contained or incorporated in the Preliminary Offering Memorandum, the Pricing Supplement, any Company Additional Written Communication, any Permitted General Solicitation or the Final Offering Memorandum (or any amendment or supplement thereto), or the omission or alleged omission therefrom of a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading; and will reimburse each Initial Purchaser and each such affiliate, director, officer, employee or controlling person for any and all expenses (including the

fees and disbursements of counsel chosen by SunTrust) as such expenses are reasonably incurred by such Initial Purchaser or such affiliate, director, officer, employee or controlling person in connection with investigating, defending, settling, compromising or paying any such loss, claim, damage, liability, expense or action; provided, however, that the Company and the Guarantors will not be liable in any such case to the extent, but only to the extent, that any such loss, claim, damage, liability or expense arises out of or is based upon any untrue statement or alleged untrue statement or omission or alleged omission made in reliance upon and in conformity with written information relating to such Initial Purchaser and furnished to the Company by such Initial Purchaser through the Representative expressly for use in the Preliminary Offering Memorandum, the Pricing Supplement, any Company Additional Written Communication or the Final Offering Memorandum (or any amendment or supplement thereto). The indemnity agreement set forth in this Section 7(a) shall be in addition to any liabilities that the Company may otherwise have.

(b) **Indemnification by the Initial Purchasers.** Each Initial Purchaser agrees, severally and not jointly, to indemnify and hold harmless the Company, each Guarantor, each of their respective affiliates, directors, officers and each person, if any, who controls the Company or any Guarantor within the meaning of Section 15 of the Securities Act or Section 20 of the Exchange Act, against any and all losses, claims, damages, liabilities or expenses, as incurred, to which the Company, any Guarantor or any such affiliate, director, officer or controlling person may become subject, under the Securities Act, the Exchange Act, or other federal or state statutory law or regulation, or at common law or otherwise (including in settlement of any litigation, if such settlement is effected with the written consent of such Initial Purchaser), insofar as such loss, claim, damage, liability or expense (or actions in respect thereof as contemplated below) arises out of or is based upon any untrue statement or alleged untrue statement of a material fact contained or incorporated in the Preliminary Offering Memorandum, the Pricing Supplement, any Company Additional Written Communication or the Final Offering Memorandum (or any amendment or supplement thereto), or the omission or alleged omission therefrom of a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading, in each case to the extent, but only to the extent, that such untrue statement or alleged untrue statement or omission or alleged omission was made in the Preliminary Offering Memorandum, the Pricing Supplement, any Company Additional Written Communication or the Final Offering Memorandum (or any amendment or supplement thereto), in reliance upon and in conformity with written information relating to such Initial Purchaser and furnished to the Company by such Initial Purchaser through the Representative expressly for use therein; and to reimburse the Company, any Guarantor and each such director or controlling person for any and all expenses (including the fees and disbursements of counsel) as such expenses are reasonably incurred by the Company, any Guarantor or such director or controlling person in connection with investigating, defending, settling, compromising or paying any such loss, claim, damage, liability, expense or action. Each of the Company and the Guarantors hereby acknowledges that the only information that the Initial Purchasers through the Representative have furnished to the Company expressly for use in the Preliminary Offering Memorandum, the Pricing Supplement, any Company Additional Written Communication or the Final Offering Memorandum (or any amendment or supplement thereto) are the statements set forth in the fourth paragraph, the third sentence of the sixth paragraph and the seventh paragraph under the caption “Plan of Distribution” in the Preliminary Offering Memorandum and the Final Offering Memorandum. The indemnity agreement set

forth in this Section 7(b) shall be in addition to any liabilities that each Initial Purchaser may otherwise have.

(c) **Notices and Procedures.** Promptly after receipt by any person to whom indemnity may be available under this Section 7 (the "**indemnified party**") of notice of the commencement of any action, such indemnified party will, if a claim in respect thereof is to be made against any person from whom indemnity may be sought under this Section 7 (the "**indemnifying party**"), notify such indemnifying party in writing of the commencement thereof; provided that the failure to so notify such indemnifying party will not relieve such indemnifying party from any liability which it may have to such indemnified party under this Section 7 except to the extent that it has been materially prejudiced by such failure (through the forfeiture of substantive rights and defenses) and shall not relieve such indemnifying party from any liability that such indemnifying party may have to such indemnified party other than under this Section 7. In case any such action is brought against any indemnified party and such indemnified party notifies the relevant indemnifying party of the commencement thereof, such indemnifying party will be entitled to participate therein and, to the extent that it may wish, to assume the defense thereof, jointly with any other indemnifying party similarly notified, with counsel reasonably satisfactory to such indemnified party; provided, however, if the defendants in any such action (including impleaded parties) include both the indemnified party and the indemnifying party and the indemnified party shall have concluded that a conflict may arise between the positions of the indemnifying party and the indemnified party in conducting the defense of any such action or that there may be legal defenses available to it and/or other indemnified parties which are different from or additional to those available to the indemnifying party, the indemnified party or parties shall have the right to select separate counsel to assume such legal defenses and to otherwise participate in the defense of such action on behalf of such indemnified party or parties. After notice from the indemnifying party to such indemnified party of its election so to assume the defense thereof and approval by the indemnified party of counsel appointed to defend such action, the indemnifying party will not be liable to such indemnified party under this Section 7 for any legal or other expenses other than reasonable costs of investigation, subsequently incurred by such indemnified party in connection with the defense thereof, unless (i) the indemnified party shall have employed separate counsel in accordance with the proviso to the immediately preceding sentence (it being understood, however, that the indemnifying party shall not be liable for the expenses of more than one separate counsel (together with local counsel (in each jurisdiction)), which shall be selected by SunTrust (in the case of counsel representing the Initial Purchasers or their related persons), representing the indemnified parties who are parties to such action), (ii) the indemnifying party shall not have employed counsel satisfactory to the indemnified party to represent the indemnified party within a reasonable time after notice of commencement of the action or (iii) such indemnifying party has authorized the employment of counsel for such indemnified party at the expense of the indemnifying party. After such notice from an indemnifying party to an indemnified party, such indemnifying party will not be liable for the costs and expenses of any settlement of such action effected by such indemnified party without the written consent of such indemnifying party. Notwithstanding the foregoing sentence, if at any time an indemnified party shall have requested an indemnifying party to reimburse the indemnified party for fees and expenses of counsel as contemplated by (i), (ii) or (iii) of the third sentence of this paragraph, the indemnifying party agrees that it shall be liable for any settlement of any proceeding effected without its written consent if

(x) such settlement is entered into more than 30 days after receipt by such indemnifying party of the aforesaid request and (y) such indemnifying party shall not have reimbursed the indemnified party in accordance with such request prior to the date of such settlement. An indemnifying party will not, without the prior written consent of the indemnified party, settle or compromise or consent to the entry of any judgment in any pending or threatened claim, action, suit or proceeding in respect of which indemnification may be sought hereunder (whether or not the indemnified party or any other person that may be entitled to indemnification hereunder is a party to such claim, action, suit or proceeding) unless such settlement, compromise or consent (i) includes an unconditional release of the indemnified party and such other persons from all liability arising out of such claim, action, suit or proceeding and (ii) does not include any statements as to or any findings of fault, culpability or failure to act by or on behalf of any indemnified party.

(d) **Contribution.** If the indemnification provided for in this Section 7 is held to be unavailable to or otherwise insufficient, for any reason, to hold harmless an indemnified party in respect of any losses, claims, damages, liabilities or expenses referred to therein, then each indemnifying party shall contribute to the aggregate amount paid or payable by such indemnified party, as incurred, as a result of any losses, claims, damages, liabilities or expenses referred to therein (i) in such proportion as is appropriate to reflect the relative benefits received by the Company and the Guarantors, on the one hand, and the Initial Purchasers, on the other hand, from the offering of the Securities pursuant to this Agreement or (ii) if the allocation provided by clause (i) above is not permitted by applicable law, in such proportion as is appropriate to reflect not only the relative benefits referred to in clause (i) above but also the relative fault of the Company and the Guarantors, on the one hand, and the Initial Purchasers, on the other hand, in connection with the statements or omissions which resulted in such losses, claims, damages, liabilities or expenses, as well as any other relevant equitable considerations. The relative benefits received by the Company and the Guarantors, on the one hand, and the Initial Purchasers, on the other hand, in connection with the offering of the Securities pursuant to this Agreement shall be deemed to be in the same respective proportions as the total net proceeds from the offering of the Securities pursuant to this Agreement (before deducting expenses) received by the Company, and the total discount received by the Initial Purchasers bear to the aggregate initial offering price of the Securities. The relative fault of the Company and the Guarantors, on the one hand, and the Initial Purchasers, on the other hand, shall be determined by reference to, among other things, whether any such untrue or alleged untrue statement of a material fact or omission or alleged omission to state a material fact relates to information supplied by the Company and the Guarantors, on the one hand, or the Initial Purchasers, on the other hand, and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The amount paid or payable by a party as a result of the losses, claims, damages, liabilities and expenses referred to above shall be deemed to include, any legal or other fees or expenses reasonably incurred by such party in connection with investigating or defending any action or claim. The provisions set forth in subclauses (a) and (b) of this Section 7 with respect to notice of commencement of any action shall apply if a claim for contribution is to be made under this Section 7; provided, however, that no additional notice shall be required with respect to any action for which notice has been given under Section 7(c) hereof for purposes of indemnification. The Company, the Guarantors and the Initial Purchasers agree that it would not be just and equitable if contribution pursuant to this Section 7 were determined by pro rata allocation

(even if the Initial Purchasers were treated as one entity for such purpose) or by any other method of allocation which does not take account of the equitable considerations referred to in this Section 7. Notwithstanding the provisions of this Section 7, no Initial Purchaser shall be required to contribute any amount in excess of the discount received by such Initial Purchaser in connection with the Securities distributed by it. No person guilty of fraudulent misrepresentation (within the meaning of Section 11 of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation. The Initial Purchasers' obligations to contribute pursuant to this Section 7 are several, and not joint, in proportion to their respective commitments as set forth opposite their names in Schedule A. For purposes of this Section 7, each affiliate, director, officer and employee of an Initial Purchaser and each person, if any, who controls an Initial Purchaser within the meaning of the Securities Act and the Exchange Act shall have the same rights to contribution as such Initial Purchaser, and each director of the Company or any Guarantor, and each person, if any, who controls the Company or any Guarantor within the meaning of the Securities Act and the Exchange Act shall have the same rights to contribution as the Company and the Guarantors.

SECTION 8. **Termination of this Agreement.** The Representative may terminate this Agreement with respect to the Notes by notice to the Company at any time on or prior to the Closing Date in the event that the Company shall have failed, refused or been unable to perform in any material respect all obligations and satisfy in any material respect all conditions on its part to be performed or satisfied hereunder at or prior thereto or if, at any time: (i) trading or quotation in any of the Company's securities shall have been suspended or limited by the Commission or by the NYSE, or trading in securities generally on either the Nasdaq Stock Market or the NYSE shall have been suspended or limited, or minimum or maximum prices shall have been generally established on any of such quotation system or stock exchange by the Commission or FINRA; (ii) there has been a material disruption in commercial banking or securities settlement, payment or clearance services in the United States; (iii) a general banking moratorium shall have been declared by any of federal or New York authorities; (iv) there shall have been (A) an outbreak or escalation of hostilities between the United States and any foreign power, (B) an outbreak or escalation of any other insurrection or armed conflict involving the United States, (C) the occurrence of any other calamity or crisis involving the United States or (D) any change in general economic, political or financial conditions which has an effect on the U.S. financial markets that, in the case of any event described in this clause (iv), in the sole judgment of the Representative, makes it impracticable or inadvisable to proceed with the offer, sale and delivery of the Securities as disclosed in the Pricing Disclosure Package or the Final Offering Memorandum, exclusive of any amendment or supplement thereto; or (v) in the judgment of the Representative there shall have occurred or exist any event or condition a type described in Section 2(l) hereof or any other loss, event or other calamity of such character as in the judgment of the Representative may interfere materially with the conduct of the business and operations of the Company regardless of whether or not such loss shall have been insured. Any termination pursuant to this Section 8 shall be without liability on the part of (i) the Company or any Guarantor to any Initial Purchaser, except that the Company and the Guarantors shall be obligated to reimburse the expenses of the Initial Purchasers pursuant to Section 6 hereof, (ii) any Initial Purchaser to the Company or any Guarantor, or (iii) any party hereto to any other party except that the provisions of Section 7 hereof shall at all times be effective and shall survive such termination.

SECTION 9. **Notices.** All communications hereunder shall be in writing and, if sent to any of the Initial Purchasers, shall be delivered or sent by mail or transmitted and confirmed in writing by any standard form of telecommunication to SunTrust Robinson Humphrey, Inc., 3333 Peachtree Road, 10th Floor, Atlanta, GA 30326, Facsimile: 404-926-5248, Attention: High Yield Syndicate, with a copy to Latham & Watkins LLP, 885 Third Avenue, New York, NY 10022, Attention: Michael Benjamin and if sent to the Company, shall be delivered or sent by mail, telex or facsimile transmission and confirmed in writing to the Company at 200 Oceangate, Suite 100, Long Beach, California 90802, Facsimile: 562-499-0612, Attention: Joseph W. White, Chief Financial Officer and Interim President and Chief Executive Officer, with a copy to Boutin Jones Inc., 555 Capitol Mall, Suite 1500, Sacramento, California 95814, Facsimile: 916-441-7597, Attention: Iain Mickle.

SECTION 10. **Successors.** This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective successors and the officers and directors and any controlling persons referred to herein, and the affiliates of each Initial Purchaser referred to in Section 7 hereof. Nothing in this Agreement is intended or shall be construed to give any other person any legal or equitable right, remedy or claim under or in respect of this Agreement or any provision contained herein. No Subsequent Purchaser of the Securities from any Initial Purchaser shall be deemed to be a successor merely by reason of such purchase.

SECTION 11. **Authority of the Representative.** Any action by the Initial Purchasers hereunder may be taken by SunTrust on behalf of the Initial Purchasers, and any such action taken by SunTrust shall be binding upon the Initial Purchasers.

SECTION 12. **Partial Unenforceability.** The invalidity or unenforceability of any section, paragraph or provision of this Agreement shall not affect the validity or enforceability of any other section, paragraph or provision hereof. If any section, paragraph or provision of this Agreement is for any reason determined to be invalid or unenforceable, there shall be deemed to be made such minor changes (and only such minor changes) as are necessary to make it valid and enforceable.

SECTION 13. **Governing Law; Consent to Jurisdiction.** THIS AGREEMENT AND ANY CLAIM, CONTROVERSY OR DISPUTE ARISING UNDER OR RELATED TO THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF NEW YORK APPLICABLE TO AGREEMENTS MADE AND TO BE PERFORMED IN SUCH STATE WITHOUT REGARD TO CONFLICTS OF LAW PRINCIPLES THEREOF.

Any legal suit, action or proceeding arising out of or based upon this Agreement or the transactions contemplated hereby ("**Related Proceedings**") may be instituted in the federal courts of the United States of America located in the City and County of New York or the courts of the State of New York in each case located in the City and County of New York (collectively, the "**Specified Courts**"), and each party irrevocably submits to the exclusive jurisdiction (except for suits, actions, or proceedings instituted in regard to the enforcement of a judgment of any Specified Court in a Related Proceeding, as to which such jurisdiction is non-exclusive) of the Specified Courts in any Related Proceeding. Service of any process, summons, notice or document by mail to such party's address set forth above shall be effective service of

process for any Related Proceeding brought in any Specified Court. The parties irrevocably and unconditionally waive any objection to the laying of venue of any Specified Proceeding in the Specified Courts and irrevocably and unconditionally waive and agree not to plead or claim in any Specified Court that any Related Proceeding brought in any Specified Court has been brought in an inconvenient forum.

SECTION 14. **Waiver of Jury Trial.** Each of the Company and the Guarantors hereby irrevocably and unconditionally waives trial by jury in any legal action or proceeding relating to this Agreement.

SECTION 15. **Defaulting Initial Purchasers.** If any of the several Initial Purchasers shall fail or refuse to purchase the Securities that it or they have agreed to purchase hereunder on the Closing Date, and the aggregate number of Securities which such defaulting Initial Purchaser or Initial Purchasers agreed but failed or refused to purchase does not exceed 10% of the aggregate number of the Securities to be purchased on such date, the non-defaulting Initial Purchasers shall be obligated to purchase the Securities that such defaulting Initial Purchaser or Initial Purchasers agreed but failed to purchase on the Closing Date (the "**Remaining Securities**") in the respective proportions that the principal amount of the Securities set opposite the name of each non-defaulting Initial Purchaser in Schedule A hereto bears to the total number of the Securities set opposite the names of all the non-defaulting Initial Purchasers in Schedule A, or in such other proportions as may be specified by the Initial Purchasers with the consent of the non-defaulting Initial Purchasers; provided, however, that the non-defaulting Initial Purchasers shall not be obligated to purchase any of the Securities on the Closing Date if the total amount of Securities which the defaulting Initial Purchaser or Initial Purchasers agreed but failed or refused to purchase on such date exceeds 10% of the total amount of Securities to be purchased on the Closing Date, and no non-defaulting Initial Purchaser shall be obligated to purchase more than 110% of the amount of Notes that it agreed to purchase on the Closing Date pursuant to this Agreement. If the foregoing maximums are exceeded, the non-defaulting Initial Purchasers, or those other purchasers satisfactory to the Initial Purchasers who so agree, shall have the right, but not the obligation, to purchase, in such proportion as may be agreed upon among them, all the Remaining Securities. If the non-defaulting Initial Purchasers or other Initial Purchasers satisfactory to the Initial Purchasers do not elect to purchase the Remaining Securities, this Agreement shall terminate without liability of any party to any other party except that the provisions of Sections 6 and 8 hereof shall at all times be effective and shall survive such termination. In any such case either the Initial Purchasers or the Company shall have the right to postpone the Closing Date, as the case may be, but in no event for longer than seven days in order that the required changes, if any, to the Final Offering Memorandum or any other documents or arrangements may be effected.

As used in this Agreement, the term "**Initial Purchaser**" shall be deemed to include any person substituted for a defaulting Initial Purchaser under this Section 15. Any action taken under this Section 15 shall not relieve any defaulting Initial Purchaser from liability in respect of any default of such Initial Purchaser under this Agreement.

SECTION 16. **No Advisory or Fiduciary Responsibility.** Each of the Company and the Guarantors acknowledges and agrees that: (i) the purchase and sale of the Securities pursuant to this Agreement, including the determination of the offering price of the Securities and any related discounts and commissions, is an arm's-length commercial transaction between the Company and the Guarantors, on

the one hand, and the several Initial Purchasers, on the other hand, and the Company and the Guarantors are capable of evaluating and understanding and understand and accept the terms, risks and conditions of the transactions contemplated by this Agreement; (ii) in connection with each transaction contemplated hereby and the process leading to such transaction each Initial Purchaser is and has been acting solely as a principal and is not the agent or fiduciary of the Company, the Guarantors or their respective affiliates, stockholders, creditors or employees or any other party; (iii) no Initial Purchaser has assumed or will assume an advisory or fiduciary responsibility in favor of the Company and the Guarantors with respect to any of the transactions contemplated hereby or the process leading thereto (irrespective of whether such Initial Purchaser has advised or is currently advising the Company and the Guarantors on other matters) or any other obligation to the Company and the Guarantors except the obligations expressly set forth in this Agreement; (iv) the several Initial Purchasers and their respective affiliates may be engaged in a broad range of transactions that involve interests that differ from those of the Company and the Guarantors, and the several Initial Purchasers have no obligation to disclose any of such interests by virtue of any fiduciary or advisory relationship; and (v) the Initial Purchasers have not provided any legal, accounting, regulatory or tax advice with respect to the offering contemplated hereby, and the Company and the Guarantors have consulted their own legal, accounting, regulatory and tax advisors to the extent they deemed appropriate.

This Agreement supersedes all prior agreements and understandings (whether written or oral) between the Company, the Guarantors and the several Initial Purchasers, or any of them, with respect to the subject matter hereof. The Company and the Guarantors hereby waive and release, to the fullest extent permitted by law, any claims that the Company and the Guarantors may have against the several Initial Purchasers with respect to any breach or alleged breach of fiduciary duty.

SECTION 17. **Survival.** The respective indemnities, rights of contribution, agreements, representations, warranties and other statements of the Company, the Guarantors, their respective officers and the several Initial Purchasers set forth in or made pursuant to this Agreement will remain in full force and effect, regardless of any investigation made by or on behalf of any Initial Purchaser, the Company, any Guarantor or any of their partners, officers or directors or any controlling person, as the case may be, and will survive delivery of and payment for the Securities sold hereunder and any termination of this Agreement.

SECTION 18. **Miscellaneous.**

(a) **Entire Agreement.** This Agreement constitutes the entire agreement of the parties to this Agreement and supersedes all prior written or oral and all contemporaneous oral agreements, understandings and negotiations with respect to the subject matter hereof.

(b) **Counterparts.** This Agreement may be executed in two or more counterparts, each one of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument. Delivery of an executed counterpart of a signature page to this Agreement by telecopier, facsimile or other electronic transmission (i.e., a “pdf” or “tif”) shall be effective as delivery of a manually executed counterpart thereof.

(c) **Amendments and Waivers.** No amendment or waiver of any provision of this Agreement, nor any consent or approval to any departure therefrom, shall in any event be effective unless the same shall be in writing and signed by the parties hereto.

(d) **Headings.** The headings herein are included for convenience of reference only and are not intended to be part of, or to affect the meaning or interpretation of, this Agreement.

Preliminary Offering Memorandum Dated May 22, 2017

$330,000,000

Molina Healthcare, Inc.
4.875% Senior Notes due 2025

This Supplement is qualified in its entirety by reference to the Preliminary Offering Memorandum dated May 22, 2017 (the "Preliminary Offering Memorandum"). The information in this Supplement updates and supersedes any information in the Preliminary Offering Memorandum that is inconsistent or prepared based on assumptions that are inconsistent with the information below.

The notes have not been registered under the federal securities laws or the securities laws of any state. The initial purchasers named below are offering the notes only to persons reasonably believed to be qualified institutional buyers under Rule 144A and to persons outside the United States under Regulation S. See "Notice to Investors" in the Preliminary Offering Memorandum for additional information about eligible offerees and transfer restrictions. Investing in the notes involves risks that are described in the "Risk Factors" section beginning on page 11 of the Preliminary Offering Memorandum.

Unless otherwise indicated, terms used but not defined herein have the meaning assigned to such terms in the Preliminary Offering Memorandum.

Other information (including financial information) presented in the Preliminary Offering Memorandum is deemed to have changed to the extent affected by the changes and other information described below.

Issuer:	Molina Healthcare, Inc.
Rating: [1]	Ba3/BB

[1] A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time. Credit ratings are subject to change depending on financial and other factors.

Title of Securities:	4.875% Senior Notes due 2025
Aggregate Principal Amount:	$330,000,000
Gross Proceeds to Issuer:	$330,000,000
Final Maturity Date:	June 15, 2025
Issue Price:	100.0%, plus accrued interest, if any, from June 6, 2017
Coupon:	4.875%
Yield to Maturity:	4.875%
Spread to Benchmark Treasury:	+272 bps
Benchmark Treasury:	UST 2.125% due May 15, 2025
Interest Payment Dates:	June 15 and December 15
Record Dates:	June 1 and December 1
First Interest Payment Date:	December 15, 2017
Optional Redemption:	At any time prior to June 15, 2020, some or all of the notes at a price equal to 100% of the principal amount of the notes redeemed, plus accrued and unpaid interest, if any, to (but not including) the redemption date, plus an applicable "make-whole premium" as described in the Preliminary Offering Memorandum. On and after June 15, 2020, in whole at any time or in part from time to time, at the following redemption prices (expressed as a percentage of principal amount), plus accrued and unpaid interest, if any, to (but not including) the redemption date if redeemed during the 12-month period commencing on June 15 of the years set forth below:

Year	Price
2020	102.438%
2021	101.219%
2022 and thereafter	100.000%

Joint Book-Running Managers:	SunTrust Robinson Humphrey, Inc. Barclays Capital Inc. J.P. Morgan Securities LLC Merrill Lynch, Pierce, Fenner & Smith Incorporated Morgan Stanley & Co. LLC Wells Fargo Securities, LLC

Co-Manager:	MUFG Securities Americas Inc.
Trade Date:	May 22, 2017
Settlement Date:	June 6, 2017 (T+10)
	The Company expects that delivery of the notes will be made against payment therefor on or about the tenth business day following the date of confirmation of orders with respect to the notes (this settlement cycle being referred to as "T+10"). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes before the notes are delivered will be required, by virtue of the fact that the notes initially will settle in T+10, to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes before their delivery should consult their own advisor.

EXHIBIT A

Opinion of counsel for the Company to be delivered pursuant to Section 4 of the Purchase Agreement.

(i) The Company has been duly incorporated and is validly existing as a corporation in good standing under the laws of the jurisdiction of its incorporation. The Company has full corporate power and authority to own, lease and operate its properties and to conduct its business as described in the Pricing Disclosure Package and the Final Offering Memorandum and to enter into and perform its obligations under the Transaction Documents to which it is a party.

(ii) Each Guarantor has been duly formed/organized and is validly existing as a corporation or limited liability company, as applicable, in good standing under the laws of the jurisdiction of its formation/organization, has corporate or limited liability company, as applicable, power and authority to own, lease and operate its properties and to conduct its business as described in the Pricing Disclosure Package and the Final Offering Memorandum and to enter into and perform its obligations under the Transaction Documents to which it is a party.

(iii) The Purchase Agreement has been duly authorized, executed and delivered by the Company and each Guarantor.

(iv) The Indenture has been duly authorized, executed and delivered by the Company and each Guarantor and (assuming the due authorization, execution and delivery thereof by the Trustee) is a valid and binding agreement of the Company and each Guarantor, enforceable against the Company and each Guarantor in accordance with its terms, except as the enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws relating to or affecting the rights and remedies of creditors or by general equitable principles.

(v) The Notes are in the form contemplated by the Indenture, have been duly authorized by the Company for issuance and sale pursuant to the Purchase Agreement and the Indenture and, when executed by the Company and authenticated by the Trustee in the manner provided in the Indenture (assuming the due authorization, execution and delivery of the Indenture by the Trustee) and delivered against payment of the purchase price therefor, will constitute valid and binding obligations of the Company, enforceable against the Company in accordance with their terms, except as the enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws relating to or affecting enforcement of the rights and remedies of creditors or by general equitable principles and will be entitled to the benefits of the Indenture.

(vi) The Guarantees are in the respective forms contemplated by the Indenture and have been duly authorized for issuance pursuant to the Purchase Agreement and the Indenture. The Guarantees have been duly executed by each of the Guarantors and, when the Notes have been authenticated in the manner provided for in the Indenture and delivered against payment of the purchase price therefor, will constitute valid and binding agreements of the Guarantors, enforceable in accordance with their terms, except as the enforcement thereof may be limited by bankruptcy, insolvency, reorganization, moratorium or other similar laws relating to or affecting the rights and remedies of creditors or by general equitable principles and will be entitled to the benefits of the Indenture.

(vii) The statements in the Pricing Disclosure Package and the Final Offering Memorandum under the captions "Description of Other Indebtedness," "Description of Notes," and "Material U.S. Federal Income Tax Consequences," insofar as such statements constitute matters of law, summaries of legal matters, documents or legal proceedings, or legal conclusions, have been reviewed by such counsel and fairly present and summarize, in all material respects, the matters referred to therein.

(viii) No consent, approval, authorization or other order of, or registration or filing with, any court or other governmental or regulatory authority or agency, is required for the execution, delivery and performance of the Transaction Documents by the Company and the Guarantors to the extent a party thereto, or the issuance and delivery of the Securities, or consummation of the transactions contemplated hereby and thereby and by the Pricing Disclosure Package and the Final Offering Memorandum, except such as have been obtained or made by the Company and are in full force and effect under the Securities Act, applicable state securities or blue sky laws.

(ix) The execution and delivery of the Transaction Documents by the Company and the Guarantors and the performance by the Company and the Guarantors to the extent a party thereto of their obligations thereunder (other than performance under the indemnification sections of the Purchase Agreement, as to which no opinion need be rendered): (i) will not result in any violation of the provisions of the charter or by-laws of the Company or any subsidiary; (ii) will not constitute a breach of, or Default or a breach under, or result in the creation or imposition of any lien, charge or encumbrance upon any property or assets of the Company or any of its subsidiaries pursuant to, that certain Credit Agreement, dated as of June 12, 2015, by and among the Company, the other loan parties party thereto, the lenders party thereto and SunTrust Bank, as administrative agent, or any other existing debt instrument that has been filed by the Company with the Commission; or (iii) will not result in any violation of any law, administrative regulation or administrative or court decree applicable to the Company or any subsidiary.

(x) Neither the Company nor any Guarantor is, or after receipt of payment for the Securities will be, an "investment company" within the meaning of Investment Company Act.

(xi) Assuming the accuracy of the representations, warranties and covenants of the Company and the Initial Purchasers contained herein, no registration of the Notes or the Guarantees under the Securities Act, and no qualification of an indenture under the Trust Indenture Act with respect thereto, is required in connection with the purchase of the Securities by the Initial Purchasers or the initial resale of the Securities by the Initial Purchasers in the manner contemplated by the Purchase Agreement and the Pricing Disclosure Package and the Final Offering Memorandum. Such counsel need express no opinion, however, as to when or under what circumstances any Notes initially sold by the Initial Purchasers may be reoffered or resold.

In rendering such opinion, such counsel may rely as to matters involving the application of laws of any jurisdiction other than the General Corporation Law of the State of Delaware, the laws of the State of California or the federal law of the United States, to the extent they deem proper and specified in such opinion, upon the opinion (which shall be dated the Closing Date shall be satisfactory in form and substance to the Initial Purchasers, shall expressly state that the Initial Purchasers may rely on such opinion as if it were addressed to them and shall be furnished to the Initial Purchasers) of other counsel of good standing whom they believe to be reliable and who are satisfactory to counsel for the Initial Purchasers; provided, however, that such counsel shall further state that they believe that they and the Initial Purchasers are justified in relying upon such opinion of other counsel, and as to matters of fact, to the extent they deem proper, on certificates of responsible officers of the Company and public officials; provided, further, that in rendering the "enforceability" opinions set forth in paragraphs (iv) through (vi) above, such counsel may assume that the outcome of the matters covered by such opinions shall be the same under the laws of the State of California as under the laws of the State of New York.

In addition, such counsel shall state that they have participated in conferences with officers and other representatives of the Company, representatives of the independent public or certified public accountants for the Company and with representatives of the Initial Purchasers at which the contents of the Pricing Disclosure Package and the Final Offering Memorandum and related matters were discussed and, although such counsel is not passing upon and does not assume any responsibility for the accuracy, completeness or fairness of the statements contained in the Pricing Disclosure Package or the Final Offering Memorandum (other than as specified above), on the basis of the foregoing, nothing has come to their attention which would lead them to believe that the Pricing Disclosure Package, as of the Time of Sale, or that the Final Offering Memorandum, as of its date or at the Closing Date, contained or contains an untrue statement of a material fact or omitted or omits to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading

(it being understood that such counsel need express no belief as to the financial statements or other financial data derived therefrom, included in the Pricing Disclosure Package or the Final Offering Memorandum or any amendments or supplements thereto).

Exhibit A-4

EXHIBIT B

FORM OF OPINION OF JEFFREY D. BARLOW, CHIEF LEGAL OFFICER AND SECRETARY OF THE COMPANY

June 6, 2017

SunTrust Robinson Humphrey, Inc.
303 Peachtree Street, 10th Floor
Atlanta, GA 30308

as Representative of the several Initial Purchasers
named in Schedule A to the Purchase Agreement

Re: Molina Healthcare, Inc. – Issuance of $330,000,000 aggregate principal amount of 4.875% Senior Notes due 2025

Ladies and Gentlemen:

I am Chief Legal Officer and Secretary of Molina Healthcare, Inc., a Delaware corporation (the "Company"). This opinion is being delivered to you pursuant to Section 4(e) of the Purchase Agreement, dated May 22, 2017 (the "Purchase Agreement"), among the Company, the Guarantors party thereto and SunTrust Robinson Humphrey, Inc. (the "Representative"), as representative of the Initial Purchasers named therein (the "Initial Purchasers"), with respect to the Initial Purchasers' purchase of the Securities from the Company as provided in Section 1 of the Purchase Agreement. Capitalized terms used but not defined herein shall be used herein as defined in the Purchase Agreement.

In connection with rendering the opinions set forth herein, I have examined and relied on originals or copies, certified or otherwise identified to my satisfaction, of such corporate and other records, documents and other papers as I have deemed necessary or appropriate to examine for the purpose of this opinion.

In my examination I have assumed the genuineness of all signatures (including endorsements), the legal capacity of natural persons, the authenticity of all documents submitted to me as originals and the conformity to original documents of all documents submitted to me as certified or photostatic copies and the authenticity of the originals of such copies. In making my examination of documents executed by parties other than the Company or a Guarantor, I have assumed that such parties had the power, corporate or other, to enter into and perform all obligations under such documents and have also assumed the due authorization by all requisite action, corporate or other, and execution and delivery by such parties of such documents and the validity and binding effect thereof. As to any facts material to this opinion which I did not independently establish or verify, I have relied upon statements and representations of the Company and its subsidiaries and their respective officers and other representatives and of public officials.

Whenever a statement is qualified by "to my knowledge" or a similar phrase, it refers to my current actual knowledge after reasonable inquiry.

I am admitted to the Bar in the State of California. I express no opinion as to the laws of any jurisdiction other than (i) the laws of the State of California, (ii) the General Corporation Law of the State of Delaware and (iii) the federal laws of the United States of America to the extent specifically referred to herein.

Based upon the foregoing and subject to the limitations, qualifications, exceptions and assumptions set forth herein, I am of the opinion that:

(i) The Company has been duly incorporated and is validly existing as a corporation in good standing under the laws of the State of Delaware. Each of the Guarantors has been duly formed/organized and is validly existing as a corporation or limited liability company, as the case may be, in good standing under the laws of the State of California.

(ii) Each of the Company and the Guarantors has corporate or limited liability company power and authority, as the case may be, necessary to own, lease and operate its properties and to conduct its business as described in the Pricing Disclosure Package and the Final Offering Memorandum and to execute and deliver the Transaction Documents to which it is a party and perform its obligations thereunder.

(iii) Each of the Company and the Guarantors is duly qualified to transact business and is in good standing in each jurisdiction in which such qualification is required, whether by reason of the ownership or leasing of property or the conduct of business, except where the failure so to qualify or to be in good standing would not result in a Material Adverse Effect.

(iv) Each of the Purchase Agreement and the Indenture has been duly authorized, executed and delivered by each of the Company and the Guarantors.

(v) The Notes are in the form contemplated by the Indenture and have been duly authorized by the Company for issuance and sale pursuant to the Purchase Agreement and the Indenture. The Notes have been duly executed and delivered by the Company.

(vi) The Guarantees are in the respective forms contemplated by the Indenture and have been duly authorized for issuance pursuant to the Purchase Agreement and the Indenture. The Guarantees have been duly executed by each of the Guarantors.

(vii) To my knowledge, except as described in the Pricing Disclosure Package and the Final Offering Memorandum, there are not any legal, governmental, or regulatory investigation, action, suit, proceeding, inquiry or investigation, pending to which the Company or any subsidiary is a party, or to which the property of the Company or any subsidiary is subject, before or brought by any court or governmental agency or body, domestic or foreign, which, individually or in the aggregate, could reasonably be expected to result in a Material Adverse Effect, or which would reasonably be expected to materially and adversely affect the properties or assets thereof or the consummation of the transactions contemplated in the Purchase Agreement or the performance by each of the Company and the Guarantors of its obligations thereunder or under any other Transaction Document to which it is a party; and to my knowledge, no such

investigations, actions, suits or proceedings are threatened or contemplated by any governmental or regulatory authority or threatened by others.

(viii) The information in the Pricing Disclosure Package and the Final Offering Memorandum under "Description of Other Indebtedness" and "Description of Notes," to the extent that it constitutes matters of law, summaries of legal matters, legal proceedings or legal conclusions, and the information in the Pricing Disclosure Package and the Final Offering Memorandum (including the documents incorporated therein) under "We operate in an unstable political environment which creates uncertainties with regard to the sources and amounts of our revenues, volatility with regard to the amount of our medical costs, and vulnerability to unforeseen programmatic or regulatory changes.", "The Medicaid Expansion could be reversed.", "The Marketplace could be eliminated, or our continued participation in 2018 could become financially unsustainable.", "Puerto Rico's recent filing for bankruptcy may negatively impact the Commonwealth's ability to pay the amounts due under our Medicaid contract, which may negatively impact our business, financial condition, cash flows, or results of operations.", "If state regulators do not approve payments of dividends and distributions by our subsidiaries, it may negatively affect our business strategy.", "Our use and disclosure of personally identifiable information and other non-public information, including protected health information, is subject to federal and state privacy and security regulations, and our failure to comply with those regulations or to adequately secure the information we hold could result in significant liability or reputational harm." and "We are subject to extensive fraud and abuse laws that may give rise to lawsuits and claims against us, the outcome of which may have a material adverse effect on our business, financial condition, cash flows, or results of operations.", in each case under the caption "Risk Factors"; and "Management's Discussion and Analysis of Financial Condition and Results of Operations—Health Plans—Business Overview" has been reviewed by me and is correct in all material respects.

(ix) All descriptions in the Pricing Disclosure Package and the Final Offering Memorandum (including the documents incorporated therein) of contracts and other documents to which the Company or its subsidiaries are a party are accurate in all material respects.

(x) No filing with, or authorization, approval, consent, license, order, registration, qualification or decree of, any court or governmental authority or agency, domestic or foreign is necessary or required in connection with the due authorization, execution and delivery of the Transaction Documents or for the offering, issuance, sale or delivery of the Securities.

(xi) The execution, delivery and performance of the Transaction Documents and the consummation of the transactions contemplated in the Transaction Documents and in the Pricing Disclosure Package and the Final Offering Memorandum (including the issuance and sale of the Securities and the use of the proceeds from the sale of the Securities as described in the Pricing Disclosure Package and the Final Offering Memorandum under the caption "Use Of Proceeds") and compliance by each of the Company and the Guarantors with its obligations under the Transaction Documents to which it is a party do not and will not, whether with or without the giving of notice or lapse of time or both, conflict with or constitute a breach of, or default under, or result in the creation or imposition of any lien, charge or encumbrance upon any property or assets of the Company or any subsidiary pursuant to any contract, indenture, mortgage, deed of trust, loan or credit agreement, note, lease or any other agreement or instrument, known to me, to which

the Company or any subsidiary is a party or by which it or any of them may be bound, or to which any of the property or assets of the Company or any subsidiary is subject (except for such conflicts, breaches, defaults or liens, charges or encumbrances that would not have a Material Adverse Effect), nor will such action result in any violation of the provisions of the charter or by-laws of the Company or any subsidiary, or any applicable law, statute, rule, regulation, judgment, order, writ or decree, known to me, of any government, government instrumentality or court, domestic or foreign, having jurisdiction over the Company or any subsidiary or any of their respective properties, assets or operations.

(xii) Neither the Company nor any Guarantor is required, and upon the issuance and sale of the Securities as herein contemplated and the application of the net proceeds therefrom as described in the Pricing Disclosure Package and the Final Offering Memorandum, will be required, to register as an "investment company" under the Investment Company Act of 1940, as amended.

The Company is currently involved in the following legal matters:

Marketplace Risk Corridor Program. On January 19, 2017, the Company filed suit against the United States of America in the United States Court of Federal Claims, Case Number 1:55-cv-01000-UNJ, on behalf of the Company's health plans seeking recovery from the federal government of approximately $52 million in Marketplace risk corridor payments for calendar year 2015. Based upon current estimates, the Company believes its health plans are also owed approximately $90 million in Marketplace risk corridor payments from the federal government for calendar year 2016, and a further nominal amount for calendar year 2014. The lawsuit seeks recovery of all of these unpaid amounts.

Rodriguez v. Providence Community Corrections. On October 1, 2015, seven individuals, on behalf of themselves and all others similarly situated, filed a complaint in the District Court for the Middle District of Tennessee, Nashville Division, Case No. 3:15-cv-01048 (the Rodriquez Litigation), against Providence Community Corrections, Inc. (now known as Pathways Community Corrections, Inc., or PCC). Rutherford County, Tennessee formerly contracted with PCC for the administration of misdemeanor probation, which involved the collection of court costs and fees from probationers. The complaint alleges, among other things, that PCC illegally assessed fees and surcharges against probationers and made improper threats of arrest and probation revocation if the probationers did not pay such amounts. The plaintiffs in the Rodriguez Litigation seek alleged compensatory, treble, and punitive damages, plus attorneys' fees, for alleged federal and state constitutional violations, as well as alleged violations of the Racketeer Influenced and Corrupt Organization Act. PCC's agreement with Rutherford County terminated effective March 31, 2016. On November 1, 2015, one month after the Rodriguez Litigation commenced, the Company acquired PCC from The Providence Service Corporation (Providence) pursuant to a membership interest purchase agreement. In September 2016, the parties to the Rodriguez Litigation accepted a mediation proposal for settlement pursuant to which PCC would pay the plaintiffs $14 million. The parties are in the process of finalizing the settlement agreement. The Company expects to recover the full amount of the settlement under the indemnification provisions of the membership interest purchase agreement with Providence.

United States of America, ex rel., Anita Silingo v. Mobile Medical Examination Services, Inc., et al. On or around October 14, 2014, Molina Healthcare of California, Molina Healthcare of California Partner Plan, Inc., Mobile Medical Examination Services, Inc. (MedXM), and other health plan defendants were served with a Complaint previously filed under seal in the Central District Court of California by Relator, Anita Silingo, Case No. SACV13-1348-FMO(SHx). The Complaint alleges that MedXM improperly modified medical records and otherwise took inappropriate steps to increase members' risk adjustment scores, and that the defendants, including Molina Healthcare of California and Molina Healthcare of

California Partner Plan, Inc., purportedly turned a “blind eye” to these unlawful practices. On October 22, 2015, the Relator filed a third amended complaint, seeking general and compensatory damages, treble damages, civil penalties, plus interest and attorneys’ fees. On July 11, 2016, the District Court dismissed with prejudice the third amended complaint, without leave to amend. On September 23, 2016, the plaintiff filed an appeal with the Ninth Circuit Court of Appeals. The plaintiff/appellant’s opening brief was filed March 6, 2017, and the defendant/appellee’s opening brief is due June 5, 2017.

Nothing has come to my attention that would lead me to believe that the Pricing Disclosure Package (except for financial statements and schedules and other financial data included therein or omitted therefrom, as to which I make no statement), at the Time of Sale, contained an untrue statement of a material fact or omitted to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading or that the Final Offering Memorandum (except for financial statements and schedules and other financial data included therein or omitted therefrom, as to which I make no statement), at its date and at the date hereof, included or includes an untrue statement of a material fact or omitted or omits to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

In rendering this opinion, I have relied as to matters of fact (but not as to legal conclusions), to the extent I have deemed proper, on certificates of responsible officers of the Company and public officials.

Very truly yours,

Jeff D. Barlow

Exhibit B-5

ANNEX I

Each Initial Purchaser understands that:

Such Initial Purchaser agrees that it has not offered or sold and will not offer or sell the Securities in the United States or to, or for the benefit or account of, a U.S. person (other than a distributor), in each case, as defined in Rule 902 of Regulation S (i) as part of its distribution at any time and (ii) otherwise until 40 days after the later of the commencement of the offering of the Securities pursuant hereto and the Closing Date, other than in accordance with Regulation S or another exemption from the registration requirements of the Securities Act. Such Initial Purchaser agrees that, during such 40-day restricted period, it will not cause any advertisement with respect to the Securities (including any "tombstone" advertisement) to be published in any newspaper or periodical or posted in any public place and will not issue any circular relating to the Securities, except such advertisements as are permitted by and include the statements required by Regulation S.

Such Initial Purchaser agrees that, at or prior to confirmation of a sale of Securities by it to any distributor, dealer or person receiving a selling concession, fee or other remuneration during the 40-day restricted period referred to in Rule 903 of Regulation S, it will send to such distributor, dealer or person receiving a selling concession, fee or other remuneration a confirmation or notice to substantially the following effect:

> "The Securities covered hereby have not been registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered and sold within the United States or to, or for the account or benefit of, U.S. persons (i) as part of your distribution at any time or (ii) otherwise until 40 days after the later of the date the Securities were first offered to persons other than distributors in reliance upon Regulation S and the Closing Date, except in either case in accordance with Regulation S under the Securities Act (or in accordance with Rule 144A under the Securities Act or to accredited investors in transactions that are exempt from the registration requirements of the Securities Act), and in connection with any subsequent sale by you of the Securities covered hereby in reliance on Regulation S under the Securities Act during the period referred to above to any distributor, dealer or person receiving a selling concession, fee or other remuneration, you must deliver a notice to substantially the foregoing effect. Terms used above have the meanings assigned to them in Regulation S under the Securities Act."

EXHIBIT 31.1

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, Joseph W. White, certify that:

1. I have reviewed the report on Form 10-Q for the period ended June 30, 2017 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

EXHIBIT 32.1

CERTIFICATE PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the report of Molina Healthcare, Inc. (the "Company") on Form 10-Q for the period ended June 30, 2017 (the "Report"), I, Joseph W. White, Interim Chief Executive Officer and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: August 2, 2017

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2017

1. Basis of Presentation

Organization and Operations

Molina Healthcare, Inc. provides quality managed health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments consist of our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment.

The Health Plans segment consists of health plans in 12 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of March 31, 2017, these health plans served approximately 4.8 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. This membership includes Affordable Care Act Marketplace (Marketplace) members, most of whom receive government premium subsidies. The health plans are operated by our respective wholly owned subsidiaries in those states, each of which is licensed as a health maintenance organization (HMO). Our direct delivery business consists primarily of the operation of primary care clinics in several states in which we operate.

Our health plans' state Medicaid contracts generally have terms of three to four years. These contracts typically contain renewal options exercisable by the state Medicaid agency, and allow either the state or the health plan to terminate the contract with or without cause. Our health plan subsidiaries have generally been successful in retaining their contracts, but such contracts are subject to risk of loss when a state issues a new request for proposal (RFP) open to competitive bidding by other health plans. If one of our health plans is not a successful responsive bidder to a state RFP, its contract may be subject to non-renewal.

In addition to contract renewal, our state Medicaid contracts may be periodically amended to include or exclude certain health benefits (such as pharmacy services, behavioral health services, or long-term care services); populations such as the aged, blind or disabled (ABD); and regions or service areas.

The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs, including business processing, information technology development and administrative services.

The Other segment includes primarily our Pathways behavioral health and social services provider, and corporate amounts not allocated to other reportable segments.

Health Plans Segment Recent Developments

Proposed Medicare Acquisition. In August 2016, we entered into agreements with each of Aetna Inc. and Humana Inc. to acquire certain membership and assets related to their Medicare Advantage business (the Proposed Medicare Acquisition). The Proposed Medicare Acquisition was subject to closing conditions including the completion of the proposed acquisition of Humana by Aetna (the Aetna-Humana Merger). In January 2017, the U.S. District Court for the District of Columbia granted the request made by the U.S. Department of Justice in its civil antitrust lawsuit against Aetna and Humana, to prohibit the Aetna-Humana Merger. In February 2017, the Proposed Medicare Acquisition was terminated by the parties pursuant to the terms of the transaction. Under the termination agreement, we received an aggregate termination fee of $75 million from Aetna and Humana in the first quarter of 2017, which was recorded as other income.

New York Health Plan. On August 1, 2016, we closed on our acquisition of the outstanding equity interests of Today's Options of New York, Inc., which now operates as Molina Healthcare of New York, Inc. The purchase price allocation was completed, and the final purchase price adjustments were recorded in the first quarter of 2017. Such adjustments were insignificant, and the final purchase price was $38 million.

Consolidation and Interim Financial Information

The consolidated financial statements include the accounts of Molina Healthcare, Inc., its subsidiaries, and variable interest entities (VIEs) in which Molina Healthcare, Inc. is considered to be the primary beneficiary. Such VIEs are insignificant to our consolidated financial position and results of operations. In the opinion of management, all adjustments considered necessary for a fair presentation of the results as of the date and for the interim periods presented have been included; such adjustments consist of normal recurring adjustments. All significant intercompany balances and transactions have been eliminated. The consolidated results of operations for the current interim period are not necessarily indicative of the results for the entire year ending December 31, 2017.

The unaudited consolidated interim financial statements have been prepared under the assumption that users of the interim financial data have either read or have access to our audited consolidated financial statements for the fiscal year ended December 31, 2016. Accordingly, certain disclosures that would substantially duplicate the disclosures contained in the December 31, 2016 audited consolidated financial statements have been omitted. These unaudited consolidated interim financial statements should be read in conjunction with our December 31, 2016 audited consolidated financial statements.

2. Significant Accounting Policies

Revenue Recognition – Health Plans Segment

Premium revenue is fixed in advance of the periods covered and, except as described below, is not generally subject to significant accounting estimates. Premium revenues are recognized in the month that members are entitled to receive health care services, and premiums collected in advance are deferred. Certain components of premium revenue are subject to accounting estimates and fall into two broad categories discussed in further detail below: 1) “Contractual Provisions That May Adjust or Limit Revenue or Profit;” and 2) “Quality Incentives.”

Contractual Provisions That May Adjust or Limit Revenue or Profit

Medicaid

Medical Cost Floors (Minimums), and Medical Cost Corridors: A portion of our premium revenue may be returned if certain minimum amounts are not spent on defined medical care costs. In the aggregate, we recorded a liability under the terms of such contract provisions of $262 million and $272 million at March 31, 2017 and December 31, 2016, respectively, to amounts due government agencies. Approximately $245 million and $244 million of the liability accrued at March 31, 2017 and December 31, 2016, respectively, relates to our participation in Medicaid Expansion programs.

In certain circumstances, our health plans may receive additional premiums if amounts spent on medical care costs exceed a defined maximum threshold. Receivables relating to such provisions were insignificant at March 31, 2017 and December 31, 2016.

Profit Sharing and Profit Ceiling: Our contracts with certain states contain profit-sharing or profit ceiling provisions under which we refund amounts to the states if our health plans generate profit above a certain specified percentage. In some cases, we are limited in the amount of administrative costs that we may deduct in calculating the refund, if any. Liabilities for profits in excess of the amount we are allowed to retain under these provisions were insignificant at March 31, 2017 and December 31, 2016.

Retroactive Premium Adjustments: State Medicaid programs periodically adjust premium rates on a retroactive basis. In these cases, we must adjust our premium revenue in the period in which we learn of the adjustment, rather than in the months of service to which the retroactive adjustment applies. In the first quarter of 2016, we recorded a retroactive increase to Medicaid premium revenue of approximately $18 million relating to dates of service prior to 2016.

Medicare

Risk Adjustment: Our Medicare premiums are subject to retroactive increase or decrease based on the health status of our Medicare members (measured as a member risk score). We estimate our members’ risk scores and the related amount of Medicare revenue that will ultimately be realized for the periods presented based on our knowledge of our members’ health status, risk scores and Centers for Medicare & Medicaid Services (CMS) practices. Consolidated balance sheet amounts related to anticipated Medicare risk adjustment premiums and Medicare Part D settlements were insignificant at March 31, 2017 and December 31, 2016.

Minimum MLR: Additionally, federal regulations have established a minimum annual medical loss ratio (Minimum MLR) of 85% for Medicare. The medical loss ratio represents medical costs as a percentage of premium revenue. Federal regulations define what constitutes medical costs and premium revenue. If the Minimum MLR is not met, we may be required to pay rebates to the federal government. We recognize estimated rebates under the Minimum MLR as an adjustment to premium revenue in our consolidated statements of income.

Marketplace

Premium Stabilization Programs: The Affordable Care Act (ACA) established Marketplace premium stabilization programs effective January 1, 2014. These programs, commonly referred to as the "3R's," include a permanent risk adjustment program, a transitional reinsurance program, and a temporary risk corridor program. We record receivables or payables related to the 3R programs and the Minimum MLR when the amounts are reasonably estimable as described below, and, for receivables, when collection is reasonably assured. Our receivables (payables) for each of these programs, as of the dates indicated, were as follows:

	March 31, 2017			December 31, 2016
	Current Benefit Year	Prior Benefit Years	Total	
	(In millions)			
Risk adjustment	$ (247)	$ (522)	$ (769)	$ (522)
Reinsurance	—	58	58	55
Risk corridor	—	(5)	(5)	(1)
Minimum MLR	(37)	(3)	(40)	(1)

- Risk adjustment: Under this permanent program, our health plans' composite risk scores are compared with the overall average risk score for the relevant state and market pool. Generally, our health plans will make a risk transfer payment into the pool if their composite risk scores are below the average risk score, and will receive a risk transfer payment from the pool if their composite risk scores are above the average risk score. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk adjustment program as an adjustment to premium revenue in our consolidated statements of income.

- Reinsurance: This program was designed to provide reimbursement to insurers for high cost members and ended December 31, 2016; we expect to settle the outstanding receivable balance in 2017.

- Risk corridor: This program was intended to limit gains and losses of insurers by comparing allowable costs to a target amount as defined by CMS, and ended December 31, 2016; we expect to settle the outstanding payable balance in 2017.

Additionally, the ACA established a Minimum MLR of 80% for the Marketplace. The medical loss ratio represents medical costs as a percentage of premium revenue. Federal regulations define what constitutes medical costs and premium revenue. If the Minimum MLR is not met, we may be required to pay rebates to our Marketplace policyholders. Each of the 3R programs is taken into consideration when computing the Minimum MLR. We recognize estimated rebates under the Minimum MLR as an adjustment to premium revenue in our consolidated statements of income.

Quality Incentives

At several of our health plans, revenue ranging from approximately 1% to 3% of certain health plan premiums is earned only if certain performance measures are met.

The following table quantifies the quality incentive premium revenue recognized for the periods presented, including the amounts earned in the periods presented and prior periods. Although the reasonably possible effects of a change in estimate related to quality incentive premium revenue as of March 31, 2017 are not known, we have no reason to believe that the adjustments to prior years noted below are not indicative of the potential future changes in our estimates as of March 31, 2017.

	Three Months Ended March 31,	
	2017	2016
	(In millions)	
Maximum available quality incentive premium - current period	$ 38	$ 40
Amount of quality incentive premium revenue recognized in current period:		
Earned current period	$ 19	$ 18
Earned prior periods	5	5
Total	$ 24	$ 23
Quality incentive premium revenue recognized as a percentage of total premium revenue	0.5%	0.6%

Income Taxes

The provision for income taxes is determined using an estimated annual effective tax rate, which is generally greater than the U.S. federal statutory rate primarily because of state taxes, nondeductible expenses such as the Health Insurer Fee (HIF), certain compensation, and other general and administrative expenses. The effective tax rate in the first quarter of 2017 decreased significantly, compared with prior year levels, due primarily to the 2017 HIF moratorium.

The effective tax rate may be subject to fluctuations during the year, particularly as a result of the level of pretax earnings, and also as new information is obtained. Such information may affect the assumptions used to estimate the annual effective tax rate, including factors such as the mix of pretax earnings in the various tax jurisdictions in which we operate, valuation allowances against deferred tax assets, the recognition or the reversal of the recognition of tax benefits related to uncertain tax positions, and changes in or the interpretation of tax laws in jurisdictions where we conduct business. We recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of our assets and liabilities, along with net operating loss and tax credit carryovers.

Premium Deficiency Reserves on Loss Contracts

We assess the profitability of our medical care policies to identify groups of contracts where current operating results or forecasts indicate probable future losses. If anticipated future variable costs exceed anticipated future premiums and investment income, a premium deficiency reserve is recognized. We recorded a premium deficiency reserve of $30 million as of December 31, 2016 relating to our Marketplace program, which decreased to $22 million as of March 31, 2017.

Recent Accounting Pronouncements

Goodwill Impairment. In January 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-04, *Simplifying the Test for Goodwill Impairment*, which eliminates the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge. Instead, an impairment charge will be the excess of the carrying amount of the reporting unit, including goodwill, over the fair value of the reporting unit. ASU 2017-04 is effective beginning January 1, 2020; early adoption is permitted for annual and interim goodwill impairment testing dates after January 1, 2017. We intend to early adopt ASU 2017-04 and will apply the provisions of this standard in our interim or annual goodwill impairment tests subsequent to January 1, 2017. We are unable to quantify the impact of adoption to future quarters because the impact of this standard is dependent on the fair value of our reporting units at the time an impairment assessment is performed.

Stock Compensation. In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting*, which amends ASC Topic 718, *Compensation – Stock Compensation*. ASU 2016-09 simplifies several aspects of accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax and classification in the statement of cash flows. We adopted ASU 2016-09 in the first quarter of 2017; such adoption did not significantly impact our consolidated financial statements in the first quarter of 2017. In addition, the prior period presentation in the statement of cash flows was not adjusted because such adjustments were insignificant. We are unable to quantify the impact of adoption to future quarters, however, because such impact is dependent on future stock prices which we cannot predict.

Leases. In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842),* as modified by ASU 2017-03, *Transition and Open Effective Date Information*. Under ASU 2016-02, an entity will be required to recognize assets and liabilities for the rights and obligations created by leases on the entity's balance sheet for both finance and operating leases. For leases with a term of 12 months or less, an entity can elect to not recognize lease assets and lease liabilities and expense the lease over a straight-line basis for the term of the lease. ASU 2016-02 will require

new disclosures that depict the amount, timing, and uncertainty of cash flows pertaining to an entity's leases. ASU 2016-02 is effective for us beginning January 1, 2019 and must be adopted using a modified retrospective approach for annual and interim periods beginning after December 15, 2018. Early adoption is permitted. Under this guidance, we will record assets and liabilities relating primarily to our long-term office leases, and are currently evaluating the effect to our consolidated financial statements.

Revenue Recognition. In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. We intend to adopt this standard and the related modifications on January 1, 2018, using the modified retrospective approach. Under this approach, the cumulative effect of initially applying the guidance will be reflected as an adjustment to beginning retained earnings.

We have determined that the insurance contracts of our Health Plans segment, which comprises the vast majority of our operations, are excluded from the scope of ASU 2014-09 because the recognition of revenue under these contracts is dictated by other accounting standards governing insurance contracts.

For our Molina Medicaid Solutions segment, we have determined that certain service revenue and cost of service revenue will no longer be deferred and recognized over the service delivery period. Rather, service revenue will be recognized based on the expected cost plus gross margin method, and cost of service revenue will be recognized as incurred. As of March 31, 2017, we expect the cumulative adjustment for historical periods through March 31, 2017, to increase retained earnings by no more than $50 million. This estimate will be updated in each quarterly and annual report until adoption. We are currently quantifying the effect of adoption in connection with our Other segment.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission (SEC) did not have, or are not believed by management to have, a significant impact on our present or future consolidated financial statements.

3. Net Income per Share

The following table sets forth the calculation of basic and diluted net income per share:

	Three Months Ended March 31,	
	2017	2016
	(In millions, except net income per share)	
Numerator:		
Net income	$ 77	$ 24
Denominator:		
Denominator for basic net income per share	56	55
Effect of dilutive securities:		
Share-based compensation	—	1
1.125% Warrants [1]	—	1
Denominator for diluted net income per share	56	57
Net income per share: [2]		
Basic	$ 1.38	$ 0.44
Diluted	$ 1.37	$ 0.43

(1) For more information regarding the 1.125% Warrants, refer to Note 9, "Stockholders' Equity."
(2) Source data for calculations in thousands.

4. Fair Value Measurements

We consider the carrying amounts of cash and cash equivalents and other current assets and current liabilities (not including derivatives and the current portion of long-term debt) to approximate their fair values because of the relatively short period of time between the origination of these instruments and their expected realization or payment. For our financial instruments measured at fair value on a recurring basis, we prioritize the inputs used in measuring fair value according to a three-tier fair value hierarchy as follows:

Level 1 — Observable Inputs. Level 1 financial instruments are actively traded and therefore the fair value for these securities is based on quoted market prices on one or more securities exchanges.

Level 2 — Directly or Indirectly Observable Inputs. Level 2 financial instruments are traded frequently though not necessarily daily. Fair value for these investments is determined using a market approach based on quoted prices for similar securities in active markets or quoted prices for identical securities in inactive markets.

Level 3 — Unobservable Inputs. Level 3 financial instruments are valued using unobservable inputs that represent management's best estimate of what market participants would use in pricing the financial instrument at the measurement date. Our Level 3 financial instruments include derivative financial instruments.

Derivative financial instruments include the 1.125% Call Option derivative asset and the 1.125% Conversion Option derivative liability. These derivatives are not actively traded and are valued based on an option pricing model that uses observable and unobservable market data for inputs. Significant market data inputs used to determine fair value as of March 31, 2017 included the price of our common stock, the time to maturity of the derivative instruments, the risk-free interest rate, and the implied volatility of our common stock. As described further in Note 8, "Derivatives," the 1.125% Call Option asset and the 1.125% Conversion Option liability were designed such that changes in their fair values would offset, with minimal impact to the consolidated statements of income. Therefore, the sensitivity of changes in the unobservable inputs to the option pricing model for such instruments is mitigated.

The net changes in fair value of Level 3 financial instruments were insignificant to our results of operations for the three months ended March 31, 2017.

Our financial instruments measured at fair value on a recurring basis at March 31, 2017, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,353	$ —	$ 1,353	$ —
Government-sponsored enterprise securities (GSEs)	209	209	—	—
U.S. treasury notes	193	193	—	—
Municipal securities	152	—	152	—
Asset-backed securities	110	—	110	—
Certificates of deposit	39	—	39	—
Subtotal - current investments	2,056	402	1,654	—
1.125% Call Option derivative asset	181	—	—	181
Total assets measured at fair value on a recurring basis	$ 2,237	$ 402	$ 1,654	$ 181
1.125% Conversion Option derivative liability	$ 181	$ —	$ —	$ 181
Total liabilities measured at fair value on a recurring basis	$ 181	$ —	$ —	$ 181

Our financial instruments measured at fair value on a recurring basis at December 31, 2016, were as follows:

	Total	Level 1	Level 2	Level 3
	(In millions)			
Corporate debt securities	$ 1,179	$ —	$ 1,179	$ —
GSEs	231	231	—	—
U.S. treasury notes	84	84	—	—
Municipal securities	142	—	142	—
Asset-backed securities	69	—	69	—
Certificates of deposit	53	—	53	—
Subtotal - current investments	1,758	315	1,443	—
1.125% Call Option derivative asset	267	—	—	267
Total assets measured at fair value on a recurring basis	$ 2,025	$ 315	$ 1,443	$ 267
1.125% Conversion Option derivative liability	$ 267	$ —	$ —	$ 267
Total liabilities measured at fair value on a recurring basis	$ 267	$ —	$ —	$ 267

Fair Value Measurements – Disclosure Only

The carrying amounts and estimated fair values of our senior notes, which are classified as Level 2 financial instruments, are indicated in the following table.

	March 31, 2017		December 31, 2016	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(In millions)			
5.375% Notes	$ 691	$ 726	$ 691	$ 714
1.125% Convertible Notes	477	705	471	792
1.625% Convertible Notes	287	321	284	344
	$ 1,455	$ 1,752	$ 1,446	$ 1,850

5. Investments

Available-for-Sale Investments

The following tables summarize our investments as of the dates indicated:

	March 31, 2017			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,354	$ 1	$ 2	$ 1,353
GSEs	210	—	1	209
U.S. treasury notes	193	—	—	193
Municipal securities	153	—	1	152
Asset-backed securities	110	—	—	110
Certificates of deposit	39	—	—	39
	$ 2,059	$ 1	$ 4	$ 2,056

	December 31, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,180	$ 1	$ 2	$ 1,179
GSEs	232	—	1	231
U.S. treasury notes	84	—	—	84
Municipal securities	143	—	1	142
Asset-backed securities	69	—	—	69
Certificates of deposit	53	—	—	53
	$ 1,761	$ 1	$ 4	$ 1,758

The contractual maturities of our investments as of March 31, 2017 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 1,151	$ 1,151
Due after one year through five years	872	870
Due after five years through ten years	36	35
	$ 2,059	$ 2,056

Gross realized gains and losses from sales of available-for-sale securities are calculated under the specific identification method and are included in investment income. Gross realized investment gains and losses for the three months ended March 31, 2017 and 2016 were insignificant.

We have determined that unrealized losses at March 31, 2017 and December 31, 2016, are temporary in nature, because the change in market value for these securities has resulted from fluctuating interest rates, rather than a deterioration of the credit worthiness of the issuers. So long as we maintain the intent and ability to hold these securities to maturity, we are unlikely to experience losses. In the event that we dispose of these securities before maturity, we expect that realized losses, if any, will be insignificant.

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of March 31, 2017:

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 570	$ 2	341	$ —	$ —	—
GSEs	200	1	83	—	—	—
Municipal securities	84	1	101	—	—	—
	$ 854	$ 4	525	$ —	$ —	—

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of December 31, 2016:

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 542	$ 2	378	$ —	$ —	—
GSEs	198	1	73	—	—	—
Municipal securities	101	1	129	—	—	—
	$ 841	$ 4	580	$ —	$ —	—

Held-to-Maturity Investments

Pursuant to the regulations governing our Health Plans segment subsidiaries, we maintain statutory deposits and deposits required by government authorities primarily in certificates of deposit and U.S. treasury securities. We also maintain restricted investments as protection against the insolvency of certain capitated providers. The use of these funds is limited as required by regulation in the various states in which we operate, or as needed in the event of insolvency of capitated providers. We have the ability to hold our restricted investments until maturity, and as a result, we would not expect the value of these investments to decline significantly due to a sudden change in market interest rates.

The contractual maturities of our restricted investments, which are designated as held-to-maturity and are carried at amortized cost, which approximates fair value, as of March 31, 2017 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 97	$ 97
Due after one year through five years	18	18
	$ 115	$ 115

6. Medical Claims and Benefits Payable

The following table provides the details of our medical claims and benefits payable (including amounts payable for the provision of long-term services and supports, or LTSS) as of the dates indicated.

	March 31, 2017	December 31, 2016
	(In millions)	
Fee-for-service claims incurred but not paid (IBNP)	$ 1,425	$ 1,352
Pharmacy payable	133	112
Capitation payable	36	37
Other	332	428
	$ 1,926	$ 1,929

“Other” medical claims and benefits payable include amounts payable to certain providers for which we act as an intermediary on behalf of various government agencies without assuming financial risk. Such receipts and payments do not impact our consolidated statements of income. Non-risk provider payables amounted to $131 million and $225 million as of March 31, 2017 and December 31, 2016, respectively.

The following table presents the components of the change in our medical claims and benefits payable for the periods indicated. The amounts presented for “Components of medical care costs related to: Prior periods” represent the amount by which our original estimate of medical claims and benefits payable at the beginning of the period were more than the actual amount of the liability based on information (principally the payment of claims) developed since that liability was first reported.

	Three Months Ended March 31,	
	2017	2016
	(Dollars in millions)	
Medical claims and benefits payable, beginning balance	$ 1,929	$ 1,685
Components of medical care costs related to:		
Current period	4,253	3,755
Prior periods	(142)	(167)
Total medical care costs	4,111	3,588
Change in non-risk provider payables	(96)	24
Payments for medical care costs related to:		
Current period	2,683	2,241
Prior periods	1,335	1,116
Total paid	4,018	3,357
Medical claims and benefits payable, ending balance	$ 1,926	$ 1,940
Benefit from prior period as a percentage of:		
Balance at beginning of period	7.4%	10.0%
Premium revenue, trailing twelve months	0.8%	1.2%
Medical care costs, trailing twelve months	0.9%	1.3%

Reinsurance recoverables of $67 million and $61 million as of March 31, 2017 and December 31, 2016, respectively, are included in receivables.

As indicated above, the amounts ultimately paid out on our medical claims and benefits payable liabilities in fiscal years 2017 and 2016 were less than what we had expected when we had established those liabilities. The differences between our original estimates and the amounts ultimately paid out (or now expected to be ultimately paid out) for the most part related to IBNP. While many related factors working in conjunction with one another serve to determine the accuracy of our estimates, we are seldom able to quantify the impact that any single factor has on a change in estimate. In addition, given the variability inherent in the reserving process, we will only be able to identify specific factors if they represent a significant departure from expectations. As a result, we do not expect to be able to fully quantify the impact of individual factors on changes in estimates.

We believe that the most significant uncertainties surrounding our IBNP estimates at March 31, 2017 are as follows:

- In the first quarter of 2017, our Marketplace enrollment across all health plans increased over 500,000 members. Due to limited insight into the cost patterns associated with this large number of new Marketplace members, our liability estimates for these members are subject to more than the usual amount of uncertainty.
- At our Florida health plan, claims receipts increased significantly over the last few months due to an increase in the receipt of secondary claims, many of which are not our liability. These claims, known as COBA (coordination of benefits agreement) claims, will either be denied or will have very small paid amounts. For this reason, claims denial rates, amounts paid per claim and other claims indicators will be impacted, making our liability estimates subject to more than the usual amount of uncertainty.
- At our Illinois health plan, we paid a large number of claims in the first quarter of 2017 that had previously been denied and disputed by providers. This has created some distortion in the payment patterns, making our liability estimates subject to more than the usual amount of uncertainty.

We recognized favorable prior period claims development in the amount of $142 million for the three months ended March 31, 2017. This amount represents our estimate as of March 31, 2017, of the extent to which our initial estimate of medical claims and benefits payable at December 31, 2016 was more than the amount that will ultimately be paid out in satisfaction of that liability. We believe the overestimation was due primarily to the following factors:

- At our Puerto Rico health plan, we increased the outpatient claims liability at December 31, 2016 due to a significant increase in pharmacy utilization, which typically indicates that outpatient costs will also be increasing. However, our actual outpatient costs were ultimately lower than our estimates.

- At our California health plan, we increased our claims liability at December 31, 2016 to reflect delays in the processing of paper claims. Subsequent adjudication of those claims has demonstrated that our actual additional claim costs were less than the additional amount we added to the December 31, 2016 liability estimate.
- At our Texas health plan, higher than expected claims recoveries caused our actual costs to be less than expected.

7. Debt

Substantially all of our debt is held at the parent, which is reported in the Other segment. The following table summarizes our outstanding debt obligations and their classification in the accompanying consolidated balance sheets (in millions):

	March 31, 2017	December 31, 2016
Current portion of long-term debt:		
1.125% Convertible Notes, net of unamortized discount	$ —	$ 477
Lease financing obligations	1	1
Debt issuance costs	—	(6)
	1	472
Senior notes:		
5.375% Notes	700	700
1.125% Convertible Notes, net of unamortized discount	482	—
1.625% Convertible Notes, net of unamortized premium and discount	289	286
Debt issuance costs	(16)	(11)
	1,455	975
Lease financing obligations	198	198
	$ 1,654	$ 1,645

5.375% Notes due 2022

We have outstanding $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, unless earlier redeemed. According to their terms, the guarantees under the 5.375% Notes mirror those of the Credit Facility, defined and described below. See Note 14, “Supplemental Condensed Consolidating Financial Information,” for more information on the guarantors.

Credit Facility

In January 2017, we entered into an amended unsecured $500 million revolving credit facility (Credit Facility), referred to as the First Amendment. As of March 31, 2017, outstanding letters of credit amounting to $6 million reduced our borrowing capacity under the Credit Facility to $494 million. The Credit Facility has a term of five years and all amounts outstanding will be due and payable on January 31, 2022. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $650 million. As of March 31, 2017, no amounts were outstanding under the Credit Facility.

In addition to increasing amounts available to borrow under the Credit Facility and extending its term, the First Amendment provided that all guarantors immediately prior to January 3, 2017, other than Molina Information Systems, LLC, d/b/a Molina Medicaid Solutions, Molina Pathways, LLC, and Pathways Health and Community Support LLC, were automatically and unconditionally released from their obligations as guarantors of the Credit Facility and the 5.375% Notes.

The Credit Facility contains customary non-financial and financial covenants, including a net leverage ratio and an interest coverage ratio. In February 2017, we entered into a second amendment to the Credit Facility (the Second Amendment) which modified the Credit Facility’s definition of the earnings measure used in the financial covenant computations to a) allow us to receive credit for risk corridor payments owed to, but not received or accrued by us during 2016; and b) account for the difference between the amount of actual risk transfer payments made or accrued by us during 2016, and the amount of risk transfer payments that would have been due under the federal

government's proposed 2018 risk adjustment payment transfer formula. At March 31, 2017, we were in compliance with all financial and non-financial covenants under the Credit Facility.

Convertible Senior Notes

We have outstanding $550 million aggregate principal amount of 1.125% cash convertible senior notes due January 15, 2020, unless earlier repurchased or converted. We refer to these notes as our 1.125% Convertible Notes. We also have outstanding $302 million aggregate principal amount of 1.625% convertible senior notes due August 14, 2044, unless earlier repurchased, redeemed, or converted. We refer to these notes as our 1.625% Convertible Notes. The 1.125% Convertible Notes are convertible entirely to cash, and the 1.625% Convertible Notes are convertible partially to cash, each prior to their respective maturity dates under certain circumstances, one of which relates to the closing price of our common stock over a specified period. We refer to this conversion trigger as the stock price trigger.

The stock price trigger for the 1.125% Convertible Notes is $53.00 per share. The stock price trigger for the 1.625% Convertible Notes is $75.51 per share. The 1.125% Convertible Notes and the 1.625% Convertible Notes did not meet their respective stock price triggers in the quarter ended March 31, 2017; therefore, they were not convertible and were reported as non-current as of March 31, 2017.

The 1.625% Convertible Notes have a contractual maturity date in 2044; however, on contractually specified dates beginning in August 2018, holders may require us to repurchase some or all of the 1.625% Convertible Notes, or we may redeem any or all of the 1.625% Convertible Notes.

Cross Default Provisions

The terms of our 5.375% Notes and each of the 1.125% and 1.625% Convertible Notes contain cross default provisions with the Credit Facility that are triggered upon an event of default under the Credit Facility, and when borrowings under the Credit Facility equal or exceed certain amounts as defined in the related indentures.

Debt Commitment Letter

In connection with the Proposed Medicare Acquisition, we entered into a debt commitment letter with Barclays Bank PLC (Barclays) in August 2016. Under this debt commitment letter, Barclays agreed to lend us up to $400 million, subject to satisfaction of certain conditions, including consummation of the Proposed Medicare Acquisition. The debt commitment letter automatically terminated in February 2017 as a result of the termination of the Proposed Medicare Acquisition. The costs associated with the debt commitment letter and its termination were reimbursed as described in Note 1, "Basis of Presentation–*Health Plans Segment Recent Developments*."

8. Derivatives

The following table summarizes the fair values and the presentation of our derivative financial instruments (defined and discussed individually below) in the consolidated balance sheets:

	Balance Sheet Location	March 31, 2017	December 31, 2016
		(In millions)	
Derivative asset:			
1.125% Call Option	Current assets: Derivative asset	$ —	$ 267
	Non-current assets: Derivative asset	$ 181	$ —
Derivative liability:			
1.125% Conversion Option	Current liabilities: Derivative liability	$ —	$ 267
	Non-current liabilities: Derivative liability	$ 181	$ —

Our derivative financial instruments do not qualify for hedge treatment; therefore the change in fair value of these instruments is recognized immediately in our consolidated statements of income, and reported in other income, net. Gains and losses for our derivative financial instruments are presented individually in the consolidated statements of cash flows, supplemental cash flow information.

1.125% Notes Call Spread Overlay. Concurrent with the issuance of the 1.125% Convertible Notes in 2013, we entered into privately negotiated hedge transactions (collectively, the 1.125% Call Option) and warrant transactions

(collectively, the 1.125% Warrants), with certain of the initial purchasers of the 1.125% Convertible Notes (the Counterparties). We refer to these transactions collectively as the Call Spread Overlay. Under the Call Spread Overlay, the cost of the 1.125% Call Option we purchased to cover the cash outlay upon conversion of the 1.125% Convertible Notes was reduced by proceeds from the sale of the 1.125% Warrants. Assuming full performance by the Counterparties (and 1.125% Warrants strike prices in excess of the conversion price of the 1.125% Convertible Notes), these transactions are intended to offset cash payments in excess of the principal amount of the 1.125% Convertible Notes due upon any conversion of such Notes.

1.125% Call Option. The 1.125% Call Option, which is indexed to our common stock, is a derivative asset that requires mark-to-market accounting treatment due to cash settlement features until the 1.125% Call Option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Call Option, refer to Note 4, “Fair Value Measurements.”

1.125% Conversion Option. The embedded cash conversion option within the 1.125% Convertible Notes is accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the cash conversion option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Conversion Option, refer to Note 4, “Fair Value Measurements.”

As of March 31, 2017, the 1.125% Call Option and the 1.125% Conversion Option were classified as a non-current asset and non-current liability, respectively, because the 1.125% Convertible Notes were not convertible as of March 31, 2017, as described in Note 7, “Debt.”

9. Stockholders' Equity

Stockholders’ equity increased $78 million during the three months ended March 31, 2017 compared with stockholders’ equity at December 31, 2016. The increase was due to net income of $77 million and $1 million of other comprehensive income.

1.125% Warrants

In connection with the Call Spread Overlay transaction described in Note 8, “Derivatives,” in 2013, we issued 13,490,236 warrants with a strike price of $53.8475 per share. Under certain circumstances, beginning in April 2020, when the price of our common stock exceeds the strike price of the 1.125% Warrants, we will be obligated to issue shares of our common stock subject to a share delivery cap. The 1.125% Warrants could separately have a dilutive effect to the extent that the market value per share of our common stock exceeds the applicable strike price of the 1.125% Warrants. Refer to Note 3, “Net Income per Share,” for dilution information for the periods presented. We will not receive any additional proceeds if the 1.125% Warrants are exercised.

Stock Incentive Plans

In connection with our equity incentive plans and employee stock purchase plan, approximately 246,000 shares of common stock were purchased or vested, net of shares used to settle employees’ income tax obligations, during the three months ended March 31, 2017.

As of March 31, 2017, there was $39 million of total unrecognized compensation expense related to unvested restricted share awards, including those with performance conditions, which we expect to recognize over a remaining weighted-average period of 2.4 years. This unrecognized compensation cost assumes an estimated forfeiture rate of 3.8% for non-executive employees as of March 31, 2017.

Restricted and performance stock activity for the three months ended March 31, 2017 is summarized below:

	Restricted Shares	Performance Shares	Total	Weighted Average Grant Date Fair Value
Unvested balance as of December 31, 2016	577,244	345,656	922,900	$ 58.15
Granted	351,214	—	351,214	49.51
Vested	(208,425)	(107,320)	(315,745)	51.88
Forfeited	(5,061)	—	(5,061)	63.71
Unvested balance as of March 31, 2017	714,972	238,336	953,308	57.02

The total fair value of restricted awards, including those with performance or market conditions, granted during the three months ended March 31, 2017 and 2016 was $17 million and $18 million, respectively. The total fair value of

restricted awards, including those with performance and market conditions, which vested during the three months ended March 31, 2017 and 2016 was $16 million and $32 million, respectively.

10. Segment Information

We have three reportable segments. These segments consist of our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment. Our reportable segments are consistent with how we currently manage the business and view the markets we serve.

Gross margin is the appropriate earnings measure for our reportable segments, based on how our chief operating decision maker currently reviews results, assesses performance, and allocates resources.

Gross margin for our Health Plans segment is referred to as “Medical margin,” and for our Molina Medicaid Solutions and Other segments, as “Service margin.” Medical margin represents the amount earned by the Health Plans segment after medical costs are deducted from premium revenue. The medical care ratio represents medical care costs as a percentage of premium revenue, and is one of the key metrics used to assess the performance of the Health Plans segment. Therefore, the underlying medical margin is the most important measure of earnings reviewed by the chief operating decision maker. The service margin is equal to service revenue minus cost of service revenue.

	Health Plans	Molina Medicaid Solutions	Other	Consolidated
		(In millions)		
Three Months Ended March 31, 2017				
Total revenue [1]	$ 4,771	$ 46	$ 87	$ 4,904
Gross margin	537	4	5	546
Three Months Ended March 31, 2016				
Total revenue [1]	4,201	52	90	4,343
Gross margin	407	6	7	420
Total Assets				
March 31, 2017	6,586	279	1,173	8,038
December 31, 2016	5,897	267	1,285	7,449

(1) Total revenue consists primarily of premium revenue, premium tax revenue and health insurer fee revenue for the Health Plans segment, and service revenue for the Molina Medicaid Solutions and Other segments. Inter-segment revenue is insignificant.

The following table reconciles gross margin by segment to consolidated income before income tax expense:

	Three Months Ended March 31,	
	2017	2016
	(In millions)	
Gross margin:		
Health Plans	$ 537	$ 407
Molina Medicaid Solutions	4	6
Other	5	7
Total gross margin	546	420
Add: other operating revenues [1]	125	208
Less: other operating expenses [2]	(589)	(539)
Operating income	82	89
Other (income) expenses, net	(49)	25
Income before income tax expense	$ 131	$ 64

(1) Other operating revenues include premium tax revenue, health insurer fee revenue, investment income and other revenue.

(2) Other operating expenses include general and administrative expenses, premium tax expenses, health insurer fee expenses and depreciation and amortization.

11. Commitments and Contingencies

Regulatory Capital Requirements and Dividend Restrictions

Our health plans, which are operated by our respective wholly owned subsidiaries in those states, are subject to state laws and regulations that, among other things, require the maintenance of minimum levels of statutory capital, as defined by each state. Regulators in some states may also attempt to enforce capital requirements that require the retention of net worth in excess of amounts formally required by statute or regulation. Such statutes, regulations and informal capital requirements also restrict the timing, payment, and amount of dividends and other distributions that may be paid to us as the sole stockholder. To the extent our subsidiaries must comply with these regulations, they may not have the financial flexibility to transfer funds to us. Based on current statutes and regulations, the net assets in these subsidiaries (after intercompany eliminations) which may not be transferable to us in the form of loans, advances, or cash dividends was approximately $1,527 million at March 31, 2017, and $1,492 million at December 31, 2016. Because of the statutory restrictions that inhibit the ability of our health plans to transfer net assets to us, the amount of retained earnings readily available to pay dividends to our stockholders is generally limited to cash, cash equivalents and investments held by the parent company – Molina Healthcare, Inc. Such cash, cash equivalents and investments amounted to $273 million and $264 million as of March 31, 2017 and December 31, 2016, respectively.

The National Association of Insurance Commissioners (NAIC) adopted rules effective December 31, 1998, which, if implemented by the states, set minimum capitalization requirements for insurance companies, HMOs, and other entities bearing risk for health care coverage. The requirements take the form of risk-based capital (RBC) rules which may vary from state to state. All of the states in which our health plans operate, except California, Florida and New York, have adopted these rules. Such requirements, if adopted by California, Florida and New York, may increase the minimum capital required for those states.

As of March 31, 2017, our health plans had aggregate statutory capital and surplus of approximately $1,722 million compared with the required minimum aggregate statutory capital and surplus of approximately $1,100 million. All of our health plans were in compliance with the minimum capital requirements at March 31, 2017. We have the ability, and have committed to provide, additional capital to each of our health plans as necessary to ensure compliance with statutory capital and surplus requirements.

Legal Proceedings

The health care and Medicaid-related business process outsourcing industries are subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly funded programs, and the repayment of previously billed and collected revenues.

We are involved in legal actions in the ordinary course of business, some of which seek monetary damages, including claims for punitive damages, which are not covered by insurance. We have accrued liabilities for certain matters for which we deem the loss to be both probable and estimable. Although we believe that our estimates of such losses are reasonable, these estimates could change as a result of further developments of these matters. The outcome of legal actions is inherently uncertain and such pending matters for which accruals have not been established have not progressed sufficiently through discovery and/or development of important factual information and legal issues to enable us to estimate a range of possible loss, if any. While it is not possible to accurately predict or determine the eventual outcomes of these items, an adverse determination in one or more of these pending matters could have a material adverse effect on our consolidated financial position, results of operations, or cash flows.

Marketplace Risk Corridor Program. On January 19, 2017, we filed suit against the United States of America in the United States Court of Federal Claims, Case Number 1:55-cv-01000-UNJ, on behalf of our health plans seeking recovery from the federal government of approximately $52 million in Marketplace risk corridor payments for calendar year 2015. Based upon current estimates, we believe our health plans are also owed approximately $90 million in Marketplace risk corridor payments from the federal government for calendar year 2016, and a further

nominal amount for calendar year 2014. Our lawsuit seeks recovery of all of these unpaid amounts. We have not recognized revenue, nor have we recorded a receivable, for any amount due from the federal government for unpaid Marketplace risk corridor payments as of March 31, 2017. We have fully recognized all liabilities due to the federal government that we have incurred under the Marketplace risk corridor program, and have paid all amounts due to the federal government as required.

Rodriguez v. Providence Community Corrections. On October 1, 2015, seven individuals, on behalf of themselves and all others similarly situated, filed a complaint in the District Court for the Middle District of Tennessee, Nashville Division, Case No. 3:15-cv-01048 (the Rodriquez Litigation), against Providence Community Corrections, Inc. (now known as Pathways Community Corrections, Inc., or PCC). Rutherford County, Tennessee formerly contracted with PCC for the administration of misdemeanor probation, which involved the collection of court costs and fees from probationers. The complaint alleges, among other things, that PCC illegally assessed fees and surcharges against probationers and made improper threats of arrest and probation revocation if the probationers did not pay such amounts. The plaintiffs in the Rodriguez Litigation seek alleged compensatory, treble, and punitive damages, plus attorneys' fees, for alleged federal and state constitutional violations, as well as alleged violations of the Racketeer Influenced and Corrupt Organization Act. PCC's agreement with Rutherford County terminated effective March 31, 2016. On November 1, 2015, one month after the Rodriguez Litigation commenced, we acquired PCC from The Providence Service Corporation (Providence) pursuant to a membership interest purchase agreement. In September 2016, the parties to the Rodriguez Litigation accepted a mediation proposal for settlement pursuant to which PCC would pay the plaintiffs $14 million. The parties are in the process of finalizing the settlement agreement. We expect to recover the full amount of the settlement under the indemnification provisions of the membership interest purchase agreement with Providence.

United States of America, ex rel., Anita Silingo v. Mobile Medical Examination Services, Inc., et al. On or around October 14, 2014, Molina Healthcare of California, Molina Healthcare of California Partner Plan, Inc., Mobile Medical Examination Services, Inc. (MedXM), and other health plan defendants were served with a Complaint previously filed under seal in the Central District Court of California by Relator, Anita Silingo, Case No. SACV13-1348-FMO(SHx). The Complaint alleges that MedXM improperly modified medical records and otherwise took inappropriate steps to increase members' risk adjustment scores, and that the defendants, including Molina Healthcare of California and Molina Healthcare of California Partner Plan, Inc., purportedly turned a "blind eye" to these unlawful practices. On October 22, 2015, the Relator filed a third amended complaint, seeking general and compensatory damages, treble damages, civil penalties, plus interest and attorneys' fees. On July 11, 2016, the District Court dismissed with prejudice the third amended complaint, without leave to amend. On September 23, 2016, the plaintiff filed an appeal with the Ninth Circuit Court of Appeals. The plaintiff/appellant's opening brief was filed March 6, 2017, and the defendant/appellee's opening brief is due June 5, 2017.

States' Budgets

From time to time the states in which our health plans operate may experience financial difficulties, which could lead to delays in premium payments. For example, the state of Illinois is operating without a budget for its current fiscal year. As of March 31, 2017, our Illinois health plan served approximately 194,000 members, and recognized premium revenue of approximately $161 million in the first quarter of 2017. As of April 28, 2017, the state of Illinois owed us approximately $80 million for certain January, February and March 2017 premiums.

On May 3, 2017, Puerto Rico's financial oversight board filed for a form of bankruptcy in the U.S. District Court in Puerto Rico under Title III of PROMESA. The Title III provision allows for a court debt restructuring process similar to U.S. bankruptcy protection. To the extent such bankruptcy results in our failure to receive payment of amounts due under our Medicaid contract with the Commonwealth or the inability of the Commonwealth to extend our Medicaid contract at the end of its current term, such bankruptcy could have a material adverse effect on our business, financial condition, cash flows, or results of operations. As of March 31, 2017, the plan served approximately 326,000 members and recorded premium revenue of approximately $183 million in the first quarter of 2017. As of April 28, 2017, the Commonwealth is current with its premium payments.

Employment Agreements and Severance Payments

We entered into amended and restated employment agreements with our former Chief Executive Officer (CEO) and former Chief Financial Officer (CFO) in 2016. On May 2, 2017, their employment was terminated without cause. Under the amended and restated employment agreements, subject to such former executives signing a general waiver and release agreement, they are each entitled to receive 400% of their base salary, a prorated termination bonus (150% of base salary for the former CEO and 125% of base salary for the former CFO), full vesting of equity compensation, and a cash payment for health and welfare benefits.

12. Related Party Transactions

Our California health plan has entered into a provider agreement with Pacific Healthcare IPA (Pacific), which is 50% owned by the brother-in-law of Dr. J. Mario Molina and John C. Molina. Under the terms of this provider agreement, the California health plan pays Pacific for medical care Pacific provides to health plan members. For the three months ended March 31, 2017 and 2016, the amounts paid to Pacific were insignificant.

Refer to Note 13, "Variable Interest Entities (VIEs)," for a discussion of the Joseph M. Molina, M.D. Professional Corporations.

13. Variable Interest Entities (VIEs)

The Joseph M. Molina, M.D. Professional Corporations (JMMPC) were created to further advance our direct delivery business. JMMPC's primary shareholder is Dr. J. Mario Molina, who is a member of our board of directors. Dr. Molina is paid no salary and receives no dividends in connection with his work for, or ownership of, JMMPC. JMMPC provides primary care medical services through its employed physicians and other medical professionals. JMMPC also provides certain specialty referral services to our California health plan members through a contracted provider network. Substantially all of the individuals served by JMMPC are members of our California, Florida, New Mexico, Utah and Washington health plans. These health plans have entered into primary care services agreements with JMMPC, under which the health plans paid $31 million to JMMPC for health care services provided in each of the quarters ended March 31, 2017 and 2016. JMMPC does not have agreements to provide professional medical services with any other entities.

Separately, the primary care services agreements direct our health plans to either fund JMMPC's operating deficits, or receive JMMPC's operating surpluses, such that JMMPC will derive no profit or loss. Because the MMM services agreements described below mitigate the likelihood of significant operating deficits or surpluses, such payments are generally insignificant.

Our wholly owned subsidiary, Molina Medical Management, Inc. (MMM), has entered into services agreements with JMMPC to provide clinic facilities, clinic administrative support staff, patient scheduling services and medical supplies to JMMPC. The services agreements were designed such that JMMPC will operate at break even, ensuring the availability of quality care and access for our health plan members. The services agreements provide that the administrative fees charged to JMMPC by MMM are reviewed annually to assure the achievement of this goal. For the three months ended March 31, 2017 and 2016, JMMPC paid $13 million and $14 million, respectively, to MMM for clinic administrative services.

We have determined that JMMPC is a VIE, and that we are its primary beneficiary. We have reached this conclusion under the power and benefits criterion model according to GAAP. Specifically, we have the power to direct the activities (excluding clinical decisions) that most significantly affect JMMPC's economic performance, and the obligation to absorb losses or right to receive benefits that are potentially significant to the VIE, under the agreements described above. Because we are its primary beneficiary, we have consolidated JMMPC. JMMPC's assets may be used to settle only JMMPC's obligations, and JMMPC's creditors have no recourse to the general credit of Molina Healthcare, Inc. As of March 31, 2017, JMMPC had total assets of $17 million, and total liabilities of $17 million. As of December 31, 2016, JMMPC had total assets of $18 million, and total liabilities of $18 million.

Our maximum exposure to loss as a result of our involvement with JMMPC is generally limited to the amounts needed to fund JMMPC's ongoing payroll, employee benefits and medical care costs associated with JMMPC's specialty referral activities. We believe that such loss exposures will be insignificant to our consolidated operating results and cash flows for the foreseeable future.

14. Supplemental Condensed Consolidating Financial Information

The 5.375% Notes described in Note 7, "Debt," are fully and unconditionally guaranteed by certain of our 100% owned subsidiaries on a joint and several basis, with certain exceptions considered customary for such guarantees. The 5.375% Notes and the guarantees are effectively subordinated to all of our and our guarantors' existing and future secured debt to the extent of the assets securing such debt. In addition, the 5.375% Notes and the guarantees are structurally subordinated to all indebtedness and other liabilities and preferred stock, if any, of our subsidiaries that do not guarantee the 5.375% Notes.

As discussed in Note 7, “Debt,” the First Amendment to the Credit Facility provided that all guarantors immediately prior to January 3, 2017, other than Molina Information Systems, LLC, d/b/a Molina Medicaid Solutions, Molina Pathways, LLC, and Pathways Health and Community Support LLC, were automatically and unconditionally released from their obligations as guarantors under the Credit Facility and the 5.375% Notes.

The following condensed consolidating financial statements present Molina Healthcare, Inc. (as parent guarantor), the subsidiary guarantors, the subsidiary non-guarantors and eliminations, according to the guarantor structure as assessed at the most recent balance sheet date, March 31, 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)

FORWARD LOOKING STATEMENTS

This quarterly report on Form 10-Q contains forward-looking statements regarding our business, financial condition, and results of operations within the meaning of Section 27A of the Securities Act of 1933, or Securities Act, and Section 21E of the Securities Exchange Act of 1934, or Securities Exchange Act. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we are including this statement for purposes of complying with these safe harbor provisions. All statements, other than statements of historical facts, included in this quarterly report may be deemed to be forward-looking statements for purposes of the Securities Act and the Securities Exchange Act. Without limiting the foregoing, we use the words "anticipate(s)," "believe(s)," "estimate(s)," "expect(s)," "intend(s)," "may," "plan(s)," "project(s)," "will," "would," "could," "should" and similar expressions to identify forward-looking statements, although not all forward-looking statements contain these identifying words. We cannot guarantee that we will actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements and, accordingly, you should not place undue reliance on our forward-looking statements. There are a number of important factors that could cause actual results or events to differ materially from the forward-looking statements that we make. You should read these factors and the other cautionary statements as being applicable to all related forward-looking statements wherever they appear in this quarterly report. We caution you that we do not undertake any obligation to update forward-looking statements made by us. Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected, estimated, expected, or contemplated. Those known risks and uncertainties include, but are not limited to, the following:

- *the success of our profit improvement and cost-cutting initiatives;*
- *the numerous political and market-based uncertainties associated with the Affordable Care Act (the "ACA") or "Obamacare," including any potential repeal and replacement of the law, amendment of the law, or move to state block grants for Medicaid;*
- *the market dynamics surrounding the ACA Marketplaces, including but not limited to uncertainties associated with risk transfer requirements, the potential for disproportionate enrollment of higher acuity members, the withdrawal of cost sharing subsidies and/or premium tax credits, the adequacy of agreed rates, and potential disruption associated with market withdrawal;*
- *subsequent adjustments to reported premium revenue based upon subsequent developments or new information, including changes to estimated amounts payable or receivable related to Marketplace risk adjustment/risk transfer, risk corridors, and reinsurance;*
- *management of our medical costs, including our ability to reduce over time the high medical costs commonly associated with new patient populations;*
- *our ability to predict with a reasonable degree of accuracy utilization rates, including utilization rates in new plans, geographies, and programs where we have less experience with patient and provider populations, and also including utilization rates associated with seasonal flu patterns or other newly emergent diseases;*
- *significant budget pressures on state governments and their potential inability to maintain current rates, to implement expected rate increases, or to maintain existing benefit packages or membership eligibility thresholds or criteria, including the resolution of the Illinois budget impasse and continued payment of all amounts due to our Illinois health plan;*
- *the success of our efforts to retain existing government contracts, including those in Illinois, Washington, Florida, Texas, and New Mexico, and to obtain new government contracts in connection with state requests for proposals (RFPs) in both existing and new states;*
- *the impact of the recent changes to our executive leadership team;*
- *our ability to manage growth, including maintaining and creating adequate internal systems and controls relating to authorizations, approvals, provider payments, and the overall success of our care management initiatives;*
- *our ability to consummate and realize benefits from acquisitions, and to integrate acquisitions;*

- *our receipt of adequate premium rates to support increasing pharmacy costs, including costs associated with specialty drugs and costs resulting from formulary changes that allow the option of higher-priced non-generic drugs;*
- *our ability to operate profitably in an environment where the trend in premium rate increases lags behind the trend in increasing medical costs;*
- *the interpretation and implementation of federal or state medical cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit sharing arrangements, and risk adjustment provisions;*
- *our estimates of amounts owed for such cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit-sharing arrangements, and risk adjustment provisions;*
- *the Medicaid expansion cost corridors in California, New Mexico and Washington, and any other retroactive adjustment to revenue where methodologies and procedures are subject to interpretation or dependent upon information about the health status of participants other than Molina members;*
- *the interpretation and implementation of at-risk premium rules and state contract performance requirements regarding the achievement of certain quality measures, and our ability to recognize revenue amounts associated therewith;*
- *cyber-attacks or other privacy or data security incidents resulting in an inadvertent unauthorized disclosure of protected health information;*
- *the success of our health plan in Puerto Rico, including the resolution of the Puerto Rico debt crisis, any impact of Puerto Rico's filing for bankruptcy protection under the PROMESA law, payment of all amounts due under our Medicaid contract, the effect of the PROMESA law, and our efforts to better manage the health care costs of our Puerto Rico health plan;*
- *the success and renewal of our duals demonstration programs in California, Illinois, Michigan, Ohio, South Carolina, and Texas;*
- *the accurate estimation of incurred but not reported or paid medical costs across our health plans;*
- *efforts by states to recoup previously paid and recognized premium amounts;*
- *the continuation and renewal of the government contracts of our health plans, Molina Medicaid Solutions, and Pathways, and the terms under which such contracts are renewed;*
- *complications, member confusion, or enrollment backlogs related to the annual renewal of Medicaid coverage;*
- *government audits and reviews, or potential investigations, and any fine, sanction, enrollment freeze, monitoring program, or premium recovery that may result therefrom;*
- *changes with respect to our provider contracts and the loss of providers;*
- *approval by state regulators of dividends and distributions by our health plan subsidiaries;*
- *changes in funding under our contracts as a result of regulatory changes, programmatic adjustments, or other reforms;*
- *high dollar claims related to catastrophic illness;*
- *the favorable resolution of litigation, arbitration, or administrative proceedings;*
- *the relatively small number of states in which we operate health plans;*
- *the availability of adequate financing on acceptable terms to fund and capitalize our expansion and growth, repay our outstanding indebtedness at maturity and meet our liquidity needs, including the interest expense and other costs associated with such financing;*
- *our failure to comply with the financial or other covenants in our credit agreement or the indentures governing our outstanding notes;*
- *the sufficiency of our funds on hand to pay the amounts due upon conversion or maturity of our outstanding notes;*
- *the failure of a state in which we operate to renew its federal Medicaid waiver;*
- *changes generally affecting the managed care or Medicaid management information systems industries;*
- *increases in government surcharges, taxes, and assessments, including but not limited to the deductibility of certain compensation costs;*
- *newly emergent viruses or widespread epidemics, public catastrophes or terrorist attacks, and associated public alarm; and*
- *increasing competition and consolidation in the Medicaid industry*.

Investors should refer to the section entitled "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 and the section entitled "Risk Factors" in this Quarterly Report on Form 10-Q, for a discussion of certain risk factors that could materially affect our business, financial condition, cash flows, or results of operations. Given these risks and uncertainties, we can give no assurance that any results or events projected or contemplated by our forward-looking statements will in fact occur.

This document and the following discussion of our financial condition and results of operations should be read in conjunction with the accompanying consolidated financial statements and the notes to those statements appearing elsewhere in this report, and the audited financial statements and Management's Discussion and Analysis appearing in our Annual Report on Form 10-K for the year ended December 31, 2016.

ABOUT MOLINA HEALTHCARE

Molina Healthcare, Inc. provides quality managed health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments consist of our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment.

OUR GOAL IS TO ACHIEVE OUR MISSION WHILE IMPROVING THE FINANCIAL STRENGTH OF OUR ORGANIZATION.

Non-GAAP Financial Measures

We use non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry. These non-GAAP financial measures should be considered as supplements to, and not as substitutes for or superior to, GAAP measures.

See further information regarding non-GAAP measures in the "Supplemental Information" section of this MD&A, including the reconciliations to U.S. GAAP. Non-GAAP financial measures referred to in this report are designated with an asterisk (*).

How We Assess Performance

We derive our revenues primarily from health insurance premiums, and our primary customers are state Medicaid agencies and the federal government.

One of the key metrics used to assess the performance of our most significant segment, the Health Plans segment, is the medical care ratio, or MCR. The medical care ratio represents medical care costs as a percentage of premium revenue. Therefore, the underlying gross margin, or the amount earned by the Health Plans segment after medical costs are deducted from premium revenue, is the most important measure of earnings reviewed by management.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." The service margin is equal to service revenue minus cost of service revenue. Management's discussion and analysis of the changes in the individual components of gross margin, by reportable segment, is presented in the "Reportable Segments" section of this MD&A.

KEY PERFORMANCE INDICATORS

	Three Months Ended March 31,	
	2017	2016
	(Dollar amounts in millions, except per-share amounts)	
Net income	$ 77	$ 24
Net income per diluted share	$ 1.37	$ 0.43
MCR (1)	88.4%	89.8%
G&A ratio (2)	8.9%	7.8%
Premium tax ratio (1)	2.3%	2.6%
Effective tax rate	41.6%	61.7%
Net profit margin (2)	1.6%	0.6%
Net profit margin excluding acquisition termination fee (2)	0.6%	0.6%
EBITDA*	$ 203	$ 126
Adjusted net income*	$ 83	$ 29
Adjusted net income per diluted share*	$ 1.47	$ 0.51

(1) MCR represents medical care costs as a percentage of premium revenue; premium tax ratio represents premium tax expenses as a percentage of premium revenue plus premium tax revenue.
(2) G&A ratio represents general and administrative expenses as a percentage of total revenue. Net profit margin represents net income as a percentage of total revenue. Net profit margin excluding acquisition termination fee represents net income excluding the acquisition termination fee (net of income taxes at our blended federal and state statutory tax rate of 37%), as a percentage of total revenue.

CONSOLIDATED RESULTS

First Quarter 2017 Compared with First Quarter 2016

Net income per diluted share increased to $1.37 in the first quarter of 2017 compared with $0.43 reported for the first quarter of 2016. Adjusted net income per diluted share* increased to $1.47 in the first quarter of 2017, compared with $0.51 in the first quarter of 2016. Income before income taxes increased $67 million to $131 million in the first quarter of 2017 from $64 million in the first quarter of 2016.

First quarter financial performance was affected by the following developments. See further discussion of these items below in “Health Plans—Financial Performance by Program,” and “Other Consolidated Information.”

- As previously reported, we received a payment of $75 million relating to the termination of a proposed Medicare acquisition, which was recorded as other income in the first quarter of 2017.
- The performance of our Marketplace program was consistent with management’s expectations. See below for further discussion regarding Marketplace premium deficiency reserves.
- The performance of our combined Medicaid and Medicare programs was consistent with management’s expectations, with the exception of the unfavorable prior-period development of medical claims liabilities in Illinois discussed below.
- The G&A ratio was 8.9% in the first quarter of 2017, compared with 7.8% in the first quarter of 2016.
- The effective tax rate in the first quarter of 2017, while consistent with our previously announced full year 2017 Outlook, dropped substantially from prior year levels due primarily to the 2017 HIF moratorium.

TRENDS AND UNCERTAINTIES

ACA and the Marketplace

The future of the Affordable Care Act (ACA) and its underlying programs, including the Marketplace, are subject to substantial uncertainty. We are unable to predict with any degree of certainty whether the ACA will be modified or repealed in its entirety, and if it is repealed, what will replace it. Nor are we able to predict when any such changes, if enacted, would become effective.

We continue to advocate for federal policies to stabilize the Marketplace program. We have not committed to operating in the Marketplace in 2018.

Medicaid Contract Re-Procurement

The following table illustrates Health Plans segment Medicaid contracts scheduled for re-procurement in the near term. While we have been notified of the Medicaid regulators' intention to re-procure the contracts, the anticipated award dates and effective dates are management's current best estimates. Such dates are subject to change and, in some cases, not yet known to us. Premium revenue is stated in millions.

State Health Plan	Medicaid Program(s)	Membership as of March 31, 2017	Premium Revenue Three Months Ended March 31, 2017	Anticipated Award Date	Anticipated Effective Date
Florida	All	358,000	$ 356	Q1 2018	1/1/2019
Illinois	All	189,000	92	Q3 2017	1/1/2018
New Mexico	All	236,000	297	Q1 2018	1/1/2019
Puerto Rico	All	326,000	183	Unknown	7/1/2018
Texas	ABD	86,000	347	Q4 2017	1/1/2019
Texas	CHIP	26,000	10	Q4 2017	9/1/2018
Washington	All - North Central Region	40,000	24	Q2 2017	1/1/2018

REPORTABLE SEGMENTS

SEGMENT SUMMARY

	Three Months Ended March 31, 2017	Three Months Ended March 31, 2016
	(In millions)	
Segment gross margin:		
Health Plans medical margin [1]	$ 537	$ 407
Molina Medicaid Solutions service margin [2]	4	6
Other [2]	5	7
Total segment gross margin	546	420
Other operating revenues [3]	125	208
Other operating expenses [4]	(589)	(539)
Operating income	82	89
Other (income) expenses, net	(49)	25
Income before income tax expense	131	64
Income tax expense	54	40
Net income	$ 77	$ 24

(1) Represents premium revenue minus medical care costs.
(2) Represents service revenue minus cost of service revenue.
(3) Other operating revenues include premium tax revenue, health insurer fee revenue, investment income and other revenue.
(4) Other operating expenses include general and administrative expenses, premium tax expenses, health insurer fee expenses and depreciation and amortization.

HEALTH PLANS

The Health Plans segment consists of health plans in 12 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of March 31, 2017, these health plans served approximately 4.8 million

members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. This membership includes Affordable Care Act Marketplace (Marketplace) members, most of whom receive government premium subsidies.

RECENT DEVELOPMENTS

Refer to Notes to Consolidated Financial Statements, Note 1, “Basis of Presentation” and Note 11, “Commitments and Contingencies—Employment Agreements and Severance Payments.”

BUSINESS OVERVIEW

Health Plans Membership

The following tables set forth our Health Plans membership as of the dates indicated:

	March 31, 2017	December 31, 2016	March 31, 2016
Ending Membership by Program:			
Temporary Assistance for Needy Families (TANF) and Children’s Health Insurance Program (CHIP)	2,548,000	2,536,000	2,485,000
Marketplace	1,035,000	526,000	630,000
Medicaid Expansion	684,000	673,000	632,000
Aged, Blind or Disabled (ABD)	401,000	396,000	380,000
Medicare-Medicaid Plan (MMP) – Integrated [1]	55,000	51,000	50,000
Medicare Special Needs Plans (Medicare)	43,000	45,000	43,000
	4,766,000	4,227,000	4,220,000
Ending Membership by Health Plan:			
California	765,000	683,000	676,000
Florida	711,000	553,000	576,000
Illinois	194,000	195,000	206,000
Michigan	417,000	391,000	399,000
New Mexico	270,000	254,000	246,000
New York [2]	34,000	35,000	—
Ohio	351,000	332,000	336,000
Puerto Rico	326,000	330,000	339,000
South Carolina	111,000	109,000	102,000
Texas	493,000	337,000	380,000
Utah	172,000	146,000	151,000
Washington	785,000	736,000	672,000
Wisconsin	137,000	126,000	137,000
	4,766,000	4,227,000	4,220,000

(1) MMP members receive both Medicaid and Medicare coverage from Molina Healthcare.
(2) The New York health plan was acquired on August 1, 2016.

Premiums by Program

The amount of the premiums paid to our health plans may vary substantially between states and among various government programs. The following table sets forth the ranges of premiums paid to our state health plans by program on a per member per month (PMPM) basis, for the three months ended March 31, 2017. The "Consolidated" column represents the weighted-average amounts for our total membership by program.

	PMPM Premiums		
	Low	High	Consolidated
TANF and CHIP	$ 120.00	$ 320.00	$ 180.00
Marketplace	150.00	450.00	260.00
Medicaid Expansion	310.00	520.00	400.00
ABD	360.00	1,510.00	1,010.00
MMP – Integrated	1,100.00	3,240.00	2,090.00
Medicare	840.00	1,200.00	1,070.00

FINANCIAL OVERVIEW

In the first quarter of 2017, premium revenue increased by approximately 16%, or $653 million, when compared with the first quarter of 2016. Member months grew by 14% while revenue PMPM increased by 2%.

Medical care costs as a percent of premium revenue decreased to 88.4% in the first quarter of 2017 from 89.8% in the first quarter of 2016. Medical margin increased 32% in the first quarter of 2017 over the first quarter of 2016.

FINANCIAL PERFORMANCE BY PROGRAM

The following tables summarize member months, premium revenue, medical care costs, medical care ratio and medical margin by program for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Three Months Ended March 31, 2017						
	Member Months [1]	Premium Revenue		Medical Care Costs		MCR [2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	7.7	$ 1,402	$ 182.69	$ 1,304	$ 170.02	93.1%	$ 98
Medicaid Expansion	2.0	817	398.70	689	336.51	84.4	128
ABD	1.2	1,196	1,006.84	1,130	951.32	94.5	66
Total Medicaid	10.9	3,415	312.98	3,123	286.35	91.5	292
MMP	0.2	344	2,088.96	307	1,859.41	89.0	37
Medicare	0.1	138	1,068.20	117	902.67	84.5	21
Total Medicare	0.3	482	1,640.63	424	1,439.20	87.7	58
Excluding Marketplace	11.2	3,897	347.84	3,547	316.62	91.0	350
Marketplace	2.9	751	262.16	564	196.72	75.0	187
	14.1	$ 4,648	$ 330.39	$ 4,111	$ 292.20	88.4%	$ 537

	Three Months Ended March 31, 2016						
	Member Months [1]	Premium Revenue		Medical Care Costs		MCR [2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	7.4	$ 1,324	$ 178.47	$ 1,198	$ 161.46	90.5%	$ 126
Medicaid Expansion	1.9	679	365.11	574	308.30	84.4	105
ABD	1.2	1,112	961.49	1,041	899.79	93.6	71
Total Medicaid	10.5	3,115	298.51	2,813	269.42	90.3	302
MMP	0.1	340	2,220.68	317	2,070.23	93.2	23
Medicare	0.1	131	1,029.10	124	980.49	95.3	7
Total Medicare	0.2	471	1,681.57	441	1,577.21	93.8	30
Excluding Marketplace	10.7	3,586	334.62	3,254	303.59	90.7	332
Marketplace	1.6	409	251.85	334	205.86	81.7	75
	12.3	$ 3,995	$ 323.73	$ 3,588	$ 290.74	89.8%	$ 407

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.

Medicaid: TANF/CHIP, Medicaid Expansion and ABD

The medical care ratios of the combined TANF/CHIP, Medicaid Expansion and ABD programs increased to 91.5% in the first quarter of 2017 from 90.3% in the first quarter of 2016. The medical care ratios of these programs for the first quarters of both 2017 and 2016 were affected by out-of-period items. During the first quarter of 2017, we recognized approximately $20 million of medical costs at the Illinois health plan related to dates of service in 2016. During the first quarter of 2016, we recognized approximately $18 million of revenue at the Florida health plan related to dates of service in 2015. Absent these items, the MCR for the combined Medicaid programs was approximately 91% for the first quarters of both 2017 and 2016. Although increases in the utilization of services by these members were modest between the first quarter of 2016 and 2017, pharmacy costs increased.

MMP and Medicare

The medical care ratio for these programs, in the aggregate, decreased in the first quarter of 2017 when compared to the first quarter of 2016, partially as a result of lower hospital utilization.

Marketplace

Member months increased 77% in the first quarter of 2017, when compared with the first quarter of 2016, as a result of membership growth primarily in California, Florida and Texas. The medical care ratios of the Marketplace program for the first quarters of both 2017 and 2016 were affected by out-of-period items. In the first quarter of 2017, we recognized a decrease to medical expense of $8 million as a result of a reduction to the premium deficiency reserve established for the Marketplace program at December 31, 2016. The reserve, which was $30 million at December 31, 2016, decreased to $22 million as of March 31, 2017. In the first quarter of 2016, we recognized out-of-period items that reduced medical margin by $30 million. Absent these items, the medical care ratio for the Marketplace program was approximately 76% for the first quarters of both 2017 and 2016.

FINANCIAL PERFORMANCE BY STATE

The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by state health plan for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Three Months Ended March 31, 2017						
	Member Months	Premium Revenue		Medical Care Costs		MCR	Medical Margin
		Total	PMPM	Total	PMPM		
California	2.2	$ 644	$ 286.92	$ 510	$ 227.19	79.2%	$ 134
Florida	2.1	656	316.86	558	269.33	85.0	98
Illinois	0.6	161	276.58	180	310.08	112.1	(19)
Michigan	1.3	393	316.80	339	273.36	86.3	54

Washington	2.0	506	255.41	458	231.18	90.5	48
Wisconsin	0.4	97	250.36	92	238.01	95.1	5
Other (2)	—	3	—	14	—	—	(11)
	12.3	$ 3,995	$ 323.73	$ 3,588	$ 290.74	89.8%	$ 407

(1) The New York health plan was acquired on August 1, 2016.
(2) "Other" medical care costs include primarily medically related administrative costs of the parent company, and direct delivery costs.

MEDICAL CARE COSTS BY TYPE

The following table provides the details of consolidated medical care costs by category for the periods indicated (dollars in millions except PMPM amounts):

	Three Months Ended March 31,					
	2017			2016		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee for service	$ 3,086	$ 219.32	75.1%	$ 2,737	$ 221.77	76.3%
Pharmacy	616	43.76	15.0	525	42.53	14.6
Capitation	324	23.06	7.9	295	23.87	8.2
Direct delivery	22	1.58	0.5	16	1.34	0.5
Other	63	4.48	1.5	15	1.23	0.4
	$ 4,111	$ 292.20	100.0%	$ 3,588	$ 290.74	100.0%

PREMIUM TAXES

The premium tax ratio (premium tax expense as a percentage of premium revenue plus premium tax revenue) was 2.3% in the first quarter of 2017 compared with 2.6% in the first quarter of 2016. This decline was primarily due to the temporary suspension of a Michigan HMO use tax effective January 1, 2017 which was partially offset by a higher California premium tax rate effective July 1, 2016, and significant revenue growth at our Florida health plan, which operates in a state with no premium tax.

HEALTH INSURER FEE (HIF) REVENUE AND EXPENSES

The Consolidated Appropriations Act of 2016 provided for a HIF moratorium in 2017. Therefore, there are no HIF revenues or expenses in 2017.

MOLINA MEDICAID SOLUTIONS

The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs, including business processing, information technology development and administrative services.

FINANCIAL OVERVIEW

The Molina Medicaid Solutions segment service margin for the three months ended March 31, 2017 and 2016 was insignificant.

OTHER

The Other segment includes primarily our Pathways behavioral health and social services provider, and corporate amounts not allocated to other reportable segments.

Substantially all of Pathways' revenue is derived from contracts with state or local government agencies and government intermediaries, the majority of which are negotiated fee-for-service arrangements. A significant number of these contracts allow the payer to terminate the contract immediately with or without cause.

FINANCIAL OVERVIEW

The Other segment service margin for the three months ended March 31, 2017 and 2016 was insignificant.

OTHER CONSOLIDATED INFORMATION

GENERAL AND ADMINISTRATIVE EXPENSES

The G&A ratio was 8.9% in the first quarter of 2017, compared with 7.8% in the first quarter of 2016. The G&A ratio increased over 2016 primarily due to: 1) increased investment in systems and infrastructure; 2) employee bonuses recorded in 2017 but not in 2016; 3) costs associated with increased Marketplace enrollment in 2017; and 4) the reduction to revenue as a result of the 2017 Health Insurer Fee (HIF) moratorium. We expect our 2017 G&A ratio to be negatively impacted by the severance payments due to our former chief executive officer and former chief financial officer. See Notes to Consolidated Financial Statements, Note 11, “Commitments and Contingencies—Employment Agreements and Severance Payments.”

DEPRECIATION AND AMORTIZATION

Depreciation and amortization, as a percentage of total revenue, was 0.8% in the first quarter of 2017 and 2016.

INTEREST EXPENSE

Interest expense was $26 million for the first quarter of 2017, compared with $25 million for the first quarter of 2016. Interest expense includes non-cash interest expense relating primarily to the amortization of the discount on convertible senior notes, which amounted to $8 million for both the three months ended March 31, 2017 and 2016.

OTHER INCOME, NET

As described in Notes to Consolidated Financial Statements, Note 1, “Basis of Presentation,” in February 2017, the Proposed Medicare Acquisition was terminated by the parties pursuant to the terms of the transaction. Under the termination agreement, we received an aggregate termination fee of $75 million.

INCOME TAXES

The provision for income taxes was recorded at an effective rate of 41.6% for the first quarter of 2017, compared with 61.7% for the first quarter of 2016. The significant decline in the effective tax rate was primarily a result of 2017 HIF moratorium as described above in “Health Plans—Health Insurer Fee (HIF) Revenue and Expenses.” Management expects the effective tax rate to be approximately 42% for all of 2017.

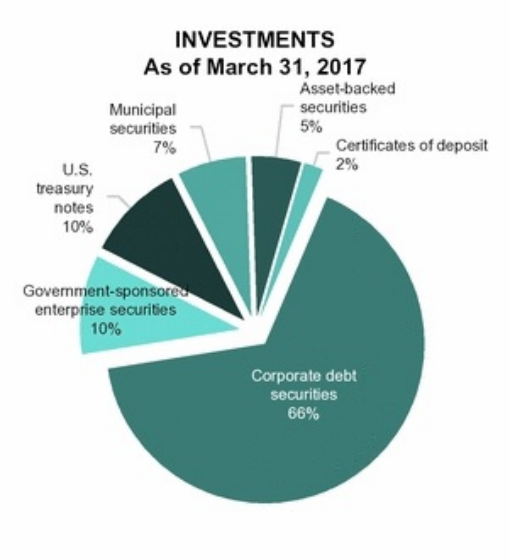
LIQUIDITY AND FINANCIAL CONDITION

INTRODUCTION

We manage our cash, investments, and capital structure to meet the short- and long-term obligations of our business while maintaining liquidity and financial flexibility. We forecast, analyze, and monitor our cash flows to enable prudent investment management and financing within the confines of our financial strategy.

A majority of the assets held by our Health Plans segment regulated subsidiaries is in the form of cash, cash equivalents, and investments. After considering expected cash flows from operating activities, we generally invest cash of regulated subsidiaries that exceeds our expected short-term obligations in longer term, investment-grade, and marketable debt securities to improve our overall investment return. These investments are made pursuant to board-approved investment policies that conform to applicable state laws and regulations.

Our investments are classified as current assets, except for our restricted investments, which are classified as non-current assets, and which are not included in the totals below. Our restricted investments are invested principally in certificates of deposit and U.S. treasury securities. We have the ability to hold our restricted investments until maturity.



Investment income increased to $10 million for the three months ended March 31, 2017, compared with $8 million for the three months ended March 31, 2016, primarily due to the increase in invested assets.

MARKET RISK

Our earnings and financial position are exposed to financial market risk relating changes in interest rates, and the resulting impact on investment income and interest expense.

Substantially all of our investments and restricted investments are subject to interest rate risk and will decrease in value if market interest rates increase. Assuming a hypothetical and immediate 1% increase in market interest rates at March 31, 2017, the fair value of our fixed income investments would decrease by approximately $22 million. Declines in interest rates over time will reduce our investment income.

For further information on fair value measurements and our investment portfolio, please refer to Note 4, “Fair Value Measurements,” and Note 5, “Investments.”

Borrowings under our Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. As of March 31, 2017, no amounts were outstanding under the Credit Facility.

LIQUIDITY

A condensed schedule of cash flows to facilitate our discussion of liquidity follows:

	Three Months Ended March 31,		
	2017	2016	Change
	(In millions)		
Net cash provided by operating activities	$ 719	$ 139	$ 580
Net cash used in investing activities	(339)	(314)	(25)
Net cash (used in) provided by financing activities	(1)	2	(3)
Net increase (decrease) in cash and cash equivalents	$ 379	$ (173)	$ 552

Operating Activities

Cash provided by operating activities increased $580 million in the three months ended March 31, 2017 compared with the three months ended March 31, 2016, primarily due to the following:

Receivables and deferred revenue. In 2017, the aggregate change in receivables and deferred revenue increased cash flows from operations by $509 million. Cash flows from operations in each quarter were impacted by the timing premium revenues receipts. In general, state or federal payors may delay our premium payments, which we record as a receivable, or they may prepay the following month's premium payment, which we record as deferred revenue. We typically receive capitation payments monthly; however, state or federal payors may decide to adjust their payment schedules which could positively or negatively impact our reported cash flows from operating activities in a any given period. In the current quarter, the year-over-year effect of the timing of premiums received at our Florida, Michigan, Ohio, Texas and Washington health plans positively impacted our cash flows from operating activities.

Medical claims and benefits payable. In 2017, the change in medical claims and benefits payable reduced cash flows from operations by $258 million. Reserves for incurred but not paid claims (IBNP) grew at a faster rate in the first quarter of 2016 than in the first quarter of 2017. In addition to the change in IBNP, provider payables, including pass-through amounts, declined in the first quarter of 2017 compared with the first quarter of 2016 primarily due to the timing of payments.

Amounts due government agencies. In 2017, the change in amounts due government agencies increased cash flows from operations by $192 million, due primarily to additional accruals for ACA Marketplace risk transfer payments.

Investing Activities

Net cash used in investing activities increased $25 million in the three months ended March 31, 2017 compared with the three months ended March 31, 2016, primarily due to higher purchases of investments, net of sales and maturities, in the current year.

Financing Activities

There was no significant year over year change in financing activities.

FINANCIAL CONDITION

We believe that our cash resources and internally generated funds will be sufficient to support our operations, regulatory requirements, and capital expenditures for at least the next 12 months.

On a consolidated basis, at March 31, 2017, our working capital was $1,980 million, compared with $1,418 million at December 31, 2016. At March 31, 2017, our cash and investments amounted to $5,371 million, compared with $4,689 million at December 31, 2016.

Debt Ratings. Our 5.375% Notes are rated "BB" by Standard & Poor's, and "Ba3" by Moody's Investor Service, Inc. A significant downgrade in our ratings could adversely affect our borrowing capacity and costs.

FUTURE SOURCES AND USES OF LIQUIDITY

Sources

Our Health Plans segment regulated subsidiaries generate significant cash flows from premium revenue, which we generally receive a short time before we pay for the related health care services. Such cash flows are our primary source of liquidity. Thus, any future decline in our profitability may have a negative impact on our liquidity.

Dividends from Subsidiaries. When available and as permitted by applicable regulations, cash in excess of the capital needs of our regulated health plans is generally paid in the form of dividends to our unregulated parent company to be used for general corporate purposes. In the three months ended March 31, 2017, we received $50 million in dividends from our regulated health plan subsidiaries. In the three months ended March 31, 2016, we did not receive dividends from our subsidiaries. See further discussion in Note 11, “Commitments and Contingencies—Regulatory Capital Requirements and Dividend Restrictions.”

Credit Facility. Refer to Note 7, “Debt,” for a detailed discussion of our Credit Facility.

Shelf Registration Statement. We have a shelf registration statement on file with the Securities and Exchange Commission to register an unlimited amount of any combination of debt or equity securities in one or more offerings. Specific information regarding the terms and securities being offered will be provided at the time of an offering. Proceeds from future offerings are expected to be used for general corporate purposes, including, but not limited to, the repayment of debt, investments in or extensions of credit to our subsidiaries and the financing of possible acquisitions or business expansion.

Uses

Regulatory Capital Requirements and Dividend Restrictions. For more information on our regulatory capital requirements and dividend restrictions, refer to Note 11, “Commitments and Contingencies.”

Acquisitions. In the year ended December 31, 2016, we paid $48 million for businesses or assets acquired in business combinations. Consistent with our business strategy, we will continue to evaluate acquisition opportunities.

States’ Budgets. From time to time the states in which our health plans operate may experience financial difficulties, which could lead to delays in premium payments. For example, the state of Illinois is operating without a budget for its current fiscal year. As of March 31, 2017, our Illinois health plan served approximately 194,000 members, and recognized premium revenue of approximately $161 million in the first quarter of 2017. As of April 28, 2017, the state of Illinois owed us approximately $80 million for certain January, February and March 2017 premiums.

On May 3, 2017, Puerto Rico’s financial oversight board filed for a form of bankruptcy in the U.S. District Court in Puerto Rico under Title III of PROMESA. The Title III provision allows for a court debt restructuring process similar to U.S. bankruptcy protection. To the extent such bankruptcy results in our failure to receive payment of amounts due under our Medicaid contract with the Commonwealth or the inability of the Commonwealth to extend our Medicaid contract at the end of its current term, such bankruptcy could have a material adverse effect on our business, financial condition, cash flows, or results of operations. As of March 31, 2017, the plan served approximately 326,000 members and recorded premium revenue of approximately $183 million in the first quarter of 2017. As of April 28, 2017, the Commonwealth is current with its premium payments.

CONTRACTUAL OBLIGATIONS

A summary of future obligations under our various contractual obligations and commitments as of December 31, 2016, was disclosed in our 2016 Annual Report on Form 10-K. There were no material changes to this previously filed information outside the ordinary course of business during the three months ended March 31, 2017. For further discussion and maturities of our long-term debt, refer to Note 7, “Debt.”

INFLATION

We use various strategies to mitigate the negative effects of health care cost inflation. Specifically, our health plans try to control medical and hospital costs through contracts with independent providers of health care services. Through these contracted providers, our health plans emphasize preventive health care and appropriate use of specialty and hospital services. There can be no assurance, however, that our strategies to mitigate health care

cost inflation will be successful. Competitive pressures, new health care and pharmaceutical product introductions, demands from health care providers and customers, applicable regulations, or other factors may affect our ability to control health care costs.

COMPLIANCE COSTS

Our health plans are regulated by both state and federal government agencies. Regulation of managed care products and health care services is an evolving area of law that varies from jurisdiction to jurisdiction. Regulatory agencies generally have discretion to issue regulations and interpret and enforce laws and rules. Changes in applicable laws and rules occur frequently. Compliance with such laws and rules may lead to additional costs related to the implementation of additional systems, procedures and programs that we have not yet identified.

CRITICAL ACCOUNTING ESTIMATES

When we prepare our consolidated financial statements, we use estimates and assumptions that may affect reported amounts and disclosures; actual results could differ from these estimates. Our critical accounting estimates relate to:

- *Health Plans segment medical claims and benefits payable*. Refer to Notes to Consolidated Financial Statements, Note 6, “Medical Claims and Benefits Payable,” for a table that presents the components of the change in medical claims and benefits payable, and for additional information regarding the factors used to determine our changes in estimates for all periods presented in the accompanying consolidated financial statements. Other than the discussion as noted above, there have been no significant changes during the three months ended March 31, 2017, to our disclosure reported in “Critical Accounting Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2016.

- *Health Plans segment contractual provisions that may adjust or limit revenue or profit*. For a discussion of this topic, including amounts recorded in our consolidated financial statements, refer to Notes to Consolidated Financial Statements, Note 2, “Significant Accounting Policies.”

- *Health Plans segment quality incentives*. For a discussion of this topic, including amounts recorded in our consolidated financial statements, refer to Notes to Consolidated Financial Statements, Note 2, “Significant Accounting Policies.”

- *Molina Medicaid Solutions segment revenue and cost recognition*. There have been no significant changes during the three months ended March 31, 2017, to our disclosure reported in “Critical Accounting Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2016.

- *Goodwill and intangible assets, net.* There have been no significant changes during the three months ended March 31, 2017, to our disclosure reported in “Critical Accounting Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2016.

SUPPLEMENTAL INFORMATION

FINANCIAL MEASURES THAT SUPPLEMENT U.S. GAAP (NON-GAAP FINANCIAL MEASURES)

We use these non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry.

EBITDA*

We believe that earnings before interest, taxes, depreciation and amortization (EBITDA*) is helpful in assessing our ability to meet the cash demands of our operating units.

	Three Months Ended March 31,	
	2017	2016
	(In millions)	
Net income	$ 77	$ 24
Adjustments:		
Depreciation, and amortization of intangible assets and capitalized software	46	37
Interest expense	26	25
Income tax expense	54	40
EBITDA*	$ 203	$ 126

ADJUSTED NET INCOME* AND ADJUSTED NET INCOME PER SHARE*

We believe that adjusted net income* and adjusted net income per diluted share* are helpful in assessing our financial performance exclusive of the non-cash impact of the amortization of purchased intangibles. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to adjusted net income*.

	Three Months Ended March 31,			
	2017		2016	
	(In millions, except diluted per-share amounts)			
Net income	$ 77	$ 1.37	$ 24	$ 0.43
Adjustment:				
Amortization of intangible assets	9	0.16	7	0.13
Income tax effect [1]	(3)	(0.06)	(2)	(0.05)
Amortization of intangible assets, net of tax effect	6	0.10	5	0.08
Adjusted net income*	$ 83	$ 1.47	$ 29	$ 0.51

(1) Income tax effect of adjustments calculated at the blended federal and state statutory tax rate of 37%.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures: Our management, with the participation of our interim chief executive officer and our chief financial officer, has concluded, based upon its evaluation as of the end of the period covered by this report, that the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), were not effective at the reasonable assurance level because of the material weakness in our internal control over financial reporting described below. Notwithstanding the material weakness described below, management has concluded that our consolidated financial statements included in this interim report on Form 10-Q are fairly stated in all material respects in accordance with U.S. generally accepted accounting principles (GAAP) for each of the periods presented herein.

Existence of a Material Weakness in Internal Control as of December 31, 2016

As disclosed in our Annual Report on Form 10-K for the year ended December 31, 2016, our management assessed the effectiveness of our internal control over financial reporting as of December 31, 2016, based on the framework set forth in *Internal Control-Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

We determined that a material weakness existed in our internal control over financial reporting relating to the operation of an element of our process for calculating the amount owed to California by our California health plan. More specifically, a Medicaid Expansion contract amendment executed in the fourth quarter of 2016 changed the medical loss ratio corridor formula and such amendment was not initially considered in determining the liability. As a result, we understated net income by $44 million for the year ended December 31, 2016, which was material to our consolidated results for the year ended December 31, 2016. This amount was corrected prior to the issuance of our consolidated financial statements as of and for the year ended December 31, 2016.

Because of this material weakness, management concluded that we did not maintain effective internal control over financial reporting as of December 31, 2016, based on criteria described in *Internal Control - Integrated Framework* (2013) issued by COSO.

Remediation Plan for Material Weakness

We are executing the remediation plan developed to address the material weakness reported as of December 31, 2016. The remediation efforts we have implemented include the development of robust protocols to ensure that the control, relating to the review of a contractual amendment affecting the computation of the Medicaid Expansion medical loss ratio corridor for our California health plan, is operating as designed. We believe these measures will remediate the material weakness identified above and will strengthen our internal control over financial reporting for the computation of our California Medicaid Expansion medical loss ratio corridor. We currently are targeting to complete the implementation of the control enhancements during 2017. We will test the ongoing operating effectiveness of the control enhancements subsequent to implementation, and consider the material weakness remediated after the applicable remedial control enhancements operate effectively for a sufficient period of time. If the remedial measures described above are insufficient to address the material weakness described above, or are not implemented timely, or additional deficiencies arise in the future, material misstatements in our interim or annual financial statements may occur in the future and could have the effects described in “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016.

Changes in Internal Control Over Financial Reporting: Except as described above, management did not identify any change in our internal control over financial reporting during the fiscal quarter ended March 31, 2017 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

LEGAL PROCEEDINGS

For information regarding legal proceedings, see Notes to Consolidated Financial Statements, Note 11, “Commitments and Contingencies.”

RISK FACTORS

Certain risk factors may have a material adverse effect on our business, financial condition, cash flows, or results of operations, and you should carefully consider them. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in “Risk Factors,” in our Annual Report on Form 10-K for the year ended December 31, 2016. The risk factors described herein, and in our 2016 Annual Report on Form 10-K, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition, cash flows, or results of operations.

The recent changes to our executive leadership team could prove disruptive to our operations and have adverse consequences for our business and operating results.

We recently had significant changes to our executive leadership team, and more changes could occur. On May 2, 2017, we announced the termination without cause of Joseph M. Molina, our President and Chief Executive Officer, and John C. Molina, our Chief Financial Officer, and the appointment of Joseph W. White as Chief Financial Officer and interim President and Chief Executive Officer. We expect that Dr. Molina and Mr. Molina will continue to serve as members of our board of directors.

Although the Board of Directors is conducting a search for a new President and Chief Executive Officer, there can be no assurance that we will be successful in identifying and retaining a suitable President and Chief Executive Officer in a timely fashion, or at all. It may also be more difficult for us to recruit and retain other managerial employees until a permanent President and Chief Executive Officer has been appointed. The recent changes to our executive leadership team could create uncertainty in the market and among our employees, business partners, and the various states with which we contract, and could make it more difficult for us to implement, or could delay the implementation of, our strategic initiatives, all of which could have a material adverse effect on our business, prospects, financial condition and operating results.

Puerto Rico’s recent filing for bankruptcy may negatively impact the Commonwealth’s ability to pay the amounts due under our Medicaid contract, which may negatively impact our business, financial condition, cash flows, or results of operations.

On May 3, 2017, Puerto Rico’s financial oversight board filed for a form of bankruptcy in the U.S. District Court in Puerto Rico under Title III of PROMESA. The Title III provision allows for a court debt restructuring process similar to U.S. bankruptcy protection. To the extent such bankruptcy results in our failure to receive payment of amounts due under our Medicaid contract with the Commonwealth or the inability of the Commonwealth to extend our Medicaid contract at the end of its current term, such bankruptcy could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

ISSUER PURCHASES OF EQUITY SECURITIES

Purchases of common stock made by us, or on our behalf during the quarter ended March 31, 2017, including shares withheld by us to satisfy our employees' income tax obligations, are set forth below:

	Total Number of Shares Purchased [1]	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares Authorized to Be Purchased Under the Plans or Programs
January 1 - January 31	14,147	$ 58.47	—	$ —
February 1 - February 28	511	$ 57.42	—	$ —
March 1 - March 31	114,777	$ 49.10	—	$ —
Total	129,435	$ 50.16	—	

(1) During the three months ended March 31, 2017, we withheld 129,435 shares of common stock under our 2011 Equity Incentive Plan to settle employee income tax obligations.

MOLINA HEALTHCARE, INC.

CHANGE IN CONTROL SEVERANCE PLAN

I. INTRODUCTION

Molina Healthcare, Inc. considers the maintenance of a sound management to be essential to protecting and enhancing the best interests of the Company and its stockholders. Thus, the Company recognizes that the possibility of a Change in Control may exist from time to time, and that this possibility, and the uncertainty and questions it may raise among management, may result in the departure or distraction of management personnel to the detriment of the Company and its stockholders. Accordingly, the Company has determined that appropriate steps should be taken to encourage the continued attention and dedication of members of the Company's management to their assigned duties without the distraction which may arise from the possibility of a Change in Control.

This Change in Control Severance Plan (this "Plan") shall be effective as of May 3, 2017 (the "Effective Date"). This Plan does not alter the status of Participants as at-will employees of the Company. Just as Participants remain free to leave the employ of the Company at any time, so too does the Company retain its right to terminate the employment of Participants without notice, at any time, for any reason.

However, the Company believes that, both prior to and at the time a Change in Control is anticipated or occurring, it is necessary to have the continued attention and dedication of Participants to their assigned duties without distraction, and this Plan is intended as an inducement for Participants' willingness to continue to serve as employees of the Company (subject, however, to either party's right to terminate such employment at any time). Therefore, should a Participant still be an employee of the Company at the time of a Change in Control, the Company agrees that such Participant shall receive the severance benefits hereinafter set forth in the event the Participant's employment with the Company terminates under the circumstances described below.

II. DEFINITIONS

As used herein the following words and phrases shall have the following respective meanings unless the context clearly indicates otherwise.

(a) Affiliate. Any entity which controls, is controlled by, or is under common control with the Company.

(b) Annual Base Salary. The Participant's annual base salary paid or payable, including any base salary that is subject to deferral, to the Participant by the Company or any of its Affiliates at the rate in effect (or required to be in effect before any diminution that is a basis of the Participant's

termination for Good Reason) on the Date of Termination or immediately prior to the Change in Control if the Participant's annual base salary was higher at such time.

(c) Annual Bonus. The Participant's fiscal year target bonus opportunity.

(d) Applicable Multiple.

(i) With respect to any Participant who is at or above the level of Senior Vice President, two (2).

(ii) With respect to any Participant who is at or above the level of Vice President, but below the level of Senior Vice President, one (1).

(iii) With respect to any Participant, other than a Participant identified in clause (i) or (ii) of this Section 2(d), one (1).

(e) Board. The Board of Directors of the Company.

(f) Cause. With respect to any Participant:

(i) the Participant's willful engaging in illegal conduct or gross misconduct which is materially and demonstrably injurious to the Company;

(ii) the Participant's material violation of any policy or code of conduct of the Company or any of its Affiliates, and failure to correct (if possible) following notification of such violation;

(iii) the Participant's unauthorized use or disclosure of confidential information or trade secrets;

(iv) the Participant's engaging in competition with the Company;

(v) any material breach by the Participant of his or her fiduciary duty to the Company; or

(vi) the willful and continued failure of the Participant to perform substantially the Participant's duties with the Company or one of its Affiliates to the extent, degree and level of performance as expected of the Participant (other than any such failure resulting from incapacity due to physical or mental illness), after a written demand for substantial performance is delivered to the Participant by the Board or the Chief Executive Officer of the Company which specifically identifies the manner in which the Board or Chief Executive Officer believes that the Participant has not substantially performed the Participant's duties.

(g) Change in Control. The occurrence of any of the following events after the Effective Date:

(i) the acquisition (other than by an Excluded Person), directly or indirectly, in one or more transactions, by any person or by any group of persons, within the meaning of Section 13(d) or 14(d) of the Exchange Act, of beneficial ownership (within the meaning of Rule 13d-3 of the Exchange Act) of more than fifty percent (50%) of either the outstanding shares of common stock or the combined voting power of the Company's outstanding voting securities entitled to vote generally, whether or not the acquisition was previously approved by the existing directors, other than an acquisition that complies with clause (x) of paragraph (ii);

(ii) consummation of a reorganization, merger, or consolidation of the Company or the sale or other disposition of all or substantially all of the Company's assets unless, (x) immediately following such event, all or substantially all of the stockholders of the Company immediately prior to such event own, directly or indirectly, more than fifty percent (50%) of the then outstanding voting securities of the resulting company (including without limitation, a corporation which as a result of such event owns the Company or all or substantially all of the Company's assets either directly or indirectly through one or more subsidiaries);

(iii) the complete liquidation or dissolution of the Company; or

(iv) a change in the composition of a majority of the directors on the Company's Board within twelve (12) months if not approved by a majority of the pre-existing directors.

A transaction shall not constitute a Change in Control if its sole purpose is to change the state of the Company's incorporation or to create a holding company that will be owned in substantially the same proportions by the persons who held the Company's securities immediately before such transaction.

(h) Code. The Internal Revenue Code of 1986, as amended from time to time.

(i) Committee. The Compensation Committee of the Board.

(j) Company. Molina Healthcare, Inc., a Delaware corporation, and any successor thereto.

(k) Date of Termination. The Date of Termination shall mean:

(i) except in the case of the Participant's termination of employment by reason of death or Disability, the date of receipt of the Notice of Termination by the Company or the Participant, as the case may be, or such later date specified in the Notice of Termination, as the case may be;

(ii) if the Participant's employment is terminated by reason of death, the date of death; or

(iii) if the Participant's employment is terminated by reason of Disability, the thirtieth (30th) day after receipt of such Notice of Termination by the Participant.

Notwithstanding the foregoing, in no event shall the Date of Termination occur until the Participant experiences a "separation from service" within the meaning of Section 409A, and the date on which such separation from service takes place shall be the "Date of Termination."

(l) Disability. A condition such that the Participant by reason of physical or mental disability becomes unable to perform Participant's normal duties for more than one-hundred eighty (180) days in the aggregate (excluding infrequent or temporary absence due to ordinary transitory illness) during any twelve (12)-month period.

(m) Effective Date. The Effective Date shall be as defined in the introductory section hereof.

(n) Employee. Any full-time, regular employee of the Company or any of its Subsidiaries whose employment is not the subject of a collective bargaining agreement, including any such employees who may be on a leave of absence approved by the Company or any of its Subsidiaries, respectively.

(o) ERISA. The Employee Retirement Income Security Act of 1974, as amended from time to time.

(p) Exchange Act. The Securities Exchange Act of 1934.

(q) Excluded Person. "Excluded Person" means:

(i) any person described in and satisfying the conditions of Rule 13d-1(b)(1) under the Exchange Act;

(ii) the Company;

(iii) an employee benefit plan (or related trust) sponsored or maintained by the Company or its successor; or

(iv) any person who is the beneficial owner (as defined in Rule 13d-3 under the Exchange Act) of more than fifteen percent (15%) of the common stock of the Company on the Effective Date (or any affiliate, successor, heir, descendant, or related party of or to such person).

(r) Good Reason. The occurrence of any one (1) or more of the following, without the express written consent of the Participant:

(i) the Participant's position, authority, duties or responsibilities are materially diminished from those in effect during the ninety (90)-day period immediately preceding a Change in Control (whether or not occurring solely as a result of the Company ceasing to be a publicly traded entity);

(ii) a material reduction in the Participant's (x) Annual Base Salary or (y) total annual compensation opportunity, from such total annual compensation opportunity as in effect during the ninety (90)-day period immediately prior to the Change in Control, or as the same may be increased from time to time;

(iii) the Company requires the Participant regularly to perform such Participant's duties of employment beyond a fifty (50) mile radius from the location of the Participant's employment immediately prior to the Change in Control; or

(iv) a material breach by the Company of the terms of a Participant's written employment agreement.

In order to invoke a termination of employment for Good Reason, the Participant shall provide a Notice of Termination pursuant to Section 7.4 to the Company's Chief Legal Officer of the existence of one or more of the conditions described in clauses (i) through (iv) within ninety (90) days following the initial existence of such condition or conditions, specifying in reasonable detail the conditions constituting Good Reason (hereinafter, "Notice of Good Reason"), and the Company shall have thirty (30) days following receipt of such written notice (the "Cure Period") during which it may remedy the condition. In the event that the Company fails to remedy the condition constituting Good Reason during the applicable Cure Period, the effective date of the Participant's Termination of Employment shall be as specified in such notice, but in no event later than thirty (30) days thereafter. The Participant's mental or physical incapacity following the occurrence of an event described above in clauses (i) through (iv) shall not affect the Participant's ability to terminate employment for Good Reason and the Participant's death following delivery of a Notice of Good Reason shall not affect the Participant's estate's entitlement to Separation Benefits provided hereunder.

(s) Notice of Termination.

(i) In the case of the Company, a written notice that (x) indicates the basis under the Plan for termination and (y) to the extent applicable, sets forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of the Participant's employment under the Plan, as indicated. The failure by the Company to set forth in the Notice of Termination any fact or circumstance that contributes to a showing of Good Reason or Cause shall not waive any right of the Company hereunder or preclude the Company, respectively, from asserting such fact or circumstance in enforcing the Company's respective rights hereunder.

(ii) In the case of a Participant, a notice from a Participant to the Company that shall indicate the specific termination provision or provisions of the Plan relied upon and shall set forth in reasonable detail the facts and in the case of a Notice of Termination for Good Reason, the circumstances claimed to provide a basis for termination for Good Reason. Such Notice of Termination for Good Reason must be given no later than ninety (90) days from the initial existence of the condition and shall provide for a date of termination not less than thirty (30) nor more than sixty (60) days after the date such Notice of Termination for Good Reason is delivered to and acknowledged by the General Counsel of the Company.

(t) Participant. An individual who qualifies to participate in this Plan pursuant to Section 3.1.

(u) Qualifying Termination. At any time following a Change in Control and prior to the second (2^{nd}) anniversary of the Change in Control, the Participant's employment with the Company or any of its Subsidiaries is terminated (i) involuntarily for any reason other than Cause, death, or Disability; or (ii) by the Participant for Good Reason.

(v) Section 409A. Section 409A of the Code, and the rules and regulations issued thereunder.

(w) Separation Benefits. The benefits described in Section 4.2 that are provided to qualifying Participants under the Plan.

(x) Subsidiary. Any corporation, limited liability company, or any other entity in which the Company, directly or indirectly, holds a majority of the voting power of such corporation's, limited liability company's, or such other entity's outstanding equity interests.

III. ELIGIBILITY

3.1 Participation. Each Employee (a) who has a position of Vice President or above, or (b) who has a position lower than Vice President, but has been designated in writing as a Participant by the Committee or the Board, shall be a Participant in this Plan. Notwithstanding the foregoing, if a Participant who is eligible to participate in this Plan has entered into an agreement with the Company that provides for benefits in the event of a termination of employment following a Change in Control, such Participant shall be entitled to receive Separation Benefits (or any other benefits under the Plan) only to the extent that such Separation Benefits are in addition to or in excess of the benefits provided under such Participant's agreement with the Company.

3.2 Duration of Participation. The Committee may remove an Employee as a Participant by providing written notice of removal to such Employee; provided that no such removal shall be effective (a) during the one (1) year period following a Change in Control, (b) if effectuated in connection with a potential Change in Control or (c) at such time as the Participant is entitled to

payment of a Separation Benefit or any other amounts payable under the Plan. In addition, a Participant shall cease to be a Participant in the Plan as a result of an amendment or termination of the Plan complying with Article VI of the Plan, or when the Participant ceases to be an Employee or no longer qualifies as a Participant under Section 3.1, unless, at the time the Participant ceases to be an Employee or no longer qualifies as a Participant under Section 3.1, such Participant is entitled to payment of a Separation Benefit or any other amounts payable under the Plan or there has been an event or occurrence constituting Good Reason that would enable the Participant to terminate employment and receive a Separation Benefit. A Participant entitled to payment of a Separation Benefit or any other amounts payable under the Plan shall remain a Participant in the Plan until the full amount of the Separation Benefit and any other amounts payable under the Plan have been paid to the Participant.

IV. SEPARATION BENEFITS

4.1 Terminations of Employment which Give Rise to Separation Benefits under this Plan. Provided that a Participant is in compliance with the terms of this Plan and satisfies all conditions herein, such Participant shall be entitled to Separation Benefits as set forth in Section 4.2 below if the Participant experiences a Qualifying Termination. For purposes of this Plan, any purported termination by the Company or by the Participant shall be communicated by written Notice of Termination to the other in accordance with Section 7.4 hereof and, to the extent applicable, Section 2(s) hereof.

4.2 Separation Benefits.

(a) If a Participant experiences a Qualifying Termination, then the Company shall pay to the Participant, in a lump sum in cash on the sixtieth (60^{th}) day after the Date of Termination, subject to the Participant's compliance with Section 4.2(e) below, the aggregate of the following amounts which benefits, except as provided in Section 7.3 below, shall be in addition to any other benefits to which the Participant is entitled other than by reason of this Plan:

(i) unpaid salary with respect to any paid time off accrued but not taken as of the Date of Termination;

(ii) accrued but unpaid salary through the Date of Termination;

(iii) any earned but unpaid annual incentive bonuses from the fiscal year immediately preceding the year in which the Date of Termination occurs (unless (x) such annual incentive bonus is "nonqualified deferred compensation" within the meaning of Section 409A, in which case such bonus shall be paid at the time that bonuses with respect to such fiscal year are or otherwise would be paid in accordance with the terms of the applicable plan or (y) the Participant has made an irrevocable election under any deferred compensation arrangement subject to

Section 409A to defer any portion of such annual incentive bonuses, in which case any such deferred bonuses shall be paid in accordance with such election);

(iv) an amount equal to the Applicable Multiple times the Participant's Annual Base Salary; and

(v) an amount equal to the Participant's Annual Bonus for the year in which the Participant's employment is terminated based on the number of entire months of such year that have elapsed through the date of the Participant's termination of employment as a fraction of twelve (12).

(b) If the Participant's employment is terminated under circumstances which entitle the Participant to Separation Benefits under this Section 4.2, for a period of twenty-four (24) months following the Date of Termination (the "Benefit Continuation Period"), the Company shall provide the Participant and the Participant's eligible dependents with extended continued health care, dental, and life insurance benefits under the Company's health care, dental and life insurance benefits programs ("Extended Health Coverage"), provided that the Participant complies with all terms and conditions of the applicable plans, including paying an amount equal to the applicable COBRA premiums contributions, based on the coverage elected by the Participant; and provided, further, that, if the Participant becomes reemployed with another employer and becomes eligible to receive health care, dental or life insurance benefits under another employer provided plan, such Extended Health Coverage shall cease. The Company shall pay to Participant an amount equal to the difference between the cost for Extended Health Coverage and the amount the Participant would be required to pay for such coverage as an active employee. Such payment shall be subject to applicable tax withholding. Following the end of the Benefit Continuation Period, the Participant shall be eligible for continued medical and dental coverage as required by Section 4980B of the Code or other applicable law, as if the Participant's employment with the Company had terminated as of the end of such Benefit Continuation Period.

(c) If the Participant is entitled to Separation Benefits under this Plan and notwithstanding anything to the contrary in any equity incentive, stock option, stock appreciation right (SAR), performance units, phantom stock awards, or deferred compensation plan or retirement plan or agreements, then (i) the Participant shall become immediately fully vested in all of the Participant's outstanding restricted stock, stock options, SARs, warrants, performance units, phantom stock, deferred compensation, retirement, or similar plans or agreements of the Company, and (ii) the Participant (or his personal representative if applicable) shall be permitted to exercise any of the Participant's vested stock options/SARs until the earlier of: (i) one (1) year after the Participant's termination of employment, and (ii) the term of such unexercised stock options, warrants, or SARs.

(d) Except as provided in Section 4.2(b), the Participant shall not be required to mitigate the amount of any payment provided for in this Section 4.2 by seeking other employment or otherwise, nor shall the amount of any payment or benefit provided for in this Section 4.2 be reduced by any compensation earned by the Participant as the result of employment by another employer or by retirement benefits paid by the Company after the Date of Termination, or otherwise, or by any set-off, counterclaim, recoupment, or other claim, right or action the Company may have against the Participant or others.

(e) All payments and benefits provided under this Section 4.2 are conditioned on the Participant's continuing compliance with this Plan and the Company's policies. All payments and benefits are also conditioned on, and in consideration for, the following actions being completed no later than sixty (60) days following the Participant's termination of employment: the Participant's execution (and effectiveness) of a release of claims and covenant not to sue substantially in the form provided in Exhibit A, any revocation period required by law has run, and the Participant has not revoked the release of claims and covenant not to sue. In the event a Participant fails to return such release within such time period, or revokes the release, the Participant shall forfeit his benefits hereunder. In the event that the period for consideration or revocation overlaps two (2) tax years, any payment due hereunder shall not commence until the later tax year.

4.3 Limitation on Payments.

(a) Anything in this Plan to the contrary notwithstanding, in the event it shall be determined that any payment or distribution made, or benefit provided, by the Company to or for the benefit of the Participant under this Plan or any other agreement between the Company and the Participant or plan of the Company would constitute a "parachute payment" as defined in Section 280G of the Code, then the benefits payable pursuant to this Plan shall be reduced so that the aggregate present value of all payments in the nature of compensation to (or for the benefit of) the Participant which are contingent on a change of control (as defined in Section 280G(b)(2)(A) of the Code) is One Dollar ($1.00) less than the amount which the Participant could receive without being considered to have received any parachute payment (the amount of this reduction in the benefits payable is referred to herein as the "Excess Amount"). The determination of the amount of any reduction required by this Section 4.3(a) shall be made by a nationally recognized tax counsel selected by the Company, and such determination shall be conclusive and binding on the parties hereto.

(b) Notwithstanding the provisions of Section 4.3(a), if it is established, pursuant to a final determination of a court or an Internal Revenue Service proceeding which has been finally and conclusively resolved, that an Excess Amount was received by the Participant from the Company, then such Excess Amount shall be deemed for all purposes to be a loan to the

Participant made on the date the Participant received the Excess Amount and the Participant shall be obligated to repay such Excess Amount to the Company on demand (but no less than ten (10) days after written demand is received by the Participant) together with interest on the Excess Amount at the "Applicable Federal Rate" (as defined in Section 1274(d) of the Code) from the date of the Participant's receipt of such Excess Amount until the date of such repayment.

V. SUCCESSOR TO COMPANY

This Plan shall inure to the benefit of and be binding upon the Company and its successors. The Company shall require any corporation, entity, individual, or other person who is the successor (whether direct or indirect by purchase, merger, consolidation, reorganization or otherwise) to all or substantially all the business and/or assets of the Company to expressly assume and agree to perform, by a written agreement in form and in substance satisfactory to the Company, all of the obligations of the Company under this Plan. It is a condition of this Plan, and all rights of each person eligible to receive benefits under this Plan shall be subject hereto, that no right or interest of any such person in this Plan shall be assignable or transferable in whole or in part, except by operation of law, including, but not by way of limitation, lawful execution, levy, garnishment, attachment, pledge, bankruptcy, alimony, child support or qualified domestic relations order.

VI. DURATION, AMENDMENT AND TERMINATION

6.1 Duration. Unless earlier terminated pursuant to Section 6.2, if a Change in Control has not occurred, this Plan shall expire three (3) years from the Effective Date; provided, that upon each annual anniversary of the Effective Date (each such annual anniversary a "Renewal Date"), the Plan shall be extended for an additional year, unless pursuant to a resolution adopted by the Board prior to the Renewal Date the Company determines not to so extend the Plan. If a Change in Control occurs while this Plan is in effect, this Plan shall continue in full force and effect for at least one (1) year following such Change in Control, and shall not terminate or expire until after all Participants who become entitled to any payments or benefits hereunder shall have received such payments and benefits in full.

6.2 Amendment or Termination. The Company reserves the right to amend, modify, suspend or terminate the Plan at any time by action of a majority of the Board; provided that no such amendment, modification, suspension or termination that has the effect of reducing or diminishing the right of any Participant shall be effective without the written consent of such Participant for a period of one (1) year following the Change in Control if adopted after a Change in Control or in anticipation of a Change in Control. Any amendment, modification, suspension or termination of this Plan adopted after a Change in Control or in anticipation of a Change in Control shall not affect the right of any Participant to payments or benefits to be paid or provided as a result of events that occur prior to the second anniversary of the Change in Control.

6.3 Procedure for Extension, Amendment or Termination. Any extension, amendment or termination of this Plan by the Board in accordance with this Article VI shall be made by action of the Board in accordance with the Company's charter documents and applicable law.

VII. MISCELLANEOUS

7.1 Default in Payment. Any payment not made within ten (10) days after it is due in accordance with this Plan shall thereafter bear interest, compounded annually, at the U.S. prime rate from time to time then in effect.

7.2 No Assignment. No interest of any Participant or spouse of any Participant or any other beneficiary under this Plan, or any right to receive payment hereunder, shall be subject in any manner to sale, transfer, assignment, pledge, attachment, garnishment, or other alienation or encumbrance of any kind, nor may such interest or right to receive a payment or distribution be taken, voluntarily or involuntarily, for the satisfaction of the obligations or debts of, or other claims against, a Participant or spouse of a Participant or other beneficiary, including for alimony.

7.3 Effect on Other Plans, Agreements and Benefits. Except to the extent expressly set forth herein, any benefit or compensation to which a Participant is entitled under any agreement between the Participant and the Company or any of its Subsidiaries or under any plan maintained by the Company or any of its Subsidiaries in which the Participant participates or participated shall not be modified or lessened in any way, but shall be payable according to the terms of the applicable plan or agreement. Notwithstanding the foregoing, any benefits received by a Participant pursuant to this Plan shall be in lieu of any severance benefits to which the Participant would otherwise be entitled under any general severance policy or other severance plan maintained by the Company and, upon consummation of a Change in Control, Participants in this Plan shall in no event be entitled to participate in any such severance policy or other severance plan maintained by the Company.

7.4 Notice. For the purpose of this Plan, notices and all other communications provided for in this Plan shall be in writing and shall be deemed to have been duly given when actually delivered or mailed by United States registered mail, return receipt requested, postage prepaid, addressed to the Company's Chief Legal Officer at the Company's corporate headquarters address, and to the Participant (at the last address of the Participant on the Company's books and records).

7.5 Employment Status. This Plan does not constitute a contract of employment or impose on the Participant or the Company any obligation for the Participant to remain an Employee or change the status of the Participant's employment or the policies of the Company and its Affiliates regarding termination of employment, nor does it alter or exterminate the agreement that employment is at-will.

7.6 Nondisparagement; Confidentiality. On the Effective Date and thereafter, the Participant agrees that the Participant will not disparage the Company or its directors, officers, employees, affiliates, subsidiaries, predecessors, successors or assigns in any written or oral communications to any third party. The Participant further agrees that he/she will not direct anyone to make any disparaging oral or written remarks to any third parties. During the Participant's employment and following the Participant's termination of employment for any reason, the Participant agrees to not use or disclose the confidential information or trade secrets of the Company.

7.7 Nonsolicitation. During the Participant's employment with Company and for twelve (12) months after the Participant's termination of employment and payment of the Severance Benefits hereunder, the Participant shall not, directly or indirectly, either as an individual or as an employee, agent, consultant, advisor, independent contractor, general partner, officer, director, stockholder, investor, lender, or in any other capacity whatsoever, of any person, firm, corporation, or partnership, (i) induce or attempt to induce, or hire, any person who at the time of such inducement or hire is an employee of the Company (or who was, within six (6) months prior to such inducement or hire, an employee) to perform work or service for any other person or entity other than the Company, or (ii) through the use of confidential information or trade secrets, solicit customers, suppliers, or clients of the Company to reduce or discontinue their business with the Company or to engage in business with any competing entity.

7.8 Plan Administration. This Plan shall be administered by the Committee; provided that in the event of an impending Change in Control, the Committee may appoint a person (or persons) independent of the third-party effectuating the Change in Control to be the Committee effective upon the occurrence of a Change in Control and such Committee shall not be removed or modified following a Change in Control, other than at its own initiative (the "Independent Committee"). Except as otherwise provided in this Plan, the decision of the Committee (including the Independent Committee) upon all matters within the scope of its authority shall be conclusive and binding on all parties, provided that in the event that no Independent Committee is appointed, any determination by the Committee of whether "Cause" or "Good Reason" exists shall be subject to de novo review.

7.9 Unfunded Plan Status. This Plan is intended to be an unfunded plan maintained primarily for the purpose of providing deferred compensation for a select group of management or highly compensated employees, within the meaning of Section 401 of ERISA. All payments pursuant to the Plan shall be made from the general funds of the Company and no special or separate fund shall be established or other segregation of assets made to assure payment. No Participant or other person shall have under any circumstances any interest in any particular property or assets of the Company as a result of participating in the Plan. Notwithstanding the foregoing, the Company may (but shall not be obligated to) create one (1) or more grantor trusts, the assets of

which are subject to the claims of the Company's creditors, to assist it in accumulating funds to pay its obligations under the Plan.

7.10 Withholding Taxes. All payments made under this Plan shall be subject to reduction to reflect taxes required to be withheld by law.

7.11 Validity and Severability. The invalidity or unenforceability of any provision of this Plan shall not affect the validity or enforceability of any other provision of this Plan, which shall remain in full force and effect, and any prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

7.12 Section 409A.

(a) General. This Plan is intended to be exempt from the requirements of Section 409A and shall in all respects be administered in accordance with the "short-term deferral" exception in the regulations promulgated under Section 409A. In no event may the Participant, directly or indirectly, designate the calendar year of any payment under this Plan.

(b) In-Kind Benefits and Reimbursements. Notwithstanding anything to the contrary in this Plan, all reimbursements and in-kind benefits provided under this Plan shall be made or provided in accordance with the requirements of the regulations promulgated under Section 409A, including, where applicable, the requirement that (i) any reimbursement is for expenses incurred during the Participant's lifetime (or during a shorter period of time specified in this Plan); (ii) the amount of expenses eligible for reimbursement, or in-kind benefits provided, during a calendar year may not affect the expenses eligible for reimbursement, or in-kind benefits to be provided, in any other calendar year, except, if such benefits consist of the reimbursement of expenses referred to in Section 105(b) of the Code, a maximum, if provided under the terms of the plan providing such medical benefit, may be imposed on the amount of such reimbursements over some or all of the period in which such benefit is to be provided to the Participant as described in Treasury Regulation Section 1.409A-3(i)(1)(iv)(B); (iii) the reimbursement of an eligible expense will be made no later than the last day of the calendar year following the year in which the expense is incurred, provided that the Participant shall have submitted an invoice for such fees and expenses at least ten (10) days before the end of the calendar year next following the calendar year in which such fees and expenses were incurred; and (iv) the right to reimbursement or in-kind benefits is not subject to liquidation or exchange for another benefit.

(c) Delay of Payments. Notwithstanding any other provision of this Plan to the contrary, if the Participant is considered a "specified employee" for purposes of Section 409A (as determined by the Company in accordance with Section 409A), any payment that constitutes nonqualified deferred compensation within the meaning of Section 409A that is otherwise due to the Participant under this Plan during the six-month period following the Participant's separation

from service (as determined in accordance with Section 409A) on account of the Participant's separation from service shall be accumulated and paid to the Participant on the first (1st) business day after the date that is six (6) months following the Participant's separation from service (the "Delayed Payment Date"). The Participant shall be entitled to interest (at the applicable rate in effect for the month in which the separation from service occurs) on any cash payments so delayed from the scheduled date of payment to the Delayed Payment Date. If the Participant dies during the postponement period, the amounts and entitlements delayed on account of Section 409A shall be paid to the personal representative of the Participant's estate on the first to occur of the Delayed Payment Date or thirty (30) days after the date of the Participant's death.

7.13 Governing Law. The validity, interpretation, construction and performance of this Plan shall in all respects be governed by the laws of Delaware, without reference to principles of conflict of law, except to the extent pre-empted by federal law.

EXHIBIT A

Form of Release of Claims and Covenant Not To Sue

In consideration of the payments and other benefits that Molina Healthcare, Inc., a Delaware corporation (the "Company"), is providing to _____ ("Employee") under the Company's Change in Control Severance Plan, the Employee, on his/her own behalf and on behalf of Employee's representatives, agents, heirs and assigns, waives, releases, discharges and promises never to assert any and all claims, demands, actions, costs, rights, liabilities, damages or obligations of every kind and nature, whether known or unknown, suspected or unsuspected that Employee ever had, now have or might have as of the date of Employee's termination of employment with the Company against the Company or its predecessors, parent, affiliates, subsidiaries, stockholders, owners, directors, officers, employees, agents, attorneys, insurers, successors, or assigns (including all such persons or entities that have a current and/or former relationship with the Company) for any claims arising from or related to Employee's employment with the Company, its parent or any of its affiliates and subsidiaries and the termination of that employment.

These released claims also specifically include, but are not limited to, any claims arising under any federal, state and local statutory or common law, such as (as amended and as applicable) Title VII of the Civil Rights Act, the Age Discrimination in Employment Act, the Americans With Disabilities Act, the Employee Retirement Income Security Act, the Family Medical Leave Act, the Equal Pay Act, the Fair Labor Standards Act, the Industrial Welfare Commission's Orders, the California Fair Employment and Housing Act, the California Constitution, the California Government Code, the California Labor Code and any other federal, state or local constitution, law, regulation or ordinance governing the terms and conditions of employment or the termination of employment, and the law of contract and tort and any claim for attorneys' fees.

Furthermore, the Employee acknowledges that this waiver and release is knowing and voluntary and that the consideration given for this waiver and release is in addition to anything of value to which Employee was already entitled. Employee acknowledges that there may exist facts or claims in addition to or different from those which are now known or believed by Employee to exist. Nonetheless, this Agreement extends to all claims of every nature and kind whatsoever, whether known or unknown, suspected or unsuspected, past or present. Employee also expressly waives the provisions of California Civil Code section 1542, which provides: "A general release does not extend to claims which the creditor does not know or suspect to exist in his/her favor at the time of executing the release, which if known by him/her must have materially affected his/her settlement with the debtor." With respect to the claims released in the preceding sentences, the Employee will not initiate or maintain any legal action or proceeding of any kind against the Company or its predecessors, parent, affiliates, subsidiaries, stockholders, owners, directors, officers, employees, agents, successors, or assigns (including all such persons or entities that have a current or former relationship with the Company), for the purpose of obtaining any personal relief, nor assist or participate in any such proceedings, including any proceedings brought by any third parties (except as otherwise required or permitted by law). The Employee further acknowledges that he/she has been advised by this writing that:

he/she should consult with an attorney prior to executing this release;

he/she has at least [twenty-one (21) or forty-five (45) days, as required under applicable law] within which to consider this release;

he/she has up to seven (7) days following the execution of this release by the parties to revoke the release; and

this release shall not be effective until such seven (7) day revocation period has expired.

Employee agrees that the release set forth above shall be and remain in effect in all respects as a complete general release as to the matters released.

Date:

Exhibit 10.2

MOLINA HEALTHCARE, INC.

Notice of Grant of Stock Option

_____ (the "*Participant*") has been granted an option (the "*Option*") to purchase certain shares of Molina Healthcare, Inc. common stock, par value $0.001 per share (the "*Stock*"), pursuant to the Molina Healthcare, Inc. 2011 Equity Incentive Plan (the "*Plan*"). For purposes of this Option and the Stock Option Agreement incorporated herein by reference (the "*Option Agreement*"), the following terms shall have the following meanings:

Grant Date: **_____, ___**

Number of Option Shares: **_____ shares of Stock**

Exercise Price (per share): **$____**

Expiration Date: **_____, ____**

Tax Status of Option: **_____**

Vested Shares: Except as provided in the Option Agreement and provided that the Participant's Service has not terminated prior to any applicable date set forth below, the number of Vested Shares as of each date set forth below shall be:

Vesting Date	Vested Shares
Initial Vesting Date: _____, _____	**_____**
Plus:	
On each of the [second] and [third] anniversary of the Grant Date thereafter until all Option Shares are Vested Shares	**_____**

By their signatures below, the Company and the Participant each agree that the Option is governed by this Notice and by the provisions of the Plan and the Option Agreement, both of which are attached to and made a part of this document. The Participant acknowledges receipt of a copy of the Plan and the Option Agreement, represents that the Participant has read and is familiar with their provisions and hereby accepts the Option subject to all of their terms and conditions. This Notice may be executed in two or more counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same document.

_____

[Name]

ATTACHMENTS: Molina Healthcare, Inc. 2011 Equity Incentive Plan, as amended through the Grant Date, and Stock Option Agreement

Stock Option Agreement Under the
Molina Healthcare, Inc. 2011 Equity Incentive Plan

Pursuant to the Molina Healthcare, Inc. 2011 Equity Incentive Plan (the "*Plan*"), Molina Healthcare, Inc., a Delaware corporation (together with its successors, the "*Company*"), hereby grants to the Participant named in the Notice of Grant of Stock Option attached hereto (the "*Notice*") an option to purchase on such dates as specified herein, all or any part of the number of shares of Stock indicated in the Notice (the "*Option Shares*," and such shares once issued shall be referred to as the "*Issued Shares*," each as adjusted pursuant to Section 5 hereof), at the Exercise Price specified in the Notice, subject to the terms and conditions set forth in this Stock Option Agreement, the Notice and the Plan. All capitalized terms used herein and not otherwise defined shall have the respective meanings set forth in the Notice and the Plan (as applicable).

If this Option is designated as an Incentive Stock Option in the Notice, this Option is intended to qualify as an "*incentive stock option*" as defined in Section 422(b) of the Code. To the extent that any portion of this Option does not so qualify as an Incentive Stock Option or, if this Option is designated as a Non-Qualified Stock Option in the Notice, it shall be deemed a Non-Qualified Stock Option. The Participant should consult with the Participant's own tax advisor regarding the tax effects of this Option (and any requirements necessary to obtain favorable income tax treatment under Section 422 of the Code, including, but not limited to, the holding period requirements).

1. Vesting and Exercisability.

(a) No portion of this Option may be exercised until such portion shall have vested.

(b) Except as set forth below, this Option shall be exercisable at any time on and after the Initial Vesting Date and prior to the Expiration Date or earlier termination of the Option as provided herein and in the Plan, in an amount not to exceed the number of Vested Shares (determined at the time of exercise) less the number of shares previously acquired upon exercise of this Option. In no event shall this Option be exercisable for more than the Number of Option Shares.

(c) In the event that the Participant's Service terminates, this Option may thereafter be exercised, to the extent it was vested and exercisable on the date of such termination, until the date specified in Section 1 (d) hereof. Any portion of this Option that is not vested on the date of termination of the Service shall immediately expire and be null and void.

(d) Subject to the provisions of Section 6 hereof, once any portion of this Option becomes vested and exercisable, it shall continue to be exercisable by the Participant or his or her representatives and legatees as contemplated herein at any time or times prior to the earliest of: (i) the date which is: (A) twelve (12) months following the date on which the Participant's Service terminates due to death or Disability, or (B) three (3) months following the date on which the Participant's Service terminates if the termination is due to any other reason, or (ii) the Expiration Date; provided that, if the Participant's Service is terminated for "*Cause*" (as hereinafter defined), this Option shall terminate immediately and be null and void effective as of the date of the action

or inaction by the Participant that provided the Company "Cause" to terminate his or her employment. For purposes hereof, "*Cause*" shall mean, unless otherwise defined in Participant's employment agreement: (i) any material breach by the Participant of any agreement to which the Participant and the Company (or any Subsidiary Corporation) are parties, including, but not limited to, any agreement containing covenants not to compete and covenants relating to the protection of confidential information and proprietary rights of the Company (or any Subsidiary Corporation), which breach is not cured pursuant to the terms of such agreements, (ii) any act (other than retirement) or omission to act by the Participant which would reasonably be likely to have the effect of injuring the reputation, business or business relationships of the Company (or any Subsidiary Corporation) or on the Participant's ability to perform services for the Company (or any Subsidiary Corporation), (iii) the Participant's conviction (including any pleas of guilty or nolo contendere) of any crime (other than ordinary traffic violations) which impairs the Participant's ability to perform his or her duties, (iv) any material misconduct or willful and deliberate non-performance of duties by the Participant in connection with the business or affairs of the Company (or any Subsidiary Corporation), (v) the Participant's theft, dishonesty, misrepresentation or falsification of the Company's (or any Subsidiary Corporation's) documents or records, (vi) the Participant's improper use or disclosure of the Company's (or any Subsidiary Corporation's) confidential or proprietary information, or (vii) the Participant's use of the facilities or premises of the Company (or any Subsidiary Corporation) to conduct unlawful or unauthorized activities or transactions.

(e) If designated as an Incentive Stock Option in the Notice, the Participant understands that in order to obtain the benefits of an incentive stock option under Section 422 of the Code, subject to any amendments thereof, no sale or other disposition may be made of Issued Shares within the one (1)-year period after the day of issuance of such Issued Shares to him or her (i.e., the exercise date), nor within the two (2)-year period after the grant of this Option and further that this Option must be exercised, if and to the extent permitted hereunder, within three (3) months after termination of employment (or twelve (12) months in the case of Disability). If the Participant disposes of any such Issued Shares (whether by sale, gift, transfer or otherwise) within either of these periods, he or she agrees to notify the Company within thirty (30) days after such disposition. The Participant also agrees to provide the Company with any information concerning any such dispositions required by the Company for tax purposes. Further, to the extent that the aggregate Fair Market Value (determined as of the time that the applicable option is granted) of the shares of Stock with respect to which all Incentive Stock Options held by the Participant are exercisable for the first time during any calendar year (under all option plans of the Company, its Parent and/or its Subsidiaries) exceeds one hundred thousand dollars ($100,000), such Incentive Stock Options shall constitute Non-Qualified Stock Options. For purposes of this Section 1(e), Incentive Stock Options shall be taken into account in the order in which they were granted. If pursuant to the above, an Incentive Stock Option is treated as an Incentive Stock Option in part and a Non-Qualified Stock Option in part, the Participant may designate which portion of the Stock Option the Participant is exercising. In the absence of such designation, the Participant shall be deemed to have exercised the Incentive Stock Option portion of the Stock Option first.

2. Exercise of Option.

(a) The Participant may exercise this Option only by delivering an Option exercise notice (an "*Exercise Notice*") in substantially the form of Appendix A attached hereto to the Company's General Counsel or, if none, the Chief Executive Officer, indicating his or her election to purchase some or all of the Option Shares which have vested at the time of delivery of such Exercise Notice (which amount shall be specified in the Exercise Notice), accompanied by payment in full of the aggregate Exercise Price; provided that, such exercise shall in no event be effective before receipt by such officer of the Exercise Notice and the aggregate Exercise Price. Payment of the aggregate Exercise Price for the Option Shares elected to be purchased by the Participant may be made by one or more of the following methods:

(i) in cash, by certified or bank check, or other instrument acceptable to the Committee in U.S. funds payable to the order of the Company in an amount equal to the aggregate Exercise Price of such Option Shares;

(ii) if permitted by the Committee in its sole and absolute discretion, (y) through the delivery (or attestation to ownership) of shares of Stock with an aggregate Fair Market Value (as of the date such shares are delivered or attested to) equal to the aggregate Exercise Price and that have been purchased by the Participant on the open market or that have been held by the Participant for at least six (6) months and are not subject to restrictions under any plan of the Company, or (z) by the Participant delivering to the Company a properly executed Exercise Notice together with irrevocable instructions to a broker to promptly deliver to the Company cash or a check payable and acceptable to the Company in an amount equal to the aggregate Exercise Price; provided that, in the event the Participant chooses such payment procedure, the Participant and the broker shall comply with such procedures and enter into such agreements of indemnity and other agreements as the Committee shall prescribe as a condition of such payment procedure; or

(iii) a combination of the payment methods set forth in clauses (i) and (ii) above.

(b) Certificates for the Option Shares so purchased will be issued and delivered to the Participant upon compliance to the satisfaction of the Committee with all requirements under applicable laws, regulations or rules in connection with such issuance. Until the Participant shall have complied with the requirements hereof and of the Plan, including the withholding requirements set forth in Section 7 hereof, the Company shall be under no obligation to issue the Option Shares. The determination of the Committee as to such compliance shall be final and binding on the Participant. The Participant shall not be deemed to be the holder of, or to have any of the rights of a holder with respect to, any Issued Shares unless and until this Option shall have been exercised pursuant to the terms hereof and the Company shall have issued and delivered such Issued Shares to the Participant (as evidenced by an appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company.) Thereupon, the Participant shall have full dividend and other ownership rights with respect to such Issued Shares, subject to the terms of this Option Agreement and the Plan.

(c) The Company shall not be required to issue fractional shares upon the exercise of this Option.

3. Subject to Plan.

This Option is subject to all of the terms and conditions set forth in the Plan. Notwithstanding anything in this Option Agreement or the Notice to the contrary, to the extent of any conflict between the terms of the Plan, this Option Agreement and the Notice, the terms of the Plan shall control.

4. Transferability.

This Option is personal to the Participant and is not transferable by the Participant in any manner other than by will or by the laws of descent and distribution; provided that, if this Option is designated as a Non-Qualified Stock Option, this Option may also be transferred by the Participant, without consideration for the transfer, to members of his or her immediate family, to trusts for the benefit of such family members, to partnerships in which such family members are the only partners or to limited liability companies in which such family members are the only members (each a "*Permitted Transferee*"); provided that, the transferee agrees in writing with the Company to be bound by all of the terms and conditions of the Plan and this Option Agreement. This Option may be exercised during the Participant's lifetime only by the Participant (or by the Participant's legal representative or guardian in the event of the Participant's incapacity) or by a Permitted Transferee pursuant to this Section 4. The Participant may elect to designate a beneficiary by providing written notice of the name of such beneficiary to the Company and may revoke or change such designation at any time by filing written notice of revocation or change with the Company. Any such beneficiary may exercise the Participant's Option in the event of the Participant's death to the extent permitted herein. If the Participant does not designate a beneficiary or if the designated beneficiary predeceases the Participant, the executor of the Participant may exercise this Option to the extent permitted herein in the event of the Participant's death.

5. Adjustment Upon Changes in Capitalization.

If, as a result of any reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split or other similar change in the Company's capital stock, the outstanding shares of Stock are increased or decreased or are exchanged for a different number or kind of shares or other securities of the Company, or additional shares or new or different shares or other securities of the Company or other non-cash assets are distributed with respect to such shares of Stock or other securities, or, if, as a result of any merger, consolidation or sale of all or substantially all of the assets of the Company, the outstanding shares of Stock are converted into or exchanged for a different number or kind of shares or other securities of the Company or any successor entity (or parent or subsidiary thereof), the Committee in its sole discretion shall make an appropriate or proportionate adjustment in the number and kind of shares or other securities subject to this Option and the Exercise Price, without changing the aggregate Exercise Price (i.e., the Exercise Price multiplied by the number of shares or other securities subject to this Option shall be the same both before and after any adjustment pursuant to this Section 5); provided that, the adjusted Exercise Price may not be less than the par value of the Stock. After any such adjustment, all references

herein to Stock or common stock shall be deemed to refer to the security that is subject to acquisition upon exercise of this Option. The adjustment by the Committee shall be final, binding and conclusive. No fractional shares of Stock shall be issued under the Plan resulting from any such adjustment, but the Committee in its discretion may either make a cash payment in lieu of fractional shares or round any resulting fractional share down to the nearest whole number.

6. Certain Transactions.

Upon the effectiveness of a Change in Control (as defined in the Plan), unless provision is made in connection with the Change in Control for the assumption of a Participant's outstanding Award granted hereunder, or the substitution of such Award with a new Award of the successor entity or parent thereof, with appropriate adjustment as to the number and kind of shares and, if appropriate, the per share exercise and/or repurchase prices, as provided in Section 4.2 of the Plan (the "Assumption"), such Award shall terminate and, if such Award is a Stock Option, the Participant shall be permitted to exercise such Stock Option to the extent that it is then vested and exercisable (after giving effect to the acceleration of vesting provided for in connection with the Change in Control, if any) for a period of at least ten (10) days prior to the date of such termination; provided that, the exercise of the portion of such Stock Option that becomes vested and exercisable in connection with the Change in Control, if any, shall be subject to and conditioned upon the effectiveness of the Change in Control. In addition, if no Awards are assumed or substituted for in an Assumption, this Plan shall terminate upon the effectiveness of such Change in Control. In the Committee's sole and absolute discretion, Award agreements may contain additional terms and conditions, not inconsistent with the foregoing, that will apply in the event a Change in Control occurs.

7. Withholding Taxes.

(a) Payment by Participant. The Participant shall, no later than the date as of which the exercise of this Option (or, if applicable, the issuance, in whole or in part, of any Issued Shares, the operation of any law, regulation or rule providing for the imputation of interest related to this Option or the lapsing of any restriction with respect to any Issued Shares) gives rise to taxable income and subjects the Company to a tax withholding obligation, authorize the Company to withhold from payroll and any other amounts payable to the Participant or pay to the Company or make arrangements satisfactory to the Committee for payment of any federal, state, foreign and local taxes required by law to be withheld with respect to such income.

(b) Payment in Stock. Subject to approval by the Committee, the Participant may elect to have the minimum tax withholding obligation satisfied, in whole or in part, by: (i) authorizing the Company to withhold from shares of Stock to be issued a number of shares of Stock with an aggregate Fair Market Value (as of the date the withholding is effected) that would satisfy the withholding amount due, or (ii) transferring to the Company shares of Stock owned by the Participant with an aggregate Fair Market Value (as of the date the withholding is effected) that would satisfy the withholding amount due. The Fair Market Value of any shares of Stock withheld or tendered to satisfy any such tax withholding obligation shall not exceed the amount determined by the applicable minimum statutory withholding rates.

8. Compliance with Legal Requirements.

The grant of this Option and the issuance of shares of Stock upon exercise of this Option shall be subject to compliance with all applicable requirements of federal, state and foreign law with respect to such securities. This Option may not be exercised if the issuance of shares of Stock upon exercise would constitute a violation of any applicable federal, state or foreign securities laws or other law or regulations or the requirements of any stock exchange or market system upon which the Stock may then be listed. In addition, this Option may not be exercised unless: (a) a registration statement under the Act shall at the time of exercise of this Option be in effect with respect to the shares issuable upon exercise, or (b) the shares issuable upon exercise of this Option may be issued in accordance with the terms of an applicable exemption from the registration requirements of the Act. The inability of the Company to obtain from any regulatory body having jurisdiction the authority, if any, deemed by the Company's legal counsel to be necessary to the lawful issuance and sale of any shares hereunder shall relieve the Company of any liability in respect of the failure to issue or sell such shares as to which such requisite authority shall not have been obtained. As a condition to the exercise of this Option, the Company may require the Participant to satisfy any qualifications that may be necessary or appropriate, to evidence compliance with any applicable law or regulation and to make any representation or warranty with respect thereto as may be requested by the Company.

9. Lock-up Provision.

The Participant and each Permitted Transferee agrees that, if the Company proposes to offer for sale any shares of Stock pursuant to a secondary offering and if requested by the Company and any underwriter engaged by the Company for a reasonable period of time specified by the Company or such underwriter following the effective date of the registration statement filed with respect to such offering, the Participant will not, directly or indirectly, offer, sell, pledge, contract to sell (including any short sale), grant any option to purchase, or otherwise dispose of any securities of the Company held by him or her (except for any securities sold pursuant to such registration statement) or enter into any "*Hedging Transaction*" (as defined below) relating to any securities of the Company held by him or her (including, without limitation, pursuant to Rule 144 under the Act or any successor or similar exemptive rule hereinafter in effect). Notwithstanding the foregoing, such period of time shall not exceed ninety (90) days. For purposes of this Section 9 "*Hedging Transaction*" means any short sale (whether or not against the box) or any purchase, sale or grant of any right (including, without limitation, any put or call option) with respect to any security (other than a broad-based market basket or index) that includes, relates to or derives any significant part of its value from the Stock.

10. Personal Data.

By signing the Notice, the Participant acknowledges and understands that in order to perform its requirements under this Option and the Plan, the Company may process personal data about the Participant, which may or may not be sensitive personal data. Such data includes, but is not limited to, the information provided in this Option, the Notice and any other correspondence received in connection with this Option and any changes thereto, other appropriate personal and financial data about the Participant and information about the Participant's participation in the Plan,

including the timing and extent to which this Option is exercised from time to time. Further, the Participant hereby authorizes the Company to process any such personal data, whether or not sensitive, and to transfer any such personal data outside the country in which Participant works or is employed, including to the United States. Participant acknowledges that the legal persons for whom the Participant's personal data are intended include the Company and any of its Subsidiaries, the outside plan administrator as selected by the Company from time to time and any other person or entity that the Company may find appropriate in its administration of the Plan. The Company hereby informs the Participant of his or her right to access and correction of his or her personal data by contacting the Company's local Human Resources representative.

11. Non-Solicitation.

By signing the Notice, the Participant acknowledges and agrees that during the period of Participant's Service with the Company (or any Subsidiary Corporation), and for a period of one (1) year after termination of Participant's Service for any reason, with or without Cause, Participant shall not directly or indirectly, either alone or in concert with others, solicit, entice, or encourage the hiring of any employee of the Company (or any Subsidiary Corporation) unless such person was involuntarily terminated or laid off by the Company (or any Subsidiary Corporation).

12. Confidentiality.

By signing the Notice, the Participant agrees to keep and maintain in strict confidence all confidential and proprietary information of the Company (or any Subsidiary Corporation) during and after the term of employment by the Company, and to never directly or indirectly make known, divulge, reveal, furnish, make available, or use any confidential information (except in the course of regular authorized duties on behalf of the Company or any Subsidiary Corporation). Participant's obligations of confidentiality hereunder shall survive termination of Participant's Service regardless of any actual or alleged breach by the Company (or any Subsidiary Corporation) in connection with such termination, until and unless any such confidential information shall have become, through no fault of Participant, generally known to the public or unless Participant is required by law to make disclosure (after giving the Company or any Subsidiary Corporation notice and an opportunity to contest such requirement). Participant's obligations under this Section are in addition to and not in limitation or preemption of all other obligations of confidentiality which Participant has to the Company under general legal or equitable principles. All documents and other property including or reflecting confidential information furnished to Participant by the Company or otherwise acquired or developed by the Company shall at all times be the property of the Company (or any Subsidiary Corporation). Upon termination of employment, Participant shall return to the Company (or any Subsidiary Corporation) any such documents or other property (including copies, summaries, or analyses of the foregoing) of the Company (or any Subsidiary Corporation) which are in Participant's possession, custody, or control.

13. Miscellaneous Provisions.

(a) Administration. All questions of interpretation concerning this Option Agreement shall be determined by the Committee. All determinations by the Committee shall be final and binding upon all persons having an interest in this Option.

(b) Employment Rights. The grant of this Option does not confer upon the Participant any right to continued Service with the Company or any Subsidiary Corporation or interfere in any way with the right of the Company or any Subsidiary Corporation to terminate the Participant's Service at any time. Payments you receive pursuant to this Option Agreement shall not be considered to be part of your compensation for purposes of determining benefits under any other employee benefit plan or arrangement provided by the Company or any subsidiary or affiliate thereto.

(c) Equitable Relief. The parties hereto agree and declare that legal remedies may be inadequate to enforce the provisions of this Option Agreement and that equitable relief, including specific performance and injunctive relief, may be used to enforce the provisions of this Option Agreement.

(d) Change and Modifications. The Committee may terminate or amend the Plan or this Option at any time; provided, that, except as provided in Section 3(c) of the Plan in connection with a Change in Control, no such termination or amendment may adversely affect this Option without the consent of the Participant unless such termination or amendment is necessary to comply with any applicable law, rule or regulation or, to the extent that this Option is designated as an Incentive Stock Option, is required to enable this Option to continue to qualify as an Incentive Stock Option.

(e) Governing Law. This Option Agreement shall be governed by and construed in accordance with the laws of the State of California without regard to conflict of laws principles thereof.

(f) Headings. The headings used herein are intended only for convenience in finding the subject matter and do not constitute part of the text of this Option Agreement and shall not be considered in the interpretation of this Option Agreement.

(g) Integrated Agreement. This Option Agreement, the Notice and the Plan constitute the entire understanding and agreement between the Participant and the Company with respect to the subject matter contained herein and supersedes any prior agreements, understandings, restrictions, representations or warranties among the Participant and the Company with respect to such subject matter except as provided for herein. To the extent contemplated herein, the provisions of this Option Agreement shall survive any exercise of this Option and shall remain in full force and effect.

(h) Saving Clause. If any provision of this Option Agreement shall be determined to be illegal or unenforceable, such determination shall in no manner affect the legality or enforceability of any other provision hereof.

(i) Notices. All notices, requests, consents and other communications shall be in writing and be deemed given when delivered personally, by telex or facsimile transmission, or two (2) days after deposit in the mail if mailed by first class registered or certified mail, postage prepaid, or one (1) business day after deposit with a nationally recognized overnight carrier. Notices

to the Company or the Participant shall be addressed to such address or addresses as may have been furnished by such party in writing to the other.

(j) Benefit and Binding Effect. This Option Agreement shall be binding upon and shall inure to the benefit of the parties hereto, their respective successors, permitted assigns, and legal representatives. The Company has the right to assign this Option Agreement and such assignee shall become entitled to all the rights of the Company hereunder to the extent of such assignment.

Appendix A
STOCK OPTION EXERCISE NOTICE

Molina Healthcare, Inc.
300 University Ave., Suite 100
Sacramento, California 95825
Fax: 916-646-4572

Date: _____

Pursuant to the terms of the Notice of Grant of Stock Option dated _____, ___ and the Stock Option Agreement granted pursuant to the Molina Healthcare, Inc. 2011 Equity Incentive Plan and entered into by Molina Healthcare, Inc. and _____ (the Participant) on such date, I hereby exercise such Option by including herein or arranging for payment in the amount of $_____ representing the aggregate exercise price for _____ shares of Molina Healthcare, Inc. common stock, all of which have vested in accordance with the Notice of Grant of Stock Option. I hereby authorize withholding or otherwise will make adequate provision for federal, state, and local tax withholding obligations of the Company, if any, that arise in connection with the Option.

I acknowledge that the shares are being acquired in accordance with and subject to the terms, provisions and conditions of the Plan, the Notice of Grant of Stock Option and the Option Agreement, copies of which I have received and carefully read and understand, to all of which I hereby expressly assent.

Unless I otherwise direct you to deliver to me a physical share certificate, the electronic delivery instructions for the exercised shares are as follows:

Brokerage Firm: _____

DTC Participant Number: _____

Account Number: _____

Contact Name: _____

Contact Email Address: _____

Phone Number: _____

I hereby represent that I am purchasing the shares of common stock for my own account and not with a view to any sale or distribution thereof.

Sincerely yours,

_____

Name:

Exhibit 10.3

Molina Healthcare, Inc. 2011 Equity Incentive Plan
Restricted Stock Award Agreement

This RESTRICTED STOCK AWARD AGREEMENT (the "Agreement") effective as of _____, _____ is between Molina Healthcare, Inc., a Delaware corporation (the "Company"), and _____, an employee of the Company or one of its Affiliates (the "Grantee"), pursuant to and subject to the terms and conditions of the Molina Healthcare, Inc. 2011 Equity Incentive Plan (the "Plan"). The Company desires to award to the Grantee a number of shares of the Company's common stock, par value $.001 per share (the "Common Stock"), subject to certain restrictions as provided in this Agreement, in order to carry out the purpose of the Plan. The purpose of this Agreement is to evidence the terms and conditions of an award of restricted stock granted to the Grantee under the Plan.

Accordingly, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Company and the Grantee hereby agree as follows:

Section 1. Award of Restricted Stock.

Effective as of _____, _____ (the "Effective Date"), the Company grants to the Grantee a restricted stock award of _____ shares of Common Stock (the "Shares"), subject to the terms and conditions set forth in this Agreement and in accordance with the terms of the Plan (the "Restricted Stock Award").

Section 2. Rights with Respect to the Shares.

(a) Stockholder Rights. With respect to the Shares, the Grantee shall be entitled at all times on and after the date of issuance of the Shares to exercise the rights of a stockholder of Common Stock of the Company, including the right to vote the Shares and the right to receive dividends on the Shares as provided in Section 2(b) hereof, unless and until the Shares are forfeited pursuant to Section 3 hereof. However, the Shares shall be nontransferable and subject to a risk of forfeiture to the Company at all times prior to the dates on which such Shares become vested, and the restrictions with respect to the Shares lapse, in accordance with Section 3 of this Agreement.

(b) Dividends. As a condition to receiving the Shares under the Plan, the Grantee hereby agrees to defer the receipt of dividends paid on the Shares. Cash dividends or other cash distributions paid with respect to the Shares prior to the date or dates the Shares vest shall be subject to the same restrictions, terms, and conditions as the Shares to which they relate, shall be promptly deposited with the Secretary of the Company or a custodian designated by the Secretary, and shall be forfeited in the event that the Shares with respect to which the dividends were paid are forfeited.

(c) Issuance of Shares. The Company shall cause the Shares to be issued in the Grantee's name or in a nominee name on the Grantee's behalf, either by book-entry registration or issuance of a stock certificate or certificates evidencing the Shares, which certificate or certificates shall be held by the Secretary of the Company or the stock transfer agent or brokerage service selected by the Secretary of the Company to provide such services for the Plan. The Shares shall be restricted from transfer and shall be subject to an appropriate stop-transfer order. If any certificate is issued, the certificate shall bear an appropriate legend referring to the restrictions applicable to the Shares. The Grantee hereby agrees to the retention by the Company of the Shares and, if a stock certificate is issued, the Grantee agrees to execute and deliver to the Company a blank stock power with respect to the Shares as a condition to the receipt of this Restricted Stock Award. After any Shares vest pursuant to Section 3 hereof, and following payment of the applicable withholding taxes pursuant to Section 6 of this Agreement, the Company shall promptly cause to be issued a certificate or certificates, registered in the Grantee's name, evidencing such vested whole Shares (less any Shares withheld to pay withholding taxes) and shall cause such certificate or certificates to be delivered to

the Grantee free of the legend and the stop-transfer order referenced above. The Company will not deliver any fractional Share but will pay, in lieu thereof, the Fair Market Value of such fractional Share at the time certificates evidencing the Shares are delivered to the Grantee.

Section 3. Vesting; Forfeiture.

(a) Vesting. Subject to the terms and conditions of this Agreement, one-fourth (1/4th) of the Shares shall vest, and the restrictions with respect to the Shares shall lapse, on each of the first, second, third, and fourth anniversaries of the Effective Date if the Grantee remains continuously employed by the Company or an Affiliate of the Company until such respective vesting dates.

(b) Forfeiture. If the Grantee ceases to be employed by the Company and all Affiliates of the Company for any reason prior to the vesting of the Shares pursuant to Section 3(a) hereof, Grantee's rights to all of the unvested Shares shall be immediately and irrevocably forfeited, including the right to vote such Shares and the right to receive dividends on such Shares.

(c) No Early Vesting. Unless otherwise determined by the Committee in its sole discretion, in no event will any of the Shares vest prior to their respective vesting dates set forth in Section 3(a) hereof.

Section 4. Restrictions on Transfer.

Until the Shares vest pursuant to Section 3 hereof, neither the Shares, nor any right with respect to the Shares under this Agreement, may be sold, assigned, transferred, pledged, hypothecated (by operation of law or otherwise) or otherwise conveyed or encumbered and shall not be subject to execution, attachment or similar process. Any attempted sale, assignment, transfer, pledge, hypothecation or other conveyance or encumbrance shall be void and unenforceable against the Company or any Affiliate of the Company.

Section 5. Distributions and Adjustments.

(a) If any Shares vest subsequent to any change in the number or character of the Common Stock of the Company through any stock dividend or other distribution, recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of shares or other securities of the Company, issuance of warrants or other rights to purchase shares of Common Stock or other securities of the Company or other similar corporate transaction or event such that an adjustment is determined by the Committee to be appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under this Agreement, then the Committee shall, in such manner as it may deem equitable, in its sole discretion, adjust any or all of the number and type of such Shares.

(b) Any additional shares of Common Stock of the Company, any other securities of the Company and any other property distributed with respect to the Shares prior to the date or dates the Shares vest shall be subject to the same restrictions, terms and conditions as the Shares to which they relate and shall be promptly deposited with the Secretary of the Company or a custodian designated by the Secretary.

Section 6. Taxes.

(a) The Grantee acknowledges that the Grantee will consult with the Grantee's personal tax adviser regarding the income tax consequences of the grant of the Shares, payment of dividends on the Shares, the vesting of the Shares and any other matters related to this Agreement. In order to comply with all applicable federal, state, local or foreign income tax laws or regulations, the Company may take such action as it deems appropriate to ensure that all applicable federal, state, local or foreign payroll, withholding, income or other taxes, which are the Grantee's sole and absolute responsibility, are withheld or collected from the Grantee.

(b) In accordance with the terms of the Plan, and such rules as may be adopted by the Committee administering the Plan, the Grantee may elect to satisfy tax withholding obligations arising from the receipt of, or the lapse of restrictions relating to, the Shares by (i) delivering cash, check, bank draft, money order or wire transfer payable to the order of the Company, (ii) having the Company withhold a portion of the Shares otherwise to be delivered having a Fair Market Value equal to the amount of such taxes, or (iii) delivering to the Company shares of Common Stock having a Fair Market Value equal to the amount of such taxes. The Company will not deliver any fractional Share but will pay, in lieu thereof, the Fair Market Value of such fractional Share. The Grantee's election must be made on or before the date that the amount of tax to be withheld is determined. If the Grantee does not make an election, the Company will withhold a portion of the Shares otherwise to be delivered having a Fair Market Value equal to the amount of such taxes.

Section 7. Non-Solicitation.

The Grantee acknowledges and agrees that during the period of Grantee's employment by the Company (or any Subsidiary), and for a period of one (1) year after termination of Grantee's Service Relationship for any reason, with or without Cause, Grantee shall not directly or indirectly, either alone or in concert with others, solicit, entice, or encourage the hiring of any employee of the Company (or any Subsidiary) unless such person was involuntarily terminated or laid off by the Company (or any Subsidiary).

Section 8. Confidentiality.

The Grantee agrees to keep and maintain in strict confidence all confidential and proprietary information of the Company (or any Subsidiary) during and after the term of employment by the Company, and to never directly or indirectly make known, divulge, reveal, furnish, make available, or use any confidential information (except in the course of regular authorized duties on behalf of the Company or any Subsidiary). Grantee's obligations of confidentiality hereunder shall survive termination of employment regardless of any actual or alleged breach by the Company (or any Subsidiary) in connection with such termination, until and unless any such confidential information shall have become, through no fault of Grantee, generally known to the public or unless Grantee is required by law to make disclosure (after giving the Company or any Subsidiary notice and an opportunity to contest such requirement). Grantee's obligations under this Section are in addition to and not in limitation or preemption of all other obligations of confidentiality which Grantee has to the Company under general legal or equitable principles. All documents and other property including or reflecting confidential information furnished to Grantee by the Company or otherwise acquired or developed by the Company shall at all times be the property of the Company (or any Subsidiary). Upon termination of employment, Grantee shall return to the Company (or any Subsidiary) any such documents or other property (including copies, summaries, or analyses of the foregoing) of the Company (or any Subsidiary) which are in Grantee's possession, custody, or control.

Section 9. Definitions.

Terms not defined in this Agreement shall have the meanings given to them in the Plan.

Section 10. Governing Law.

The internal law, and not the law of conflicts, of the State of California will govern all questions concerning the validity, construction and effect of this Agreement.

Section 11. Plan Provisions.

This Agreement is made under and subject to the provisions of the Plan, and all of the provisions of the Plan are also provisions of this Agreement. If there is a difference or conflict between the provisions of this Agreement and the provisions of the Plan, the provisions of the Plan will govern. By accepting this

Restricted Stock Award, the Grantee confirms that the Grantee has received a copy of the Plan and represents that the Grantee is familiar with the terms and provisions thereof, and hereby accepts this Restricted Stock Award subject to all the terms and provisions of the Plan.

Section 12. No Rights to Continue Service or Employment.

Nothing herein shall be construed as giving the Grantee the right to continue in the employ or to provide services to the Company or any Affiliate, whether as an employee or as a consultant or otherwise, or interfere with or restrict in any way the right of the Company or any Affiliate to discharge the Grantee, whether as an employee or consultant or otherwise, at any time, with or without cause. In addition, the Company or any Affiliate may discharge the Grantee free from any liability or claim under this Agreement.

Section 13. Entire Agreement.

This Agreement together with the Plan supersede any and all other prior understandings and agreements, either oral or in writing, between the parties with respect to the subject matter hereof and constitute the sole and only agreements between the parties with respect to said subject matter. All prior negotiations and agreements between the parties with respect to the subject matter hereof are merged into this Agreement. Each party to this Agreement acknowledges that no representations, inducements, promises or agreements, orally or otherwise, have been made by any party or by anyone acting on behalf of any party, which are not embodied in this Agreement or the Plan and that any agreement, statement or promise that is not contained in this Agreement or the Plan shall not be valid or binding or of any force or effect.

Section 14. Modification.

No change or modification of this Agreement shall be valid or binding upon the parties unless the change or modification is in writing and signed by the parties. Notwithstanding the preceding sentence, the Plan, this Agreement and the Restricted Stock Award may be amended, altered, suspended, discontinued or terminated to the extent permitted by the Plan.

Section 15. Shares Subject to Agreement.

The Shares shall be subject to the terms and conditions of this Agreement. Except as otherwise provided in Section 5, no adjustment shall be made for dividends or other rights for which the record date is prior to the issuance of the Shares. The Company shall not be required to deliver any Shares until the requirements of any federal or state securities or other laws, rules or regulations (including the rules of any securities exchange) as may be determined by the Committee to be applicable are satisfied.

Section 16. Severability.

In the event that any provision that is contained in the Plan or this Agreement is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction or would disqualify the Plan or this Agreement for any reason and under any law as deemed applicable by the Committee, the invalid, illegal or unenforceable provision shall be construed or deemed amended to conform to applicable laws, or if it cannot be so construed or deemed amended without, in the determination of the Committee, materially altering the purpose or intent of the Plan or this Agreement, such provision shall be stricken as to such jurisdiction or Shares, and the remainder of the Plan or this Agreement shall remain in full force and effect.

Section 17. Headings.

Headings are given to the sections and subsections of this Agreement solely as a convenience to facilitate reference. Such headings shall not be deemed in any way material or relevant to the construction or interpretation of this Agreement or any provision hereof.

Section 18. Grantee's Acknowledgments.

The Grantee hereby agrees to accept as binding, conclusive and final all decisions or interpretations of the Committee or the Board of Directors of the Company, as appropriate, upon any questions arising under the Plan or this Agreement. Any determination in this connection by the Company, including the Board of Directors of the Company or the Committee, shall be final, binding and conclusive. The obligations of the Company and the rights of the Grantee are subject to all applicable laws, rules and regulations.

Section 19. Parties Bound.

The terms, provisions and agreements that are contained in this Agreement shall apply to, be binding upon, and inure to the benefit of the parties and their respective heirs, executors, administrators, legal representatives and permitted successors and assigns, subject to the limitation on assignment expressly set forth herein. This Agreement shall have no force or effect unless it is duly executed and delivered by the Company.

Section 20. Counterparts.

This Agreement may be executed in counterparts, each of which shall constitute an original, but both of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page of this Agreement by telecopy shall be effective as delivery of a manually executed counterpart of this Agreement.

IN WITNESS WHEREOF, each of the parties has executed this Agreement, in the case of the Company by its duly authorized officer, effective as of the day and year first above written.

MOLINA HEALTHCARE, INC.
2011 EQUITY INCENTIVE PLAN

PERFORMANCE STOCK UNIT AWARD AGREEMENT

THIS PERFORMANCE STOCK UNIT AWARD AGREEMENT (this "**Agreement**") dated _____, ___, by and between MOLINA HEALTHCARE, INC., a Delaware corporation (the "**Corporation**"), and _____ (the "**Participant**"), evidences the award of Performance Units (the **"Award**") granted by the Corporation to the Participant as to the number of Performance Units first set forth below.

Total Number of Performance Units:[1] **_____** **Award Date: _____**

Performance Periods for the respective installment of the Award:

[insert performance period applicable to each installment of the award, and number of performance units with respect to each installment]

Vesting[1,2] The Award shall vest and become nonforfeitable as provided in Section 2 of the attached Terms and Conditions of Performance Unit Award (the "**Terms**").

The Award is granted under the MOLINA HEALTHCARE, INC. 2011 EQUITY INCENTIVE PLAN AMENDED AND RESTATED EFFECTIVE AS OF JANUARY 1, 2017 (the "**Plan**") and subject to the Terms attached to this Agreement (incorporated herein by this reference) and to the Plan. The grant of the Award is conditioned on the approval of the proposal in the 2017 proxy statement to amend and restate the Plan. The Award has been granted to the Participant in addition to, and not in lieu of, any other form of compensation otherwise payable or to be paid to the Participant. Capitalized terms are defined in the Plan if not defined herein. The parties agree to the terms of the Award set forth herein. The Participant acknowledges receipt of a copy of the Terms, the Plan, and the Prospectus for the Plan.

The Participant acknowledges and agrees that the Corporation may deliver, by electronic mail, the use of the Internet, including through the website of the agent appointed by the Committee to administer the Plan, the Corporation intranet web pages or otherwise, any information concerning the Corporation, this Award, the Plan, and any information required by the Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder.

PARTICIPANT

_____

[Name]

MOLINA HEALTHCARE, INC.
a Delaware corporation

By: _____

[Name, Title]

1 Subject to adjustment under Section 4.2 of the Plan.

2 Subject to early termination under Section 10.7 of the Plan.

TERMS AND CONDITIONS OF PERFORMANCE UNIT AWARD

1. Performance Units.

Each Performance Unit constitutes an unfunded and unsecured promise of the Corporation to deliver up to two shares of the Corporation's common stock to the Participant (subject to adjustment as provided in Section 4.2 of the Plan) pursuant to the terms of this Agreement, subject to the vesting provisions in Exhibit A. The Performance Units shall be used solely as a device for the determination of the payment to eventually be made to the Participant if such Performance Units vest pursuant to Section 2. The Performance Units shall not be treated as property or as a trust fund of any kind.

2. Vesting.

Subject to Section 7, the installments of the Award shall vest and become nonforfeitable at the vesting percentage levels set forth in Exhibit A, based on the achievement of the Performance Goals established by the Committee and set forth on Exhibit A attached hereto for the respective Performance Periods. In the event that the respective performance condition with respect to each installment of the Award is achieved, the respective installment of the Award shall become unconditionally due. Subject to Section 7, any Performance Units subject to the Award that do not vest in accordance with Exhibit A shall terminate as of the last day of the respective Performance Period.

3. Continuance of Service.

Except as otherwise expressly provided in Section 7 below, the vesting schedule requires continued Service through each applicable vesting date as a condition to the vesting of the applicable installment of the Award and the rights and benefits under this Agreement; and Service for only a portion of any vesting period, even if a substantial portion, will not entitle the Participant to any proportionate vesting or avoid or mitigate a termination of rights and benefits upon or following a termination of Participant's Service as provided in Section 7 below or under the Plan for such vesting period (or for any later vesting period).

Nothing contained in this Agreement or the Plan constitutes an employment or service commitment by the Corporation, affects the contractual obligations pursuant to any employment or service commitment agreement if Participant is party to such agreement, or in the absence of such agreement affects Participant's status as an employee at will who is subject to termination without cause, confers upon the Participant any right to remain employed by or in service to the Corporation or any Subsidiary Corporation, interferes in any way with the right of the Corporation or any Subsidiary Corporation at any time to terminate Participant's Service, or affects the right of the Corporation or any Subsidiary Corporation to increase or decrease the Participant's other compensation or benefits. Nothing in this paragraph, however, is intended to adversely affect any independent contractual right of the Participant without his consent thereto.

4. Limitations on Rights Associated with Performance Units.

The Participant shall have no rights as a stockholder of the Corporation, no dividend rights and no voting rights with respect to the Performance Units and any shares of Common Stock underlying or issuable in respect of such Performance Units until such shares of Common Stock are actually issued to and held of record by the Participant. No adjustments will be made for dividends or other rights of a holder for which the record date is prior to the date of issuance of the stock certificate.

5. Restrictions on Transfer.

Unless otherwise determined by the Committee, neither the Award, nor any interest therein may be sold, assigned, transferred, pledged or otherwise disposed of, alienated or encumbered, either voluntarily or involuntarily. The transfer restrictions in the preceding sentence shall not apply to (a) transfers to the Corporation, or (b) transfers by will or the laws of descent and distribution.

6. Conversion of Performance Units; Issuance of Common Stock.

On or as soon as administratively practicable following the last day of the respective Performance Period, and in any event, no later than March 15 of the year following the year in which the vesting event occurs (which payment schedule is intended to comply with the "short-term deferral" exemption from the application of Section 409A of the Code), unless such payment is deferred in accordance with the terms and conditions of the Corporation's non-qualified compensation deferral plans, the Corporation shall deliver to the Participant the respective number of shares of Common Stock (either by delivering one or more certificates for such shares or by entering such shares in book entry form, as determined by the Corporation in its discretion) for the respective installment of the Performance Units (if any) that vest in accordance with Section 2, unless such Performance Units terminate prior to the given vesting date pursuant to Section 7. The Corporation's obligation to deliver shares of Common Stock with respect to any vested Performance Units is subject to the condition precedent that the Participant or other person entitled under the Plan to receive any shares with respect to the vested Performance Units deliver to the Corporation any representations or other documents or assurances required pursuant to Section 14 of the Plan. The Participant shall have no further rights with respect to any Performance Units that are paid or that are terminated pursuant to Section 7.

7. Effect of Change in Control or Termination of Employment.

7.1 Effect of Change in Control. In the event of a Change in Control, if, within two years following a Change in Control, the Participant's Service is terminated by the Corporation without Cause or the Participant terminates his employment for Good Reason, then the Performance Units shall become immediately 100% vested and the Corporation shall deliver to the Participant one share of Common Stock for each Performance Unit that vested as result of such termination.

7.2 Effect of Termination of Participant's Service. If the Participant's Service ceases the following rules shall apply (the last day that the Participant's Service is referred to as the Participant's "**Severance Date**"):

- other than as expressly provided below in this Section 7.2, the Participant's Performance Units, to the extent unvested on the Severance Date, shall terminate as of the Severance Date;

- in the event the Participant's Service is terminated by the Corporation without Cause or is terminated by the Participant for Good Reason, the vesting of the Performance Units shall be accelerated, and the Corporation shall deliver to the Participant one share of Common Stock for each Performance Unit that vested as result of such termination.

For purposes of this Agreement, the following terms shall have the following respective meanings.

"*Cause*" shall have the meaning given to such term in the Employment Agreement.

"Employment Agreement" shall mean the Second Amended and Restated Employment Agreement made as of _____, _____ between the Participant and the Corporation, as may be amended from time to time.

"*Good Reason*" shall have the meaning given to such term in the Employment Agreement.

If any unvested Performance Units are terminated hereunder, such Performance Units shall automatically terminate and be cancelled as of the applicable termination date without payment of any consideration by the Corporation and without any other action by the Participant, or the Participant's beneficiary or personal representative, as the case may be.

8. Adjustments Upon Specified Events.

The Committee may accelerate payment and vesting of the Performance Units in such circumstances as it, in its sole discretion, may determine. In addition, upon the occurrence of certain events relating to the Corporation's

stock contemplated by Section 4.2 of the Plan (including, without limitation, an extraordinary cash dividend on such stock), the Committee shall make adjustments in the number of Performance Units then outstanding and the number and kind of securities that may be issued in respect of the Award. No such adjustment shall be made with respect to any ordinary cash dividend paid on the Common Stock. Furthermore, the Committee shall adjust the performance measures and performance goals referenced in Exhibit A hereof to the extent (if any) it determines that the adjustment is necessary or advisable to preserve the intended incentives and benefits to reflect (1) any material change in corporate capitalization, any material corporate transaction (such as a reorganization, combination, separation, merger, acquisition, or any combination of the foregoing), or any complete or partial liquidation of the Corporation, (2) any change in accounting policies or practices, (3) the effects of any special charges to the Corporation's earnings, or (4) any other similar special circumstances.

9. Tax Withholding.

Subject to Section 16 of the Plan and such rules and procedures as the Committee may impose, upon any distribution of shares of Common Stock in respect of the Award, the Corporation shall automatically reduce the number of shares to be delivered by (or otherwise reacquire) the appropriate number of whole shares, valued at their then Fair Market Value, to satisfy any withholding obligations of the Corporation or its Subsidiary Corporations with respect to such distribution of shares at the minimum applicable withholding rates; provided, however, that the foregoing provision shall not apply in the event that the Participant has, subject to the approval of the Committee, made other provision in advance of the date of such distribution for the satisfaction of such withholding obligations. In the event that the Corporation cannot legally satisfy such withholding obligations by such reduction of shares, or in the event of a cash payment or any other withholding event in respect of the Award, the Corporation (or a Subsidiary Corporation) shall be entitled to require a cash payment by or on behalf of the Participant and/or to deduct from other compensation payable to the Participant any sums required by federal, state or local tax law to be withheld with respect to such distribution or payment.

10. Notices.

Any notice to be given under the terms of this Agreement shall be in writing and addressed to the Corporation at its principal office to the attention of the Secretary, and to the Participant at the Participant's last address reflected on the Corporation's records, or at such other address as either party may hereafter designate in writing to the other. Any such notice shall be given only when received, but if the Participant is no longer an employee of the Corporation, shall be deemed to have been duly given by the Corporation when enclosed in a properly sealed envelope addressed as aforesaid, registered or certified, and deposited (postage and registry or certification fee prepaid) in a post office or branch post office regularly maintained by the United States Government.

11. Plan.

The Award and all rights of the Participant under this Agreement are subject to, and the Participant agrees to be bound by, all of the terms and conditions of the provisions of the Plan, incorporated herein by reference. In the event of a conflict or inconsistency between the terms and conditions of this Agreement and of the Plan, the terms and conditions of the Plan shall govern. The Participant acknowledges having read and understood the Plan, the Prospectus for the Plan, and this Agreement. Unless otherwise expressly provided in other sections of this Agreement, provisions of the Plan that confer discretionary authority on the Committee do not (and shall not be deemed to) create any rights in the Participant unless such rights are expressly set forth herein or are otherwise in the sole discretion of the Committee so conferred by appropriate action of the Committee under the Plan after the date hereof.

12. Construction; Section 409A.

It is intended that the terms of the Award will not result in the imposition of any tax liability pursuant to Section 409A of the Code. This Agreement shall be construed and interpreted consistent with that intent. Notwithstanding any provision of this Agreement to the contrary, if the Participant is a "specified employee" as defined in Code Section 409A and, as a result of that status, any portion of the payments under this Agreement

would otherwise be subject to taxation pursuant to Code Section 409A, the Participant shall not be entitled to any payments upon a termination of his Service until the earlier of (i) the date which is six (6) months after his termination of Service for any reason other than death, or (ii) the date of the Participant's death; provided the first such payment thereafter shall include all amounts that would have been paid earlier but for such six (6) month delay. The Corporation and the Participant agree to act reasonably and to cooperate to amend or modify this Agreement to the extent reasonably necessary to avoid the imposition of the tax under Code Section 409A.

13. Entire Agreement; Applicability of Other Agreements.

This Agreement and the Plan together constitute the entire agreement and supersede all prior understandings and agreements, written or oral, of the parties hereto with respect to the subject matter hereof. The Plan and this Agreement may be amended pursuant to Section 17 of the Plan. Such amendment must be in writing and signed by the Corporation. The Corporation may, however, unilaterally waive any provision hereof in writing to the extent such waiver does not adversely affect the interests of the Participant hereunder, but no such waiver shall operate as or be construed to be a subsequent waiver of the same provision or a waiver of any other provision hereof. Notwithstanding the foregoing, if the Participant is subject to a written employment, change in control or similar agreement with the Corporation that is in effect as of the Participant's Severance Date and the Participant would be entitled under the express provisions of such agreement to greater rights with respect to accelerated vesting of the Award in connection with the termination of the Participant's employment in the circumstances, the provisions of such agreement shall control with respect to such vesting rights, and the corresponding provisions of this Agreement shall not apply.

14. Limitation on Participant's Rights.

Participation in this Plan confers no rights or interests other than as herein provided. This Agreement creates only a contractual obligation on the part of the Corporation as to amounts payable and shall not be construed as creating a trust. Neither the Plan nor any underlying program, in and of itself, has any assets. The Participant shall have only the rights of a general unsecured creditor of the Corporation (or applicable Subsidiary Corporation) with respect to amounts credited and benefits payable in cash, if any, with respect to the Performance Units, and rights no greater than the right to receive the Common Stock (or equivalent value) as a general unsecured creditor with respect to Performance Units, as and when payable thereunder.

15. Forfeiture and Corporation's Right to Recover Fair Market Value of Shares Received Pursuant to Performance Units.

If, at any time, the Board or the Committee, as the case may be, in its sole discretion determines that any action or omission by Participant constituted (a) wrongdoing that contributed to (i) any material misstatement in or omission from any report or statement filed by the Corporation with the U.S. Securities and Exchange Commission or (ii) a statement, certification, cost report, claim for payment, or other filing made under Medicare or Medicaid that was false, fraudulent, or for an item or service not provided as claimed, (b) intentional or gross misconduct, (c) a breach of a fiduciary duty to the Corporation or a Subsidiary Corporation, (d) fraud or (e) non-compliance with the Corporation's Code of Business Conduct and Ethics, policies or procedures to the material detriment of the Corporation, then in each such case, commencing with the first fiscal year of the Corporation during which such action or omission occurred, Participant shall forfeit (without any payment therefore) up to 100% of any Performance Units that have not been vested or settled and shall repay to the Corporation, upon notice to Participant by the Corporation, up to 100% of the Fair Market Value of the shares of Common Stock at the time such shares were delivered to the Participant pursuant to the Performance Units during and after such fiscal year. The Board or the Committee, as the case may be, shall determine in its sole discretion the date of occurrence of such action or omission, the percentage of the Performance Units that shall be forfeited and the percentage of the Fair Market Value of the shares of Common Stock delivered pursuant to the Performance Units that must be repaid to the Corporation.

16. Counterparts.

This Agreement may be executed simultaneously in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

17. Section Headings.

The section headings of this Agreement are for convenience of reference only and shall not be deemed to alter or affect any provision hereof.

18. Governing Law.

This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of California without regard to conflict of law principles thereunder.

EXHIBIT A

PERFORMANCE GOALS

Exhibit 10.5

MOLINA HEALTHCARE, INC.
2011 EQUITY INCENTIVE PLAN

PERFORMANCE STOCK UNIT AWARD AGREEMENT

THIS PERFORMANCE STOCK UNIT AWARD AGREEMENT (this "**Agreement**") dated _____, ___, by and between MOLINA HEALTHCARE, INC., a Delaware corporation (the "**Corporation**"), and _____ (the "**Participant**"), evidences the award of Performance Units (the **"Award**") granted by the Corporation to the Participant as to the number of Performance Units first set forth below.

Total Number of Performance Units: _____ **Award Date: _____**

Performance Periods for the respective installment of the Award:

[insert performance period applicable to each installment of the award, and number of performance units with respect to each installment]

Vesting[1,2] The Award shall vest and become nonforfeitable as provided in Section 2 of the attached Terms and Conditions of Performance Unit Award (the "**Terms**").

The Award is granted under the MOLINA HEALTHCARE, INC. 2011 EQUITY INCENTIVE PLAN AMENDED AND RESTATED EFFECTIVE AS OF JANUARY 1, 2017 (the "**Plan**") and subject to the Terms attached to this Agreement (incorporated herein by this reference) and to the Plan. The grant of the Award is conditioned on the approval of the proposal in the 2017 proxy statement to amend and restate the Plan. The Award has been granted to the Participant in addition to, and not in lieu of, any other form of compensation otherwise payable or to be paid to the Participant. Capitalized terms are defined in the Plan if not defined herein. The parties agree to the terms of the Award set forth herein. The Participant acknowledges receipt of a copy of the Terms, the Plan, and the Prospectus for the Plan.

The Participant acknowledges and agrees that the Corporation may deliver, by electronic mail, the use of the Internet, including through the website of the agent appointed by the Committee to administer the Plan, the Corporation intranet web pages or otherwise, any information concerning the Corporation, this Award, the Plan, and any information required by the Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder.

PARTICIPANT

_____

[Name]

MOLINA HEALTHCARE, INC.
a Delaware corporation

By: _____

[Name], [Title]

---

1 Subject to adjustment under Section 4.2 of the Plan.

2 Subject to early termination under Section 10.7 of the Plan.

TERMS AND CONDITIONS OF PERFORMANCE UNIT AWARD

1. Performance Units.

Each Performance Unit constitutes an unfunded and unsecured promise of the Corporation to deliver up to two shares of the Corporation's common stock to the Participant (subject to adjustment as provided in Section 4.2 of the Plan) pursuant to the terms of this Agreement, subject to the vesting provisions in Exhibit A. The Performance Units shall be used solely as a device for the determination of the payment to eventually be made to the Participant if such Performance Units vest pursuant to Section 2. The Performance Units shall not be treated as property or as a trust fund of any kind.

2. Vesting.

Subject to Section 7, the installments of the Award shall vest and become nonforfeitable at the vesting percentage levels set forth in Exhibit A, based on the achievement of the Performance Goals established by the Committee and set forth on Exhibit A attached hereto for the respective Performance Periods. In the event that the respective performance condition with respect to each installment of the Award is achieved, the respective installment of the Award shall become unconditionally due. Subject to Section 7, any Performance Units subject to the Award that do not vest in accordance with Exhibit A shall terminate as of the last day of the respective Performance Period.

3. Continuance of Service.

Except as otherwise expressly provided in Section 7 below, the vesting schedule requires continued Service through each applicable vesting date as a condition to the vesting of the applicable installment of the Award and the rights and benefits under this Agreement; and Service for only a portion of any vesting period, even if a substantial portion, will not entitle the Participant to any proportionate vesting or avoid or mitigate a termination of rights and benefits upon or following a termination of Participant's Service as provided in Section 7 below or under the Plan for such vesting period (or for any later vesting period).

Nothing contained in this Agreement or the Plan constitutes an employment or service commitment by the Corporation, affects the contractual obligations pursuant to any employment or service commitment agreement if Participant is party to such agreement, or in the absence of such agreement affects Participant's status as an employee at will who is subject to termination without cause, confers upon the Participant any right to remain employed by or in service to the Corporation or any Subsidiary Corporation, interferes in any way with the right of the Corporation or any Subsidiary Corporation at any time to terminate Participant's Service, or affects the right of the Corporation or any Subsidiary Corporation to increase or decrease the Participant's other compensation or benefits. Nothing in this paragraph, however, is intended to adversely affect any independent contractual right of the Participant without his consent thereto.

4. Limitations on Rights Associated with Performance Units.

The Participant shall have no rights as a stockholder of the Corporation, no dividend rights and no voting rights with respect to the Performance Units and any shares of Common Stock underlying or issuable in respect of such Performance Units until such shares of Common Stock are actually issued to and held of record by the Participant. No adjustments will be made for dividends or other rights of a holder for which the record date is prior to the date of issuance of the stock certificate.

5. Restrictions on Transfer.

Unless otherwise determined by the Committee, neither the Award, nor any interest therein may be sold, assigned, transferred, pledged or otherwise disposed of, alienated or encumbered, either voluntarily or involuntarily. The transfer restrictions in the preceding sentence shall not apply to (a) transfers to the Corporation, or (b) transfers by will or the laws of descent and distribution.

6. Conversion of Performance Units; Issuance of Common Stock.

On or as soon as administratively practicable following the last day of the respective Performance Period, and in any event, no later than March 15 of the year following the year in which the vesting event occurs (which payment schedule is intended to comply with the "short-term deferral" exemption from the application of Section 409A of the Code), unless such payment is deferred in accordance with the terms and conditions of the Corporation's non-qualified compensation deferral plans, the Corporation shall deliver to the Participant the respective number of shares of Common Stock (either by delivering one or more certificates for such shares or by entering such shares in book entry form, as determined by the Corporation in its discretion) for the respective installment of the Performance Units (if any) that vest in accordance with Section 2, unless such Performance Units terminate prior to the given vesting date pursuant to Section 7. The Corporation's obligation to deliver shares of Common Stock with respect to any vested Performance Units is subject to the condition precedent that the Participant or other person entitled under the Plan to receive any shares with respect to the vested Performance Units deliver to the Corporation any representations or other documents or assurances required pursuant to Section 14 of the Plan. The Participant shall have no further rights with respect to any Performance Units that are paid or that are terminated pursuant to Section 7.

7. Effect of Change in Control or Termination of Employment.

7.1 Effect of Change in Control. In the event of a Change in Control, if, within twelve (12) months following a Change in Control, the Participant's Service is terminated by the Corporation without Cause or the Participant terminates his employment for Good Reason, then the Performance Units shall become immediately 100% vested and the Corporation shall deliver to the Participant one share of Common Stock for each Performance Unit that vested as result of such termination.

7.2 Effect of Termination of Participant's Service. If the Participant's Service ceases for any reason (the last day that the Participant's Service is referred to as the Participant's "**Severance Date**"), the Participant's Performance Units, to the extent unvested on the Severance Date, shall terminate and be forfeited as of the Severance Date.

For purposes of this Agreement, the following terms shall have the following respective meanings.

"*Cause*" shall have the meaning given to such term in the Employment Agreement.

"Employment Agreement" shall mean the Employment Agreement made as of _____, ____, between the Participant and the Corporation, as may be amended from time to time.

"*Good Reason*" shall have the meaning given to such term in the Employment Agreement.

If any unvested Performance Units are terminated hereunder, such Performance Units shall automatically terminate and be cancelled as of the applicable termination date without payment of any consideration by the Corporation and without any other action by the Participant, or the Participant's beneficiary or personal representative, as the case may be.

8. Adjustments Upon Specified Events.

The Committee may accelerate payment and vesting of the Performance Units in such circumstances as it, in its sole discretion, may determine. In addition, upon the occurrence of certain events relating to the Corporation's stock contemplated by Section 4.2 of the Plan (including, without limitation, an extraordinary cash dividend on such stock), the Committee shall make adjustments in the number of Performance Units then outstanding and the number and kind of securities that may be issued in respect of the Award. No such adjustment shall be made with respect to any ordinary cash dividend paid on the Common Stock. Furthermore, the Committee shall adjust the performance measures and performance goals referenced in Exhibit A hereof to the extent (if any) it determines that the adjustment is necessary or advisable to preserve the intended incentives and benefits to reflect (1) any material

change in corporate capitalization, any material corporate transaction (such as a reorganization, combination, separation, merger, acquisition, or any combination of the foregoing), or any complete or partial liquidation of the Corporation, (2) any change in accounting policies or practices, (3) the effects of any special charges to the Corporation's earnings, or (4) any other similar special circumstances.

9. Tax Withholding.

Subject to Section 16 of the Plan and such rules and procedures as the Committee may impose, upon any distribution of shares of Common Stock in respect of the Award, the Corporation shall automatically reduce the number of shares to be delivered by (or otherwise reacquire) the appropriate number of whole shares, valued at their then Fair Market Value, to satisfy any withholding obligations of the Corporation or its Subsidiary Corporations with respect to such distribution of shares at the minimum applicable withholding rates; provided, however, that the foregoing provision shall not apply in the event that the Participant has, subject to the approval of the Committee, made other provision in advance of the date of such distribution for the satisfaction of such withholding obligations. In the event that the Corporation cannot legally satisfy such withholding obligations by such reduction of shares, or in the event of a cash payment or any other withholding event in respect of the Award, the Corporation (or a Subsidiary Corporation) shall be entitled to require a cash payment by or on behalf of the Participant and/or to deduct from other compensation payable to the Participant any sums required by federal, state or local tax law to be withheld with respect to such distribution or payment.

10. Notices.

Any notice to be given under the terms of this Agreement shall be in writing and addressed to the Corporation at its principal office to the attention of the Secretary, and to the Participant at the Participant's last address reflected on the Corporation's records, or at such other address as either party may hereafter designate in writing to the other. Any such notice shall be given only when received, but if the Participant is no longer an employee of the Corporation, shall be deemed to have been duly given by the Corporation when enclosed in a properly sealed envelope addressed as aforesaid, registered or certified, and deposited (postage and registry or certification fee prepaid) in a post office or branch post office regularly maintained by the United States Government.

11. Plan.

The Award and all rights of the Participant under this Agreement are subject to, and the Participant agrees to be bound by, all of the terms and conditions of the provisions of the Plan, incorporated herein by reference. In the event of a conflict or inconsistency between the terms and conditions of this Agreement and of the Plan, the terms and conditions of the Plan shall govern. The Participant acknowledges having read and understood the Plan, the Prospectus for the Plan, and this Agreement. Unless otherwise expressly provided in other sections of this Agreement, provisions of the Plan that confer discretionary authority on the Committee do not (and shall not be deemed to) create any rights in the Participant unless such rights are expressly set forth herein or are otherwise in the sole discretion of the Committee so conferred by appropriate action of the Committee under the Plan after the date hereof.

12. Construction; Section 409A.

It is intended that the terms of the Award will not result in the imposition of any tax liability pursuant to Section 409A of the Code. This Agreement shall be construed and interpreted consistent with that intent. Notwithstanding any provision of this Agreement to the contrary, if the Participant is a "specified employee" as defined in Code Section 409A and, as a result of that status, any portion of the payments under this Agreement would otherwise be subject to taxation pursuant to Code Section 409A, the Participant shall not be entitled to any payments upon a termination of his Service until the earlier of (i) the date which is six (6) months after his termination of Service for any reason other than death, or (ii) the date of the Participant's death; provided the first such payment thereafter shall include all amounts that would have been paid earlier but for such six (6) month delay. The Corporation and the Participant agree to act reasonably and to cooperate to amend or modify this Agreement to the extent reasonably necessary to avoid the imposition of the tax under Code Section 409A.

13. Entire Agreement; Applicability of Other Agreements.

This Agreement and the Plan together constitute the entire agreement and supersede all prior understandings and agreements, written or oral, of the parties hereto with respect to the subject matter hereof. The Plan and this Agreement may be amended pursuant to Section 17 of the Plan. Such amendment must be in writing and signed by the Corporation. The Corporation may, however, unilaterally waive any provision hereof in writing to the extent such waiver does not adversely affect the interests of the Participant hereunder, but no such waiver shall operate as or be construed to be a subsequent waiver of the same provision or a waiver of any other provision hereof. Notwithstanding the foregoing, if the Participant is subject to a written employment, change in control or similar agreement with the Corporation that is in effect as of the Participant's Severance Date and the Participant would be entitled under the express provisions of such agreement to greater rights with respect to accelerated vesting of the Award in connection with the termination of the Participant's employment in the circumstances, the provisions of such agreement shall control with respect to such vesting rights, and the corresponding provisions of this Agreement shall not apply.

14. Limitation on Participant's Rights.

Participation in this Plan confers no rights or interests other than as herein provided. This Agreement creates only a contractual obligation on the part of the Corporation as to amounts payable and shall not be construed as creating a trust. Neither the Plan nor any underlying program, in and of itself, has any assets. The Participant shall have only the rights of a general unsecured creditor of the Corporation (or applicable Subsidiary Corporation) with respect to amounts credited and benefits payable in cash, if any, with respect to the Performance Units, and rights no greater than the right to receive the Common Stock (or equivalent value) as a general unsecured creditor with respect to Performance Units, as and when payable thereunder.

15. Forfeiture and Corporation's Right to Recover Fair Market Value of Shares Received Pursuant to Performance Units.

If, at any time, the Board or the Committee, as the case may be, in its sole discretion determines that any action or omission by Participant constituted (a) wrongdoing that contributed to (i) any material misstatement in or omission from any report or statement filed by the Corporation with the U.S. Securities and Exchange Commission or (ii) a statement, certification, cost report, claim for payment, or other filing made under Medicare or Medicaid that was false, fraudulent, or for an item or service not provided as claimed, (b) intentional or gross misconduct, (c) a breach of a fiduciary duty to the Corporation or a Subsidiary Corporation, (d) fraud or (e) non-compliance with the Corporation's Code of Business Conduct and Ethics, policies or procedures to the material detriment of the Corporation, then in each such case, commencing with the first fiscal year of the Corporation during which such action or omission occurred, Participant shall forfeit (without any payment therefore) up to 100% of any Performance Units that have not been vested or settled and shall repay to the Corporation, upon notice to Participant by the Corporation, up to 100% of the Fair Market Value of the shares of Common Stock at the time such shares were delivered to the Participant pursuant to the Performance Units during and after such fiscal year. The Board or the Committee, as the case may be, shall determine in its sole discretion the date of occurrence of such action or omission, the percentage of the Performance Units that shall be forfeited and the percentage of the Fair Market Value of the shares of Common Stock delivered pursuant to the Performance Units that must be repaid to the Corporation.

16. Counterparts.

This Agreement may be executed simultaneously in any number of counterparts, each of which shall be deemed an original but all of which together shall constitute one and the same instrument.

17. Section Headings.

The section headings of this Agreement are for convenience of reference only and shall not be deemed to alter or affect any provision hereof.

18. Governing Law.

This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of California without regard to conflict of law principles thereunder.

EXHIBIT 31.1

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, Joseph W. White, certify that:

1. I have reviewed the annual report on Form 10-Q for the period ended March 31, 2017 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATE PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the report of Molina Healthcare, Inc. (the "Company") on Form 10-Q for the period ended March 31, 2017 (the "Report"), I, Joseph W. White, Interim Chief Executive Officer and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

FORWARD LOOKING STATEMENTS

This Annual Report on Form 10-K ("Form 10-K") contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties. Many of the forward-looking statements are located under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations." Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Forward-looking statements can also be identified by words such as "future," "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "will," "would," "could," "can," "may," and similar terms. Forward-looking statements are not guarantees of future performance and the Company's actual results may differ significantly due to numerous known and unknown risks and uncertainties. Those known risks and uncertainties include, but are not limited to, the risk factors identified in the section of this report titled "Risk Factors," as well as the following:

- *the success of our profit improvement and cost-cutting initiatives;*
- *the numerous political and market-based uncertainties associated with the Affordable Care Act (the "ACA") or "Obamacare," including any potential repeal and replacement of the law, amendment of the law, or move to state block grants for Medicaid;*
- *the market dynamics surrounding the ACA Marketplaces, including but not limited to uncertainties associated with risk transfer requirements, the potential for disproportionate enrollment of higher acuity members, the withdrawal of cost sharing subsidies and/or premium tax credits, the adequacy of agreed rates, and potential disruption associated with market withdrawal;*
- *subsequent adjustments to reported premium revenue based upon subsequent developments or new information, including changes to estimated amounts payable or receivable related to Marketplace risk adjustment/risk transfer, risk corridors, and reinsurance;*
- *management of our medical costs, including our ability to reduce over time the high medical costs commonly associated with new patient populations;*
- *our ability to predict with a reasonable degree of accuracy utilization rates, including utilization rates in new plans, geographies, and programs where we have less experience with patient and provider populations, and also including utilization rates associated with seasonal flu patterns or other newly emergent diseases;*
- *significant budget pressures on state governments and their potential inability to maintain current rates, to implement expected rate increases, or to maintain existing benefit packages or membership eligibility thresholds or criteria, including the resolution of the Illinois budget impasse and continued payment of all amounts due to our Illinois health plan;*
- *the success of our efforts to retain existing government contracts, including those in Illinois, Washington, Florida, Texas, and New Mexico, and to obtain new government contracts in connection with state requests for proposals (RFPs) in both existing and new states;*
- *our ability to manage growth, including maintaining and creating adequate internal systems and controls relating to authorizations, approvals, provider payments, and the overall success of our care management initiatives;*
- *our ability to consummate and realize benefits from acquisitions, and to integrate acquisitions;*
- *our receipt of adequate premium rates to support increasing pharmacy costs, including costs associated with specialty drugs and costs resulting from formulary changes that allow the option of higher-priced non-generic drugs;*
- *our ability to operate profitably in an environment where the trend in premium rate increases lags behind the trend in increasing medical costs;*
- *the interpretation and implementation of federal or state medical cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit sharing arrangements, and risk adjustment provisions;*
- *our estimates of amounts owed for such cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit-sharing arrangements, and risk adjustment provisions;*
- *the Medicaid expansion cost corridors in New Mexico and Washington, and any other retroactive adjustment to revenue where methodologies and procedures are subject to interpretation or dependent upon information about the health status of participants other than Molina members;*
- *the interpretation and implementation of at-risk premium rules and state contract performance requirements regarding the achievement of certain quality measures, and our ability to recognize revenue amounts associated therewith;*
- *cyber-attacks or other privacy or data security incidents resulting in an inadvertent unauthorized disclosure of protected health information;*

- *the success of our health plan in Puerto Rico, including the resolution of the Puerto Rico debt crisis, payment of all amounts due under our Medicaid contract, the effect of the PROMESA law, and our efforts to better manage the health care costs of our Puerto Rico health plan;*
- *the success and renewal of our duals demonstration programs in California, Illinois, Michigan, Ohio, South Carolina, and Texas;*
- *the accurate estimation of incurred but not reported or paid medical costs across our health plans;*
- *efforts by states to recoup previously paid and recognized premium amounts;*
- *the continuation and renewal of the government contracts of our health plans, Molina Medicaid Solutions, and Pathways, and the terms under which such contracts are renewed;*
- *complications, member confusion, or enrollment backlogs related to the annual renewal of Medicaid coverage;*
- *government audits and reviews, or potential investigations, and any fine, sanction, enrollment freeze, monitoring program, or premium recovery that may result therefrom;*
- *changes with respect to our provider contracts and the loss of providers;*
- *approval by state regulators of dividends and distributions by our health plan subsidiaries;*
- *changes in funding under our contracts as a result of regulatory changes, programmatic adjustments, or other reforms;*
- *high dollar claims related to catastrophic illness;*
- *the favorable resolution of litigation, arbitration, or administrative proceedings;*
- *the relatively small number of states in which we operate health plans;*
- *the availability of adequate financing on acceptable terms to fund and capitalize our expansion and growth, repay our outstanding indebtedness at maturity and meet our liquidity needs, including the interest expense and other costs associated with such financing;*
- *our failure to comply with the financial or other covenants in our credit agreement or the indentures governing our outstanding notes;*
- *the sufficiency of our funds on hand to pay the amounts due upon conversion of our outstanding notes;*
- *the failure of a state in which we operate to renew its federal Medicaid waiver;*
- *changes generally affecting the managed care or Medicaid management information systems industries;*
- *increases in government surcharges, taxes, and assessments, including but not limited to the deductibility of certain compensation costs;*
- *newly emergent viruses or widespread epidemics, public catastrophes or terrorist attacks, and associated public alarm; and*
- *increasing competition and consolidation in the Medicaid industry.*

Each of the terms "Company," "Molina Healthcare," "we," "our," and "us," as used herein refers collectively to Molina Healthcare, Inc. and its wholly owned subsidiaries, unless otherwise stated. The Company assumes no obligation to revise or update any forward-looking statements for any reason, except as required by law.

ABOUT MOLINA HEALTHCARE

OUR VISION, MISSION, AND STRATEGY

We envision a future where everyone receives quality healthcare.

Our mission is to provide quality healthcare to people receiving government assistance.

We offer healthcare services for persons served by Medicaid, Medicare, the Children's Health Insurance Program (CHIP) and the Marketplace, and products to assist government agencies in their administration of the Medicaid program.

OUR GOAL IS TO ACHIEVE OUR MISSION WHILE IMPROVING THE FINANCIAL STRENGTH OF OUR ORGANIZATION

2016

Non-generally accepted accounting principles (GAAP) financial measures referred to in this report are designated with an asterisk (*). For more information, see "Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A)—Non-GAAP Financial Measures," and "MD&A—Supplemental Information."

OUR FOOTPRINT TODAY

Our health plan footprint includes the five largest Medicaid markets.

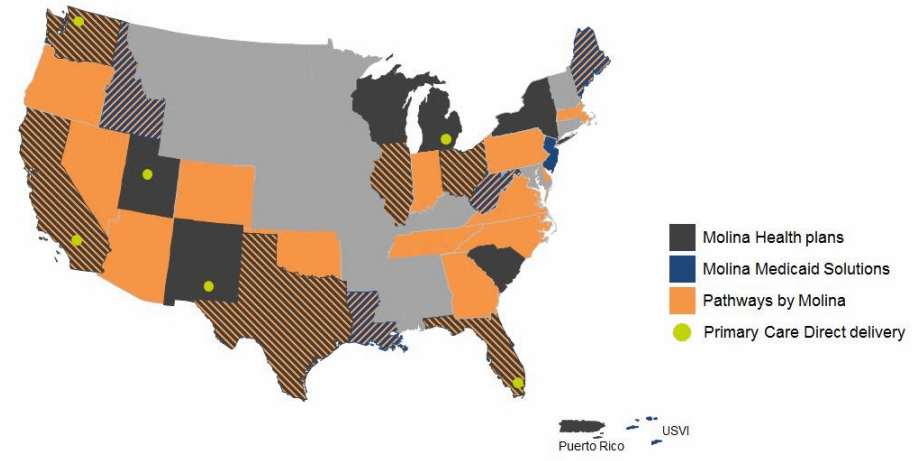

Table of Contents

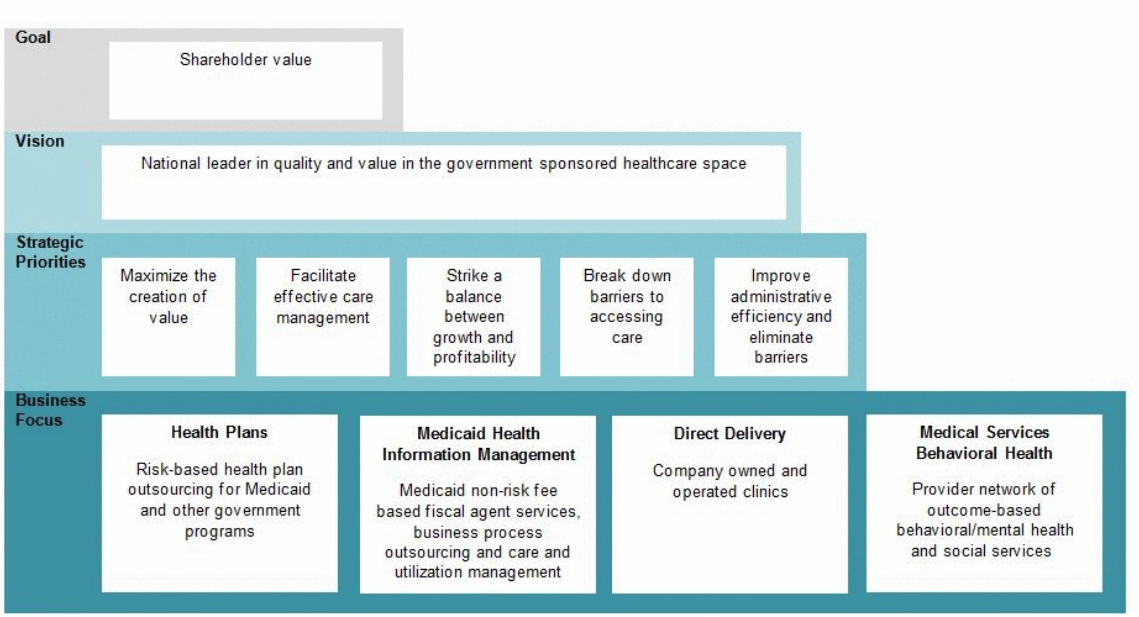
OUR BUSINESS STRATEGY



Significant accomplishments in support of our strategic growth initiatives during 2016 included:

- Medicaid contract acquisitions at our existing health plans in Illinois, Michigan and Washington that added approximately 221,000 Medicaid members in the first quarter of 2016.
- Acquisition of the outstanding equity interests of Molina Healthcare of New York, Inc., formerly known as Today's Options of New York, Inc., that added approximately 35,000 Medicaid members in the third quarter of 2016.

We believe that our strategy positions us well to respond to the following trends in Medicaid and Medicare:

- The transition of long-term care services for fee-for-service to managed care
- States' continued reliance on Medicaid
- Growth in Medicare driven by an aging population
- Increasing spend on home and community based services
- Further integration of medical and behavioral health services
- A growing focus on addressing the social determinants of health—social determinants are the conditions in the places where people live, learn, work, and play which affect a wide range of health risks and outcomes

We believe the key to our successful, sustained growth is to maintain our focus on our mission and adhere to the core competencies that give us an advantage over our competitors, including the ability to understand the needs of our members and the social and economic factors influencing their health.

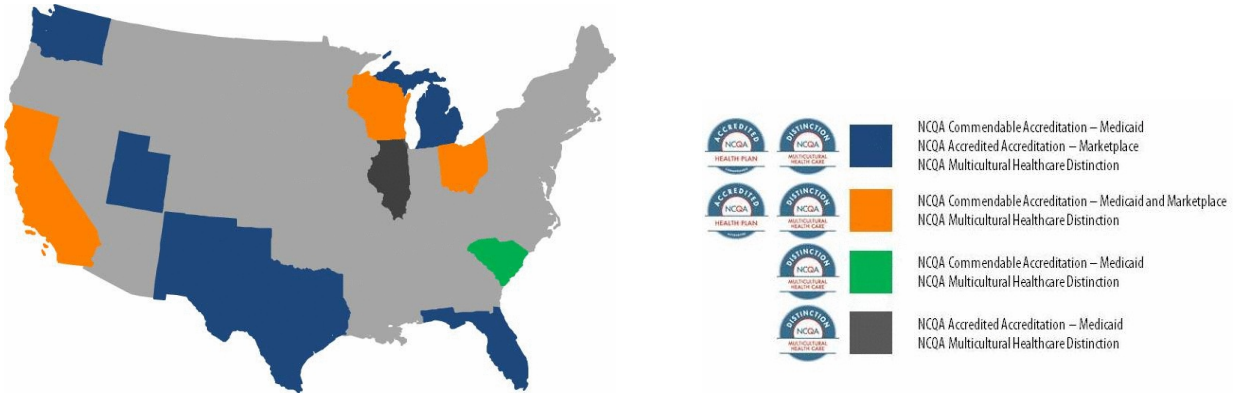
For example, attracting elderly and disabled Medicaid and Medicare beneficiaries to our health plans is a key part of our growth strategy, because these beneficiaries can especially benefit from our expertise in connecting our members to the right resources to help them maintain and improve their health.

Our long-term success also depends on the quality of the services we provide and the value that we create. We are a recognized quality leader, with 11 of our 13 Medicaid health plans currently accredited by the National Committee for Quality Assurance (NCQA). Nine of our health plans have been accredited for Marketplace as well. In addition, 11 of our 13 health plans have earned the Multicultural Health Care Distinction from NCQA, awarded to organizations that meet or exceed its rigorous requirements for multicultural health care.

In addition, in late 2016, we announced that all of our eligible health plans increased or maintained their scores as part of the Centers for Medicare & Medicaid Services' (CMS) 2017 Star Ratings, which measures the quality of Medicare plans across the country on a 5-star rating system.

We believe that these objective measures of quality are increasingly important to state Medicaid agencies as a growing number of states link reimbursement and patient assignment to quality scores. Additionally, Medicare pays quality bonuses to health plans that achieve high quality.

Based on the published results, Molina Healthcare of New Mexico was named the highest-rated Medicare plan in the state with a 4-star rating, while Molina Healthcare of Florida increased from 3 to 3.5 stars. Furthermore, Molina Healthcare of Michigan was rated the highest Medicare Dual-eligible Special Needs Plan (D-SNP) in the state with 3.5 stars. Other Molina health plans that retained their 3.5 Medicare star rating include Texas, Utah and Washington.



OUR SEGMENTS

We manage our operations through three reportable segments. These segments consist of our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment, which includes our behavioral health and social services subsidiary, Pathways. We regularly evaluate the appropriateness of our reportable segments, particularly in light of organizational changes, acquisition activity and changing laws and regulations. Therefore, these reportable segments may change in the future.

Business and financial overviews for our reportable segments are provided in "MD&A—Reportable Segments."

Refer to Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies" for revenue information by state health plan, and Note 20, "Segment Information," for segment revenue, profit and total assets information.

COMPETITIVE CONDITIONS AND ENVIRONMENT

We face varying levels of competition. Health care reform proposals may cause organizations to enter or exit the market for government sponsored health programs. However, the licensing requirements and bidding and contracting procedures in some states may present partial barriers to entry into our industry.

We compete for government contracts, renewals of those government contracts, members, and providers. State agencies consider many factors in awarding contracts to health plans. Among such factors are the health plan's provider network, quality scores, medical management, degree of member satisfaction, timeliness of claims payment, and financial resources. Potential members typically choose a health plan based on a specific provider being a part of the network, the quality of care and services available, accessibility of services, and reputation or name recognition of the health plan. We believe factors that providers consider in deciding whether to contract with

a health plan include potential member volume, payment methods, timeliness and accuracy of claims payment, and administrative service capabilities.

For further competitor information specific to each of our reportable segments, refer to “MD&A—Reportable Segments.”

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)

NON-GAAP FINANCIAL MEASURES

We use non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry. These non-GAAP financial measures should be considered as supplements to, and not as substitutes for or superior to, GAAP measures.

See further information regarding non-GAAP measures in the “Supplemental Information” section of this MD&A, including the reconciliations to U.S. GAAP. Non-GAAP financial measures referred to in this report are designated with an asterisk (*).

HOW WE ASSESS PERFORMANCE

We derive our revenues primarily from health insurance premiums, and our primary customers are state Medicaid agencies and the federal government.

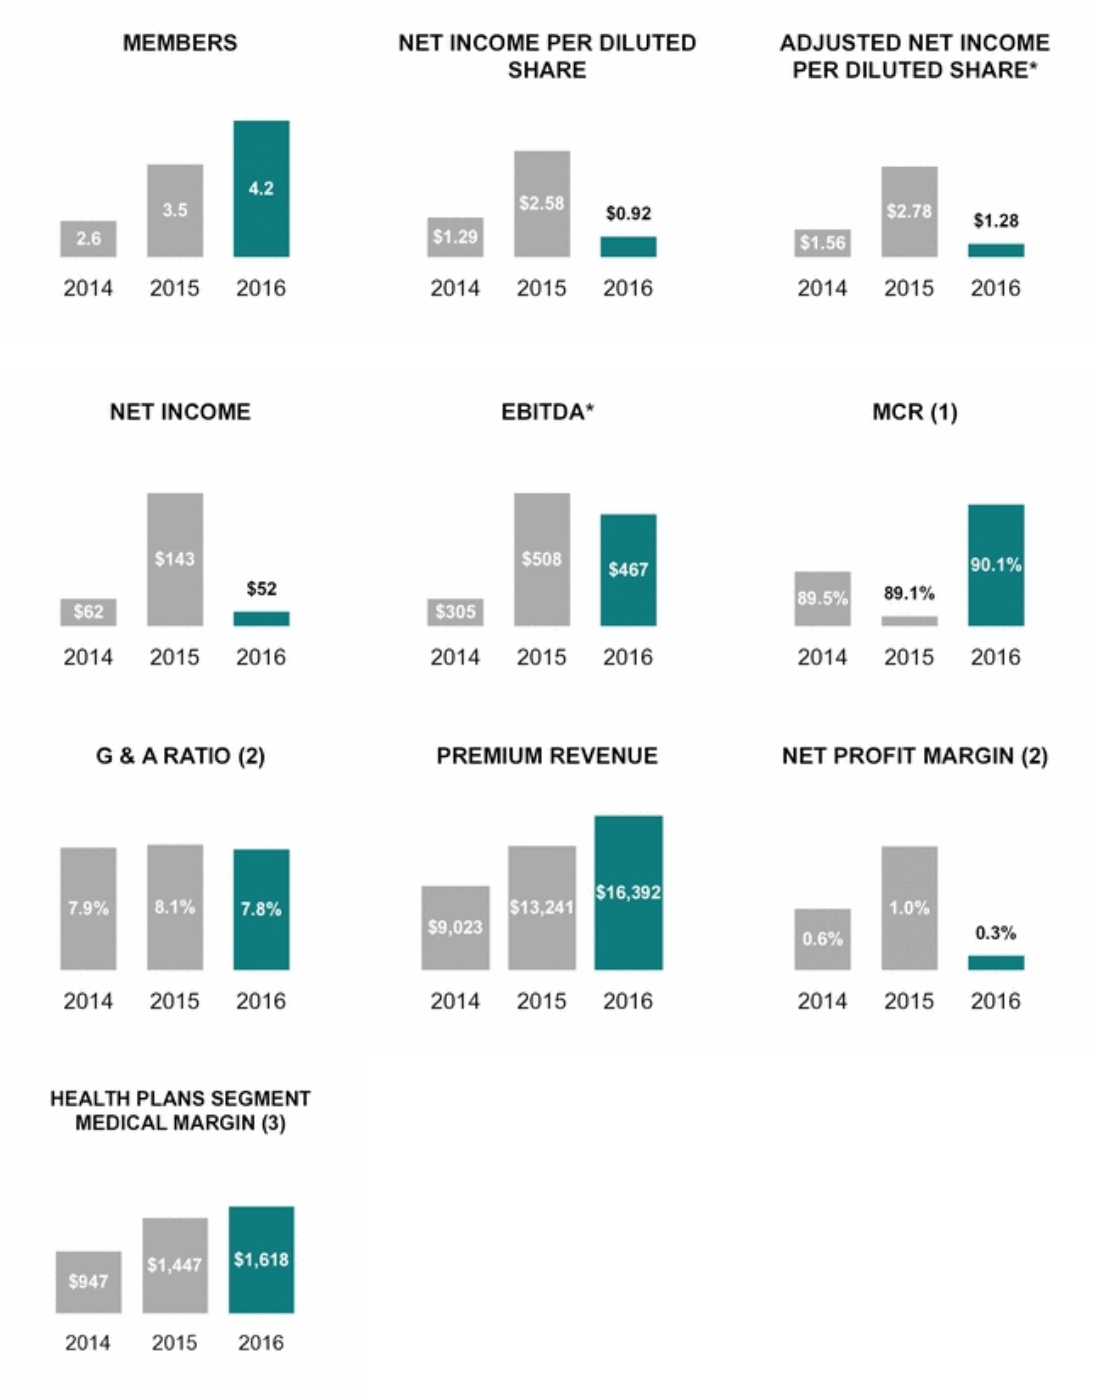
One of the key metrics used to assess the performance of our most significant segment, the Health Plans segment, is the medical care ratio (“MCR”). The medical care ratio represents the amount of medical care costs as a percentage of premium revenue. Therefore, the underlying gross margin, or the amount earned by the Health Plans segment after medical costs are deducted from premium revenue, is the most important measure of earnings reviewed by management.

Gross margin for our Health Plans segment is referred to as “Medical margin,” and for our Molina Medicaid Solutions and Other segments, as “Service margin.” The service margin is equal to service revenue minus cost of service revenue. Management’s discussion and analysis of the changes in the individual components of gross margin, by reportable segment, is presented in the “Reportable Segments” section of this MD&A.

Table of Contents

KEY PERFORMANCE INDICATORS

(Dollars and membership in millions, except per-share amounts)



(1) Medical care ratio represents medical care costs as a percentage of premium revenue.

(2) General and administrative expense ratio represents general and administrative expenses as a percentage of total revenue. Net profit margin represents net income as a percentage of total revenue.

(3) Medical margin is equal to premium revenue minus medical costs.

See discussion of Key Performance Indicators in the “Consolidated Results” and “Reportable Segments” sections of this MD&A.

CONSOLIDATED RESULTS

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

- Net income per diluted share decreased to $0.92 in 2016 compared with $2.58 in 2015. Adjusted net income per diluted share* decreased to $1.28 in 2016 compared with $2.78 in 2015. The decrease in net income was primarily the result of the declining profitability of our Marketplace program.
- Strong enrollment growth generated approximately $16.4 billion of premium revenue, or 24% more premium revenue in 2016 compared with 2015. Enrollment growth was primarily due to increased Marketplace enrollment and the acquisition of Medicaid managed care membership.
- The medical care ratio increased to 90.1% in 2016, from 89.1% in 2015, due to lower Marketplace margins. The medical care ratio of our Marketplace program increased to 92.9% in 2016 from 73.8% in 2015.

MOLINA’S 2017 ACTION PLAN

We have identified the following areas of focus and related actions to execute in 2017:

1. **Stabilize Marketplace Performance:**

   We will continue to advocate for the immediate remediation of risk transfer methodologies that penalize comparatively efficient and affordable health plans like ours and, by extension, those individual consumers in need of affordable health insurance. In particular, we are recommending that the planned change to the Marketplace risk transfer methodology, which is currently scheduled to take effect on January 1, 2018, be brought forward in time and implemented immediately in 2017. Had that same planned methodology change been in effect in 2016, we estimate that our pre-tax income in 2016 would have been approximately $70 million higher.

   In January 2017, we filed suit on behalf of our health plans seeking recovery from the federal government of approximately $52 million in Marketplace risk corridor payments for calendar year 2015. Based upon current estimates, we believe our health plans are also owed approximately $90 million in Marketplace risk corridor payments from the federal government for calendar year 2016, and a further nominal amount for calendar year 2014. Our lawsuit seeks recovery of all of these unpaid amounts. We have not recognized revenue, nor have we recorded a receivable, for any amount due from the federal government for unpaid Marketplace risk corridor payments as of December 31, 2016. We have fully recognized all liabilities due to the federal government that we have incurred under the Marketplace risk corridor program, and have paid all amounts due to the federal government as required.

2. **Improve Medicaid performance in Illinois, Ohio and Washington:**

   Inadequate premium rates limited profitability in Illinois, Ohio and Washington in 2016. Effective January 1, 2017, we received blended rate increases of approximately 5% in Illinois, 4% in Ohio and 4% in Washington. We expect improved profitability in all three plans in 2017 as a result of these rate increases and company-wide cost containment measures.

3. **Sustain the improvements achieved in Puerto Rico:**

   Results at our Puerto Rico health plan have improved in the second half of 2016, primarily as a result of management actions undertaken beginning in the spring of 2016. We expect the benefit of those actions to continue into 2017.

REPORTABLE SEGMENTS

SEGMENT SUMMARY

	2016	2015	2014
		(In millions)	
Segment gross margin:			
Health Plans medical margin [1]	$ 1,618	$ 1,447	$ 947
Molina Medicaid Solutions service margin [2]	21	55	53
Other [2]	33	5	—
Total segment gross margin	1,672	1,507	1,000
Other operating revenues [3]	851	684	434

(1) Represents premium revenue minus medical care costs.
(2) Represents service revenue minus cost of service revenue.
(3) Other operating revenues include premium tax revenue, health insurer fee revenue, investment income and other revenue.
(4) Other operating expenses include general and administrative expenses, premium tax expenses, health insurer fee expenses and depreciation and amortization.

HEALTH PLANS

BUSINESS OVERVIEW

- 96.9% of total revenue in 2016
- 98.2% of total revenue in 2015
- Employees: Approximately 7,700

Programs and Services

The Health Plans segment consists of health plans in 12 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of December 31, 2016, these health plans served over 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. This membership includes Affordable Care Act Marketplace (Marketplace) members, most of whom receive government premium subsidies. The health plans are operated by our respective wholly owned subsidiaries in those states, each of which is licensed as a health maintenance organization (HMO).

Our health plans' state Medicaid contracts generally have terms of three to four years. These contracts typically contain renewal options exercisable by the state Medicaid agency, and allow either the state or the health plan to terminate the contract with or without cause. Our health plan subsidiaries have generally been successful in retaining their contracts, but such contracts are subject to risk of loss when a state issues a new request for proposal (RFP) open to competitive bidding by other health plans. If one of our health plans is not a successful responsive bidder to a state RFP, its contract may be subject to non-renewal.

In addition to contract renewal, our state Medicaid contracts may be periodically amended to include or exclude certain health benefits (such as pharmacy services, behavioral health services, or long-term care services); populations such as the aged, blind or disabled (ABD); and regions or service areas.

(1) The New York health plan was acquired on August 1, 2016.
(2) The Puerto Rico health plan began serving members on April 1, 2015.
(3) MMP members who receive both Medicaid and Medicare coverage from Molina Healthcare.

Our Industry

Medicaid. Medicaid was established in 1965 under the U.S. Social Security Act to provide health care and long-term care services and supports to low-income Americans. Although jointly funded by federal and state governments, Medicaid is a state-operated and state-implemented program. Subject to federal laws and regulations, states have significant flexibility to structure their own programs in terms of eligibility, benefits, delivery of services, and provider payments. As a result, there are 56 separate Medicaid programs—one for each U.S. state, each U.S. territory, and the District of Columbia.

The federal government guarantees matching funds to states for qualifying Medicaid expenditures based on each state's federal medical assistance percentage (FMAP). A state's FMAP is calculated annually and varies inversely with average personal income in the state. The average FMAP across all jurisdictions is currently about 59%, and ranges from a federally established FMAP floor of 50% to as high as 75%.

We participate in the following Medicaid programs:

- TANF - TANF, the most common state-administered Medicaid, covers primarily low-income mothers and children.
- ABD - State-administered ABD programs cover low-income persons with chronic physical disabilities or behavioral health impairments. ABD beneficiaries typically use more services than those served by other Medicaid programs because of their critical health issues.
- CHIP - CHIP is a joint federal and state matching program that provides health care coverage to children whose families earn too much to qualify for Medicaid coverage. States have the option of administering CHIP through their Medicaid programs.

- Medicaid Expansion - In states that have elected to participate, Medicaid Expansion provides eligibility to nearly all low-income people under age 65 with incomes at or below 138% of the federal poverty line.

Marketplace. The ACA authorized the creation of Marketplace insurance exchanges, allowing individuals and small groups to purchase health insurance that is federally subsidized, effective January 1, 2014. We participate in the Marketplace in all of the states in which we operate, except Illinois, New York, Puerto Rico and South Carolina.

Medicare. Medicare is a federal program that provides eligible persons age 65 and over and some disabled persons with a variety of hospital, medical insurance, and prescription drug benefits. Medicare is funded by Congress, and administered by CMS. Medicare beneficiaries may enroll in a Medicare Advantage plan, under which managed care plans contract with CMS to provide benefits that are comparable to original Medicare. Such benefits are provided in exchange for a fixed per-member per-month (PMPM) premium payment that varies based on the county in which a member resides, the demographics of the member, and the member's health condition. Since 2006, Medicare beneficiaries have had the option of selecting a new prescription drug benefit from an existing Medicare Advantage plan. The drug benefit, available to beneficiaries for a monthly premium, is subject to certain cost sharing depending upon the specific benefit design of the selected plan.

MMPs. Nine million low-income elderly and disabled people are covered under both the Medicare and Medicaid programs. These beneficiaries are more likely than other Medicare beneficiaries to be frail, live with multiple chronic conditions, and have functional and cognitive impairments. Medicare is their primary source of health insurance coverage. Medicaid supplements Medicare by paying for services not covered by Medicare, such as dental care and long-term care services and support, and by helping to cover Medicare's premiums and cost-sharing requirements. Together, these two programs help to shield very low-income Medicare beneficiaries from potentially unaffordable out-of-pocket medical and long-term care costs. To coordinate care for those who qualify to receive both Medicare and Medicaid services (the "dual eligible"), and to deliver services to these individuals in a more financially efficient manner, some states have undertaken demonstration programs to integrate Medicare and Medicaid services for dual eligible individuals. The health plans participating in such demonstrations are referred to as MMPs. We operate MMPs in six states.

Significant Trends and Developments

ACA. As a result of the election of President Trump and the GOP control of both houses of Congress, there is currently a great deal of discussion and debate about the repeal and replacement of the ACA. As a result, the future of the ACA and its underlying programs are subject to substantial uncertainty, making long-term business planning exceedingly difficult. We are unable to predict with any degree of certainty whether the ACA will be modified or repealed in its entirety, and if it is repealed, what it will be replaced with; nor are we able to predict when any such changes, if enacted, would become effective.

Currently, there are a number of different legislative proposals being considered, some of which would involve significantly reduced federal spending on the Medicaid program, and constitute a fundamental change in the federal role in health care. These proposals include elements such as the following: ending the entitlement nature of Medicaid (and perhaps Medicare as well) by capping future increases in federal health spending for these programs, and shifting much more of the risk for health costs in the future to states and consumers; reversing the ACA's expansion of Medicaid that enables states to cover low-income childless adults; changing Medicaid to a state block grant program, including potentially capping spending on a per-enrollee basis (a "per capita cap"); prohibiting the federal government from operating Marketplaces; eliminating the advanced premium tax credits, and cost-sharing reductions for low income individuals who purchase their health insurance through the Marketplaces; expanding and encouraging the use of private health savings accounts; providing for insurance plans that offer fewer and less extensive health insurance benefits than under the ACA's essential health benefits package, including broader use of catastrophic coverage plans; establishing and funding high risk pools or reinsurance programs for individuals with chronic or high cost conditions; allowing insurers to sell insurance across state lines; and numerous other potential changes and reforms. Changes to or the repeal of the ACA, or the adoption of new health care regulatory laws, could have a material adverse effect on our business, financial condition, cash flows or results of operations.

Proposed Medicare Acquisition. In August 2016, we entered into substantially identical agreements with each of Aetna Inc. and Humana Inc. to acquire certain of their Medicare Advantage membership and other assets related to such Medicare Advantage business (the Proposed Medicare Acquisition), for cash. The Proposed Medicare Acquisition was subject to closing conditions including, but not limited to, the completion of the proposed acquisition of Humana by Aetna (the Aetna-Humana Merger). In January 2017, the U.S. District Court for the District of Columbia granted the request made by the U.S. Department of Justice in its civil antitrust lawsuit against Aetna and Humana, to prohibit the Aetna-Humana Merger (the District Court Order). In February 2017, the Proposed Medicare

Acquisition was terminated by the parties pursuant to the terms of the transaction. Under the termination agreement, we are entitled to receive from Aetna and Humana an aggregate termination fee of $75 million (the breakup fee). In addition, we are entitled to reimbursement of reasonable and documented out-of-pocket expenses incurred by us and our affiliates in connection with the Proposed Medicare Acquisition. We will record the breakup fee as other income in the first quarter of 2017.

Completed Acquisitions. Medicaid contract acquisitions at our existing health plans in Illinois, Michigan and Washington added approximately 221,000 Medicaid members in the first quarter of 2016. Acquisition of the outstanding equity interests of Molina Healthcare of New York, Inc., formerly known as Today's Options of New York, Inc., added approximately 35,000 Medicaid members in the third quarter of 2016.

Basis for our Premium Rates

Medicaid. Under our Medicaid contracts, state government agencies pay our health plans fixed PMPM rates that vary by state, line of business and demographics; and we arrange, pay for and manage health care services provided to Medicaid beneficiaries. Therefore, our health plans are at risk for the medical costs associated with their members' health care. The rates we receive are subject to change by each state and, in some instances, provide for adjustments for health risk factors. CMS requires these rates to be actuarially sound. Payments to us under each of our Medicaid contracts are subject to the annual appropriation process in the applicable state.

Medicare. Under Medicare Advantage, managed care plans contract with CMS to provide benefits in exchange for a fixed PMPM premium payment that varies based on the county in which a member resides, and adjusted for demographic and health risk factors. CMS also considers inflation, changes in utilization patterns and average per capita fee-for-service Medicare costs in the calculation of the fixed PMPM premium payment. Amounts payable to us under the Medicare Advantage contracts are subject to annual revision by CMS, and we elect to participate in each Medicare service area or region on an annual basis. Medicare Advantage premiums paid to us are subject to federal government reviews and audits which can result, and have resulted, in retroactive and prospective premium adjustments. Compared with our Medicaid plans, Medicare Advantage contracts generate higher average PMPM revenues and health care costs.

Marketplace. For our Marketplace plans, we develop premium rates during the spring of each year for policies effective in the following calendar year. Premium rates are based on our estimates of projected member utilization, medical unit costs, member risk acuity, member risk transfer, and administrative costs, with the intent of realizing a target pretax percentage profit margin. Our actuaries certify the actuarial soundness of Marketplace premiums in the rate filings submitted to the various state and federal authorities for approval.

Premiums by Program

The amount of the premiums paid to our health plans may vary substantially between states and among various government programs. The following table sets forth the ranges of premiums paid to our state health plans by program on a PMPM basis, for the year ended December 31, 2016. The "Consolidated" column represents the weighted-average amounts for our total membership by program.

	PMPM Premiums		
	Low	High	Consolidated
TANF and CHIP	$ 120.00	$ 400.00	$ 180.00
Medicaid Expansion	300.00	480.00	380.00
Marketplace	170.00	360.00	230.00
ABD	390.00	1,520.00	990.00
MMP – Integrated	1,240.00	3,240.00	2,130.00
Medicare	820.00	1,100.00	1,030.00

Competition

The Medicaid managed care industry is subject to ongoing changes as a result of health care reform, business consolidations and new strategic alliances. We compete with national, regional, and local Medicaid service providers, principally on the basis of size, location, quality of provider network, quality of service, and reputation. Our primary competitors in the Medicaid managed care industry include Centene Corporation, WellCare Health Plans, Inc., UnitedHealth Group Incorporated, Anthem, Inc., and Aetna Inc. Competition can vary considerably from state to state.

Regulation

Our health plans are highly regulated by both state and federal government agencies. Regulation of managed care products and health care services varies from jurisdiction to jurisdiction, and changes in applicable laws and rules occur frequently. Regulatory agencies generally have discretion to issue regulations and interpret and enforce laws and rules. Such agencies have become increasingly active in recent years in their review and scrutiny of health insurers and managed care organizations, including those operating in the Medicaid and Medicare programs.

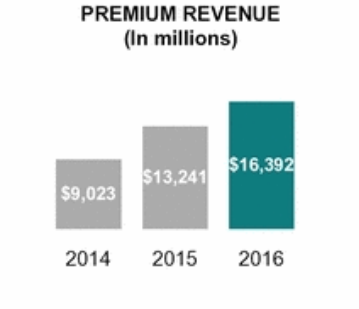
HIPAA. In 1996, Congress enacted the Health Insurance Portability and Accountability Act (HIPAA). All health plans are subject to HIPAA, including ours. HIPAA generally requires health plans to:

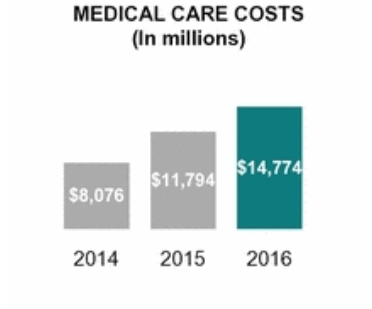
- Establish the capability to receive and transmit electronically certain administrative health care transactions, like claims payments, in a standardized format;
- Afford privacy to patient health information; and
- Protect the privacy of patient health information through physical and electronic security measures.

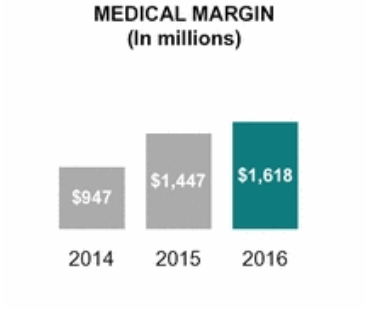
Health care reform created additional tools for fraud prevention, including increased oversight of providers and suppliers participating or enrolling in Medicaid, CHIP, and Medicare. Those enhancements included mandatory licensure for all providers, and site visits, fingerprinting, and criminal background checks for higher risk providers.

Regulatory Capital Requirements and Dividend Restrictions. Our health plans are subject to stringent minimum capitalization requirements that limit their ability to pay dividends to us. For further information, refer to the Notes to Consolidated Financial Statements, Note 19, “Commitments and Contingencies—Regulatory Capital Requirements and Dividend Restrictions.”

FINANCIAL OVERVIEW







2016 Compared with 2015

In 2016, a 27% increase in membership, partially offset by a 3% decrease in revenue PMPM, resulted in increased premium revenue of 24%, or $3.2 billion, when compared with 2015. The decline in PMPM premium revenue was primarily the result of lower PMPM premiums for Medicaid Expansion membership and an increase in the percentage of our premium revenue derived from TANF and Marketplace membership.

The medical care ratio increased to 90.1% in 2016, from 89.1% in 2015. The increase in our medical care ratio was driven primarily by Marketplace membership. Medical margin (measured in absolute dollars) increased 12% in 2016 over 2015. The medical care ratio of all of our programs excluding Marketplace decreased by 10 basis points between 2015 and 2016, as decreasing margins in Medicaid Expansion (where we saw a 300 basis point increase in our medical care ratio) were offset by improved margins in other programs. Consolidated medical care costs measured on a PMPM basis decreased approximately 3% in 2016 when compared with 2015.

2015 Compared with 2014

In 2015, a 42% increase in membership and a 5% increase in revenue PMPM resulted in increased premium revenue of 47%, or over $4.2 billion, when compared with 2014.

Enrollment growth was primarily due to increased Medicaid expansion, increased Marketplace and integrated Medicare-Medicaid Plan (MMP) enrollment, and the start-up of the Puerto Rico health plan in April 2015.

Our medical margin increased nearly 53% in 2015 over 2014, and our consolidated medical care ratio decreased to 89.1% in 2015 from 89.5% in 2014.

FINANCIAL PERFORMANCE BY PROGRAM

The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by program for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Year Ended December 31, 2016 [1]						
	Member Months[2]	Premium Revenue		Medical Care Costs			
		Total	PMPM	Total	PMPM	MCR[3]	Medical Margin
TANF and CHIP	30.2	$ 5,403	$ 179.21	$ 4,950	$ 164.18	91.6%	$ 453
Medicaid Expansion	7.8	2,952	378.58	2,475	317.37	83.8	477
Marketplace	6.7	1,525	228.44	1,416	212.17	92.9	109
ABD	4.7	4,666	991.24	4,277	908.39	91.6	389
MMP	0.6	1,303	2,131.97	1,141	1,866.93	87.6	162
Medicare	0.5	543	1,033.15	515	981.36	95.0	28
	50.5	$ 16,392	$ 324.82	$ 14,774	$ 292.75	90.1%	$ 1,618

	Year Ended December 31, 2015 [1]						
	Member Months[2]	Premium Revenue		Medical Care Costs			
		Total	PMPM	Total	PMPM	MCR[3]	Medical Margin
TANF and CHIP	25.5	$ 4,483	$ 175.64	$ 4,122	$ 161.50	92.0%	$ 361
Medicaid Expansion	5.9	2,389	408.51	1,931	330.18	80.8	458
Marketplace	2.6	652	251.96	481	185.85	73.8	171
ABD	4.3	4,124	966.83	3,784	887.27	91.8	340
MMP	0.5	1,063	2,034.51	974	1,863.93	91.6	89
Medicare	0.5	530	1,038.15	502	982.50	94.6	28
	39.3	$ 13,241	$ 337.28	$ 11,794	$ 300.43	89.1%	$ 1,447

(1) Year ended December 31, 2014 data not presented due to lack of comparability, because ACA-related programs began phasing in during 2014.
(2) A member month is defined as the aggregate of each month's ending membership for the period presented.
(3) "MCR" represents medical costs as a percentage of premium revenue.

Medicaid TANF, CHIP and ABD. TANF, CHIP and ABD revenue increased in 2016 when compared with 2015, due to health plan acquisitions in late 2015 and 2016, as well as inclusion of a full year of Puerto Rico operations in 2016 (Puerto Rico began operations effective April 1, 2015). The slight decline in the medical care ratio for these programs on a consolidated basis when comparing 2016 with 2015 is not significant given normal margin fluctuations observed when performance is reviewed at this level of detail.

Medicaid Expansion. Member months increased 33% in 2016, when compared with 2015, as a result of membership growth in all states. Lower premium revenue PMPM more than offset lower medical costs PMPM, leading to an increase in the consolidated medical care ratio for the Medicaid Expansion program. Medicaid Expansion medical care ratios increased in Illinois, Michigan, New Mexico and Ohio.

In the fourth quarter of 2016, we recorded two adjustments to Medicaid Expansion revenue as a result of developments that encompassed the years ended December 31, 2014, 2015 and 2016. Both adjustments, noted below, involved changes to the method of calculation of amounts due back to the states. Under contract provisions that require us to spend certain minimum amounts on medical expenses for our Expansion members, we are required to refund to the states any shortfall of actual medical costs compared with required minimum medical costs.

- In the fourth quarter of 2016, our California health plan received a contract amendment from the California Department of Healthcare Services that allowed us to deduct certain tax expenses in the computation of its Medicaid Expansion minimum medical loss ratio; this minimum medical loss ratio was effective January 1, 2014, through June 30, 2016. As a result of this contract amendment, we increased premium revenue for the year ended December 31, 2016, by approximately $68 million, of which $35 million related to periods prior to 2016.
- In February 2017, the New Mexico Human Services Department (HSD) notified us that it has disallowed certain medically related administrative expenses and other items in the computation of its Medicaid Expansion risk corridor; this corridor was effective January 1, 2014, through December 31, 2016. Although we disagree with their contractual interpretations, we deferred premium revenue amounting to approximately $45 million for the year ended December 31, 2016, as a result of this communication, because such revenue is presently subject to refund or adjustment. Of this amount, $29 million relates to dates of service prior to 2016. At December 31, 2016, our aggregate Medicaid Expansion risk corridor payable to HSD is $145 million. We intend to appeal HSD's ruling on this matter.

Marketplace. The poor performance of our Marketplace program was very detrimental to our financial performance for the year ended December 31, 2016. In 2016, we estimate that our operating loss from the Marketplace program amounted to approximately $110 million, or $1.21 per diluted share. This operating loss includes the impact of a premium deficiency reserve of $30 million for our Marketplace contracts in California and Washington, which was recorded in the fourth quarter of 2016.

The decline in profitability in 2016 compared with 2015 was the result of lower premium revenue PMPM, the premium deficiency reserve noted above, and higher medical costs PMPM. Our Marketplace performance in 2016 continued to suffer from deficiencies in the Marketplace risk transfer methodology that we believe penalizes efficient and affordable health plans like ours and, as a result, those purchasing affordable Marketplace policies ultimately pay higher premiums.

Our 2016 Marketplace results were substantially lower than our expectations based upon our 2016 pricing model. Based upon actual 2016 enrollment, our 2016 Marketplace program was priced to produce income before income taxes of approximately $60 million for all of 2016. The $170 million difference in income before income taxes between our reported results and those we would have expected based upon our pricing model was due to the following factors:

- Risk transfer payments were approximately $325 million higher than anticipated in our pricing. Risk transfer payments amounted to 24% of total premium in 2016, compared with a pricing expectation of 9%.
- Although medical costs were $120 million lower than anticipated by our pricing model, we nevertheless incurred $325 million in additional risk transfer payments noted above.
- Other items increased income before income taxes by approximately $35 million compared with pricing expectations.

The difference between our actual results and those anticipated by our pricing model was exacerbated by the federal government's failure to pay amounts owed to our health plans under the Marketplace risk corridor program.

We believe our health plans are owed approximately $90 million in Marketplace risk corridor payments for 2016 dates of service, but have not recorded any amounts associated with this claim.

MMP and Medicare. Membership and revenue increased on a consolidated basis for the MMP and Medicare programs when comparing 2016 with 2015. The medical care ratio for these programs, in the aggregate, decreased due to higher margins for the MMP program.

FINANCIAL PERFORMANCE BY STATE HEALTH PLAN

The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by state health plan for the periods indicated (dollars in millions except PMPM amounts):

	Year Ended December 31, 2016						
	Member Months	Premium Revenue		Medical Care Costs		MCR	Medical Margin
		Total	PMPM	Total	PMPM		
California	8.2	$ 2,370	$ 290.50	$ 2,029	$ 248.70	85.6%	$ 341

(1) The New York health plan was acquired on August 1, 2016. Our Puerto Rico health plan began serving members on April 1, 2015.
(2) "Other" medical care costs include primarily medically related administrative costs of the parent company, and direct delivery costs.

MEDICAL CARE COSTS BY TYPE

Our medical care costs include amounts that have been paid by us through the reporting date as well as estimated liabilities for medical care costs incurred but not paid by us as of the reporting date. The following table provides the details of consolidated medical care costs by type for the periods indicated (dollars in millions except PMPM amounts):

	Year Ended December 31,								
	2016			2015			2014		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee for service	$ 10,993	$ 217.84	74.4%	$ 8,572	$ 218.35	72.7%	$ 5,673	$ 202.87	70.2%
Pharmacy	2,213	43.84	15.0	1,610	41.01	13.7	1,273	45.54	15.8
Capitation	1,218	24.13	8.2	982	25.02	8.3	748	26.77	9.3
Direct delivery	78	1.55	0.5	128	3.26	1.1	96	3.44	1.2
Other	272	5.39	1.9	502	12.79	4.2	286	10.22	3.5
	$ 14,774	$ 292.75	100.0%	$ 11,794	$ 300.43	100.0%	$ 8,076	$ 288.84	100.0%

PREMIUM TAXES

The premium tax ratio (premium tax expense as a percentage of premium revenue plus premium tax revenue) decreased to 2.8% in 2016, from 2.9% in 2015, primarily due to the significant revenue growth at our Florida health plan, which operates in a state with no premium tax, and growth in MMP revenue. The Medicare portion of MMP revenue is not subject to premium tax.

The premium tax ratio decreased to 2.9% in 2015, from 3.2% in 2014. This decrease was primarily due to the 2015 increase in MMP revenue.

HEALTH INSURER FEE (HIF) REVENUE AND EXPENSES

HIF revenue, as a percentage of premium revenue, increased slightly to 2.1% in 2016, compared with 2.0% in 2015. In 2015, our Puerto Rico health plan was not subject to the HIF because it was not operational during the previous year (2014). HIF revenue, as a percentage of premium revenue, was 1.3% in 2014. During 2015, we recognized approximately $20 million of HIF premium revenue meant to reimburse us for the cost of HIF expense recognized in 2014.

The Consolidated Appropriations Act of 2016 provided for a HIF moratorium in 2017. Therefore, there will be no HIF revenue or expenses in 2017.

MOLINA MEDICAID SOLUTIONS

BUSINESS OVERVIEW

- 1.1% of total revenue in 2016
- 1.4% of total revenue in 2015
- Employees: Approximately 1,200

Programs and Services

The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs including business processing, information technology development, and administrative services. Molina Medicaid Solutions is under contract with Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and provides drug rebate administration services in Florida. Our existing state MMIS contracts have terms that currently extend to 2018 through 2025, before renewal options.

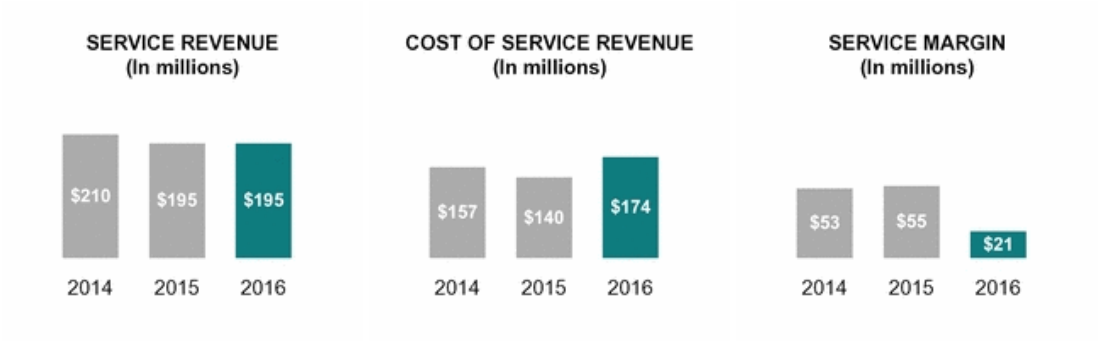
Because Medicaid is a state-administered program, every state must have mechanisms, policies, and procedures in place to perform a large number of crucial functions, including the determination of eligibility and the reimbursement of medical providers for services provided. This requirement exists regardless of whether a state has adopted a fee-for-service or a managed care delivery model. MMIS are used by states to support these administrative activities. Although a small number of states build and operate their own MMIS, a far more typical practice is for states to sub-contract the design, development, implementation, and operation of their MMIS to private parties. Through our Molina Medicaid Solutions segment, we actively participate in this market.

Competition and Regulation

Molina Medicaid Solutions competes with large MMIS vendors, such as HP Enterprise Services, ACS (owned by Xerox Corporation), Computer Services Corporation, and CNSI. Molina Medicaid Solutions' contracts with state government customers may include unique and specialized performance requirements. In particular, contracts with state government customers are subject to various procurement regulations, contract provisions, and other requirements relating to their formation, administration, and performance.

Table of Contents

FINANCIAL OVERVIEW



2016 Compared with 2015

Service margin declined $34 million in 2016 compared with 2015, primarily due to increased service costs associated with legacy state contracts that were re-procured.

2015 Compared with 2014

Service revenue declined $15 million in 2015 compared with 2014, primarily due to an extension of the Idaho contract under which we are now amortizing certain deferred revenues over a longer term. Service margin increased slightly in 2015 compared with 2014.

OTHER

BUSINESS OVERVIEW

- 2.0% of total revenue in 2016
- 0.4% of total revenue in 2015
- Employees: Corporate – approximately 6,400. Pathways – approximately 5,500.

Programs and Services

The Other segment includes primarily our Pathways behavioral health and social services provider, and corporate amounts not allocated to other reportable segments.

We acquired the outstanding ownership interests in Pathways Health and Community Support, LLC (Pathways), formerly known as Providence Human Services, LLC, in the fourth quarter of 2015. Substantially all of Pathways' revenue is derived from contracts with state or local government agencies and government intermediaries, the majority of which are negotiated fee-for-service arrangements. A significant number of these contracts allow the payer to terminate the contract immediately with or without cause.

FINANCIAL OVERVIEW

2016 Compared with 2015

Service margin was $33 million in 2016 and insignificant in 2015. The service margin in 2015 was insignificant because our acquisition of Pathways was not completed until the fourth quarter of 2015.

OTHER CONSOLIDATED INFORMATION

GENERAL AND ADMINISTRATIVE EXPENSES

General and administrative expenses as a percentage of total revenue (the "general and administrative expense ratio") was 7.8% in 2016, 8.1% in 2015, and 7.9% in 2014. Our general and administrative ratio has been relatively constant since the phase-in of the ACA Medicaid Expansion and Marketplace programs beginning in 2014.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization amounted to 1.0%, 0.8% and 1.4% of total revenue for the years ended December 31, 2016, 2015 and 2014, respectively.

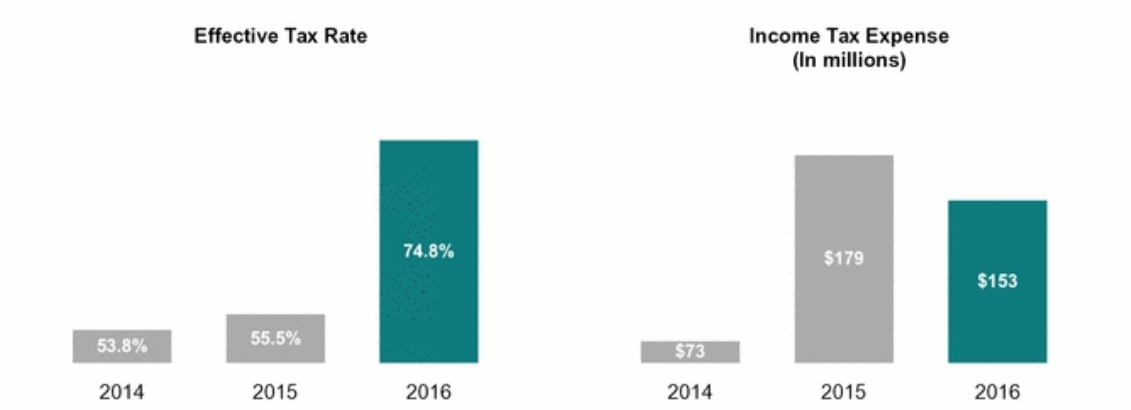
INTEREST EXPENSE

Interest expense increased to $101 million for the year ended December 31, 2016, compared with $66 million for the year ended December 31, 2015. The increase was due primarily to our issuance of $700 million aggregate principal amount of senior notes (the 5.375% Notes) due November 15, 2022, in the fourth quarter of 2015. For further details regarding this transaction, please refer to Notes to Consolidated Financial Statements, Note 12, "Debt."

Interest expense increased to $66 million for the year ended December 31, 2015, compared with $57 million for the year ended December 31, 2014. The increase was due primarily to our issuance of the 5.375% Notes in the fourth quarter of 2015.

Interest expense includes non-cash interest expense relating to the amortization of the discount on our long-term debt obligations, which amounted to $31 million, $30 million and $27 million for the years ended December 31, 2016, 2015, and 2014, respectively.

INCOME TAXES



The health insurer fee that we pay to the federal government is not deductible for purposes of determining our income tax expense. The decrease in income before taxes in 2016 compared with 2015, combined with the relatively large amount of reported expenses that are not deductible for tax purposes, has resulted in an effective tax rate in excess of 70% for the full year 2016, compared with 55.5% for 2015.

The effective tax rate for 2015 was higher than 2014 primarily as a result of certain discrete tax benefits recorded in 2014 that were not recurring in 2015.

LIQUIDITY AND FINANCIAL CONDITION

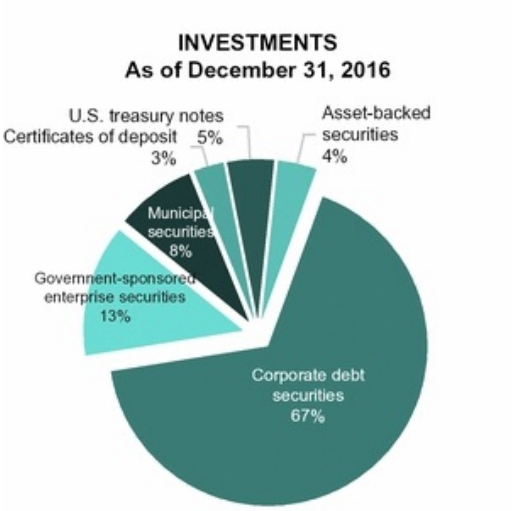
INTRODUCTION

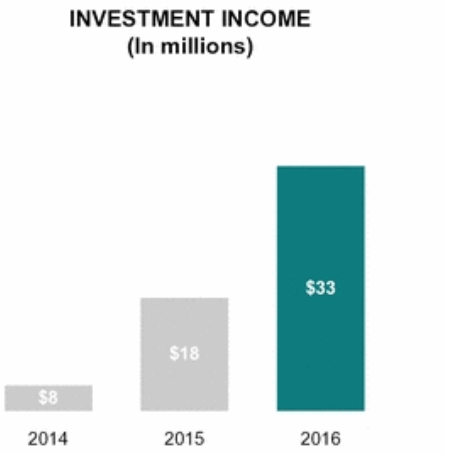
We manage our cash, investments, and capital structure to meet the short- and long-term obligations of our business while maintaining liquidity and financial flexibility. We forecast, analyze, and monitor our cash flows to enable prudent investment management and financing within the confines of our financial strategy.

Our regulated subsidiaries generate significant cash flows from premium revenue. Such cash flows are our primary source of liquidity. Thus, any future decline in our profitability may have a negative impact on our liquidity. We generally receive premium revenue a short time before we pay for the related health care services. A majority of the assets held by our regulated subsidiaries are in the form of cash, cash equivalents, and investments. After considering expected cash flows from operating activities, we generally invest cash of regulated subsidiaries that exceeds our expected short-term obligations in longer term, investment-grade, and marketable debt securities to improve our overall investment return. These investments are made pursuant to board approved investment policies which conform to applicable state laws and regulations.

Our investment policies are designed to provide liquidity, preserve capital, and maximize total return on invested assets, all in a manner consistent with state requirements that prescribe the types of instruments in which our subsidiaries may invest. These investment policies require that our investments have final maturities of 10 years or less (excluding variable rate securities, for which interest rates are periodically reset) and that the average maturity be three years or less. Professional portfolio managers operating under documented guidelines manage our investments and a portion of our cash equivalents. Our portfolio managers must obtain our prior approval before selling investments where the loss position of those investments exceeds certain levels.

All of our investments are classified as current assets, except for our restricted investments, which are classified as non-current assets, and which are not included in the totals below. Our restricted investments are invested principally in certificates of deposit and U.S. treasury securities; we have the ability to hold our restricted investments until maturity.





Investment income increased in 2016 compared with 2015, and in 2015 compared with 2014, primarily due to the increase in invested assets in each of 2016 and 2015. See further discussion below in “Liquidity.”

MARKET RISK

Our earnings and financial position are exposed to financial market risk relating changes in interest rates, and the resulting impact on investment income and interest expense.

Substantially all of our investments and restricted investments are subject to interest rate risk and will decrease in value if market interest rates increase. Assuming a hypothetical and immediate 1% increase in market interest rates at December 31, 2016, the fair value of our fixed income investments would decrease by approximately $20 million. Declines in interest rates over time will reduce our investment income.

For further information on fair value measurements and our investment portfolio, please refer to Note 5, “Fair Value Measurements,” Note 6, “Investments,” and Note 10, “Restricted Investments.”

Borrowings under our Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. As of December 31, 2016, no amounts were outstanding under the Credit Facility.

LIQUIDITY

A condensed schedule of cash flows to facilitate our discussion of liquidity follows:

	Year Ended December 31,				
	2016	2015	2014	2015 to 2016 Change	2014 to 2015 Change
	(In millions)				
Net cash provided by operating activities	$ 673	$ 1,125	$ 1,060	$ (452)	$ 65
Net cash used in investing activities	(202)	(1,420)	(536)	1,218	(884)
Net cash provided by financing activities	19	1,085	79	(1,066)	1,006
Net increase in cash and cash equivalents	$ 490	$ 790	$ 603	$ (300)	$ 187

Operating Activities

2016 Compared with 2015

Cash provided by operating activities was $673 million in 2016 compared with $1,125 million in 2015, a decrease of $452 million. This decrease was due primarily to a $91 million decrease in net income, and the following factors:

Receivables and deferred revenue. Cash flows from operations in each year were impacted by the timing of payments we receive from our states. In general, states may delay our premium payments, which we record as a receivable, or they may prepay the following month’s premium payment, which we record as deferred revenue. We typically receive capitation payments monthly; however, the states in which we operate may decide to adjust their payment schedules which could positively or negatively impact our reported cash flows from operating activities in any given period. In the current year, the net effect of the timing of premiums received at our California and Illinois health plans negatively impacted our cash flows from operating activities.

Medical claims and benefits payable. In 2016, the change in medical claims and benefits payable reduced cash flows from operations by $256 million, primarily because membership and related medical costs grew at a higher rate in 2015 than in 2016, resulting in a lower year-over-year change in 2016.

Amounts due government agencies. In 2016, the change in amounts due government agencies increased cash flows from operations by $271 million, due primarily to additional accruals for ACA Marketplace risk transfer payments. In addition to the impact of amounts due for Marketplace risk transfer, changes in this account relate primarily to Health Plans segment programs that contain medical cost floors or medical cost corridors. Under such programs, a portion of certain Medicaid, Medicare, and Marketplace premiums received by our health plans may be returned if certain minimum amounts are not spent on defined medical care costs.

2015 Compared with 2014

Cash provided by operating activities was $1,125 million in 2015, compared with $1,060 million in 2014, an increase of $65 million. This increase was primarily due to an $81 million increase in net income, and collection of premiums receivable at our California health plan in the first quarter of 2015. These increases were partially offset by our fourth quarter 2015 Medicaid expansion-related payment to the state of Washington’s Medicaid authority of $247 million, reflected in the change in amounts due to government agencies. In addition, the change in medical claims

and benefits payable reduced cash flows from operations by $49 million, primarily because membership and related medical costs grew at a higher rate in 2014 than in 2015, resulting in a lower year-over-year change in 2015.

Investing Activities

2016 Compared with 2015

Cash used in investing activities was $202 million in 2016, compared with $1,420 million in 2015, a decrease of $1,218 million. Cash flows from investing activities increased in 2016 due to $840 million increased proceeds from sales and maturities of investments, and a reduction in cash paid in business combinations of $402 million in 2016 compared with 2015.

2015 Compared with 2014

Cash used in investing activities was $1,420 million in 2015, compared with $536 million in 2014. This increase was due in part to higher purchases of investments, net of sales of maturities, amounting to $477 million, as a result of cash generated from 2015 financing activities, described below.

Financing Activities

2016 Compared with 2015

Cash provided by financing activities was $19 million in 2016, compared with $1,085 million in 2015. In 2015, we received net proceeds from our fiscal 2015 offerings of 5.375% Notes, amounting to $689 million, and common stock, amounting to $373 million, with no comparable activity in 2016.

2015 Compared with 2014

Cash provided by financing activities was $1,085 million in 2015, as described above. In 2014, cash flows from financing activities was $79 million, which included $123 million in net proceeds from our fiscal 2014 offering of 1.625% Notes, partially offset by $50 million paid to settle contingent consideration liabilities associated with our 2013 business acquisitions.

FINANCIAL CONDITION

We believe that our cash resources and internally generated funds will be sufficient to support our operations, regulatory requirements, and capital expenditures for at least the next 12 months.

On a consolidated basis, at December 31, 2016, our working capital was $1,418 million compared with $1,484 million at December 31, 2015. At December 31, 2016, our cash and investments amounted to $4,689 million, compared with $4,241 million of cash and investments at December 31, 2015.

Debt Ratings. Our 5.375% Notes are rated “BB” by Standard & Poor’s, and “Ba3” by Moody’s Investor Service, Inc. A significant downgrade in our ratings could adversely affect our borrowing capacity and costs.

FUTURE SOURCES AND USES OF LIQUIDITY

Sources

Dividends from Subsidiaries. When available and as permitted by applicable regulations, cash in excess of the capital needs of our regulated health plans is generally paid in the form of dividends to our unregulated parent company to be used for general corporate purposes. We received $100 million and $125 million in dividends from our regulated health plan subsidiaries in 2016 and 2015, respectively. We received $1 million and $17 million in dividends from our unregulated subsidiaries during 2016 and 2015, respectively. We did not receive dividends from our subsidiaries in 2014. See further discussion in Notes to Consolidated Financial Statements, Note 19, “Commitments and Contingencies—Regulatory Capital Requirements and Dividend Restrictions,” and Note 22, “Condensed Financial Information of Registrant—Note C - Dividends and Capital Contributions.”

Credit Facility. Refer to Note 12, “Debt,” for a detailed discussion of our Credit Facility.

Shelf Registration Statement. We have a shelf registration statement on file with the Securities and Exchange Commission to register an unlimited amount of any combination of debt or equity securities in one or more offerings. Specific information regarding the terms and securities being offered will be provided at the time of an offering. Proceeds from future offerings are expected to be used for general corporate purposes, including, but not limited to, the repayment of debt, investments in or extensions of credit to our subsidiaries and the financing of possible acquisitions or business expansion.

Uses

Regulatory Capital Requirements. In 2016, 2015, and 2014, we contributed capital amounting to $338 million, $320 million, and $248 million, respectively, to our health plans subsidiaries to satisfy statutory net worth requirements. For a comprehensive discussion of this topic, refer to Notes to Consolidated Financial Statements, Note 19, “Commitments and Contingencies—Regulatory Capital Requirements and Dividend Restrictions.”

Acquisitions. In 2016, 2015, and 2014, we paid $48 million, $450 million, and $44 million, respectively, for businesses or assets acquired in business combinations. Consistent with our business strategy, we will continue to evaluate acquisition opportunities.

States’ Budgets. From time to time, the states in which our health plans operate may delay premium payments. For example, the state of Illinois is currently operating without a budget for its current fiscal year. As of December 31, 2016, our Illinois health plan served approximately 195,000 members, and recognized premium revenue of approximately $601 million for the year ended December 31, 2016. As of February 24, 2017, the state of Illinois owed us approximately $68 million for certain October, November and December 2016 premiums.

In another example, the Commonwealth of Puerto Rico’s fiscal plan, issued on October 14, 2016, reported that current revenues are insufficient to support existing current operations and debt service. While the Commonwealth reports that it will prioritize health care spending, it stresses the need to address the cap on federal matching funds it receives for its participation in the Medicaid program. Among the fiscal issues expected to further exacerbate the Commonwealth’s current debt crisis is the depletion of ACA funds, estimated to occur in the Commonwealth’s fiscal year 2018. As of December 31, 2016, our Puerto Rico health plan served approximately 330,000 members and recorded premium revenue of approximately $726 million for the year ended December 31, 2016. As of February 24, 2017, the Commonwealth is current with its premium payments.

Convertible Senior Notes. Refer to Note 12, “Debt,” for a detailed discussion of our Convertible Senior Notes. Both our 1.125% Notes and our 1.625% Notes are convertible into cash prior to their respective maturity dates under certain circumstances, one of which relates to the closing price of our common stock over a specified period. We refer to this conversion trigger as the stock price trigger. The stock price trigger for the 1.125% Notes is $53.00 per share. The 1.125% Notes met this trigger in the quarter ended December 31, 2016, and are convertible to cash through at least March 31, 2017. Because the 1.125% Notes may be converted into cash within 12 months, the $471 million carrying amount is reported in current portion of long-term debt as of December 31, 2016. For economic reasons related to the trading market for our 1.125% Notes, we believe that the amount of the notes that may be converted over the next twelve months, if any, will not be significant. However, if the trading market for our 1.125% Notes becomes closed or restricted due to market turmoil or other reasons such that the notes cannot be traded, or if the trading price of our 1.125% Notes, which normally trade at a marginal premium to the underlying composite stock-and-interest economic value, no longer includes that marginal premium, holders of our 1.125% Notes may elect to convert the notes to cash.

The stock price trigger for the 1.625% Notes is $75.51 per share. The last reported sale price of our common stock as reported on the New York Stock Exchange on February 24, 2017 was $48.83 per share. As of December 31, 2016, our 1.625% Notes were not convertible. If conversion requests are received, the settlement of the notes must be paid primarily in cash pursuant to the terms of the relevant indentures.

We have sufficient available cash, combined with borrowing capacity available under our Credit Facility, to fund such conversions.

CONTRACTUAL OBLIGATIONS

In the table below, we present our contractual obligations as of December 31, 2016. Some of the amounts included in this table are based on management’s estimates and assumptions about these obligations, including their duration, the possibility of renewal, anticipated actions by third parties, and other factors. Because these estimates and assumptions are necessarily subjective, the contractual obligations we will actually pay in future periods may vary from those reflected in the table.

Additionally, we have a variety of other contractual agreements related to acquiring services used in our operations. However, we believe these other agreements do not contain material noncancelable commitments.

	Total [1]	2017	2018-2019	2020-2021	2022 and after
			(In millions)		
Medical claims and benefits payable	$ 1,929	$ 1,929	$ —	$ —	$ —
Principal amount of senior notes [2]	1,552	—	—	550	1,002
Amounts due government agencies	1,202	1,202	—	—	—
Lease financing obligations	427	17	35	38	337
Interest on long-term debt	376	49	98	85	144
Operating leases	267	63	107	54	43
Purchase commitments	20	10	10	—	—
	$ 5,773	$ 3,270	$ 250	$ 727	$ 1,526

(1) As of December 31, 2016, we have recorded approximately $11 million of unrecognized tax benefits. The table does not contain this amount because we cannot reasonably estimate when or if such amount may be settled. For further information, refer to Notes to Consolidated Financial Statements, Note 14, “Income Taxes.”

(2) Represents the principal amounts due on our 5.375% Senior Notes due 2022, 1.125% Cash Convertible Senior Notes due 2020, and our 1.625% Convertible Senior Notes due 2044 (1.625% Notes). The 1.625% Notes have a contractual maturity date in 2044; however, on specified dates beginning in 2018, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes, as described in Notes to Consolidated Financial Statements, Note 12, “Debt.”

Commitments and Contingencies. We are not a party to off-balance sheet financing arrangements, except for operating leases which are disclosed in Notes to Consolidated Financial Statements, Note 19, “Commitments and Contingencies.”

INFLATION

We use various strategies to mitigate the negative effects of health care cost inflation. Specifically, our health plans try to control medical and hospital costs through contracts with independent providers of health care services. Through these contracted providers, our health plans emphasize preventive health care and appropriate use of specialty and hospital services. There can be no assurance, however, that our strategies to mitigate health care cost inflation will be successful. Competitive pressures, new health care and pharmaceutical product introductions, demands from health care providers and customers, applicable regulations, or other factors may affect our ability to control health care costs.

COMPLIANCE COSTS

Our health plans are regulated by both state and federal government agencies. Regulation of managed care products and health care services is an evolving area of law that varies from jurisdiction to jurisdiction. Regulatory agencies generally have discretion to issue regulations and interpret and enforce laws and rules. Changes in applicable laws and rules occur frequently. Compliance with such laws and rules may lead to additional costs related to the implementation of additional systems, procedures and programs that we have not yet identified.

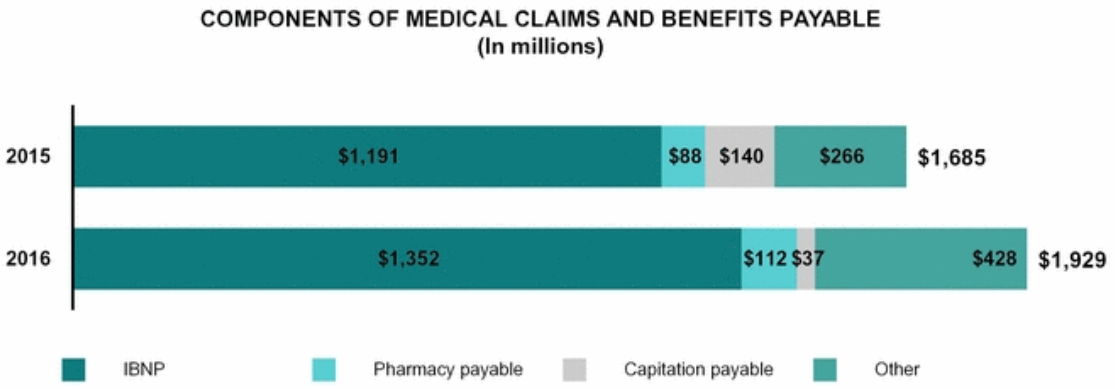
CRITICAL ACCOUNTING ESTIMATES

When we prepare our consolidated financial statements, we use estimates and assumptions that may affect reported amounts and disclosures. Actual results could differ from these estimates. Our most significant accounting estimates relate to:

- *Health Plans segment medical claims and benefits payable.* See discussion below, and refer to Notes to Consolidated Financial Statements, Note 11, “Medical Claims and Benefits Payable.”

- *Health Plans segment contractual provisions that may adjust or limit revenue or profit.* For a comprehensive discussion of this topic, including amounts recorded in our consolidated financial statements, refer to Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies."
- *Health Plans segment quality incentives.* For a comprehensive discussion of this topic, including amounts recorded in our consolidated financial statements, refer to Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies."
- *Molina Medicaid Solutions segment revenue and cost recognition.* For a comprehensive discussion of this topic, refer to Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies."
- *Goodwill and intangible assets, net.* See discussion below, and refer to Notes to Consolidated Financial Statements, Note 9, "Goodwill and Intangible Assets."

MEDICAL CLAIMS AND BENEFITS PAYABLE - HEALTH PLANS SEGMENT



"Other" medical claims and benefits payable include amounts payable to certain providers for which we act as an intermediary on behalf of various state agencies without assuming financial risk. Such receipts and payments do not impact our consolidated statements of income. As of December 31, 2016 and 2015, we recorded non-risk provider payables relating to such intermediary arrangements of approximately $225 million and $167 million, respectively.

The determination of our liability for medical claims and benefits payable is particularly important to the determination of our financial position and results of operations in any given period. Such determination of our liability requires the application of a significant degree of judgment by our management.

As a result, the determination of our liability for medical claims and benefits payable is subject to an inherent degree of uncertainty. Our medical care costs include amounts that have been paid by us through the reporting date, as well as estimated liabilities for medical care costs incurred but not paid by us as of the reporting date. Such medical care cost liabilities include, among other items, unpaid fee-for-service claims, capitation payments owed providers, unpaid pharmacy invoices, and various medically related administrative costs that have been incurred but not paid. We use judgment to determine the appropriate assumptions for determining the required estimates.

The most important element in estimating our medical care costs is our estimate for fee-for-service claims which have been incurred but not paid by us. These fee-for-service costs that have been incurred but have not been paid at the reporting date are collectively referred to as medical costs that are incurred but not paid (IBNP). Our IBNP, as reported on our balance sheet, represents our best estimate of the total amount of claims we will ultimately pay with respect to claims that we have incurred as of the balance sheet date. We estimate our IBNP monthly using actuarial methods based on a number of factors. As indicated in the graph above, our estimated IBNP liability represented $1,352 million of our total medical claims and benefits payable of $1,929 million as of December 31, 2016.

The factors we consider when estimating our IBNP include, without limitation:

- claims receipt and payment experience (and variations in that experience),
- changes in membership,
- provider billing practices,
- health care service utilization trends,
- cost trends,
- product mix,
- seasonality,
- prior authorization of medical services,
- benefit changes,
- known outbreaks of disease or increased incidence of illness such as influenza,
- provider contract changes,
- changes to Medicaid fee schedules, and
- the incidence of high dollar or catastrophic claims.

Our assessment of these factors is then translated into an estimate of our IBNP liability at the relevant measuring point through the calculation of a base estimate of IBNP, a further provision for adverse claims deviation, and an estimate of the administrative costs of settling all claims incurred through the reporting date. The base estimate of IBNP is derived through application of claims payment completion factors and trended PMPM cost estimates.

For the fifth month of service prior to the reporting date and earlier, we estimate our outstanding claims liability based on actual claims paid, adjusted for estimated completion factors. Completion factors seek to measure the cumulative percentage of claims expense that will have been paid for a given month of service as of the reporting date, based on historical payment patterns.

The following table reflects the hypothetical change in our estimate of claims liability as of December 31, 2016 that would have resulted had we changed our completion factors for the fifth through the twelfth months preceding December 31, 2016, by the percentages indicated. A reduction in the completion factor results in an increase in medical claims liabilities. Dollar amounts are in millions.

Increase (Decrease) in Estimated Completion Factors	Increase (Decrease) in Medical Claims and Benefits Payable
(6)%	$ 462
(4)%	308
(2)%	154
2%	(154)
4%	(308)
6%	(462)

For the four months of service immediately prior to the reporting date, actual claims paid are not a reliable measure of our ultimate liability, given the inherent delay between the patient/physician encounter and the actual submission of a claim for payment. For these months of service, we estimate our claims liability based on trended PMPM cost estimates. These estimates are designed to reflect recent trends in payments and expense, utilization patterns, authorized services, and other relevant factors. The following table reflects the hypothetical change in our estimate of claims liability as of December 31, 2016 that would have resulted had we altered our trend factors by the percentages indicated. An increase in the PMPM costs results in an increase in medical claims liabilities. Dollar amounts are in millions.

(Decrease) Increase in Trended Per Member Per Month Cost Estimates	(Decrease) Increase in Medical Claims and Benefits Payable
(6)%	$ (238)
(4)%	(158)
(2)%	(79)
2%	79
4%	158
6%	238

The following per-share amounts are based on a combined federal and state statutory tax rate of 37%, and 56 million diluted shares outstanding for the year ended December 31, 2016. Assuming a hypothetical 1% change in completion factors from those used in our calculation of IBNP at December 31, 2016, net income for the year ended December 31, 2016 would increase or decrease by approximately $49 million, or $0.86 per diluted share. Assuming a hypothetical 1% change in PMPM cost estimates from those used in our calculation of IBNP at December 31, 2016, net income for the year ended December 31, 2016 would increase or decrease by approximately $25 million, or $0.44 per diluted share. The corresponding figures for a 5% change in completion factors and PMPM cost estimates would be $243 million, or $4.32 per diluted share, and $125 million, or $2.22 per diluted share, respectively.

It is important to note that any change in the estimate of either completion factors or trended PMPM costs would usually be accompanied by a change in the estimate of the other component, and that a change in one component would almost always compound rather than offset the resulting distortion to net income. When completion factors are *overestimated*, trended PMPM costs tend to be *underestimated*. Both circumstances will create an overstatement of net income. Likewise, when completion factors are *underestimated*, trended PMPM costs tend to be *overestimated*, creating an understatement of net income. In other words, changes in estimates involving both completion factors and trended PMPM costs will usually act to drive estimates of claims liabilities and medical care costs in the same direction. If completion factors were overestimated by 1%, resulting in an overstatement of net income by approximately $49 million, it is likely that trended PMPM costs would be underestimated, resulting in an additional overstatement of net income.

After we have established our base IBNP reserve through the application of completion factors and trended PMPM cost estimates, we then compute an additional liability, once again using actuarial techniques, to account for adverse deviation in our claims payments for which the base actuarial model is not intended to and does not account. We refer to this additional liability as the provision for adverse claims deviation. The provision for adverse claims deviation is a component of our overall determination of the adequacy of our IBNP. It is intended to capture the potential inadequacy of our IBNP estimate as a result of our inability to adequately assess the impact of factors such as changes in the speed of claims receipt and payment, the relative magnitude or severity of claims, known outbreaks of disease such as influenza, our entry into new geographical markets, our provision of services to new populations such as the aged, blind or disabled, changes to state-controlled fee schedules upon which a large proportion of our provider payments are based, modifications and upgrades to our claims processing systems and practices, and increasing medical costs. Because of the complexity of our business, the number of states in which we operate, and the need to account for different health care benefit packages among those states, we make an overall assessment of IBNP after considering the base actuarial model reserves and the provision for adverse claims deviation.

We also include in our IBNP liability an estimate of the administrative costs of settling all claims incurred through the reporting date.

The development of IBNP is a continuous process that we monitor and refine on a monthly basis as additional claims payment information becomes available. As additional information becomes known to us, we adjust our actuarial model accordingly.

On a monthly basis, we review and update our estimated IBNP and the methods used to determine that liability. Any adjustments, if appropriate, are reflected in the period known. While we believe our current estimates are adequate, we have in the past been required to increase significantly our claims reserves for periods previously reported, and

may be required to do so again in the future. Any significant increases to prior period claims reserves would materially decrease reported earnings for the period in which the adjustment is made.

In our judgment, the estimates for completion factors will likely prove to be more accurate than trended PMPM cost estimates because estimated completion factors are subject to fewer variables in their determination. Specifically, completion factors are developed over long periods of time, and are most likely to be affected by changes in claims receipt and payment experience and by provider billing practices. Trended PMPM cost estimates, while affected by the same factors, will also be influenced by health care service utilization trends, cost trends, product mix, seasonality, prior authorization of medical services, benefit changes, outbreaks of disease or increased incidence of illness, provider contract changes, changes to Medicaid fee schedules, and the incidence of high dollar or catastrophic claims. As discussed above, however, changes in estimates involving trended PMPM costs will almost always be accompanied by changes in estimates involving completion factors, and vice versa. In such circumstances, changes in estimation involving both completion factors and trended PMPM costs will act to drive estimates of claims liabilities (and therefore medical care costs) in the same direction.

Refer to Notes to Consolidated Financial Statements, Note 11, “Medical Claims and Benefits Payable,” for additional information regarding the specific factors used to determine our changes in estimates of IBNP, as well as a table presenting the components of the change in our medical claims and benefits payable, for all periods presented in the accompanying consolidated financial statements.

GOODWILL AND INTANGIBLE ASSETS, NET

At December 31, 2016, goodwill and intangible assets, net, represented approximately 10% of total assets and 46% of total stockholders’ equity, compared with 10% and 41%, respectively, at December 31, 2015.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of net assets acquired in business combinations. Goodwill is not amortized, but is subject to an annual impairment test. We are required to test at least annually for impairment, or more frequently if adverse events or changes in circumstances indicate that the asset may be impaired. Such events or circumstances may include experienced or expected operating cash-flow deterioration or losses, significant loss of membership, loss of state funding, loss of state contracts, and other factors.

We conduct our required annual impairment testing of goodwill during the fourth quarter. When testing goodwill for impairment, we may first assess qualitative factors, such as industry and market factors, cost factors, and changes in overall performance, to determine if it is more likely than not that the carrying value of a reporting unit exceeds its estimated fair value. If our qualitative assessment indicates that goodwill impairment is more likely than not, we perform additional quantitative analysis. We may also elect to skip the qualitative testing and proceed directly to the quantitative testing. We believe that the dynamic economic and political environments in which we operate often necessitate the performance of the quantitative test to prove that goodwill is not impaired on an annual basis.

Under the quantitative test we first measure the fair values of our reporting units and compare them to the carrying values of the respective units, including goodwill. Second, if the fair value is less than the carrying value of the reporting unit, then the implied value of goodwill would be calculated and compared with the carrying amount of goodwill to determine the impairment charge, if any.

We estimate the fair values of our reporting units using discounted cash flows. In the discounted cash flow analyses, we must make assumptions about a wide variety of internal and external factors. Significant assumptions include financial projections of free cash flow (including significant assumptions about operations, capital requirements and income taxes), long-term growth rates for determining terminal value beyond the discretely forecasted periods, and discount rates. We use a discount rate that corresponds to a market-based weighted-average cost of capital and terminal growth rates that correspond to long-term growth prospects, consistent with the long-term inflation rate.

The fair value of our reporting units with significant goodwill generally exceeded carrying amounts substantially, by margins of greater than 100%. At December 31, 2016, the fair values of our Illinois health plan, Pathways subsidiary, and Molina Medicaid Solutions segment exceeded their carrying amounts by 42%, 54%, and 70%, respectively. The Illinois health plan acquired significant additional membership in 2016. As these members transition to managed care, we will continue to monitor the plan’s future health care costs and expected cash flows. At our Pathways subsidiary, we expect to leverage certain behavioral health capabilities to expand the revenue and

profit margin of our Health Plans segment. Since we acquired Pathways in late 2015, we continue to integrate its operations and develop intersegment services. At the Molina Medicaid Solutions segment, one of the factors considered in the discounted cash flow model is the procurement of new state MMIS contracts. Since our acquisition of this business in 2010, we have entered into three contracts to provide new or replacement MMIS. Our existing state MMIS contracts have terms that currently extend to 2018 through 2025, before renewal options.

Key assumptions in our cash flow projections, including changes in membership, premium rates, health care and operating cost trends, contract renewals and the procurement of new contracts, and synergies expectations relating to newly acquired businesses, are consistent with those used in our long-range business plan and annual planning process. If these assumptions differ from actual results, the outcome of our goodwill impairment tests could be adversely affected. Goodwill impairment tests completed in each of the last three years did not result in an impairment loss.

Intangible Assets

Finite-lived, separately-identified intangible assets acquired in business combinations are assets that represent future expected benefits but lack physical substance (such as purchased contract rights and provider contracts). Our intangible assets are subject to impairment tests when events or circumstances indicate that a finite-lived intangible asset's (or asset group's) carrying value may not be recoverable. Consideration is given to a number of potential impairment indicators. For example, our health plan subsidiaries have generally been successful in obtaining the renewal by amendment of their contracts in each state prior to the actual expiration of their contracts. However, there can be no assurance that these contracts will continue to be renewed.

Following the identification of any potential impairment indicators, to determine whether an impairment exists, we would compare the carrying amount of a finite-lived intangible asset with the undiscounted cash flows that are expected to result from the use of the asset or related group of assets. If it is determined that the carrying amount of the asset is not recoverable, the amount by which the carrying value exceeds the estimated fair value is recorded as an impairment.

No significant impairment charges relating to long-lived assets, including intangible assets, were recorded in the years ended December 31, 2016, 2015, or 2014.

SUPPLEMENTAL INFORMATION

FINANCIAL MEASURES THAT SUPPLEMENT U.S. GAAP (NON-GAAP FINANCIAL MEASURES)

We use these non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry.

EBITDA*

We believe that EBITDA* is particularly helpful in assessing our ability to meet the cash demands of our operating units. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to EBITDA*.

	Year Ended December 31,		
	2016	2015	2014
	(In millions)		
Net income	$ 52	$ 143	$ 62
Adjustments:			
Depreciation, and amortization of intangible assets and capitalized software	161	120	114
Interest expense	101	66	57
Income tax expense	153	179	72
EBITDA*	$ 467	$ 508	$ 305

ADJUSTED NET INCOME* AND ADJUSTED NET INCOME PER SHARE*

We believe that adjusted net income* and adjusted net income per diluted share* is very helpful in assessing our financial performance exclusive of the non-cash impact of the amortization of purchased intangibles. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to adjusted net income*.

	Year Ended December 31,					
	2016		2015		2014	
	(In millions, except diluted per-share amounts)					
	Amount	Per share	Amount	Per share	Amount	Per share
Net income	$ 52	$ 0.92	$ 143	$ 2.58	$ 62	$ 1.29
Adjustment:						
Amortization of intangible assets	32	0.57	18	0.32	20	0.42
Income tax effect [1]	(12)	(0.21)	(7)	(0.12)	(7)	(0.15)
Amortization of intangible assets, net of tax effect	20	0.36	11	0.20	13	0.27
Adjusted net income*[2]	$ 72	$ 1.28	$ 154	$ 2.78	$ 75	$ 1.56

(1)Income tax effect of adjustments calculated at the blended federal and state statutory tax rate of 37%.

(2)Beginning in the first quarter of 2016, we revised our calculation of adjusted net income*. We no longer subtract “Amortization of convertible senior notes and lease financing obligations” from net income to arrive at adjusted net income*. We made this change because various capital transactions completed in 2015 reduced our relative reliance on convertible notes and lease financing as sources of capital. We believe that this change enhances the comparability of these non-GAAP measures with the corresponding non-GAAP measures used by our competitors. All periods presented conform to this presentation.

OTHER FINANCIAL DATA

SELECTED FINANCIAL DATA

(In millions, except per-share amounts)

	Year Ended December 31,

Weighted average shares outstanding:					
Basic	55	52	47	46	46
Diluted	56	56	48	47	47

(1) Service revenue and cost of service revenue include revenue and costs generated by our Pathways subsidiary, which was acquired on November 1, 2015.

(2) Income (loss) from discontinued operations is presented net of income tax expense (benefit), which was insignificant in 2016, 2015 and 2014, and $(10), and $(1), in 2013 and 2012, respectively.

(3) Source data for calculations in thousands.

	December 31,				
	2016	2015	2014	2013	2012
Balance Sheet Data:					
Cash and cash equivalents	$ 2,819	$ 2,329	$ 1,539	$ 936	$ 796
Total assets	7,449	6,576	4,435	2,988	1,901
Long-term debt, including current portion [1]	1,645	1,609	887	770	261
Total liabilities	5,800	5,019	3,425	2,095	1,119
Stockholders' equity	1,649	1,557	1,010	893	782

(1) Includes senior notes, lease financing obligations, and other long-term debt.

STOCK REPURCHASE PROGRAMS

Purchases of common stock made by us, or on our behalf during the quarter ended December 31, 2016, including shares withheld by us to satisfy our employees' income tax obligations, are set forth below:

	Total Number of Shares Purchased [1]	Average Price Paid per Share [1]	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs [2]	Approximate Dollar Value of Shares Authorized to Be Purchased Under the Plans or Programs [2]
October 1 — October 31	185	$ 58.32	—	$ 50,000,000
November 1 — November 30	329	$ 53.94	—	$ 50,000,000
December 1 — December 31	339	$ 52.69	—	$ 50,000,000
	853	$ 54.39	—	

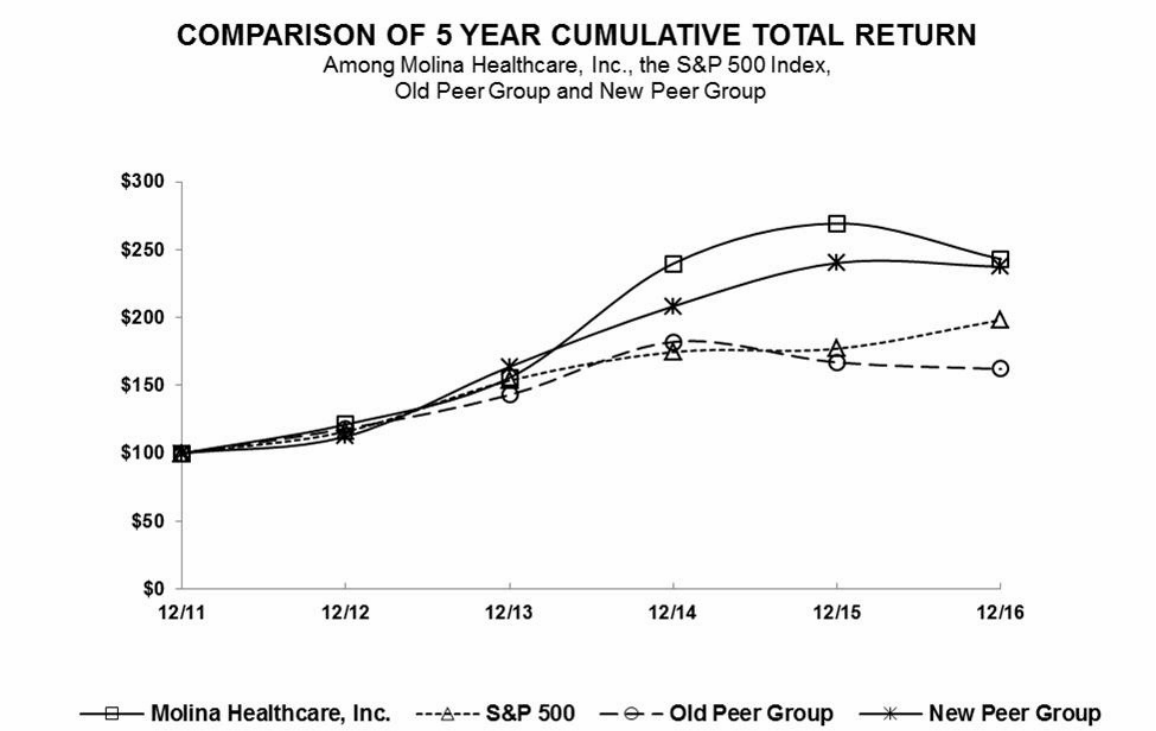
(1) During the quarter ended December 31, 2016, we withheld 853 shares of common stock under our 2011 Equity Incentive Plan to settle our employees' income tax obligations.

(2) In December 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. We did not repurchase any shares under this program, which expired without renewal on December 31, 2016.

STOCK PERFORMANCE GRAPH

The following graph and related discussion are being furnished solely to accompany this Annual Report on Form 10-K pursuant to Item 201(e) of Regulation S-K and shall not be deemed to be "soliciting materials" or to be "filed" with the U.S. Securities and Exchange Commission (SEC) (other than as provided in Item 201) nor shall this information be incorporated by reference into any future filing under the Securities Act or the Exchange Act, whether made before or after the date hereof and irrespective of any general incorporation language contained therein, except to the extent that we specifically incorporate it by reference into a filing.

The following line graph compares the percentage change in the cumulative total return on our common stock against the cumulative total return of the Standard & Poor's Corporation Composite 500 Index (S&P 500) and a peer group index for the five-year period from December 31, 2011 to December 31, 2016. The comparison assumes $100 was invested on December 31, 2011, in our common stock and in each of the foregoing indices and assumes reinvestment of dividends. The stock performance shown on the graph below represents historical stock performance and is not necessarily indicative of future stock price performance.



The old peer group index, used in last year's Annual Report on Form 10-K and also set forth above, consists of Brookdale Senior Living, Inc. (BKD), Catamaran Corporation (CTRX), Centene Corporation (CNC), Community Health Systems, Inc. (CYH), DaVita HealthCare Partners, Inc. (DVA), Health Net, Inc. (HNT), Kindred Healthcare, Inc. (KND), Laboratory Corporation of America Holdings (LH), Life Point Hospitals, Inc. (LPNT), Magellan Health, Inc. (MGLN), Omnicare, Inc. (OCR), Quest Diagnostics, Inc. (DGX), Select Medical Holdings Corporation (SEM), Team Health Holdings, Inc. (TMH), Tenet Healthcare Corporation (THC), Universal American Corporation (UAM), Universal Health Services, Inc. (UHS) and WellCare Health Plans, Inc. (WCG).

The new peer group index consists of Centene Corporation (CNC), Cigna Corporation (CI), DaVita HealthCare Partners, Inc. (DVA), Humana Inc. (HUM), Magellan Health, Inc. (MGLN), Team Health Holdings, Inc. (TMH), Tenet Healthcare Corporation (THC), Triple-S Management Corporation (GTS), Universal American Corporation (UAM), Universal Health Services, Inc. (UHS) and WellCare Health Plans, Inc. (WCG).

STOCK PRICE RANGE AND DIVIDENDS

Our common stock is listed on the New York Stock Exchange under the trading symbol “MOH.” As of February 24, 2017, there were approximately 120 holders of record of our common stock.

To date we have not paid cash dividends on our common stock. We currently intend to retain any future earnings to fund our projected business growth. However, we intend to periodically evaluate our cash position to determine whether to pay a cash dividend in the future.

Our ability to pay dividends is partially dependent on, among other things, our receipt of cash dividends from our regulated subsidiaries. The ability of our regulated subsidiaries to pay dividends to us is limited by the state departments of insurance in the states in which we operate or may operate, as well as requirements of the government-sponsored health programs in which we participate. Additionally, the indentures governing our outstanding senior notes and the credit agreement governing the revolving credit facility contain various covenants that limit our ability to pay dividends on our common stock.

Any future determination to pay dividends will be at the discretion of our board of directors and will depend upon, among other factors, our results of operations, financial condition, capital requirements and contractual and regulatory restrictions. For more information regarding restrictions on the ability of our regulated subsidiaries to pay dividends to us, please see Notes to Consolidated Financial Statements, Note 19, “Commitments and Contingencies—Regulatory Capital Requirements and Dividend Restrictions.”

PROPERTIES

As of December 31, 2016, the Health Plans segment leased a total of 89 facilities, the Molina Medicaid Solutions segment leased a total of 13 facilities and the Other segment leased a total of 289 facilities. We own a 186,000 square-foot office building in Troy, Michigan and a 24,000 square-foot mixed use (office and clinic) facility in Pomona, California under our Health Plans segment. We own a 26,700 square foot data center in Albuquerque, New Mexico and 40 properties in Pennsylvania, which are primarily residential housing facilities, under our Other segment. While we believe our current and anticipated facilities will be adequate to meet our operational needs for the foreseeable future, we are continuing to periodically evaluate our employee and operational growth prospects to determine if additional space is required, and where it would be best located.

EMPLOYEES

As of December 31, 2016, we had approximately 21,000 employees. Our employee base is multicultural and reflects the diverse membership we serve.

AVAILABLE INFORMATION

Dr. C. David Molina founded our Company in 1980 as a provider organization serving low-income families in Southern California. We were originally organized in California as a holding company for our initial health plan and reincorporated in Delaware in 2002. Our principal executive offices are located at 200 Oceangate, Suite 100, Long Beach, California 90802, and our telephone number is (562) 435-3666.

You can access our website at *www.molinahealthcare.com* to learn more about our Company. From that site, you can download and print copies of our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K, along with amendments to those reports. You can also download our Corporate Governance Guidelines, Board of Directors committee charters, and Code of Business Conduct and Ethics. We make periodic reports and amendments available, free of charge, as soon as reasonably practicable after we file or furnish these reports to the SEC. We will also provide a copy of any of our corporate governance policies published on our website free of charge, upon request. To request a copy of any of these documents, please submit your request to: Molina Healthcare, Inc., 200 Oceangate, Suite 100, Long Beach, California 90802, Attn: Investor Relations. Information on or linked to our website is neither part of nor incorporated by reference into this Annual Report on Form 10-K or any other SEC filings.

RISK FACTORS

This Annual Report on Form 10-K and the documents we incorporate by reference in this report contain "forward-looking statements" as discussed in the Forward-Looking Statements section.

The risk factors below should be considered not only with regard to the information contained in this annual report, but also with regard to the information and statements in the other periodic or current reports we file with the SEC, as well as our press releases, presentations to securities analysts or investors, or other communications made by or with the approval of one of our executive officers. No assurance can be given that we will actually achieve the results contemplated or disclosed in our forward-looking statements. Such statements may turn out to be wrong due to the inherent uncertainties associated with future events. Accordingly, you should not place undue reliance on our forward-looking statements, which reflect management's analyses, judgments, beliefs, or expectations only as of the date they are made.

The risks and uncertainties described below are those that we currently believe may materially affect us. Additional risks and uncertainties not currently known to us or that we currently deem insignificant may also affect our business and operations. As such, you should not consider this list to be a complete statement of all potential risks or uncertainties. Except to the extent otherwise required by federal securities laws, we do not undertake to address or update forward-looking statements in future filings or communications regarding our business or operating results, and do not undertake to address how any of these factors may have caused results to differ from discussions or information contained in previous filings or communications.

Risks Related to Our Health Plans Segment

We operate in an unstable political environment which creates uncertainties with regard to the sources and amounts of our revenues, volatility with regard to the amount of our medical costs, and vulnerability to unforeseen programmatic or regulatory changes.

As a result of the election of President Trump and the GOP control of both houses of Congress, there is currently a great deal of discussion and debate about the repeal and replacement of the ACA. As a result, the future of the ACA and its underlying programs are subject to substantial uncertainty, making long-term business planning exceedingly difficult. We are unable to predict with any degree of certainty whether the ACA will be modified or repealed in its entirety, and if it is repealed, what it will be replaced with; nor are we able to predict when any such changes, if enacted, would become effective.

Currently, there are a number of different legislative proposals being considered, some of which would involve significantly reduced federal spending on the Medicaid program, and constitute a fundamental change in the federal role in health care. These proposals include elements such as the following: ending the entitlement nature of Medicaid (and perhaps Medicare as well) by capping future increases in federal health spending for these programs, and shifting much more of the risk for health costs in the future to states and consumers; reversing the ACA's expansion of Medicaid that enables states to cover low-income childless adults; changing Medicaid to a state

block grant program, including potentially capping spending on a per-enrollee basis (a "per capita cap"); prohibiting the federal government from operating Marketplaces; eliminating the advanced premium tax credits, and cost-sharing reductions for low income individuals who purchase their health insurance through the Marketplaces; expanding and encouraging the use of private health savings accounts; providing for insurance plans that offer fewer and less extensive health insurance benefits than under the ACA's essential health benefits package, including broader use of catastrophic coverage plans; establishing and funding high risk pools or reinsurance programs for individuals with chronic or high cost conditions; allowing insurers to sell insurance across state lines; and numerous other potential changes and reforms. Changes to or the repeal of the ACA, or the adoption of new health care regulatory laws, could have a material adverse effect on our business, financial condition, cash flows or results of operations.

The Medicaid Expansion could be reversed.

In the states that have elected to participate, the ACA provided for the expansion of the Medicaid program to offer eligibility to nearly all low-income people under age 65 with incomes at or below 138% of the federal poverty line. Since January 1, 2014, our health plans in California, Illinois, Michigan, New Mexico, Ohio, and Washington have participated in the Medicaid Expansion program under the ACA. At December 31, 2016, our membership included approximately 673,000 Medicaid Expansion members, or 16% of our total membership. If the Medicaid Expansion is reversed by repeal of the ACA, we could lose this membership, which could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

The Marketplace could be eliminated, or our continued participation in 2018 could become financially unsustainable.

The ACA authorized the creation of marketplace insurance exchanges (the "Marketplace"), allowing individuals and small groups to purchase federally subsidized health insurance. We participate in the individual Marketplace in nine states. As of December 31, 2016, our Marketplace membership represented 13% of our total membership, or approximately 526,000 members. Our membership in 2017 is even higher, with 920,000 members as of January 31, 2017. The risk of material variances between actual results and our pricing assumptions is compounded by increased uncertainty created by competitors exiting the Marketplace, unknown impacts of legislative and/or regulatory changes, and changes to the risk transfer algorithm.

A number of larger commercial insurance plans, including most recently, Humana Inc., have announced their intention to discontinue their participation in the Marketplace. The perceived instability and impending changes in the Marketplace could further promote reduced participation among the uninsured. Further, the withdrawal of cost sharing subsidiaries and/or premium tax credits, the elimination of the individual mandate to purchase health insurance, the use of special enrollment periods, or any announcement that some or all of our health plans will be leaving the Marketplace for 2018, could additionally impact Marketplace enrollment. These market and political dynamics may increase the risk that our Marketplace products will be selected by individuals who have a higher risk profile or utilization rate than we anticipated when we established the pricing for our Marketplace products, leading to financial losses.

In addition, during 2016 our results were severely impacted by a risk transfer methodology that we believe penalizes comparatively efficient and affordable health plans like ours. That same flawed methodology is also in place for 2017 (although we are advocating for its immediate change). If we fail to accurately project the adverse impact of the risk transfer methodology, our results in 2017 could be adversely and materially affected.

The Medicare-Medicaid Duals Demonstration Pilot Programs could be discontinued or altered, resulting in a loss of premium revenue.

To coordinate care for those who qualify to receive both Medicare and Medicaid services (the "dual eligibles"), and to deliver services to these individuals in a more financially efficient manner, under the direction of CMS some states implemented demonstration pilot programs to integrate Medicare and Medicaid services for dual eligible individuals. The health plans participating in such demonstrations are referred to as Medicare-Medicaid Plans (MMPs). We operate MMPs in six states: California, Illinois, Michigan, Ohio, South Carolina, and Texas. At December 31, 2016, our membership included approximately 51,000 integrated MMP members, representing just over 1% of our total membership. However, the capitation payments paid to us for dual eligible is significantly higher than the capitation payments for other members, representing 8% of our total premium revenues in 2016. If the states running the MMP pilot programs conclude that the programs are not delivering better coordinated care and reduced cost, they could decide to discontinue the programs, or to substantially alter the programs, resulting in a reduction in our premium revenues.

Continuing changes in health care laws, and in the health care industry, make it difficult to develop actuarially sound rates.

Comprehensive changes to the U.S. health care system make it more difficult for us to manage our business, and increase the likelihood that the assumptions we make with respect to our future operations and results will prove to be inaccurate. The continuing pace of change has made it difficult for us to develop actuarially sound rates because we have limited historical information on which to develop these rates. In the absence of significant historical information to develop actuarial rates, we must make certain assumptions. These assumptions may subsequently prove to be inaccurate. For example, rates of utilization could be significantly higher than we projected, or the assumptions of policymakers about the amount of savings that could be achieved through the use of utilization management in managed care could be flawed. Moreover, our lack of actuarial experience for a particular program, region, or population, could cause us to set our reserves at an inadequate level.

We are dependent upon a small number of state Medicaid contracts for the majority of our revenue.

If the responsive bids of our health plans for new or renewed Medicaid contracts are not successful, or if our government contracts are terminated or are not renewed, our premium revenues could be materially reduced and our operating results could be negatively impacted.

Many of our government contracts are subject to periodic competitive bidding. In 2017, we expect to participate in a competitive bidding process in each of the states of Illinois, Washington, Florida, New Mexico and Texas. In such process, our health plans may face competition from numerous other health plans, many with greater financial resources and greater name recognition than we have. If the responsive bid of one or more of our health plans is not successful, we will lose our Medicaid contract in the applicable state or states, and our premium revenues could be materially reduced as a result. If we are unable to renew, successfully re-bid, or compete for any of our government contracts, or if any of our contracts are terminated or renewed on less favorable terms, our business, financial condition, cash flows, or results of operations could be adversely affected. Alternatively, even if our responsive bids are successful, the bids may be based upon assumptions regarding enrollment, utilization, medical costs, or other factors which could result in the Medicaid contract being less profitable than we had expected or, in extreme cases, could result in a net loss.

Because we derive our premium revenues from a relatively small number of state health plans, adverse changes in any one of the jurisdictions in which we operate could adversely impact our business, financial condition, cash flows, or results of operations.

We currently derive our premium revenues from 12 state health plans and our health plan in the Commonwealth of Puerto Rico. If we are unable to continue to operate in any of those jurisdictions, or if our current operations in any portion of the jurisdictions we are in are significantly curtailed, our revenues could decrease materially. Our reliance on operations in a limited number of jurisdictions could cause our revenue and profitability to change suddenly and unexpectedly in the event of an abrupt loss of membership, significant rate reductions, a loss of a material contract, legislative actions, changes in Medicaid eligibility methodologies, catastrophic claims, an epidemic, an unexpected increase in utilization, general economic conditions, and similar factors in those jurisdictions. Our inability to continue to operate in any of the jurisdictions in which we currently operate, or a significant change in the nature of our existing operations, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Our health plans segment operates with very low profit margins, and small changes in operating performance or slight changes to our accounting estimates will have a disproportionate impact on our reported net income.

A substantial portion of our premium revenues is subject to risks related to medical cost expenditure floors and corridors, administrative cost and profit ceilings, premium stabilization programs, and cost-plus and performance-based reimbursement programs.

A substantial portion of our premium revenue is subject to contract provisions pertaining to medical cost floors and corridors, administrative cost and profit ceilings, cost-plus reimbursement, premium stabilization programs, and profit-sharing arrangements. Many of these contract provisions are complex, or are poorly or ambiguously drafted, and thus are potentially subject to differing interpretations by ourselves and the relevant government agency with whom we contract. If the applicable government agency disagrees with our interpretation or implementation of a particular contract provisions at issue, we could be required to adjust the amount of our obligations under these provisions and/or make a payment or payments to the government agency. Any interpretation of these contract

provisions that varies from our interpretation and implementation of the provision, or that is inconsistent with our revenue recognition accounting treatment, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

In addition, many of our contracts also contain provisions pertaining to at-risk premiums that require us to meet certain quality performance measures to earn all of our contract revenues. If we are unsuccessful in achieving the stated performance measure, we will be unable to recognize the revenue associated with that measure. Any failure of our health plans to satisfy one of these performance measure provisions could have a material adverse effect on our business, financial condition, cash flows or results of operations.

If we are unable to deliver quality care, and maintain good relations with the physicians, hospitals, and other providers with whom we contract, or if we are unable to enter into cost-effective contracts with such providers, our profitability could be adversely affected.

We contract with physicians, hospitals, and other providers as a means to ensure access to health care services for our members, to manage health care costs and utilization, and to better monitor the quality of care being delivered. We compete with other health plans to contract with these providers. We believe providers select plans in which they participate based on criteria including reimbursement rates, timeliness and accuracy of claims payment, potential to deliver new patient volume and/or retain existing patients, effectiveness of resolution of calls and complaints, and other factors. We cannot be sure that we will be able to successfully attract and retain providers to maintain a competitive network in the geographic areas we serve. In addition, in any particular market, providers could refuse to contract with us, demand higher payments, or take other actions which could result in higher health care costs, disruption to provider access for current members, a decline in our growth rate, or difficulty in meeting regulatory or accreditation requirements.

The Medicaid program generally pays doctors and hospitals at levels well below those of Medicare and private insurance. Large numbers of doctors, therefore, do not accept Medicaid patients. In the face of fiscal pressures, some states may reduce rates paid to providers, which may further discourage participation in the Medicaid program.

In some markets, certain providers, particularly hospitals, physician/hospital organizations, and some specialists, may have significant market positions or even monopolies. If these providers refuse to contract with us or utilize their market position to negotiate favorable contracts which are disadvantageous to us, our profitability in those areas could be adversely affected.

Some providers that render services to our members are not contracted with our health plans. In those cases, there is no pre-established understanding between the provider and our health plan about the amount of compensation that is due to the provider. In some states, the amount of compensation is defined by law or regulation, but in most instances it is either not defined or it is established by a standard that is not clearly translatable into dollar terms. In such instances, providers may believe they are underpaid for their services and may either litigate or arbitrate their dispute with our health plan. The uncertainty of the amount to pay and the possibility of subsequent adjustment of the payment could adversely affect our business, financial condition, cash flows, or results of operations.

Failure to attain profitability in any new start-up operations could negatively affect our results of operations.

Start-up costs associated with a new business can be substantial. For example, to obtain a certificate of authority to operate as a health maintenance organization in most jurisdictions, we must first establish a provider network, have infrastructure and required systems in place, and demonstrate our ability to obtain a state contract and process claims. Often, we are also required to contribute significant capital to fund mandated net worth requirements, performance bonds or escrows, or contingency guaranties. If we are unsuccessful in obtaining the certificate of authority, winning the bid to provide services, or attracting members in sufficient numbers to cover our costs, any new business of ours would fail. We also could be required by the state or commonwealth to continue to provide services for some period of time without sufficient revenue to cover our ongoing costs or to recover our start-up costs.

Even if we are successful in establishing a profitable health plan in a new state or commonwealth, increasing membership, revenues, and medical costs will trigger increased mandated net worth requirements which could substantially exceed the net income generated by the health plan. Rapid growth in an existing state or commonwealth will also result in increased net worth requirements. In such circumstances, we may not be able to fund on a timely basis, or at all, the increased net worth requirements with our available cash resources. The expenses associated with starting up a health plan in a new state or commonwealth, or expanding a health plan in

an existing state or commonwealth could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Difficulties in executing our acquisition strategy could adversely affect our business.

The acquisitions of other health plans and the assignment and assumption of Medicaid contract rights of other health plans have accounted for a significant amount of our growth over the last several years. Although we cannot predict with certainty our rate of growth as the result of acquisitions, we believe that additional acquisitions of all sizes will be important to our future growth strategy. Many of the other potential purchasers of these assets—particularly operators of large commercial health plans—have significantly greater financial resources than we do. Also, many of the sellers may insist on selling assets that we do not want, such as commercial lines of business, or may insist on transferring their liabilities to us as part of the sale of their companies or assets. Even if we identify suitable targets, we may be unable to complete acquisitions on terms favorable to us, or at all, or obtain the necessary financing for these acquisitions. For these reasons, among others, we cannot provide assurance that we will be able to complete favorable acquisitions, especially in light of the volatility in the capital markets over the past several years, or that we will not complete acquisitions that turn out to be unfavorable. Further, to the extent we complete an acquisition, we may be unable to realize the anticipated benefits from such acquisition because of operational factors or difficulty in integrating the acquisition with our existing business. Problems that we may encounter in connection with our integration efforts include the following:

- additional employees who are not familiar with our operations or our corporate culture,
- new provider networks which may operate on terms different from our existing networks,
- additional members who may decide to transfer to other health care providers or health plans,
- disparate information, claims processing, and record-keeping systems and difficulties integrating the acquired businesses on our information technology platform,
- internal controls and accounting policies, including those which require the exercise of judgment and complex estimation processes, such as estimates of claims incurred but not reported, accounting for goodwill, intangible assets, stock-based compensation, and income tax matters, and
- new regulatory schemes, relationships, practices, and compliance requirements.

We are generally required to obtain regulatory approval from one or more state agencies when making acquisitions of health plans. If we seek to acquire a business located in a state in which we do not already operate, we must obtain the necessary licenses to operate in that state. In addition, although we may already operate in a state in which we acquire a new business, we would be required to obtain regulatory approval if, as a result of the acquisition, we will operate in an area of that state in which we did not operate previously. Furthermore, we may be required to renegotiate contracts with the network providers of the acquired business. We may be unable to obtain the necessary governmental approvals, comply with these regulatory requirements or renegotiate the necessary provider contracts in a timely manner, if at all.

The exorbitant cost of specialty drugs and new generic drugs could have a material adverse effect on the level of our medical costs and our results of operations.

Introduction of new high cost specialty drugs and sudden costs spikes for existing drugs increase the risk that the pharmacy cost assumptions used to develop our capitation rates are not adequate to cover the actual pharmacy costs, which jeopardizes the overall actuarial soundness of our rates. Bearing the high costs of new specialty drugs or the high cost inflation of generic drugs without an appropriate rate adjustment or other reimbursement mechanism adversely impacts our financial conditional and operational results. For example, Gilead priced a new hepatitis C drug, Sovaldi, at $84,000 per standard course of therapy in 2014. With the advent of Sovaldi in early 2014, the cost of the drug was generally not factored into our 2014 capitation rates which undermined the actuarial soundness of those rates. Further, the relatively high incidence of hepatitis C in Medicaid populations coupled with the exorbitant cost of Sovaldi created a public health and public financing problem across the country. More recently, the FDA approved the first drug to treat patients with spinal muscular atrophy, Spinraza, in December 2016. After this approval, the distributor of Spinraza announced that one dose will have a list price of $125,000, which means the drug will cost between $650,000 and $750,000 to cover the five or six doses required in the first year, and approximately $375,000 annually thereafter, presumably for the life of the patient. The inordinate cost of Spinraza was not contemplated in the development of our 2017 capitation rates. In addition, evolving regulations and state and federal mandates regarding coverage may impact the ability of our health plans to continue to receive existing price discounts on pharmaceutical products for our members. Other factors affecting our pharmaceutical costs include, but are not limited to, geographic variation in utilization of new and existing pharmaceuticals, and

changes in discounts. Although we will continue to work with state Medicaid agencies in an effort to ensure that we receive appropriate and actuarially sound reimbursement for all new drug therapies and pharmaceuticals trends, there can be no assurance that we will always be successful.

We rely on the accuracy of eligibility lists provided by state governments. Inaccuracies in those lists would negatively affect our results of operations.

Premium payments to our health plans are based upon eligibility lists produced by state governments. From time to time, states require us to reimburse them for premiums paid to us based on an eligibility list that a state later discovers contains individuals who are not in fact eligible for a government sponsored program or are eligible for a different premium category or a different program. Alternatively, a state could fail to pay us for members for whom we are entitled to payment. Our results of operations would be adversely affected as a result of such reimbursement to the state if we make or have made related payments to providers and are unable to recoup such payments from the providers.

The insolvency of a delegated provider could obligate us to pay its referral claims, which could have a material adverse effect on our business, cash flows, or results of operations.

Many of our primary care physicians and a small portion of our specialists and hospitals are paid on a capitated basis. Under capitation arrangements, we pay a fixed amount PMPM to the provider without regard to the frequency, extent, or nature of the medical services actually furnished. Due to insolvency or other circumstances, such providers may be unable to pay claims they have incurred with third parties in connection with referral services provided to our members. The inability of delegated providers to pay referral claims presents us with both immediate financial risk and potential disruption to member care. Depending on states' laws, we may be held liable for such unpaid referral claims even though the delegated provider has contractually assumed such risk. Additionally, competitive pressures may force us to pay such claims even when we have no legal obligation to do so; or we have already paid claims to a delegated provider and such payments cannot be recouped when the delegated provider becomes insolvent. Liabilities incurred or losses suffered as a result of provider insolvency could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Numerous circumstances might lead to inadequate premium rates, or to the inability of Medicaid agencies to pay us according to the terms of our contracts with those agencies.

State and federal budget deficits may result in Medicaid, CHIP, or Medicare funding cuts which could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Nearly all of our premium revenues come from the joint federal and state funding of the Medicaid and CHIP programs. The states in which we operate our health plans regularly face significant budgetary pressures. As discussed below, such budgetary pressures are particularly intense in the Commonwealth of Puerto Rico. State budgetary pressures may result in unexpected Medicaid, CHIP, or Medicare rate cuts which could reduce our revenues and profit margins. Moreover, some federal deficit reduction or entitlement reform proposals would fundamentally change the structure and financing of the Medicaid program. A number of these proposals include both tax increases and spending reductions in discretionary programs and mandatory programs, such as Social Security, Medicare, and Medicaid.

We are unable to determine how any future congressional spending cuts will affect Medicare and Medicaid reimbursement. We believe there will continue to be legislative and regulatory proposals at the federal and state levels directed at containing or lowering the cost of health care that, if adopted, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Receipt of inadequate or significantly delayed premiums could negatively affect our business, financial condition, cash flows, or results of operations.

Our premium revenues consist of fixed monthly payments per member, and supplemental payments for other services such as maternity deliveries. These premiums are fixed by contract, and we are obligated during the contract periods to provide health care services as established by the state governments. We use a large portion of our revenues to pay the costs of health care services delivered to our members. If premiums do not increase when expenses related to medical services rise, our medical margins will be compressed, and our earnings will be negatively affected. A state could increase hospital or other provider rates without making a commensurate increase in the rates paid to us, or could lower our rates without making a commensurate reduction in the rates paid to hospitals or other providers. In addition, if the actuarial assumptions made by a state in implementing a rate or benefit change are incorrect or are at variance with the particular utilization patterns of the members of one or more

of our health plans, our medical margins could be reduced. Any of these rate adjustments in one or more of the states in which we operate could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Furthermore, a state or commonwealth undergoing a budget crisis may significantly delay the premiums paid to one of our health plans. Any significant delay in the monthly payment of premiums to any of our health plans could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

If a state fails to renew its federal waiver application for mandated Medicaid enrollment into managed care or such application is denied, our membership in that state will likely decrease.

States may only mandate Medicaid enrollment into managed care under federal waivers or demonstrations. Waivers and programs under demonstrations are approved for two- to five-year periods and can be renewed on an ongoing basis if the state applies and the waiver request is approved or renewed by CMS. We have no control over this renewal process. If a state in which we operate a health plan does not renew its mandated program or the federal government denies the state's application for renewal, our business would suffer as a result of a likely decrease in membership.

The Commonwealth of Puerto Rico may fail to pay the premiums of our Puerto Rico health plan, which could negatively impact our business, financial condition, cash flows, or results of operations.

The government of Puerto Rico continues to struggle with major fiscal and liquidity challenges. The extreme financial difficulties faced by the Commonwealth may make it impossible for ASES, the Puerto Rico Medicaid agency, to pay our Puerto Rico health plan under the terms of the parties' Medicaid contract. As of December 31, 2016, our Puerto Rico health plan served approximately 330,000 members, and had recognized premium revenue of approximately $191 million in the fourth quarter of 2016, or approximately $64 million per month. A default by ASES on its payment obligations under our Medicaid contract, or a determination by ASES to terminate our contract based on insufficient funds available, could result in our having paid, or in our having to pay, provider claims in amounts for which we are not paid reimbursement, and could make it unfeasible for the Puerto Rico health plan to continue to operate. A default by ASES or termination of our Puerto Rico Medicaid contract could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Pandemics, natural disasters and other health care emergencies may threaten our solvency.

Large-scale medical emergencies in one or more states in which we operate our health plans could significantly increase utilization rates and medical costs.

Large-scale medical emergencies can take many forms and be associated with widespread illness or medical conditions. For example, natural disasters, such as a major earthquake in Los Angeles or Cascadia, or a major hurricane in Florida or South Carolina, could have a significant impact on the health of a large number of our covered members. Other conditions that could impact our members include an influenza epidemic, or newly emergent mosquito-borne illnesses, such as the Zika virus, the West Nile virus, or the Chikungunya virus, conditions for which vaccines may not exist, are not effective, or have not been widely administered. For example, the Zika virus is spreading at epidemic rates in Puerto Rico; a high incidence of Zika cases in Puerto Rico could increase our Puerto Rico's health plan's medical expenses beyond the amounts actuarially factored into its capitation rates.

In addition, federal and state law enforcement officials have issued warnings about potential terrorist activity involving biological or other weapons of mass destruction. All of these conditions, and others, could have a significant impact on the health of the population of wide-spread areas. We seek to set our IBNP reserves appropriately to account for anticipatable spikes in utilization, such as for the flu season. However, if one of our health plan states were to experience a large-scale natural disaster, a viral epidemic or pandemic, a significant terrorism attack, or some other large-scale event affecting the health of a large number of our members, our covered medical expenses in that state would rise, which could have a material adverse effect on our business, cash flows, financial condition, or results of operations.

We measure our performance and adjust our actions based upon financial estimates that are inherently subject to retroactive changes.

A failure to accurately estimate incurred but not reported medical care costs may negatively impact our results of operations.

Because of the time lag between when medical services are actually rendered by our providers and when we receive, process, and pay a claim for those medical services, we must continually estimate our medical claims liability at particular points in time, and establish claims reserves related to such estimates. Our estimated reserves for such "incurred but not paid" (IBNP) medical care costs are based on numerous assumptions. We estimate our medical claims liabilities using actuarial methods based on historical data adjusted for claims receipt and payment experience (and variations in that experience), changes in membership, provider billing practices, health care service utilization trends, cost trends, product mix, seasonality, prior authorization of medical services, benefit changes, known outbreaks of disease or increased incidence of illness such as influenza, provider contract changes, changes to Medicaid fee schedules, and the incidence of high dollar or catastrophic claims. Our ability to accurately estimate claims for our newer lines of business or populations, such as with respect to duals, Medicaid expansion members, Marketplace members, or aged, blind or disabled Medicaid members, is negatively impacted by the more limited experience we have had with those populations.

The IBNP estimation methods we use and the resulting reserves that we establish are reviewed and updated, and adjustments, if deemed necessary, are reflected in the current period. Given the numerous uncertainties inherent in such estimates, our actual claims liabilities for a particular quarter or other period could differ significantly from the amounts estimated and reserved for that quarter or period. Our actual claims liabilities have varied and will continue to vary from our estimates, particularly in times of significant changes in utilization, medical cost trends, and populations and markets served.

If our actual liability for claims payments is higher than estimated, our earnings in any particular quarter or annual period could be negatively affected. Our estimates of IBNP may be inadequate in the future, which would negatively affect our results of operations for the relevant time period. Furthermore, if we are unable to accurately estimate IBNP, our ability to take timely corrective actions may be limited, further exacerbating the extent of the negative impact on our results.

We are subject to retroactive adjustment to our Medicaid premium revenue as a result of retroactive risk adjustment; retroactive changes to contract terms and the resolution of differing interpretations of those terms; the difficulty of estimating performance-based premium; and retroactive adjustments to "blended" premium rates to reflect the actual mix of members captured in those blended rates.

The complexity of some of our Medicaid contract provisions; the desire of state Medicaid agencies in some circumstances to retroactively adjust for the acuity of the medical needs of our members; and state delays in processing rate changes can create uncertainty around the amount of revenue we should recognize.

For example, in February 2017, the New Mexico Human Services Department (HSD) notified us that it has disallowed certain medically related administrative expenses and other items in the computation of its Medicaid Expansion risk corridor; this corridor was effective January 1, 2014, through December 31, 2016. Although we disagree with their contractual interpretations, we deferred premium revenue amounting to approximately $45 million for the year ended December 31, 2016, as a result of this communication, because such revenue is presently subject to refund or adjustment. Of this amount, $29 million relates to dates of service prior to 2016.

In another example, in the fourth quarter of 2016, our California health plan received a contract amendment from the California Department of Healthcare Services that allowed us to deduct certain tax expenses in the computation of its Medicaid Expansion minimum medical loss ratio; this minimum medical loss ratio was effective January 1, 2014, through June 30, 2016. As a result of this contract amendment, we increased premium revenue for the year ended December 31, 2016, by approximately $68 million, of which $35 million related to periods prior to 2016.

Also in the fourth quarter of 2016, the Illinois Medicaid agency reduced our full year 2016 premium capitation payment by approximately $18 million as a result of a program wide risk adjustment that attempted to reduce revenue to health plans serving members with lower than average acuity and to transfer that premium revenue to health plans serving members with higher than average acuity.

In still another example, the California Medicaid agency has yet to share with us certain premium rates related to calendar year 2015 and 2016. We have also not reached agreement with the California Medicaid agency on the final aid category classifications for some members receiving long term services and supports. Since premium rates

vary significantly by aid category, any difference in classification of these members could result in substantial variances in premium revenue between our current estimates and the amounts ultimately realized. The state Medicaid agency in California is also several years behind in its reconciliation and settlement with us of the difference between expenses that it has paid on our behalf to providers of long term services and supports and the amounts that it has withheld from our premium for those expenses.

Any circumstance such as those described above could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

If we fail to accurately predict and effectively manage our medical care costs, our operating results could be materially and adversely affected.

Our profitability depends to a significant degree on our ability to accurately predict and effectively manage our medical care costs. Historically, our medical care ratio, meaning our medical care costs as a percentage of our premium revenue net of premium tax, has fluctuated substantially, and has varied across our state health plans. Because the premium payments we receive are generally fixed in advance and we operate with a narrow profit margin, relatively small changes in our medical care cost ratio can create significant changes in our overall financial results. For example, if our overall medical care ratio of 90.1%, for the year ended December 31, 2016 had been one percentage point higher, or 91.1%, our net loss per diluted share for the year ended December 31, 2016 would have been approximately $0.93 rather than our actual net income per diluted share of $0.92, a difference of $1.85.

Many factors may affect our medical care costs, including:

- the level of utilization of health care services,
- unexpected patterns in the annual flu season,
- increases in hospital costs,
- increased incidences or acuity of high dollar claims related to catastrophic illnesses or medical conditions for which we do not have adequate reinsurance coverage,
- increased maternity costs,
- payment rates that are not actuarially sound,
- changes in state eligibility certification methodologies,
- relatively low levels of hospital and specialty provider competition in certain geographic areas,
- increases in the cost of pharmaceutical products and services,
- changes in health care regulations and practices,
- epidemics,
- new medical technologies, and
- other various external factors.

Many of these factors are beyond our control and could reduce our ability to accurately predict and effectively manage the costs of providing health care services. The inability to forecast and manage our medical care costs or to establish and maintain a satisfactory medical care cost ratio, either with respect to a particular state health plan or across the consolidated entity, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

We operate in a highly regulated environment.

If state regulators do not approve payments of dividends and distributions by our subsidiaries, it may negatively affect our business strategy.

We are a corporate parent holding company and hold most of our assets at, and conduct most of our operations through, direct subsidiaries. As a holding company, our results of operations depend on the results of operations of our subsidiaries. Moreover, we are dependent on dividends or other intercompany transfers of funds from our subsidiaries to meet our debt service and other obligations. The ability of our subsidiaries to pay dividends or make other payments or advances to us will depend on their operating results and will be subject to applicable laws and restrictions contained in agreements governing the debt of such subsidiaries. In addition, our health plan subsidiaries are subject to laws and regulations that limit the amount of dividends and distributions that they can pay to us without prior approval of, or notification to, state regulators. In California, our health plan may dividend, without notice to or approval of the California Department of Managed Health Care, amounts by which its tangible net equity exceeds 130% of the tangible net equity requirement. Our other health plans must give thirty days' advance notice and the opportunity to disapprove "extraordinary" dividends to the respective state departments of insurance for amounts over the lesser of (a) ten percent of surplus or net worth at the prior year end or (b) the net income for the prior year. The discretion of the state regulators, if any, in approving or disapproving a dividend is not clearly defined. Health plans that declare non-extraordinary dividends must usually provide notice to the regulators

ten or fifteen days in advance of the intended distribution date of the non-extraordinary dividend. We received $100 million and $125 million in dividends from our regulated health plan subsidiaries during 2016 and 2015, respectively. We did not receive any dividends from our regulated health plan subsidiaries during 2014, because significant growth across all of our health plans necessitated that the plans retain their cash to meet increasing net worth requirements. The aggregate additional amounts our health plan subsidiaries could have paid us at December 31, 2016 and 2015, without approval of the regulatory authorities, were approximately $201 million and $121 million, respectively. If the regulators were to deny or significantly restrict our subsidiaries' requests to pay dividends to us, the funds available to our company as a whole would be limited, which could harm our ability to implement our business strategy. For example, we could be hindered in our ability to make debt service payments under the senior notes or the revolving credit facility (Credit Facility).

Our use and disclosure of personally identifiable information and other non-public information, including protected health information, is subject to federal and state privacy and security regulations, and our failure to comply with those regulations or to adequately secure the information we hold could result in significant liability or reputational harm.

State and federal laws and regulations including, but not limited to, HIPAA and the Gramm-Leach-Bliley Act, govern the collection, dissemination, use, privacy, confidentiality, security, availability, and integrity of personally identifiable information (PII), including protected health information, or PHI. HIPAA establishes basic national privacy and security standards for protection of PHI by covered entities and business associates, including health plans such as ours. HIPAA requires covered entities like us to develop and maintain policies and procedures for PHI that is used or disclosed, and to adopt administrative, physical, and technical safeguards to protect PHI. HIPAA also implemented the use of standard transaction code sets and standard identifiers that covered entities must use when submitting or receiving certain electronic health care transactions, including activities associated with the billing and collection of health care claims.

Mandatory penalties for HIPAA violations range from $100 to $50,000 per violation, and up to $1.5 million per violation of the same standard per calendar year. A single breach incident can result in violations of multiple standards, resulting in possible penalties potentially in excess of $1.5 million. If a person knowingly or intentionally obtains or discloses PHI in violation of HIPAA requirements, criminal penalties may also be imposed. HIPAA authorizes state attorneys general to file suit under HIPAA on behalf of state residents. Courts can award damages, costs, and attorneys' fees related to violations of HIPAA in such cases. While HIPAA does not create a private right of action allowing individuals to sue us in civil court for HIPAA violations, its standards have been used as the basis for a duty of care in state civil suits such as those for negligence or recklessness in the misuse or breach of PHI.

In addition, HIPAA mandates that the Secretary of HHS conduct periodic compliance audits of HIPAA covered entities for compliance with the HIPAA Privacy and Security Standards. Investigations of violations that indicate willful neglect, for which penalties are now mandatory, are statutorily required. It also tasks HHS with establishing a methodology whereby harmed individuals who were the victims of breaches of unsecured PHI may receive a percentage of the civil monetary penalty fine paid by the violator.

HIPAA further requires covered entities to notify affected individuals "without unreasonable delay and in no case later than 60 calendar days after discovery of the breach" if their unsecured PHI is subject to an unauthorized access, use, or disclosure. If a breach affects 500 patients or more, it must be reported to HHS and local media without unreasonable delay, and HHS will post the name of the breaching entity on its public website. If a breach affects fewer than 500 individuals, the covered entity must log it and notify HHS at least annually. We have experienced HIPAA breaches in the past, including breaches affecting over 500 individuals.

The Health Information Technology for Economic and Clinical Health Act (HITECH Act), a part of the American Recovery and Reinvestment Act of 2009, or ARRA, modified certain provisions of HIPAA by, among other things, extending the privacy and security provisions to business associates, mandating new regulations around electronic medical records, expanding enforcement mechanisms, allowing the state Attorneys General to bring enforcement actions, and increasing penalties for violations. As required by ARRA, the Secretary of HHS has promulgated regulations implementing various provisions of the HITECH Act. The Final Omnibus Rule promulgated by HHS in January 2013, included the Final Breach Notification Rule as well as provisions that apply the HIPAA regulatory scheme to business associates. We anticipate that HHS will promulgate additional rules under the HITECH Act to implement provisions of the statute which were not addressed in the Final Omnibus Rule. The various requirements of the HITECH Act and the Final Omnibus Rule have different compliance dates, and in some cases, the applicable compliance date may depend on the publication of additional rules or guidance by HHS. With respect to those requirements whose compliance dates have passed, we believe that we are in compliance with such provisions. With respect to additional requirements that may be issued in the future by HHS, it is our intention to implement any such new requirements on or before the applicable compliance dates.

New health information standards, whether implemented pursuant to HIPAA, congressional action, or otherwise, could have a significant effect on the manner in which we must handle health care related data, and the cost of complying with standards could be significant. If we do not comply with existing or new laws and regulations related to PHI, PII, or non-public information, we could be subject to criminal or civil sanctions. Any security breach involving the misappropriation, loss, or other unauthorized disclosure or use of confidential member information, whether by us or a third party, such as our vendors, could subject us to civil and criminal penalties, divert management's time and energy, and have a material adverse effect on our business, financial condition, cash flows, or results of operations.

We are subject to extensive fraud and abuse laws that may give rise to lawsuits and claims against us, the outcome of which may have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Because we receive payments from federal and state governmental agencies, we are subject to various laws commonly referred to as "fraud and abuse" laws, including federal and state anti-kickback statutes, prohibited referrals, and the federal False Claims Act, which permit agencies and enforcement authorities to institute a suit against us for violations and, in some cases, to seek treble damages, criminal and civil fines, penalties, and assessments. Violations of these laws can also result in exclusion, debarment, temporary or permanent suspension from participation in government health care programs, or the institution of corporate integrity agreements. Liability under such federal and state statutes and regulations may arise if we know, or it is found that we should have known, that information we provide to form the basis for a claim for government payment is false or fraudulent, and some courts have permitted False Claims Act suits to proceed if the claimant was out of compliance with program requirements. Fraud, waste and abuse prohibitions encompass a wide range of operating activities, including kickbacks or other inducements for referral of members or for the coverage of products (such as prescription drugs) by a plan, billing for unnecessary medical services by a provider, upcoding, payments made to excluded providers, improper marketing, and the violation of patient privacy rights. In particular, there has recently been increased scrutiny by the Department of Justice on health plans' risk adjustment practices, particularly in the Medicare program. Companies involved in public health care programs such as Medicaid and Medicare are required to maintain compliance programs to detect and deter fraud, waste and abuse, and are often the subject of fraud, waste and abuse investigations and audits. The regulations and contractual requirements applicable to participants in these public-sector programs are complex and subject to change. The federal government has taken the position that claims presented in violation of the federal anti-kickback statute may be considered a violation of the federal False Claims Act. In addition, under the federal civil monetary penalty statute, the U.S. Department of Health and Human Services (HHS), Office of Inspector General has the authority to impose civil penalties against any person who, among other things, knowingly presents, or causes to be presented, certain false or otherwise improper claims. *Qui tam* actions under federal and state law can be brought by any individual on behalf of the government. *Qui tam* actions have increased significantly in recent years, causing greater numbers of health care companies to have to defend a false claim action, pay fines, or be excluded from the Medicare, Medicaid, or other state or federal health care programs as a result of an investigation arising out of such action. We have been the subject of *qui tam* actions in the past and other *qui tam* actions may be filed against us in the future. If we are subject to liability under a *qui tam* or other actions, our business, financial condition, cash flows, or results of operations could be adversely affected.

Risks Related to the Operation of Our Molina Medicaid Solutions Segment

We operate in an unstable political environment which creates uncertainties with regard to the sources and amounts of our revenues, volatility with regard to the amount of our medical costs, and vulnerability to unforeseen programmatic or regulatory changes.

If federal spending on the Medicaid program is reduced, populations served by Molina Medicaid Solutions could decline and our revenues could be materially reduced.

As noted above, some of the ACA modifications considered involve significantly reduced federal spending on the Medicaid program. Among the proposals being considered include reversing the ACA's expansion of Medicaid, and changing Medicaid to a state block grant program, possibly including a per capita cap. An end to Medicaid Expansion could lower the populations served by Molina Medicaid Solutions. Changing Medicaid to a state block grant program would turn control of the program to states and cap what the federal government spends on Medicaid each year. Fixed state block grants could mean states will cut benefits or force beneficiaries to take on more cost-sharing. If Medicaid Expansion were reversed and the funding of Medicaid capped, the revenues and cash flows of Molina Medicaid Solutions could decrease materially, and as a result our profitability would be negatively impacted.

We may be unable to retain or renew the state government contracts of the Molina Medicaid Solutions segment on terms consistent with our expectations or at all.

Molina Medicaid Solutions currently provides business processing and information technology development and administrative services to Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and drug rebate administration services in Florida. If we are unable to continue to operate in any of those six jurisdictions, or if our current operations in any of those jurisdictions are significantly curtailed, the revenues and cash flows of Molina Medicaid Solutions could decrease materially, and as a result our profitability would be negatively impacted.

If the responsive bids to RFPs of Molina Medicaid Solutions are not successful, our revenues could be materially reduced and our operating results could be negatively impacted.

The government contracts of Molina Medicaid Solutions may be subject to periodic competitive bidding. In such process, Molina Medicaid Solutions may face competition as other service providers, some with much greater financial resources and greater name recognition, attempt to enter our markets through the competitive bidding process. Molina Medicaid Solutions also anticipates bidding in other states which have issued RFPs for procurement of a new MMIS. If our responsive bids in other states are not successful, we will be unable to grow in a manner consistent with our projections. In addition, we may be unable to support the carrying amount of goodwill we have recorded for this business, because its fair value estimated future cash flows. Even if our responsive bids are successful, the bids may be based upon assumptions or other factors which could result in the contract being less profitable than we had expected or had been the case prior to competitive re-bidding.

Because of the complexity and duration of the services and systems required to be delivered under the government contracts of Molina Medicaid Solutions, there are substantial risks associated with full performance under the contracts.

The state contracts of Molina Medicaid Solutions typically require significant investment in the early stages that is expected to be recovered through billings over the life of the contracts. These contracts involve the construction of new computer systems and communications networks and the development and deployment of complex technologies. Substantial performance risk exists under each contract. Some or all elements of service delivery under these contracts are dependent upon successful completion of the design, development, construction, and implementation phases. Any increased or unexpected costs or delays in connection with the performance of these contracts, including delays caused by factors outside our control, could make these contracts less profitable or unprofitable, which could have an adverse effect on our business, financial condition, cash flows, or results of operations.

If we fail to comply with our state government contracts or government contracting regulations, our business could be adversely affected.

Molina Medicaid Solutions' contracts with state government customers may include unique and specialized performance requirements. In particular, contracts with state government customers are subject to various

procurement regulations, contract provisions, and other requirements relating to their formation, administration, and performance. Any failure to comply with the specific provisions in our customer contracts or any violation of government contracting regulations could result in the imposition of various civil and criminal penalties, which may include termination of the contracts, forfeiture of profits, suspension of payments, imposition of fines, and suspension from future government contracting. Further, any negative publicity related to our state government contracts or any proceedings surrounding them may damage our business by affecting our ability to compete for new contracts. The termination of a state government contract, our suspension from government work, or any negative impact on our ability to compete for new contracts, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Our business may be adversely affected by the transition from traditional fee-for-service to Medicaid managed care.

To reduce expenses, a number of state Medicaid programs are expected to pursue the transition from a fee-for-service focus of their Medicaid programs to a Medicaid managed care focus. A shift in Medicaid payment models from fee-for-service to managed care will require a concomitant shift in the focus of MMIS. In connection with such a transition, MMIS must also make a transition from a system built around claims adjudication to one that performs analytics and can be used to manage Medicaid population health outcomes. If our Molina Medicaid Solutions segment is unable to accomplish this transition, our business, financial condition, cash flows, or results of operations may be adversely affected.

Risks Related to our General Business Operations

We have identified a material weakness in our internal control over financial reporting. If our remedial measures are insufficient to address this material weakness, or if additional material weaknesses or significant deficiencies in our internal control over financial reporting are discovered or occur in the future, our consolidated financial statements may contain material misstatements and we could be required to restate our financial results, which could adversely affect our stock price and result in our inability to maintain compliance with applicable stock exchange listing requirements.

We concluded that there was a material weakness in our internal control over financial reporting as of December 31, 2016, because we determined that a material weakness existed in our internal control over financial reporting relating to the operation of an element of our process for calculating the amount owed to California by our California health plan. More specifically, a Medicaid Expansion contract amendment executed in the fourth quarter of 2016 changed the medical loss ratio corridor formula and such amendment was not initially considered in determining the liability. As a result, we understated net income by $44 million for the year ended December 31, 2016, which is material to our consolidated results for the year ended December 31, 2016. This amount was corrected prior to the issuance of our consolidated financial statements as of and for the year ended December 31, 2016.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. Management evaluated our disclosure controls and procedures and internal control over financial reporting as of December 31, 2016, and concluded that our internal control over financial reporting was ineffective as of December 31, 2016. This Annual Report on Form 10-K reflects management's conclusion regarding the effectiveness of our disclosure controls and procedures and internal control over financial reporting as of December 31, 2016. See “Management and Auditor’s Reports - Management’s Evaluation of Disclosure Controls and Procedures and Management’s Report on Internal Control Over Financial Reporting.” The existence of this issue could adversely affect us, our reputation and investors' perception of us.

We are actively engaged in developing a remediation plan to address the material weakness reported as of December 31, 2016. The remediation efforts we expect to implement include the development of robust protocols to ensure that the control relating to the review of a contractual amendment affecting the computation of the Medicaid Expansion medical loss ratio corridor for our California health plan will operate as designed.

We believe these measures will remediate the material weakness identified above and will strengthen our internal control over financial reporting for the computation of our California Medicaid Expansion medical loss ratio corridor. We currently are targeting to complete the implementation of the control enhancements during 2017. We will test the ongoing operating effectiveness of the new controls subsequent to implementation, and consider the material weakness remediated after the applicable remedial controls operate effectively for a sufficient period of time.

If our remedial measures are insufficient to address the material weakness, or if additional material weaknesses or significant deficiencies in our internal control over financial reporting are discovered or occur in the future, our consolidated financial statements may contain material misstatements and we could be required to restate our financial results, which could adversely affect our stock price and result in our inability to maintain compliance with applicable stock exchange listing requirements.

We are dependent on our executive officers and other key employees.

Our operations are highly dependent on the efforts of our executive officers and other key employees. The loss of their leadership, knowledge, and experience could negatively impact our operations. Our ability to replace any departed executive officer or key employee may be difficult and may take an extended period of time because of the limited number of individuals in the health care industry who have the breadth and depth of skills and experience necessary to operate and expand successfully a business such as ours. Competition to hire from this limited pool is intense, and we may be unable to hire, train, retain, or motivate these personnel. If we are unsuccessful in recruiting, retaining, managing, and motivating such personnel, our business, financial condition, cash flows, or results of operations may be adversely affected.

Ineffective management of our growth may negatively affect our business, financial condition, or results of operations.

We expect to continue to grow our membership and to expand into other markets through acquisitions and other opportunities. Continued rapid growth could place a significant strain on our management and on our other resources. Our ability to manage our growth may depend on our ability to strengthen our management team and attract, train, and retain skilled employees, and our ability to implement and improve operational, financial, and management information systems on a timely basis. If we are unable to manage our growth effectively, our business, financial condition, cash flows, or results of operations could be materially and adversely affected.

An impairment charge with respect to our recorded goodwill, or our finite-lived intangible assets, could have a material impact on our financial results.

As of December 31, 2016, the carrying amounts of goodwill and intangible assets, net, amounted to $620 million, and $140 million, respectively. Intangible assets are amortized generally on a straight-line basis over their estimated useful lives.

Goodwill represents the excess of the purchase price over the fair value of net assets acquired in business combinations. Goodwill is not amortized, but is subject to an annual impairment test. We are required to test at least annually for impairment, or more frequently if adverse events or changes in circumstances indicate that the asset may be impaired. We estimate the fair values of our reporting units using discounted cash flows.

Finite-lived, separately-identified intangible assets acquired in business combinations are assets that represent future expected benefits but lack physical substance (such as purchased contract rights and provider contracts). Following the identification of any potential impairment indicators, to determine whether an impairment exists, we would compare the carrying amount of a finite-lived intangible asset with the undiscounted cash flows that are expected to result from the use of the asset or related group of assets.

Key assumptions in our cash flow projections, including changes in membership, premium rates, health care and operating cost trends, contract renewals and the procurement of new contracts, and synergies expectations relating to newly acquired businesses, are consistent with those used in our long-range business plan and annual planning process. If these assumptions differ from actual results, the outcome of our goodwill impairment tests could be adversely affected.

An event or events could occur that would cause us to revise our estimates and assumptions used in analyzing the value of our goodwill, and intangible assets, net. For example, if the responsive bid of one or more of our health plans is not successful, we will lose our Medicaid contract in the applicable state or states. If such state health plans have recorded goodwill and intangible assets, net, the contract loss would result in a non-cash impairment charge. Additionally, if we are unable to procure new state MMIS contracts, or develop synergies relating to our Pathways acquisition, the outcome of our goodwill impairment tests could be adversely affected and result in a non-cash impairment charge. Such a non-cash impairment charge could have a material adverse impact on our financial results.

We face various risks inherent in the government contracting process that could materially and adversely affect our business and profitability, including periodic routine and non-routine reviews, audits, and investigations by government agencies.

We are subject to various risks inherent in the government contracting process. These risks include routine and non-routine governmental reviews, audits, and investigations, and compliance with government reporting requirements. Violation of the laws, regulations, or contract provisions governing our operations, or changes in interpretations of those laws and regulations, could result in the imposition of civil or criminal penalties, the cancellation of our government contracts, the suspension or revocation of our licenses, the exclusion from participation in government sponsored health programs or MMIS contracts, or the revision and recoupment of past payments made based on audit findings. If we are unable to correct any noted deficiencies, or become subject to material fines or other sanctions, we could suffer a substantial reduction in profitability, and could also lose one or more of our government contracts. In addition, government receivables are subject to government audit and negotiation, and government contracts are vulnerable to disagreements with the government. The final amounts we ultimately receive under government contracts may be different from the amounts we initially recognize in our financial statements.

If we sustain a cyber-attack or suffer privacy or data security breaches that disrupt our operations or result in the dissemination of sensitive personal or confidential information, we could suffer increased costs, exposure to significant liability, reputational harm, loss of business, and other serious negative consequences.

As part of our normal operations, we routinely collect, process, store, and transmit large amounts of data, including sensitive personal information as well as proprietary or confidential information relating to our business or third parties. Computer programmers and hackers may be able to penetrate our network security and misappropriate our confidential information or that of third parties, create system disruptions, or cause shutdowns. They also may be able to develop and deploy viruses, worms, and other malicious software programs that attack our systems or otherwise exploit any security vulnerabilities. Because the techniques used to circumvent security systems can be highly sophisticated and change frequently, often are not recognized until launched against a target, and may originate from less regulated and remote areas around the world, we may be unable to implement adequate preventive measures. Our facilities may also be vulnerable to security incidents or security attacks, acts of vandalism or theft, misplaced or lost data, human errors, acts of malicious insiders, or other similar events that could negatively affect our systems and our and our members' data. The cost to eliminate or address the foregoing security threats and vulnerabilities before or after a cyber-incident could be significant. We may need to expend significant additional resources in the future to continue to protect against potential security breaches or to address problems caused by such attacks or any breach of our systems. Our remediation efforts may not be successful and could result in interruptions, delays, or cessation of service, and loss of members, vendors, and state contracts. In addition, breaches of our security measures and the unauthorized dissemination of sensitive personal information or proprietary information or confidential information about our members could expose our members to the risk of financial or medical identity theft, or expose us or other third parties to a risk of loss or misuse of this information, result in litigation and potential liability for us, damage our reputation, or otherwise have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Any changes to the laws and regulations governing our business, or the interpretation and enforcement of those laws or regulations, could require us to modify our operations and could negatively impact our operating results.

Our business is extensively regulated by the federal government and the states in which we operate. The laws and regulations governing our operations are generally intended to benefit and protect health plan members and providers rather than managed care organizations. The government agencies administering these laws and regulations have broad latitude in interpreting and applying them. These laws and regulations, along with the terms of our government contracts, regulate how we do business, what services we offer, and how we interact with members and the public. For instance, some states mandate minimum medical expense levels as a percentage of premium revenues. These laws and regulations, and their interpretations, are subject to frequent change. The interpretation of certain contract provisions by our governmental regulators may also change. Changes in existing laws or regulations, or their interpretations, or the enactment of new laws or regulations, could reduce our profitability by imposing additional capital requirements, increasing our liability, increasing our administrative and other costs, increasing mandated benefits, forcing us to restructure our relationships with providers, requiring us to implement additional or different programs and systems, or making it more difficult to predict future results. Changes in the interpretation of our contracts could also reduce our profitability if we have detrimentally relied on a prior interpretation.

Our business depends on our information and medical management systems, and our inability to effectively integrate, manage, and keep secure our information and medical management systems could disrupt our operations.

Our business is dependent on effective and secure information systems that assist us in, among other things, processing provider claims, monitoring utilization and other cost factors, supporting our medical management techniques, and providing data to our regulators. Our providers also depend upon our information systems for membership verifications, claims status, and other information. If we experience a reduction in the performance, reliability, or availability of our information and medical management systems, our operations, ability to pay claims, and ability to produce timely and accurate reports could be adversely affected. In addition, if the licensor or vendor of any software which is integral to our operations were to become insolvent or otherwise fail to support the software sufficiently, our operations could be negatively affected.

Our information systems and applications require continual maintenance, upgrading, and enhancement to meet our operational needs. Moreover, our acquisition activity requires transitions to or from, and the integration of, various information systems. If we experience difficulties with the transition to or from information systems or are unable to properly implement, maintain, upgrade or expand our system, we could suffer from, among other things, operational disruptions, loss of members, difficulty in attracting new members, regulatory problems, and increases in administrative expenses.

Because our corporate headquarters are located in Southern California, our business operations may be significantly disrupted as a result of a major earthquake.

Our corporate headquarters is located in Long Beach, California. In addition, the claims of our health plans are also processed in Long Beach. Southern California is exposed to a statistically greater risk of a major earthquake than most other parts of the United States. If a major earthquake were to strike the Los Angeles area, our corporate functions and claims processing could be significantly impaired for a substantial period of time. If there is a major Southern California earthquake, there can be no assurances that our disaster recovery plan will be successful or that the business operations of all our health plans and our Molina Medicaid Solutions segment, including those that are remote from any such event, would not be substantially impacted.

We face claims related to litigation which could result in substantial monetary damages.

We are subject to a variety of legal actions, including medical malpractice actions, provider disputes, employment related disputes, health care regulatory law-based litigation, breach of contract actions, intellectual property infringement actions, and securities class actions. If we incur liability materially in excess of the amount for which we have insurance coverage, our profitability would suffer. In addition, our providers involved in medical care decisions are exposed to the risk of medical malpractice claims. As an employer of physicians and ancillary medical personnel and as an operator of primary care clinics, our plans are subject to liability for negligent acts, omissions, or injuries occurring at one of our clinics or caused by one of our employees. Given the significant amount of some medical malpractice awards and settlements, the medical malpractice insurance that we maintain may not be sufficient or available at a reasonable cost to protect us from damage awards or other liabilities. Even if any claims brought against us are unsuccessful or without merit, we may have to defend ourselves against such claims. The defense of any such actions may be time-consuming and costly, and may distract our management's attention.

Furthermore, claimants often sue managed care organizations for improper denials of or delays in care, and in some instances improper authorizations of care. Claims of this nature could result in substantial damage awards against us and our providers that could exceed the limits of any applicable medical malpractice insurance coverage. Successful malpractice or tort claims asserted against us, our providers, or our employees could adversely affect our business, financial condition, cash flows, or results of operations.

We cannot predict the outcome of any lawsuit. Some of the liabilities related to litigation that we may incur may not be covered by insurance, the insurers could dispute coverage, or the amount of insurance could be insufficient to cover the damages awarded. In addition, insurance coverage for all or certain types of liability may become unavailable or prohibitively expensive in the future or the deductible on any such insurance coverage could be set at a level which would result in us effectively self-insuring cases against us. The litigation to which we are subject could have a material adverse effect on our business, financial condition, results of operations, and cash flows.

We are subject to competition which negatively impacts our ability to increase penetration in the markets we serve.

We operate in a highly competitive environment and in an industry that is subject to ongoing changes from business consolidations, new strategic alliances, and aggressive marketing practices by other managed care organizations and service providers. Our health plans segment competes for members principally on the basis of size, location,

and quality of provider network, benefits supplied, quality of service, and reputation. Our Molina Medicaid Solutions segment competes for government contracts principally on the basis of cost, quality of service, expertise, and reputation. A number of these competitive elements are partially dependent upon and can be positively affected by the financial resources available to us. Many other organizations with which we compete, including large commercial plans and other service providers, have substantially greater financial and other resources than we do. For these reasons, we may be unable to grow our business, or may lose business to third parties.

Failure to maintain effective internal controls over financial reporting could have a material adverse effect on our business, operating results, and stock price.

The Sarbanes-Oxley Act of 2002 requires, among other things, that we maintain effective internal control over financial reporting. In particular, we must perform system and process evaluation and testing of our internal controls over financial reporting to allow management to report on, and our independent registered public accounting firm to attest to, our internal controls over financial reporting as required by Section 404 of the Sarbanes-Oxley Act of 2002. Our future testing, or the subsequent testing by our independent registered public accounting firm, may reveal deficiencies in our internal controls over financial reporting that are deemed to be material weaknesses. Our compliance with Section 404 will continue to require that we incur substantial accounting expense and expend significant management time and effort. Moreover, if we are unable to comply with the requirements of Section 404 in a timely manner, or if we or our independent registered public accounting firm identify deficiencies in our internal control over financial reporting that are deemed to be material weaknesses, the market price of our stock could decline and we could be subject to sanctions or investigations by the New York Stock Exchange, SEC, or other regulatory authorities which would require additional financial and management resources.

We are subject to risks associated with outsourcing services and functions to third parties.

We contract with independent third party vendors and service providers who provide services to us and our subsidiaries or to whom we delegate selected functions. Our arrangements with third party vendors and service providers may make our operations vulnerable if those third parties fail to satisfy their obligations to us, including their obligations to maintain and protect the security and confidentiality of our information and data or the information and data relating to our members or customers. In addition, we may have disagreements with third party vendors and service providers regarding relative responsibilities for any such failures under applicable business associate agreements or other applicable outsourcing agreements. Further, we may not be adequately indemnified against all possible losses through the terms and conditions of our contracts with third party vendors and service providers. Our outsourcing arrangements could be adversely impacted by changes in vendors' or service providers' operations or financial condition or other matters outside of our control. If we fail to adequately monitor and regulate the performance of our third party vendors and service providers, we could be subject to additional risk, including significant cybersecurity risk. Violations of, or noncompliance with, laws and/or regulations governing our business or noncompliance with contract terms by third party vendors and service providers could increase our exposure to liability to our members, providers, or other third parties, or sanctions and/or fines from the regulators that oversee our business. In turn, this could increase the costs associated with the operation of our business or have an adverse impact on our business and reputation. Moreover, if these vendor and service provider relationships were terminated for any reason, we may not be able to find alternative partners in a timely manner or on acceptable financial terms, and may incur significant costs in connection with any such vendor or service provider transition. As a result, we may not be able to meet the full demands of our members or customers and, in turn, our business, financial condition, or results of operations may be harmed. In addition, we may not fully realize the anticipated economic and other benefits from our outsourcing projects or other relationships we enter into with third party vendors and service providers, as a result of regulatory restrictions on outsourcing, unanticipated delays in transitioning our operations to the third party, vendor or service provider noncompliance with contract terms or violations of laws and/or regulations, or otherwise. This could result in substantial costs or other operational or financial problems that could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Our substantial indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk to the extent of any variable rate debt, and prevent us from meeting our obligations under our outstanding indebtedness.

We have a significant amount of indebtedness. As of December 31, 2016, our total indebtedness was approximately $1,645 million, including lease financing obligations. As of December 31, 2016, we also had $494 million available for borrowing under our Credit Facility. Our substantial indebtedness could have significant consequences, including:

- increasing our vulnerability to adverse economic, industry, or competitive developments;
- requiring a substantial portion of our cash flows from operations to be dedicated to the payment of principal and interest on our indebtedness, therefore reducing our ability to use our cash flows to fund operations, make capital expenditures, and pursue future business opportunities;
- exposing us to the risk of increased interest rates to the extent of any future borrowings, including borrowings under the Credit Facility, at variable rates of interest;
- making it more difficult for us to satisfy our obligations with respect to our indebtedness, including the Credit Facility and our outstanding senior notes, and any failure to comply with the obligations of any of our debt instruments, including restrictive covenants and borrowing conditions, could result in an event of default under the indenture governing our outstanding senior notes and the agreements governing such other indebtedness;
- restricting us from making strategic acquisitions or causing us to make non-strategic divestitures;
- limiting our ability to obtain additional financing for working capital, capital expenditures, product and service development, debt service requirements, acquisitions, and general corporate or other purposes; and
- limiting our flexibility in planning for, or reacting to, changes in our business or market conditions and placing us at a competitive disadvantage compared to our competitors who are less highly leveraged and who, therefore, may be able to take advantage of opportunities that our substantial indebtedness may prevent us from exploiting.

Despite our high indebtedness level, we and our subsidiaries are able to incur substantial additional amounts of debt, including secured debt, which could further exacerbate the risks associated with our substantial indebtedness.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future. Although the indentures governing our outstanding senior notes and the credit agreement governing the Credit Facility contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions, and under certain circumstances, the amount of indebtedness that could be incurred in compliance with these restrictions could be substantial. As of December 31, 2016, we had approximately $494 million available for additional borrowing under our Credit Facility. In addition, the indentures governing our outstanding senior notes and the credit agreement governing our Credit Facility do not prevent us from incurring obligations that do not constitute prohibited indebtedness thereunder. If new debt is added to our and our subsidiaries' existing debt levels, the related risks that we now face would increase.

The terms of our debt impose, and will impose, restrictions on us that may affect our ability to successfully operate our business and our ability to make payments on our outstanding senior notes.

The indentures governing our outstanding senior notes and the credit agreement governing the Credit Facility contain various covenants that could materially and adversely affect our ability to finance our future operations or capital needs and to engage in other business activities that may be in our best interest. These covenants limit our ability to, among other things:

- incur additional indebtedness or issue certain preferred equity;
- pay dividends on, repurchase, or make distributions in respect of our capital stock, prepay, redeem, or repurchase certain debt or make other restricted payments;
- make certain investments;
- create certain liens;
- sell assets, including capital stock of restricted subsidiaries;
- enter into agreements restricting our restricted subsidiaries' ability to pay dividends to us;
- consolidate, merge, sell, or otherwise dispose of all or substantially all of our assets;
- enter into certain transactions with our affiliates; and
- designate our restricted subsidiaries as unrestricted subsidiaries.

All of these covenants may restrict our ability to pursue our business strategies. Our ability to comply with these covenants may be affected by events beyond our control, such as prevailing economic conditions and changes in regulations, and if such events occur, we cannot be sure that we will be able to comply. A breach of these covenants could result in a default under the indentures for our outstanding senior notes and/or the credit agreement governing the Credit Facility including, as a result of cross default provisions and, in the case of the Credit Facility permit the lenders to cease making loans to us. If there were an event of default under the indentures governing our outstanding senior notes and/or the credit agreement governing the Credit Facility, holders of such defaulted debt could cause all amounts borrowed under these instruments to be due and payable immediately. Our assets or cash flow may not be sufficient to repay borrowings under our outstanding debt instruments in the event of a default thereunder.

In addition, the restrictive covenants in the credit agreement governing the Credit Facility require us to maintain specified financial ratios and satisfy other financial condition tests. Our ability to meet those financial ratios and tests will depend on our ongoing financial and operating performance, which, in turn, will be subject to economic conditions and to financial, market, and competitive factors, many of which are beyond our control.

If our operating performance declines, we may be required to obtain waivers from the lenders under the Credit Facility, from the holders of our outstanding senior notes or from the holders of other obligations, to avoid defaults thereunder. For example, in February 2017, to avoid default under our Credit Facility as a result of our failure to comply with certain financial covenants therein applicable to the three months ended December 31, 2016, we sought, and obtained, a waiver of such defaults by the required lenders under our Credit Facility.

If we are not able to obtain such waivers, our creditors could exercise their rights upon default, and we could be forced into bankruptcy or liquidation.

We may not have the funds necessary to pay the amounts due upon conversion or required repurchase of our outstanding notes, and our indebtedness may contain limitations on our ability to pay the amounts due upon conversion or required repurchase.

In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes due January 15, 2020, unless earlier repurchased or converted. We refer to these notes as our 1.125% Notes. In September 2014, we issued $302 million aggregate principal amount of 1.625% convertible senior notes due August 14, 2044, unless earlier repurchased, redeemed, or converted. We refer to these notes as our 1.625% Notes. As of December 31, 2016, the aggregate outstanding principal amount of our 1.125% Notes and our 1.625% Notes was $550 million and $302 million, respectively. Both our 1.125% Notes and our 1.625% Notes are convertible into cash prior to their respective maturity dates under certain circumstances, one of which relates to the closing price of our common stock over a specified period. We refer to this conversion trigger as the stock price trigger. The stock price trigger for the 1.125% Notes is $53.00 per share. The 1.125% Notes met this trigger in the quarter ended December 31, 2016, and are convertible to cash through at least March 31, 2017. Because the 1.125% Notes may be converted into cash within 12 months, the $471 million carrying amount is reported in current

portion of long-term debt as of December 31, 2016. For economic reasons related to the trading market for our 1.125% Notes, we believe that the amount of the notes that may be converted over the next twelve months, if any, will not be significant. However, if the trading market for our 1.125% Notes becomes closed or restricted due to market turmoil or other reasons such that the notes cannot be traded, or if the trading price of our 1.125% Notes, which normally trade at a marginal premium to the underlying composite stock-and-interest economic value, no longer includes that marginal premium, holders of our 1.125% Notes may elect to convert the notes to cash.

The stock price trigger for the 1.625% Notes is $75.51 per share. The last reported sale price of our common stock as reported on the New York Stock Exchange on February 24, 2017 was $48.83 per share. As of December 31, 2016, our 1.625% Notes were not convertible. If conversion requests are received, the settlement of the notes must be paid primarily in cash pursuant to the terms of the relevant indentures.

We have sufficient available cash, combined with borrowing capacity available under our Credit Facility, to fund such conversions.

In addition, in the event of a change in control or the termination in trading of our stock, each holder of our 1.125% Notes and our 1.625% Notes would have the right to require us to purchase some or all of their notes at a purchase price in cash equal to 100% of the principal amount of the notes, plus any accrued and unpaid interest.

In the event of conversions or required repurchases, we may not have enough available cash or be able to obtain financing at the time we are required to comply with our conversion or repurchase obligations. In addition, our ability to comply with these obligations may be limited by law, by regulatory authority, or by agreements governing our future indebtedness. The indentures for the 1.125% Notes and the 1.625% Notes provide that it would be an event of default if we do not make the cash payments due upon conversion or required repurchase of the notes. The occurrence of an event of default under one or both of these indentures may also constitute an event of default under our Credit Facility and under our other indebtedness we may have outstanding at such time. Any such default could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

We may not be able to generate sufficient cash to service all of our indebtedness and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments on or to refinance our debt obligations depends on our financial condition and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business, and other factors beyond our control. We may not be able to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, and interest on our indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital, or restructure or refinance our indebtedness. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments, including the Credit Facility, and the indentures governing our outstanding senior notes, may restrict us from adopting some of these alternatives. In addition, any failure to make payments of interest and principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our credit rating, which would harm our ability to incur additional indebtedness. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations.

A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies may increase our future borrowing costs and reduce our access to capital.

There can be no assurance that any rating assigned by the rating agencies to our debt or our corporate rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies would likely increase our future borrowing costs and reduce our access to capital, which could have a materially adverse impact on our business, financial condition, cash flows or results of operations.

Risks Related to Our Common Stock

Members of the Molina family own a significant amount of our capital stock, decreasing the influence of other stockholders on stockholder decisions.

Members of the Molina family, either directly or as trustees or beneficiaries of Molina family trusts, in the aggregate owned or were entitled to receive upon certain events approximately 25% of our capital stock as of December 31, 2016. Our president and chief executive officer, as well as our chief financial officer, are members of the Molina family, and they are also on our board of directors. Because of the amount of their shareholdings, Molina family members, if they were to act as a group with the trustees of their family trusts, have the ability to significantly influence all matters submitted to stockholders for approval, including the election of directors, amendments to our charter, and any merger, consolidation, or sale of our company. A significant concentration of share ownership can also adversely affect the trading price for our common stock because investors often discount the value of stock in companies that have controlling stockholders. Furthermore, the concentration of share ownership in the Molina family could delay or prevent a merger or consolidation, takeover, or other business combination that could be favorable to our stockholders. Finally, the interests and objectives of the Molina family may be different from those of our company or our other stockholders, and they may vote their common stock in a manner that is contrary to the vote of our other stockholders.

Future sales of our common stock or equity-linked securities in the public market could adversely affect the trading price of our common stock and our ability to raise funds in new stock offerings.

We may issue equity securities in the future, or securities that are convertible into or exchangeable for, or that represent the right to receive, shares of our common stock. Sales of a substantial number of shares of our common stock or other equity securities, including sales of shares in connection with any future acquisitions, could be substantially dilutive to our stockholders. These sales may have a harmful effect on prevailing market prices for our common stock and our ability to raise additional capital in the financial markets at a time and price favorable to us. Moreover, to the extent that we issue restricted stock units, stock appreciation rights, options, or warrants to purchase our common stock in the future and those stock appreciation rights, options, or warrants are exercised or as the restricted stock units vest, our stockholders may experience further dilution. Holders of our shares of common stock have no preemptive rights that entitle holders to purchase a pro rata share of any offering of shares of any class or series and, therefore, such sales or offerings could result in increased dilution to our stockholders. Our certificate of incorporation provides that we have authority to issue 150 million shares of common stock and 20 million shares of preferred stock. As of December 31, 2016, approximately 57 million shares of common stock and no shares of preferred or other capital stock were issued and outstanding.

It may be difficult for a third party to acquire us, which could inhibit stockholders from realizing a premium on their stock price.

We are subject to the Delaware anti-takeover laws regulating corporate takeovers. These provisions may prohibit stockholders owning 15% or more of our outstanding voting stock from merging or combining with us. In addition, any change in control of our state health plans would require the approval of the applicable insurance regulator in each state in which we operate.

Our certificate of incorporation and bylaws also contain provisions that could have the effect of delaying, deferring, or preventing a change in control of our company that stockholders may consider favorable or beneficial. These provisions could discourage proxy contests and make it more difficult for our stockholders to elect directors and take other corporate actions. These provisions could also limit the price that investors might be willing to pay in the future for shares of our common stock. These provisions include:

- a staggered board of directors, so that it would take three successive annual meetings to replace all directors,
- prohibition of stockholder action by written consent, and
- advance notice requirements for the submission by stockholders of nominations for election to the board of directors and for proposing matters that can be acted upon by stockholders at a meeting.

In addition, changes of control are often subject to state regulatory notification, and in some cases, prior approval.

Further, our board of directors or a committee thereof has the power, without stockholder approval, to designate the terms of one or more series of preferred stock and issue shares of preferred stock. The ability of our board of directors or a committee thereof to create and issue a new series of preferred stock could impede a merger,

takeover or other business combination involving us or discourage a potential acquirer from making a tender offer for our common stock, which, under certain circumstances, could reduce the market price of our common stock.

LEGAL PROCEEDINGS

Refer to Notes to Consolidated Financial Statements, Note 19, “Commitments and Contingencies—Legal Proceedings,” for a discussion of legal proceedings.

MANAGEMENT AND AUDITOR’S REPORTS

MANAGEMENT’S EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures, as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), that are designed to provide reasonable assurance that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by us in reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of any possible controls and procedures.

Under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, we carried out an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) and Rule 15d-15(b) of the Exchange Act. Based on this evaluation, our chief executive officer and our chief financial officer concluded that, as of December 31, 2016, our disclosure controls and procedures were not effective at the reasonable assurance level because of the material weakness in our internal control over financial reporting described below. Notwithstanding the material weakness described below, management has concluded that our consolidated financial statements included in this Annual Report on Form 10-K are fairly stated in all material respects in accordance with U.S. generally accepted accounting principles (GAAP) for each of the periods presented herein.

MANAGEMENT’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Exchange Act. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of our assets that could have a material effect on our financial statements.

Internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements prepared for external purposes in accordance with GAAP. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness of our internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management has assessed the effectiveness of our internal control over financial reporting as of December 31, 2016, based on the framework set forth in *Internal Control-Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

The Company determined that a material weakness existed in its internal control over financial reporting relating to the operation of an element of its process for calculating the amount owed to California by its California health plan. More specifically, a Medicaid Expansion contract amendment executed in the fourth quarter of 2016 changed the medical loss ratio corridor formula and such amendment was not initially considered in determining the liability. As a result, we understated net income by $44 million for the year ended December 31, 2016, which is material to our consolidated results for the year ended December 31, 2016. This amount was corrected prior to the issuance of our consolidated financial statements as of and for the year ended December 31, 2016.

Because of this material weakness, management concluded that we did not maintain effective internal control over financial reporting as of December 31, 2016, based on criteria described in *Internal Control - Integrated Framework* (2013) issued by COSO.

Ernst & Young, LLP, the independent registered public accounting firm who audited our Consolidated Financial Statements included in this Form 10-K, has issued a report on our internal control over financial reporting, which expressed an adverse opinion and is included herein.

Remediation Plan for Material Weakness

We are actively engaged in developing a remediation plan to address the material weakness reported as of December 31, 2016. The remediation efforts we expect to implement include the development of robust protocols to ensure that the control relating to the review of a contractual amendment affecting the computation of the Medicaid Expansion medical loss ratio corridor for our California health plan will operate as designed.

We believe these measures will remediate the material weakness identified above and will strengthen our internal control over financial reporting for the computation of our California Medicaid Expansion medical loss ratio corridor. We currently are targeting to complete the implementation of the control enhancements during 2017. We will test the ongoing operating effectiveness of the new controls subsequent to implementation, and consider the material weakness remediated after the applicable remedial controls operate effectively for a sufficient period of time.

If the remedial measures described above are insufficient to address the material weakness described above, or are not implemented timely, or additional deficiencies arise in the future, material misstatements in our interim or annual financial statements may occur in the future and could have the effects described in “Risk Factors.”

Changes in Internal Control over Financial Reporting

Except as described above, management did not identify any change in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the quarter ended December 31, 2016, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
of Molina Healthcare, Inc.

We have audited the accompanying consolidated balance sheets of Molina Healthcare, Inc. (the Company) as of December 31, 2016 and 2015, and the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2016. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Molina Healthcare, Inc. at December 31, 2016 and 2015, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Molina Healthcare, Inc.'s internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated March 1, 2017 expressed an adverse opinion thereon.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
of Molina Healthcare, Inc.

We have audited Molina Healthcare, Inc.'s (the "Company's") internal control over financial reporting as of December 31, 2016, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. The following material weakness has been identified and included in management's assessment. Management has identified a material weakness in the operating effectiveness of a management review control related to the Company's process for calculating the amount owed to California with respect to Medicaid Expansion at its California health plan. We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Molina Healthcare, Inc. as of December 31, 2016 and 2015 and the related consolidated statements of income, comprehensive income, stockholders' equity and cash flows for each of the three years in the period ended December 31, 2016. This material weakness was considered in determining the nature, timing and extent of audit tests applied in our audit of the 2016 financial statements, and this report does not affect our report dated March 1, 2017, which expressed an unqualified opinion on those financial statements.

In our opinion, because of the effect of the material weakness described above on the achievement of the objectives of the control criteria, Molina Healthcare, Inc. has not maintained effective internal control over financial reporting as of December 31, 2016, based on the COSO criteria.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

Organization and Operations

Molina Healthcare, Inc. provides quality managed healthcare to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments consist of our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment, which includes our behavioral health and social services subsidiary, Pathways.

The Health Plans segment consists of health plans in 12 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of December 31, 2016, these health plans served over 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. This membership includes Affordable Care Act Marketplace (Marketplace) members, most of whom receive government premium subsidies. The health plans are operated by our respective wholly owned subsidiaries in those states, each of which is licensed as a health maintenance organization (HMO). Our direct delivery business consists primarily of the operation of primary care clinics in several states in which we operate.

Our health plans' state Medicaid contracts generally have terms of three to four years. These contracts typically contain renewal options exercisable by the state Medicaid agency, and allow either the state or the health plan to terminate the contract with or without cause. Our health plan subsidiaries have generally been successful in retaining their contracts, but such contracts are subject to risk of loss when a state issues a new request for proposal (RFP) open to competitive bidding by other health plans. If one of our health plans is not a successful responsive bidder to a state RFP, its contract may be subject to non-renewal.

In addition to contract renewal, our state Medicaid contracts may be periodically amended to include or exclude certain health benefits (such as pharmacy services, behavioral health services, or long-term care services); populations such as the aged, blind or disabled (ABD); and regions or service areas.

The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs including business processing, information technology development, and administrative services. Molina Medicaid Solutions is under contract with Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and provides drug rebate administration services in Florida.

The Other segment includes primarily our Pathways behavioral health and social services provider, and corporate amounts not allocated to other reportable segments.

Recent Developments – Health Plans Segment

Proposed Medicare Acquisition. In August 2016, we entered into substantially identical agreements with each of Aetna Inc. and Humana Inc. to acquire certain of their Medicare Advantage membership and other assets related to such Medicare Advantage business (the Proposed Medicare Acquisition), for cash. The Proposed Medicare Acquisition was subject to closing conditions including, but not limited to, the completion of the proposed acquisition of Humana by Aetna (the Aetna-Humana Merger). In January 2017, the U.S. District Court for the District of Columbia granted the request made by the U.S. Department of Justice in its civil antitrust lawsuit against Aetna and Humana, to prohibit the Aetna-Humana Merger (the District Court Order). In February 2017, the Proposed Medicare Acquisition was terminated by the parties pursuant to the terms of the transaction. Under the termination agreement, we are entitled to receive from Aetna and Humana an aggregate termination fee of $75 million (the breakup fee). In addition, we are entitled to reimbursement of reasonable and documented out-of-pocket expenses incurred by us and our affiliates in connection with the Proposed Medicare Acquisition. We will record the breakup fee as other income in the first quarter of 2017.

Completed acquisitions. See Note 4, "Business Combinations," for further information regarding Health Plans segment acquisitions completed during 2016.

Consolidation and Presentation

The consolidated financial statements include the accounts of Molina Healthcare, Inc., its subsidiaries, and variable interest entities in which Molina Healthcare, Inc. is considered to be the primary beneficiary. See Note 18, "Variable Interest Entities (VIEs)," for more information regarding these variable interest entities. All significant inter-company balances and transactions have been eliminated in consolidation. Financial information related to subsidiaries acquired during any year is included only for periods subsequent to their acquisition.

In the opinion of management, all adjustments considered necessary for a fair presentation of the results as of the date and for the periods presented have been included; such adjustments consist of normal recurring adjustments.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Principal areas requiring the use of estimates include:

- The determination of medical claims and benefits payable of our Health Plans segment;
- Health plan contractual provisions that may limit revenue recognition based upon the costs incurred or the profits realized under a specific contract;
- Health plan quality incentives that allow us to recognize incremental revenue if certain quality standards are met;
- Molina Medicaid Solutions segment revenue and cost recognition;
- Settlements under risk or savings sharing programs;
- The assessment of deferred contract costs, deferred revenue, long-lived and intangible assets, and goodwill for impairment;
- The determination of reserves for potential absorption of claims unpaid by insolvent providers;
- The determination of reserves for the outcome of litigation;
- The determination of valuation allowances for deferred tax assets; and
- The determination of unrecognized tax benefits.

2. Significant Accounting Policies

Certain of our significant accounting policies are discussed within the note to which they specifically relate.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and short-term, highly liquid investments that are both readily convertible into known amounts of cash and have a maturity of three months or less on the date of purchase.

Investments

Our investments are principally held in debt securities, which are grouped into two separate categories for accounting and reporting purposes: available-for-sale securities, and held-to-maturity securities. Available-for-sale securities are recorded at fair value and unrealized gains and losses, if any, are recorded in stockholders' equity as other comprehensive income, net of applicable income taxes. Held-to-maturity securities are recorded at amortized cost, which approximates fair value, and unrealized holding gains or losses are not generally recognized. Realized gains and losses and unrealized losses judged to be other than temporary with respect to available-for-sale and held-to-maturity securities are included in the determination of net income. The cost of securities sold is determined using the specific-identification method.

Our investment policy requires that all of our investments have final maturities of 10 years or less (excluding variable rate securities where interest rates may be periodically reset), and that the average maturity be three years or less. Investments and restricted investments are subject to interest rate risk and will decrease in value if market rates increase. Declines in interest rates over time will reduce our investment income.

In general, our available-for-sale securities are classified as current assets without regard to the securities' contractual maturity dates because they may be readily liquidated. We monitor our investments for other-than-temporary impairment. For comprehensive discussions of the fair value and classification of our current and non-current investments, see Note 5, "Fair Value Measurements," Note 6, "Investments," and Note 10, "Restricted Investments."

Long-Lived Assets, including Intangible Assets

Long-lived assets consist primarily of property, equipment, capitalized software (see Note 8, "Property, Equipment, and Capitalized Software"), and intangible assets (see Note 9, "Goodwill and Intangible Assets").

Business Combinations

Accounting for acquisitions requires us to recognize separately from goodwill the assets acquired and the liabilities assumed at their acquisition date fair values. Goodwill represents the excess of the purchase price over the fair value of net assets acquired in business combinations. While we use our best estimates and assumptions to accurately value assets acquired and liabilities assumed at the acquisition date, our estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, we may record adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the final determination of the values of assets acquired or liabilities assumed, or one year after the date of acquisition, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of income. Refer to Note 4, "Business Combinations," for further details regarding our 2016 acquisitions.

Premium Revenue - Health Plans

Premium revenue is generated primarily from our Medicaid, Medicare and Marketplace contracts, including agreements with other managed care organizations for which we operate as a subcontractor. Premium revenue is generally received based on per member per month (PMPM) rates established in advance of the periods covered. These premium revenues are recognized in the month that members are entitled to receive health care services, and premiums collected in advance are deferred. The state Medicaid programs and the federal Medicare program periodically adjust premiums. Additionally, many of our contracts contain provisions that may adjust or limit revenue or profit, as described below. Consequently, we recognize premium revenue as it is earned under such provisions.

The following table summarizes premium revenue for the periods indicated:

	Year Ended December 31,					
	2016		2015		2014	
	Amount	% of Total	Amount	% of Total	Amount	% of Total
	(Dollars in millions)					
California	$ 2,370	14.5%	$ 2,200	16.6%	$ 1,523	16.9%
Florida	1,926	11.7	1,199	9.0	439	4.9
Illinois	601	3.7	397	3.0	153	1.7
Michigan	1,520	9.3	1,067	8.1	781	8.7
New Mexico	1,304	7.9	1,237	9.3	1,076	11.9
New York	82	0.5	—	—	—	—
Ohio	1,961	12.0	2,034	15.4	1,553	17.2
Puerto Rico	726	4.4	567	4.3	—	—
South Carolina	378	2.3	348	2.6	381	4.2
Texas	2,454	15.0	1,961	14.8	1,318	14.6
Utah	444	2.7	331	2.5	310	3.4
Washington	2,218	13.5	1,602	12.1	1,305	14.5
Wisconsin	395	2.4	261	2.0	156	1.7
Direct delivery	13	0.1	37	0.3	28	0.3
	$ 16,392	100.0%	$ 13,241	100.0%	$ 9,023	100.0%

Certain components of premium revenue are subject to accounting estimates and fall into the following categories:

Contractual Provisions That May Adjust or Limit Revenue or Profit

Medicaid

Medical Cost Floors (Minimums), and Medical Cost Corridors. A portion of our premium revenue may be returned if certain minimum amounts are not spent on defined medical care costs. In the aggregate, we recorded a liability under the terms of such contract provisions of $272 million and $214 million at December 31, 2016 and December 31, 2015, respectively, to amounts due government agencies. Approximately $244 million and $208 million of the liability accrued at December 31, 2016 and December 31, 2015, respectively, relates to our participation in Medicaid Expansion programs.

In February 2017, the New Mexico Human Services Department (HSD) notified us that it has disallowed certain medically related administrative expenses and other items in the computation of its Medicaid Expansion risk corridor; this corridor was effective January 1, 2014, through December 31, 2016. Although we disagree with their contractual interpretations, we deferred premium revenue amounting to approximately $45 million for the year ended December 31, 2016, as a result of this communication, because such revenue is presently subject to refund or adjustment. Of this amount, $29 million relates to dates of service prior to 2016. At December 31, 2016, our aggregate Medicaid Expansion risk corridor payable to HSD is $145 million. We intend to appeal HSD's ruling on this matter.

In the fourth quarter of 2016, our California health plan received a contract amendment from the California Department of Healthcare Services that allowed us to deduct certain tax expenses in the computation of its Medicaid Expansion minimum medical loss ratio; this minimum medical loss ratio was effective January 1, 2014, through June 30, 2016. As a result of this contract amendment, we increased premium revenue for the year ended December 31, 2016, by approximately $68 million, of which $35 million related to periods prior to 2016.

In certain circumstances, the health plans may receive additional premiums if amounts spent on medical care costs exceed a defined maximum threshold. Receivables relating to such provisions were insignificant at December 31, 2016 and December 31, 2015.

Profit Sharing and Profit Ceiling. Our contracts with certain states contain profit-sharing or profit ceiling provisions under which we refund amounts to the states if our health plans generate profit above a certain specified percentage. In some cases, we are limited in the amount of administrative costs that we may deduct in calculating the refund, if any. Liabilities for profits in excess of the amount we are allowed to retain under these provisions were insignificant at December 31, 2016 and December 31, 2015.

Retroactive Premium Adjustments. In the first quarter of 2016, our Florida health plan recorded a retroactive increase to Medicaid premium revenue of approximately $18 million relating to dates of service prior to 2016.

Medicare

Risk Adjustment. Our Medicare premiums are subject to retroactive increase or decrease based on the health status of our Medicare members (as measured by member risk score). We estimate our members' risk scores and the related amount of Medicare revenue that will ultimately be realized for the periods presented based on our knowledge of our members' health status, risk scores and Centers for Medicare & Medicaid Services (CMS) practices. Consolidated balance sheet amounts related to anticipated Medicare risk adjustment premiums and Medicare Part D settlements were insignificant at December 31, 2016 and December 31, 2015.

Minimum MLR. Additionally, federal regulations have established a minimum annual medical loss ratio (Minimum MLR) of 85% for the Medicare. The medical loss ratio represents medical costs as a percentage of premium revenue. Federal regulations specifically define what constitutes medical costs and premium revenue. If the Minimum MLR is not met, we may be required to pay rebates to the federal government. We recognize estimated rebates under the Minimum MLR as an adjustment to premium revenue in our consolidated statements of income.

Marketplace

Premium Stabilization Programs. The Affordable Care Act (ACA) established Marketplace premium stabilization programs effective January 1, 2014. These programs, commonly referred to as the "3R's," include a permanent risk adjustment program, a transitional reinsurance program, and a temporary risk corridor program. We record receivables or payables related to the 3R programs and the Minimum MLR when the amounts are reasonably

estimable as described below, and, for receivables, collection is reasonably assured. Our receivables (payables) for each of these programs, as of the dates indicated, were as follows:

	December 31, 2016			
	Current Benefit Year	Prior Benefit Years	Total	December 31, 2015
	(In millions)			
Risk adjustment	$ (522)	$ —	$ (522)	$ (214)
Reinsurance	51	4	55	36
Risk corridor	(1)	—	(1)	(10)
Minimum MLR	(1)	—	(1)	(3)

- Risk adjustment: Under this permanent program, our health plans' composite risk scores are compared with the overall average risk score for the relevant state and market pool. Generally, our health plans will make a risk transfer payment into the pool if their composite risk scores are below the average risk score, and will receive a risk transfer payment from the pool if their composite risk scores are above the average risk score. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk adjustment program as an adjustment to premium revenue in our consolidated statements of income. On June 30, 2016, CMS released the final update on risk transfer and reinsurance payments for the 2015 benefit year, and we adjusted our accruals accordingly. Our risk transfer payment was approximately $40 million more than our estimate as of December 31, 2015.
- Reinsurance: This program is designed to provide reimbursement to insurers for high cost members. Our health plans pay an annual contribution on a per-member basis, and are eligible for recoveries if claims for individual members exceed a specified threshold, up to a maximum amount. We recognize the assessments to fund the transitional reinsurance program as a reduction to premium revenue in our consolidated statements of income. We recognize recoveries under the reinsurance program as a reduction to medical care costs in our consolidated statements of income. This three-year program ended December 31, 2016.
- Risk corridor: This program is intended to limit gains and losses of insurers by comparing allowable costs to a target amount as defined by CMS. Variances from the target amount exceeding certain thresholds may result in amounts due to or receivables due from CMS. Due to uncertainties as to the amount of federal funding available to support the risk corridor program, we do not recognize amounts receivable under this program. Our estimate of the unrecorded receivable for the Marketplace risk corridor amounted to approximately $142 million as of December 31, 2016. Of this total amount, $52 million relates to the 2015 benefit year and $90 million relates to the year ended December 31, 2016. All liabilities are recognized as incurred. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk corridor program as an adjustment to premium revenue in our consolidated statements of income. This three-year program ended December 31, 2016.

Additionally, the ACA established a Minimum MLR of 80% for the Marketplace. The medical loss ratio represents medical costs as a percentage of premium revenue. Federal regulations specifically define what constitutes medical costs and premium revenue. If the Minimum MLR is not met, we may be required to pay rebates to our Marketplace policyholders. Each of the 3R programs is taken into consideration when computing the Minimum MLR. We recognize estimated rebates under the Minimum MLR as an adjustment to premium revenue in our consolidated statements of income.

Quality Incentives

At several of our health plans, revenue ranging from approximately 1% to 3% of certain health plan premiums is earned only if certain performance measures are met.

During the second quarter of 2016, we were informed by the Texas Department of Health and Human Services that it will not recoup any quality revenue for calendar years 2014, 2015, and 2016. Therefore, we recognized previously deferred quality revenue amounting to approximately $51 million in the second quarter of 2016. Of the $51 million total adjustment, $44 million related to dates of service in 2015 and earlier.

The following table quantifies the quality incentive premium revenue recognized for the periods presented, including the amounts earned in the periods presented and prior periods. Although the reasonably possible effects of a change in estimate related to quality incentive premium revenue as of December 31, 2016 are not known, we have

no reason to believe that the adjustments to prior periods noted below are not indicative of the potential future changes in our estimates as of December 31, 2016, other than the Texas quality revenue recognized in the second quarter of 2016 described above.

	Year Ended December 31,		
	2016	2015	2014
	(In millions)		
Maximum available quality incentive premium - current period	$ 147	$ 118	$ 90
Amount of quality incentive premium revenue recognized in current period:			
Earned current period	$ 104	$ 66	$ 40
Earned prior periods	47	13	4
Total	$ 151	$ 79	$ 44
Quality incentive premium revenue recognized as a percentage of total premium revenue	0.9%	0.6%	0.5%

Medical Care Costs - Health Plans

Expenses related to medical care services are captured in the following categories:

Fee-for-service expenses. Nearly all hospital services and the majority of our primary care and physician specialist services and LTSS costs are paid on a fee-for-service basis. Under fee-for-service arrangements, we retain the financial responsibility for medical care provided and incur costs based on actual utilization of services. Such expenses are recorded in the period in which the related services are dispensed. The costs of drugs administered in a physician or hospital setting that are not billed through our pharmacy benefit manager are included in fee-for-service costs.

Pharmacy expenses. All drug, injectibles, and immunization costs paid through our pharmacy benefit manager are classified as pharmacy expenses. As noted above, drugs and injectibles not paid through our pharmacy benefit manager are included in fee-for-service costs, except in those limited instances where we capitate drug and injectible costs.

Capitation expenses. Many of our primary care physicians and a small portion of our specialists and hospitals are paid on a capitated basis. Under capitation arrangements, we pay a fixed amount PMPM to the provider without regard to the frequency, extent, or nature of the medical services actually furnished. Under capitated arrangements, we remain liable for the provision of certain health care services. Capitation payments are fixed in advance of the periods covered and are not subject to significant accounting estimates. These payments are expensed in the period the providers are obligated to provide services. The financial risk for pharmacy services for a small portion of our membership is delegated to capitated providers.

Direct delivery expenses. All costs associated with our direct delivery of medical care are separately identified.

Other medical expenses. All medically related administrative costs, certain provider incentive costs, and other health care expenses are classified as other medical expenses. Medically related administrative costs include, for example, expenses relating to health education, quality assurance, case management, care coordination, disease management, and 24-hour on-call nurses. Salary and benefit costs are a substantial portion of these expenses. For the years ended December 31, 2016, 2015, and 2014, medically related administrative costs were $488 million, $398 million, and $263 million, respectively.

The following table provides the details of our consolidated medical care costs for the periods indicated (dollars in millions, except PMPM amounts):

	Year Ended December 31,								
	2016			2015			2014		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee-for-service	$ 10,993	$ 217.84	74.4%	$ 8,572	$ 218.35	72.7%	$ 5,673	$ 202.87	70.2%
Pharmacy	2,213	43.84	15.0	1,610	41.01	13.7	1,273	45.54	15.8
Capitation	1,218	24.13	8.2	982	25.02	8.3	748	26.77	9.3
Direct delivery	78	1.55	0.5	128	3.26	1.1	96	3.44	1.2
Other	272	5.39	1.9	502	12.79	4.2	286	10.22	3.5
Total	$ 14,774	$ 292.75	100.0%	$ 11,794	$ 300.43	100.0%	$ 8,076	$ 288.84	100.0%

Our medical care costs include amounts that have been paid by us through the reporting date, as well as estimated liabilities for medical care costs incurred but not paid by us as of the reporting date. Such medical care cost liabilities include, among other items, unpaid fee-for-service claims, capitation payments owed providers, unpaid pharmacy invoices, and various medically related administrative costs that have been incurred but not paid. We use judgment to determine the appropriate assumptions for determining the required estimates.

The most important element in estimating our medical care costs is our estimate for fee-for-service claims which have been incurred but not paid by us. These fee-for-service costs that have been incurred but have not been paid at the reporting date are collectively referred to as medical costs that are incurred but not paid (IBNP). Our IBNP claims reserve, as reported in our balance sheet, represents our best estimate of the total amount of claims we will ultimately pay with respect to claims that we have incurred as of the balance sheet date. We estimate our IBNP monthly using actuarial methods based on a number of factors. For further information, see Note 11, “Medical Claims and Benefits Payable.”

We report reinsurance premiums as a reduction to premium revenue, while related reinsurance recoveries are reported as a reduction to medical care costs. We limit our risk of catastrophic losses by maintaining high deductible reinsurance coverage. Such reinsurance coverage does not relieve us of our primary obligation to our policyholders. We do not consider this coverage to be material because the cost is not significant and the likelihood that coverage will apply is low.

Taxes Based on Premiums

Health Insurer Fee (HIF). The federal government under the ACA imposes an annual fee, or excise tax, on health insurers for each calendar year. The HIF is based on a company’s share of the industry’s net premiums written during the preceding calendar year, and is non-deductible for income tax purposes. We recognize expense for the HIF over the year on a straight-line basis. Within our Medicaid program, we must secure additional reimbursement from our state partners for this added cost. We recognize the related revenue when we have obtained a contractual commitment or payment from a state to reimburse us for the HIF; such HIF revenue is recognized ratably throughout the year. The Consolidated Appropriations Act of 2016 provided for a HIF moratorium in 2017. Therefore, there will be no HIF revenue or expenses in 2017.

Premium and Use Tax. Certain of our health plans are assessed a tax based on premium revenue collected. The premium revenues we receive from these states include the premium tax assessment. We have reported these taxes on a gross basis, as premium tax revenue and as premium tax expenses in the consolidated statements of income.

Premium Deficiency Reserves on Loss Contracts

We assess the profitability of our medical care policies to identify groups of contracts where current operating results or forecasts indicate probable future losses. If anticipated future variable costs exceed anticipated future premiums and investment income, a premium deficiency reserve is recognized. In the fourth quarter of 2016, we recorded a premium deficiency reserve of $30 million for our Marketplace contracts in California and Washington. No premium deficiency reserve was recorded as of December 31, 2015.

Service Revenue and Cost of Service Revenue — Molina Medicaid Solutions Segment

The payments received by our Molina Medicaid Solutions segment under its state contracts are based on the performance of multiple services. The first of these is the design, development and implementation (DDI) of a Medicaid management information system (MMIS). An additional service, following completion of DDI, is the operation of the MMIS under a business process outsourcing (BPO) arrangement. When providing BPO services (which include claims payment and eligibility processing) we also provide the state with other services including both hosting and support, and maintenance.

We have evaluated our Molina Medicaid Solutions contracts to determine if such arrangements include a software element. Based on this evaluation, we have concluded that these arrangements do not include a software element, and are therefore multiple-element service arrangements.

Additionally, we evaluate each required deliverable under our multiple-element service arrangements to determine whether it qualifies as a separate unit of accounting. Such evaluation is generally based on whether the deliverable has standalone value to the customer. If the deliverable has standalone value, the arrangement's consideration that is fixed or determinable is then allocated to each separate unit of accounting based on the relative selling price of each deliverable. In general, the consideration allocated to each unit of accounting is recognized as the related goods or services are delivered, limited to the consideration that is not contingent.

We have concluded that the various service elements in our Molina Medicaid Solutions contracts represent a single unit of accounting due to the fact that DDI, which is the only service performed in advance of the other services (all other services are performed over an identical period), does not have standalone value because our DDI services are not sold separately by any vendor and the customer could not resell our DDI services. Further, we have no objective and reliable evidence of fair value for any of the individual elements in these contracts, and at no point in the contract will we have objective and reliable evidence of fair value for the undelivered elements in the contracts. We lack objective and reliable evidence of the fair value of the individual elements of our Molina Medicaid Solutions contracts for the following reasons:

- Each contract calls for the provision of its own specific set of services. While all contracts support the system of record for state MMIS, the actual services we provide vary significantly between contracts; and
- The nature of the MMIS installed varies significantly between our older contracts (proprietary mainframe systems) and our new contracts (commercial off-the-shelf technology solutions).

Because we have determined the services provided under our Molina Medicaid Solutions contracts represent a single unit of accounting, and because we are unable to determine a pattern of performance of services during the contract period, we recognize all revenue (both the DDI and BPO elements) associated with such contracts on a straight-line basis over the period during which BPO, hosting, and support and maintenance services are delivered. Therefore, absent any contingencies as discussed in the following paragraph, or contract extensions, we would recognize all revenue associated with those contracts over the initial contract period. When a contract is extended, we generally consider the extension to be a continuation of the single unit of accounting; therefore, the deferred revenue as of the extension date is recognized prospectively over the new remaining term of the contract. In cases where there is no DDI element associated with our contracts, BPO revenue is recognized on a monthly basis as specified in the applicable contract or contract extension.

Provisions specific to each contract may, however, lead us to modify this general principle. In those circumstances, the right of the state to refuse acceptance of services, as well as the related obligation to compensate us, may require us to delay recognition of all or part of our revenue until that contingency (the right of the state to refuse acceptance) has been removed. In those circumstances, we defer recognition of any contingent revenue (whether DDI, BPO services, hosting, and support and maintenance services) until the contingency has been removed.

Costs associated with our Molina Medicaid Solutions contracts include software related costs and other costs. With respect to software related costs, we apply the guidance for internal-use software and capitalize external direct costs of materials and services consumed in developing or obtaining the software, and payroll and payroll-related costs associated with employees who are directly associated with and who devote time to the computer software project. With respect to all other direct costs, such costs are expensed as incurred, unless corresponding revenue is being deferred. If revenue is being deferred, direct costs relating to delivered service elements are deferred as well and are recognized on a straight-line basis over the period of revenue recognition, in a manner consistent with our recognition of revenue that has been deferred. Such direct costs can include:

- Transaction processing costs;
- Employee costs incurred in performing transaction services;

- Vendor costs incurred in performing transaction services;
- Costs incurred in performing required monitoring of and reporting on contract performance;
- Costs incurred in maintaining and processing member and provider eligibility; and
- Costs incurred in communicating with members and providers.

The recoverability of deferred contract costs associated with a particular contract is analyzed on a periodic basis using the undiscounted estimated cash flows of the whole contract over its remaining contract term. If such undiscounted cash flows are insufficient to recover the long-lived assets and deferred contract costs, the deferred contract costs are written down by the amount of the cash flow deficiency. If a cash flow deficiency remains after reducing the balance of the deferred contract costs to zero, any remaining long-lived assets are evaluated for impairment. Any such impairment recognized would equal the amount by which the carrying value of the long-lived assets exceeds the fair value of those assets.

Concentrations of Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk consist primarily of cash and cash equivalents, investments, receivables, and restricted investments. Our investments and a portion of our cash equivalents are managed by professional portfolio managers operating under documented investment guidelines. Our portfolio managers must obtain our prior approval before selling investments where the loss position of those investments exceeds certain levels. Our investments consist primarily of investment-grade debt securities with a maximum maturity of 10 years and an average duration of three years or less. Restricted investments are invested principally in certificates of deposit and U.S. treasury securities. Concentration of credit risk with respect to accounts receivable is limited because our payors consist principally of the governments of each state in which our health plan subsidiaries operate.

Risks and Uncertainties

Our profitability depends in large part on our ability to accurately predict and effectively manage medical care costs. We continually review our medical costs in light of our underlying claims experience and revised actuarial data. However, several factors could adversely affect medical care costs. These factors, which include changes in health care practices, inflation, new technologies, major epidemics, natural disasters, and malpractice litigation, are beyond our control and may have an adverse effect on our ability to accurately predict and effectively control medical care costs. Costs in excess of those anticipated could have a material adverse effect on our financial condition, results of operations, or cash flows.

We operate health plans primarily as a direct contractor with the states (or Commonwealth), and in Los Angeles County, California, as a subcontractor to another health plan holding a direct contract with the state. We are therefore dependent upon a small number of contracts to support our revenue. The loss of any one of those contracts could have a material adverse effect on our financial position, results of operations, or cash flows. Our ability to arrange for the provision of medical services to our members is dependent upon our ability to develop and maintain adequate provider networks. Our inability to develop or maintain such networks might, in certain circumstances, have a material adverse effect on our financial position, results of operations, or cash flows.

Recent Accounting Pronouncements Not Yet Adopted

Goodwill Impairment. In January 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-04, *Simplifying the Test for Goodwill Impairment*, which eliminates the requirement to calculate the implied fair value of goodwill to measure a goodwill impairment charge. Instead, impairment charges will be based on the first step in the two-step impairment test under Accounting Standards Codification (ASC) 350, *Intangibles - Goodwill and Other*. ASU 2017-04 is effective for us beginning January 1, 2020; early adoption is permitted for annual and interim goodwill impairment testing dates after January 1, 2017. We are evaluating the effect of this guidance.

Business Combinations. In January 2017, the FASB issued ASU 2017-01, *Clarifying the Definition of a Business*, which changes the definition of a business to assist entities with evaluating when a set of transferred assets and activities is considered a business. ASU 2017-01 is effective for us beginning January 1, 2018, and interim periods thereafter on a prospective basis. Adoption of this guidance may be significant to us depending on the size and nature of potential future acquisitions. For future Health Plans segment acquisitions under which the fair value of the assets acquired is concentrated in a single identifiable asset, such as contract rights, the acquisitions will be recorded as asset acquisitions rather than business combinations. The chief difference between an asset acquisition and a business combination is that goodwill only arises in business combinations.

Credit Losses. In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*. Rather than generally recognizing credit losses when it is probable that the loss has been incurred, the revised guidance requires companies to recognize an allowance for credit losses for the difference between the amortized cost basis of a financial instrument and the amount of amortized cost that the company expects to collect over the instrument's contractual life. ASU 2016-13 is effective for us beginning January 1, 2020, and must be adopted as a cumulative effect adjustment to retained earnings; early adoption is permitted. We are evaluating the effect of this guidance.

Stock Compensation. In March 2016, the FASB issued ASU 2016-09, *Improvements to Employee Share-Based Payment Accounting*, which amends ASC Topic 718, *Compensation – Stock Compensation*. ASU 2016-09 simplifies several aspects of accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax and classification in the statement of cash flows. We will adopt ASU 2016-09 in the first quarter of 2017. We are unable to quantify the impact of adoption, however, because such impact is dependent on future stock prices which cannot be predicted. However, we expect that adoption will not have a significant impact on net income, basic and diluted earnings per share, deferred tax assets and net cash from operations, or our effective tax rate.

Leases. In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842),* as modified by ASU 2017-03, *Transition and Open Effective Date Information*. Under ASU 2016-02, an entity will be required to recognize assets and liabilities for the rights and obligations created by leases on the entity's balance sheet for both finance and operating leases. For leases with a term of 12 months or less, an entity can elect to not recognize lease assets and lease liabilities and expense the lease over a straight-line basis for the term of the lease. ASU 2016-02 will require new disclosures that depict the amount, timing, and uncertainty of cash flows pertaining to an entity's leases. ASU 2016-02 is effective for us beginning January 1, 2019 and must be adopted using a modified retrospective approach for annual and interim periods beginning after December 15, 2018. Early adoption is permitted. Under this guidance, we will record assets and liabilities relating primarily to our long-term office leases, and are currently evaluating the effect to our consolidated financial statements.

Revenue Recognition. In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, as modified by:

- ASU 2015-14, *Deferral of the Effective Date*;
- ASU 2016-08, *Principal versus Agent Considerations (Reporting Revenue Gross versus Net)*;
- ASU 2016-10, *Identifying Performance Obligations and Licensing*;
- ASU 2016-12, *Narrow-Scope Improvements and Practical Expedients*;
- ASU 2016-20, *Technical corrections and improvements to Topic 606; and*
- ASU 2017-03, *Overall Transition and Open Effective Date Information*.

ASU 2014-09 will supersede existing revenue recognition standards with a single model unless those contracts are within the scope of other standards (e.g., an insurance entity's insurance contracts). The new model requires an entity to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, new and enhanced disclosures will be required.

We have determined that our Health Plans segment, which comprises the vast majority of our operations, is excluded from the scope of ASU 2014-09, because the recognition of revenue under our Health Plans segment insurance contracts is dictated by other accounting standards governing insurers.

For our Molina Medicaid Solutions segment, we have determined that certain revenue and costs will no longer be deferred and recognized over the service delivery period. Rather, revenue will be recognized based on the expected cost plus gross margin method, and costs will be recognized as incurred. We are currently in the process of quantifying the impact to our consolidated financial position, results of operations, and cash flows.

Two adoption methods are permitted under ASU 2014-09. Under the full retrospective method, the financial statement adjustments are applied to each reporting period presented. Under the modified retrospective method, the cumulative effect of initially applying the guidance is reflected as an adjustment to beginning retained earnings as of the date of adoption. We intend to adopt this standard on January 1, 2018, using the modified retrospective approach.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission (SEC) did not

have, or are not believed by management to have, a significant impact on our present or future consolidated financial statements.

Accounting Pronouncements Adopted

Short-Duration Contracts. In the fourth quarter of 2016, we adopted ASU 2015-09, *Disclosures about Short-Duration Contracts*, which requires additional disclosure on the liability for unpaid claims and claim adjustment expenses. It requires additional disclosure only and had an insignificant impact to our consolidated financial statements. The new disclosures are reported in Note 11, "Medical Claims and Benefits Payable."

3. Net Income per Share

The following table sets forth the calculation of basic and diluted net income per share:

	December 31,		
	2016	2015	2014
	(In millions, except net income per share)		
Numerator:			
Net income	$ 52	$ 143	$ 62
Denominator:			
Shares outstanding at the beginning of the period	55	49	46
Weighted-average number of shares issued:			
Common stock offering	—	3	—
Convertible senior notes	—	—	1
Denominator for basic net income per share	55	52	47
Effect of dilutive securities:			
Share-based compensation	—	1	—
Convertible senior notes [1]	—	1	1
1.125% Warrants [1]	1	2	—
Denominator for diluted net income per share	56	56	48
Net income per share: [2]			
Basic	$ 0.93	$ 2.75	$ 1.33
Diluted	$ 0.92	$ 2.58	$ 1.29
Potentially dilutive common shares excluded from calculations: [3]			
1.125% Warrants	—	—	13

(1) For more information regarding the convertible senior notes, refer to Note 12, "Debt." For more information regarding the 1.125% Warrants, refer to Note 15, "Stockholders' Equity."
(2) Source data for calculations in thousands.
(3) The dilutive effect of all potentially dilutive common shares is calculated using the treasury-stock method. Certain potentially dilutive common shares issuable are not included in the computation of diluted net income per share because to do so would be anti-dilutive. For the year ended December 31, 2014, the 1.125% Warrants were excluded from diluted shares outstanding because the exercise price exceeded the average market price of our common stock.

4. Business Combinations

Health Plans Segment

In 2016, we closed on several business combinations in the Health Plans segment, consistent with our strategy to grow in our existing markets and expand into new markets. For all of these transactions, we applied the acquisition method of accounting, where the total purchase price was allocated, or preliminarily allocated, to tangible and intangible assets acquired, and liabilities assumed, based on their respective fair values. For the Health Plans acquisitions described below, except New York, only intangible assets were acquired. All of the transactions were funded using available cash, and acquisition-related costs were insignificant.

The individual transactions were as follows:

Illinois. On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business of, Accountable Care Chicago, LLC, also known as MyCare Chicago. The final purchase price was approximately $30 million, and the Illinois health plan added approximately 50,000 Medicaid members as a result of this transaction.

On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Loyola Physician Partners, LLC. The final purchase price was approximately $12 million, and the Illinois health plan added approximately 18,000 Medicaid members as a result of this transaction.

On March 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Better Health Network, LLC. The final purchase price was approximately $15 million, and the Illinois health plan added approximately 28,000 Medicaid members as a result of this transaction.

Michigan. On January 1, 2016, our Michigan health plan closed on its acquisition of the Medicaid and MIChild membership, and certain Medicaid and MIChild assets, of HAP Midwest Health Plan, Inc. The final purchase price was approximately $31 million, and the Michigan health plan added approximately 68,000 Medicaid and MIChild members as a result of this transaction.

New York. On August 1, 2016, we closed on our acquisition of the outstanding equity interests of Today's Options of New York, Inc., which operates the Total Care Medicaid plan. The initial purchase price was approximately $38 million, and we now serve approximately 35,000 Medicaid members in upstate New York as a result of the transaction. The purchase price allocation was finalized, and final purchase price adjustments as provided in the stock purchase agreement were recorded, in the first quarter of 2017.

Washington. On January 1, 2016, our Washington health plan closed on its acquisition of the Medicaid contracts, and certain assets related to the operation of the Medicaid business, of Columbia United Providers, Inc. The final purchase price was approximately $28 million, and the Washington health plan added approximately 57,000 Medicaid members as a result of this transaction.

For these acquisitions, we recorded goodwill to the Health Plans segment amounting to $96 million in the aggregate, which relates to future economic benefits arising from expected synergies to be achieved. Such synergies include use of our existing infrastructure to support the added membership. In general, the amount recorded as goodwill is deductible for income tax purposes.

For the transactions that closed on January 1, 2016 (a holiday), approximately $101 million of the purchase price consideration was funded to the sellers in December 2015, and was recorded to prepaid expenses and other assets as of December 31, 2015. Such amounts were reported in investing activities in the accompanying consolidated statements of cash flows for the year ended December 31, 2015.

The following table presents the intangible assets identified in the transactions described above. The weighted-average amortization period, in the aggregate, is 5.7 years.

	Fair Value (In millions)	Life (Years)
Intangible asset type:		
Contract rights - member list	$ 38	5
Provider network	7	10
	$ 45	

Other Segment

Pathways. On November 1, 2015, we acquired the outstanding ownership interests in Pathways Health and Community Support LLC (Pathways). In 2016, we recorded a pre-acquisition contingent liability and corresponding indemnification asset in the amount of $14 million in connection with the Rodriguez Litigation matter defined and described further in Note 19, “Commitments and Contingencies.” Also in 2016, certain tax elections were made such that approximately 50% of the goodwill recorded in this transaction is deductible for income tax purposes. In the fourth quarter of 2016, the purchase price allocation was finalized, which included a $5 million increase to goodwill primarily in connection with certain tax-related gross-up payments.

5. Fair Value Measurements

We consider the carrying amounts of cash and cash equivalents and other current assets and current liabilities (not including derivatives and the current portion of long-term debt) to approximate their fair values because of the relatively short period of time between the origination of these instruments and their expected realization or payment. For our financial instruments measured at fair value on a recurring basis, we prioritize the inputs used in measuring fair value according to a three-tier fair value hierarchy as follows:

Level 1 — Observable Inputs. Level 1 financial instruments are actively traded and therefore the fair value for these securities is based on quoted market prices on one or more securities exchanges.

Level 2 — Directly or Indirectly Observable Inputs. Level 2 financial instruments are traded frequently though not necessarily daily. Fair value for these investments is determined using a market approach based on quoted prices for similar securities in active markets or quoted prices for identical securities in inactive markets.

Level 3 — Unobservable Inputs. Level 3 financial instruments are valued using unobservable inputs that represent management’s best estimate of what market participants would use in pricing the financial instrument at the measurement date. Our Level 3 financial instruments include derivative financial instruments.

Derivative financial instruments include the 1.125% Call Option derivative asset and the 1.125% Conversion Option derivative liability. These derivatives are not actively traded and are valued based on an option pricing model that uses observable and unobservable market data for inputs. Significant market data inputs used to determine fair value as of December 31, 2016 included the price of our common stock, the time to maturity of the derivative instruments, the risk-free interest rate, and the implied volatility of our common stock. As described further in Note 13, “Derivatives,” the 1.125% Call Option asset and the 1.125% Conversion Option liability were designed such that changes in their fair values offset, with minimal impact to the consolidated statements of income. Therefore, the sensitivity of changes in the unobservable inputs to the option pricing model for such instruments is mitigated.

The net changes in fair value of Level 3 financial instruments were insignificant to our results of operations for the year ended December 31, 2016.

Our financial instruments measured at fair value on a recurring basis at December 31, 2016, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,179	$ —	$ 1,179	$ —
Government-sponsored enterprise securities (GSEs)	231	231	—	—
Municipal securities	142	—	142	—
U.S. treasury notes	84	84	—	—
Asset-backed securities	69	—	69	—
Certificates of deposit	53	—	53	—
Subtotal - current investments	1,758	315	1,443	—
1.125% Call Option derivative asset	267	—	—	267
Total assets measured at fair value on a recurring basis	$ 2,025	$ 315	$ 1,443	$ 267
1.125% Conversion Option derivative liability	$ 267	$ —	$ —	$ 267
Total liabilities measured at fair value on a recurring basis	$ 267	$ —	$ —	$ 267

Our financial instruments measured at fair value on a recurring basis at December 31, 2015, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,184	$ —	$ 1,184	$ —
GSEs	211	211	—	—
Municipal securities	185	—	185	—
U.S. treasury notes	78	78	—	—
Asset-backed securities	63	—	63	—
Certificates of deposit	80	—	80	—
Subtotal - current investments	1,801	289	1,512	—
1.125% Call Option derivative asset	374	—	—	374
Total assets measured at fair value on a recurring basis	$ 2,175	$ 289	$ 1,512	$ 374
1.125% Conversion Option derivative liability	$ 374	$ —	$ —	$ 374
Total liabilities measured at fair value on a recurring basis	$ 374	$ —	$ —	$ 374

Fair Value Measurements – Disclosure Only

The carrying amounts and estimated fair values of our senior notes, which are classified as Level 2 financial instruments, are indicated in the following table.

	December 31, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(In millions)			
5.375% Notes	$ 691	$ 714	$ 689	$ 700
1.125% Convertible Notes	471	792	448	865
1.625% Convertible Notes	284	344	273	365
	$ 1,446	$ 1,850	$ 1,410	$ 1,930

6. Investments

The following tables summarize our investments as of the dates indicated:

	December 31, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,180	$ 1	$ 2	$ 1,179
GSEs	232	—	1	231
Municipal securities	143	—	1	142
U.S. treasury notes	84	—	—	84
Asset-backed securities	69	—	—	69
Certificates of deposit	53	—	—	53
	$ 1,761	$ 1	$ 4	$ 1,758

	December 31, 2015			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,189	$ —	$ 5	$ 1,184
GSEs	212	—	1	211
Municipal securities	186	—	1	185
U.S. treasury notes	78	—	—	78
Asset-backed securities	63	—	—	63
Certificates of deposit	80	—	—	80
	$ 1,808	$ —	$ 7	$ 1,801

The contractual maturities of our investments as of December 31, 2016 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 930	$ 930
Due after one year through five years	806	803
Due after five years through ten years	25	25
	$ 1,761	$ 1,758

Gross realized gains and losses from sales of available-for-sale securities are calculated under the specific identification method and are included in investment income. Gross realized investment gains and losses for the years ended December 31, 2016, 2015 and 2014 were insignificant.

We have determined that unrealized gains and losses at December 31, 2016 and 2015 are temporary in nature, because the change in market value for these securities resulted from fluctuating interest rates, rather than a deterioration of the creditworthiness of the issuers. So long as we maintain the intent and ability to hold these securities to maturity, we are unlikely to experience gains or losses. In the event that we dispose of these securities before maturity, we expect that realized gains or losses, if any, will be insignificant.

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of December 31, 2016.

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 542	$ 2	378	$ —	$ —	—
GSEs	198	1	73	—	—	—
Municipal securities	101	1	129	—	—	—
	$ 841	$ 4	580	$ —	$ —	—

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of December 31, 2015.

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 825	$ 4	588	$ 119	$ 1	87
GSEs	182	1	77	—	—	—
Municipal securities	128	1	181	—	—	—
	$ 1,135	$ 6	846	$ 119	$ 1	87

7. Receivables

Receivables consist primarily of amounts due from government Medicaid agencies, which may be subject to potential retroactive adjustments. Because all of our receivable amounts are readily determinable and substantially all of our creditors are governmental authorities, our allowance for doubtful accounts is insignificant. Any amounts determined to be uncollectible are charged to expense when such determination is made. The information below is presented by segment.

	December 31,	
	2016	2015
	(In millions)	
California	$ 180	$ 104
Florida	97	22
Illinois	134	35
Michigan	60	39
New Mexico	57	51
New York	26	—
Ohio	82	66
Puerto Rico	37	33
South Carolina	11	6
Texas	79	56

Washington	71	53
Wisconsin	33	22
Direct delivery and other	1	6
Total Health Plans segment	887	511
Molina Medicaid Solutions segment	34	37
Other segment	53	49
	$ 974	$ 597

8. Property, Equipment, and Capitalized Software

Property and equipment are stated at historical cost. Replacements and major improvements are capitalized, and repairs and maintenance are charged to expense as incurred. Furniture and equipment are generally depreciated using the straight-line method over estimated useful lives ranging from three to seven years. Software developed for internal use is capitalized. Software is generally amortized over its estimated useful life of three years. Leasehold improvements are amortized over the term of the lease, or over their useful lives from five to 10 years, whichever is shorter. Buildings are depreciated over their estimated useful lives of 31.5 to 40 years.

The costs associated with certain of our Molina Medicaid Solutions segment equipment and software are capitalized and recorded as deferred contract costs. Such costs are amortized on a straight-line basis over the shorter of the useful life or the contract period, and the amortization is recorded within the heading “Cost of service revenue.”

A summary of property, equipment, and capitalized software is as follows:

	December 31,	
	2016	2015
	(In millions)	
Capitalized software	$ 443	$ 336
Furniture and equipment	301	250
Building and improvements	159	153
Land	16	16
	919	755
Less: accumulated amortization for capitalized software	(259)	(195)
Less: accumulated depreciation and amortization on building and improvements, furniture and equipment	(206)	(167)
	(465)	(362)
Property, equipment, and capitalized software, net	$ 454	$ 393

The following table presents all depreciation and amortization recorded in our consolidated statements of income, regardless of whether the item appears as depreciation and amortization, or as cost of service revenue.

	Year Ended December 31,		
	2016	2015	2014
	(In millions)		
Recorded in depreciation and amortization:			
Amortization of capitalized software	$ 62	$ 37	$ 41
Depreciation of property and equipment	45	50	34
Amortization of intangible assets	32	17	18
	139	104	93
Recorded in cost of service revenue:			
Amortization of capitalized software	22	15	18
Amortization of deferred contract costs	21	6	20
	43	21	38
Other	—	1	3
	$ 182	$ 126	$ 134

Molina Center. In 2011, we acquired two coterminous office buildings in Long Beach, California, known as the Molina Center. In 2013, we entered into a sale-leaseback transaction for the Molina Center. Due to our continuing involvement with the leased property, the sale did not qualify for sales recognition and we remain the “accounting owner” of the property. For further information, see Note 12, “Debt.” Sublease income from third party tenants of the Molina Center is reported as investment income and other revenue in our consolidated statements of income. As of December 31, 2016, future sublease income was insignificant.

9. Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of net assets acquired in business combinations. Goodwill is not amortized, but is subject to an annual impairment test. We are required to test at least annually for impairment, or more frequently if adverse events or changes in circumstances indicate that the asset may be impaired. When testing goodwill for impairment, we may first assess qualitative factors, such as industry and market factors, cost factors, and changes in overall performance, to determine if it is more likely than not that the carrying value of a reporting unit exceeds its estimated fair value. If our qualitative assessment indicates that goodwill impairment is more likely than not, we perform additional quantitative analysis. We may also elect to skip the qualitative testing and proceed directly to the quantitative testing.

Under the quantitative test we first measure the fair values of our reporting units and compare them to the carrying values of the respective units, including goodwill. Second, if the fair value is less than the carrying value of the

reporting unit, then the implied value of goodwill would be calculated and compared with the carrying amount of goodwill to determine the impairment charge, if any.

We estimate the fair values of our reporting units using discounted cash flows. In the discounted cash flow analyses, we must make assumptions about a wide variety of internal and external factors. Significant assumptions include financial projections of free cash flow (including significant assumptions about operations, capital requirements and income taxes), long-term growth rates for determining terminal value beyond the discretely forecasted periods, and discount rates.

No impairment charges relating to goodwill were recorded in the years ended December 31, 2016, 2015, and 2014.

The following table presents the balances of goodwill as of December 31, 2016 and 2015. The Health Plans segment addition relates to the business combinations described in Note 4, “Business Combinations.” The Other segment addition relates to the final purchase price allocation adjustments for our Pathways acquisition in 2015.

	Health Plans	Molina Medicaid Solutions	Other	Total
		(In millions)		
Historical goodwill	$ 349	$ 71	$ 157	$ 577
Accumulated impairment losses	(58)	—	—	(58)
Balance, December 31, 2015	291	71	157	519
Acquisitions	96	—	—	96
Purchase price allocation adjustments	—	—	5	5
Balance at December 31, 2016	$ 387	$ 71	$ 162	$ 620

Intangible Assets. Finite-lived, separately-identified intangible assets acquired in business combinations are assets that represent future expected benefits but lack physical substance (such as purchased contract rights and provider contracts). Intangible assets are initially recorded at fair value and are then amortized on a straight-line basis over their expected useful lives, generally between two and 15 years.

Our intangible assets are subject to impairment tests when events or circumstances indicate that a finite-lived intangible asset’s (or asset group’s) carrying value may not be recoverable. Consideration is given to a number of potential impairment indicators. For example, our health plan subsidiaries have generally been successful in obtaining the renewal by amendment of their contracts in each state prior to the actual expiration of their contracts. However, there can be no assurance that these contracts will continue to be renewed.

Following the identification of any potential impairment indicators, to determine whether an impairment exists, we would compare the carrying amount of a finite-lived intangible asset with the undiscounted cash flows that are expected to result from the use of the asset or related group of assets. If it is determined that the carrying amount of the asset is not recoverable, the amount by which the carrying value exceeds the estimated fair value is recorded as an impairment.

No significant impairment charges relating to long-lived assets, including intangible assets, were recorded in the years ended December 31, 2016, 2015, and 2014.

Based on the balances of our identifiable intangible assets as of December 31, 2016, we estimate that our intangible asset amortization will be $35 million in 2017, $33 million in 2018, $27 million in 2019, $19 million in 2020, and $8 million in 2021. For a presentation of our goodwill and intangible assets by reportable segment, refer to Note 20, “Segment Information.”

The following table provides the details of identified intangible assets, by major class, for the periods indicated:

	Cost	Accumulated Amortization	Carrying Amount
		(In millions)	
Intangible assets:			
Contract rights and licenses	$ 267	$ 148	$ 119
Customer relationships	25	24	1
Provider networks	34	14	20
Balance at December 31, 2016	$ 326	$ 186	$ 140
Intangible assets:			
Contract rights and licenses	$ 224	$ 120	$ 104
Customer relationships	25	23	2
Provider networks	27	11	16
Balance at December 31, 2015	$ 276	$ 154	$ 122

The changes in the carrying amounts of goodwill and intangible assets, at cost, in 2016 were due to the acquisitions described in Note 4, “Business Combinations.”

10. Restricted Investments

Pursuant to the regulations governing our Health Plans segment subsidiaries, we maintain statutory deposits and deposits required by government authorities primarily in certificates of deposit and U.S. treasury securities. We also maintain restricted investments as protection against the insolvency of certain capitated providers. The use of these funds is limited to specific purposes as required by regulation in the various states in which we operate, or as protection against the insolvency of capitated providers. We have the ability to hold our restricted investments until maturity, and as a result, we would not expect the value of these investments to decline significantly due to a sudden change in market interest rates. The following table presents the balances of restricted investments:

	December 31,	
	2016	2015
	(In millions)	
Florida	$ 22	$ 34
Illinois	3	—
Michigan	1	1
New Mexico	43	43
New York	9	—
Ohio	12	12
Puerto Rico	10	10
Texas	4	4
Utah	4	4
Wisconsin	1	1
Other	1	—
Total Health Plans segment	$ 110	$ 109

The contractual maturities of our restricted investments, which are designated as held-to-maturity and are carried at amortized cost, which approximates fair value, as of December 31, 2016 are summarized below.

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 100	$ 100
Due after one year through five years	10	10
	$ 110	$ 110

11. Medical Claims and Benefits Payable

The following table provides the details of our medical claims and benefits payable (including amounts payable for the provision of long-term services and supports, or LTSS) as of the dates indicated.

	December 31,		
	2016	2015	2014
	(In millions)		
Fee-for-service claims incurred but not paid (IBNP)	$ 1,352	$ 1,191	$ 871
Pharmacy payable	112	88	71
Capitation payable	37	140	28
Other	428	266	231
	$ 1,929	$ 1,685	$ 1,201

“Other” medical claims and benefits payable include amounts payable to certain providers for which we act as an intermediary on behalf of various government agencies without assuming financial risk. Such receipts and payments do not impact our consolidated statements of income. Non-risk provider payables amounted to $225 million, $167 million and $119 million, as of December 31, 2016, 2015 and 2014, respectively.

The following table presents the components of the change in our medical claims and benefits payable for the periods indicated. The amounts presented for “Components of medical care costs related to: Prior periods” represent the amount by which our original estimate of medical claims and benefits payable at the beginning of the period were more than the actual amount of the liability based on information (principally the payment of claims) developed since that liability was first reported.

	Year Ended December 31,		
	2016	2015	2014
	(In millions)		
Medical claims and benefits payable, beginning balance	$ 1,685	$ 1,201	$ 670
Components of medical care costs related to:			
Current period	14,966	11,935	8,123
Prior periods	(192)	(141)	(46)
Total medical care costs	14,774	11,794	8,077
Change in non-risk provider payables	58	48	(32)
Payments for medical care costs related to:			
Current period	13,304	10,448	7,064
Prior periods	1,284	910	450
Total paid	14,588	11,358	7,514
Medical claims and benefits payable, ending balance	$ 1,929	$ 1,685	$ 1,201

Reinsurance recoverables of $61 million, $46 million, and $9 million, as of December 31, 2016, 2015, and 2014, respectively, are included in receivables.

The following tables provide information about incurred and paid claims development as of December 31, 2016, as well as cumulative claims frequency and the total of incurred but not paid claims liabilities. The information is inclusive of the New York health plan we acquired in 2016. The cumulative claim frequency is measured by claim event, and includes claims covered under capitated arrangements.

Incurred Claims and Allocated Claims Adjustment Expenses					
Benefit Year	2014 [1]	2015 [1]	2016	Total IBNP	Cumulative number of reported claims
			(In millions)		
2014	$ 8,284	$ 8,139	$ 8,138	$ 3	57
2015		12,113	11,928	22	83
2016			15,064	1,327	102
			$ 35,130	$ 1,352	

Cumulative Paid Claims and Allocated Claims Adjustment Expenses			
Benefit Year	2014 [1]	2015 [1]	2016
		(In millions)	
2014	$ 7,220	$ 8,123	$ 8,135
2015		10,615	11,906
2016			13,403
			$ 33,444

The following table represents a reconciliation of claims development to the aggregate carrying amount of the liability for medical claims and benefits payable.

	2016
	(In millions)
Incurred claims and allocated claims adjustment expenses	$ 35,130
Less: cumulative paid clams and allocated claims adjustment expenses	(33,444)
Non-risk provider payables and other	243
Medical claims and benefits payable	$ 1,929

(1) Data presented for these calendar years is required supplementary information, which is unaudited.

That portion of our total medical claims and benefits payable liability that is most subject to variability in the estimate is IBNP. Our IBNP, as included in medical claims and benefits payable, represents our best estimate of the total amount of claims we will ultimately pay with respect to claims that we have incurred as of the balance sheet date. We estimate our IBNP monthly using actuarial methods based on a number of factors.

Assuming that our initial estimate of IBNP is accurate, we believe that amounts ultimately paid would generally be between 8% and 10% less than the IBNP liability recorded at the end of the period as a result of the inclusion in that liability of the provision for adverse claims deviation and the accrued cost of settling those claims. Because the amount of our initial liability is merely an estimate (and therefore not perfectly accurate), we will always experience variability in that estimate as new information becomes available with the passage of time. Therefore, there can be no assurance that amounts ultimately paid out will fall within the range of 8% to 10% lower than the liability that was initially recorded. Furthermore, because our initial estimate of IBNP is derived from many factors, some of which are qualitative in nature rather than quantitative, we are seldom able to assign specific values to the reasons for a change in estimate—we only know when the circumstances for any one or more factors are out of the ordinary.

The use of a consistent methodology in estimating our liability for medical claims and benefits payable minimizes the degree to which the under– or overestimation of that liability at the close of one period may affect consolidated results of operations in subsequent periods. In particular, the use of a consistent methodology should result in the replenishment of reserves during any given period in a manner that generally offsets the benefit of favorable prior period development in that period. Facts and circumstances unique to the estimation process at any single date, however, may still lead to a material impact on consolidated results of operations in subsequent periods. Any

absence of adverse claims development (as well as the expensing through general and administrative expense of the costs to settle claims held at the start of the period) will lead to the recognition of a benefit from prior period claims development in the period subsequent to the date of the original estimate.

As indicated above, the amounts ultimately paid out on our medical claims and benefits payable liabilities in 2016, 2015, and 2014 were less than what we had expected when we had established those liabilities. The differences between our original estimates and the amounts ultimately paid out (or now expected to be ultimately paid out) for the most part related to IBNP. While many related factors working in conjunction with one another serve to determine the accuracy of our estimates, we are seldom able to quantify the impact that any single factor has on a change in estimate. In addition, given the variability inherent in the reserving process, we will only be able to identify specific factors if they represent a significant departure from expectations. As a result, we do not expect to be able to fully quantify the impact of individual factors on changes in estimates.

2016

We believe that the most significant uncertainties relating to our IBNP estimates at December 31, 2016 are as follows:

- Our New York health plan acquisition closed on August 1, 2016, which added approximately 35,000 new members. Because these members are new to Molina and we have little insight into their claims history, our estimates of the liability we have incurred for services provided to these members are subject to more than the usual amount of uncertainty.
- At our Florida, New Mexico, Puerto Rico, Utah and Washington health plans, we overpaid certain inpatient and outpatient facility claims. We adjusted our claims payment history to reflect the claims payment pattern that would have occurred without these overpayments. For this reason, our liability estimates for these health plans are subject to more than the usual amount of uncertainty.
- Fluctuations in the volume of claims received in a paper format (rather than an electronic format) during the third quarter of 2016 have created more than the usual amount of uncertainty regarding our estimate of the liability for our California health plan.
- At our Illinois health plan, certain claims with dates of service in 2014 and 2015 were paid in December 2016. Because of these claims with unusually old dates of service, our liability estimate for the Illinois health plan is subject to more than the usual amount of uncertainty.

We recognized favorable prior period claims development in the amount of $192 million for the year ended December 31, 2016. This amount represents our estimate, as of December 31, 2016, of the extent to which our initial estimate of medical claims and benefits payable at December 31, 2015 was more than the amount that will ultimately be paid out in satisfaction of that liability. We believe the overestimation was due primarily to the following factors:

- A new version of diagnostic codes was required for all claims with dates of service on October 1, 2015, and later. As a result, payment was delayed or denied for a significant number of claims due to provider submission of claims with diagnostic codes that were no longer valid. Once providers were able to submit claims with the correct diagnostic codes, our actual costs were ultimately less than expected.
- At our New Mexico health plan, we overestimated the impact of several pending high-dollar claims, and our actual costs were ultimately less than expected.
- At our Washington health plan, we overpaid certain outpatient facility claims in 2015 when the state converted to a new payment methodology. We did not include an estimate in our December 31, 2015 reserves for this potential recovery.
- At our California health plan, we enrolled approximately 55,000 new Medicaid Expansion members in 2015. For these new members, our actual costs were ultimately less than expected.

2015

We recognized favorable prior period claims development in the amount of $141 million for the year ended December 31, 2015. This amount represented our estimate as of December 31, 2015, of the extent to which our initial estimate of medical claims and benefits payable at December 31, 2014 was more than the amount that was ultimately paid out in satisfaction of that liability. We believe the overestimation was due primarily to the following factors:

- At our Ohio and California health plans, approximately 61,000 and 100,000 members, respectively, were enrolled in the new Medicaid expansion program during 2014. Also in Ohio, approximately 17,000 members were enrolled in the new MMP program in 2014. Because we lacked sufficient historical claims data, we initially estimated the reserves for these new members based upon a number of factors that included pricing assumptions provided by the state; our expectations regarding pent up demand; our beliefs about the speed at which new members would utilize health care services; and other factors. Our actual costs were ultimately less than expected.

- At our New Mexico health plan, the state implemented a retroactive increase to the provider fee schedules in mid-2014. As a result, many claims that were previously settled were reopened, and subject to, additional payment. Because our reserving methodology is most accurate when claims payment patterns are consistent and predictable, the payment of additional amounts on claims that in some cases had been settled more than six months before added a substantial degree of complexity to our liability estimation process. Due to the difficulties in addressing that added complexity, liabilities recorded as of December 31, 2014 were in excess of amounts ultimately paid.

- At our Washington health plan, we collected amounts in 2015 related to certain claims paid in 2013. Such collections were not anticipated in our reserves as of December 31, 2014.

2014

We recognized favorable prior period claims development in the amount of $46 million for the year ended December 31, 2014. This amount represented our estimate as of December 31, 2014, of the extent to which our initial estimate of medical claims and benefits payable at December 31, 2013 was more than the amount that was ultimately paid out in satisfaction of that liability. We believe the overestimation was due primarily to the following factors:

- At our Ohio health plan, we entered new regions in the state, and a new product, ABD Kids, in July 2013. Because we lacked sufficient historical claims data, we initially estimated the reserves for these new members based upon a number of factors that included pricing assumptions provided by the state; our beliefs about the speed at which new members would utilize health care services; and other factors. Our actual costs were ultimately less than expected.

- At our Michigan health plan, we overestimated the impact of certain unpaid potentially high-dollar claims. In addition, we overestimated the impact of the flu season on the outpatient claims for November and December 2013, which caused an overestimation in our outpatient reserve liability as of December 31, 2013.

12. Debt

As of December 31, 2016, contractual maturities of debt for the years ending December 31 are as follows:

	Total	2017	2018	2019	2020	2021	Thereafter
				(In millions)			
5.375% Notes	$ 700	$ —	$ —	$ —	$ —	$ —	$ 700
1.125% Convertible Notes	550	—	—	—	550	—	—
1.625% Convertible Notes (1)	302	—	—	—	—	—	302
	$ 1,552	$ —	$ —	$ —	$ 550	$ —	$ 1,002

(1) The 1.625% Notes have a contractual maturity date in 2044; however, on contractually specified dates beginning in 2018, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes, or we may redeem any or all of the 1.625% Notes.

Substantially all of our debt is held at the parent, which is reported in the Other segment. The principal amounts, unamortized discount (net of premium related to the 1.625% Notes), unamortized issuance costs, and net carrying amounts of debt were as follows:

	Principal Balance	Unamortized Discount	Unamortized Issuance Costs	Net Carrying Amount
		(In millions)		
December 31, 2016:				
5.375% Notes	$ 700	$ —	$ 9	$ 691
1.125% Convertible Notes	550	73	6	471
1.625% Convertible Notes	302	16	2	284
	$ 1,552	$ 89	$ 17	$ 1,446
December 31, 2015:				
5.375% Notes	$ 700	$ —	$ 11	$ 689
1.125% Convertible Notes	550	95	7	448
1.625% Convertible Notes	302	25	4	273
Other	1	—	—	1
	$ 1,553	$ 120	$ 22	$ 1,411

Interest cost recognized relating to our convertible senior notes for the periods presented was as follows:

	Years Ended December 31,		
	2016	2015	2014
	(In millions)		
Contractual interest at coupon rate	$ 11	$ 11	$ 13
Amortization of the discount	30	29	26
	$ 41	$ 40	$ 39

Debt Commitment Letter

On August 2, 2016, in connection with the Proposed Medicare Acquisition, we entered into a debt commitment letter with Barclays Bank PLC (Barclays). The primary terms of the debt commitment letter provided that, subject to satisfaction of certain conditions, including consummation of the Proposed Medicare Acquisition, Barclays would provide us with debt financing up to $400 million. The debt commitment letter automatically terminated in February 2017 as a result of the termination of the Proposed Medicare Acquisition. See Note 1, “Basis of Presentation” for further discussion regarding the termination of the Proposed Medicare Acquisition.

5.375% Notes due 2022

On November 10, 2015, we completed the private offering of $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, unless earlier redeemed. In September 2016, we completed a registration rights agreement to exchange the 5.375% Notes for registered notes having substantially identical terms, including guarantees. Interest on the 5.375% Notes is payable semiannually in arrears on May 15 and November 15.

The 5.375% Notes contain customary non-financial covenants and change of control provisions. At December 31, 2016, we were in compliance with all financial covenants under the 5.375% Notes. Certain of our wholly owned subsidiaries jointly and severally guarantee our obligations under the 5.375% Notes. See Note 23, “Supplemental Condensed Consolidating Financial Information,” for more information on the guarantors.

Credit Facility

In January 2017, we entered into an amended unsecured $500 million revolving credit facility (the Credit Facility). Outstanding letters of credit amounting to $6 million reduce the borrowing capacity to $494 million. The Credit Facility has a term of five years and all amounts outstanding will be due and payable on January 31, 2022. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $650 million.

Borrowings under our Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. In addition to interest payable on the principal amount of indebtedness outstanding from time to time under the Credit Facility, we are required to pay a quarterly commitment fee.

Certain of our wholly owned subsidiaries jointly and severally guarantee our obligations under the Credit Facility. The Credit Facility contains customary non-financial and financial covenants, including a net leverage ratio and an interest coverage ratio. At December 31, 2016, we were not in compliance with the financial covenants under the Credit Facility. In February 2017, we entered into a Second Amendment to the Credit Facility (the Second Amendment). The Second Amendment modified the Credit Facility's definition of the earnings measure used in the covenant computations to: a) allow us to receive credit for risk corridor payments owed to, but not received or accrued by us during 2016; and b) account for the difference between the amount of actual risk transfer payments made or accrued by us during 2016, and the amount of risk transfer payments that would have been due to us under the federal government's proposed 2018 risk adjustment payment transfer formula. The Second Amendment also provides for a waiver by the lenders of our non-compliance with the Credit Facility debt covenants at December 31, 2016. As of December 31, 2016, no amounts were outstanding under the Credit Facility.

1.125% Cash Convertible Senior Notes due 2020

In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes (1.125% Notes) due January 15, 2020, unless earlier repurchased or converted.

Interest is payable semiannually in arrears on January 15 and July 15. The 1.125% Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the 1.125% Notes; equal in right of payment to any of our unsecured indebtedness that is not subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities of our subsidiaries.

The 1.125% Notes are convertible only into cash, and not into shares of our common stock or any other securities. The initial conversion rate for the 1.125% Notes is 24.5277 shares of our common stock per $1,000 principal amount, or approximately $40.77 per share of our common stock. Upon conversion, in lieu of receiving shares of our common stock, a holder will receive an amount in cash, per $1,000 principal amount of 1.125% Notes, equal to the settlement amount, determined in the manner set forth in the indenture. We may not redeem the 1.125% Notes prior to the maturity date. Holders may convert their 1.125% Notes only under the following circumstances:

- during any calendar quarter commencing after the calendar quarter ending on June 30, 2013 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;
- during the five business day period immediately after any five consecutive trading day period (the measurement period) in which the trading price per $1,000 principal amount of 1.125% Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day;
- upon the occurrence of specified corporate events; or
- at any time on or after July 15, 2019 until the close of business on the second scheduled trading day immediately preceding the maturity date.

The 1.125% Notes met the stock price trigger in the quarter ended December 31, 2016, and are convertible into cash through at least March 31, 2017. Because the 1.125% Notes may be converted to cash within 12 months, the $471 million carrying amount is reported in current portion of long-term debt as of December 31, 2016.

The 1.125% Notes contain an embedded cash conversion option (the 1.125% Conversion Option), which was separated from the 1.125% Notes and accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the 1.125% Conversion Option settles or expires. The initial fair value liability of the 1.125% Conversion Option simultaneously reduced the carrying value of the 1.125% Notes (effectively an original issuance discount). This discount is amortized to the 1.125% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. This has resulted in our recognition of interest expense on the 1.125% Notes at an effective rate of approximately 6%. As of December 31, 2016, the 1.125% Notes have a remaining amortization period of 3.0 years. The 1.125% Notes' if-converted value exceeded

their principal amount by approximately $182 million and $332 million as of December 31, 2016 and December 31, 2015, respectively.

1.625% Convertible Senior Notes due 2044

In September 2014, we issued $125 million principal amount of 1.625% convertible senior notes (1.625% Notes) due August 15, 2044, unless earlier repurchased, redeemed or converted. Combined with the 1.625% Notes issued in an exchange transaction in 2014, the aggregate principal amount of 1.625% Notes issued was $302 million. Interest is payable semiannually in arrears on February 15 and August 15. In addition, beginning with the semiannual interest period commencing immediately following the interest payment date on August 15, 2018, contingent interest will accrue on the 1.625% Notes during any semiannual interest period in which certain conditions or events occur, or under certain events of default. For example, additional interest of 0.25% per year will be payable on the 1.625% Notes for any semiannual interest period for which the principal amount of 1.625% Notes outstanding is less than $100 million.

The 1.625% Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the 1.625% Notes; equal in right of payment to any of our unsecured indebtedness that is not subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities of our subsidiaries.

The initial conversion rate for the 1.625% Notes is 17.2157 shares of our common stock per $1,000 principal amount, or approximately $58.09 per share of our common stock. Upon conversion, we will pay cash and, if applicable, deliver shares of our common stock to the converting holder in an amount per $1,000 principal amount of 1.625% Notes equal to the settlement amount (as defined in the related indenture).

Holders may convert their 1.625% Notes only under the following circumstances:

- during any calendar quarter commencing after the calendar quarter ending on September 30, 2014 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;
- during the five business day period after any five consecutive trading day period (the measurement period) in which the trading price per $1,000 principal amount of 1.625% Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day;
- upon the occurrence of specified corporate events;
- if we call any 1.625% Notes for redemption, at any time until the close of business on the business day immediately preceding the redemption date;
- during the period from, and including, May 15, 2018 to the close of business on the business day immediately preceding August 19, 2018; or
- at any time on or after February 15, 2044 until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert their 1.625% Notes, in integral multiples of $1,000 principal amount, at the option of the holder regardless of the foregoing circumstances.

As of December 31, 2016, the 1.625% Notes were not convertible.

We may not redeem the 1.625% Notes prior to August 19, 2018. On or after August 19, 2018, we may redeem for cash all or part of the 1.625% Notes, except for the 1.625% Notes we are required to repurchase in connection with a fundamental change or on any specified repurchase date. The redemption price for the 1.625% Notes will equal 100% of the principal amount of the 1.625% Notes being redeemed, plus accrued and unpaid interest. In addition, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes for cash on August 19, 2018, August 19, 2024, August 19, 2029, August 19, 2034 and August 19, 2039, in each case, at a specified price equal to 100% of the principal amount of the 1.625% Notes to be repurchased, plus accrued and unpaid interest.

Because the 1.625% Notes are net share settled and have cash settlement features, we have allocated the principal amount between a liability component and an equity component. The reduced carrying value on the 1.625% Notes resulted in a debt discount that is amortized back to the 1.625% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. The expected life of the debt is

approximately four years, beginning on the issuance date and ending on the first date we may redeem the 1.625% Notes in August 2018. As of December 31, 2016, the 1.625% Notes have a remaining amortization period of 1.6 years. This has resulted in our recognition of interest expense on the 1.625% Notes at an effective rate approximating what we would have incurred had nonconvertible debt with otherwise similar terms been issued, or approximately 5%. The outstanding 1.625% Notes' if-converted value did not exceed their principal amount at December 31, 2016, and exceeded their principal amount at December 31, 2015 by approximately $10 million. At December 31, 2016 and December 31, 2015, the equity component of the 1.625% Notes, including the impact of deferred taxes, was $23 million.

Lease Financing Obligations

As a result of our continuing involvement in the leasing transactions described below, we are the "accounting owner" of the properties under the leases. The assets are therefore included in our consolidated balance sheets, and are depreciated over their remaining useful lives. The lease financing obligations are amortized over the initial lease terms, such that there will be no gain or loss recorded if the leases are not extended their expiration dates. Payments under the leases adjust the lease financing obligations, and the imputed interest is recorded to interest expense in our consolidated statements of income. Aggregate interest expense under these leases amounted to $17 million, $17 million and $16 million for the years ended December 31, 2016, 2015 and 2014, respectively. For information regarding the future minimum lease obligations, refer to Note 19, "Commitments and Contingencies."

Molina Center and Ohio Exchange. In 2013, we entered into a sale-leaseback transaction for the Molina Center and our Ohio health plan office building located in Columbus, Ohio, also known as the Ohio Exchange. The sale of these properties did not qualify for sales recognition, because certain lease terms resulted in our continuing involvement with these leased properties. Rent increases 3% per year through the initial term, which expires in 2038. The lease provides for six five-year renewal options, with renewal rent to be the higher of the 3% annual escalator or the then-fair market value.

6th and Pine. Also in 2013, we entered into a construction and lease transaction for two office buildings in Long Beach, California (6th and Pine). Due to our participation in the construction project, we retained continuing involvement in the properties. Rent increases 3.4% per year through the initial term, which expires in 2029. The lease provides for two five-year renewal options, with renewal rent to be determined based on the then-fair market value.

13. Derivatives

The following table summarizes the fair values and the presentation of our derivative financial instruments (defined and discussed individually below) in the consolidated balance sheets:

	Balance Sheet Location	December 31, 2016	December 31, 2015
		(In millions)	
Derivative asset:			
1.125% Call Option	Current assets: Derivative asset	$ 267	$ 374
Derivative liability:			
1.125% Conversion Option	Current liabilities: Derivative liability	$ 267	$ 374

Our derivative financial instruments do not qualify for hedge treatment; therefore the change in fair value of these instruments is recognized immediately in our consolidated statements of income, and reported in other expense, net. Gains and losses for our derivative financial instruments are presented individually in the consolidated statements of cash flows, supplemental cash flow information.

1.125% Notes Call Spread Overlay. Concurrent with the issuance of the 1.125% Notes in 2013, we entered into privately negotiated hedge transactions (collectively, the 1.125% Call Option) and warrant transactions (collectively, the 1.125% Warrants), with certain of the initial purchasers of the 1.125% Notes (the Counterparties). We refer to these transactions collectively as the Call Spread Overlay. Under the Call Spread Overlay, the cost of the 1.125% Call Option we purchased to cover the cash outlay upon conversion of the 1.125% Notes was reduced by proceeds from the sale of the 1.125% Warrants. Assuming full performance by the Counterparties (and 1.125% Warrants

strike prices in excess of the conversion price of the 1.125% Notes), these transactions are intended to offset cash payments in excess of the principal amount of the 1.125% Notes due upon any conversion of the 1.125% Notes.

1.125% Call Option. The 1.125% Call Option, which is indexed to our common stock, is a derivative asset that requires mark-to-market accounting treatment due to cash settlement features until the 1.125% Call Option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Call Option, refer to Note 5, "Fair Value Measurements."

1.125% Conversion Option. The embedded cash conversion option within the 1.125% Notes is accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the cash conversion option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Conversion Option, refer to Note 5, "Fair Value Measurements."

As of December 31, 2016, the 1.125% Call Option and the 1.125% Conversion Option were classified as a current asset and current liability, respectively, because the 1.125% Notes may be converted within 12 months of December 31, 2016, as described in Note 12, "Debt."

14. Income Taxes

The provision for income taxes is determined using an estimated annual effective tax rate, which is generally greater than the U.S. federal statutory rate primarily because of state taxes, nondeductible expenses such as the HIF, certain compensation, and other general and administrative expenses. The effective tax rate may be subject to fluctuations during the year, particularly as a result of the level of pretax earnings, and also as new information is obtained. Such information may affect the assumptions used to estimate the annual effective tax rate, including factors such as the mix of pretax earnings in the various tax jurisdictions in which we operate, valuation allowances against deferred tax assets, the recognition or the reversal of the recognition of tax benefits related to uncertain tax positions, and changes in or the interpretation of tax laws in jurisdictions where we conduct business. We recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of our assets and liabilities, along with net operating loss and tax credit carryovers.

The provision for income taxes consisted of the following:

	Year Ended December 31,		
	2016	2015	2014
	(In millions)		
Current:			
Federal	$ 134	$ 172	$ 72
State	3	8	3
Foreign	(6)	6	—
Total current	131	186	75
Deferred:			
Federal	19	(10)	—
State	2	4	(2)
Foreign	1	(1)	—
Total deferred	22	(7)	(2)
	$ 153	$ 179	$ 73

A reconciliation of the U.S. federal statutory income tax rate to the combined effective income tax rate is as follows:

	Year Ended December 31,		
	2016	2015	2014
Statutory federal tax rate	35.0 %	35.0 %	35.0 %
State income taxes, net of federal benefit	1.6	2.4	0.4
Change in unrecognized tax benefits	0.5	0.9	(0.1)
Nondeductible health insurer fee (HIF)	37.0	17.0	22.9
Nondeductible compensation	3.1	0.6	(4.1)
Change in purchase agreement that increased tax basis in assets	(2.2)	—	—
Other	(0.2)	(0.4)	(0.3)
Effective tax rate	74.8 %	55.5 %	53.8 %

Our effective tax rate is based on expected income, statutory tax rates, and tax planning opportunities available to us in the various jurisdictions in which we operate. Significant management estimates and judgments are required in determining our effective tax rate. We are routinely under audit by federal, state, or local authorities regarding the timing and amount of deductions, nexus of income among various tax jurisdictions, and compliance with federal, state, foreign, and local tax laws.

During 2014, the Internal Revenue Service (IRS) issued final regulations related to compensation deduction limitations applicable to certain health insurance issuers. Pursuant to these final regulations, we reversed amounts treated as nondeductible in 2013 and recognized a tax benefit during 2014.

During 2016, 2015, and 2014, excess tax benefits from share-based compensation amounted to $2 million, $8 million, and $3 million, respectively. These amounts were recorded as a decrease to income taxes payable and an increase to additional paid-in capital.

Deferred tax assets and liabilities are classified as non-current. Significant components of our deferred tax assets and liabilities as of December 31, 2016 and 2015 were as follows:

	December 31,	
	2016	2015
	(In millions)	
Accrued expenses	$ 22	$ 37
Reserve liabilities	28	14
Other accrued medical costs	5	5
Net operating losses	13	7
Unrealized losses	1	2
Unearned premiums	27	21
Lease financing obligation	38	35
Deferred compensation	6	8
Tax credit carryover	7	8
Valuation allowance	(16)	(9)
Total deferred income tax assets, net of valuation allowance	131	128
Prepaid expenses	(9)	(9)
Depreciation and amortization	(104)	(83)
Basis in debt	(23)	(18)
Total deferred income tax liabilities	(136)	(110)
Net deferred income tax (liability) asset - long term	$ (5)	$ 18

At December 31, 2016, we had state net operating loss carryforwards of $315 million, which begin expiring in 2018.

At December 31, 2016, we had California enterprise zone tax credit carryovers of $11 million, which will begin to expire in 2024.

We evaluate the need for a valuation allowance taking into consideration the ability to carry back and carry forward tax credits and losses, available tax planning strategies and future income, including reversal of temporary differences. We have determined that as of December 31, 2016, $16 million of deferred tax assets did not satisfy the recognition criteria due to uncertainty regarding the realization of some of our state net operating loss

carryforwards. Therefore, we increased our valuation allowance by $7 million, from $9 million at December 31, 2015, to $16 million as of December 31, 2016.

We recognize tax benefits only if the tax position is more likely than not to be sustained. We are subject to income taxes in the United States, Puerto Rico, and numerous state jurisdictions. Significant judgment is required in evaluating our tax positions and determining our provision for income taxes. During the ordinary course of business, there are many transactions and calculations for which the ultimate tax determination is uncertain. We establish reserves for tax-related uncertainties based on estimates of whether, and the extent to which, additional taxes will be due. These reserves are established when we believe that certain positions might be challenged despite our belief that our tax return positions are fully supportable. We adjust these reserves in light of changing facts and circumstances, such as the outcome of tax audits. The provision for income taxes includes the impact of reserve provisions and changes to reserves that are considered appropriate.

The roll forward of our unrecognized tax benefits is as follows:

	Year Ended December 31,		
	2016	2015	2014
	(In millions)		
Gross unrecognized tax benefits at beginning of period	$ (9)	$ (3)	$ (8)
Increases in tax positions for current year	(1)	(1)	—
Increases in tax positions for prior years	(1)	(5)	(1)
Settlements	—	—	6
Gross unrecognized tax benefits at end of period	$ (11)	$ (9)	$ (3)

The total amount of unrecognized tax benefits at December 31, 2016, 2015 and 2014 that, if recognized, would affect the effective tax rates is $9 million, $7 million and $2 million, respectively. We expect that during the next 12 months it is reasonably possible that unrecognized tax benefit liabilities may decrease by as much as $2 million due to the expiration of statutes of limitation.

Our continuing practice is to recognize interest and/or penalties related to unrecognized tax benefits in income tax expense. Amounts accrued for the payment of interest and penalties as of December 31, 2016, 2015 and 2014 were insignificant.

We are under examination by the IRS for calendar year 2011 and may be subject to examination for calendar years 2012 through 2015. We are under examination, or may be subject to examination, in Puerto Rico and certain state and local jurisdictions, with the major state jurisdictions being California, Michigan, and Illinois for the years 2009 through 2015.

15. Stockholders' Equity

Common Stock Offering. In June 2015, we completed an underwritten public offering of 5,750,000 shares of our common stock, including the over-allotment option. Net of issuance costs, proceeds from the offering amounted to $373 million, or $64.90 per share, resulting in an increase to additional paid-in capital. We are using the proceeds to finance working capital needs, acquisitions, capital expenditures, and other general corporate activities.

1.125% Warrants. In connection with the Call Spread Overlay transaction described in Note 13, “Derivatives,” in 2013, we issued 13,490,236 warrants with a strike price of $53.8475 per share. The number of warrants and the strike price are subject to adjustment under certain circumstances. If the market value per share of our common stock exceeds the strike price of the 1.125% Warrants on any trading day during the 160 trading day measurement period (beginning on April 15, 2020) under the 1.125% Warrants, we will be obligated to issue to the Counterparties a number of shares equal in value to the product of the amount by which such market value exceeds such strike price and 1/160th of the aggregate number of shares of our common stock underlying the 1.125% Warrants, subject to a share delivery cap. The 1.125% Warrants could separately have a dilutive effect to the extent that the market value per share of our common stock exceeds the applicable strike price of the 1.125% Warrants. Refer to Note 3, “Net Income per Share,” for dilution information for the periods presented. We will not receive any additional proceeds if the 1.125% Warrants are exercised.

Securities Repurchase Programs. In December 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. We did not repurchase any shares under this program, which expired without renewal on December 31, 2016.

Stock Incentive Plans. At December 31, 2016, we had employee equity incentives outstanding under two plans: (1) the 2011 Equity Incentive Plan (2011 Plan); and (2) the 2002 Equity Incentive Plan (from which equity incentives are no longer awarded).

The 2011 Plan provides for the award of restricted shares and units, performance shares and units, stock options and stock bonuses to the company's officers, employees, directors, consultants, advisers, and other service providers. The 2011 Plan provides for the issuance of up to 4.5 million shares of common stock.

Restricted share awards are granted with a fair value equal to the market price of our common stock on the date of grant, and generally vest in equal annual installments over periods up to four years from the date of grant. We recognize expense for these awards on a straight-line basis. Stock option awards have an exercise price equal to the fair market value of our common stock on the date of grant, generally vest in equal annual installments over periods up to four years from the date of grant, and have a maximum term of ten years from the date of grant.

In connection with our equity incentive plans and employee stock purchase plan, approximately 674,000 shares of common stock were purchased or vested, net of shares used to settle employees' income tax obligations, during the year ended December 31, 2016.

Charged to general and administrative expenses, total share-based compensation expense was as follows:

	Year Ended December 31,					
	2016		2015		2014	
	(In millions)					
	Pretax Charges	Net-of-Tax Amount	Pretax Charges	Net-of-Tax Amount	Pretax Charges	Net-of-Tax Amount
Restricted stock and performance awards	$ 20	$ 17	$ 19	$ 13	$ 19	$ 12
Employee stock purchase plan and stock options	6	5	4	3	3	2
	$ 26	$ 22	$ 23	$ 16	$ 22	$ 14

As of December 31, 2016, there was $29 million of total unrecognized compensation expense related to unvested restricted share awards, including those with performance conditions, which we expect to recognize over a remaining weighted-average period of 1.7 years. This unrecognized compensation cost assumes an estimated forfeiture rate of 4.7% for non-executive employees as of December 31, 2016. As of December 31, 2016, there was no unrecognized compensation expense related to unvested stock options.

Restricted stock. Restricted and performance stock activity for the year ended December 31, 2016 is summarized below:

	Restricted Shares	Performance Shares	Total Shares	Weighted Average Grant Date Fair Value
Unvested balance as of December 31, 2015	658,156	376,601	1,034,757	$ 46.68
Granted	300,007	226,010	526,017	63.84
Vested	(352,292)	—	(352,292)	42.06
Canceled	—	(256,955)	(256,955)	46.24
Forfeited	(28,627)	—	(28,627)	53.06
Unvested balance as of December 31, 2016	577,244	345,656	922,900	$ 58.15

The total fair value of restricted awards, including those with performance or market conditions, granted during the years ended December 31, 2016, 2015, and 2014 was $34 million, $28 million, and $25 million, respectively. The total fair value of restricted awards, including those with performance or market conditions, which vested during the years ended December 31, 2016, 2015, and 2014 was $22 million, $39 million, and $24 million, respectively.

Employee Stock Purchase Plan. Under our employee stock purchase plan (ESPP), eligible employees may purchase common shares at 85% of the lower of the fair market value of our common stock on either the first or last trading day of each six-month offering period. Each participant is limited to a maximum purchase of $25,000 (as measured by the fair value of the stock acquired) per year through payroll deductions. We estimate the fair value of the stock issued using the Black-Scholes option pricing model. For the years ended December 31, 2016, 2015, and 2014, the inputs to this model were as follows: risk-free interest rates of approximately 0.1% to 0.5%; expected volatilities ranging from approximately 30% to 40%, dividend yields of 0%, and an average expected life of 0.5

years. We issued approximately 410,000, 302,000 and 327,000 shares of our common stock under the ESPP during the years ended December 31, 2016, 2015, and 2014, respectively. The 2011 ESPP provides for the issuance of up to three million shares of common stock.

Stock Options. No stock options were granted in 2016, 2015 and 2014, and stock options outstanding as of December 31, 2016 were insignificant. The total intrinsic value of options exercised during the years ended December 31, 2016, 2015, and 2014 was $1 million, $6 million, and $2 million, respectively.

16. Employee Benefits

We sponsor defined contribution 401(k) plans that cover substantially all full-time salaried and hourly employees of our company and its subsidiaries. Eligible employees are permitted to contribute up to the maximum amount allowed by law. We generally match up to the first 4% of compensation contributed by employees. Expense recognized in connection with our contributions to the 401(k) plans totaled $36 million, $27 million and $21 million in the years ended December 31, 2016, 2015, and 2014, respectively.

We also have a nonqualified deferred compensation plan for certain key employees. Under this plan, eligible participants may defer up to 100% of their base salary and 100% of their bonus to provide tax-deferred growth for retirement. The funds deferred are invested in corporate-owned life insurance, under a rabbi trust.

17. Related Party Transactions

Our California health plan has entered into a provider agreement with Pacific Healthcare IPA (Pacific), which is 50% owned by the brother-in-law of Dr. J. Mario Molina and John C. Molina. Under the terms of this provider agreement, the California health plan paid Pacific approximately $1 million in each of 2015 and 2014 for medical care provided to health plan members. Payments in 2016 were insignificant.

Refer to Note 18, “Variable Interest Entities (VIEs),” for a discussion of the Joseph M. Molina, M.D. Professional Corporations.

18. Variable Interest Entities (VIEs)

Joseph M. Molina M.D., Professional Corporations

The Joseph M. Molina, M.D. Professional Corporations (JMMPC) were created to further advance our direct delivery business. JMMPC’s primary shareholder is Dr. J. Mario Molina, our chief executive officer, president, and chairman of the board of directors. Dr. Molina is paid no salary and receives no dividends in connection with his work for, or ownership of, JMMPC. JMMPC provides primary care medical services through its employed physicians and other medical professionals. JMMPC also provides certain specialty referral services to our California health plan members through a contracted provider network. Substantially all of the individuals served by JMMPC are members of our health plans. JMMPC does not have agreements to provide professional medical services with any other entities.

Our wholly owned subsidiary, Molina Medical Management, Inc. (MMM), has entered into services agreements with JMMPC to provide clinic facilities, clinic administrative support staff, patient scheduling services and medical supplies to JMMPC. The services agreements were designed such that JMMPC will operate at break even, ensuring the availability of quality care and access for our health plan members. The services agreements provide that the administrative fees charged to JMMPC by MMM are reviewed annually to assure the achievement of this goal. For the years ended December 31, 2016, 2015 and 2014, JMMPC paid $55 million, $69 million and $11 million, respectively, to MMM for clinic administrative services provided by MMM to JMMPC.

Separately, our California, Florida, New Mexico, Utah and Washington health plans have entered into primary care services agreements with JMMPC. These agreements direct our health plans to either fund JMMPC’s operating deficits, or receive JMMPC’s operating surpluses, such that JMMPC will derive no profit or loss. Because the MMM services agreements described above mitigate the likelihood of significant operating deficits or surpluses, such amounts either paid to JMMPC or received by the health plans are generally insignificant. For the years ended December 31, 2016, 2015, and 2014, our health plans paid $122 million, $117 million and $32 million, respectively, to JMMPC for health care services provided by JMMPC to the health plans’ members.

We have determined that JMMPC is a VIE, and that we are its primary beneficiary. We have reached this conclusion under the power and benefits criterion model according to GAAP. Specifically, we have the power to direct the activities (excluding clinical decisions) that most significantly affect JMMPC's economic performance, and the obligation to absorb losses or the right to receive benefits that are potentially significant to the VIE, under the agreements described above. Because we are its primary beneficiary, we have consolidated JMMPC. JMMPC's assets may be used to settle only JMMPC's obligations, and JMMPC's creditors have no recourse to the general credit of Molina Healthcare, Inc. As of December 31, 2016, JMMPC had total assets of $18 million, and total liabilities of $18 million. As of December 31, 2015, JMMPC had total assets of $17 million, and total liabilities of $17 million.

Our maximum exposure to loss as a result of our involvement with JMMPC is generally limited to the amounts needed to fund JMMPC's ongoing payroll, employee benefits and medical care costs associated with JMMPC's specialty referral activities. We believe that such loss exposures will be insignificant to our consolidated operating results and cash flows for the foreseeable future.

New Markets Tax Credit

In 2011, our New Mexico data center subsidiary entered into a financing transaction with Wells Fargo Community Investment Holdings, LLC (Wells Fargo), its wholly owned subsidiary New Mexico Healthcare Data Center Investment Fund, LLC (Investment Fund), and certain of Wells Fargo's affiliated Community Development Entities (CDEs), in connection with our participation in the federal government's New Markets Tax Credit Program (NMTC). The credit amounts to 39% of the original investment amount and is claimed over a period of seven years (five percent for each of the first three years, and six percent for each of the remaining four years). The investment in the CDE cannot be redeemed before the end of the seven-year period.

As a result of a series of simultaneous financing transactions, Wells Fargo contributed capital of $6 million to the Investment Fund, and Molina Healthcare, Inc. loaned the principal amount of $16 million to the Investment Fund. The Investment Fund then contributed the proceeds to certain CDEs, which, in turn, loaned the proceeds of $21 million to our New Mexico data center subsidiary.

We have determined that the financing arrangement with Investment Fund and CDEs is a VIE, that we are the primary beneficiary of the VIE, and we have included it in our consolidated financial statements. Wells Fargo's contribution of $6 million is included in cash at December 31, 2016 and December 31, 2015 and the offsetting amount of Wells Fargo's interest in the financing arrangement is included in other liabilities in the accompanying consolidated balance sheets.

19. Commitments and Contingencies

Regulatory Capital Requirements and Dividend Restrictions

Our health plans, which are operated by our respective wholly owned subsidiaries in those states, are subject to state laws and regulations that, among other things, require the maintenance of minimum levels of statutory capital, as defined by each state. Regulators in some states may also enforce capital requirements that require the retention of net worth in excess of amounts formally required by statute or regulation. Such statutes, regulations and informal capital requirements also restrict the timing, payment, and amount of dividends and other distributions that may be paid to us as the sole stockholder. To the extent our subsidiaries must comply with these regulations, they may not have the financial flexibility to transfer funds to us. Based on current statutes and regulations, the net assets in these subsidiaries (after intercompany eliminations) which may not be transferable to us in the form of loans, advances, or cash dividends was approximately $1,492 million at December 31, 2016, and $1,229 million at December 31, 2015. Because of the statutory restrictions that inhibit the ability of our health plans to transfer net assets to us, the amount of retained earnings readily available to pay dividends to our stockholders is generally limited to cash, cash equivalents and investments held by the parent company – Molina Healthcare, Inc. Such cash, cash equivalents and investments amounted to $264 million and $612 million as of December 31, 2016 and 2015, respectively.

The National Association of Insurance Commissioners (NAIC), adopted rules effective December 31, 1998, which, if implemented by the states, set minimum capitalization requirements for insurance companies, HMOs, and other entities bearing risk for health care coverage. The requirements take the form of risk-based capital (RBC) rules which may vary from state to state. All of the states in which our health plans operate, except California, Florida and New York, have adopted these rules. Such requirements, if adopted by California, Florida and New York, may increase the minimum capital required for those states.

As of December 31, 2016, our health plans had aggregate statutory capital and surplus of approximately $1,693 million compared with the required minimum aggregate statutory capital and surplus of approximately $1,100 million. All of our health plans were in compliance with the minimum capital requirements at December 31, 2016. We have the ability and commitment to provide additional capital to each of our health plans when necessary to ensure that statutory capital and surplus continue to meet regulatory requirements.

Legal Proceedings

The health care and Medicaid-related business process outsourcing industries are subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly funded programs, and the repayment of previously billed and collected revenues.

We are involved in legal actions in the ordinary course of business, some of which seek monetary damages, including claims for punitive damages, which are not covered by insurance. We have accrued liabilities for certain matters for which we deem the loss to be both probable and estimable. Although we believe that our estimates of such losses are reasonable, these estimates could change as a result of further developments of these matters. The outcome of legal actions is inherently uncertain and such pending matters for which accruals have not been established have not progressed sufficiently through discovery and/or development of important factual information and legal issues to enable us to estimate a range of possible loss, if any. While it is not possible to accurately predict or determine the eventual outcomes of these items, an adverse determination in one or more of these pending matters could have a material adverse effect on our consolidated financial position, results of operations, or cash flows.

Marketplace Risk Corridor Program. On January 19, 2017, we filed suit against the United States of America in the United States Court of Federal Claims, Case Number 1:55-cv-01000-UNJ, on behalf of our health plans seeking recovery from the federal government of approximately $52 million in Marketplace risk corridor payments for calendar year 2015. Based upon current estimates, we believe our health plans are also owed approximately $90 million in Marketplace risk corridor payments from the federal government for calendar year 2016, and a further nominal amount for calendar year 2014. Our lawsuit seeks recovery of all of these unpaid amounts. We have not recognized revenue, nor have we recorded a receivable, for any amount due from the federal government for unpaid Marketplace risk corridor payments as of December 31, 2016. We have fully recognized all liabilities due to the federal government that we have incurred under the Marketplace risk corridor program, and have paid all amounts due to the federal government as required.

Rodriguez v. Providence Community Corrections. On October 1, 2015, seven individuals, on behalf of themselves and all others similarly situated, filed a complaint in the District Court for the Middle District of Tennessee, Nashville Division, Case No. 3:15-cv-01048 (the Rodriquez Litigation), against Providence Community Corrections, Inc. (now known as Pathways Community Corrections, Inc., or PCC). Rutherford County, Tennessee formerly contracted with PCC for the administration of misdemeanor probation, which involved the collection of court costs and fees from probationers. The complaint alleges, among other things, that PCC illegally assessed fees and surcharges against probationers and made improper threats of arrest and probation revocation if the probationers did not pay such amounts. The plaintiffs in the Rodriguez Litigation seek alleged compensatory, treble, and punitive damages, plus attorneys' fees, for alleged federal and state constitutional violations, as well as alleged violations of the Racketeer Influenced and Corrupt Organization Act. PCC's agreement with Rutherford County terminated effective March 31, 2016. On November 1, 2015, one month after the Rodriguez Litigation commenced, we acquired PCC from The Providence Service Corporation (Providence) pursuant to a membership interest purchase agreement. In September 2016, the parties to the Rodriguez Litigation accepted a mediation proposal for settlement pursuant to which PCC would pay the plaintiffs $14 million. The parties are in the process of finalizing the settlement agreement. We expect to recover the full amount of the settlement under the indemnification provisions of the membership interest purchase agreement with Providence.

United States of America, ex rel., Anita Silingo v. Mobile Medical Examination Services, Inc., et al. On or around October 14, 2014, Molina Healthcare of California, Molina Healthcare of California Partner Plan, Inc., Mobile Medical Examination Services, Inc. (MedXM), and other health plan defendants were served with a Complaint previously filed under seal in the Central District Court of California by Relator, Anita Silingo, Case No. SACV13-1348-FMO(SHx). The Complaint alleges that MedXM improperly modified medical records and otherwise took inappropriate steps to increase members' risk adjustment scores, and that the defendants, including Molina Healthcare of California and Molina Healthcare of California Partner Plan, Inc., purportedly turned a "blind eye" to these unlawful practices. On October 22, 2015, the Relator filed a third amended complaint. On July 11, 2016, the District Court dismissed with prejudice the third amended complaint, without leave to amend. On

September 23, 2016, the plaintiff filed an appeal with the Ninth Circuit Court of Appeals. The plaintiff/appellant's opening brief is due March 6, 2017, and the defendant/appellee's opening brief is due April 5, 2017.

State of Louisiana. On June 26, 2014, the state of Louisiana filed a Petition for Damages against Molina Medicaid Solutions, Molina Healthcare, Inc., Unisys, and Paramax Systems Corporation, a subsidiary of Unisys, in the Parish of Baton Rouge, 19th Judicial District, versus number 631612. The Petition alleges that between 1989 and 2012, the defendants utilized an incorrect reimbursement formula for the payment of pharmaceutical claims. We believe that, pursuant to a settlement with the state, this matter will be dismissed against Molina Medicaid Solutions with no liability.

Hospital Management Contract. During the fourth quarter of 2015, we recorded a contract settlement charge of approximately $15 million as a result of our termination of a hospital management agreement.

States' Budgets

From time to time the states in which our health plans operate may experience financial difficulties, which could lead to delays in premium payments. For example, the state of Illinois is operating without a budget for its current fiscal year. It is unclear when or if the state's budget difficulties will be resolved. As of December 31, 2016, our Illinois health plan served approximately 195,000 members and recognized premium revenue of approximately $601 million for the year ended December 31, 2016. As of February 24, 2017, the state of Illinois owed us approximately $68 million for certain October, November and December 2016 premiums.

In another example, the Commonwealth of Puerto Rico's fiscal plan, issued on October 14, 2016, reported that current revenues are insufficient to support existing current operations and debt service. While the Commonwealth reports that it will prioritize health care spending, it stresses the need to address the cap on federal matching funds it receives for its participation in the Medicaid program. Among the fiscal issues expected to further exacerbate the Commonwealth's current debt crisis is the depletion of ACA funds, estimated to occur in the Commonwealth's fiscal year 2018. As of December 31, 2016, our Puerto Rico health plan served approximately 330,000 members and recorded premium revenue of approximately $726 million for the year ended December 31, 2016. As of February 24, 2017, the Commonwealth is current with its premium payments.

Operating Leases

We lease administrative and clinic facilities and certain equipment under non-cancelable operating leases expiring at various dates through 2027. Facility lease terms generally range from five to 10 years with one to two renewal options for extended terms. In most cases, we are required to make additional payments under facility operating leases for taxes, insurance and other operating expenses incurred during the lease period. Certain of our leases contain rent escalation clauses or lease incentives, including rent abatements and tenant improvement allowances. Rent escalation clauses and lease incentives are taken into account in determining total rent expense to be recognized during the lease term.

Future minimum lease payments by year and in the aggregate under operating leases and lease financing obligations consist of the following amounts:

	Lease Financing Obligations	Operating Leases	Total
		(In millions)	
2017	$ 17	$ 63	$ 80
2018	17	57	74
2019	18	50	68
2020	19	33	52
2021	19	21	40
Thereafter	337	43	380
	$ 427	$ 267	$ 694

Rental expense related to operating leases amounted to $64 million, $44 million, and $32 million for the years ended December 31, 2016, 2015, and 2014, respectively. The amounts reported in "Lease Financing Obligations" above represent our contractual lease commitments for the properties described in Note 12, "Debt" under the subheading "Lease Financing Obligations."

Professional Liability Insurance

We carry medical professional liability insurance for health care services rendered in the primary care institutions that we manage. In addition, we also carry errors and omissions insurance for all Molina entities.

Provider Claims

Many of our medical contracts are complex in nature and may be subject to differing interpretations regarding amounts due for the provision of various services. Such differing interpretations have led certain medical providers to pursue us for additional compensation. The claims made by providers in such circumstances often involve issues of contract compliance, interpretation, payment methodology, and intent. These claims often extend to services provided by the providers over a number of years.

Various providers have contacted us seeking additional compensation for claims that we believe to have been settled. These matters, when finally concluded and determined, will not, in our opinion, have a material adverse effect on our business, consolidated financial position, results of operations, or cash flows.

Employment Agreements

In 2002, we entered into employment agreements with our Chief Executive Officer and Chief Financial Officer, which were further amended and restated in 2016. These amended and restated employment agreements had an initial one-year term, and are subject to automatic one-year extensions thereafter. Should the executives be terminated without cause or resign for good reason before a change of control, as defined, we will pay 400% of the executive's base salary then in effect and a prorated termination bonus (150% of base salary for the Chief Executive Officer and 125% of base salary for the Chief Financial Officer), in addition to full vesting of equity compensation, and a cash payment for health and welfare benefits.

In 2013, we entered into employment agreements with our Chief Operating Officer, Chief Accounting Officer, and Chief Legal Officer. These agreements continue until terminated by us, or the executive resigns. If the executive's employment is terminated by us without cause or the executive resigns for good reason, the executive will be entitled to receive one year's base salary and termination bonus, as defined, full vesting of time-based equity compensation, and a cash payment for health and welfare benefits.

Payment of the severance benefits described above is contingent upon the executive's signing a release agreement waiving claims against us. If the executives are terminated for cause, no further payments are due under the contracts.

20. Segment Information

We have three reportable segments. These segments consist of our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment, which includes our behavioral health and social services subsidiary, Pathways.

Our reportable segments are consistent with how we currently manage our business and view the markets we serve. The Health Plans segment consists of our health plans and our direct delivery business. Our health plans are operating segments that have been aggregated for reporting purposes because they share similar economic characteristics. The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs including business processing, information technology development, and administrative services. The Other segment includes primarily our Pathways behavioral health and social services provider, and corporate amounts not allocated to other reportable segments.

Gross margin is the appropriate earnings measure for our reportable segments, based on how our chief operating decision maker currently reviews results, assesses performance, and allocates resources.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." Medical margin represents the amount earned by the Health Plans segment after medical costs are deducted from premium revenue. The medical care ratio represents the amount of medical care costs as a percentage of premium revenue, and is one of the key metrics used to assess the performance of the Health Plans segment. Therefore, the underlying medical margin is the most important measure of earnings reviewed by the chief operating decision maker. The service margin is equal to service revenue minus cost of service revenue.

	Health Plans	Molina Medicaid Solutions	Other	Consolidated
		(In millions)		
2016				
Total revenue [1]	$ 17,234	$ 195	$ 353	$ 17,782
Gross margin	1,618	21	33	1,672
Depreciation and amortization [2]	122	45	15	182
Goodwill, and intangible assets, net	513	72	175	760
Total assets	5,897	267	1,285	7,449
2015				
Total revenue [1]	13,917	195	66	14,178
Gross margin	1,447	55	5	1,507
Depreciation and amortization [2]	95	25	6	126
Goodwill, and intangible assets, net	393	73	175	641
Total assets	4,707	213	1,656	6,576
2014				
Total revenue [1]	9,449	210	8	9,667
Gross margin	947	53	—	1,000
Depreciation and amortization [2]	83	46	5	134
Goodwill, and intangible assets, net	286	75	—	361
Total assets	3,355	185	895	4,435

(1) Total revenue consists primarily of premium revenue, premium tax revenue and health insurer fee revenue for the Health Plans segment, and service revenue for the Molina Medicaid Solutions and Other segments.

(2) Depreciation and amortization reported in accompanying consolidated statements of cash flows.

The following table reconciles gross margin by segment to consolidated income before income tax expense:

	Year Ended December 31,		
	2016	2015	2014
	(In millions)		
Gross margin:			
Health Plans	$ 1,618	$ 1,447	$ 947
Molina Medicaid Solutions	21	55	53
Other	33	5	—
Total gross margin	1,672	1,507	1,000
Add: other operating revenues [1]	851	684	434
Less: other operating expenses [2]	(2,217)	(1,804)	(1,241)
Operating income	306	387	193
Other expenses, net	101	65	58
Income before income tax expense	$ 205	$ 322	$ 135

(1) Other operating revenues include premium tax revenue, health insurer fee revenue, investment income and other revenue.

(2) Other operating expenses include general and administrative expenses, premium tax expenses, health insurer fee expenses, and depreciation and amortization.

21. Quarterly Results of Operations (Unaudited)

The following table summarizes quarterly unaudited results of operations for the years ended December 31, 2016 and 2015.

	For The Quarter Ended			
	March 31, 2016	June 30, 2016	Sept. 30, 2016	December 31, 2016
	(In millions, except per-share data)			
Premium revenue	$ 3,995	$ 4,029	$ 4,191	$ 4,177
Service revenue	140	135	133	131
Operating income (loss)	89	105	118	(6)
Net income (loss)	24	33	42	(47)
Net income (loss) per share [1]:				
Basic	$ 0.44	$ 0.58	$ 0.77	$ (0.85)
Diluted	$ 0.43	$ 0.58	$ 0.76	$ (0.85)

	For The Quarter Ended			
	March 31, 2015	June 30, 2015	Sept. 30, 2015	December 31, 2015
	(In millions, except per-share data)			
Premium revenue	$ 2,971	$ 3,304	$ 3,377	$ 3,589
Service revenue	52	47	47	107
Operating income	82	116	113	76
Net income	28	39	46	30
Net income per share [1]:				
Basic	$ 0.58	$ 0.78	$ 0.84	$ 0.54
Diluted	$ 0.56	$ 0.72	$ 0.77	$ 0.52

(1) The dilutive effect of all potentially dilutive common shares is calculated using the treasury-stock method. Certain potentially dilutive common shares issuable are not included in the computation of diluted net income per share because to do so would be anti-dilutive.

22. Condensed Financial Information of Registrant

The condensed balance sheets as of December 31, 2016 and 2015, and the related condensed statements of income, comprehensive income and cash flows for each of the three years in the period ended December 31, 2016 for our parent company Molina Healthcare, Inc. (the Registrant), are presented below.

Cash and cash equivalents at end of year	$ 86	$ 360	$ 75

See accompanying notes.

Notes to Condensed Financial Information of Registrant

Note A - Basis of Presentation

The Registrant was incorporated in 2002. Prior to that date, Molina Healthcare of California (formerly known as Molina Medical Centers) operated as a California health plan and as the parent company for three other state health plans. In June 2003, the employees and operations of the corporate entity were transferred from Molina Healthcare of California to the Registrant.

The Registrant's investment in subsidiaries is stated at cost plus equity in undistributed earnings of subsidiaries since the date of acquisition. The accompanying condensed financial information of the Registrant should be read in conjunction with the consolidated financial statements and accompanying notes.

Note B - Transactions with Subsidiaries

The Registrant provides certain centralized medical and administrative services to its subsidiaries pursuant to administrative services agreements, including medical affairs and quality management, health education, credentialing, management, financial, legal, information systems and human resources services. Fees are based on the fair market value of services rendered and are recorded as operating revenue. Payment is subordinated to the subsidiaries' ability to comply with minimum capital and other restrictive financial requirements of the states in which they operate. Charges in 2016, 2015, and 2014 for these services amounted to $1,062 million, $914 million, and $692 million, respectively, and are included in operating revenue.

The Registrant and its subsidiaries are included in the consolidated federal and state income tax returns filed by the Registrant. Income taxes are allocated to each subsidiary in accordance with an intercompany tax allocation agreement. The agreement allocates income taxes in an amount generally equivalent to the amount which would

be expensed by the subsidiary if it filed a separate tax return. Net operating loss benefits are paid to the subsidiary by the Registrant to the extent such losses are utilized in the consolidated tax returns.

Note C - Dividends and Capital Contributions

When the Registrant receives dividends from its subsidiaries, such amounts are recorded as a reduction to the investments in the respective subsidiaries.

For all periods presented, the Registrant made capital contributions to certain subsidiaries primarily to comply with minimum net worth requirements and to fund business combinations. Such amounts have been recorded as an increase in investment in the respective subsidiaries, net of insignificant returns of capital.

Note D - Related Party Transactions

The Registrant's related party transactions are described in Note 17, "Related Party Transactions."

23. Supplemental Condensed Consolidating Financial Information

As discussed in Note 12, “Debt,” in November 2015 we completed the private offering of $700 million aggregate principal amount of 5.375% Notes, which were subsequently exchanged for registered notes in September 2016.

The 5.375% Notes are fully and unconditionally guaranteed by certain of our wholly owned subsidiaries on a joint and several basis, with exceptions considered customary for such guarantees. The 5.375% Notes and the guarantees are effectively subordinated to all existing and future secured debt of us and our guarantors to the extent of the assets securing such debt. In addition, the 5.375% Notes and the guarantees are structurally subordinated to all indebtedness and other liabilities and preferred stock of our subsidiaries that do not guarantee the 5.375% Notes.

In January 2017, pursuant to the terms of the amended Credit Facility described in Note 12, “Debt,” and the terms of the indenture governing the 5.375% Notes, all guarantors immediately prior to January 3, 2017 other than Molina Information Systems, LLC, d/b/a Molina Medicaid Solutions, Molina Pathways, LLC and Pathways Health and Community Support LLC were automatically and unconditionally released as guarantors of our amended Credit Facility and the 5.375% Notes.

The following condensed consolidating financial statements present Molina Healthcare, Inc. (as parent guarantor), the subsidiary guarantors, the subsidiary non-guarantors and eliminations.

DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

The following sets forth certain information regarding our executive officers, including the business experience of each executive officer during the past five years:

Name	Age	Position
J. Mario Molina, M.D.	58	President and Chief Executive Officer
John C. Molina, J.D.	52	Chief Financial Officer
Terry P. Bayer	66	Chief Operating Officer
Joseph W. White	58	Chief Accounting Officer
Jeff D. Barlow	54	Chief Legal Officer and Corporate Secretary

Dr. Molina has served as President and Chief Executive Officer since succeeding his father and company founder, Dr. C. David Molina, in 1996. He has also served as Chairman of the Board of Directors since 1996. Dr. Molina is the brother of John C. Molina.

Mr. Molina has served as Chief Financial Officer since 1995. He also has served as a member of the Board of Directors since 1994. Mr. Molina is the brother of Dr. J. Mario Molina.

Ms. Bayer has served as Chief Operating Officer since 2005.

Mr. White has served as Chief Accounting Officer since 2007.

Mr. Barlow has served as Chief Legal Officer and Corporate Secretary since 2010.

The remaining information called for by Item 10 of Form 10-K is incorporated by reference to “Election of Directors,” “Corporate Governance and Board of Directors Matters,” and “Section 16(a) Beneficial Ownership Reporting Compliance” in our definitive proxy statement for our 2017 Annual Meeting of Stockholders.

EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) The consolidated financial statements and exhibits listed below are filed as part of this report.

(1) The financial statements included in Financial Statements and Supplementary Data, above, are filed as part of this annual report.

(2) Financial Statement Schedules

None of the schedules apply, or the information required is included in the Notes to the Consolidated Financial Statements.

(3) Exhibits

Reference is made to the accompanying Index to Exhibits.

INDEX TO EXHIBITS

The following exhibits, which are furnished with this annual report or incorporated herein by reference, are filed as part of this annual report.

The agreements included or incorporated by reference as exhibits to this Annual Report on Form 10-K may contain representations and warranties by each of the parties to the applicable agreement. These representations and warranties were made solely for the benefit of the other parties to the applicable agreement and (i) were not intended to be treated as categorical statements of fact, but rather as a way of allocating the risk to one of the parties if those statements prove to be inaccurate; (ii) may have been qualified in such agreement by disclosures that were made to the other party in connection with the negotiation of the applicable agreement; (iii) may apply contract standards of "materiality" that are different from "materiality" under the applicable securities laws; and (iv) were made only as of the date of the applicable agreement or such other date or dates as may be specified in the agreement. The Company acknowledges that, notwithstanding the inclusion of the foregoing cautionary statements, it is responsible for considering whether additional specific disclosures of material information regarding material contractual provisions are required to make the statements in this Annual Report on Form 10-K not misleading.

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, Joseph M. Molina, M.D., certify that:

1. I have reviewed the annual report on Form 10-K for the period ended December 31, 2016 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

MOLINA HEALTHCARE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
September 30, 2016

1. Basis of Presentation

Organization and Operations

Molina Healthcare, Inc. provides quality managed health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments include our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment, which includes our behavioral health and social services subsidiary, Pathways. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015. All prior periods reported conform to this presentation.

The Health Plans segment consists of health plans in 12 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of September 30, 2016, these health plans served 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. This membership includes Health Insurance Marketplace (Marketplace) members, most of whom receive government premium subsidies. The health plans are operated by our respective wholly owned subsidiaries in those states, each of which is licensed as a health maintenance organization (HMO). Our direct delivery business consists primarily of the operation of primary care clinics in several states in which we operate.

The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs including business processing, information technology development, and administrative services. Molina Medicaid Solutions is under contract with the Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and drug rebate administration services in Florida.

The Other segment includes businesses, such as our Pathways behavioral health and social services provider, which do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

Market Updates - Health Plans

Proposed acquisition. On August 2, 2016, we entered into substantially identical agreements with each of Aetna, Inc. and Humana, Inc. to acquire certain of their Medicare Advantage membership and other assets related to such Medicare Advantage business (the Medicare Acquisition) for cash. The Medicare Acquisition is related to Aetna Inc.'s proposed acquisition of Humana Inc. (the Aetna-Humana Merger). We expect the Medicare Acquisition to close in 2017 subject to the following:

- Completion of the Aetna-Humana Merger;
- Resolution, in a manner permitting the Medicare Acquisition, of the pending litigation brought by the United States Department of Justice challenging the Aetna-Humana Merger;
- Approval by the federal Centers for Medicare & Medicaid Services (CMS) of the novation to us of each of the contracts to be divested under the Medicare Acquisition; and
- Customary closing conditions, including approvals of state departments of insurance and other regulators.

Completed acquisitions. For all of the following transactions, see Note 4, "Business Combinations," for further information.

Illinois. On January 1, 2016, our Illinois health plan closed on its acquisitions of the Medicaid membership, and certain assets related to the Medicaid business of, Accountable Care Chicago, LLC, also known as MyCare Chicago, and Loyola Physician Partners, LLC.

On March 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Better Health Network, LLC.

Michigan. On January 1, 2016, our Michigan health plan closed on its acquisition of the Medicaid and MIChild membership, and certain Medicaid and MIChild assets, of HAP Midwest Health Plan, Inc.

New York. On August 1, 2016, we closed on our acquisition to acquire all outstanding equity interests of Today's Options of New York, Inc., which operates the Total Care Medicaid plan.

Washington. On January 1, 2016, our Washington health plan closed on its acquisition of the Medicaid contracts, and certain assets related to the operation of the Medicaid business, of Columbia United Providers, Inc.

Consolidation and Interim Financial Information

The consolidated financial statements include the accounts of Molina Healthcare, Inc., its subsidiaries, and variable interest entities (VIEs) in which Molina Healthcare, Inc. is considered to be the primary beneficiary. Such VIEs are insignificant to our consolidated financial position and results of operations. In the opinion of management, all adjustments considered necessary for a fair presentation of the results as of the date and for the interim periods presented have been included; such adjustments consist of normal recurring adjustments. All significant intercompany balances and transactions have been eliminated. The consolidated results of operations for the current interim period are not necessarily indicative of the results for the entire year ending December 31, 2016.

The unaudited consolidated interim financial statements have been prepared under the assumption that users of the interim financial data have either read or have access to our audited consolidated financial statements for the fiscal year ended December 31, 2015. Accordingly, certain disclosures that would substantially duplicate the disclosures contained in the December 31, 2015 audited consolidated financial statements have been omitted. These unaudited consolidated interim financial statements should be read in conjunction with our December 31, 2015 audited consolidated financial statements.

2. Significant Accounting Policies

Revenue Recognition – Health Plans Segment

Premium revenue is fixed in advance of the periods covered and except as described below, is not generally subject to significant accounting estimates. Premium revenues are recognized in the month that members are entitled to receive health care services, and premiums collected in advance are deferred. Certain components of premium revenue are subject to accounting estimates and fall into the following categories:

Contractual Provisions That May Adjust or Limit Revenue or Profit

Medicaid

Medical Cost Floors (Minimums), Medical Cost Corridors, and Administrative Cost Ceilings (Maximums): A portion of our premium revenue may be returned if certain minimum amounts are not spent on defined medical care costs. In the aggregate, we recorded a liability under the terms of such contract provisions of $323 million and $214 million at September 30, 2016 and December 31, 2015, respectively, to amounts due government agencies. Approximately $298 million and $208 million of the liability accrued at September 30, 2016 and December 31, 2015, respectively, relates to our participation in Medicaid Expansion programs.

In certain circumstances, the health plans may receive additional premiums if amounts spent on medical care costs exceed a defined maximum threshold. We recorded receivables of $1 million and $3 million at September 30, 2016 and December 31, 2015, respectively, relating to such provisions.

Profit Sharing and Profit Ceiling: Our contracts with certain states contain profit-sharing or profit ceiling provisions under which we refund amounts to the states if our health plans generate profit above a certain specified percentage. In some cases, we are limited in the amount of administrative costs that we may deduct in calculating the refund, if any. Under these provisions, we recorded a liability of $9 million and $10 million at September 30, 2016 and December 31, 2015, respectively, for profit in excess of the amount we are allowed to retain.

Retroactive Premium Adjustments: The state Medicaid programs periodically adjust premium rates on a retroactive basis. In these cases, we must adjust our premium revenue in the period in which we learn of the adjustment, rather than in the months of service to which the retroactive adjustment applies. In the first quarter of 2016, our Florida health plan recorded a retroactive increase to Medicaid premium revenue of approximately $18 million relating to dates of service prior to 2016.

Cost Plus Retroactive Premium Adjustments: In New Mexico, when members are retroactively enrolled into our health plan, we earn revenue only to the extent of the actual medical costs incurred by us for services provided during those retroactive periods, plus a small percentage of that medical cost for administration and profit. This arrangement first became effective July 1, 2014 (retroactive to January 1, 2014). We are paid normal monthly capitation rates for the retroactive eligibility periods, and the difference between those capitation rates and the amounts due to us on a cost plus basis are periodically settled with the state. To date, no such settlement has been made. During the years ended December 31, 2014 and 2015, our New Mexico contract was not specific as to the definition of retroactive membership, and the amount we owe the state (or that the state owes us) for the difference between capitation received and amounts due to us under the cost plus arrangement during those periods varies widely depending upon the definition of retroactive membership. Although we believe that the amount we have recorded as a

liability for this matter is consistent with the state's expectations, we cannot be certain that the state will not seek to recover an amount in excess of our recorded liability.

Medicare

Risk Adjustment: Our Medicare premiums are subject to retroactive increase or decrease based on the health status of our Medicare members (as measured by member risk score). We estimate our members' risk scores and the related amount of Medicare revenue that will ultimately be realized for the periods presented based on our knowledge of our members' health status, risk scores and CMS practices. Based on our estimates, we have recorded a net payable of $17 million and $4 million for anticipated Medicare risk adjustment premiums and Medicare Part D settlements at September 30, 2016 and December 31, 2015, respectively.

Marketplace

Premium Stabilization Programs: The Affordable Care Act (ACA) established Marketplace premium stabilization programs effective January 1, 2014. These programs, commonly referred to as the "3R's," include a permanent risk adjustment program, a transitional reinsurance program, and a temporary risk corridor program. We record receivables or payables related to the 3R programs and the minimum annual medical loss ratio (Minimum MLR) when the amounts are reasonably estimable as described below, and, for receivables, collection is reasonably assured. Our receivables (payables) for each of these programs, as of the dates indicated, were as follows:

	September 30, 2016			December 31, 2015
	Current Benefit Year	Prior Benefit Years	Total	
		(In millions)		
Risk adjustment	$ (372)	$ 2	$ (370)	$ (214)
Reinsurance	62	4	66	36
Risk corridor	(4)	(1)	(5)	(10)
Minimum MLR	(11)	(4)	(15)	(3)

- Risk adjustment: Under this permanent program, our health plans' composite risk scores are compared with the overall average risk score for the relevant state and market pool. Generally, our health plans will make a risk transfer payment into the pool if their composite risk scores are below the average risk score, and will receive a risk transfer payment from the pool if their composite risk scores are above the average risk score. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk adjustment program as an adjustment to premium revenue in our consolidated statements of income. On June 30, 2016, CMS released the final update on risk transfer and reinsurance payments for the 2015 benefit year, and we adjusted our accruals accordingly.
- Reinsurance: This program is designed to provide reimbursement to insurers for high cost members. Our health plans pay an annual contribution on a per-member basis, and are eligible for recoveries if claims for individual members exceed a specified threshold, up to a maximum amount. This three-year program will end on December 31, 2016. We recognize the assessments to fund the transitional reinsurance program as a reduction to premium revenue in our consolidated statements of income. We recognize recoveries under the reinsurance program as a reduction to medical care costs in our consolidated statements of income.
- Risk corridor: This program is intended to limit gains and losses of insurers by comparing allowable costs to a target amount as defined by CMS. Variances from the target amount exceeding certain thresholds may result in amounts due to or receivables due from CMS. This three-year program will end on December 31, 2016. Due to uncertainties as to the amount of federal funding available to support the risk corridor program, we do not recognize amounts receivable under this program. Our estimate of the unrecorded receivable for the Marketplace risk corridor amounted to approximately $80 million as of September 30, 2016. Of this total amount, $52 million relates to the 2015 benefit year and $28 million relates to the nine months ended September 30, 2016. All liabilities are recognized as incurred. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk corridor program as an adjustment to premium revenue in our consolidated statements of income.

Additionally, the ACA established a Minimum MLR of 80% for the Marketplace. The medical loss ratio represents medical costs as a percentage of premium revenue. What constitutes medical costs and premium revenue are specifically defined by federal regulations. If the Minimum MLR is not met, we may be required to pay rebates to our Marketplace policyholders. Each of the 3R programs is taken into consideration when computing the Minimum MLR. We recognize estimated rebates under the Minimum MLR as an adjustment to premium revenue in our consolidated statements of income.

Quality Incentives

At several of our health plans, revenue ranging from approximately 1% to 3% of certain health plan premiums is earned only if certain performance measures are met.

During the second quarter of 2016, we were informed by the Texas Department of Health and Human Services that it will not recoup any quality revenue for calendar years 2014, 2015, and 2016. Therefore, we recognized previously deferred quality revenue amounting to approximately $51 million in the second quarter of 2016. Of the $51 million total adjustment, $44 million related to 2015 and 2014 dates of service, and $7 million related to the first quarter of 2016.

The following table quantifies the quality incentive premium revenue recognized for the periods presented, including the amounts earned in the periods presented and prior periods. Although the reasonably possible effects of a change in estimate related to quality incentive premium revenue as of September 30, 2016 are not known, we have no reason to believe that the adjustments to prior periods noted below are not indicative of the potential future changes in our estimates as of September 30, 2016, other than the Texas quality revenue recognized in the second quarter of 2016 described above.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(In millions)			
Maximum available quality incentive premium - current period	$ 33	$ 28	$ 114	$ 86
Amount of quality incentive premium revenue recognized in current period:				
Earned current period	$ 26	$ 17	$ 80	$ 38
Earned prior periods	—	—	54	11
Total	$ 26	$ 17	$ 134	49
Quality incentive premium revenue recognized as a percentage of total premium revenue	0.6%	0.5%	1.1%	0.5%

Income Taxes

The provision for income taxes is determined using an estimated annual effective tax rate, which is generally greater than the U.S. federal statutory rate primarily because of state taxes, nondeductible expenses such as the Health Insurer Fee (HIF), certain compensation, and other general and administrative expenses. The effective tax rate may be subject to fluctuations during the year, particularly as a result of the level of pretax earnings, and also as new information is obtained. Such information may affect the assumptions used to estimate the annual effective tax rate, including factors such as the mix of pretax earnings in the various tax jurisdictions in which we operate, valuation allowances against deferred tax assets, the recognition or the reversal of the recognition of tax benefits related to uncertain tax positions, and changes in or the interpretation of tax laws in jurisdictions where we conduct business. For example, in the third quarter of 2016 we entered into an agreement with the seller in the Pathways acquisition to change the allocation of the purchase price across certain legal entities, allowing us to recognize a $4 million tax benefit. We recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of our assets and liabilities, along with net operating loss and tax credit carryovers.

Recent Accounting Pronouncements

Statement of Cash Flows. In August 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2016-15, *Classification of Certain Cash Receipts and Cash Payments*, which amends Accounting Standards Codification (ASC) 230 to add or clarify guidance on eight classification issues related to the statement of cash flows such as debt prepayment or debt extinguishment costs, and contingent consideration payments made after a business combination. ASU 2016-15 is effective for fiscal periods beginning after December 15, 2017 and must be adopted using a retrospective transition method to each period presented but may be applied prospectively if retrospective application would be impracticable. Early adoption is permitted, including adoption in an interim period. We are evaluating the potential effects of the adoption to our financial statements.

Revenue Recognition. In May 2016, the FASB issued ASU 2016-12, *Revenue from Contracts with Customers (Topic 606).* The amendments, which address transition, collectibility, non-cash consideration and the presentation of sales and other similar taxes, do not change the core principles of ASU 2014-09, but rather address implementation issues and are intended to result in

more consistent application. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

In April 2016, the FASB issued ASU 2016-10, *Identifying Performance Obligations and Licensing*, which amends certain aspects of ASC 606, *Revenue from Contracts with Customers*. ASU 2016-10 amends step two of the new revenue standard's five-step model to include guidance on immaterial promised goods or services, shipping and handling activities and identifying when promises represent performance obligations. ASU 2016-10 also provides guidance related to licensing such as, but not limited to, sales-based and usage-based royalties and renewals of licenses that provide a right to use intellectual property. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers - Principal vs. Agent Considerations*, which amends the principal–versus–agent implementation guidance in ASC 606. ASU 2016-08 clarifies that an entity should evaluate whether it is the principal or agent for each specified good or service promised in a contract with a customer as defined in ASC 606. The entity must first identify each specified good or service to be provided to the customer and then assess whether it controls each specified good or service. The ASU also removed two of the five indicators used in evaluating control under the old guidance and reframes the remaining three indicators. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

Credit Losses. In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*, which changes how companies measure credit losses on most financial instruments measured at amortized cost, such as loans, receivables and held-to-maturity debt securities. Rather than generally recognizing credit losses when it is probable that the loss has been incurred, the revised guidance requires companies to recognize an allowance for credit losses for the difference between the amortized cost basis of a financial instrument and the amount of amortized cost that the company expects to collect over the instrument's contractual life. ASU 2016-13 is effective for fiscal periods beginning after December 15, 2019 and must be adopted as a cumulative effect adjustment to retained earnings. Early adoption is permitted. We are evaluating the potential effects of the adoption to our financial statements.

Stock Compensation. In March 2016, the FASB issued ASU 2016-09, *Compensation-Stock Compensation*, which simplifies several aspects of accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax and classification in the statement of cash flows. ASU 2016-09 is effective for fiscal periods beginning after December 15, 2016 and must be adopted using the modified retrospective approach except for classification in the statement of cash flows, which must be adopted using either the prospective or retrospective approach. Early adoption is permitted. We are evaluating the potential effects of the adoption to our financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission (SEC) did not have, or are not believed by management to have, a material impact on our present or future consolidated financial statements.

3. Net Income per Share

The following table sets forth the calculation of basic and diluted net income per share:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(In millions, except net income per share)			
Numerator:				
Net income	$ 42	$ 46	$ 99	$ 113
Denominator:				
Shares outstanding at the beginning of the period	56	55	55	49
Weighted-average number of shares:				
Issued in common stock offering	—	—	—	2
Denominator for basic net income per share	56	55	55	51
Effect of dilutive securities:				
Share-based compensation	—	—	—	1
Convertible senior notes (1)	—	1	—	1
1.125% Warrants (1)	—	4	1	2
Denominator for diluted net income per share	56	60	56	55
Net income per share (2):				
Basic	$ 0.77	$ 0.84	$ 1.79	$ 2.21
Diluted	$ 0.76	$ 0.77	$ 1.77	$ 2.07

_____

(1) For more information regarding the convertible senior notes, refer to Note 10, "Debt." For more information regarding the 1.125% Warrants, refer to Note 12, "Stockholders' Equity."
(2) Source data for calculations in thousands.

4. Business Combinations

Health Plans Segment

In 2016, we closed on several business combinations in the Health Plans segment, consistent with our strategy to grow in our existing markets and expand into new markets. For all of these transactions, we applied the acquisition method of accounting, where the total purchase price was allocated, or preliminarily allocated, to tangible and intangible assets acquired, and liabilities assumed based on their respective fair values. For the Health Plans acquisitions described below, except New York, only intangible assets were acquired. All of these acquisitions were funded using available cash and acquisition-related costs were insignificant. The individual transactions were as follows:

Illinois. On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business of, Accountable Care Chicago, LLC, also known as MyCare Chicago. The final purchase price was approximately $30 million, and the Illinois health plan added approximately 50,000 Medicaid members as a result of this transaction.

On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Loyola Physician Partners, LLC. The final purchase price was approximately $12 million, and the Illinois health plan added approximately 18,000 Medicaid members as a result of this transaction.

On March 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Better Health Network, LLC. The final purchase price was approximately $15 million, and the Illinois health plan added approximately 28,000 Medicaid members as a result of this transaction.

Michigan. On January 1, 2016, our Michigan health plan closed on its acquisition of the Medicaid and MIChild membership, and certain Medicaid and MIChild assets, of HAP Midwest Health Plan, Inc. The final purchase price was approximately $31 million, and the Michigan health plan added approximately 68,000 Medicaid and MIChild members as a result of this transaction.

New York. On August 1, 2016, we closed on our acquisition to acquire all outstanding equity interests of Today's Options of New York, Inc., which operates the Total Care Medicaid plan. The initial purchase price was approximately $38 million, and we now serve approximately 37,000 Medicaid members in upstate New York as a result of the transaction. As of September 30, 2016, the purchase price allocation was preliminary, subject to final purchase price adjustments as provided in the stock purchase agreement.

Washington. On January 1, 2016, our Washington health plan closed on its acquisition of the Medicaid contracts, and certain assets related to the operation of the Medicaid business, of Columbia United Providers, Inc. The final purchase price was approximately $28 million, and the Washington health plan added approximately 57,000 Medicaid members as a result of this transaction.

For these acquisitions, we recorded goodwill to the Health Plans segment amounting to $95 million in the aggregate, which relates to future economic benefits arising from expected synergies to be achieved. Such synergies include use of our existing infrastructure to support the added membership. In general, the amount recorded as goodwill is deductible for income tax purposes. For the New York acquisition, the tax deductibility of goodwill will be determined once the purchase price is finalized.

The following table presents the intangible assets identified in the transactions described above. The weighted-average amortization period, in the aggregate, is 5.7 years. For these acquisitions in the aggregate, we expect to record amortization of approximately $6 million in 2016, $8 million per year in the years 2017 through 2020, and $3 million in 2021.

	Fair Value	Life
	(In millions)	(Years)
Intangible asset type:		
Contract rights - member list	$ 38	5
Provider network	7	10
	$ 45	

Other Segment

Pathways. On November 1, 2015, we acquired the outstanding ownership interests in Pathways Health and Community Support LLC (Pathways). In the third quarter of 2016, we recorded a pre-acquisition contingent liability and corresponding indemnification asset in the amount of $14 million in connection with the Rodriguez Litigation matter defined and described further in Note 14, "Commitments and Contingencies." Also in the third quarter of 2016, certain tax elections were made such that approximately 50% of the goodwill recorded in this transaction is deductible for income tax purposes.

5. Fair Value Measurements

We consider the carrying amounts of cash and cash equivalents and other current assets and current liabilities (not including derivatives and the current portion of long-term debt) to approximate their fair values because of the relatively short period of time between the origination of these instruments and their expected realization or payment. For our financial instruments measured at fair value on a recurring basis, we prioritize the inputs used in measuring fair value according to a three-tier fair value hierarchy as follows:

Level 1 — Observable Inputs. Level 1 financial instruments are actively traded and therefore the fair value for these securities is based on quoted market prices on one or more securities exchanges.

Level 2 — Directly or Indirectly Observable Inputs. Level 2 financial instruments are traded frequently though not necessarily daily. Fair value for these investments is determined using a market approach based on quoted prices for similar securities in active markets or quoted prices for identical securities in inactive markets.

Level 3 — Unobservable Inputs. Level 3 financial instruments are valued using unobservable inputs that represent management's best estimate of what market participants would use in pricing the financial instrument at the measurement date. Our Level 3 financial instruments include derivative financial instruments.

Derivative financial instruments include the 1.125% Call Option derivative asset and the 1.125% Conversion Option derivative liability. These derivatives are not actively traded and are valued based on an option pricing model that uses observable and unobservable market data for inputs. Significant market data inputs used to determine fair value as of September 30, 2016 included the price of our common stock, the time to maturity of the derivative instruments, the risk-free interest rate, and the implied volatility of our common stock. As described further in Note 11, “Derivatives,” the 1.125% Call Option asset and the 1.125% Conversion Option liability were designed such that changes in their fair values offset, with minimal impact to the

consolidated statements of income. Therefore, the sensitivity of changes in the unobservable inputs to the option pricing model for such instruments is mitigated.

The changes in fair value of Level 3 financial instruments were insignificant to our results of operations for the nine months ended September 30, 2016.

Our financial instruments measured at fair value on a recurring basis at September 30, 2016, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,127	$ —	$ 1,127	$ —
Government-sponsored enterprise securities (GSEs)	259	259	—	—
Municipal securities	148	—	148	—
Asset-backed securities	76	—	76	—
U.S. treasury notes	65	65	—	—
Certificates of deposit	60	—	60	—
Subtotal - current investments	1,735	324	1,411	—
1.125% Call Option derivative asset	314	—	—	314
Total assets measured at fair value on a recurring basis	$ 2,049	$ 324	$ 1,411	$ 314
1.125% Conversion Option derivative liability	$ 314	$ —	$ —	$ 314
Total liabilities measured at fair value on a recurring basis	$ 314	$ —	$ —	$ 314

Our financial instruments measured at fair value on a recurring basis at December 31, 2015, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,184	$ —	$ 1,184	$ —
GSEs	211	211	—	—
Municipal securities	185	—	185	—
Asset-backed securities	63	—	63	—
U.S. treasury notes	78	78	—	—
Certificates of deposit	80	—	80	—
Subtotal - current investments	1,801	289	1,512	—
1.125% Call Option derivative asset	374	—	—	374
Total assets measured at fair value on a recurring basis	$ 2,175	$ 289	$ 1,512	$ 374
1.125% Conversion Option derivative liability	$ 374	$ —	$ —	$ 374
Total liabilities measured at fair value on a recurring basis	$ 374	$ —	$ —	$ 374

Fair Value Measurements – Disclosure Only

The carrying amounts and estimated fair values of our senior notes, which are classified as Level 2 financial instruments, are indicated in the following table.

	September 30, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
	(In millions)			
5.375% Notes	$ 690	$ 725	$ 689	$ 700
1.125% Convertible Notes	466	827	448	865
1.625% Convertible Notes	281	358	273	365
	$ 1,437	$ 1,910	$ 1,410	$ 1,930

6. Investments

The following tables summarize our investments as of the dates indicated:

	September 30, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,123	$ 4	$ —	$ 1,127
GSEs	259	—	—	259
Municipal securities	147	1	—	148
Asset-backed securities	76	—	—	76
U.S. treasury notes	65	—	—	65
Certificates of deposit	60	—	—	60
	$ 1,730	$ 5	$ —	$ 1,735

	December 31, 2015			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,189	$ —	$ 5	$ 1,184
GSEs	212	—	1	211
Municipal securities	186	—	1	185
Asset-backed securities	63	—	—	63
U.S. treasury notes	78	—	—	78
Certificates of deposit	80	—	—	80
	$ 1,808	$ —	$ 7	$ 1,801

The contractual maturities of our investments as of September 30, 2016 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 887	$ 887
Due after one year through five years	817	821
Due after five years through ten years	26	27
	$ 1,730	$ 1,735

Gross realized gains and losses from sales of available-for-sale securities are calculated under the specific identification method and are included in investment income. Gross realized investment gains and losses for the three and nine months ended September 30, 2016 and 2015 were insignificant.

We have determined that unrealized gains and losses at September 30, 2016 and December 31, 2015, are temporary in nature, because the change in market value for these securities resulted from fluctuating interest rates, rather than a deterioration of the creditworthiness of the issuers. So long as we maintain the intent and ability to hold these securities to maturity, we are unlikely to experience gains or losses. In the event that we dispose of these securities before maturity, we expect that realized gains or losses, if any, will be immaterial.

There were no available-for-sale investments in a material continuous loss position as of September 30, 2016.

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of December 31, 2015:

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 825	$ 4	588	$ 119	$ 1	87
GSEs	182	1	77	—	—	—
Municipal securities	128	1	181	—	—	—
	$ 1,135	$ 6	846	$ 119	$ 1	87

7. Receivables

Receivables consist primarily of amounts due from government Medicaid agencies, which may be subject to potential retroactive adjustments. Because all of our receivable amounts are readily determinable and substantially all of our creditors are governmental authorities, our allowance for doubtful accounts is immaterial. The information below is presented by segment.

	September 30, 2016	December 31, 2015
	(In millions)	
California	$ 174	$ 104
Florida	79	22
Illinois	81	35
Michigan	71	39
New Mexico	78	51
New York	33	—
Ohio	133	66
Puerto Rico	82	33
South Carolina	12	6
Texas	62	56
Utah	32	18
Washington	94	53
Wisconsin	27	22
Direct delivery and other	3	6
Total Health Plans segment	961	511
Molina Medicaid Solutions segment	39	37
Other segment	53	49
	$ 1,053	$ 597

8. Restricted Investments

Pursuant to the regulations governing our Health Plans segment subsidiaries, we maintain statutory deposits and deposits required by government authorities in certificates of deposit and U.S. treasury securities. We also maintain restricted investments as protection against the insolvency of certain capitated providers. The following table presents the balances of

restricted investments:

	September 30, 2016	December 31, 2015
	(In millions)	
Florida	$ 28	$ 34
Illinois	3	—
Michigan	1	1
New Mexico	43	43
New York	9	—
Ohio	12	12
Puerto Rico	10	10
Texas	4	4
Utah	4	4
Wisconsin	1	1
Other	1	—
Total Health Plans segment	$ 116	$ 109

The contractual maturities of our held-to-maturity restricted investments as of September 30, 2016 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 115	$ 115
Due after one year through five years	1	1
	$ 116	$ 116

9. Medical Claims and Benefits Payable

The following table provides the details of our medical claims and benefits payable (including amounts payable for the provision of long-term services and supports, or LTSS) as of the dates indicated.

	September 30, 2016	December 31, 2015
	(In millions)	
Fee-for-service claims incurred but not paid (IBNP)	$ 1,333	$ 1,191
Pharmacy payable	114	88
Capitation payable	27	140
Other	397	266
	$ 1,871	$ 1,685

"Other" medical claims and benefits payable include amounts payable to certain providers for which we act as an intermediary on behalf of various government agencies without assuming financial risk. Such receipts and payments do not impact our consolidated statements of income. Non-risk provider payables amounted to $237 million and $167 million as of September 30, 2016 and December 31, 2015, respectively.

The following table presents the components of the change in our medical claims and benefits payable for the periods indicated. The amounts presented for “Components of medical care costs related to: Prior periods” represent the amount by which our original estimate of medical claims and benefits payable at the beginning of the period were more than the actual amount of the liability based on information (principally the payment of claims) developed since that liability was first reported.

	Nine Months Ended September 30, 2016	Year Ended December 31, 2015
	(Dollars in millions)	
Medical claims and benefits payable, beginning balance	$ 1,685	$ 1,201
Components of medical care costs related to:		
Current period	11,120	11,935
Prior periods	(190)	(141)
Total medical care costs	10,930	11,794
Change in non-risk provider payables	70	48
Payments for medical care costs related to:		
Current period	9,536	10,448
Prior periods	1,278	910
Total paid	10,814	11,358
Medical claims and benefits payable, ending balance	$ 1,871	$ 1,685
Benefit from prior period as a percentage of:		
Balance at beginning of period	11.3%	11.8%
Premium revenue, trailing twelve months	1.2%	1.1%
Medical care costs, trailing twelve months	1.3%	1.2%

As indicated above, the amounts ultimately paid out on our medical claims and benefits payable liabilities in fiscal years 2016 and 2015 were less than what we had expected when we had established those liabilities. The differences between our original estimates and the amounts ultimately paid out (or now expected to be ultimately paid out) for the most part related to IBNP. While many related factors working in conjunction with one another serve to determine the accuracy of our estimates, we are seldom able to quantify the impact that any single factor has on a change in estimate. In addition, given the variability inherent in the reserving process, we will only be able to identify specific factors if they represent a significant departure from expectations. As a result, we do not expect to be able to fully quantify the impact of individual factors on changes in estimates.

We believe that the most significant uncertainties surrounding our IBNP estimates at September 30, 2016 are as follows:

- Our New York health plan acquisition closed on August 1, 2016. This acquisition added approximately 37,000 new members. Because these members are new to Molina, our estimates of the liability we have incurred for services provided to these members are subject to more than the usual amount of uncertainty.
- At our Florida, New Mexico, Puerto Rico, Utah and Washington health plans, we overpaid certain inpatient and outpatient facility claims. We adjusted our claims payment history to reflect the claims payment pattern that would have occurred without these overpayments. For this reason, our liability estimates at these health plans are subject to more than the usual amount of uncertainty.
- At our Washington health plan, the covered benefits in two counties were expanded effective April 2016 to include behavioral health benefits under the state's new fully integrated managed care program, which impacted about 85,000 members. Because these are new benefits, our liability estimate at this health plan is subject to more than the usual amount of uncertainty.
- Fluctuations in the volume of claims received in a paper format (rather than an electronic format) during the third quarter have created more than the usual amount of uncertainty regarding our estimate of the liability at our California health plan.

We recognized favorable prior period claims development in the amount of $190 million for the nine months ended September 30, 2016. This amount represents our estimate, as of September 30, 2016, of the extent to which our initial estimate of medical claims and benefits payable at December 31, 2015 was more than the amount that will ultimately be paid out in satisfaction of that liability. We believe the overestimation was due primarily to the following factors:

- A new version of diagnostic codes was required for all claims with dates of service on October 1, 2015, and later. As a result, payment was delayed or denied for a significant number of claims due to provider submission of claims with diagnostic codes that were no longer valid. Once providers were able to submit claims with the correct diagnostic codes, our actual costs were ultimately less than expected.

- At our New Mexico health plan, we overestimated the impact of several pending high-dollar claims, and our actual costs were ultimately less than expected.
- At our Washington health plan, we overpaid certain outpatient facility claims in 2015 when the state converted to a new payment methodology. We did not include an estimate in the reserves for this potential recovery as of December 31, 2015.
- At our California health plan, approximately 55,000 new members were added to our Medicaid Expansion product in 2015. For these new members, our actual costs were ultimately less than expected.

10. Debt

As of September 30, 2016, contractual maturities of debt for the years ending December 31 are as follows:

	Total	2016	2017	2018	2019	2020	Thereafter
				(In millions)			
5.375% Notes	$ 700	$ —	$ —	$ —	$ —	$ —	$ 700
1.125% Convertible Notes	550	—	—	—	—	550	—
1.625% Convertible Notes (1)	302	—	—	—	—	—	302
	$ 1,552	$ —	$ —	$ —	$ —	$ 550	$ 1,002

(1) The 1.625% Notes have a contractual maturity date in 2044; however, on contractually specified dates beginning in 2018, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes, or we may redeem any or all of the 1.625% Notes.

Substantially all of our debt is held at the parent, which is reported in the Other segment. The principal amounts, unamortized discount (net of premium related to the 1.625% Notes), unamortized issuance costs, and net carrying amounts of debt were as follows:

	Principal Balance	Unamortized Discount	Unamortized Issuance Costs	Net Carrying Amount
		(In millions)		
September 30, 2016:				
5.375% Notes	$ 700	$ —	$ 10	$ 690
1.125% Convertible Notes	550	78	6	466
1.625% Convertible Notes	302	18	3	281
	$ 1,552	$ 96	$ 19	$ 1,437
December 31, 2015:				
5.375% Notes	$ 700	$ —	$ 11	$ 689
1.125% Convertible Notes	550	95	7	448
1.625% Convertible Notes	302	25	4	273
Other	1	—	—	1
	$ 1,553	$ 120	$ 22	$ 1,411

Interest cost recognized relating to our convertible senior notes for the periods presented was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(In millions)			
Contractual interest coupon rate	$ 2	$ 3	$ 8	$ 9
Amortization of the discount	7	7	22	21
	$ 9	$ 10	$ 30	$ 30

Debt Commitment Letter. On August 2, 2016, in connection with the Medicare Acquisition, we entered into a debt commitment letter with Barclays Bank PLC (Barclays). The primary terms of the debt commitment letter provide that Barclays will lend us up to $400 million which may be used as follows: to finance the Medicare Acquisition, including related transaction costs and regulatory or statutory capital requirements; to finance any ongoing working capital requirements; or for other general corporate purposes.

5.375% Notes due 2022. On November 10, 2015, we completed the private offering of $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, unless earlier redeemed. In connection with their issuance and sale, we entered into a registration rights agreement to exchange the 5.375% Notes for registered notes having substantially identical terms, including guarantees. Such exchange was completed on September 16, 2016. Interest on the 5.375% Notes is payable semiannually in arrears on May 15 and November 15.

Certain of our wholly owned subsidiaries jointly and severally guarantee our obligations under the 5.375% Notes. The 5.375% Notes contain customary non-financial covenants and change of control provisions. At September 30, 2016, we were in compliance with all financial covenants under the 5.375% Notes.

Credit Facility. In June 2015, we entered into an unsecured $250 million revolving credit facility (Credit Facility). The Credit Facility has a term of five years and all amounts outstanding will be due and payable on June 12, 2020. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $350 million. As of September 30, 2016, outstanding letters of credit amounting to $6 million reduced the borrowing capacity to $244 million, and no amounts were outstanding under the Credit Facility.

Borrowings under the Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. In addition to interest payable on the principal amount of indebtedness outstanding from time to time under the Credit Facility, we are required to pay a quarterly commitment fee.

Certain of our wholly owned subsidiaries jointly and severally guarantee our obligations under the Credit Facility. The Credit Facility contains customary non-financial and financial covenants, including a minimum fixed charge coverage ratio, a maximum debt-to-EBITDA ratio and minimum statutory net worth. At September 30, 2016, we were in compliance with all financial covenants under the Credit Facility.

1.125% Cash Convertible Senior Notes due 2020. In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes (1.125% Notes) due January 15, 2020, unless earlier repurchased or converted.

Interest is payable semiannually in arrears on January 15 and July 15. The 1.125% Notes are convertible only into cash, and not into shares of our common stock or any other securities. The initial conversion rate for the 1.125% Notes is 24.5277 shares of our common stock per $1,000 principal amount of the 1.125% Notes. This represents an initial conversion price of approximately $40.77 per share of our common stock. The 1.125% Notes met the stock price trigger in the quarter ended September 30, 2016, and are convertible to cash through at least December 31, 2016. Because the 1.125% Notes may be converted into cash within 12 months, the $466 million carrying amount is reported in current portion of long-term debt as of September 30, 2016.

The 1.125% Notes contain an embedded cash conversion option (the 1.125% Conversion Option), which was separated from the 1.125% Notes and accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the 1.125% Conversion Option settles or expires. The initial fair value liability of the 1.125% Conversion Option simultaneously reduced the carrying value of the 1.125% Notes (effectively an original issuance discount). This discount is amortized to the 1.125% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. This has resulted in our recognition of interest expense on the 1.125% Notes at an effective rate of approximately 6%. As of September 30, 2016, the 1.125% Notes have a remaining amortization period of 3.3 years. The 1.125% Notes' if-converted value exceeded their principal amount by approximately $177 million and $332 million as of September 30, 2016 and December 31, 2015, respectively.

1.625% Convertible Senior Notes due 2044. In September 2014, we issued $125 million principal amount of 1.625% convertible senior notes (1.625% Notes) due August 15, 2044, unless earlier repurchased, redeemed or converted. Combined with the 1.625% Notes issued in an exchange transaction in 2014, the aggregate principal amount of 1.625% Notes issued was $302 million. Interest is payable semiannually in arrears on February 15 and August 15. The initial conversion rate for the 1.625% Notes is 17.2157 shares of our common stock per $1,000 principal amount of the 1.625% Notes. This represents an initial conversion price of approximately $58.09 per share of our common stock. As of September 30, 2016, the 1.625% Notes were not convertible.

Because the 1.625% Notes are net share settled and have cash settlement features, we have allocated the principal amount between a liability component and an equity component. The reduced carrying value on the 1.625% Notes resulted in a debt discount that is amortized back to the 1.625% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. The expected life of the debt is approximately four years, beginning on the issuance date and

ending on the first date we may redeem the 1.625% Notes in August 2018. As of September 30, 2016, the 1.625% Notes have a remaining amortization period of 1.9 years. This has resulted in our recognition of interest expense on the 1.625% Notes at an effective rate approximating what we would have incurred had nonconvertible debt with otherwise similar terms been issued, or approximately 5%. The outstanding 1.625% Notes' if-converted value did not exceed their principal amount at September 30, 2016 and exceeded their principal amount at December 31, 2015 by approximately $10 million. At September 30, 2016 and December 31, 2015, the equity component of the 1.625% Notes, including the impact of deferred taxes, was $23 million.

11. Derivatives

The following table summarizes the fair values and the presentation of our derivative financial instruments (defined and discussed individually below) in the consolidated balance sheets:

	Balance Sheet Location	September 30, 2016	December 31, 2015
		(In millions)	
Derivative asset:			
1.125% Call Option	Current assets: Derivative asset	$ 314	$ 374
Derivative liability:			
1.125% Conversion Option	Current liabilities: Derivative liability	$ 314	$ 374

Our derivative financial instruments do not qualify for hedge treatment; therefore the change in fair value of these instruments is recognized immediately in our consolidated statements of income, and reported in other expense, net. Gains and losses for our derivative financial instruments are presented individually in the consolidated statements of cash flows, supplemental cash flow information.

1.125% Notes Call Spread Overlay. Concurrent with the issuance of the 1.125% Notes in 2013, we entered into privately negotiated hedge transactions (collectively, the 1.125% Call Option) and warrant transactions (collectively, the 1.125% Warrants), with certain of the initial purchasers of the 1.125% Notes (the Counterparties). We refer to these transactions collectively as the Call Spread Overlay. Under the Call Spread Overlay, the cost of the 1.125% Call Option we purchased to cover the cash outlay upon conversion of the 1.125% Notes was reduced by proceeds from the sale of the 1.125% Warrants. Assuming full performance by the Counterparties (and 1.125% Warrants strike prices in excess of the conversion price of the 1.125% Notes), these transactions are intended to offset cash payments in excess of the principal amount of the 1.125% Notes due upon any conversion of the 1.125% Notes.

1.125% Call Option. The 1.125% Call Option, which is indexed to our common stock, is a derivative asset that requires mark-to-market accounting treatment due to cash settlement features until the 1.125% Call Option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Call Option, refer to Note 5, "Fair Value Measurements."

1.125% Conversion Option. The embedded cash conversion option within the 1.125% Notes is accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the cash conversion option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Conversion Option, refer to Note 5, "Fair Value Measurements."

As of September 30, 2016, the 1.125% Call Option and the 1.125% Conversion Option were classified as a current asset and current liability, respectively, because the 1.125% Notes may be converted within 12 months of September 30, 2016, as described in Note 10, "Debt."

12. Stockholders' Equity

Stockholders' equity increased $134 million during the nine months ended September 30, 2016 compared with stockholders' equity at December 31, 2015. The increase was primarily due to net income of $99 million, $7 million of other comprehensive income and $28 million related to employee stock transactions.

1.125% Warrants. In connection with the Call Spread Overlay transaction described in Note 11, "Derivatives," in 2013, we issued 13,490,236 warrants with a strike price of $53.8475 per share. The number of warrants and the strike price are subject to adjustment under certain circumstances. If the market value per share of our common stock exceeds the strike price of the 1.125% Warrants on any trading day during the 160 trading day measurement period (beginning on April 15, 2020) under the 1.125% Warrants, we will be obligated to issue to the Counterparties a number of shares equal in value to the product of the amount by which such market value exceeds such strike price and 1/160th of the aggregate number of shares of our common

stock underlying the 1.125% Warrants, subject to a share delivery cap. The 1.125% Warrants could separately have a dilutive effect to the extent that the market value per share of our common stock exceeds the applicable strike price of the 1.125% Warrants. Refer to Note 3, "Net Income per Share," for dilution information for the periods presented. We will not receive any additional proceeds if the 1.125% Warrants are exercised.

Securities Repurchase Program. Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Stock Incentive Plans. In connection with our equity incentive plans and employee stock purchase plan, approximately 467,000 shares of common stock were purchased or vested, net of shares used to settle employees' income tax obligations, during the nine months ended September 30, 2016.

Charged to general and administrative expenses, total share-based compensation expense was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(In millions)			
Restricted stock and performance awards	$ 7	$ 6	$ 20	$ 13
Employee stock purchase plan and stock options	1	1	4	3
	$ 8	$ 7	$ 24	$ 16

As of September 30, 2016, there was $38 million of total unrecognized compensation expense related to unvested restricted share awards, including those with performance conditions, which we expect to recognize over a remaining weighted-average period of 1.6 years. This unrecognized compensation cost assumes an estimated forfeiture rate of 4.3% for non-executive employees as of September 30, 2016.

Restricted stock. Restricted and performance stock activity for the nine months ended September 30, 2016 is summarized below:

	Shares	Weighted Average Grant Date Fair Value
	(In thousands)	
Unvested balance as of December 31, 2015	1,035	$ 46.68
Granted	517	63.94
Vested	(342)	41.79
Forfeited	(19)	52.01
Unvested balance as of September 30, 2016	1,191	55.50

The total fair value of restricted and performance awards granted during the nine months ended September 30, 2016 and 2015 was $33 million and $28 million, respectively. The total fair value of restricted awards, including those with performance and market conditions, which vested during the nine months ended September 30, 2016 and 2015 was $22 million and $25 million, respectively.

As of September 30, 2016, there were approximately 603,000 unvested restricted shares outstanding which contained one or more performance measures. In the event the vesting conditions are not achieved, the awards will lapse. Based on our assessment as of September 30, 2016, we expect the performance conditions for approximately 425,000 of these outstanding restricted share awards to be met in full.

13. Segment Information

We have three reportable segments. These segments include our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment, which includes our behavioral health and social services subsidiary, Pathways. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015. All prior periods reported conform to this presentation.

Our reportable segments are consistent with how we currently manage our business and view the markets we serve. The Health Plans segment consists of our health plans and our direct delivery business. Our health plans are operating segments that have been aggregated for reporting purposes because they share similar economic characteristics. The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs including business processing, information technology development, and administrative services. The Other segment includes businesses, such as

our Pathways behavioral health and social services provider, which do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

Gross margin is the appropriate earnings measure for our reportable segments, based on how our chief operating decision maker currently reviews results, assesses performance, and allocates resources.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." Medical margin represents the amount earned by the Health Plans segment after medical costs are deducted from premium revenue. The medical care ratio represents the amount of medical care costs as a percentage of premium revenue, and is one of the key metrics used to assess the performance of the Health Plans segment. Therefore, the underlying medical margin is the most important measure of earnings reviewed by the chief operating decision maker. The service margin is equal to service revenue minus cost of service revenue.

	Health Plans	Molina Medicaid Solutions	Other	Consolidated
		(In millions)		
Three Months Ended September 30, 2016				
Total revenue (1)	$ 4,412	$ 48	$ 86	$ 4,546
Gross margin	443	6	8	457
Nine Months Ended September 30, 2016				
Total revenue (1)	$ 12,835	$ 146	$ 267	$ 13,248
Gross margin	1,285	17	29	1,331
Three Months Ended September 30, 2015				
Total revenue (1)	$ 3,562	$ 47	$ 2	$ 3,611
Gross margin	361	13	—	374
Nine Months Ended September 30, 2015				
Total revenue (1)	$ 10,155	$ 146	$ 6	$ 10,307
Gross margin	1,071	43	—	1,114
Total Assets				
September 30, 2016	$ 5,891	$ 267	$ 1,412	$ 7,570
December 31, 2015	4,707	213	1,656	6,576

(1) Total revenue consists primarily of premium revenue for the Health Plans segment, and service revenue for the Molina Medicaid Solutions and Other segments.

The following table reconciles gross margin by segment to consolidated income before income tax expense:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(In millions)			
Gross margin:				
Health Plans	$ 443	$ 361	$ 1,285	$ 1,071
Molina Medicaid Solutions	6	13	17	43
Other	8	—	29	—
Total gross margin	457	374	1,331	1,114
Add: other operating revenues (1)	222	187	625	509
Less: other operating expenses (2)	(561)	(448)	(1,644)	(1,312)
Operating income	118	113	312	311
Other expenses, net	(26)	(15)	(76)	(45)
Income before income tax expense	$ 92	$ 98	$ 236	$ 266

(1) Other operating revenues include premium tax revenue, health insurer fee revenue, investment income and other revenue.

(2) Other operating expenses include general and administrative expenses, premium tax expenses, health insurer fee expenses and depreciation and amortization.

14. Commitments and Contingencies

Legal Proceedings. The health care and Medicaid-related business process outsourcing industries are subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly funded programs, and the repayment of previously billed and collected revenues.

We are involved in legal actions in the ordinary course of business, some of which seek monetary damages, including claims for punitive damages, which are not covered by insurance. We have accrued liabilities for certain matters for which we deem the loss to be both probable and estimable. Although we believe that our estimates of such losses are reasonable, these estimates could change as a result of further developments of these matters. The outcome of legal actions is inherently uncertain and such pending matters for which accruals have not been established have not progressed sufficiently through discovery and/or development of important factual information and legal issues to enable us to estimate a range of possible loss, if any. While it is not possible to accurately predict or determine the eventual outcomes of these items, an adverse determination in one or more of these pending matters could have a material adverse effect on our consolidated financial position, results of operations, or cash flows.

State of Louisiana. On June 26, 2014, the state of Louisiana filed a Petition for Damages against Molina Medicaid Solutions, Molina Healthcare, Inc., Unisys, and Paramax Systems Corporation, a subsidiary of Unisys, in the Parish of Baton Rouge, 19th Judicial District, versus number 631612. The Petition alleges that between 1989 and 2012, the defendants utilized an incorrect reimbursement formula for the payment of pharmaceutical claims. We believe that, pursuant to a settlement with the state, this matter will be dismissed against Molina Medicaid Solutions with no liability.

United States of America, ex rel., Anita Silingo v. Mobile Medical Examination Services, Inc., et al. On or around October 14, 2014, Molina Healthcare of California, Molina Healthcare of California Partner Plan, Inc., Mobile Medical Examination Services, Inc. (MedXM), and other health plan defendants were served with a Complaint previously filed under seal in the Central District Court of California by Relator, Anita Silingo, Case No. SACV13-1348-FMO(SHx). The Complaint alleges that MedXM improperly modified medical records and otherwise took inappropriate steps to increase members' risk adjustment scores, and that the defendants, including Molina Healthcare of California and Molina Healthcare of California Partner Plan, Inc., purportedly turned a "blind eye" to these unlawful practices. On October 22, 2015, the Relator filed a third amended complaint. On July 11, 2016, the District Court dismissed with prejudice the third amended complaint, without leave to amend. On September 23, 2016, the plaintiff filed an appeal with the Ninth Circuit Court of Appeals.

Rodriguez v. Providence Community Corrections. On October 1, 2015, seven individuals, on behalf of themselves and all others similarly situated, filed a complaint in the District Court for the Middle District of Tennessee, Nashville Division, Case No. 3:15-cv-01048 (the Rodriquez Litigation), against Providence Community Corrections, Inc. (now known as Pathways Community Corrections, Inc., or PCC). Rutherford County, Tennessee formerly contracted with PCC for the administration of

misdemeanor probation, which involved the collection of court costs and fees from probationers. The complaint alleges, among other things, that PCC illegally assessed fees and surcharges against probationers and made improper threats of arrest and probation revocation if the probationers did not pay such amounts. The plaintiffs in the Rodriguez Litigation seek alleged compensatory, treble, and punitive damages, plus attorneys' fees, for alleged federal and state constitutional violations, as well as alleged violations of the Racketeer Influenced and Corrupt Organization Act. PCC's agreement with Rutherford County terminated effective December 29, 2015. On November 1, 2015, one month after the Rodriguez Litigation had been commenced, we acquired PCC from The Providence Service Corporation (Providence) pursuant to a membership interest purchase agreement. In September 2016, the parties to the Rodriguez Litigation accepted a mediation proposal for settlement pursuant to which PCC would pay the plaintiffs $14 million. The parties are in the process of finalizing the settlement agreement. We expect to recover the full amount of the settlement under the indemnification provisions of the membership interest purchase agreement with Providence.

Provider Claims. Many of our medical contracts are complex in nature and may be subject to differing interpretations regarding amounts due for the provision of various services. Such differing interpretations have led certain medical providers to pursue us for additional compensation. The claims made by providers in such circumstances often involve issues of contract compliance, interpretation, payment methodology, and intent. These claims often extend to services provided by the providers over a number of years.

Various providers have contacted us seeking additional compensation for claims that we believe to have been settled. These matters, when finally concluded and determined, will not, in our opinion, have a material adverse effect on our business, consolidated financial position, results of operations, or cash flows.

States' Budgets. From time to time, the states in which our health plans operate may experience financial difficulties, which could lead to delays in premium payments. For example, the state of Illinois is currently operating under a stopgap budget that expires in January 2017. It is unclear when or if the state's budget difficulties will be resolved. As of September 30, 2016, our Illinois health plan served approximately 195,000 members and recorded premium revenue of approximately $466 million for the nine months ended September 30, 2016. As of October 24, 2016, the state of Illinois owed us approximately $43 million for May and June 2016 premiums.

In another example, the Commonwealth of Puerto Rico's fiscal plan, issued on October 14, 2016, reported that current revenues are insufficient to support existing current operations and debt service. While the Commonwealth reports that it will prioritize health care spending, it stresses the need to address the cap on federal matching funds it receives for its participation in the Medicaid program. Among the fiscal issues expected to further exacerbate the Commonwealth's current debt crisis is the depletion of ACA funds, estimated to occur in the Commonwealth's fiscal year 2018. As of September 30, 2016, our Puerto Rico health plan served approximately 331,000 members and recorded premium revenue of approximately $535 million for the nine months ended September 30, 2016. As of October 24, 2016, the Commonwealth is current with its premium payments.

Regulatory Capital and Dividend Restrictions. Our health plans, which are operated by our respective wholly owned subsidiaries in those states, are subject to state laws and regulations that, among other things, require the maintenance of minimum levels of statutory capital, as defined by each state. Regulators in some states may also attempt to enforce capital requirements upon us that require the retention of net worth in excess of amounts formally required by statute or regulation. Such statutes, regulations and informal capital requirements also restrict the timing, payment, and amount of dividends and other distributions that may be paid to us as the sole stockholder. To the extent our subsidiaries must comply with these regulations, they may not have the financial flexibility to transfer funds to us.

Based on current statutes and regulations, the net assets in these subsidiaries (after intercompany eliminations) which may not be transferable to us in the form of loans, advances, or cash dividends was approximately $1,406 million at September 30, 2016, and $1,229 million at December 31, 2015. Because of the statutory restrictions that inhibit the ability of our health plans to transfer net assets to us, the amount of retained earnings readily available to pay dividends to our stockholders is generally limited to cash, cash equivalents and investments held by the parent company – Molina Healthcare, Inc. Such cash, cash equivalents and investments amounted to $388 million and $612 million as of September 30, 2016 and December 31, 2015, respectively.

The National Association of Insurance Commissioners (NAIC) adopted rules effective December 31, 1998, which, if implemented by the states, set minimum capitalization requirements for insurance companies, HMOs, and other entities bearing risk for health care coverage. The requirements take the form of risk-based capital (RBC) rules which may vary from state to state.

As of September 30, 2016, our health plans had aggregate statutory capital and surplus of approximately $1,510 million compared with the required minimum aggregate statutory capital and surplus of approximately $857 million. All of our health plans were in compliance with the minimum capital requirements at September 30, 2016. We have the ability and commitment to provide additional capital to each of our health plans when necessary to ensure that statutory capital and surplus continue to meet regulatory requirements.

15. Related Party Transactions

Refer to Note 16, "Variable Interest Entities (VIEs)," for a discussion of the Joseph M. Molina, M.D. Professional Corporations.

16. Variable Interest Entities (VIEs)

Joseph M. Molina M.D., Professional Corporations

The Joseph M. Molina, M.D. Professional Corporations (JMMPC) were created to further advance our direct delivery business. JMMPC's primary shareholder is Dr. J. Mario Molina, our chief executive officer, president, and chairman of the board of directors. Dr. Molina is paid no salary and receives no dividends in connection with his work for, or ownership of, JMMPC. JMMPC provides primary care medical services through its employed physicians and other medical professionals. JMMPC also provides certain specialty referral services to our California health plan members through a contracted provider network. Substantially all of the individuals served by JMMPC are members of our health plans. JMMPC does not have agreements to provide professional medical services with any other entities.

Our wholly owned subsidiary, Molina Medical Management, Inc. (MMM), has entered into services agreements with JMMPC to provide clinic facilities, clinic administrative support staff, patient scheduling services and medical supplies to JMMPC. The services agreements were designed such that JMMPC will operate at break even, ensuring the availability of quality care and access for our health plan members. The services agreements provide that the administrative fees charged to JMMPC by MMM are reviewed annually to assure the achievement of this goal.

Separately, our California, Florida, New Mexico, Utah and Washington health plans have entered into primary care services agreements with JMMPC. These agreements direct our health plans to perform a monthly reconciliation, to either fund JMMPC's operating deficits, or receive JMMPC's operating surpluses, such that JMMPC will derive no profit or loss. Because the MMM services agreements described above mitigate the likelihood of significant operating deficits or surpluses, such monthly reconciliation amounts are generally insignificant. For the three months ended September 30, 2016 and 2015, our health plans paid $31 million and $28 million, respectively, to JMMPC for health care services provided by JMMPC to the health plans' members. For the nine months ended September 30, 2016 and 2015, our health plans paid $92 million and $80 million, respectively, to JMMPC for health care services provided by JMMPC to the health plans' members.

We have determined that JMMPC is a VIE, and that we are its primary beneficiary. We have reached this conclusion under the power and benefits criterion model according to GAAP. Specifically, we have the power to direct the activities that most significantly affect JMMPC's economic performance, and the obligation to absorb losses or right to receive benefits that are potentially significant to the VIE, under the agreements described above. Because we are its primary beneficiary, we have consolidated JMMPC. JMMPC's assets may be used to settle only JMMPC's obligations, and JMMPC's creditors have no recourse to the general credit of Molina Healthcare, Inc. As of September 30, 2016, JMMPC had total assets of $16 million, and total liabilities of $15 million. As of December 31, 2015, JMMPC had total assets of $17 million, and total liabilities of $17 million.

Our maximum exposure to loss as a result of our involvement with JMMPC is generally limited to the amounts needed to fund JMMPC's ongoing payroll, employee benefits and medical care costs associated with JMMPC's specialty referral activities. We believe that such loss exposures will be immaterial to our consolidated operating results and cash flows for the foreseeable future.

17. Supplemental Condensed Consolidating Financial Information

As discussed in Note 10, "Debt," on November 10, 2015, we completed the private offering of $700 million aggregate principal amount of 5.375% Notes. In connection with their issuance and sale, we entered into a registration rights agreement to exchange the 5.375% Notes for registered notes having substantially identical terms, including guarantees. Such exchange was completed on September 16, 2016.

The 5.375% Notes are fully and unconditionally guaranteed by certain of our wholly owned subsidiaries on a joint and several basis, with exceptions considered customary for such guarantees. The 5.375% Notes and the guarantees are effectively subordinated to all existing and future secured debt of us and our guarantors to the extent of the assets securing such debt. In addition, the 5.375% Notes and the guarantees are structurally subordinated to all indebtedness and other liabilities and preferred stock of our subsidiaries that do not guarantee the 5.375% Notes.

The following condensed consolidating financial statements present Molina Healthcare, Inc. (as parent guarantor), the subsidiary guarantors, the subsidiary non-guarantors and eliminations. These condensed consolidating financial statements have been prepared and presented in accordance with SEC Regulation S-X Rule 3-10, "Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered."

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements regarding our business, financial condition, and results of operations within the meaning of Section 27A of the Securities Act of 1933, or Securities Act, and Section 21E of the Securities Exchange Act of 1934, or Securities Exchange Act. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we are including this statement for purposes of complying with these safe harbor provisions. All statements, other than statements of historical facts, included in this Quarterly Report may be deemed to be forward-looking statements for purposes of the Securities Act and the Securities Exchange Act. Without limiting the foregoing, we use the words "anticipate(s)," "believe(s)," "estimate(s)," "expect(s)," "intend(s)," "may," "plan(s)," "project(s)," "will," "would," "could," "should" and similar expressions to identify forward-looking statements, although not all forward-looking statements contain these identifying words. We cannot guarantee that we will actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements and, accordingly, you should not place undue reliance on our forward-looking statements. There are a number of important factors that could cause actual results or events to differ materially from the forward-looking statements that we make. You should read these factors and the other cautionary statements as being applicable to all related forward-looking statements wherever they appear in this Quarterly Report. Any forward-looking statement made by us in this Quarterly Report is based only on information currently available to us and speaks only as of the date on which it is made. We caution you that we do not undertake any obligation to update forward-looking statements made by us. Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected, estimated, expected, or contemplated. Those known risks and uncertainties include, but are not limited to, the following:

- the success of our profit improvement and cost-cutting initiatives;
- uncertainties and evolving market and provider economics associated with the implementation of the Affordable Care Act (the "ACA"), the Medicaid expansion, the insurance marketplaces, the effect of various implementing regulations, and uncertainties regarding the Medicare-Medicaid dual eligible demonstration programs in California, Illinois, Michigan, Ohio, South Carolina, and Texas;
- management of our medical costs, including our ability to reduce over time the high medical costs commonly associated with new patient populations;
- our ability to predict with a reasonable degree of accuracy utilization rates, including utilization rates in new plans, geographies, and programs where we have less experience with patient and provider populations, and also including utilization rates associated with seasonal flu patterns or other newly emergent diseases;
- our ability to manage growth, including maintaining and creating adequate internal systems and controls relating to authorizations, approvals, provider payments, and the overall success of our care management initiatives;
- our ability to consummate and realize benefits from proposed acquisitions, including the pending Aetna-Humana Medicare Advantage divestiture transaction;
- our receipt of adequate premium rates to support increasing pharmacy costs, including costs associated with specialty drugs and costs resulting from formulary changes that allow the option of higher-priced non-generic drugs;
- our ability to operate profitably in an environment where the trend in premium rate increases lags behind the trend in increasing medical costs;
- the interpretation and implementation of federal or state medical cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit sharing arrangements, and risk adjustment provisions;
- our estimates of amounts owed for such cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit-sharing arrangements, and risk adjustment provisions, including but not limited to cost-plus reimbursement for retroactively eligible members in New Mexico, the Medicaid expansion cost corridors in New Mexico and Washington, and any other retroactive adjustment to revenue where methodologies and procedures are subject to interpretation, or are at least partially dependent upon information about the health status of state or federal program participants who are not Molina members;
- the interpretation and implementation of at-risk premium rules regarding the achievement of certain quality measures, and our ability to recognize revenue amounts associated therewith;
- the interpretation and implementation of state contract performance requirements regarding the achievement of certain quality measures, and our ability to avoid liquidated damages associated therewith;
- cyber-attacks or other privacy or data security incidents resulting in an inadvertent unauthorized disclosure of protected health information;

- the success of our health plan in Puerto Rico, including the resolution of the Puerto Rico debt crisis, payment of all amounts due under our Medicaid contract, the effect of the newly enacted PROMESA law, and our efforts to better manage the health care costs of our Puerto Rico health plan;
- significant budget pressures on state governments and their potential inability to maintain current rates, to implement expected rate increases, or to maintain existing benefit packages or membership eligibility thresholds or criteria, including the resolution of the Illinois budget impasse and continued payment of all amounts due to our Illinois health plan;
- the accurate estimation of incurred but not reported or paid medical costs across our health plans;
- subsequent adjustments to reported premium revenue based upon subsequent developments or new information, including changes to estimated amounts payable or receivable related to Marketplace risk adjustment/risk transfer, risk corridors, and reinsurance;
- efforts by states to recoup previously paid amounts;
- the success of our efforts to retain existing government contracts and to obtain new government contracts in connection with state requests for proposals (RFPs) in both existing and new states;
- the continuation and renewal of the government contracts of our health plans, Molina Medicaid Solutions, and Pathways, and the terms under which such contracts are renewed;
- complications, member confusion, or enrollment backlogs related to the annual renewal of Medicaid coverage;
- government audits and reviews, and any fine, enrollment freeze, or monitoring program that may result therefrom;
- changes with respect to our provider contracts and the loss of providers;
- approval by state regulators of dividends and distributions by our health plan subsidiaries;
- changes in funding under our contracts as a result of regulatory changes, programmatic adjustments, or other reforms;
- high dollar claims related to catastrophic illness;
- the favorable resolution of litigation, arbitration, or administrative proceedings;
- the relatively small number of states in which we operate health plans;
- the availability of adequate financing on acceptable terms to fund and capitalize our expansion and growth, repay our outstanding indebtedness at maturity and meet our liquidity needs, including the interest expense and other costs associated with such financing;
- the failure of a state in which we operate to renew its federal Medicaid waiver;
- changes generally affecting the managed care or Medicaid management information systems industries;
- increases in government surcharges, taxes, and assessments, including but not limited to the deductibility of certain compensation costs;
- newly emergent viruses or widespread epidemics, including the Zika virus, public catastrophes or terrorist attacks, and associated public alarm;
- changes in general economic conditions, including unemployment rates;
- the sufficiency of our funds on hand to pay the amounts due upon conversion of our outstanding notes; and
- increasing competition and consolidation in the Medicaid industry.

Investors should refer to Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 for a discussion of certain risk factors that could materially affect our business, financial condition, cash flows, or results of operations. Given these risks and uncertainties, we can give no assurance that any results or events projected or contemplated by our forward-looking statements will in fact occur.

This document and the following discussion of our financial condition and results of operations should be read in conjunction with the accompanying consolidated financial statements and the notes to those statements appearing elsewhere in this report, and the audited financial statements and Management's Discussion and Analysis appearing in our Annual Report on Form 10-K for the year ended December 31, 2015.

Company Overview

Molina Healthcare, Inc. provides quality managed health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments include our Health Plans segment, which comprises the vast majority of our operations; our Molina Medicaid Solutions segment; and our Other segment, which includes our behavioral health and social services subsidiary, Pathways. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015. All prior periods reported conform to this presentation.

Update on 2016 Financial Performance

Third Quarter 2016 Compared with Second Quarter 2016

Third quarter 2016 financial performance improved significantly when compared with the second quarter of 2016. Earnings per diluted share increased to $0.76 in the third quarter of 2016 from $0.58 in the second quarter. Adjusted earnings per diluted share increased to $0.85 in the third quarter of 2016 from $0.67 in the second quarter.

Higher profitability in the third quarter of 2016, when compared with the second quarter of 2016, was primarily the result of:

- **Improved profitability among products other than the Marketplace, partially offset by lower profitability for the Marketplace product.** Excluding adjustments related to 2015 dates of service, the medical care ratio for all products combined (excluding Marketplace) declined to 89.6% in the third quarter from 90.3% in the second quarter. The medical care ratio for the Marketplace program (also excluding adjustments related to 2015 dates of service) increased to 89.0% in the third quarter from 79.7% in the second quarter. Although third quarter results for the Marketplace business were lower than anticipated, we believe that Marketplace performance for full year 2016 dates of service will be approximately breakeven. We continue to record substantial liabilities for Marketplace risk transfer payments under the risk adjustment program. We estimate that such payments reduced our Marketplace premium revenue by approximately 25% for the nine months ended September 30, 2016. We have recommended that the risk transfer formula be modified so that payments between health plans are allocated based solely upon medical costs, rather than upon premiums. Such a change would have lowered the percentage of premium revenue returned as a result of risk transfer from 25% to 20% for the nine months ended September 30, 2016. We believe that the methodology used to calculate Marketplace risk transfer payments penalizes comparatively efficient and affordable health plans and, as a result, those purchasing affordable Marketplace policies ultimately pay higher premiums.

- **Improved administrative efficiency**. Our general and administrative expense ratio fell to 7.6% in the third quarter of 2016 from 8.1% in the second quarter.

- **Lower effective tax rate.** The benefit of approximately $5 million in discrete items reduced our effective tax rate to 54.0% in the third quarter of 2016, from 59.8% in the second quarter.

Management Expectations for Full Year 2016 Results

As previously disclosed, we expect the following factors, among others, to affect our financial performance in the rest of 2016:

- The ultimate savings to be realized from various cost savings initiatives and the speed at which such savings will be realized.
- Medicaid rate increases (excluding Medicaid Expansion) of approximately 3.0% in California (effective July 1, 2016); approximately 2.5% in Puerto Rico (effective July 1, 2016); approximately 3.0% in Texas (effective September 1, 2016); and approximately 4.0% in Florida (effective September 1, 2016). All rate changes are consistent with our previous expectations.
- Medicaid Expansion rate decreases of approximately 11.0% in California (effective July 1, 2016) and approximately 2.0% in Ohio (effective July 1, 2016). All rate changes are consistent with our previous expectations.
- The implementation of a medical care ratio floor of 86.0% for the South Carolina Medicaid program effective July 1, 2016.
- Declining margins for our Marketplace business during the second half of 2016 due to normal membership attrition; the addition of higher cost members through the special enrollment process; higher costs as members reach the limits of the cost-sharing provisions of their insurance coverage; and increasing utilization as members become more engaged with our care networks.

Market Updates

Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 1, "Basis of Presentation," for a discussion of the current year market updates.

Understanding Our Business

Health Plans Segment

The Health Plans segment consists of health plans in 12 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of September 30, 2016, these health plans served 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. This membership includes Health Insurance Marketplace (Marketplace) members, most of whom receive government premium subsidies.

Health Plans Segment Membership by Health Plan and Program. The following tables set forth our Health Plans membership as of the dates indicated:

	September 30, 2016	December 31, 2015	September 30, 2015
Ending Membership by Health Plan:			
California	683,000	620,000	611,000
Florida	563,000	440,000	349,000
Illinois	195,000	98,000	101,000
Michigan	387,000	328,000	340,000
New Mexico	253,000	231,000	231,000
New York (1)	37,000	—	—
Ohio	339,000	327,000	344,000
Puerto Rico	331,000	348,000	356,000
South Carolina	109,000	99,000	102,000
Texas	352,000	260,000	263,000
Utah	150,000	102,000	102,000
Washington	716,000	582,000	568,000
Wisconsin	131,000	98,000	103,000
	4,246,000	3,533,000	3,470,000
Ending Membership by Program:			
Temporary Assistance for Needy Families (TANF) and Children's Health Insurance Program (CHIP)	2,529,000	2,312,000	2,249,000
Medicaid Expansion	658,000	557,000	540,000
Marketplace	568,000	205,000	226,000
Aged, Blind or Disabled (ABD)	395,000	366,000	359,000
Medicare-Medicaid Plan (MMP) – Integrated (2)	51,000	51,000	56,000
Medicare Special Needs Plans (Medicare)	45,000	42,000	40,000
	4,246,000	3,533,000	3,470,000

(1) The New York health plan was acquired on August 1, 2016.
(2) MMP members who receive both Medicaid and Medicare coverage from Molina Healthcare.

Health Plans Segment Premiums by Program. The amount of the premiums paid to our health plans may vary substantially between states and among various government programs. The following table sets forth the ranges of premiums paid to our state health plans by program on a per-member per-month (PMPM) basis, for the nine months ended September 30, 2016. The "Consolidated" column represents the weighted-average amounts for our total membership by program.

	PMPM Premiums		
	Low	High	Consolidated
TANF and CHIP	$ 120.00	$ 320.00	$ 180.00
Medicaid Expansion	320.00	480.00	380.00
Marketplace	160.00	360.00	230.00
ABD	390.00	1,530.00	990.00
MMP – Integrated	1,170.00	3,290.00	2,160.00
Medicare	780.00	1,110.00	1,020.00

Health Plans Segment Medical Care Costs by Type. The following table provides the details of consolidated medical care costs by type for the periods indicated (dollars in millions except PMPM amounts):

	Three Months Ended September 30,					
	2016			2015		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee for service	$ 2,799	$ 220.29	74.7%	$ 2,224	$ 218.69	73.8%
Pharmacy	567	44.65	15.1	418	41.07	13.9
Capitation	302	23.83	8.1	260	25.57	8.6
Direct delivery	21	1.66	0.5	31	2.97	1.0
Other	59	4.58	1.6	83	8.19	2.7
	$ 3,748	$ 295.01	100.0%	$ 3,016	$ 296.49	100.0%

	Nine Months Ended September 30,					
	2016			2015		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee for service	$ 8,156	$ 215.96	74.6%	$ 6,275	$ 217.63	73.1%
Pharmacy	1,621	42.93	14.8	1,161	40.26	13.5
Capitation	901	23.86	8.3	725	25.13	8.5
Direct delivery	55	1.46	0.5	85	2.94	1.0
Other	197	5.20	1.8	335	11.62	3.9
	$ 10,930	$ 289.41	100.0%	$ 8,581	$ 297.58	100.0%

Molina Medicaid Solutions Segment

The Molina Medicaid Solutions segment provides support to state government agencies in the administration of their Medicaid programs including business processing, information technology development, and administrative services. Molina Medicaid Solutions is under contract with the Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and drug rebate administration services in Florida.

Other Segment

The Other segment includes businesses, such as our Pathways behavioral health and social services provider, which do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

How We Assess Performance

One of the key metrics used to assess the performance of our most significant segment, the Health Plans segment, is the medical care ratio. The medical care ratio represents the amount of medical care costs as a percentage of premium revenue. Therefore, the underlying gross margin, or the amount earned by the Health Plans segment after medical costs are deducted from premium revenue, is the most important measure of earnings reviewed by management.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." The service margin is equal to service revenue minus cost of service revenue. The following table presents gross margin for our segments. Management's discussion and analysis of the changes in the individual components of gross margin, by reportable segment, is presented below under "Results of Operations."

	Three Months Ended September 30,		Change		Nine Months Ended September 30,		Change	
	2016	2015	$	%	2016	2015	$	%
	(Dollars in millions)							
Health Plans:								
Premium revenue	$ 4,191	$ 3,377	$ 814	24 %	$ 12,215	$ 9,652	$ 2,563	27 %
Less: medical care costs	3,748	3,016	732	24	10,930	8,581	2,349	27
Medical margin	$ 443	$ 361	$ 82	23	$ 1,285	$ 1,071	$ 214	20
Medical care ratio	89.4%	89.3%			89.5%	88.9%		
Molina Medicaid Solutions:								
Service revenue	$ 48	$ 47	$ 1	2	$ 146	$ 146	$ —	—
Less: cost of service revenue	42	34	8	24	129	103	26	25
Service margin	$ 6	$ 13	$ (7)	(54)	$ 17	$ 43	$ (26)	(60)
Service cost ratio	86.7%	72.7%			88.3%	70.4%		
Other:								
Service revenue	$ 85	$ —			$ 262	$ —		
Less: cost of service revenue	77	—			233	—		
Service margin	$ 8	$ —			$ 29	$ —		
Service cost ratio	90.3%	—%			89.0%	—%		

Our Use of Non-GAAP Financial Measures

We use two non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry. These non-GAAP financial measures should be considered as supplements to, and not as substitutes for or superior to, GAAP measures. The year over year changes for the individual components of both of these measures are described below in "Results of Operations."

The first of these non-GAAP measures is earnings before interest, taxes, depreciation and amortization (EBITDA). We believe that EBITDA is particularly helpful in assessing our ability to meet the cash demands of our operating units. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to EBITDA.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
	(In millions)			
Net income	$ 42	$ 46	$ 99	$ 113
Adjustments:				
Depreciation, and amortization of intangible assets and capitalized software	42	29	118	87
Interest expense	26	15	76	45
Income tax expense	50	52	137	153
EBITDA	$ 160	$ 142	$ 430	$ 398

The second of these non-GAAP measures is adjusted net income (including adjusted net income per diluted share). We believe that adjusted net income per diluted share is very helpful in assessing our financial performance exclusive of the non-cash impact of the amortization of purchased intangibles. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to adjusted net income.

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2016		2015		2016		2015	
	(In millions, except diluted per-share amounts)							
Net income	$ 42	$ 0.76	$ 46	$ 0.77	$ 99	$ 1.77	$ 113	2.07
Adjustment, net of tax:								
Amortization of intangible assets	5	0.09	2	0.04	15	0.26	8	0.15
Adjusted net income (1)	$ 47	$ 0.85	$ 48	$ 0.81	$ 114	$ 2.03	$ 121	$ 2.22

(1) Beginning in the first quarter of 2016, we revised our calculation of adjusted net income. We no longer subtract "Amortization of convertible senior notes and lease financing obligations" from net income to arrive at adjusted net income. We made this change because various capital transactions completed in 2015 reduced our relative reliance on convertible notes and lease financing as sources of capital. We believe that this change enhances the comparability of these non-GAAP measures with the corresponding non-GAAP measures used by our competitors. All periods presented conform to this presentation.

Results of Operations

Health Plans Segment

Three Months Ended September 30, 2016 Compared with Three Months Ended September 30, 2015

Strong enrollment growth generated approximately $814 million, or 24%, more premium revenue in the third quarter of 2016 compared with the third quarter of 2015. Enrollment growth was primarily due to increased Marketplace enrollment, and acquisitions that added Medicaid membership. Consolidated premium revenue measured on a PMPM basis was essentially unchanged in the third quarter of 2016 when compared with the third quarter of 2015.

The medical care ratio increased slightly to 89.4% in the third quarter of 2016, from 89.3% in the third quarter of 2015. This increase was driven by lower percentage margins for Medicaid Expansion and Marketplace membership which more than offset higher margins for TANF and ABD combined. Consolidated medical care costs measured on a PMPM basis were nearly constant in the third quarter of 2016 when compared with the third quarter of 2015.

Financial Performance by Program. The following tables present the components of premium revenue and medical care costs by program (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions).

	Three Months Ended September 30, 2016						
	Member Months(1)	Premium Revenue		Medical Care Costs		MCR(2)	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	7.6	$ 1,373	$ 180.74	$ 1,246	$ 164.04	90.8%	$ 127
Medicaid Expansion	2.0	763	386.98	642	325.68	84.2	121
Marketplace	1.7	399	238.86	352	210.38	88.1	47
ABD	1.1	1,186	1,008.28	1,094	929.93	92.2	92
MMP	0.2	334	2,165.26	280	1,818.75	84.0	54
Medicare	0.1	136	1,019.19	134	1,003.85	98.5	2
	12.7	$ 4,191	$ 329.88	$ 3,748	$ 295.01	89.4%	$ 443

	Three Months Ended September 30, 2015						
	Member Months(1)	Premium Revenue		Medical Care Costs		MCR(2)	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	6.6	$ 1,139	$ 171.16	$ 1,070	$ 160.85	94.0%	$ 69
Medicaid Expansion	1.5	565	366.80	458	297.16	81.0	107
Marketplace	0.6	170	262.74	124	192.21	73.2	46
ABD	1.1	1,070	1,017.68	979	931.11	91.5	91
MMP	0.2	310	1,975.10	271	1,718.13	87.0	39
Medicare	0.1	123	1,002.50	114	930.43	92.8	9
	10.1	$ 3,377	$ 332.05	$ 3,016	$ 296.49	89.3%	$ 361

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.

The following discussion highlights the primary drivers of our performance, by program.

Medicaid TANF, CHIP and ABD. Medical care ratios for the TANF, CHIP and ABD programs fluctuated among health plans between the third quarters of 2016 and 2015. The medical care ratio on a consolidated basis for the ABD program was consistent between the third quarters of 2016 and 2015. The medical care ratio on a consolidated basis for the TANF and CHIP programs combined fell in the third quarter of 2016 when compared to the third quarter of 2015. Lower medical care ratios for the Florida, Illinois and New Mexico health plans more than offset higher or flat medical care ratios in other health plans.

Medicaid Expansion. Member months increased 28% in the third quarter of 2016, when compared with the third quarter of 2015, as a result of membership growth in all states, but higher medical care ratios in Michigan, New Mexico, Ohio and Washington led to an increase in the consolidated medical care ratio for the Expansion program, when compared with the third quarter of 2015.

Marketplace. Marketplace member months increased by almost 160% in the third quarter of 2016 when compared with the third quarter of 2015. The medical care ratio of aggregate Marketplace membership increased substantially in the third quarter of 2016 when compared with the third quarter of 2015, primarily as a result of lower revenue due to increased liabilities for the Marketplace risk adjustment program.

MMP and Medicare. Membership, revenue and medical care ratios were consistent on a consolidated basis for the MMP and Medicare programs when comparing the third quarter of 2016 with the third quarter of 2015.

Financial Performance by State Health Plan. The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by state health plan for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Three Months Ended September 30, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
California	2.1	$ 612	$ 298.05	$ 523	$ 254.11	85.3%	$ 89
Florida	1.6	494	297.24	462	277.79	93.5	32
Illinois	0.6	163	275.26	145	244.86	89.0	18
Michigan	1.2	387	334.25	337	290.16	86.8	50
New Mexico	0.8	338	440.12	304	396.35	90.1	34
New York (3)	0.1	32	427.40	30	403.71	94.5	2

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.
(3) The New York health plan was acquired effective August 1, 2016.
(4) "Other" medical care costs include primarily medically related administrative costs of the parent company, and direct delivery costs.

The following discussion highlights the primary drivers of our performance, by health plan.

California. Premium revenue grew to $612 million in the third quarter of 2016, from $524 million in the third quarter of 2015, as a result of higher membership in the TANF, Medicaid Expansion and Marketplace programs. The medical care ratio increased to 85.3% in the third quarter of 2016, from 83.6% in the third quarter of 2015, due to a higher medical care ratio in the TANF and ABD programs, partially offset by a decrease in the medical care ratio for the Medicaid Expansion program.

Florida. Premium revenue grew to $494 million in the third quarter of 2016, from $300 million in the third quarter of 2015, due to increased Marketplace membership and the addition of over 100,000 members from Medicaid contract acquisitions, most of which closed in the fourth quarter of 2015. The medical care ratio increased to 93.5% in the third quarter of 2016, from 88.3% in the third quarter of 2015, primarily as a result of an increase in the medical care ratio for the Marketplace membership, which more than offset a decrease to the medical care ratio for the TANF membership.

Illinois. Premium revenue grew to $163 million in the third quarter of 2016, from $106 million in the third quarter of 2015. The plan added approximately 100,000 members from Medicaid contract acquisitions in the first quarter of 2016. The medical care ratio decreased to 89.0% in the third quarter of 2016, from 94.3% in the third quarter of 2015. The decrease in the medical care ratio was primarily due to higher margins for TANF and Medicaid Expansion members.

Michigan. Premium revenue grew $106 million, or 38%, in the third quarter of 2016 compared with the third quarter of 2015, due to the addition of over 100,000 members from Medicaid contract acquisitions closed in the third quarter of 2015 and the first quarter of 2016. The medical care ratio increased to 86.8% in the third quarter of 2016, from 83.8% in the third quarter of 2015, primarily as a result of lower margins for TANF and Medicaid Expansion membership.

New Mexico. The medical care ratio decreased to 90.1% in the third quarter of 2016, from 92.5% in the third quarter of 2015, primarily as a result of a lower medical care ratio for the health plan's TANF membership, partially offset by an increase to the medical care ratio for the Medicaid Expansion membership.

New York. The medical care ratio was 94.5% in the third quarter of 2016. Our New York health plan was acquired effective August 1, 2016 and is the smallest of our health plans.

Ohio. Premium revenue declined $9 million, or 2%, in the third quarter of 2016 compared with the third quarter of 2015, despite a slight increase in enrollment. Medicaid premium rates decreased effective January 1, 2016, by approximately 2.5% (including a 5% decrease in Medicaid Expansion rates). Despite lower per member per month premiums, the medical care ratio decreased to 84.6% in the third quarter of 2016, from 85.5% in the third quarter of 2015.

Puerto Rico. The medical care ratio increased to 91.3% in the third quarter of 2016, from 89.3% in the third quarter of 2015.

South Carolina. The medical care ratio increased to 91.6% in the third quarter of 2016, from 80.1% in the third quarter of 2015. Premium increases in South Carolina have not been sufficient to cover the cost of expanded benefits.

Texas. Premium revenue grew $73 million, or 14%, in the third quarter of 2016 compared with the third quarter of 2015. The medical care ratio decreased to 88.1% in the third quarter of 2016 compared with 94.1% in the third quarter of 2015, primarily due to a decline in the medical care ratio for ABD membership and growth in Marketplace membership, which has a lower medical care ratio than the health plan's other membership.

Utah. Premium revenue grew $21 million, or 25%, in the third quarter of September 30, 2016 compared with the third quarter of 2015, primarily due to higher Marketplace enrollment. The medical care ratio increased to 97.6% in the third quarter of 2016, from 90.5% in the third quarter of 2015, primarily due to an increase in the medical care ratio of the growing Marketplace program.

Washington. Premium revenue grew $169 million, or 42%, in the third quarter of 2016 compared with the third quarter of 2015, primarily due to membership growth in the Medicaid (both TANF and ABD) and Medicaid Expansion programs. The medical care ratio decreased to 91.7% in the third quarter of 2016, from 92.9% in the third quarter of 2015.

Wisconsin. Premium revenue grew $32 million, or 44%, in the third quarter of 2016 when compared with the third quarter of 2015 as a result of increased Marketplace enrollment. The medical care ratio increased to 88.4% in the third quarter of 2016, from 79.6% in the third quarter of 2015 due to an increase in the medical care ratio of the Marketplace membership.

Nine Months Ended September 30, 2016 Compared with Nine Months Ended September 30, 2015

In the nine months ended September 30, 2016, a 30% increase in membership, partially offset by a 3% decrease in revenue PMPM, resulted in increased premium revenue of approximately 27%, or $2.6 billion, when compared with the nine months ended September 30, 2015. The decline in PMPM premium revenue was primarily the result of lower PMPM premiums for Medicaid Expansion membership and an increase in the percentage of our premium revenue derived from TANF and Marketplace membership.

Medical care costs as a percent of premium revenue increased to 89.5% in the nine months ended September 30, 2016, from 88.9% in the nine months ended September 30, 2015. The increase in our medical care ratio was driven primarily by lower percentage margins for Medicaid Expansion and Marketplace membership. Medical margin (measured in absolute dollars) increased 20% in the nine months ended September 30, 2016 over the nine months ended September 30, 2015.

Financial Performance by Program. The following tables present the components of premium revenue and medical care costs by program (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions).

	Nine Months Ended September 30, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	22.5	$ 3,999	$ 177.60	$ 3,646	$ 161.93	91.2%	$ 353
Medicaid Expansion	5.8	2,184	376.98	1,850	319.38	84.7	334
Marketplace	5.1	1,181	231.69	1,009	197.77	85.4	172
ABD	3.5	3,466	987.20	3,173	903.85	91.6	293

	37.8	$ 12,215	$ 323.44	$ 10,930	$ 289.41	89.5%	$ 1,285

	Nine Months Ended September 30, 2015						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	18.6	$ 3,280	$ 175.52	$ 3,030	$ 162.16	92.4%	$ 250
Medicaid Expansion	4.2	1,654	393.71	1,325	315.33	80.1	329
Marketplace	2.0	525	259.97	370	183.33	70.5	155
ABD	3.2	3,063	965.91	2,789	879.27	91.0	274
MMP	0.4	733	1,981.40	684	1,847.03	93.2	49
Medicare	0.4	397	1,026.00	383	991.53	96.6	14
	28.8	$ 9,652	$ 334.74	$ 8,581	$ 297.58	88.9%	$ 1,071

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.

The following discussion highlights the primary drivers of our performance, by program.

Medicaid TANF, CHIP and ABD. TANF, CHIP and ABD revenue increased in the nine months ended September 30, 2016 when compared with the nine months ended September 30, 2015, due to health plan acquisitions in late 2015 and early 2016, as well as the inclusion of a full three quarters of Puerto Rico operations year to date in 2016 (Puerto Rico began operations effective April 1, 2015). The slight decline in the medical care ratio for these programs on a consolidated basis when comparing the nine months ended September 30, 2016 with the same period in 2015 is not significant given normal margin fluctuations observed when performance is reviewed at this level of detail.

Medicaid Expansion. Member months increased 38% in the nine months ended September 30, 2016, when compared with the same period in 2015 as a result of membership growth in all states; but higher medical care ratios in Illinois, Michigan, New Mexico and Ohio led to an increase in the consolidated medical care ratio for the Expansion program.

Marketplace. Marketplace member months increased by over 150% in the nine months ended September 30, 2016, when compared with the same period in 2015. The medical care ratio of aggregate Marketplace membership increased substantially in 2016 when compared to 2015, primarily as a result of lower revenue due to increased liabilities for the Marketplace risk adjustment program.

MMP and Medicare. Membership and revenue increased on a consolidated basis for the MMP and Medicare programs when comparing the nine months ended September 30, 2016 with the same period in 2015. The medical care ratio for these programs decreased on a consolidated basis due to higher margins for the MMP program.

Financial Performance by State Health Plan. The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by state health plan for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Nine Months Ended September 30, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
California	6.1	$ 1,707	$ 280.21	$ 1,485	$ 243.64	86.9%	$ 222
Florida	5.0	1,447	288.74	1,301	259.60	89.9	146
Illinois	1.8	466	266.11	414	236.39	88.8	52

	28.8	$ 9,652	$ 334.74	$ 8,581	$ 297.58	88.9%	$ 1,071

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.
(3) The New York health plan was acquired effective August 1, 2016.
(4) "Other" medical care costs include primarily medically related administrative costs of the parent company, and direct delivery costs.

California. Premium revenue grew to $1,707 million in the nine months ended September 30, 2016, from $1,538 million in the nine months ended September 30, 2015, as a result of higher membership in the TANF, Medicaid Expansion and Marketplace programs. The medical care ratio decreased to 86.9% in the nine months ended September 30, 2016, from 87.7% in the nine months ended September 30, 2015, due to improvements in the medical care ratios for the TANF, Medicaid Expansion and MMP membership. These improvements more than offset a higher medical care ratio for the ABD membership.

Florida. Premium revenue grew to $1,447 million in the nine months ended September 30, 2016, from $868 million in the nine months ended September 30, 2015, primarily due to increased Marketplace membership, and the addition of over 100,000

members from Medicaid contract acquisitions, most of which closed in the fourth quarter of 2015. The medical care ratio increased to 89.9% in the nine months ended September 30, 2016, from 87.9% in the nine months ended September 30, 2015, primarily as a result of an increase in the medical care ratio for the Marketplace membership, which more than offset a decrease in the medical care ratio for the TANF and ABD membership.

Illinois. Premium revenue grew to $466 million in the nine months ended September 30, 2016, from $312 million in the nine months ended September 30, 2015. The health plan added approximately 100,000 members from Medicaid contract acquisitions in the first quarter of 2016. The health plan's medical care ratio decreased to 88.8% for the nine months ended September 30, 2016, from 92.2% for the nine months ended September 30, 2015. The decrease in the medical care ratio was primarily due to higher margins for the health plan's TANF membership.

Michigan. Premium revenue grew $405 million, or 55%, in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015, due to the addition of over 100,000 members from Medicaid contract acquisitions in the third quarter of 2015 and the first quarter of 2016. The medical care ratio increased to 89.0% in the nine months ended September 30, 2016, from 84.0% in the nine months ended September 30, 2015, primarily as a result of lower margins for TANF and Medicaid Expansion membership.

New Mexico. The medical care ratio decreased to 89.1% in the nine months ended September 30, 2016, from 90.4% in the nine months ended September 30, 2015, due to a lower medical care ratio for the TANF membership, partially offset by an increase in the medical care ratio for the Medicaid Expansion membership.

New York. As noted above, the New York health plan was acquired effective August 1, 2016.

Ohio. Premium revenue declined $62 million, or 4%, in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015, due to reduced overall state Medicaid enrollment and a Medicaid premium rate decrease effective January 1, 2016 of approximately 2.5% (which included a 5% decrease in Medicaid Expansion rates). The medical care ratio increased to 88.7% in the nine months ended September 30, 2016, from 83.5% in the nine months ended September 30, 2015, as a result of the rate decrease noted above and less favorable development of prior period medical liability estimates year to date in 2016 compared with 2015.

Puerto Rico. The medical care ratio increased to 96.6% in the nine months ended September 30, 2016, from 92.3% in the nine months ended September 30, 2015, primarily due to increased pharmacy costs, and reductions to revenue previously recorded for 2015 dates of service which decreased pretax income by approximately $11 million in the second quarter of 2016. The plan served its first members effective April 1, 2015.

South Carolina. The medical care ratio increased to 84.8% in the nine months ended September 30, 2016, from 77.5% in the nine months ended September 30, 2015. Premium increases in South Carolina have not been sufficient to cover the cost of expanded benefits.

Texas. Premium revenue grew $434 million, or 31%, in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015. Growth in premium revenue was primarily the result of increased Marketplace enrollment; the revenue associated with additional nursing home services provided to some ABD members effective March 1, 2015; the start-up of the Texas MMP program on that same date; and the recognition (in the second quarter of 2016) of approximately $44 million in out-of-period quality revenue relating to 2015 and 2014 dates of service. The plan's medical care ratio decreased to 86.4% for the nine months ended September 30, 2016, from 92.6% for the nine months ended September 30, 2015. Without the benefit of out-of-period quality revenue, the medical care ratio of the Texas health plan would have been approximately 88% in the nine months ended September 30, 2016.

Utah. Premium revenue grew $88 million, or 36%, in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015, primarily due to higher Marketplace enrollment. The medical care ratio increased to 94.5% in the nine months ended September 30, 2016, from 92.0% in the nine months ended September 30, 2015, primarily due to an increase in the medical care ratio of the growing Marketplace program.

Washington. Premium revenue grew $448 million, or 38%, in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015, primarily due to membership growth in the Marketplace, TANF and Medicaid Expansion programs. The medical care ratio decreased to 90.5% in the nine months ended September 30, 2016, from 92.3% in the nine months ended September 30, 2015, due to improved medical cost efficiency across nearly all programs.

Wisconsin. Premium revenue grew $93 million, or 45%, in the nine months ended September 30, 2016 when compared with the nine months ended September 30, 2015 as a result of increased Marketplace enrollment. The medical care ratio increased to 93.2% for the nine months ended September 30, 2016, from 78.4% for the nine months ended September 30, 2015 due to an increase in the medical care ratio of the Marketplace membership.

Molina Medicaid Solutions Segment

Service margin declined $7 million in the third quarter of 2016 compared with the third quarter of 2015, and $26 million in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015, primarily due to increased service costs associated with legacy state contracts that were re-procured.

Other Segment

Service margin was $8 million and $29 million for the three and nine months ended September 30, 2016, respectively. Because we acquired our Pathways behavioral health and social services provider in the fourth quarter of 2015, there was no service margin in the Other segment for the three and nine months ended September 30, 2015.

Income Statement Components that are Not Unique to Individual Segments

General and Administrative Expenses. General and administrative expenses as a percentage of total revenue (the "general and administrative expense ratio") decreased to 7.6% in the third quarter of 2016, from 8.0% in the third quarter of 2015. The general and administrative expense ratio decreased to 7.8% for the nine months ended September 30, 2016, compared with 8.1% for the nine months ended September 30, 2015. In both the three and nine months ended September 30, 2016, the increase in total revenue outpaced the increase in general and administrative expenses.

Premium Tax Expenses. The premium tax ratio (premium tax expense as a percentage of premium revenue plus premium tax revenue) decreased to 2.7% in the nine months ended September 30, 2016, compared with 2.9% in the nine months ended September 30, 2015, primarily due to the significant revenue growth at our Florida health plan, which operates in a state with no premium tax, and growth in MMP revenue. The Medicare portion of MMP revenue is not subject to premium tax.

Health Insurer Fee Revenue and Expenses. HIF revenue, as a percentage of premium revenue, decreased to 2.0% in the third quarter of 2016, from 2.4% in the third quarter of 2015. In the third quarter of 2015, we recognized reimbursement of certain HIF revenue related to prior periods. The total amount of out-of-period HIF revenue recognized in the third quarter of 2015 represented approximately $8 million ($0.08 per diluted share) of HIF revenue related to 2014 and approximately $17 million ($0.18 per diluted share) related to the first two quarters of 2015. There was no such out-of-period recognition of HIF revenue in the third quarter of 2016. Year to date 2016 HIF revenue recognized, as a percentage of premium revenue, was consistent with year to date 2015 at 2.1%. In 2015, our Puerto Rico health plan was not subject to the HIF because it was not operational during the previous year (2014).

Depreciation and Amortization. When measured as a percentage of total revenue, the year over year change in depreciation and amortization was insignificant.

Interest Expense. Interest expense increased to $26 million for the third quarter of 2016, from $15 million for the third quarter of 2015. Interest expense increased to $76 million for the nine months ended September 30, 2016, from $45 million for the nine months ended September 30, 2015. The increase was primarily due to our issuance of $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, in the fourth quarter of 2015.

Interest expense includes non-cash interest expense relating primarily to the amortization of the discount on our convertible senior notes, which amounted to $8 million and $7 million for the third quarters of 2016 and 2015, respectively, and $23 million and $22 million for the nine months ended September 30, 2016 and 2015, respectively.

Income Tax Expense. The provision for income taxes was recorded at an effective rate of 54.0% for the third quarter of 2016, compared with 52.6% for the third quarter of 2015, and 58.0% for the nine months ended September 30, 2016 compared with 57.3% for the nine months ended September 30, 2015. Differences in the effective tax rate between periods are the result of different amounts of non-deductible expenses and discrete tax events.

Liquidity and Capital Resources

Introduction

We manage our cash, investments, and capital structure to meet the short- and long-term obligations of our business while maintaining liquidity and financial flexibility. Our regulated subsidiaries generate significant cash flows from premium revenue. Such cash flows are our primary sources of liquidity. Thus, any future decline in our profitability may have a negative impact on our liquidity. We generally receive premium revenue a short time before we pay for the related health care services. A majority of the assets held by our regulated subsidiaries is in the form of cash, cash equivalents, and investments. After considering expected cash flows from operating activities, we generally invest the cash of our regulated subsidiaries that exceeds our expected short-term obligations in longer term, investment-grade, and marketable debt securities to improve our overall investment return. These investments are made pursuant to board-approved investment policies that conform to applicable state laws and regulations.

As of September 30, 2016, a substantial portion of our cash was invested in a portfolio of highly liquid money market securities, and our investments consisted solely of investment-grade debt securities. All of our investments are classified as current assets, except for our restricted investments, which are classified as non-current assets. Our restricted investments are invested principally in certificates of deposit and U.S. treasury securities. Investments and restricted investments are subject to interest rate risk and will decrease in value if market rates increase. We have the ability to hold our restricted investments until maturity. Declines in interest rates over time will reduce our investment income.

Investment income increased to $25 million for the nine months ended September 30, 2016, compared with $12 million for the nine months ended September 30, 2015, primarily due to an increase in invested assets.

Cash in excess of the capital needs of our regulated health plans is generally paid to us in the form of dividends, when and as permitted by applicable regulations, for general corporate use. For the nine months ended September 30, 2016, we received $50 million in dividends from our regulated health plan subsidiaries. For the nine months ended September 30, 2015, we received $25 million in dividends from our regulated health plan subsidiaries, and $17 million from our unregulated subsidiaries.

Liquidity

A condensed schedule of cash flows to facilitate our discussion of liquidity follows:

	Nine Months Ended September 30,		
	2016	2015	Change
	(In millions)		
Net cash provided by operating activities	$ 633	$ 906	$ (273)
Net cash used in investing activities	(131)	(665)	534
Net cash provided by financing activities	11	384	(373)
Net increase in cash and cash equivalents	$ 513	$ 625	$ (112)

Operating Activities. Net cash provided by operating activities decreased $273 million in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015.

The year over year changes in the following accounts decreased cash provided by operating activities:

- Receivables and deferred revenue. Cash flows from operations in each year were impacted by the timing of payments we receive from our states. In general, states may delay our premium payment, which we record as a receivable, or they may prepay the following month premium payment, which we record as deferred revenue. We typically receive capitation payments monthly; however, the states in which we operate may decide to adjust their payment schedules which could positively or negatively impact our reported cash flows from operating activities in any given period. In the current year, the net effect of the timing of premiums received in California and Washington negatively impacted our cash flows from operating activities.
- Medical claims and benefits payable. In the nine months ended September 30, 2016, medical claims and benefits payable increased at a slower pace than the same period in 2015. In particular, our Puerto Rico health plan commenced operations on April 1, 2015, leading to a significant increase in medical claims and benefits payable at September 30, 2015, compared with a much smaller increase in the current year as the membership base has stabilized.

Investing Activities. Net cash used in investing activities was $131 million in the nine months ended September 30, 2016, compared with $665 million in the nine months ended September 30, 2015. Net cash used in investing activities was higher in 2015 than in 2016 largely due to the investment in 2015 of a large portion of the $373 million in proceeds, net of issuance costs, that we received from the June 2015 offering of 5.75 million shares of our common stock.

Financing Activities. Net cash provided by financing activities decreased $373 million in the nine months ended September 30, 2016 compared with the nine months ended September 30, 2015, primarily due to our 2015 common stock offering.

Financial Condition

We believe that our cash resources, internally generated funds and committed acquisition bridge financing (see below under *"Commitment Letter"*) will be sufficient to support our operations, planned acquisitions, regulatory requirements, and capital expenditures for at least the next 12 months.

On a consolidated basis, at September 30, 2016, our working capital was $1,448 million, compared with $1,484 million at December 31, 2015. At September 30, 2016, our cash and investments amounted to $4,695 million, compared with $4,241 million at December 31, 2015. Cash, cash equivalents and investments held by the parent company (Molina Healthcare, Inc.) amounted to $388 million and $612 million as of September 30, 2016 and December 31, 2015, respectively.

Regulatory Capital and Dividend Restrictions. For more information on our regulatory capital and dividend restrictions, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 14, "Commitments and Contingencies."

Debt Ratings. Our 5.375% Notes are rated "BB" by Standard & Poor's, and "Ba3" by Moody's Investor Service, Inc. A downgrade in our ratings could adversely affect our borrowing capacity and costs.

Future Sources and Uses of Liquidity

Proposed Acquisition. As described in Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 1, "Basis of Presentation," we announced the Medicare Acquisition on August 2, 2016, which is expected to close in 2017. The purchase price is currently estimated to be $117 million, subject to certain closing adjustments.

Commitment Letter. As described in Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 10, "Debt," we entered into a debt commitment letter with Barclays Bank PLC (Barclays). The primary terms of the debt commitment letter provide that Barclays will lend us up to $400 million which may be used as follows: to finance the Medicare Acquisition, including related transaction costs and regulatory or statutory capital requirements; to finance any ongoing working capital requirements; or for other general corporate purposes.

States' Budgets. From time to time, the states in which our health plans operate may experience financial difficulties, which could lead to delays in premium payments. For example, the state of Illinois is currently operating under a stopgap budget that expires in January 2017. It is unclear when or if the state's budget difficulties will be resolved. As of September 30, 2016, our Illinois health plan served approximately 195,000 members and recorded premium revenue of approximately $466 million for the nine months ended September 30, 2016. As of October 24, 2016, the state of Illinois owed us approximately $43 million for May and June 2016 premiums.

In another example, the Commonwealth of Puerto Rico's fiscal plan, issued on October 14, 2016, reported that current revenues are insufficient to support existing current operations and debt service. While the Commonwealth reports that it will prioritize health care spending, it stresses the need to address the cap on federal matching funds it receives for its participation in the Medicaid program. Among the fiscal issues expected to further exacerbate the Commonwealth's current debt crisis is the depletion of ACA funds, estimated to occur in the Commonwealth's fiscal year 2018. As of September 30, 2016, our Puerto Rico health plan served approximately 331,000 members and recorded premium revenue of approximately $535 million for the nine months ended September 30, 2016. As of October 24, 2016, the Commonwealth is current with its premium payments.

Credit Facility. In June 2015, we entered into an unsecured $250 million revolving credit facility (Credit Facility). Borrowings under the Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. The Credit Facility has a term of five years and all amounts outstanding will be due and payable on June 12, 2020. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $350 million. Our ability to borrow under the Credit Facility is subject to compliance with certain financial covenants. At September 30, 2016, we were in compliance with all financial covenants under the Credit Facility. As of September 30, 2016, outstanding letters of credit amounting to $6 million reduced the borrowing capacity to $244 million, and no amounts were outstanding under the Credit Facility.

Convertible Senior Notes. In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes (1.125% Notes) due January 15, 2020, unless earlier repurchased or converted. In September 2014, we issued $302 million aggregate principal amount of 1.625% convertible senior notes due August 15, 2044 (1.625% Notes), unless earlier repurchased, redeemed, or converted. The principal amounts of both the 1.125% Notes and the 1.625% Notes are convertible into cash prior to their respective maturity dates under certain circumstances, one of which relates to the closing price of our common stock over a specified period. We refer to this conversion trigger as the stock price trigger.

The 1.125% Notes met their $53.00 stock price trigger in the quarter ended September 30, 2016, therefore, the 1.125% Notes were convertible as of September 30, 2016. The 1.625% Notes did not meet their $75.52 stock price trigger in the quarter ended September 30, 2016, therefore, the 1.625% Notes were not convertible as of September 30, 2016.

Securities Repurchase Program. Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Shelf Registration Statement. We have a shelf registration statement on file with the Securities and Exchange Commission to register an unlimited amount of any combination of debt or equity securities in one or more offerings. Specific information regarding the terms and securities being offered will be provided at the time of an offering. Proceeds from future offerings are expected to be used for general corporate purposes, including, but not limited to, the repayment of debt, investments in or extensions of credit to our subsidiaries and the financing of possible acquisitions or business expansion.

Contractual Obligations

A summary of future obligations under our various contractual obligations and commitments as of December 31, 2015, was disclosed in our 2015 Annual Report on Form 10-K. There were no material changes to this previously filed information outside the ordinary course of business during the nine months ended September 30, 2016. For further discussion and maturities of our long-term debt, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, in Note 10, "Debt."

Critical Accounting Estimates

When we prepare our consolidated financial statements, we use estimates and assumptions that may affect reported amounts and disclosures; actual results could differ from these estimates. Our critical accounting estimates relate to:

- *Health Plans segment medical claims and benefits payable*. Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 9, "Medical Claims and Benefits Payable," for a table which presents the components of the change in medical claims and benefits payable, and for additional information regarding the factors used to determine our changes in estimates for all periods presented in the accompanying consolidated financial statements. Other than the discussion as noted above, there have been no significant changes during the nine months ended September 30, 2016, to our disclosure reported in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015.
- *Health Plans segment contractual provisions that may adjust or limit revenue or profit*. For a discussion of this topic, including amounts recorded to our consolidated financial statements, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies."
- *Health Plans segment quality incentives*. For a discussion of this topic, including amounts recorded to our consolidated financial statements, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies."
- *Molina Medicaid Solutions segment revenue and cost recognition*. There have been no significant changes during the nine months ended September 30, 2016, to our disclosure reported in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For information regarding market risk, see Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies," Note 5, "Fair Value Measurements," and Note 6, "Investments."

Inflation

We use various strategies to mitigate the negative effects of health care cost inflation. Specifically, our health plans try to control medical and hospital costs through contracts with independent providers of health care services. Through these contracted providers, our health plans emphasize preventive health care and appropriate use of specialty and hospital services. There can be no assurance, however, that our strategies to mitigate health care cost inflation will be successful. Competitive pressures, new health care and pharmaceutical product introductions, demands from health care providers and customers, applicable regulations, or other factors may affect our ability to control health care costs.

Compliance Costs

Our health plans are regulated by both state and federal government agencies. Regulation of managed care products and health care services is an evolving area of law that varies from jurisdiction to jurisdiction. Regulatory agencies generally have discretion to issue regulations and interpret and enforce laws and rules. Changes in applicable laws and rules occur frequently. Compliance with such laws and rules may lead to additional costs related to the implementation of additional systems, procedures and programs that we have not yet identified.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures: Our management, with the participation of our chief executive officer and our chief financial officer, has concluded, based upon its evaluation as of the end of the period covered by this report, that the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), are effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control Over Financial Reporting: There has been no change in our internal control over financial reporting during the fiscal quarter ended September 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For information regarding legal proceedings, see Part I, Item 1 of this Form 10-Q, Note 14, "Commitments and Contingencies."

Item 1A. Risk Factors

Certain risk factors may have a material adverse effect on our business, financial condition, cash flows, or results of operations, and you should carefully consider them. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, Item 1A – Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2015 and under Part II, Item 1A – Risk Factors, in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2016. The risk factors described in our 2015 Annual Report and 2016 first quarter Quarterly Report are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition, cash flows, or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Issuances of Equity Securities

None.

Issuer Purchases of Equity Securities

Share repurchase activity during the three months ended September 30, 2016 was as follows:

	Total Number of Shares Purchased (a)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (b)
July 1 - July 31	667	$ 49.83	—	$ 50,000,000
August 1 - August 31	573	$ 56.16	—	$ 50,000,000
September 1 - September 30	329	$ 53.54	—	$ 50,000,000
Total	1,569	$ 52.92	—	

(a) During the three months ended September 30, 2016, we withheld 1,569 shares of common stock under our 2011 Equity Incentive Plan to settle our employees' income tax obligations.

(b) Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

Item 6. Exhibits

Reference is made to the accompanying Index to Exhibits.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

MOLINA HEALTHCARE, INC.

2011 EMPLOYEE STOCK PURCHASE PLAN*

1. Establishment of Plan. Molina Healthcare, Inc., a Delaware corporation (the "Company"), proposes to grant options to purchase shares of the Company's common stock, $0.001 par value per share (the "Common Stock"), to eligible employees of the Company and its Participating Affiliates (as defined below) pursuant to this 2011 Employee Stock Purchase Plan (this "Plan"). For purposes of this Plan, "Parent Corporation" and "Subsidiary Corporation" shall have the same meanings as "parent corporation" and "subsidiary corporation" in Sections 424(e) and 424(f), respectively, of the Internal Revenue Code of 1986, as amended (the "Code"). "Participating Affiliates" are Parent Corporations or Subsidiary Corporations that the Board of Directors of the Company (the "Board") designates from time to time as corporations that shall participate in this Plan. Affiliates may be designated as Participating Affiliates either before or after this Plan is approved by the Company's stockholders as provided in Section 22. The Company intends this Plan to qualify as an "employee stock purchase plan" under Section 423 of the Code (including any amendments to or replacements of such Section), and this Plan shall be so construed. Any term not expressly defined in this Plan but defined for purposes of Section 423 of the Code shall have the same definition herein. A total of three million (3,000,000)[1] shares of the Common Stock are reserved for issuance under this Plan.

2. Purpose. The purpose of this Plan is to provide eligible employees of the Company and Participating Affiliates with a convenient means of acquiring an equity interest in the Company through payroll deductions, to enhance such employees' sense of participation in the affairs of the Company and Participating Affiliates, and to provide an incentive for continued employment.

3. Administration

(a) This Plan shall be administered by the Compensation Committee of the Board (the "Committee"). Subject to the provisions of this Plan and the limitations of Section 423 of the Code or any successor provision in the Code, all questions of interpretation or application of this Plan shall be determined by the Committee in its sole discretion and its decisions shall be final and binding upon all participants. Members of the Committee shall receive no compensation for their services in connection with the administration of this Plan, other than standard fees as established from time to time by the Board for services rendered by Board members serving on Board committees. All expenses incurred in connection with the administration of this Plan shall be paid by the Company.

*As amended on July 26, 2016.

[1] Represents the number of shares adjusted for the 3-for-2 common stock split in the form of a stock dividend that was effective May 20, 2011.

(b) The Committee may, from time to time, consistent with this Plan and the requirements of Section 423 of the Code, establish, change or terminate such rules, guidelines, policies, procedures, limitations, or adjustments as deemed advisable by the Company, in its sole discretion, for the proper administration of this Plan, including, without limitation: (a) a minimum payroll deduction amount required for participation in an Offering Period, (b) a limitation on the frequency or number of changes permitted in the rate of payroll deduction during an Offering Period, (c) a payroll deduction greater or less than the amount designated by a participant in order to adjust for the Company's delay or mistake in processing an Enrollment Form or in otherwise effecting a participant's election under this Plan or as advisable to comply with the requirements of Section 423 of the Code, (d) determination of the date and manner by which the Fair Market Value of the Common Stock is determined for purposes of administration of this Plan, (e) delegate responsibility for Plan operation, management and administration, subject to the Committee's oversight and control, on such terms as the Committee may establish, and (f) delegate to other persons the responsibility for performing appropriate functions as necessary, desirable or appropriate to further the purposes of this Plan.

4. Eligibility. Any individual employed by the Company or the Participating Affiliates on the "Offering Date" of an "Offering Period" (each as defined in Section 5 below) is eligible to participate in such Offering Period except the following:

(a) employees who are customarily employed for less than (20) hours per week; and

(b) employees who, together with any other person whose stock would be attributed to such employee pursuant to Section 424(d) of the Code, own stock or hold options to purchase stock possessing five percent (5%) or more of the total combined voting power or value of all classes of stock of the Company or any of its Participating Affiliates or who, as a result of being granted an option under this Plan with respect to such Offering Period, would own stock or hold options to purchase stock possessing five percent (5%) or more of the total combined power or value of all classes of stock of the Company or any of its Participating Affiliates; and

(c) individuals who provide services to the Company or any of its Participating Affiliates as independent contractors who are reclassified as common law employees for any reason except for federal income and employment tax purposes.

5. Offering Periods. The offering periods of this Plan (each, an "Offering Period") shall be of six (6) months duration commencing on January 1 and July 1 of the Company's fiscal year. The first day of each Offering Period is referred to as the "Offering Date." The last day of each Offering Period is referred to as the "Purchase Date." The Committee shall have the power to change the Offering Dates or Purchase Dates and the duration of Offering Periods without stockholder approval if such change is announced prior to the start of the relevant Offering Period, or prior to such other time period as specified by the Committee; provided, however, that no Offering Period may have a duration exceeding twenty-seven (27) months. If the first or last day of an Offering Period is not a day on which the New York

Stock Exchange is open for trading, the Company shall specify the trading day that will be deemed the first or last day, as the case may be, of the Offering Period.

6. Participation in this Plan. An employee may participate during an Offering Period on the first Offering Date after such employee satisfies the eligibility requirements set forth in Section 4 above and delivers an appropriate enrollment form (the "Enrollment Form") to the Company prior to such Offering Date, or such other time period as specified by the Committee. Notwithstanding the foregoing, the Committee may set a later time for filing the Enrollment Form authorizing payroll deductions for all eligible employees with respect to a given Offering Period. An eligible employee who does not timely deliver an Enrollment Form to the Company after becoming eligible to participate in such Offering Period shall not participate in that Offering Period or any subsequent Offering Period until filing an Enrollment Form with the Company prior to the applicable Offering Date, or such other time period as specified by the Committee. Once an employee becomes a participant in an Offering Period, such employee will automatically participate in the Offering Period commencing immediately following the last day of the prior Offering Period unless the employee withdraws or is deemed to withdraw from this Plan or terminates further participation in the Offering Period as set forth in Section 11 below. A participant who has not otherwise withdrawn from this Plan under Section 11 is not required to file any additional Enrollment Form in order to continue participation in this Plan. However a participant may deliver a new Enrollment Form for a subsequent Offering Period in accordance with applicable rules and procedures if the participant wishes to change any of the elections contained in the participant's then effective Enrollment Form.

7. Grant of Option on Enrollment. Enrollment by an eligible employee in an Offering Period under this Plan will constitute the grant (as of the Offering Date for such Offering Period) by the Company to such employee of an option to purchase on the Purchase Date up to that number of shares of Common Stock of the Company determined by dividing (a) the amount accumulated in such employee's payroll deduction account during such Offering Period by (b) the Per Share Purchase Price as determined pursuant to Section 8 below (but in no event less than the par value of a share of Company's Common Stock), provided, however, that the number of shares of the Company's Common Stock subject to any option granted pursuant to this Plan shall not exceed the maximum number of shares which may be purchased pursuant to Section 10 below with respect to the applicable Purchase Date. The Fair Market Value of a share of the Company's Common Stock shall be determined as provided in Section 8 below.

8. Purchase Price. The purchase price per share ("Per Share Purchase Price") at which a share of Common Stock will be sold in any Offering Period shall be eighty-five percent (85%) of the lesser of:

(a) The Fair Market Value on the Offering Date; or

(b) The Fair Market Value on the Purchase Date.

For purposes of this Plan, the term "Fair Market Value" of the Common Stock on any given date means (i) the last reported closing price for a share of Stock on the New York Stock Exchange or, (ii) in the absence of reported sales on the New York Stock Exchange on a given date, the closing price of the New York Stock Exchange on the last date on which a sale occurred prior to such date; or (iii) if the stock is no longer publicly traded on the New York Stock Exchange, the Committee in good faith shall determine Fair Market Value; provided that, if the date for which the Fair Market Value is determined is the first day when trading prices for the Stock are reported on the New York Stock Exchange, the Fair Market Value shall be the public offering price set forth on the cover page for the final prospectus relating to the Company's Initial Public Offering.

9. Payment of Purchase Price; Changes in Payroll Deductions; Issuance of Shares.

(a) The purchase price of the shares shall be accumulated by regular payroll deductions made during each Offering Period. The deductions are made as a percentage of the participant's Compensation in one percent (1%) increments not less than one percent (1%) (except as a result of an election pursuant to Section 9(c) to stop payroll deductions during an Offering Period), nor greater than fifteen percent (15%) or such lower limit set by the Committee. "Compensation" shall mean all W-2 cash compensation, including base salary, wages, commissions, overtime, shift premiums and bonuses, provided, however, that for purposes of determining a participant's compensation, any election by such participant to reduce his or her regular cash remuneration under Sections 125 or 401(k) of the Code shall be treated as if the participant did not make such election. Notwithstanding the foregoing, Compensation shall not include reimbursements of expenses, allowances, long-term disability, workers' compensation or any amount deemed received without the actual transfer of cash or any amounts directly or indirectly paid pursuant to this Plan or any other stock purchase or stock option plan, or any other compensation not included above. Payroll deductions shall commence on the first payday of the Offering Period and shall continue to the end of the Offering Period unless sooner altered or terminated as provided in this Plan.

(b) A participant may increase or decrease the rate of payroll deductions during an Offering Period by providing to the Company a new Enrollment Form, in which case the new rate shall become effective for the next payroll period commencing after the Company's receipt of the Enrollment Form and shall continue for the remainder of the Offering Period unless changed as described below. Such change in the rate of payroll deductions may be made at any time during an Offering Period, but not more than one (1) increase and one (1) decrease in the rate of payroll deductions may be made during any Offering Period. A participant may increase or decrease the rate of payroll deductions for any subsequent Offering Period by filing with the Company a new Enrollment Form prior to the beginning of such Offering Period, or prior to such other time period as specified by the Committee. Any changes to the rate of payroll deductions during an Offering Period which are received by the Company after the commencement of the enrollment period for a new Offering Period will be made by the Company at its discretion, only to the extent such changes are administratively possible.

(c) A participant may reduce his or her payroll deduction percentage to zero during an Offering Period by providing to the Company a revised Enrollment Form. Such reduction shall be effective beginning with the next payroll period after the Company's receipt of the request and no further payroll deductions will be made for the duration of the Offering Period. Payroll deductions credited to the participant's account prior to the effective date of the request shall be used to purchase shares of Common Stock in accordance with Section (e) below. Notwithstanding Section 9(b), a participant may not resume making payroll deductions during the Offering Period in which he or she reduced his or her payroll deductions to zero. Any reduction to a participant's payroll deduction percentage to zero during an Offering Period which is received by the Company after the commencement of the enrollment period for a new Offering Period will be made by the Company at its discretion, only to the extent such changes are administratively possible.

(d) All payroll deductions made for a participant are credited to his or her account under this Plan and are deposited with the general funds of the Company. No interest accrues on the payroll deductions. All payroll deductions received or held by the Company may be used by the Company for any corporate purpose, and the Company shall not be obligated to segregate such payroll deductions.

(e) On each Purchase Date, so long as this Plan remains in effect and provided that the participant has not submitted a revised Enrollment Form withdrawing from this Plan before such Purchase Date in accordance with Section 11, the Company shall apply the funds then in the participant's account (or, if applicable, the lump sum cash payment received from the participant) to the purchase of whole shares of Common Stock reserved under the option granted to such participant with respect to the Offering Period to the extent that such option is exercisable on the Purchase Date. The Per Share Purchase Price shall be as specified in Section 8. Any cash remaining in such participant's account on a Purchase Date which is less than the amount necessary to purchase a full share of Common Stock of the Company shall be refunded without interest. If this Plan has been oversubscribed, all funds not used to purchase shares on the Purchase Date shall be returned to the participant, without interest. No Common Stock shall be purchased on a Purchase Date on behalf of any employee whose participation in this Plan has terminated prior to such Purchase Date.

(f) As promptly as practicable after the Purchase Date, the Company shall issue shares for the participant's benefit representing the shares purchased upon exercise of his or her option, subject to compliance with Section 24 below.

(g) During a participant's lifetime, his or her option to purchase shares hereunder is exercisable only by him or her. The participant will have no interest or voting right in shares covered by his or her option until such option has been exercised.

1. Limitations on Shares to be Purchased.

(a) No participant shall be entitled to purchase Common Stock under this Plan at a rate which, when aggregated with his or her rights to purchase stock under all other employee stock purchase plans of the Company or any Parent Corporation or Subsidiary

Corporation, exceeds $25,000 in Fair Market Value, determined as of the Offering Date (or such other limit as may be imposed by the Code) for each calendar year in which the employee participates in this Plan. The Company shall automatically suspend the payroll deductions of any participant as necessary to enforce such limit; provided that when the Company automatically resumes such payroll deductions, the Company must apply the rate in effect immediately prior to such suspension.

(b) No participant shall be entitled to purchase more than the Maximum Share Amount (as defined below) on any single Purchase Date. Prior to the commencement of any Offering Period or before such time period as specified by the Committee, the Committee may, in its sole discretion, set a maximum number of shares which may be purchased by any employee at any single Purchase Date (the "Maximum Share Amount"). Until otherwise determined by the Committee, there shall be no Maximum Share Amount. If a new Maximum Share Amount is set, then all participants must be notified of such Maximum Share Amount before commencing the next Offering Period. The Maximum Share Amount shall continue to apply with respect to all succeeding Purchase Dates and Offering Periods unless revised by the Committee as set forth above.

(c) If the number of shares to be purchased on a Purchase Date by all employees participating in this Plan exceeds the number of shares then available for issuance under this Plan, then the Company will make a pro rata allocation of the remaining shares in as uniform a manner as shall be reasonably practicable and as the Committee shall determine to be equitable.

(d) Any payroll deductions accumulated in a participant's account which are not used to purchase stock due to the limitations in this Section 10 shall be returned to the participant as soon as practicable after the end of the applicable Offering Period, without interest, including any amount remaining in such participant's account which is less than the amount necessary to purchase a full share of Common Stock of the Company.

2. Withdrawal.

(a) Each participant may withdraw from an Offering Period under this Plan by signing and delivering to the Company a revised Enrollment Form indicating such participant's intention to withdraw. Such withdrawal may be elected at any time prior to the end of an Offering Period, or such other time period as specified by the Committee.

(b) Upon withdrawal from this Plan, the accumulated payroll deductions shall be returned to the withdrawn participant, without interest, and his or her interest in this Plan shall terminate. If a participant voluntarily elects to withdraw from this Plan, he or she may not resume his or her participation in this Plan during the same Offering Period, but he or she may participate in any Offering Period under this Plan commencing after such withdrawal by filing a new authorization for payroll deductions in the same manner as set forth in Section 6 above for initial participation in this Plan.

3. Termination of Employment. Termination of a participant's employment for any reason, including retirement, death or the failure of a participant to remain an eligible employee of the Company or of a Participating Affiliate, immediately terminates his or her participation in this Plan. In such event, the payroll deductions credited to the participant's account will be returned to him or her or, in the case of his or her death, to his or her legal representative, without interest. For purposes of this Section 12, an employee will not be deemed to have terminated employment or failed to remain in the continuous employ of the Company or of a Participating Affiliate in the case of sick leave, military leave, or any other leave of absence approved by the Board; provided that such leave is for a period of not more than ninety (90) days or reemployment upon the expiration of such leave is guaranteed by contract or statute.

4. Return of Payroll Deductions. If a participant's interest in this Plan is terminated by withdrawal, termination of employment or otherwise, or if this Plan is terminated by the Board, the Company shall deliver to the participant all payroll deductions credited to such participant's account. No interest shall accrue on the payroll deductions of a participant in this Plan.

5. Capital Changes. Subject to any required action by the stockholders of the Company, the number of shares of Common Stock covered by each option under this Plan which has not yet been exercised and the number of shares of Common Stock which have been authorized for issuance under this Plan but have not yet been placed under option (collectively, the "Reserves"), as well as the price per share of Common Stock covered by each option under this Plan which has not yet been exercised, shall be proportionately adjusted for any increase or decrease in the number of issued and outstanding shares of Common Stock resulting from a stock split or the payment of a stock dividend (but only on the Common Stock) or any other increase or decrease in the number of issued and outstanding shares of Common Stock effected without receipt of any consideration by the Company; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been "effected without receipt of consideration". Notwithstanding the foregoing, any fractional shares resulting from an adjustment pursuant to this Section 14 shall be rounded down to the nearest whole number, and in no event may the Per Share Purchase Price be decreased to an amount less than the par value, if any, of the Common Stock. Such adjustment shall be made by the Committee, whose determination shall be final, binding and conclusive.

In the event of the proposed dissolution or liquidation of the Company, the Offering Period will terminate immediately prior to the consummation of such proposed action, unless otherwise provided by the Committee. The Committee may, in its sole discretion in such instances, declare that this Plan shall terminate as of a date fixed by the Committee and either give each participant the right to purchase shares under this Plan prior to such termination or return all accumulated payroll deductions to each participant, without interest. In the event of (i) a merger or consolidation in which the Company is not the surviving corporation (other than a merger or consolidation with a wholly-owned subsidiary, a reincorporation of the Company in a different jurisdiction, or other transaction in which there is no substantial change in the stockholders of the Company or their relative stock holdings, provided that the options under this Plan are assumed, converted or replaced by the successor

corporation, which assumption will be binding on all participants), (ii) a merger in which the Company is the surviving corporation but after which the stockholders of the Company immediately prior to such merger (other than any stockholder that merges, or which owns or controls another corporation that merges, with the Company in such merger) cease to own their shares or other equity interest in the Company, (iii) the sale of all or substantially all of the assets of the Company or (iv) the acquisition, sale, or transfer of more than 50% of the outstanding shares of the Company by tender offer or similar transaction, (each a "Sale Event") the Company shall apply the funds contributed under this Plan to the purchase of shares of Common Stock pursuant to the provisions of Section 9 immediately prior to the effective date of such Sale Event. Notwithstanding the foregoing, the surviving, continuing, successor or purchasing corporation or parent corporation thereof (the "Acquiring Corporation"), may elect to assume the Company's rights and obligations under this Plan and, in that event, there shall be no purchase before the end of the Offering Period in which the Sale Event occurs.

The Committee may, if it so determines in its sole discretion, also make provision for adjusting the share reserve set forth in Section 1, as well as the price per share of Common Stock covered by each outstanding option, solely in the event that the Company effects one or more reorganizations, recapitalizations, rights offerings or other increases or reductions of shares of its outstanding Common Stock, or in the event of the Company being consolidated with or merged into any other corporation.

6. Withholding. The participant shall make adequate provision for the foreign, federal, state and local tax withholding obligations of the Company or any of its Participating Affiliates, if any, which arise in connection with participation in this Plan. The Company and its Participating Affiliates shall, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to the participant.

7. Nonassignability. Neither payroll deductions credited to a participant's account nor any rights with regard to the exercise of an option or to receive shares under this Plan may be assigned, transferred, pledged or otherwise disposed of in any way (other than by will, the laws of descent and distribution or as provided in Section 23 below) by the participant. Any such attempt at assignment, transfer, pledge or other disposition shall be void and without effect.

8. Reports. Individual accounts will be maintained for each participant in this Plan. Each participant shall receive as soon as practicable after the end of each Offering Period a report of his or her account setting forth the total payroll deductions accumulated, the number of shares purchased, the per share price thereof and the remaining cash balance, if any, carried forward to the next Offering Period.

9. Notice of Disqualifying Disposition. Each participant shall notify the Company in writing if the participant disposes of any of the shares purchased in any Offering Period pursuant to this Plan if such disposition occurs within two (2) years from the Offering Date or within one (1) year from the Purchase Date on which such shares were purchased (the "Notice Period"). The Company may, at any time during the Notice Period, place a legend or legends on any certificate representing shares acquired pursuant to this Plan requesting the

Company's transfer agent to notify the Company of any transfer of the shares. The obligation of the participant to provide such notice shall continue notwithstanding the placement of any such legend on the certificates.

10. No Rights as Stockholder or to Continued Employment. A participant shall have no rights as a stockholder by virtue of participation in this Plan until the date of the issuance of a certificate for the shares purchased pursuant to the exercise of the participant's purchase right (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company). No adjustment shall be made for dividends, distributions or other rights for which the record date is prior to the date such certificate is issued, except as provided in Section 14. Neither this Plan nor the grant of any option hereunder shall confer any right on any employee to remain in the employ of the Company or any Participating Affiliate, or restrict the right of the Company or any Participating Affiliate to terminate such employee's employment at any time.

11. Equal Rights and Privileges. All eligible employees shall have equal rights and privileges with respect to this Plan so that this Plan qualifies as an "employee stock purchase plan" within the meaning of Section 423 or any successor provision of the Code and the related regulations. Any provision of this Plan which is inconsistent with Section 423 or any successor provision of the Code shall, without further act or amendment by the Company, the Committee or the Board, be reformed to comply with the requirements of Section 423. This Section 20 shall take precedence over all other provisions in this Plan.

12. Notices. All notices or other communications by a participant to the Company under or in connection with this Plan shall be deemed to have been duly given when received in the form specified by the Company at the location, or by the person, designated by the Company for the receipt thereof.

13. Term; Stockholder Approval. This Plan was adopted by the Board of Directors of the Company on March 18, 2011, effective as of July 1, 2011 (the "Effective Date"), and shall apply to any purchase right granted, or stock transferred pursuant to any purchase right granted, on or after the Effective Date. This Plan shall continue until the earlier to occur of (a) termination of this Plan by the Board (which termination may be effected by the Board at any time), (b) issuance of all of the shares of Common Stock reserved for issuance under this Plan, or (c) April 27, 2021.

14. Designation of Beneficiary

(a) A participant may file a written designation of a beneficiary who is to receive any shares and cash, if any, from the participant's account under this Plan in the event of such participant's death subsequent to the end of any Offering Period but prior to delivery to him of such shares and cash. In addition, a participant may file a written designation of a beneficiary who is to receive any cash from the participant's account under this Plan in the event of such participant's death prior to a Purchase Date.

(b) Such designation of beneficiary may be changed by the participant at any time by written notice. In the event of the death of a participant and in the absence of a beneficiary validly designated under this Plan who is living at the time of such participant's death, the Company shall deliver such shares or cash to the executor or administrator of the estate of the participant, or if no such executor or administrator has been appointed (to the knowledge of the Company), the Company, in its discretion, may deliver such shares or cash to the spouse or to any one or more dependents or relatives of the participant, or if no spouse, dependent or relative is known to the Company, then to such other person as the Company may designate.

15. Conditions Upon Issuance of Shares; Limitation on Sale of Shares. Shares shall not be issued with respect to an option unless the exercise of such option and the issuance and delivery of such shares pursuant thereto shall comply with all applicable provisions of law, domestic or foreign, including, without limitation, the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, the rules and regulations promulgated thereunder, and the requirements of any stock exchange or automated quotation system upon which the shares may then be listed, and shall be further subject to the approval of counsel for the Company with respect to such compliance.

16. Applicable Law. This Plan shall be governed by the substantive laws (excluding the conflict of laws rules) of the State of California.

17. Amendment or Termination of this Plan. The Board may at any time amend, terminate or extend the term of this Plan, except that (i) any such termination cannot affect options previously granted under this Plan unless the Board determines that the termination of this Plan immediately following any Purchase Date is in the best interests of the Company and its stockholders, (ii) any amendment may not adversely affect the previously granted purchase right of any participant unless permitted by this Plan or as may be necessary to qualify this Plan as an employee stock purchase plan pursuant to Section 423 of the Code or to obtain qualification or registration of the Common Stock under applicable federal, state or foreign securities laws, and (iii) any amendment must be approved by the stockholders of the Company in accordance with Section 2 above within twelve (12) months of the adoption of such amendment (or earlier if required by Section 22) if such amendment would:

(a) increase the number of shares that may be issued under this Plan;

(b) change the designation of the employees (or class of employees) eligible for participation in this Plan; or

(c) any other action taken by the Board that, by its terms, is contingent on stockholder approval.

Notwithstanding the foregoing, the Board may make such amendments to this Plan as the Board determines to be advisable, if the continuation of this Plan or any Offering Period would result in financial accounting treatment for this Plan that is different from the financial accounting treatment in effect on the Effective Date.

AMENDMENT NO. 3
TO THE
MOLINA HEALTHCARE, INC.
AMENDED AND RESTATED DEFERRED COMPENSATION PLAN (2013)

WHEREAS, Molina Healthcare, Inc., a Delaware corporation ("Company"), has previously adopted the Molina Healthcare, Inc. Amended and Restated Deferred Compensation Plan (2013), as amended by Amendments No. 1 and No. 2 to the Amended and Restated Deferred Compensation Plan executed on November 14, 2013 and October 29, 2014 respectively ("Plan") for the benefit of a select group of employees of the Company;

WHEREAS, the Company desires to amend the Plan to (1) permit daily changes in the notional asset value of Participant Accounts, effective as of September 1, 2016 (or as soon as administratively practicable thereafter); (2) replace the $5,000 minimum dollar deferral of combined base salary and bonus pay with a minimum deferral of 3% of base salary and bonus pay effective for Plan Years commencing after the date of adoption of the Plan amendment; and (3) reduce the maximum base salary deferral from 100% to 75% effective for Plan Years commencing after the date of adoption of the Plan amendment;

WHEREAS, Section 7.1 of the Plan permits the Company to amend the Plan; and

WHEREAS, the Board of Directors of the Company has approved this Amendment and authorized and directed the appropriate officers of the Company to execute this Amendment and to take such other actions as they deem necessary or appropriate to implement this Amendment.

NOW, THEREFORE, the Plan is amended as follows effective as set forth herein:

1. Effective for Plan Years commencing on or after January 1, 2017, Section 2.3.b. is deleted in its entirety and replaced in its stead with the following:

    b. A Participant must provide a separate Written Election for each subsequent Plan Year that specifies the percentage of Plan Year Compensation that Participant has determined to defer for each such Plan Year. Such Written Election is only effective for the Plan Year for which the election is made and if no Written Election to defer Plan Year Compensation is executed in relation to a subsequent Plan Year, no Plan Year Compensation will be deferred for such subsequent Plan Year. Any election of the amount of Plan Year Compensation to defer for a given Plan Year shall be irrevocable on and after the first day of the Plan Year for which the election was made.

2. Effective as of September 1, 2016, Section 2.3.c. is deleted in its entirety and replaced in its stead with the following:

    c. A Participant may change the investment vehicle(s) in which the Participant desires to have that portion of the Participant's Account attributable to Plan Year Compensation and investment income invested and the percentage of the Participant's Account allocated to each investment vehicle by completing and

submitting any form or forms required by the Company. Changes in investment vehicle(s) will be made as of the applicable business day (or as soon as practicable thereafter) following the date that the change is requested.

3. Effective for Plan Years commencing on or after January 1, 2017, Section 3.1 is deleted in its entirety and replaced in its stead with the following:

3.1. Participant Contributions. A Participant may elect to defer a portion of (i) up to 75% of Plan Year Compensation constituting base pay and (ii) up to 100% of all other Plan Year Compensation eligible for deferral under this Plan (including bonus pay). For a Participant's initial Plan Year of participation, the minimum deferral percentage for base pay and bonus pay must be 3% for each such component. For succeeding years of participation, a Participant may not defer an amount less than the minimum percentage established from year to year by the Plan Committee. A written election must be submitted, pursuant to the terms of Section 2.3, specifying the percentage of Plan Year Compensation constituting base pay the Participant has chosen to defer. A separate written election must be submitted, pursuant to the terms of Section 2.3, specifying the percentage of all other Plan Year Compensation eligible for deferral under this Plan (including bonus pay) the employee has chosen to defer. Once a Participant's contributions for a Plan Year reach the Participant's elected percentage, such Participant shall not be allowed to defer additional portions of such Participant's Plan Year Compensation for the remainder of the Plan Year. Any amounts in excess of the Participant's elected percentage inadvertently deferred shall be refunded to the Participant as soon as practicable.

4. Effective as of September 1, 2016, Section 3.5 is deleted in its entirety and replaced in its stead with the following:

3.5. Credited Earnings. The Account of each Participant (which includes such Participant's Participant Deferral Account established under Section 3.1 and such Participant's Company Contribution Account established under Section 3.2) shall be credited as of each applicable business day with the actual earnings on the investments allocated to the Participant's Account.

IN WITNESS WHEREOF, this Amendment is executed this 8th day of August, 2016.

MOLINA HEALTHCARE, INC.

By: /s/ Joseph M. Molina, M.D.
Joseph M. Molina, M.D.
Chief Executive Officer

Molina Healthcare, Inc. 2011 Equity Incentive Plan*

1. ESTABLISHMENT, PURPOSE AND TERM OF PLAN.

1.1 **Establishment.** The Molina Healthcare, Inc. 2011 Equity Incentive Plan (the *"**Plan**"*) is hereby established effective as of April 27, 2011, the date of its approval by the stockholders of the Company (the *"**Effective Date**"*).

1.2 **Purpose.** The purpose of the Plan is to advance the interests of the Participating Company Group and its stockholders by providing an incentive to attract, retain and reward persons performing services for the Participating Company Group and by motivating such persons to contribute to the growth and profitability of the Participating Company Group. The Plan seeks to achieve this purpose by providing for Awards in the form of Options, Stock Appreciation Rights, Restricted Stock Purchase Rights, Restricted Stock Bonuses, Restricted Stock Units, Performance Shares, Performance Units, Cash-Based Awards and Other Stock-Based Awards.

1.3 **Term of Plan.** The Plan shall continue in effect until its termination by the Committee; provided, however, that all Awards shall be granted, if at all, within ten (10) years from the Effective Date.

2. DEFINITIONS AND CONSTRUCTION.

2.1 **Definitions.** Whenever used herein, the following terms shall have their respective meanings set forth below:

(a) *"**Affiliate**"* means (i) a parent entity, other than a Parent Corporation, that directly, or indirectly through one or more intermediary entities, controls the Company or (ii) a subsidiary entity, other than a Subsidiary Corporation, that is controlled by the Company directly or indirectly through one or more intermediary entities. For this purpose, the terms "parent," "subsidiary," "control" and "controlled by" shall have the meanings assigned such terms for the purposes of registration of securities on Form S-8 under the Securities Act.

(b) *"**Award**"* means any Option, Stock Appreciation Right, Restricted Stock Purchase Right, Restricted Stock Bonus, Restricted Stock Unit, Performance Share, Performance Unit, Cash-Based Award or Other Stock-Based Award granted under the Plan.

(c) *"**Award Agreement**"* means a written or electronic agreement between the Company and a Participant setting forth the terms, conditions and restrictions applicable to an Award.

(d) *"**Board**"* means the Board of Directors of the Company.

(e) *"**Cash-Based Award**"* means an Award denominated in cash and granted pursuant to Section 11.

---

* As amended as of October 25, 2016.

(f) *"**Cause**"* means, unless such term or an equivalent term is otherwise defined by the applicable Award Agreement or other written agreement between a Participant and a Participating Company applicable to an Award, any of the following: (i) the Participant's theft, dishonesty, willful misconduct, breach of fiduciary duty for personal profit, or falsification of any Participating Company documents or records; (ii) the Participant's material failure to abide by a Participating Company's code of conduct or other policies (including, without limitation, policies relating to confidentiality and reasonable workplace conduct); (iii) the Participant's unauthorized use, misappropriation, destruction or diversion of any tangible or intangible asset or corporate opportunity of a Participating Company (including, without limitation, the Participant's improper use or disclosure of a Participating Company's confidential or proprietary information); (iv) any intentional act by the Participant which has a material detrimental effect on a Participating Company's reputation or business; (v) the Participant's repeated failure or inability to perform any reasonable assigned duties after written notice from a Participating Company of, and a reasonable opportunity to cure, such failure or inability; (vi) any material breach by the Participant of any employment, service, non-disclosure, non-competition, non-solicitation or other similar agreement between the Participant and a Participating Company, which breach is not cured pursuant to the terms of such agreement; or (vii) the Participant's conviction (including any plea of guilty or *nolo contendere*) of any criminal act involving fraud, dishonesty, misappropriation or moral turpitude, or which impairs the Participant's ability to perform his or her duties with a Participating Company.

(g) *"**Change in Control**"* means, unless such term or an equivalent term is otherwise defined by the applicable Award Agreement or other written agreement between the Participant and a Participating Company applicable to an Award, the occurrence of any of the following:

(i) any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) becomes the "beneficial owner" (as such term is defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing more than fifty percent (50%) of the total Fair Market Value or total combined voting power of the Company's then-outstanding securities entitled to vote generally in the election of Directors; provided, however, that a Change in Control shall not be deemed to have occurred if such degree of beneficial ownership results from any of the following: (A) an acquisition by any person who on the Effective Date is the beneficial owner of more than fifty percent (50%) of such voting power, (B) any acquisition directly from the Company, including, without limitation, pursuant to or in connection with a public offering of securities, (C) any acquisition by the Company, (D) any acquisition by a trustee or other fiduciary under an employee benefit plan of a Participating Company or (E) any acquisition by an entity owned directly or indirectly by the stockholders of the Company in substantially the same proportions as their ownership of the voting securities of the Company; or

(ii) an Ownership Change Event or series of related Ownership Change Events (collectively, a *"**Transaction**"*) in which the stockholders of the Company immediately before the Transaction do not retain immediately after the Transaction direct or indirect beneficial ownership of more than fifty percent (50%) of the total combined voting power of the outstanding securities entitled to vote generally in the election of Directors or, in the case of an Ownership Change Event described in Section 2.1(cc)(iii), the entity to which the assets of the Company were transferred (the *"**Transferee**"*), as the case may be; or

(iii) approval by the stockholders of a plan of complete liquidation or dissolution of the Company;

provided, however, that a Change in Control shall be deemed not to include a transaction described in subsections (i) or (ii) of this Section 2.1(g) in which a majority of the members of the board of directors of the continuing, surviving or successor entity, or parent thereof, immediately after such transaction is comprised of Incumbent Directors.

For purposes of the preceding sentence, indirect beneficial ownership shall include, without limitation, an interest resulting from ownership of the voting securities of one or more corporations or other business entities which own the Company or the Transferee, as the case may be, either directly or through one or more subsidiary corporations or other business entities. The Committee shall determine whether multiple sales or exchanges of the voting securities of the Company or multiple Ownership Change Events are related, and its determination shall be final, binding and conclusive.

(h) *"**Code**"* means the Internal Revenue Code of 1986, as amended, and any applicable regulations or administrative guidelines promulgated thereunder.

(i) *"**Committee**"* means the Compensation Committee and such other committee or subcommittee of the Board, if any, duly appointed to administer the Plan and having such powers in each instance as shall be specified by the Board. If, at any time, there is no committee of the Board then authorized or properly constituted to administer the Plan, the Board shall exercise all of the powers of the Committee granted herein, and, in any event, the Board may in its discretion exercise any or all of such powers.

(j) *"**Company**"* means Molina Healthcare, Inc., a Delaware corporation, or any successor corporation thereto.

(k) *"**Consultant**"* means a person engaged to provide consulting or advisory services (other than as an Employee or a member of the Board) to a Participating Company, provided that the identity of such person, the nature of such services or the entity to which such services are provided would not preclude the Company from offering or selling securities to such person pursuant to the Plan in reliance on registration on Form S-8 under the Securities Act.

(l) "***Covered Employee***" means, at any time the Plan is subject to Section 162(m), any Employee who is or may reasonably be expected to become a "covered employee" as defined in Section 162(m), or any successor statute, and who is designated, either as an individual Employee or a member of a class of Employees, by the Committee no later than the earlier of (i) the date that is ninety (90) days after the beginning of the Performance Period, or (ii) the date on which twenty-five percent (25%) of the Performance Period has elapsed, as a "Covered Employee" under this Plan for such applicable Performance Period.

(m) *"**Director**"* means a member of the Board.

(n) *"**Disability**"* means the permanent and total disability of the Participant, within the meaning of Section 22(e)(3) of the Code.

(o) *"**Dividend Equivalent Right**"* means the right of a Participant, granted at the discretion of the Committee or as otherwise provided by the Plan, to receive a credit for the account of such Participant in an amount equal to the cash dividends paid on one share of Stock for each share of Stock represented by an Award held by such Participant.

(p) *"**Employee**"* means any person treated as an employee (including an Officer or a member of the Board who is also treated as an employee) in the records of a Participating Company and, with respect to any Incentive Stock Option granted to such person, who is an employee for purposes of Section 422 of the Code; provided, however, that neither service as a member of the Board nor payment of a director's fee shall be sufficient to constitute employment for purposes of the Plan. The Company shall determine in good faith and in the exercise of its discretion whether an individual has become or has ceased to be an Employee and the effective date of such individual's employment or termination of employment, as the case may be. For purposes of an individual's rights, if any, under the terms of the Plan as of the time of the Company's determination of whether or not the individual is an Employee, all such determinations by the Company shall be final, binding and conclusive as to such rights, if any, notwithstanding that the Company or any court of law or governmental agency subsequently makes a contrary determination as to such individual's status as an Employee.

(q) *"**Exchange Act**"* means the Securities Exchange Act of 1934, as amended.

(r) *"**Fair Market Value**"* means, as of any date, the value of a share of Stock or other property as determined by the Committee, in its discretion, or by the Company, in its discretion, if such determination is expressly allocated to the Company herein, subject to the following:

(i) Except as otherwise determined by the Committee, if, on such date, the Stock is listed or quoted on a national or regional securities exchange or quotation system, the Fair Market Value of a share of Stock shall be the closing price of a share of Stock as quoted on the national or regional securities exchange or quotation system constituting the primary market for the Stock, as reported in *The Wall Street Journal* or such other source as the Company deems reliable. If the relevant date does not fall on a day on which the Stock has traded on such securities exchange or quotation system, the date on which the Fair Market Value shall be established shall be the last day on which the Stock was so traded or quoted prior to the relevant date, or such other appropriate day as shall be determined by the Committee, in its discretion.

(ii) Notwithstanding the foregoing, the Committee may, in its discretion, determine the Fair Market Value of a share of Stock on the basis of the opening, closing, or average of the high and low sale prices of a share of Stock on such date or the preceding trading day, the actual sale price of a share of Stock received by a Participant, any other reasonable basis using actual transactions in the Stock as reported on a national or regional securities exchange or quotation system, or on any other basis consistent with the requirements of Section 409A. The Committee may vary its method of determination of the Fair Market Value as provided in this Section for different purposes under the Plan to the extent consistent with the requirements of Section 409A.

(iii) If, on such date, the Stock is not listed or quoted on a national or regional securities exchange or quotation system, the Fair Market Value of a share of Stock shall be as determined by the Committee in good faith without regard to any restriction other than a restriction which, by its terms, will never lapse, and in a manner consistent with the requirements of Section 409A.

(s) *"**Full Value Award**"* means any Award settled in Stock, other than (i) an Option, (ii) a Stock Appreciation Right, or (iii) a Restricted Stock Purchase Right or an Other Stock-Based Award under which the Company will receive monetary consideration equal to the Fair Market Value (determined on the effective date of grant) of the shares subject to such Award.

(t) *"**Incentive Stock Option**"* means an Option intended to be (as set forth in the Award Agreement) and which qualifies as an incentive stock option within the meaning of Section 422(b) of the Code.

(u) *"**Incumbent Director**"* means a director who either (i) is a member of the Board as of the Effective Date or (ii) is elected, or nominated for election, to the Board with the affirmative votes of at least a majority of the Incumbent Directors at the time of such election or nomination (but excluding a director who was elected or nominated in connection with an actual or threatened proxy contest relating to the election of directors of the Company).

(v) *"**Insider**"* means an Officer, Director or any other person whose transactions in Stock are subject to Section 16 of the Exchange Act.

(w) *"**Net Exercise**"* means a procedure pursuant to which (i) the Company will reduce the number of shares otherwise issuable to a Participant upon the exercise of an Option by the largest whole number of shares having a Fair Market Value that does not exceed the aggregate exercise price for the shares with respect to which the Option is exercised, and (ii) the Participant shall pay to the Company in cash the remaining balance of such aggregate exercise price not satisfied by such reduction in the number of whole shares to be issued.

(x) *"**Nonemployee Director**"* means a Director who is not an Employee.

(y) *"**Nonstatutory Stock Option**"* means an Option not intended to be (as set forth in the Award Agreement) or which does not qualify as an incentive stock option within the meaning of Section 422(b) of the Code.

(z) *"**Officer**"* means any person designated by the Board as an officer of the Company.

(aa) *"**Option**"* means an Incentive Stock Option or a Nonstatutory Stock Option granted pursuant to the Plan.

(bb) *"**Other Stock-Based Award**"* means an Award denominated in shares of Stock and granted pursuant to Section 11.

(cc) *"**Ownership Change Event**"* means the occurrence of any of the following with respect to the Company: (i) the direct or indirect sale or exchange in a single or series of related transactions by the stockholders of the Company of securities of the Company representing more than fifty percent (50%) of the total combined voting power of the Company's then-outstanding securities entitled to vote generally in the election of Directors; (ii) a merger or consolidation in which the Company is a party; or (iii) the sale, exchange, or transfer of all or substantially all of the assets of the Company (other than a sale, exchange or transfer to one or more subsidiaries of the Company).

(dd) *"**Parent Corporation**"* means any present or future "parent corporation" of the Company, as defined in Section 424(e) of the Code.

(ee) *"**Participant**"* means any eligible person who has been granted one or more Awards.

(ff) *"**Participating Company**"* means the Company or any Parent Corporation, Subsidiary Corporation or Affiliate.

(gg) *"**Participating Company Group**"* means, at any point in time, the Company and all other entities collectively which are then Participating Companies.

(hh) *"**Performance Award**"* means an Award of Performance Shares or Performance Units.

(ii) *"**Performance Award Formula**"* means, for any Performance Award, a formula or table established by the Committee pursuant to Section 10.3 which provides the basis for computing the value of a Performance Award at one or more levels of attainment of applicable Performance Goal(s) measured as of the end of the applicable Performance Period.

(jj) "***Performance-Based Compensation***" means compensation under an Award that satisfies the requirements of Section 162(m) for certain performance-based compensation paid to Covered Employees.

(kk) *"**Performance Goal**"* means a performance goal established by the Committee pursuant to Section 10.3.

(ll) *"**Performance Period**"* means a period established by the Committee pursuant to Section 10.3 at the end of which one or more Performance Goals are to be measured.

(mm) *"**Performance Share**"* means a right granted to a Participant pursuant to Section 10 to receive a payment equal to the value of a Performance Share, as determined by the Committee, based upon attainment of applicable Performance Goal(s).

(nn) *"**Performance Unit**"* means a right granted to a Participant pursuant to Section 10 to receive a payment equal to the value of a Performance Unit, as determined by the Committee, based upon attainment of applicable Performance Goal(s).

(oo) *"**Restricted Stock Award**"* means an Award of a Restricted Stock Bonus or a Restricted Stock Purchase Right.

(pp) *"**Restricted Stock Bonus**"* means Stock granted to a Participant pursuant to Section 8.

(qq) *"**Restricted Stock Purchase Right**"* means a right to purchase Stock granted to a Participant pursuant to Section 8.

(rr) *"**Restricted Stock Unit**"* means a right granted to a Participant pursuant to Section 9 to receive on a future date or event a share of Stock or cash in lieu thereof, as determined by the Committee.

(ss) *"**Rule 16b-3**"* means Rule 16b-3 under the Exchange Act, as amended from time to time, or any successor rule or regulation.

(tt) *"**SAR**"* or *"**Stock Appreciation Right**"* means a right granted to a Participant pursuant to Section 7 to receive payment, for each share of Stock subject to such Award, of an amount equal to the excess, if any, of the Fair Market Value of a share of Stock on the date of exercise of the Award over the exercise price thereof.

(uu) *"**Section 162(m)**"* means Section 162(m) of the Code.

(vv) *"**Section 409A**"* means Section 409A of the Code.

(ww) *"**Section 409A Deferred Compensation**"* means compensation provided pursuant to an Award that constitutes nonqualified deferred compensation within the meaning of Section 409A.

(xx) *"**Securities Act**"* means the Securities Act of 1933, as amended.

(yy) *"**Service**"* means a Participant's employment or service with the Participating Company Group, whether as an Employee, a Director or a Consultant. Unless otherwise provided by the Committee, a Participant's Service shall not be deemed to have terminated merely because of a change in the capacity in which the Participant renders such Service or a change in the Participating Company for which the Participant renders such Service, provided that there is no interruption or termination of the Participant's Service. Furthermore, a Participant's Service shall not be deemed to have been interrupted or terminated if the Participant takes any military leave, sick leave, or other bona fide leave of absence approved by the Company. However, unless otherwise provided by the Committee, if any such leave taken by a Participant exceeds ninety (90) days, then on the ninety-first (91st) day following the commencement of such leave the Participant's Service shall be deemed to have terminated, unless the Participant's right to return to Service is guaranteed by statute or contract. Notwithstanding the foregoing, unless otherwise designated by the Company or required by law, an unpaid leave of absence shall not be treated as Service for purposes of determining vesting under the Participant's Award Agreement. A Participant's Service shall be deemed to have terminated either upon an actual termination of Service or upon the business entity for which the Participant performs Service ceasing to be a Participating Company. Subject

to the foregoing, the Company, in its discretion, shall determine whether the Participant's Service has terminated and the effective date of such termination.

(zz) *"**Stock**"* means the common stock of the Company, as adjusted from time to time in accordance with Section 4.2.

(aaa) *"**Subsidiary Corporation**"* means any present or future "subsidiary corporation" of the Company, as defined in Section 424(f) of the Code.

(bbb) *"**Ten Percent Owner**"* means a Participant who, at the time an Option is granted to the Participant, owns stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of a Participating Company (other than an Affiliate) within the meaning of Section 422(b)(6) of the Code.

(ccc) *"**Trading Compliance Policy**"* means the written policy of the Company pertaining to the purchase, sale, transfer or other disposition of the Company's equity securities by Directors, Officers, Employees or other service providers who may possess material, nonpublic information regarding the Company or its securities.

(ddd) *"**Vesting Conditions**"* mean those conditions established in accordance with the Plan prior to the satisfaction of which shares subject to an Award remain subject to forfeiture or a repurchase option in favor of the Company exercisable for the Participant's monetary purchase price, if any, for such shares upon the Participant's termination of Service.

2.2 **Construction.** Captions and titles contained herein are for convenience only and shall not affect the meaning or interpretation of any provision of the Plan. Except when otherwise indicated by the context, the singular shall include the plural and the plural shall include the singular. Use of the term "or" is not intended to be exclusive, unless the context clearly requires otherwise.

3. ADMINISTRATION.

3.1 **Administration by the Committee.** The Plan shall be administered by the Committee. All questions of interpretation of the Plan, of any Award Agreement or of any other form of agreement or other document employed by the Company in the administration of the Plan or of any Award shall be determined by the Committee, and such determinations shall be final, binding and conclusive upon all persons having an interest in the Plan or such Award, unless fraudulent or made in bad faith. Any and all actions, decisions and determinations taken or made by the Committee in the exercise of its discretion pursuant to the Plan or Award Agreement or other agreement thereunder (other than determining questions of interpretation pursuant to the preceding sentence) shall be final, binding and conclusive upon all persons having an interest therein. All expenses incurred in the administration of the Plan shall be paid by the Company.

3.2 **Authority of Officers.** Any Officer shall have the authority to act on behalf of the Company with respect to any matter, right, obligation, determination or election which is the responsibility of or which is allocated to the Company herein, provided the Officer has apparent authority with respect to such matter, right, obligation, determination or election. To the extent permitted by applicable law, the Committee may, in its discretion, delegate to a committee comprised

of one or more Officers the authority to grant one or more Awards, without further approval of the Committee, to any Employee, other than a person who, at the time of such grant, is an Insider or a Covered Employee, and to exercise such other powers under the Plan as the Committee may determine; provided, however, that (a) the Committee shall fix the maximum number of shares subject to Awards that may be granted by such Officers, (b) each such Award shall be subject to the terms and conditions of the appropriate standard form of Award Agreement approved by the Board or the Committee and shall conform to the provisions of the Plan, and (c) each such Award shall conform to such other limits and guidelines as may be established from time to time by the Committee.

3.3 **Administration with Respect to Insiders.** With respect to participation by Insiders in the Plan, at any time that any class of equity security of the Company is registered pursuant to Section 12 of the Exchange Act, the Plan shall be administered in compliance with the requirements, if any, of Rule 16b-3.

3.4 **Committee Complying with Section 162(m).** If the Company is a "publicly held corporation" within the meaning of Section 162(m), the Board may establish a Committee of "outside directors" within the meaning of Section 162 (m) to approve the grant of any Award intended to result in the payment of Performance-Based Compensation.

3.5 **Powers of the Committee.** In addition to any other powers set forth in the Plan and subject to the provisions of the Plan, the Committee shall have the full and final power and authority, in its discretion:

(a) to determine the persons to whom, and the time or times at which, Awards shall be granted and the number of shares of Stock, units or monetary value to be subject to each Award;

(b) to determine the type of Award granted;

(c) to determine the Fair Market Value of shares of Stock or other property;

(d) to determine the terms, conditions and restrictions applicable to each Award (which need not be identical) and any shares acquired pursuant thereto, including, without limitation, (i) the exercise or purchase price of shares pursuant to any Award, (ii) the method of payment for shares purchased pursuant to any Award, (iii) the method for satisfaction of any tax withholding obligation arising in connection with any Award, including by the withholding or delivery of shares of Stock, (iv) the timing, terms and conditions of the exercisability or vesting of any Award or any shares acquired pursuant thereto, (v) the Performance Measures, Performance Period, Performance Award Formula and Performance Goals applicable to any Award and the extent to which such Performance Goals have been attained, (vi) the time of the expiration of any Award, (vii) the effect of the Participant's termination of Service on any of the foregoing, and (viii) all other terms, conditions and restrictions applicable to any Award or shares acquired pursuant thereto not inconsistent with the terms of the Plan;

(e) to determine whether an Award will be settled in shares of Stock, cash, other property, or in any combination thereof;

(f) to approve one or more forms of Award Agreement;

(g) to amend, modify, extend, cancel or renew any Award or to waive any restrictions or conditions applicable to any Award or any shares acquired pursuant thereto;

(h) to accelerate, continue, extend or defer the exercisability or vesting of any Award or any shares acquired pursuant thereto, including with respect to the period following a Participant's termination of Service;

(i) to prescribe, amend or rescind rules, guidelines and policies relating to the Plan, or to adopt sub-plans or supplements to, or alternative versions of, the Plan, including, without limitation, as the Committee deems necessary or desirable to comply with the laws or regulations of or to accommodate the tax policy, accounting principles or custom of, foreign jurisdictions whose citizens may be granted Awards; and

(j) to correct any defect, supply any omission or reconcile any inconsistency in the Plan or any Award Agreement and to make all other determinations and take such other actions with respect to the Plan or any Award as the Committee may deem advisable to the extent not inconsistent with the provisions of the Plan or applicable law.

3.6 **Option or SAR Repricing.** Without the affirmative vote of holders of a majority of the shares of Stock cast in person or by proxy at a meeting of the stockholders of the Company at which a quorum representing a majority of all outstanding shares of Stock is present or represented by proxy, the Committee shall not approve a program providing for either (a) the cancellation of outstanding Options or SARs having exercise prices per share greater than the then Fair Market Value of a share of Stock (*"**Underwater Awards**"*) and the grant in substitution therefore of new Options or SARs having a lower exercise price, Full Value Awards or payments in cash, or (b) the amendment of outstanding Underwater Awards to reduce the exercise price thereof. This Section shall not apply to adjustments pursuant to the assumption of or substitution for an Option or SAR in a manner that would comply with Section 424(a) or Section 409A of the Code or to an adjustment pursuant to Section 4.2.

3.7 **Indemnification.** In addition to such other rights of indemnification as they may have as members of the Board or the Committee or as officers or employees of the Participating Company Group, members of the Board or the Committee and any officers or employees of the Participating Company Group to whom authority to act for the Board, the Committee or the Company is delegated shall be indemnified by the Company against all reasonable expenses, including attorneys' fees, actually and necessarily incurred in connection with the defense of any action, suit or proceeding, or in connection with any appeal therein, to which they or any of them may be a party by reason of any action taken or failure to act under or in connection with the Plan, or any right granted hereunder, and against all amounts paid by them in settlement thereof (provided such settlement is approved by independent legal counsel selected by the Company) or paid by them in satisfaction of a judgment in any such action, suit or proceeding, except in relation to matters as to which it shall be adjudged in such action, suit or proceeding that such person is liable for gross negligence, bad faith or intentional misconduct in duties; provided, however, that within sixty (60)

days after the institution of such action, suit or proceeding, such person shall offer to the Company, in writing, the opportunity at its own expense to handle and defend the same.

4. SHARES SUBJECT TO PLAN.

4.1 **Maximum Number of Shares Issuable.** Subject to adjustment as provided in Section 4.2, the maximum aggregate number of shares of Stock that may be issued under the Plan shall be four million five hundred thousand (4,500,000) and shall consist of authorized but unissued shares of Stock, and the shares of Stock underlying any Awards which are reacquired by the Company, forfeited, or cancelled, satisfied without the issuance of Stock, or otherwise terminated (other than by exercise) without the issuance of Stock, or any combination thereof.

4.2 **Adjustments for Changes in Capital Structure.** Subject to any required action by the stockholders of the Company and the requirements of Sections 409A and 424 of the Code to the extent applicable, in the event of any change in the Stock effected without receipt of consideration by the Company, whether through merger, consolidation, reorganization, reincorporation, recapitalization, reclassification, stock dividend, stock split, reverse stock split, split-up, split-off, spin-off, combination of shares, exchange of shares, or similar change in the capital structure of the Company, or in the event of payment of a dividend or distribution to the stockholders of the Company in a form other than Stock (excepting regular, periodic cash dividends) that has a material effect on the Fair Market Value of shares of Stock, appropriate and proportionate adjustments shall be made in the number and kind of shares subject to the Plan and to any outstanding Awards, in the Award limits set forth in Section 5.3 and in the exercise or purchase price per share under any outstanding Award in order to prevent dilution or enlargement of Participants' rights under the Plan. For purposes of the foregoing, conversion of any convertible securities of the Company shall not be treated as "effected without receipt of consideration by the Company." If a majority of the shares which are of the same class as the shares that are subject to outstanding Awards are exchanged for, converted into, or otherwise become (whether or not pursuant to an Ownership Change Event) shares of another corporation (the *"**New Shares**"*), the Committee may unilaterally amend the outstanding Awards to provide that such Awards are for New Shares. In the event of any such amendment, the number of shares subject to, and the exercise or purchase price per share of, the outstanding Awards shall be adjusted in a fair and equitable manner as determined by the Committee, in its discretion. Any fractional share resulting from an adjustment pursuant to this Section shall be rounded down to the nearest whole number, and in no event may the exercise or purchase price under any Award be decreased to an amount less than the par value, if any, of the stock subject to such Award. The Committee in its discretion, may also make such adjustments in the terms of any Award to reflect, or related to, such changes in the capital structure of the Company or distributions as it deems appropriate, including modification of Performance Goals, Performance Award Formulas and Performance Periods. The adjustments determined by the Committee pursuant to this Section shall be final, binding and conclusive.

4.3 **Assumption or Substitution of Awards.** The Committee may, without affecting the number of shares of Stock available pursuant to Section 4.1, authorize the issuance or assumption of benefits under this Plan in connection with any merger, consolidation, acquisition of property or stock, or reorganization upon such terms and conditions as it may deem appropriate, subject to compliance with Section 409A and any other applicable provisions of the Code.

5. **ELIGIBILITY, PARTICIPATION AND AWARD LIMITATIONS.**

5.1 **Persons Eligible for Awards.** Awards may be granted only to Employees, Consultants and Directors.

5.2 **Participation in the Plan.** Awards are granted solely at the discretion of the Committee. Eligible persons may be granted more than one Award. However, eligibility in accordance with this Section shall not entitle any person to be granted an Award, or, having been granted an Award, to be granted an additional Award.

5.3 **Award Limitations.**

(a) ***Incentive Stock Option Limitations.***

(i) **Maximum Number of Shares Issuable Pursuant to Incentive Stock Options.** Subject to adjustment as provided in Section 4.2, the maximum aggregate number of shares of Stock that may be issued under the Plan pursuant to the exercise of Incentive Stock Options shall not exceed four million five hundred thousand (4,500,000). The maximum aggregate number of shares of Stock that may be issued under the Plan pursuant to all Awards other than Incentive Stock Options shall be the number of shares determined in accordance with Section 4.1.

(ii) **Persons Eligible.** An Incentive Stock Option may be granted only to a person who, on the effective date of grant, is an Employee of the Company, a Parent Corporation or a Subsidiary Corporation (each being an *"**ISO-Qualifying Corporation**"*). Any person who is not an Employee of an ISO-Qualifying Corporation on the effective date of the grant of an Option to such person may be granted only a Nonstatutory Stock Option.

(iii) **Fair Market Value Limitation.** To the extent that options designated as Incentive Stock Options (granted under all stock option plans of the Participating Company Group, including the Plan) become exercisable by a Participant for the first time during any calendar year for stock having a Fair Market Value greater than One Hundred Thousand Dollars ($100,000), the portion of such options which exceeds such amount shall be treated as Nonstatutory Stock Options. For purposes of this Section, options designated as Incentive Stock Options shall be taken into account in the order in which they were granted, and the Fair Market Value of stock shall be determined as of the time the option with respect to such stock is granted. If the Code is amended to provide for a limitation different from that set forth in this Section, such different limitation shall be deemed incorporated herein effective as of the date and with respect to such Options as required or permitted by such amendment to the Code. If an Option is treated as an Incentive Stock Option in part and as a Nonstatutory Stock Option in part by reason of the limitation set forth in this Section, the Participant may designate which portion of such Option the Participant is exercising. In the absence of such designation, the Participant shall be deemed to have exercised the Incentive Stock Option portion of the Option first. Upon exercise, shares issued pursuant to each such portion shall be separately identified.

(b) ***Section 162(m) Award Limits.*** Subject to adjustment as provided in Section 4.2, no Employee shall be granted within any fiscal year of the Company one or more Awards

intended to qualify for treatment as Performance-Based Compensation which in the aggregate are for more than seven hundred and fifty thousand (750,000) shares.

6. **STOCK OPTIONS.**

Options shall be evidenced by Award Agreements specifying the number of shares of Stock covered thereby, in such form as the Committee shall from time to time establish. Award Agreements evidencing Options may incorporate all or any of the terms of the Plan by reference and shall comply with and be subject to the following terms and conditions:

6.1 **Exercise Price.** The exercise price for each Option shall be established in the discretion of the Committee; provided, however, that (a) the exercise price per share shall be not less than the Fair Market Value of a share of Stock on the effective date of grant of the Option and (b) no Incentive Stock Option granted to a Ten Percent Owner shall have an exercise price per share less than one hundred ten percent (110%) of the Fair Market Value of a share of Stock on the effective date of grant of the Option. Notwithstanding the foregoing, an Option (whether an Incentive Stock Option or a Nonstatutory Stock Option) may be granted with an exercise price lower than the minimum exercise price set forth above if such Option is granted pursuant to an assumption or substitution for another option in a manner that would qualify under the provisions of Section 409A or 424(a) of the Code.

6.2 **Exercisability and Term of Options.** Options shall be exercisable at such time or times, or upon such event or events, and subject to such terms, conditions, performance criteria and restrictions as shall be determined by the Committee and set forth in the Award Agreement evidencing such Option; provided, however, that (a) no Option shall be exercisable after the expiration of ten (10) years after the effective date of grant of such Option, (b) no Incentive Stock Option granted to a Ten Percent Owner shall be exercisable after the expiration of five (5) years after the effective date of grant of such Option and (c) no Option granted to an Employee who is a non-exempt employee for purposes of the Fair Labor Standards Act of 1938, as amended, shall be first exercisable until at least six (6) months following the date of grant of such Option (except in the event of such Employee's death, disability or retirement, upon a Change in Control, or as otherwise permitted by the Worker Economic Opportunity Act). Subject to the foregoing, unless otherwise specified by the Committee in the grant of an Option, each Option shall terminate ten (10) years after the effective date of grant of the Option, unless earlier terminated in accordance with its provisions.

6.3 **Payment of Exercise Price.**

(a) ***Forms of Consideration Authorized.*** Except as otherwise provided below, payment of the exercise price for the number of shares of Stock being purchased pursuant to any Option shall be made (i) in cash, by check or in cash equivalent, (ii) by tender to the Company, or attestation to the ownership, of shares of Stock owned by the Participant having a Fair Market Value not less than the exercise price (a *"**Stock Tender Exercise**"*), (iii) by delivery of a properly executed notice of exercise together with irrevocable instructions to a broker providing for the assignment to the Company of the proceeds of a sale or loan with respect to some or all of the shares being acquired upon the exercise of the Option (including, without limitation, through an exercise complying with the provisions of Regulation T as promulgated from time to time by the Board of

Governors of the Federal Reserve System) (a *"**Cashless Exercise**"*), (iv) by delivery of a properly executed notice electing a Net Exercise, (v) by such other consideration as may be approved by the Committee from time to time to the extent permitted by applicable law, or (vi) by any combination thereof. The Committee may at any time or from time to time grant Options which do not permit all of the foregoing forms of consideration to be used in payment of the exercise price or which otherwise restrict one or more forms of consideration.

(b) ***Limitations on Forms of Consideration.***

(i) **Stock Tender Exercise.** Notwithstanding the foregoing, a Stock Tender Exercise shall not be permitted if it would constitute a violation of the provisions of any law, regulation or agreement restricting the redemption of the Company's stock. If required by the Company, an Option may not be exercised by tender to the Company, or attestation to the ownership, of shares of Stock unless such shares either have been owned by the Participant for a period of time required by the Company (and not used for another option exercise by attestation during such period) or were not acquired, directly or indirectly, from the Company.

(ii) **Cashless Exercise.** The Company reserves, at any and all times, the right, in the Company's sole and absolute discretion, to establish, decline to approve or terminate any program or procedures for the exercise of Options by means of a Cashless Exercise, including with respect to one or more Participants specified by the Company notwithstanding that such program or procedures may be available to other Participants.

6.4 **Effect of Termination of Service.**

(a) ***Option Exercisability.*** Subject to earlier termination of the Option as otherwise provided herein and unless otherwise provided by the Committee, an Option shall terminate immediately upon the Participant's termination of Service to the extent that it is then unvested and shall be exercisable after the Participant's termination of Service to the extent it is then vested only during the applicable time period determined in accordance with this Section and thereafter shall terminate.

(i) **Disability.** If the Participant's Service terminates because of the Disability of the Participant, the Option, to the extent unexercised and exercisable for vested shares on the date on which the Participant's Service terminated, may be exercised by the Participant (or the Participant's guardian or legal representative) at any time prior to the expiration of twelve (12) months after the date on which the Participant's Service terminated, but in any event no later than the date of expiration of the Option's term as set forth in the Award Agreement evidencing such Option (the *"**Option Expiration Date**"*).

(ii) **Death.** If the Participant's Service terminates because of the death of the Participant, then (A) the Option, to the extent unexercised and exercisable for vested shares on the date on which the Participant's Service terminated, may be exercised by the Participant's legal representative or other person who acquired the right to exercise the Option by reason of the Participant's death at any time prior to the expiration of twelve (12) months after the date on which the Participant's Service terminated, but in any event no later than the Option Expiration Date, and (B) solely for the purposes of determining the number of vested shares subject to the Option as of

the date on which the Participant's Service terminated, the Participant shall be credited with an additional twelve (12) months of Service. The Participant's Service shall be deemed to have terminated on account of death if the Participant dies within three (3) months after the Participant's termination of Service; provided, however, that the Participant shall not be credited with additional months of Service if the Participant dies after the Participant's Service has otherwise terminated.

(iii) **Termination for Cause.** Notwithstanding any other provision of the Plan to the contrary, if the Participant's Service is terminated for Cause or if, following the Participant's termination of Service and during any period in which the Option otherwise would remain exercisable, the Participant engages in any act that would constitute Cause, the Option shall terminate in its entirety and cease to be exercisable immediately upon such termination of Service or act.

(iv) **Other Termination of Service.** If the Participant's Service terminates for any reason, except Disability, death or Cause, the Option, to the extent unexercised and exercisable for vested shares on the date on which the Participant's Service terminated, may be exercised by the Participant at any time prior to the expiration of three (3) months after the date on which the Participant's Service terminated, but in any event no later than the Option Expiration Date.

(b) ***Extension if Exercise Prevented by Law.*** Notwithstanding the foregoing, other than termination of Service for Cause, if the exercise of an Option within the applicable time periods set forth in Section 6.4(a) is prevented by the provisions of Section 14 below, the Option shall remain exercisable until the later of (i) thirty (30) days after the date such exercise first would no longer be prevented by such provisions or (ii) the end of the applicable time period under Section 6.4 (a), but in any event no later than the Option Expiration Date.

6.5 **Transferability of Options.** During the lifetime of the Participant, an Option shall be exercisable only by the Participant or the Participant's guardian or legal representative. An Option shall not be subject in any manner to anticipation, alienation, sale, exchange, transfer, assignment, pledge, encumbrance, or garnishment by creditors of the Participant or the Participant's beneficiary, except transfer by will or by the laws of descent and distribution. Notwithstanding the foregoing, to the extent permitted by the Committee, in its discretion, and set forth in the Award Agreement evidencing such Option, an Option shall be assignable or transferable subject to the applicable limitations, if any, described in the General Instructions to Form S-8 under the Securities Act or, in the case of an Incentive Stock Option, only as permitted by applicable regulations under Section 421 of the Code in a manner that does not disqualify such Option as an Incentive Stock Option.

7. STOCK APPRECIATION RIGHTS.

Stock Appreciation Rights shall be evidenced by Award Agreements specifying the number of shares of Stock subject to the Award, in such form as the Committee shall from time to time establish. Award Agreements evidencing SARs may incorporate all or any of the terms of the Plan by reference and shall comply with and be subject to the following terms and conditions:

7.1 **Types of SARs Authorized.** SARs may be granted in tandem with all or any portion of a related Option (a *"**Tandem SAR**"*) or may be granted independently of any Option (a *"**Freestanding SAR**"*). A Tandem SAR may only be granted concurrently with the grant of the related Option.

7.2 **Exercise Price.** The exercise price for each SAR shall be established in the discretion of the Committee; provided, however, that (a) the exercise price per share subject to a Tandem SAR shall be the exercise price per share under the related Option and (b) the exercise price per share subject to a Freestanding SAR shall be not less than the Fair Market Value of a share of Stock on the effective date of grant of the SAR. Notwithstanding the foregoing, a an SAR may be granted with an exercise price lower than the minimum exercise price set forth above if such SAR is granted pursuant to an assumption or substitution for another stock appreciation right in a manner that would qualify under the provisions of Section 409A of the Code.

7.3 **Exercisability and Term of SARs.**

(a) ***Tandem SARs.*** Tandem SARs shall be exercisable only at the time and to the extent, and only to the extent, that the related Option is exercisable, subject to such provisions as the Committee may specify where the Tandem SAR is granted with respect to less than the full number of shares of Stock subject to the related Option. The Committee may, in its discretion, provide in any Award Agreement evidencing a Tandem SAR that such SAR may not be exercised without the advance approval of the Company and, if such approval is not given, then the Option shall nevertheless remain exercisable in accordance with its terms. A Tandem SAR shall terminate and cease to be exercisable no later than the date on which the related Option expires or is terminated or canceled. Upon the exercise of a Tandem SAR with respect to some or all of the shares subject to such SAR, the related Option shall be canceled automatically as to the number of shares with respect to which the Tandem SAR was exercised. Upon the exercise of an Option related to a Tandem SAR as to some or all of the shares subject to such Option, the related Tandem SAR shall be canceled automatically as to the number of shares with respect to which the related Option was exercised.

(b) ***Freestanding SARs.*** Freestanding SARs shall be exercisable at such time or times, or upon such event or events, and subject to such terms, conditions, performance criteria and restrictions as shall be determined by the Committee and set forth in the Award Agreement evidencing such SAR; provided, however, that (i) no Freestanding SAR shall be exercisable after the expiration of ten (10) years after the effective date of grant of such SAR and (b) no Freestanding SAR granted to an Employee who is a non-exempt employee for purposes of the Fair Labor Standards Act of 1938, as amended, shall be first exercisable until at least six (6) months following the date of grant of such SAR (except in the event of such Employee's death, disability or retirement, upon a Change in Control, or as otherwise permitted by the Worker Economic Opportunity Act). Subject to the foregoing, unless otherwise specified by the Committee in the grant of a Freestanding SAR, each Freestanding SAR shall terminate ten (10) years after the effective date of grant of the SAR, unless earlier terminated in accordance with its provisions.

7.4 **Exercise of SARs.** Upon the exercise (or deemed exercise pursuant to Section 7.5) of an SAR, the Participant (or the Participant's legal representative or other person who acquired the right to exercise the SAR by reason of the Participant's death) shall be entitled to receive payment

of an amount for each share with respect to which the SAR is exercised equal to the excess, if any, of the Fair Market Value of a share of Stock on the date of exercise of the SAR over the exercise price. Payment of such amount shall be made (a) in the case of a Tandem SAR, solely in shares of Stock in a lump sum upon the date of exercise of the SAR and (b) in the case of a Freestanding SAR, in cash, shares of Stock, or any combination thereof as determined by the Committee, in a lump sum upon the date of exercise of the SAR. When payment is to be made in shares of Stock, the number of shares to be issued shall be determined on the basis of the Fair Market Value of a share of Stock on the date of exercise of the SAR. For purposes of Section 7, an SAR shall be deemed exercised on the date on which the Company receives notice of exercise from the Participant or as otherwise provided in Section 7.5.

7.5 **Deemed Exercise of SARs.** If, on the date on which an SAR would otherwise terminate or expire, the SAR by its terms remains exercisable immediately prior to such termination or expiration and, if so exercised, would result in a payment to the holder of such SAR, then any portion of such SAR which has not previously been exercised shall automatically be deemed to be exercised as of such date with respect to such portion.

7.6 **Effect of Termination of Service.** Subject to earlier termination of the SAR as otherwise provided herein and unless otherwise provided by the Committee, an SAR shall be exercisable after a Participant's termination of Service only to the extent and during the applicable time period determined in accordance with Section 6.4 (treating the SAR as if it were an Option) and thereafter shall terminate.

7.7 **Transferability of SARs.** During the lifetime of the Participant, an SAR shall be exercisable only by the Participant or the Participant's guardian or legal representative. An SAR shall not be subject in any manner to anticipation, alienation, sale, exchange, transfer, assignment, pledge, encumbrance, or garnishment by creditors of the Participant or the Participant's beneficiary, except transfer by will or by the laws of descent and distribution. Notwithstanding the foregoing, to the extent permitted by the Committee, in its discretion, and set forth in the Award Agreement evidencing such Award, a Tandem SAR related to a Nonstatutory Stock Option or a Freestanding SAR shall be assignable or transferable subject to the applicable limitations, if any, described in the General Instructions to Form S-8 under the Securities Act.

8. RESTRICTED STOCK AWARDS.

Restricted Stock Awards shall be evidenced by Award Agreements specifying whether the Award is a Restricted Stock Bonus or a Restricted Stock Purchase Right and the number of shares of Stock subject to the Award, in such form as the Committee shall from time to time establish. Award Agreements evidencing Restricted Stock Awards may incorporate all or any of the terms of the Plan by reference and shall comply with and be subject to the following terms and conditions:

8.1 **Types of Restricted Stock Awards Authorized.** Restricted Stock Awards may be granted in the form of either a Restricted Stock Bonus or a Restricted Stock Purchase Right. Restricted Stock Awards may be granted upon such conditions as the Committee shall determine, including, without limitation, upon the attainment of one or more Performance Goals described in Section 10.4. If either the grant of or satisfaction of Vesting Conditions applicable to a Restricted Stock Award is to be contingent upon the attainment of one or more Performance Goals, the

Committee shall follow procedures substantially equivalent to those set forth in Sections 10.3 through 10.5(a).

8.2 **Purchase Price.** The purchase price for shares of Stock issuable under each Restricted Stock Purchase Right shall be established by the Committee in its discretion. No monetary payment (other than applicable tax withholding) shall be required as a condition of receiving shares of Stock pursuant to a Restricted Stock Bonus, the consideration for which shall be services actually rendered to a Participating Company or for its benefit. Notwithstanding the foregoing, if required by applicable state corporate law, the Participant shall furnish consideration in the form of cash or past services rendered to a Participating Company or for its benefit having a value not less than the par value of the shares of Stock subject to a Restricted Stock Award.

8.3 **Purchase Period.** A Restricted Stock Purchase Right shall be exercisable within a period established by the Committee, which shall in no event exceed thirty (30) days from the effective date of the grant of the Restricted Stock Purchase Right.

8.4 **Payment of Purchase Price.** Except as otherwise provided below, payment of the purchase price for the number of shares of Stock being purchased pursuant to any Restricted Stock Purchase Right shall be made (a) in cash, by check or in cash equivalent, (b) by such other consideration as may be approved by the Committee from time to time to the extent permitted by applicable law, or (c) by any combination thereof.

8.5 **Vesting and Restrictions on Transfer.** Shares issued pursuant to any Restricted Stock Award shall be made subject to Vesting Conditions based upon the satisfaction of such Service requirements, conditions, restrictions or performance criteria, including, without limitation, Performance Goals as described in Section 10.4, as shall be established by the Committee and set forth in the Award Agreement evidencing such Award; provided that, with respect to all Restricted Stock Awards other than those made to any Nonemployee Director, (i) the Vesting Conditions for non-performance based Restricted Stock Awards shall provide that the vesting period be at least three years, over which period vesting may be pro-rata in the manner specified in the Award Agreement and (ii) the Vesting Conditions for performance-based Restricted Stock Awards shall provide that the vesting period be at least one year.

During any period in which shares acquired pursuant to a Restricted Stock Award remain subject to Vesting Conditions, such shares may not be sold, exchanged, transferred, pledged, assigned or otherwise disposed of other than pursuant to an Ownership Change Event or as provided in Section 8.8. The Committee, in its discretion, may provide in any Award Agreement evidencing a Restricted Stock Award that, if the satisfaction of Vesting Conditions with respect to any shares subject to such Restricted Stock Award would otherwise occur on a day on which the sale of such shares would violate the provisions of the Trading Compliance Policy, then satisfaction of the Vesting Conditions automatically shall be determined on the next trading day on which the sale of such shares would not violate the Trading Compliance Policy. Upon request by the Company, each Participant shall execute any agreement evidencing such transfer restrictions prior to the receipt of shares of Stock hereunder and shall promptly present to the Company any and all certificates representing shares of Stock acquired hereunder for the placement on such certificates of appropriate legends evidencing any such transfer restrictions.

8.6 **Voting Rights; Dividends and Distributions.** Except as provided in this Section, Section 8.5 and any Award Agreement, during any period in which shares acquired pursuant to a Restricted Stock Award remain subject to Vesting Conditions, the Participant shall have all of the rights of a stockholder of the Company holding shares of Stock, including the right to vote such shares and to receive all dividends and other distributions paid with respect to such shares; provided, however, that if so determined by the Committee and provided by the Award Agreement, such dividends and distributions shall be subject to the same Vesting Conditions as the shares subject to the Restricted Stock Award with respect to which such dividends or distributions were paid, and otherwise shall be paid no later than the end of the calendar year in which such dividends or distributions are paid to stockholders (or, if later, the 15th day of the third month following the date such dividends or distributions are paid to stockholders). In the event of a dividend or distribution paid in shares of Stock or other property or any other adjustment made upon a change in the capital structure of the Company as described in Section 4.2, any and all new, substituted or additional securities or other property (other than regular, periodic cash dividends) to which the Participant is entitled by reason of the Participant's Restricted Stock Award shall be immediately subject to the same Vesting Conditions as the shares subject to the Restricted Stock Award with respect to which such dividends or distributions were paid or adjustments were made.

8.7 **Effect of Termination of Service.** Unless otherwise provided by the Committee in the Award Agreement evidencing a Restricted Stock Award, if a Participant's Service terminates for any reason, whether voluntary or involuntary (including the Participant's death or disability), then (a) the Company shall have the option to repurchase for the purchase price paid by the Participant any shares acquired by the Participant pursuant to a Restricted Stock Purchase Right which remain subject to Vesting Conditions as of the date of the Participant's termination of Service and (b) the Participant shall forfeit to the Company any shares acquired by the Participant pursuant to a Restricted Stock Bonus which remain subject to Vesting Conditions as of the date of the Participant's termination of Service. The Company shall have the right to assign at any time any repurchase right it may have, whether or not such right is then exercisable, to one or more persons as may be selected by the Company.

8.8 **Nontransferability of Restricted Stock Award Rights.** Rights to acquire shares of Stock pursuant to a Restricted Stock Award shall not be subject in any manner to anticipation, alienation, sale, exchange, transfer, assignment, pledge, encumbrance or garnishment by creditors of the Participant or the Participant's beneficiary, except transfer by will or the laws of descent and distribution. All rights with respect to a Restricted Stock Award granted to a Participant hereunder shall be exercisable during his or her lifetime only by such Participant or the Participant's guardian or legal representative.

9. RESTRICTED STOCK UNIT AWARDS.

Restricted Stock Unit Awards shall be evidenced by Award Agreements specifying the number of Restricted Stock Units subject to the Award, in such form as the Committee shall from time to time establish. Award Agreements evidencing Restricted Stock Units may incorporate all or any of the terms of the Plan by reference and shall comply with and be subject to the following terms and conditions:

9.1 **Grant of Restricted Stock Unit Awards.** Restricted Stock Unit Awards may be granted upon such conditions as the Committee shall determine, including, without limitation, upon the attainment of one or more Performance Goals described in Section 10.4. If either the grant of a Restricted Stock Unit Award or the Vesting Conditions with respect to such Award is to be contingent upon the attainment of one or more Performance Goals, the Committee shall follow procedures substantially equivalent to those set forth in Sections 10.3 through 10.5(a).

9.2 **Purchase Price.** No monetary payment (other than applicable tax withholding, if any) shall be required as a condition of receiving a Restricted Stock Unit Award, the consideration for which shall be services actually rendered to a Participating Company or for its benefit. Notwithstanding the foregoing, if required by applicable state corporate law, the Participant shall furnish consideration in the form of cash or past services rendered to a Participating Company or for its benefit having a value not less than the par value of the shares of Stock issued upon settlement of the Restricted Stock Unit Award.

9.3 **Vesting.** Restricted Stock Unit Awards may (but need not) be made subject to Vesting Conditions based upon the satisfaction of such Service requirements, conditions, restrictions or performance criteria, including, without limitation, Performance Goals as described in Section 10.4, as shall be established by the Committee and set forth in the Award Agreement evidencing such Award. The Committee, in its discretion, may provide in any Award Agreement evidencing a Restricted Stock Unit Award that, if the satisfaction of Vesting Conditions with respect to any shares subject to the Award would otherwise occur on a day on which the sale of such shares would violate the provisions of the Trading Compliance Policy, then the satisfaction of the Vesting Conditions automatically shall be determined on the first to occur of (a) the next trading day on which the sale of such shares would not violate the Trading Compliance Policy or (b) the later of (i) last day of the calendar year in which the original vesting date occurred or (ii) the last day of the Company's taxable year in which the original vesting date occurred.

9.4 **Voting Rights, Dividend Equivalent Rights and Distributions.** Participants shall have no voting rights with respect to shares of Stock represented by Restricted Stock Units until the date of the issuance of such shares (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company). However, the Committee, in its discretion, may provide in the Award Agreement evidencing any Restricted Stock Unit Award that the Participant shall be entitled to Dividend Equivalent Rights with respect to the payment of cash dividends on Stock during the period beginning on the date such Award is granted and ending, with respect to each share subject to the Award, on the earlier of the date the Award is settled or the date on which it is terminated. Such Dividend Equivalent Rights, if any, shall be paid by crediting the Participant with additional whole Restricted Stock Units as of the date of payment of such cash dividends on Stock. The number of additional Restricted Stock Units (rounded to the nearest whole number) to be so credited shall be determined by dividing (a) the amount of cash dividends paid on such date with respect to the number of shares of Stock represented by the Restricted Stock Units previously credited to the Participant by (b) the Fair Market Value per share of Stock on such date. Such additional Restricted Stock Units shall be subject to the same terms and conditions and shall be settled in the same manner and at the same time as the Restricted Stock Units originally subject to the Restricted Stock Unit Award. In the event of a dividend or distribution paid in shares of Stock or other property or any other adjustment made upon a change in the capital structure of the Company as described in Section 4.2, appropriate adjustments shall be made in the Participant's Restricted

Stock Unit Award so that it represents the right to receive upon settlement any and all new, substituted or additional securities or other property (other than regular, periodic cash dividends) to which the Participant would be entitled by reason of the shares of Stock issuable upon settlement of the Award, and all such new, substituted or additional securities or other property shall be immediately subject to the same Vesting Conditions as are applicable to the Award.

9.5 **Effect of Termination of Service.** Unless otherwise provided by the Committee and set forth in the Award Agreement evidencing a Restricted Stock Unit Award, if a Participant's Service terminates for any reason, whether voluntary or involuntary (including the Participant's death or disability), then the Participant shall forfeit to the Company any Restricted Stock Units pursuant to the Award which remain subject to Vesting Conditions as of the date of the Participant's termination of Service.

9.6 **Settlement of Restricted Stock Unit Awards.** The Company shall issue to a Participant on the date on which Restricted Stock Units subject to the Participant's Restricted Stock Unit Award vest or on such other date determined by the Committee, in its discretion, and set forth in the Award Agreement one (1) share of Stock (and/or any other new, substituted or additional securities or other property pursuant to an adjustment described in Section 9.4) for each Restricted Stock Unit then becoming vested or otherwise to be settled on such date, subject to the withholding of applicable taxes, if any. If permitted by the Committee, the Participant may elect, consistent with the requirements of Section 409A, to defer receipt of all or any portion of the shares of Stock or other property otherwise issuable to the Participant pursuant to this Section, and such deferred issuance date(s) and amount(s) elected by the Participant shall be set forth in the Award Agreement. Notwithstanding the foregoing, the Committee, in its discretion, may provide for settlement of any Restricted Stock Unit Award by payment to the Participant in cash of an amount equal to the Fair Market Value on the payment date of the shares of Stock or other property otherwise issuable to the Participant pursuant to this Section.

9.7 **Nontransferability of Restricted Stock Unit Awards.** The right to receive shares pursuant to a Restricted Stock Unit Award shall not be subject in any manner to anticipation, alienation, sale, exchange, transfer, assignment, pledge, encumbrance, or garnishment by creditors of the Participant or the Participant's beneficiary, except transfer by will or by the laws of descent and distribution. All rights with respect to a Restricted Stock Unit Award granted to a Participant hereunder shall be exercisable during his or her lifetime only by such Participant or the Participant's guardian or legal representative.

10. PERFORMANCE AWARDS.

Performance Awards shall be evidenced by Award Agreements in such form as the Committee shall from time to time establish. Award Agreements evidencing Performance Awards may incorporate all or any of the terms of the Plan by reference and shall comply with and be subject to the following terms and conditions:

10.1 **Types of Performance Awards Authorized.** Performance Awards may be granted in the form of either Performance Shares or Performance Units. Each Award Agreement evidencing a Performance Award shall specify the number of Performance Shares or Performance Units subject

thereto, the Performance Award Formula, the Performance Goal(s) and Performance Period applicable to the Award, and the other terms, conditions and restrictions of the Award.

10.2 **Initial Value of Performance Shares and Performance Units.** Unless otherwise provided by the Committee in granting a Performance Award, each Performance Share shall have an initial monetary value equal to the Fair Market Value of one (1) share of Stock, subject to adjustment as provided in Section 4.2, on the effective date of grant of the Performance Share, and each Performance Unit shall have an initial monetary value established by the Committee at the time of grant. The final value payable to the Participant in settlement of a Performance Award determined on the basis of the applicable Performance Award Formula will depend on the extent to which Performance Goals established by the Committee are attained within the applicable Performance Period established by the Committee.

10.3 **Establishment of Performance Period, Performance Goals and Performance Award Formula.** In granting each Performance Award, the Committee shall establish in writing the applicable Performance Period, Performance Award Formula and one or more Performance Goals which, when measured at the end of the Performance Period, shall determine on the basis of the Performance Award Formula the final value of the Performance Award to be paid to the Participant. Unless otherwise permitted in compliance with the requirements under Section 162(m) with respect to each Performance Award intended to result in the payment of Performance-Based Compensation, the Committee shall establish the Performance Goal(s) and Performance Award Formula applicable to each Performance Award no later than the earlier of (a) the date ninety (90) days after the commencement of the applicable Performance Period or (b) the date on which 25% of the Performance Period has elapsed, and, in any event, at a time when the outcome of the Performance Goals remains substantially uncertain. Once established, the Performance Goals and Performance Award Formula applicable to a Covered Employee shall not be changed during the Performance Period. The Company shall notify each Participant granted a Performance Award of the terms of such Award, including the Performance Period, Performance Goal(s) and Performance Award Formula.

10.4 **Measurement of Performance Goals.** Performance Goals shall be established by the Committee on the basis of targets to be attained (*"**Performance Targets**"*) with respect to one or more measures of business or financial performance (each, a *"**Performance Measure**"*), subject to the following:

(a) ***Performance Measures.*** Performance Measures shall be calculated in accordance with the Company's financial statements, or, if such terms are not used in the Company's financial statements, they shall be calculated in accordance with generally accepted accounting principles, a method used generally in the Company's industry, or in accordance with a methodology established by the Committee prior to the grant of the Performance Award. Performance Measures shall be calculated with respect to the Company and each Subsidiary Corporation consolidated therewith for financial reporting purposes or such division or other business unit as may be selected by the Committee. Unless otherwise determined by the Committee prior to the grant of the Performance Award, the Performance Measures applicable to the Performance Award shall be calculated prior to the accrual of expense for any Performance Award for the same Performance Period and excluding the effect (whether positive or negative) on the Performance Measures of any change in accounting standards or any extraordinary, unusual or nonrecurring item, as determined

by the Committee, occurring after the establishment of the Performance Goals applicable to the Performance Award. Each such adjustment, if any, shall be made solely for the purpose of providing a consistent basis from period to period for the calculation of Performance Measures in order to prevent the dilution or enlargement of the Participant's rights with respect to a Performance Award. Performance Measures may be one or more of the following, as determined by the Committee:

(i) revenue;

(ii) sales;

(iii) expenses;

(iv) operating income;

(v) gross margin;

(vi) operating margin;

(vii) earnings before any one or more of: stock-based compensation expense, interest, taxes, depreciation and amortization;

(viii) pre-tax profit;

(ix) net operating income;

(x) net income;

(xi) economic value added;

(xii) free cash flow;

(xiii) operating cash flow;

(xiv) balance of cash, cash equivalents and marketable securities;

(xv) stock price;

(xvi) earnings per share;

(xvii) return on stockholder equity;

(xviii) return on capital;

(xix) return on assets;

(xx) return on investment;

(xxi) total stockholder return;

(xxii) employee satisfaction;

(xxiii) employee retention;

(xxiv) market share;

(xxv) customer satisfaction;

(xxvi) product development;

(xxvii) research and development expenses;

(xxviii) completion of an identified special project; and

(xxix) completion of a joint venture or other corporate transaction.

(b) ***Performance Targets.*** Performance Targets may include a minimum, maximum, target level and intermediate levels of performance, with the final value of a Performance Award determined under the applicable Performance Award Formula by the level attained during the applicable Performance Period. A Performance Target may be stated as an absolute value, a growth or reduction in a value, or as a value determined relative to an index, budget or other standard selected by the Committee.

10.5 **Settlement of Performance Awards.**

(a) ***Determination of Final Value.*** As soon as practicable following the completion of the Performance Period applicable to a Performance Award, the Committee shall certify in writing the extent to which the applicable Performance Goals have been attained and the resulting final value of the Award earned by the Participant and to be paid upon its settlement in accordance with the applicable Performance Award Formula.

(b) ***Discretionary Adjustment of Award Formula.*** In its discretion, the Committee may, either at the time it grants a Performance Award or at any time thereafter, provide for the positive or negative adjustment of the Performance Award Formula applicable to a Performance Award granted to any Participant who is not a Covered Employee to reflect such Participant's individual performance in his or her position with the Company or such other factors as the Committee may determine. If permitted under a Covered Employee's Award Agreement, the Committee shall have the discretion, on the basis of such criteria as may be established by the Committee, to reduce some or all of the value of the Performance Award that would otherwise be paid to the Covered Employee upon its settlement notwithstanding the attainment of any Performance Goal and the resulting value of the Performance Award determined in accordance with the Performance Award Formula. No such reduction may result in an increase in the amount payable upon settlement of another Participant's Performance Award that is intended to result in Performance-Based Compensation.

(c) ***Effect of Leaves of Absence.*** Unless otherwise required by law or a Participant's Award Agreement, payment of the final value, if any, of a Performance Award held by a Participant who has taken in excess of thirty (30) days in unpaid leaves of absence during a Performance Period shall be prorated on the basis of the number of days of the Participant's Service during the Performance Period during which the Participant was not on an unpaid leave of absence.

(d) ***Notice to Participants.*** As soon as practicable following the Committee's determination and certification in accordance with Sections 10.5(a) and (b), the Company shall notify each Participant of the determination of the Committee.

(e) ***Payment in Settlement of Performance Awards.*** As soon as practicable following the Committee's determination and certification in accordance with Sections 10.5(a) and (b), but in any event within the Short-Term Deferral Period described in Section 15.1 (except as otherwise provided below or consistent with the requirements of Section 409A), payment shall be made to each eligible Participant (or such Participant's legal representative or other person who acquired the right to receive such payment by reason of the Participant's death) of the final value of the Participant's Performance Award. Payment of such amount shall be made in cash, shares of Stock, or a combination thereof as determined by the Committee. Unless otherwise provided in the Award Agreement evidencing a Performance Award, payment shall be made in a lump sum. If permitted by the Committee, the Participant may elect, consistent with the requirements of Section 409A, to defer receipt of all or any portion of the payment to be made to the Participant pursuant to this Section, and such deferred payment date(s) elected by the Participant shall be set forth in the Award Agreement. If any payment is to be made on a deferred basis, the Committee may, but shall not be obligated to, provide for the payment during the deferral period of Dividend Equivalent Rights or interest.

(f) ***Provisions Applicable to Payment in Shares.*** If payment is to be made in shares of Stock, the number of such shares shall be determined by dividing the final value of the Performance Award by the Fair Market Value of a share of Stock determined by the method specified in the Award Agreement. Shares of Stock issued in payment of any Performance Award may be fully vested and freely transferable shares or may be shares of Stock subject to Vesting Conditions as provided in Section 8.5. Any shares subject to Vesting Conditions shall be evidenced by an appropriate Award Agreement and shall be subject to the provisions of Sections 8.5 through 8.8 above.

10.6 **Voting Rights; Dividend Equivalent Rights and Distributions.** Participants shall have no voting rights with respect to shares of Stock represented by Performance Share Awards until the date of the issuance of such shares, if any (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company). However, the Committee, in its discretion, may provide in the Award Agreement evidencing any Performance Share Award that the Participant shall be entitled to Dividend Equivalent Rights with respect to the payment of cash dividends on Stock during the period beginning on the date the Award is granted and ending, with respect to each share subject to the Award, on the earlier of the date on which the Performance Shares are settled or the date on which they are forfeited. Such Dividend Equivalent Rights, if any, shall be credited to the Participant in the form of additional whole Performance Shares as of the date of payment of such cash dividends on Stock. The number of additional Performance Shares (rounded to the nearest whole number) to be so credited shall be determined by dividing (a)

the amount of cash dividends paid on the dividend payment date with respect to the number of shares of Stock represented by the Performance Shares previously credited to the Participant by (b) the Fair Market Value per share of Stock on such date. Dividend Equivalent Rights may be paid currently or may be accumulated and paid to the extent that Performance Shares become nonforfeitable, as determined by the Committee. Settlement of Dividend Equivalent Rights may be made in cash, shares of Stock, or a combination thereof as determined by the Committee, and may be paid on the same basis as settlement of the related Performance Share as provided in Section 10.5. Dividend Equivalent Rights shall not be paid with respect to Performance Units. In the event of a dividend or distribution paid in shares of Stock or other property or any other adjustment made upon a change in the capital structure of the Company as described in Section 4.2, appropriate adjustments shall be made in the Participant's Performance Share Award so that it represents the right to receive upon settlement any and all new, substituted or additional securities or other property (other than regular, periodic cash dividends) to which the Participant would be entitled by reason of the shares of Stock issuable upon settlement of the Performance Share Award, and all such new, substituted or additional securities or other property shall be immediately subject to the same Performance Goals as are applicable to the Award.

10.7 **Effect of Termination of Service.** Unless otherwise provided by the Committee and set forth in the Award Agreement evidencing a Performance Award, the effect of a Participant's termination of Service on the Performance Award shall be as follows:

(a) ***Death or Disability.*** If the Participant's Service terminates because of the death or Disability of the Participant before the completion of the Performance Period applicable to the Performance Award, the final value of the Participant's Performance Award shall be determined by the extent to which the applicable Performance Goals have been attained with respect to the entire Performance Period and shall be prorated based on the number of months of the Participant's Service during the Performance Period. Payment shall be made following the end of the Performance Period in any manner permitted by Section 10.5.

(b) ***Other Termination of Service.*** If the Participant's Service terminates for any reason except death or Disability before the completion of the Performance Period applicable to the Performance Award, such Award shall be forfeited in its entirety; provided, however, that in the event of an involuntary termination of the Participant's Service, the Committee, in its discretion, may waive the automatic forfeiture of all or any portion of any such Award and determine the final value of the Performance Award in the manner provided by Section 10.7(a). Payment of any amount pursuant to this Section shall be made following the end of the Performance Period in any manner permitted by Section 10.5.

10.8 **Nontransferability of Performance Awards.** Prior to settlement in accordance with the provisions of the Plan, no Performance Award shall be subject in any manner to anticipation, alienation, sale, exchange, transfer, assignment, pledge, encumbrance, or garnishment by creditors of the Participant or the Participant's beneficiary, except transfer by will or by the laws of descent and distribution. All rights with respect to a Performance Award granted to a Participant hereunder shall be exercisable during his or her lifetime only by such Participant or the Participant's guardian or legal representative.

11. CASH-BASED AWARDS AND OTHER STOCK-BASED AWARDS.

Cash-Based Awards and Other Stock-Based Awards shall be evidenced by Award Agreements in such form as the Committee shall from time to time establish. Award Agreements evidencing Cash-Based Awards and Other Stock-Based Awards may incorporate all or any of the terms of the Plan by reference and shall comply with and be subject to the following terms and conditions:

11.1 **Grant of Cash-Based Awards**. Subject to the provisions of the Plan, the Committee, at any time and from time to time, may grant Cash-Based Awards to Participants in such amounts and upon such terms and conditions, including the achievement of performance criteria, as the Committee may determine.

11.2 **Grant of Other Stock-Based Awards**. The Committee may grant other types of equity-based or equity-related Awards not otherwise described by the terms of this Plan (including the grant or offer for sale of unrestricted securities, stock-equivalent units, stock appreciation units, securities or debentures convertible into common stock or other forms determined by the Committee) in such amounts and subject to such terms and conditions as the Committee shall determine. Other Stock-Based Awards may be made available as a form of payment in the settlement of other Awards or as payment in lieu of compensation to which a Participant is otherwise entitled. Other Stock-Based Awards may involve the transfer of actual shares of Stock to Participants, or payment in cash or otherwise of amounts based on the value of Stock and may include, without limitation, Awards designed to comply with or take advantage of the applicable local laws of jurisdictions other than the United States.

11.3 **Value of Cash-Based and Other Stock-Based Awards**. Each Cash-Based Award shall specify a monetary payment amount or payment range as determined by the Committee. Each Other Stock-Based Award shall be expressed in terms of shares of Stock or units based on such shares of Stock, as determined by the Committee. The Committee may require the satisfaction of such Service requirements, conditions, restrictions or performance criteria, including, without limitation, Performance Goals as described in Section 10.4, as shall be established by the Committee and set forth in the Award Agreement evidencing such Award. If the Committee exercises its discretion to establish performance criteria, the final value of Cash-Based Awards or Other Stock-Based Awards that will be paid to the Participant will depend on the extent to which the performance criteria are met. The establishment of performance criteria with respect to the grant or vesting of any Cash-Based Award or Other Stock-Based Award intended to result in Performance-Based Compensation shall follow procedures substantially equivalent to those applicable to Performance Awards set forth in Section 10.

11.4 **Payment or Settlement of Cash-Based Awards and Other Stock-Based Awards**. Payment or settlement, if any, with respect to a Cash-Based Award or an Other Stock-Based Award shall be made in accordance with the terms of the Award, in cash, shares of Stock or other securities or any combination thereof as the Committee determines. The determination and certification of the final value with respect to any Cash-Based Award or Other Stock-Based Award intended to result in Performance-Based Compensation shall comply with the requirements applicable to Performance Awards set forth in Section 10. To the extent applicable, payment or settlement with respect to each Cash-Based Award and Other Stock-Based Award shall be made in compliance with the requirements of Section 409A.

11.5 **Voting Rights; Dividend Equivalent Rights and Distributions.** Participants shall have no voting rights with respect to shares of Stock represented by Other Stock-Based Awards until the date of the issuance of such shares of Stock (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company), if any, in settlement of such Award. However, the Committee, in its discretion, may provide in the Award Agreement evidencing any Other Stock-Based Award that the Participant shall be entitled to Dividend Equivalent Rights with respect to the payment of cash dividends on Stock during the period beginning on the date such Award is granted and ending, with respect to each share subject to the Award, on the earlier of the date the Award is settled or the date on which it is terminated. Such Dividend Equivalent Rights, if any, shall be paid in accordance with the provisions set forth in Section 9.4. Dividend Equivalent Rights shall not be granted with respect to Cash-Based Awards. In the event of a dividend or distribution paid in shares of Stock or other property or any other adjustment made upon a change in the capital structure of the Company as described in Section 4.2, appropriate adjustments shall be made in the Participant's Other Stock-Based Award so that it represents the right to receive upon settlement any and all new, substituted or additional securities or other property (other than regular, periodic cash dividends) to which the Participant would be entitled by reason of the shares of Stock issuable upon settlement of such Award, and all such new, substituted or additional securities or other property shall be immediately subject to the same Vesting Conditions and performance criteria, if any, as are applicable to the Award.

11.6 **Effect of Termination of Service**. Each Award Agreement evidencing a Cash-Based Award or Other Stock-Based Award shall set forth the extent to which the Participant shall have the right to retain such Award following termination of the Participant's Service. Such provisions shall be determined in the discretion of the Committee, need not be uniform among all Cash-Based Awards or Other Stock-Based Awards, and may reflect distinctions based on the reasons for termination, subject to the requirements of Section 409A, if applicable.

11.7 **Nontransferability of Cash-Based Awards and Other Stock-Based Awards.** Prior to the payment or settlement of a Cash-Based Award or Other Stock-Based Award, the Award shall not be subject in any manner to anticipation, alienation, sale, exchange, transfer, assignment, pledge, encumbrance, or garnishment by creditors of the Participant or the Participant's beneficiary, except transfer by will or by the laws of descent and distribution. The Committee may impose such additional restrictions on any shares of Stock issued in settlement of Cash-Based Awards and Other Stock-Based Awards as it may deem advisable, including, without limitation, minimum holding period requirements, restrictions under applicable federal securities laws, under the requirements of any stock exchange or market upon which such shares of Stock are then listed and/or traded, or under any state securities laws or foreign law applicable to such shares of Stock.

12. STANDARD FORMS OF AWARD AGREEMENT.

12.1 **Award Agreements.** Each Award shall comply with and be subject to the terms and conditions set forth in the appropriate form of Award Agreement approved by the Committee and as amended from time to time. No Award or purported Award shall be a valid and binding obligation of the Company unless evidenced by a fully executed Award Agreement, which execution may be evidenced by electronic means. Any Award Agreement may consist of an appropriate form of Notice

of Grant and a form of Agreement incorporated therein by reference, or such other form or forms, including electronic media, as the Committee may approve from time to time.

12.2 **Authority to Vary Terms.** The Committee shall have the authority from time to time to vary the terms of any standard form of Award Agreement either in connection with the grant or amendment of an individual Award or in connection with the authorization of a new standard form or forms; provided, however, that the terms and conditions of any such new, revised or amended standard form or forms of Award Agreement are not inconsistent with the terms of the Plan.

13. **CHANGE IN CONTROL.**

13.1 **Effect of Change in Control on Awards.** Subject to the requirements and limitations of Section 409A, if applicable, the Committee may provide for any one or more of the following:

(a) ***Accelerated Vesting.*** In its discretion, the Committee may provide in the grant of any Award or at any other time may take such action as it deems appropriate to provide for acceleration of the exercisability, vesting and/or settlement in connection with a Change in Control of each or any outstanding Award or portion thereof and shares acquired pursuant thereto upon such conditions, including termination of the Participant's Service prior to, upon, or following such Change in Control, and to such extent as the Committee shall determine.

(b) ***Assumption, Continuation or Substitution.*** In the event of a Change in Control, the surviving, continuing, successor, or purchasing corporation or other business entity or parent thereof, as the case may be (the *"**Acquiror**"*), may, without the consent of any Participant, either assume or continue the Company's rights and obligations under each or any Award or portion thereof outstanding immediately prior to the Change in Control or substitute for each or any such outstanding Award or portion thereof a substantially equivalent award with respect to the Acquiror's stock, as applicable. For purposes of this Section, if so determined by the Committee in its discretion, an Award denominated in shares of Stock shall be deemed assumed if, following the Change in Control, the Award confers the right to receive, subject to the terms and conditions of the Plan and the applicable Award Agreement, for each share of Stock subject to the Award immediately prior to the Change in Control, the consideration (whether stock, cash, other securities or property or a combination thereof) to which a holder of a share of Stock on the effective date of the Change in Control was entitled (and if holders were offered a choice of consideration, the type of consideration chosen by the holders of a majority of the outstanding shares of Stock); provided, however, that if such consideration is not solely common stock of the Acquiror, the Committee may, with the consent of the Acquiror, provide for the consideration to be received upon the exercise or settlement of the Award, for each share of Stock subject to the Award, to consist solely of common stock of the Acquiror equal in Fair Market Value to the per share consideration received by holders of Stock pursuant to the Change in Control. Any Award or portion thereof which is neither assumed or continued by the Acquiror in connection with the Change in Control nor exercised or settled as of the time of consummation of the Change in Control shall terminate and cease to be outstanding effective as of the time of consummation of the Change in Control.

(c) ***Cash-Out of Outstanding Stock-Based Awards.*** The Committee may, in its discretion and without the consent of any Participant, determine that, upon the occurrence of a Change in Control, each or any Award denominated in shares of Stock or portion thereof outstanding

immediately prior to the Change in Control and not previously exercised or settled shall be canceled in exchange for a payment with respect to each vested share (and each unvested share, if so determined by the Committee) of Stock subject to such canceled Award in (i) cash, (ii) stock of the Company or of a corporation or other business entity a party to the Change in Control, or (iii) other property which, in any such case, shall be in an amount having a Fair Market Value equal to the Fair Market Value of the consideration to be paid per share of Stock in the Change in Control, reduced (but not below zero) by the exercise or purchase price per share, if any, under such Award. In the event such determination is made by the Committee, an Award having an exercise or purchase price per share equal to or greater than the Fair Market Value of the consideration to be paid per share of Stock in the Change in Control may be canceled without payment of consideration to the holder thereof. Payment pursuant to this Section (reduced by applicable withholding taxes, if any) shall be made to Participants in respect of the vested portions of their canceled Awards as soon as practicable following the date of the Change in Control and in respect of the unvested portions of their canceled Awards in accordance with the vesting schedules applicable to such Awards.

13.2 **Federal Excise Tax Under Section 4999 of the Code.**

(a) ***Excess Parachute Payment.*** In the event that any acceleration of vesting pursuant to an Award and any other payment or benefit received or to be received by a Participant would subject the Participant to any excise tax pursuant to Section 4999 of the Code due to the characterization of such acceleration of vesting, payment or benefit as an "excess parachute payment" under Section 280G of the Code, the Participant may elect to reduce the amount of any acceleration of vesting called for under the Award in order to avoid such characterization.

(b) ***Determination by Independent Accountants.*** To aid the Participant in making any election called for under Section 13.2(a), no later than the date of the occurrence of any event that might reasonably be anticipated to result in an "excess parachute payment" to the Participant as described in Section 13.2(a), the Company shall request a determination in writing by independent public accountants selected by the Company (the *"**Accountants**"*). As soon as practicable thereafter, the Accountants shall determine and report to the Company and the Participant the amount of such acceleration of vesting, payments and benefits which would produce the greatest after-tax benefit to the Participant. For the purposes of such determination, the Accountants may rely on reasonable, good faith interpretations concerning the application of Sections 280G and 4999 of the Code. The Company and the Participant shall furnish to the Accountants such information and documents as the Accountants may reasonably request in order to make their required determination. The Company shall bear all fees and expenses the Accountants charge in connection with their services contemplated by this Section.

14. **COMPLIANCE WITH SECURITIES LAW.**

The grant of Awards and the issuance of shares of Stock pursuant to any Award shall be subject to compliance with all applicable requirements of federal, state and foreign law with respect to such securities and the requirements of any stock exchange or market system upon which the Stock may then be listed. In addition, no Award may be exercised or shares issued pursuant to an Award unless (a) a registration statement under the Securities Act shall at the time of such exercise or issuance be in effect with respect to the shares issuable pursuant to the Award, or (b) in the opinion of legal counsel to the Company, the shares issuable pursuant to the Award may be issued in

accordance with the terms of an applicable exemption from the registration requirements of the Securities Act. The inability of the Company to obtain from any regulatory body having jurisdiction the authority, if any, deemed by the Company's legal counsel to be necessary to the lawful issuance and sale of any shares hereunder shall relieve the Company of any liability in respect of the failure to issue or sell such shares as to which such requisite authority shall not have been obtained. As a condition to issuance of any Stock, the Company may require the Participant to satisfy any qualifications that may be necessary or appropriate, to evidence compliance with any applicable law or regulation and to make any representation or warranty with respect thereto as may be requested by the Company.

15. **COMPLIANCE WITH SECTION 409A.**

15.1 **Awards Subject to Section 409A.** The Company intends that Awards granted pursuant to the Plan shall either be exempt from or comply with Section 409A, and the Plan shall be so construed. The provisions of this Section 15 shall apply to any Award or portion thereof that constitutes or provides for payment of Section 409A Deferred Compensation. Such Awards may include, without limitation:

(a) A Nonstatutory Stock Option or SAR that includes any feature for the deferral of compensation other than the deferral of recognition of income until the later of (i) the exercise or disposition of the Award or (ii) the time the stock acquired pursuant to the exercise of the Award first becomes substantially vested.

(b) Any Restricted Stock Unit Award, Performance Award, Cash-Based Award or Other Stock-Based Award that either (i) provides by its terms for settlement of all or any portion of the Award at a time or upon an event that will or may occur later than the end of the Short-Term Deferral Period (as defined below) or (ii) permits the Participant granted the Award to elect one or more dates or events upon which the Award will be settled after the end of the Short-Term Deferral Period.

Subject to the provisions of Section 409A, the term "***Short-Term Deferral Period***" means the 2½ month period ending on the later of (i) the 15th day of the third month following the end of the Participant's taxable year in which the right to payment under the applicable portion of the Award is no longer subject to a substantial risk of forfeiture or (ii) the 15th day of the third month following the end of the Company's taxable year in which the right to payment under the applicable portion of the Award is no longer subject to a substantial risk of forfeiture. For this purpose, the term "substantial risk of forfeiture" shall have the meaning provided by Section 409A.

15.2 **Deferral and/or Distribution Elections.** Except as otherwise permitted or required by Section 409A, the following rules shall apply to any compensation deferral and/or payment elections (each, an "***Election***") that may be permitted or required by the Committee pursuant to an Award providing Section 409A Deferred Compensation:

(a) Elections must be in writing and specify the amount of the payment in settlement of an Award being deferred, as well as the time and form of payment as permitted by this Plan.

(b) Elections shall be made by the end of the Participant's taxable year prior to the year in which services commence for which an Award may be granted to such Participant.

(c) Elections shall continue in effect until a written revocation or change in Election is received by the Company, except that a written revocation or change in Election must be received by the Company prior to the last day for making the Election determined in accordance with paragraph (b) above or as permitted by Section 15.3.

15.3 **Subsequent Elections.** Except as otherwise permitted or required by Section 409A, any Award providing Section 409A Deferred Compensation which permits a subsequent Election to delay the payment or change the form of payment in settlement of such Award shall comply with the following requirements:

(a) No subsequent Election may take effect until at least twelve (12) months after the date on which the subsequent Election is made.

(b) Each subsequent Election related to a payment in settlement of an Award not described in Section 15.4(a)(ii), 15.4(a)(iii) or 15.4(a)(vi) must result in a delay of the payment for a period of not less than five (5) years from the date on which such payment would otherwise have been made.

(c) No subsequent Election related to a payment pursuant to Section 15.4(a)(iv) shall be made less than twelve (12) months before the date on which such payment would otherwise have been made.

(d) Subsequent Elections shall continue in effect until a written revocation or change in the subsequent Election is received by the Company, except that a written revocation or change in a subsequent Election must be received by the Company prior to the last day for making the subsequent Election determined in accordance the preceding paragraphs of this Section 15.3.

15.4 **Payment of Section 409A Deferred Compensation.**

(a) ***Permissible Payments.*** Except as otherwise permitted or required by Section 409A, an Award providing Section 409A Deferred Compensation must provide for payment in settlement of the Award only upon one or more of the following:

(i) The Participant's "separation from service" (as such term is defined by Section 409A);

(ii) The Participant's becoming "disabled" (as such term is defined by Section 409A);

(iii) The Participant's death;

(iv) A time or fixed schedule that is either (i) specified by the Committee upon the grant of an Award and set forth in the Award Agreement evidencing such Award or (ii)

specified by the Participant in an Election complying with the requirements of Section 15.2 or 15.3, as applicable;

(v) A change in the ownership or effective control or the Company or in the ownership of a substantial portion of the assets of the Company determined in accordance with Section 409A; or

(vi) The occurrence of an "unforeseeable emergency" (as such term is defined by Section 409A).

(b) ***Installment Payments.*** It is the intent of this Plan that any right of a Participant to receive installment payments (within the meaning of Section 409A) shall, for all purposes of Section 409A, be treated as a right to a series of separate payments.

(c) ***Required Delay in Payment to Specified Employee Pursuant to Separation from Service.*** Notwithstanding any provision of the Plan or an Award Agreement to the contrary, except as otherwise permitted by Section 409A, no payment pursuant to Section 15.4(a)(i) in settlement of an Award providing for Section 409A Deferred Compensation may be made to a Participant who is a "specified employee" (as such term is defined by Section 409A) as of the date of the Participant's separation from service before the date (the "***Delayed Payment Date***") that is six (6) months after the date of such Participant's separation from service, or, if earlier, the date of the Participant's death. All such amounts that would, but for this paragraph, become payable prior to the Delayed Payment Date shall be accumulated and paid on the Delayed Payment Date.

(d) ***Payment Upon Disability.*** All distributions payable by reason of a Participant becoming disabled shall be paid in a lump sum or in periodic installments as established by the Participant's Election. If the Participant has made no Election with respect to distributions upon becoming disabled, all such distributions shall be paid in a lump sum upon the determination that the Participant has become disabled.

(e) ***Payment Upon Death.*** If a Participant dies before complete distribution of amounts payable upon settlement of an Award subject to Section 409A, such undistributed amounts shall be distributed to his or her beneficiary under the distribution method for death established by the Participant's Election upon receipt by the Committee of satisfactory notice and confirmation of the Participant's death. If the Participant has made no Election with respect to distributions upon death, all such distributions shall be paid in a lump sum upon receipt by the Committee of satisfactory notice and confirmation of the Participant's death.

(f) ***Payment Upon Change in Control.*** Notwithstanding any provision of the Plan or an Award Agreement to the contrary, to the extent that any amount constituting Section 409A Deferred Compensation would become payable under this Plan by reason of a Change in Control, such amount shall become payable only if the event constituting a Change in Control would also constitute a change in ownership or effective control of the Company or a change in the ownership of a substantial portion of the assets of the Company within the meaning of Section 409A. Any Award which constitutes Section 409A Deferred Compensation and which would vest and otherwise become payable upon a Change in Control as a result of the failure of the Acquiror to assume, continue or substitute for such Award in accordance with Section 13.1(b) shall vest to the extent

provided by such Award but shall be converted automatically at the effective time of such Change in Control into a right to receive, in cash on the date or dates such award would have been settled in accordance with its then existing settlement schedule (or as required by Section 15.4(c)), an amount or amounts equal in the aggregate to the intrinsic value of the Award at the time of the Change in Control.

(g) ***Payment Upon Unforeseeable Emergency.*** The Committee shall have the authority to provide in the Award Agreement evidencing any Award providing for Section 409A Deferred Compensation for payment in settlement of all or a portion of such Award in the event that a Participant establishes, to the satisfaction of the Committee, the occurrence of an unforeseeable emergency. In such event, the amount(s) distributed with respect to such unforeseeable emergency cannot exceed the amounts reasonably necessary to satisfy the emergency need plus amounts necessary to pay taxes reasonably anticipated as a result of such distribution(s), after taking into account the extent to which such emergency need is or may be relieved through reimbursement or compensation by insurance or otherwise, by liquidation of the Participant's assets (to the extent the liquidation of such assets would not itself cause severe financial hardship) or by cessation of deferrals under the Award. All distributions with respect to an unforeseeable emergency shall be made in a lump sum upon the Committee's determination that an unforeseeable emergency has occurred. The Committee's decision with respect to whether an unforeseeable emergency has occurred and the manner in which, if at all, the payment in settlement of an Award shall be altered or modified, shall be final, conclusive, and not subject to approval or appeal.

(h) ***Prohibition of Acceleration of Payments.*** Notwithstanding any provision of the Plan or an Award Agreement to the contrary, this Plan does not permit the acceleration of the time or schedule of any payment under an Award providing Section 409A Deferred Compensation, except as permitted by Section 409A.

(i) ***No Representation Regarding Section 409A Compliance.*** Notwithstanding any other provision of the Plan, the Company makes no representation that Awards shall be exempt from or comply with Section 409A. No Participating Company shall be liable for any tax, penalty or interest imposed on a Participant by Section 409A.

16. **TAX WITHHOLDING.**

16.1 **Tax Withholding in General.** The Company shall have the right to deduct from any and all payments made under the Plan, or to require the Participant, through payroll withholding, cash payment or otherwise, to make adequate provision for, the federal, state, local and foreign taxes (including social insurance), if any, required by law to be withheld by any Participating Company with respect to an Award or the shares acquired pursuant thereto. The Company shall have no obligation to deliver shares of Stock, to release shares of Stock from an escrow established pursuant to an Award Agreement, or to make any payment in cash under the Plan until the Participating Company Group's tax withholding obligations have been satisfied by the Participant.

16.2 **Withholding in or Directed Sale of Shares.** The Company shall have the right, but not the obligation, to deduct from the shares of Stock issuable to a Participant upon the exercise or settlement of an Award, or to accept from the Participant the tender of, a number of whole shares of Stock having a Fair Market Value, as determined by the Company, equal to all or any part of

the tax withholding obligations of any Participating Company as determined under applicable provisions of the Code. Prior to January 1, 2017, the Fair Market Value of any shares of Stock withheld or tendered to satisfy any such tax withholding obligations shall not exceed the amount determined by the applicable minimum statutory withholding rates. Effective January 1, 2017, the Fair Market Value of any shares of Stock withheld or tendered to satisfy any such tax withholding obligations shall not exceed the amount determined by the applicable maximum statutory withholding rates. The Company may require a Participant to direct a broker, upon the vesting, exercise or settlement of an Award, to sell a portion of the shares subject to the Award determined by the Company in its discretion to be sufficient to cover the tax withholding obligations of any Participating Company and to remit an amount equal to such tax withholding obligations to the Company in cash.

17. **AMENDMENT, SUSPENSION OR TERMINATION OF PLAN.**

The Committee may amend, suspend or terminate the Plan at any time. However, without the approval of the Company's stockholders, there shall be (a) no increase in the maximum aggregate number of shares of Stock that may be issued under the Plan (except by operation of the provisions of Section 4.2), (b) no change in the class of persons eligible to receive Incentive Stock Options, and (c) no other amendment of the Plan that would require approval of the Company's stockholders under any applicable law, regulation or rule, including the rules of any stock exchange or quotation system upon which the Stock may then be listed or quoted. No amendment, suspension or termination of the Plan shall affect any then outstanding Award unless expressly provided by the Committee. Except as provided by the next sentence, no amendment, suspension or termination of the Plan may adversely affect any then outstanding Award without the consent of the Participant. Notwithstanding any other provision of the Plan to the contrary, the Committee may, in its sole and absolute discretion and without the consent of any Participant, amend the Plan or any Award Agreement, to take effect retroactively or otherwise, as it deems necessary or advisable for the purpose of conforming the Plan or such Award Agreement to any present or future law, regulation or rule applicable to the Plan, including, but not limited to, Section 409A.

18. **MISCELLANEOUS PROVISIONS.**

18.1 **Repurchase Rights.** Shares issued under the Plan may be subject to one or more repurchase options, or other conditions and restrictions as determined by the Committee in its discretion at the time the Award is granted. The Company shall have the right to assign at any time any repurchase right it may have, whether or not such right is then exercisable, to one or more persons as may be selected by the Company. Upon request by the Company, each Participant shall execute any agreement evidencing such transfer restrictions prior to the receipt of shares of Stock hereunder and shall promptly present to the Company any and all certificates representing shares of Stock acquired hereunder for the placement on such certificates of appropriate legends evidencing any such transfer restrictions.

18.2 **Forfeiture Events.**

(a) The Committee may specify in an Award Agreement that the Participant's rights, payments, and benefits with respect to an Award shall be subject to reduction, cancellation, forfeiture, or recoupment upon the occurrence of specified events, in addition to any otherwise

applicable vesting or performance conditions of an Award. Such events may include, but shall not be limited to, termination of Service for Cause or any act by a Participant, whether before or after termination of Service, that would constitute Cause for termination of Service.

(b) If the Company is required to prepare an accounting restatement due to the material noncompliance of the Company, as a result of misconduct, with any financial reporting requirement under the securities laws, any Participant who knowingly or through gross negligence engaged in the misconduct, or who knowingly or through gross negligence failed to prevent the misconduct, and any Participant who is one of the individuals subject to automatic forfeiture under Section 304 of the Sarbanes-Oxley Act of 2002, shall reimburse the Company for (i) the amount of any payment in settlement of an Award received by such Participant during the twelve-(12-) month period following the first public issuance or filing with the United States Securities and Exchange Commission (whichever first occurred) of the financial document embodying such financial reporting requirement, and (ii) any profits realized by such Participant from the sale of securities of the Company during such twelve-(12-) month period.

18.3 **Provision of Information.** Each Participant shall be given access to information concerning the Company equivalent to that information generally made available to the Company's common stockholders.

18.4 **Rights as Employee, Consultant or Director.** No person, even though eligible pursuant to Section 5, shall have a right to be selected as a Participant, or, having been so selected, to be selected again as a Participant. Nothing in the Plan or any Award granted under the Plan shall confer on any Participant a right to remain an Employee, Consultant or Director or interfere with or limit in any way any right of a Participating Company to terminate the Participant's Service at any time. To the extent that an Employee of a Participating Company other than the Company receives an Award under the Plan, that Award shall in no event be understood or interpreted to mean that the Company is the Employee's employer or that the Employee has an employment relationship with the Company.

18.5 **Rights as a Stockholder.** A Participant shall have no rights as a stockholder with respect to any shares covered by an Award until the date of the issuance of such shares (as evidenced by the appropriate entry on the books of the Company or of a duly authorized transfer agent of the Company). No adjustment shall be made for dividends, distributions or other rights for which the record date is prior to the date such shares are issued, except as provided in Section 4.2 or another provision of the Plan.

18.6 **Delivery of Title to Shares.** Subject to any governing rules or regulations, the Company shall issue or cause to be issued the shares of Stock acquired pursuant to an Award and shall deliver such shares to or for the benefit of the Participant by means of one or more of the following: (a) by delivering to the Participant evidence of book entry shares of Stock credited to the account of the Participant, (b) by depositing such shares of Stock for the benefit of the Participant with any broker with which the Participant has an account relationship, or (c) by delivering such shares of Stock to the Participant in certificate form.

18.7 **Fractional Shares.** The Company shall not be required to issue fractional shares upon the exercise or settlement of any Award.

18.8 **Retirement and Welfare Plans**. Neither Awards made under this Plan nor shares of Stock or cash paid pursuant to such Awards may be included as "compensation" for purposes of computing the benefits payable to any Participant under any Participating Company's retirement plans (both qualified and non-qualified) or welfare benefit plans unless such other plan expressly provides that such compensation shall be taken into account in computing a Participant's benefit.

18.9 **Beneficiary Designation.** Subject to local laws and procedures, each Participant may file with the Company a written designation of a beneficiary who is to receive any benefit under the Plan to which the Participant is entitled in the event of such Participant's death before he or she receives any or all of such benefit. Each designation will revoke all prior designations by the same Participant, shall be in a form prescribed by the Company, and will be effective only when filed by the Participant in writing with the Company during the Participant's lifetime. If a married Participant designates a beneficiary other than the Participant's spouse, the effectiveness of such designation may be subject to the consent of the Participant's spouse. If a Participant dies without an effective designation of a beneficiary who is living at the time of the Participant's death, the Company will pay any remaining unpaid benefits to the Participant's legal representative.

18.10 **Severability**. If any one or more of the provisions (or any part thereof) of this Plan shall be held invalid, illegal or unenforceable in any respect, such provision shall be modified so as to make it valid, legal and enforceable, and the validity, legality and enforceability of the remaining provisions (or any part thereof) of the Plan shall not in any way be affected or impaired thereby.

18.11 **No Constraint on Corporate Action.** Nothing in this Plan shall be construed to: (a) limit, impair, or otherwise affect the Company's or another Participating Company's right or power to make adjustments, reclassifications, reorganizations, or changes of its capital or business structure, or to merge or consolidate, or dissolve, liquidate, sell, or transfer all or any part of its business or assets; or (b) limit the right or power of the Company or another Participating Company to take any action which such entity deems to be necessary or appropriate.

18.12 **Unfunded Obligation.** Participants shall have the status of general unsecured creditors of the Company. Any amounts payable to Participants pursuant to the Plan shall be considered unfunded and unsecured obligations for all purposes, including, without limitation, Title I of the Employee Retirement Income Security Act of 1974. No Participating Company shall be required to segregate any monies from its general funds, or to create any trusts, or establish any special accounts with respect to such obligations. The Company shall retain at all times beneficial ownership of any investments, including trust investments, which the Company may make to fulfill its payment obligations hereunder. Any investments or the creation or maintenance of any trust or any Participant account shall not create or constitute a trust or fiduciary relationship between the Committee or any Participating Company and a Participant, or otherwise create any vested or beneficial interest in any Participant or the Participant's creditors in any assets of any Participating Company. The Participants shall have no claim against any Participating Company for any changes in the value of any assets which may be invested or reinvested by the Company with respect to the Plan.

18.13 **Choice of Law.** Except to the extent governed by applicable federal law, the validity, interpretation, construction and performance of the Plan and each Award Agreement shall be governed by the laws of the State of California, without regard to its conflict of law rules

IN WITNESS WHEREOF, the undersigned Secretary of the Company certifies that the foregoing sets forth the Molina Healthcare, Inc. 2011 Equity Incentive Plan as duly adopted by the Board.

/s/ Jeff D. Barlow
Corporate Secretary

EXHIBIT 31.1

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, Joseph M. Molina, M.D., certify that:

1. I have reviewed the annual report on Form 10-K for the period ended September 30, 2016 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Dated: October 27, 2016

/s/ Joseph M. Molina

Joseph M. Molina
Chairman of the Board,

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, John C. Molina, J.D., certify that:

1. I have reviewed this annual report on Form 10-K for the period ended September 30, 2016 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

MOLINA HEALTHCARE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
June 30, 2016

1. Basis of Presentation

Organization and Operations

Molina Healthcare, Inc. provides quality health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments include our Health Plans and Molina Medicaid Solutions segments, which comprise the vast majority of our operations, and our Other segment. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015, which is reported in Other. All prior periods reported conform to this presentation.

Our Health Plans segment consists of health plans in 11 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of June 30, 2016, these health plans served 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. Additionally, we serve Health Insurance Marketplace (Marketplace) members, most of whom receive government premium subsidies. The health plans are operated by our respective wholly owned subsidiaries in those states, each of which is licensed as a health maintenance organization (HMO). Our direct delivery business consists primarily of the operation of primary care clinics in several states in which we operate.

Our Molina Medicaid Solutions segment provides business processing and information technology development and administrative services to Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and drug rebate administration services in Florida.

Our Other segment includes businesses, such as our Pathways behavioral health and social services provider, that do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

Market Updates - Health Plans

Illinois. On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business of, Accountable Care Chicago, LLC, also known as MyCare Chicago and Loyola Physician Partners, LLC. See Note 4, "Business Combinations," for further information.

On March 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Better Health Network, LLC. See Note 4, "Business Combinations," for further information.

Michigan. On January 1, 2016, our Michigan health plan closed on its acquisition of the Medicaid and MIChild membership, and certain Medicaid and MIChild assets, of HAP Midwest Health Plan, Inc. See Note 4, "Business Combinations," for further information.

New York. On April 19, 2016, we entered into an agreement with Universal American Corp. to acquire all outstanding equity interests of Today's Options of New York, Inc., which operates the Total Care Medicaid plan. Subject to regulatory approvals and the satisfaction of other closing conditions, we expect the transaction to close in the second half of 2016.

Washington. On January 1, 2016, our Washington health plan closed on its acquisition of the Medicaid contracts, and certain assets related to the operation of the Medicaid business, of Columbia United Providers, Inc. See Note 4, "Business Combinations," for further information.

Consolidation and Interim Financial Information

The consolidated financial statements include the accounts of Molina Healthcare, Inc., its subsidiaries, and variable interest entities (VIEs) in which Molina Healthcare, Inc. is considered to be the primary beneficiary. Such VIEs are insignificant to our consolidated financial position and results of operations. In the opinion of management, all adjustments considered necessary for a fair presentation of the results as of the date and for the interim periods presented have been included; such adjustments consist of normal recurring adjustments. All significant intercompany balances and transactions have been eliminated. The consolidated results of operations for the current interim period are not necessarily indicative of the results for the entire year ending December 31, 2016.

The unaudited consolidated interim financial statements have been prepared under the assumption that users of the interim financial data have either read or have access to our audited consolidated financial statements for the fiscal year ended

December 31, 2015. Accordingly, certain disclosures that would substantially duplicate the disclosures contained in the December 31, 2015 audited consolidated financial statements have been omitted. These unaudited consolidated interim financial statements should be read in conjunction with our December 31, 2015 audited consolidated financial statements.

2. Significant Accounting Policies

Revenue Recognition – Health Plans Segment

Premium revenue is fixed in advance of the periods covered and except as described below, is not generally subject to significant accounting estimates. Premium revenues are recognized in the month that members are entitled to receive health care services, and premiums collected in advance are deferred. Certain components of premium revenue are subject to accounting estimates and fall into the following categories:

Contractual Provisions That May Adjust or Limit Revenue or Profit

Medicaid

Medical Cost Floors (Minimums), Medical Cost Corridors, and Administrative Cost Ceilings (Maximums): A portion of our premium revenue may be returned if certain minimum amounts are not spent on defined medical care costs. In the aggregate, we recorded a liability under the terms of such contract provisions of $326 million and $214 million at June 30, 2016 and December 31, 2015, respectively, to amounts due government agencies. Approximately $297 million and $208 million of the liability accrued at June 30, 2016 and December 31, 2015, respectively, relates to our participation in Medicaid Expansion programs.

In certain circumstances, the health plans may receive additional premiums if amounts spent on medical care costs exceed a defined maximum threshold. We recorded receivables of $1 million and $3 million at June 30, 2016 and December 31, 2015, respectively, relating to such provisions.

Profit Sharing and Profit Ceiling: Our contracts with certain states contain profit-sharing or profit ceiling provisions under which we refund amounts to the states if our health plans generate profit above a certain specified percentage. In some cases, we are limited in the amount of administrative costs that we may deduct in calculating the refund, if any. Under these provisions, we recorded a liability of $1 million and $10 million at June 30, 2016 and December 31, 2015, respectively, for profit in excess of the amount we are allowed to retain.

Retroactive Premium Adjustments: The state Medicaid programs periodically adjust premium rates on a retroactive basis. In these cases, we must adjust our premium revenue in the period in which we learn of the adjustment, rather than in the months of service to which the retroactive adjustment applies. In the first quarter of 2016 our Florida health plan recorded a retroactive increase to Medicaid premium revenue of approximately $18 million, relating to dates of service prior to 2016.

Cost Plus Retroactive Premium Adjustments: In New Mexico, when members are retroactively enrolled into our health plan, we earn revenue only to the extent of the actual medical costs incurred by us for services provided during those retroactive periods, plus a small percentage of that medical cost for administration and profit. This arrangement first became effective July 1, 2014 (retroactive to January 1, 2014). We are paid normal monthly capitation rates for the retroactive eligibility periods, and the difference between those capitation rates and the amounts due to us on a cost plus basis are periodically settled with the state. To date, no such settlement has been made. During the years ended December 31, 2014 and 2015, our New Mexico contract was not specific as to the definition of retroactive membership, and the amount we owe the state (or that the state owes us) for the difference between capitation received and amounts due to us under the cost plus arrangement during those periods varies widely depending upon the definition of retroactive membership. Although we believe that the amount we have recorded as a liability for this matter is consistent with the state's expectations, we cannot be certain that the state will not seek to recover an amount in excess of our recorded liability.

Medicare

Risk Adjustment: Our Medicare premiums are subject to retroactive increase or decrease based on the health status of our Medicare members (as measured by member risk score). We estimate our members' risk scores and the related amount of Medicare revenue that will ultimately be realized for the periods presented based on our knowledge of our members' health status, risk scores and federal Centers for Medicare and Medicaid Services (CMS) practices. Based on our estimates, we have recorded a net receivable of $19 million and a net payable of $4 million for anticipated Medicare risk adjustment premiums at June 30, 2016 and December 31, 2015, respectively.

Marketplace

Premium Stabilization Programs: The Affordable Care Act (ACA) established Marketplace premium stabilization programs effective January 1, 2014. These programs, commonly referred to as the "3R's," include a permanent risk adjustment program, a transitional reinsurance program, and a temporary risk corridor program. We record receivables or payables related to the 3R programs and the Minimum MLR when the amounts are reasonably estimable as described below, and, for receivables, collection is reasonably assured. Our receivables (payables) for each of these programs, as of the dates indicated, were as follows:

	June 30, 2016			December 31, 2015
	Current Benefit Year	Prior Benefit Years	Total	
	(In millions)			
Risk adjustment	$ (220)	$ (254)	$ (474)	$ (214)
Reinsurance	57	24	81	36
Risk corridor	(9)	(3)	(12)	(10)
Minimum MLR	(17)	(2)	(19)	(3)

- Risk adjustment: Under this permanent program, our health plans' composite risk scores are compared to the overall average risk score for the relevant state and market pool. Generally, our health plans will pay into the pool if their composite risk scores are below the average risk score, and will receive funds from the pool if their composite risk scores are above the average risk score. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk adjustment program as an adjustment to premium revenue in our consolidated statements of income. On June 30, 2016, CMS released the final update on risk adjustment and reinsurance payments for the 2015 benefit year, and we adjusted our accruals accordingly.
- Reinsurance: This program is designed to provide reimbursement to insurers for high cost members. Our health plans pay an annual contribution on a per-member basis, and are eligible for recoveries if claims for individual members exceed a specified threshold, up to a maximum amount. This three-year program will end on December 31, 2016. We recognize the assessments to fund the transitional reinsurance program as a reduction to premium revenue in our consolidated statements of income. We recognize recoveries under the reinsurance program as a reduction to medical care costs in our consolidated statements of income.
- Risk corridor: This program is intended to limit gains and losses of insurers by comparing allowable costs to a target amount as defined by the CMS. Variances from the target amount exceeding certain thresholds may result in amounts due to or receivables due from CMS. This three-year program will end on December 31, 2016. Due to uncertainties as to the amount of federal funding available to support the risk corridor program, we do not recognize amounts receivable under this program. All liabilities are recognized as incurred. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk corridor program as an adjustment to premium revenue in our consolidated statements of income.

Additionally, the ACA established a minimum annual medical loss ratio (Minimum MLR) of 80% for the Marketplace. The medical loss ratio represents medical costs as a percentage of premium revenue. What constitutes medical costs and premium revenue are specifically defined by federal regulations. If the Minimum MLR is not met, we may be required to pay rebates to our Marketplace policyholders. Each of the 3R programs is taken into consideration when computing the Minimum MLR. We recognize estimated rebates under the Minimum MLR as an adjustment to premium revenue in our consolidated statements of income.

Quality Incentives

At several of our health plans, revenue ranging from approximately 1% to 3% of certain health plan premiums is earned only if certain performance measures are met.

During the second quarter, we were informed by the Texas Department of Health and Human Services that it will not recoup any quality revenue for calendar years 2014, 2015, and 2016. Therefore, we recognized previously deferred quality revenue amounting to approximately $51 million in the second quarter of 2016. Of the $51 million adjustment, $44 million related to 2015 and 2014 dates of service, and $7 million related to the first quarter of 2016.

The following table quantifies the quality incentive premium revenue recognized for the periods presented, including the amounts earned in the periods presented and prior periods. Although the reasonably possible effects of a change in estimate related to quality incentive premium revenue as of June 30, 2016 are not known, we have no reason to believe that the

adjustments to prior years noted below are not indicative of the potential future changes in our estimates as of June 30, 2016, other than the Texas quality revenue recognized in the second quarter of 2016 described above.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
	(In millions)			
Maximum available quality incentive premium - current period	$ 41	$ 28	$ 81	$ 58
Amount of quality incentive premium revenue recognized in current period:				
Earned current period	$ 36	$ 11	$ 54	$ 21
Earned prior periods	49	11	54	11
Total	$ 85	$ 22	$ 108	32
Quality incentive premium revenue recognized as a percentage of total premium revenue	2.1%	0.7%	1.3%	0.5%

Income Taxes

The provision for income taxes is determined using an estimated annual effective tax rate, which is generally greater than the U.S. federal statutory rate primarily because of state taxes, nondeductible expenses such as the Health Insurer Fee (HIF), certain compensation, and other general and administrative expenses. The effective tax rate may be subject to fluctuations during the year, particularly as a result of the level of pretax earnings, and also as new information is obtained. Such information may affect the assumptions used to estimate the annual effective tax rate, including factors such as the mix of pretax earnings in the various tax jurisdictions in which we operate, valuation allowances against deferred tax assets, the recognition or the reversal of the recognition of tax benefits related to uncertain tax positions, and changes in or the interpretation of tax laws in jurisdictions where we conduct business. We recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of our assets and liabilities, along with net operating loss and tax credit carryovers.

Recent Accounting Pronouncements

Revenue Recognition. In May 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-12, *Revenue from Contracts with Customers (Topic 606).* The amendments, which address transition, collectibility, non-cash consideration and the presentation of sales and other similar taxes, do not change the core principles of ASU 2014-09, but rather address implementation issues and are intended to result in more consistent application. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

In April 2016, the FASB issued ASU 2016-10, *Identifying Performance Obligations and Licensing*, which amends certain aspects of ASC 606, *Revenue from Contracts with Customers*. ASU 2016-10 amends step two of the new revenue standard's five-step model to include guidance on immaterial promised goods or services, shipping and handling activities and identifying when promises represent performance obligations. ASU 2016-10 also provides guidance related to licensing such as, but not limited to, sales-based and usage-based royalties and renewals of license that provide a right to use intellectual property. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers - Principal vs. Agent Considerations*, which amends the principal–versus–agent implementation guidance in ASC 606. ASU 2016-08 clarifies that an entity should evaluate whether it is the principal or agent for each specified good or service promised in a contract with a customer as defined in ASC 606. The entity must first identify each specified good or service to be provided to the customer and then assess whether it controls each specified good or service. The ASU also removed two of the five indicators used in evaluating control under the old guidance and reframes the remaining three indicators. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

Credit Losses. In June 2016, the FASB issued ASU 2016-13, *Measurement of Credit Losses on Financial Instruments*, which changes how companies measure credit losses on most financial instruments measured at amortized cost, such as loans, receivables and held-to-maturity debt securities. Rather than generally recognizing credit losses when it is probable that the loss has been incurred, the revised guidance requires companies to recognize an allowance for credit losses for the difference between the amortized cost basis of a financial instrument and the amount of amortized cost that the company expects to collect over the instrument's contractual life. ASU 2016-13 is effective for fiscal periods beginning after December 15, 2019 and must

be adopted as a cumulative effect adjustment to retained earnings. Early adoption is permitted. We are evaluating the potential effects of the adoption to our financial statements.

Stock Compensation. In March 2016, the FASB issued ASU 2016-09, *Compensation-Stock Compensation*, which simplifies several aspects of accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax and classification in the statement of cash flows. ASU 2016-09 is effective for fiscal periods beginning after December 15, 2016 and must be adopted using the modified retrospective approach except for classification in the statement of cash flows, which must be adopted using either the prospective or retrospective approach. Early adoption is permitted. We are evaluating the potential effects of the adoption to our financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission (SEC) did not have, or are not believed by management to have, a material impact on our present or future consolidated financial statements.

3. Net Income per Share

The following table sets forth the calculation of basic and diluted net income per share:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
	(In millions, except net income per share)			
Numerator:				
Net income	$ 33	$ 39	$ 57	$ 67
Denominator:				
Shares outstanding at the beginning of the period	55	49	55	49
Weighted-average number of shares:				
Issued in common stock offering	—	1	—	1
Denominator for basic net income per share	55	50	55	50
Effect of dilutive securities:				
Convertible senior notes (1)	—	1	—	—
1.125% Warrants (1)	—	3	1	2
Denominator for diluted net income per share	55	54	56	52
Net income per share (2):				
Basic	$ 0.58	$ 0.78	$ 1.02	$ 1.36
Diluted	$ 0.58	$ 0.72	$ 1.01	$ 1.29

(1) For more information regarding the convertible senior notes, refer to Note 10, "Debt." For more information regarding the 1.125% Warrants, refer to Note 11, "Derivatives."
(2) Source data for calculations in thousands.

4. Business Combinations

In the first quarter of 2016, we closed on several business combinations in the Health Plans segment. For all of these transactions, we applied the acquisition method of accounting, where the total purchase price was allocated, or preliminarily allocated, to tangible and intangible assets acquired, and liabilities assumed based on their respective fair values. For the Health Plans acquisitions, described below, only intangible assets were acquired. All of these acquisitions were funded using available cash and acquisition-related costs were insignificant.

Health Plans

Consistent with our strategy to grow in our existing markets, we closed the following Health Plans acquisitions in the first quarter of 2016:

Illinois. On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business of, Accountable Care Chicago, LLC, also known as MyCare Chicago. The initial purchase price was approximately $35 million, and the Illinois health plan added approximately 58,000 Medicaid members as a result of this transaction.

On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Loyola Physician Partners, LLC. The final purchase price was approximately $12 million, and the Illinois health plan added approximately 18,000 Medicaid members as a result of this transaction.

On March 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Better Health Network, LLC. The initial purchase price was approximately $18 million, and the Illinois health plan added approximately 34,000 Medicaid members as a result of this transaction.

Michigan. On January 1, 2016, our Michigan health plan closed on its acquisition of the Medicaid and MIChild membership, and certain Medicaid and MIChild assets, of HAP Midwest Health Plan, Inc. The final purchase price was approximately $31 million, and the Michigan health plan added approximately 68,000 Medicaid and MIChild members as a result of this transaction.

Washington. On January 1, 2016, our Washington health plan closed on its acquisition of the Medicaid contracts, and certain assets related to the operation of the Medicaid business, of Columbia United Providers, Inc. The final purchase price was approximately $28 million, and the Washington health plan added approximately 57,000 Medicaid members as a result of this transaction.

For these acquisitions, we recorded goodwill to the Health Plans segment amounting to $90 million in the aggregate, which relates to future economic benefits arising from expected synergies to be achieved. Such synergies include use of our existing infrastructure to support the added membership. The amount recorded as goodwill is deductible for income tax purposes.

The following table presents the intangible assets identified in the transactions described above. The weighted-average amortization period, in the aggregate, is 5.9 years. For these acquisitions in the aggregate, we expect to record amortization of approximately $6 million per year in the years 2016 through 2020 and $1 million in 2021.

	Fair Value	Life
	(In millions)	(Years)
Intangible asset type:		
Contract rights - member list	$ 28	5
Provider network	6	10
	$ 34	

5. Fair Value Measurements

We consider the carrying amounts of cash and cash equivalents and other current assets and current liabilities (not including current portion of long-term debt) to approximate their fair values because of the relatively short period of time between the origination of these instruments and their expected realization or payment. For our financial instruments measured at fair value on a recurring basis, we prioritize the inputs used in measuring fair value according to a three-tier fair value hierarchy as follows:

Level 1 — Observable Inputs. Level 1 financial instruments are actively traded and therefore the fair value for these securities is based on quoted market prices on one or more securities exchanges.

Level 2 — Directly or Indirectly Observable Inputs. Level 2 financial instruments are traded frequently though not necessarily daily. Fair value for these investments is determined using a market approach based on quoted prices for similar securities in active markets or quoted prices for identical securities in inactive markets.

Level 3 — Unobservable Inputs. Level 3 financial instruments are valued using unobservable inputs that represent management's best estimate of what market participants would use in pricing the financial instrument at the measurement date. Our Level 3 financial instruments include derivative financial instruments.

Derivative financial instruments include the 1.125% Call Option derivative asset and the 1.125% Conversion Option derivative liability. These derivatives are not actively traded and are valued based on an option pricing model that uses observable and unobservable market data for inputs. Significant market data inputs used to determine fair value as of June 30, 2016 included the price of our common stock, the time to maturity of the derivative instruments, the risk-free interest rate, and the implied volatility of our common stock. As described further in Note 11, “Derivatives,” the 1.125% Call Option asset and the 1.125% Conversion Option liability were designed such that changes in their fair values would offset, with minimal impact to the consolidated statements of income. Therefore, the sensitivity of changes in the unobservable inputs to the option pricing model for such instruments is mitigated.

The changes in fair value of Level 3 financial instruments were insignificant to our results of operations for the six months ended June 30, 2016.

Our financial instruments measured at fair value on a recurring basis at June 30, 2016, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,345	$ —	$ 1,345	$ —
Government-sponsored enterprise securities (GSEs)	196	196	—	—
Municipal securities	180	—	180	—
U.S. treasury notes	108	108	—	—
Asset-backed securities	71	—	71	—
Certificates of deposit	68	—	68	—
Subtotal - current investments	1,968	304	1,664	—
1.125% Call Option derivative asset	226	—	—	226
Total assets measured at fair value on a recurring basis	$ 2,194	$ 304	$ 1,664	$ 226
1.125% Conversion Option derivative liability	$ 226	$ —	$ —	$ 226
Total liabilities measured at fair value on a recurring basis	$ 226	$ —	$ —	$ 226

Our financial instruments measured at fair value on a recurring basis at December 31, 2015, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,184	$ —	$ 1,184	$ —
GSEs	211	211	—	—
Municipal securities	185	—	185	—
U.S. treasury notes	78	78	—	—
Asset-backed securities	63	—	63	—
Certificates of deposit	80	—	80	—
Subtotal - current investments	1,801	289	1,512	—
1.125% Call Option derivative asset	374	—	—	374
Total assets measured at fair value on a recurring basis	$ 2,175	$ 289	$ 1,512	$ 374
1.125% Conversion Option derivative liability	$ 374	$ —	$ —	$ 374
Total liabilities measured at fair value on a recurring basis	$ 374	$ —	$ —	$ 374

Fair Value Measurements – Disclosure Only

The carrying amounts and estimated fair values of our senior notes, which are classified as Level 2 financial instruments, are indicated in the following table.

	June 30, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
		(In millions)		
5.375% Notes	$ 690	$ 702	$ 689	$ 700
1.125% Convertible Notes	460	742	448	865
1.625% Convertible Notes	278	329	273	365
	$ 1,428	$ 1,773	$ 1,410	$ 1,930

6. Investments

The following tables summarize our investments as of the dates indicated:

	June 30, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,340	$ 5	$ —	$ 1,345
GSEs	196	—	—	196
Municipal securities	178	2	—	180
U.S. treasury notes	108	—	—	108
Asset-backed securities	71	—	—	71
Certificates of deposit	68	—	—	68
	$ 1,961	$ 7	$ —	$ 1,968

	December 31, 2015			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,189	$ —	$ 5	$ 1,184
GSEs	212	—	1	211
Municipal securities	186	—	1	185
U.S. treasury notes	78	—	—	78
Asset-backed securities	63	—	—	63
Certificates of deposit	80	—	—	80
	$ 1,808	$ —	$ 7	$ 1,801

The contractual maturities of our investments as of June 30, 2016 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 1,084	$ 1,084
Due after one year through five years	844	850
Due after five years through ten years	33	34
	$ 1,961	$ 1,968

Gross realized gains and losses from sales of available-for-sale securities are calculated under the specific identification method and are included in investment income. Gross realized investment gains and losses for the three and six months ended June 30, 2016 and 2015 were insignificant.

We have determined that unrealized gains and losses at June 30, 2016 and December 31, 2015, are temporary in nature, because the change in market value for these securities has resulted from fluctuating interest rates, rather than a deterioration of the creditworthiness of the issuers. So long as we maintain the intent and ability to hold these securities to maturity, we are unlikely to experience gains or losses. In the event that we dispose of these securities before maturity, we expect that realized gains or losses, if any, will be immaterial.

There were no available-for-sale investments in a material continuous loss position as of June 30, 2016.

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of December 31, 2015:

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 825	$ 4	588	$ 119	$ 1	87
GSEs	182	1	77	—	—	—
Municipal securities	128	1	181	—	—	—
	$ 1,135	$ 6	846	$ 119	$ 1	87

7. Receivables

Receivables consist primarily of amounts due from government Medicaid agencies, which may be subject to potential retroactive adjustments. Because all of our receivable amounts are readily determinable and substantially all of our creditors are governmental authorities, our allowance for doubtful accounts is immaterial. The information below is presented by segment.

	June 30, 2016	December 31, 2015
	(In millions)	
California	$ 180	$ 104
Florida	103	22
Illinois	106	35
Michigan	62	39
New Mexico	64	51
Ohio	112	66
Puerto Rico	50	33
South Carolina	11	6
Texas	60	56
Utah	38	18
Washington	81	53
Wisconsin	46	22
Direct delivery and other	5	6
Total Health Plans segment	918	511
Molina Medicaid Solutions segment	41	37
Other segment	53	49
	$ 1,012	$ 597

8. Restricted Investments

Pursuant to the regulations governing our Health Plans segment subsidiaries, we maintain statutory deposits and deposits required by government authorities in certificates of deposit and U.S. treasury securities. We also maintain restricted investments as protection against the insolvency of certain capitated providers. The following table presents the balances of

restricted investments:

	June 30, 2016	December 31, 2015
	(In millions)	
Florida	$ 28	$ 34
Illinois	3	—
Michigan	1	1
New Mexico	43	43
Ohio	12	12
Puerto Rico	10	10
Texas	4	4
Utah	4	4
Wisconsin	1	1
Other	1	—
Total Health Plans segment	$ 107	$ 109

The contractual maturities of our held-to-maturity restricted investments as of June 30, 2016 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 106	$ 106
Due after one year through five years	1	1
	$ 107	$ 107

9. Medical Claims and Benefits Payable

The following table provides the details of our medical claims and benefits payable (including amounts payable for the provision of long-term services and supports, or LTSS) as of the dates indicated.

	June 30, 2016	December 31, 2015
	(In millions)	
Fee-for-service claims incurred but not paid (IBNP)	$ 1,292	$ 1,191
Pharmacy payable	103	88
Capitation payable	37	140
Other	334	266
	$ 1,766	$ 1,685

"Other" medical claims and benefits payable include amounts payable to certain providers for which we act as an intermediary on behalf of various government agencies without assuming financial risk. Such receipts and payments do not impact our consolidated statements of income. Non-risk provider payables amounted to $191 million and $167 million as of June 30, 2016 and December 31, 2015, respectively.

The following table presents the components of the change in our medical claims and benefits payable for the periods indicated. The amounts presented for “Components of medical care costs related to: Prior periods” represent the amount by which our original estimate of medical claims and benefits payable at the beginning of the period were more than the actual amount of the liability based on information (principally the payment of claims) developed since that liability was first reported.

	Six Months Ended June 30, 2016	Year Ended December 31, 2015
	(Dollars in millions)	
Medical claims and benefits payable, beginning balance	$ 1,685	$ 1,201
Components of medical care costs related to:		
Current period	7,371	11,935
Prior periods	(189)	(141)
Total medical care costs	7,182	11,794
Change in non-risk provider payables	24	48
Payments for medical care costs related to:		
Current period	5,885	10,448
Prior periods	1,240	910
Total paid	7,125	11,358
Medical claims and benefits payable, ending balance	$ 1,766	$ 1,685
Benefit from prior period as a percentage of:		
Balance at beginning of period	11.3%	11.8%
Premium revenue, trailing twelve months	1.3%	1.1%
Medical care costs, trailing twelve months	1.4%	1.2%

The portion of our total medical claims and benefits payable liability that is most subject to variability in the estimate is fee-for-service claims incurred but not paid (IBNP). Our IBNP, included in medical claims and benefits payable, represents our best estimate of the total amount of claims we will ultimately pay with respect to claims that we have incurred as of the balance sheet date. We estimate our IBNP monthly using actuarial methods based on a number of factors.

Assuming that our initial estimate of IBNP is accurate, we believe that amounts ultimately paid would generally be between 8% and 10% less than the IBNP liability recorded at the end of the period as a result of the inclusion in that liability of the provision for adverse claims deviation and the accrued cost of settling those claims. Because the amount of our initial liability is merely an estimate (and therefore not perfectly accurate), we will always experience variability in that estimate as new information becomes available with the passage of time. Therefore, there can be no assurance that amounts ultimately paid out will fall within the range of 8% to 10% lower than the liability that was initially recorded. Furthermore, because our initial estimate of IBNP is derived from many factors, some of which are qualitative in nature rather than quantitative, we are seldom able to assign specific values to the reasons for a change in estimate – we only know when the circumstances for any one or more factors are out of the ordinary.

The use of a consistent methodology in estimating our liability for medical claims and benefits payable minimizes the degree to which the under– or overestimation of that liability at the close of one period may affect consolidated results of operations in subsequent periods. In particular, the use of a consistent methodology should result in the replenishment of reserves during any given period in a manner that generally offsets the benefit of favorable prior period development in that period. Facts and circumstances unique to the estimation process at any single date, however, may still lead to a material impact on consolidated results of operations in subsequent periods. Any absence of adverse claims development (as well as the expensing through general and administrative expense of the costs to settle claims held at the start of the period) will lead to the recognition of a benefit from prior period claims development in the period subsequent to the date of the original estimate.

As indicated above, the amounts ultimately paid out on our medical claims and benefits payable liabilities in fiscal years 2016 and 2015 were less than what we had expected when we had established those liabilities. The differences between our original estimates and the amounts ultimately paid out (or now expected to be ultimately paid out) for the most part related to IBNP. While many related factors working in conjunction with one another serve to determine the accuracy of our estimates, we are seldom able to quantify the impact that any single factor has on a change in estimate. In addition, given the variability inherent in the reserving process, we will only be able to identify specific factors if they represent a significant departure from expectations. As a result, we do not expect to be able to fully quantify the impact of individual factors on changes in estimates.

We believe that the most significant uncertainties surrounding our IBNP estimates at June 30, 2016 are as follows:

- In the first half of 2016, our Marketplace enrollment across all health plans increased by approximately 392,000 members. Some of the states with significant increases included:
    - California: 57,000

- Florida: 94,000
- Texas: 110,000
- Utah: 48,000
- Wisconsin: 38,000

Because these new Marketplace members may have different utilization patterns than our legacy members, our estimates of the liability we have incurred for services provided to these members are subject to more than the usual amount of uncertainty.

- Our Illinois health plan added over 100,000 new members under acquisitions of three Medicaid contracts during the first half of 2016. Because these new members may have different utilization patterns than our legacy members, our estimates of the liability we have incurred for services provided to these members are subject to more than the usual amount of uncertainty.
- At our New Mexico, Puerto Rico and Washington health plans, we overpaid certain inpatient and outpatient facility claims. We adjusted our claims payment history to reflect the claims payment pattern that would have occurred without these overpayments. For this reason, our liability estimates at these health plans are subject to more than the usual amount of uncertainty.
- At our Washington health plan, the covered benefits in two counties were expanded to include behavioral health benefits under the state's new fully integrated managed care program, which impacted about 80,000 members. Because these are new benefits, our liability estimate at this health plan is subject to more than the usual amount of uncertainty.

We recognized favorable prior period claims development in the amount of $189 million for the six months ended June 30, 2016. This amount represents our estimate as of June 30, 2016, of the extent to which our initial estimate of medical claims and benefits payable at December 31, 2015 was more than the amount that will ultimately be paid out in satisfaction of that liability. We believe the overestimation was due primarily to the following factors:

- A new version of diagnostic codes was required for all claims with dates of service on October 1, 2015, and later. As a result, payment was delayed or denied for a significant number of claims due to provider submission of claims with diagnostic codes that were no longer valid. Once providers were able to submit claims with the correct diagnostic codes, our actual costs were ultimately less than expected.
- At our New Mexico health plan, we overestimated the impact of several pending high-dollar claims, and our actual costs were ultimately less than expected.
- At our Washington health plan, we overpaid certain outpatient facility claims in 2015 when the state converted to a new payment methodology. We did not include an estimate in the reserves for this potential recovery as of December 31, 2015.
- At our California health plan, approximately 55,000 new members were added to our Medicaid Expansion product in 2015. For these new members, our actual costs were ultimately less than expected.

10. Debt

As of June 30, 2016, contractual maturities of debt for the years ending December 31 are as follows:

	Total	2016	2017	2018	2019	2020	Thereafter
				(In millions)			
5.375% Notes	$ 700	$ —	$ —	$ —	$ —	$ —	$ 700
1.125% Convertible Notes	550	—	—	—	—	550	—
1.625% Convertible Notes (1)	302	—	—	—	—	—	302
	$ 1,552	$ —	$ —	$ —	$ —	$ 550	$ 1,002

(1) The 1.625% Notes have a contractual maturity date in 2044; however, on specified dates beginning in 2018 as described below, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes, or we may redeem any or all of the 1.625% Notes.

Substantially all of our debt is held at the parent, which is reported in the Other segment. The principal amounts, unamortized discount (net of premium related to the 1.625% Notes), unamortized issuance costs, and net carrying amounts of debt were as follows:

	Principal Balance	Unamortized Discount	Unamortized Issuance Costs	Net Carrying Amount
		(In millions)		
June 30, 2016:				
5.375% Notes	$ 700	$ —	$ 10	$ 690
1.125% Convertible Notes	550	84	6	460
1.625% Convertible Notes	302	20	4	278
	$ 1,552	$ 104	$ 20	$ 1,428
December 31, 2015:				
5.375% Notes	$ 700	$ —	$ 11	$ 689
1.125% Convertible Notes	550	95	7	448
1.625% Convertible Notes	302	25	4	273
Other	1	—	—	1
	$ 1,553	$ 120	$ 22	$ 1,411

Interest cost recognized relating to our convertible senior notes for the periods presented was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
	(In millions)			
Contractual interest coupon rate	$ 3	$ 3	$ 6	$ 6
Amortization of the discount	8	7	15	14
	$ 11	$ 10	$ 21	$ 20

5.375% Senior Notes due 2022. On November 10, 2015, we completed the private offering of $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, unless earlier redeemed. Interest is payable semiannually in arrears on May 15 and November 15. The 5.375% Notes are not convertible into our common stock or any other securities.

The 5.375% Notes are guaranteed by certain of our wholly owned subsidiaries. The 5.375% Notes and the guarantees are effectively subordinated to all existing and future secured debt of us and our guarantors to the extent of the assets securing such debt. In addition, the 5.375% Notes and the guarantees are structurally subordinated to all indebtedness and other liabilities and preferred stock of our subsidiaries that do not guarantee the 5.375% Notes.

We may redeem some or all of the 5.375% Notes at any time, and prior to August 15, 2022, at a price equal to 100% of the principal amount redeemed plus accrued and unpaid interest thereon, plus a "make-whole" premium. Thereafter, we may redeem some or all of the 5.375% Notes at a price equal to 100% of the principal amount redeemed plus accrued and unpaid interest thereon. The 5.375% Notes contain customary non-financial covenants and change of control provisions.

In connection with the issuance and sale of the 5.375% Notes, we entered into a registration rights agreement. Under this agreement, we will use commercially reasonable efforts to register substantially identical notes (the Exchange Notes) with the SEC in 2016. We will then offer such freely tradable Exchange Notes in exchange for the 5.375% Notes. We will pay additional interest on the 5.375% Notes if the Exchange Notes offering is not completed timely.

Credit Facility. In June 2015, we entered into an unsecured $250 million revolving credit facility (Credit Facility). The Credit Facility has a term of five years and all amounts outstanding will be due and payable on June 12, 2020. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $350 million. As of June 30, 2016, outstanding letters of credit amounting to $6 million reduced the borrowing capacity to $244 million, and no amounts were outstanding under the Credit Facility.

Borrowings under the Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. In addition to interest payable on the principal amount of indebtedness outstanding from time to time under the Credit Facility, we are required to pay a quarterly commitment fee.

Although the Credit Facility is not secured by any of our assets, certain of our wholly owned subsidiaries have jointly and severally guaranteed our obligations under the Credit Facility.

The Credit Facility contains customary non-financial and financial covenants, including a minimum fixed charge coverage ratio, a maximum debt-to-EBITDA ratio and minimum statutory net worth. At June 30, 2016, we were in compliance with all financial covenants under the Credit Facility.

1.125% Cash Convertible Senior Notes due 2020. In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes (1.125% Notes) due January 15, 2020, unless earlier repurchased or converted. Interest is payable semiannually in arrears on January 15 and July 15.

The 1.125% Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the 1.125% Notes; equal in right of payment to any of our unsecured indebtedness that is not subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities of our subsidiaries.

The 1.125% Notes are convertible only into cash, and not into shares of our common stock or any other securities. The initial conversion rate for the 1.125% Notes is 24.5277 shares of our common stock per $1,000 principal amount of the 1.125% Notes. This represents an initial conversion price of approximately $40.77 per share of our common stock. Upon conversion, in lieu of receiving shares of our common stock, a holder will receive an amount in cash, per $1,000 principal amount of 1.125% Notes, equal to the settlement amount, determined in the manner set forth in the indenture. We may not redeem the 1.125% Notes prior to the maturity date. Holders may convert their 1.125% Notes only under the following circumstances:

- during any calendar quarter (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;

- during the five business day period immediately after any five consecutive trading day period (the measurement period) in which the trading price per $1,000 principal amount of 1.125% Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day;

- upon the occurrence of specified corporate events; or

- at any time on or after July 15, 2019 until the close of business on the second scheduled trading day immediately preceding the maturity date.

The 1.125% Notes did not meet the stock price trigger in the quarter ended June 30, 2016; therefore the $460 million carrying amount was reclassified to long-term debt as of June 30, 2016.

The 1.125% Notes contain an embedded cash conversion option (the 1.125% Conversion Option), which was separated from the 1.125% Notes and accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the 1.125% Conversion Option settles or expires. The initial fair value liability of the 1.125% Conversion Option simultaneously reduced the carrying value of the 1.125% Notes (effectively an original issuance discount). This discount is amortized to the 1.125% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. This has resulted in our recognition of interest expense on the 1.125% Notes at an effective rate of approximately 6%. As of June 30, 2016, the 1.125% Notes have a remaining amortization period of 3.5 years. The 1.125% Notes' if-converted value exceeded their principal amount by approximately $180 million and $332 million as of June 30, 2016 and December 31, 2015, respectively.

1.625% Convertible Senior Notes due 2044. In September 2014, we issued $125 million principal amount of 1.625% convertible senior notes (1.625% Notes) due August 15, 2044, unless earlier repurchased, redeemed or converted. Combined with the 1.625% Notes issued in an exchange transaction in 2014, the aggregate principal amount of 1.625% Notes issued was $302 million.

Interest is payable semiannually in arrears on February 15 and August 15. In addition, beginning with the semiannual interest period commencing immediately following the interest payment date on August 15, 2018, contingent interest will accrue on the 1.625% Notes during any semiannual interest period in which certain conditions or events occur, or under certain events of default. For example, additional interest of 0.25% per year will be payable on the 1.625% Notes for any semiannual interest period for which the principal amount of 1.625% Notes outstanding is less than $100 million.

The 1.625% Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the 1.625% Notes; equal in right of payment to any of our unsecured indebtedness that is not subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of

the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities of our subsidiaries.

The initial conversion rate for the 1.625% Notes is 17.2157 shares of our common stock per $1,000 principal amount of the 1.625% Notes. This represents an initial conversion price of approximately $58.09 per share of our common stock. Upon conversion, we will pay cash and, if applicable, deliver shares of our common stock to the converting holder in an amount per $1,000 principal amount of 1.625% Notes equal to the settlement amount (as defined in the related indenture).

Holders may convert their 1.625% Notes only under the following circumstances:

- during any calendar quarter (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;
- during the five business day period after any five consecutive trading day period (the measurement period) in which the trading price per $1,000 principal amount of 1.625% Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day;
- upon the occurrence of specified corporate events;
- if we call any 1.625% Notes for redemption, at any time until the close of business on the business day immediately preceding the redemption date;
- during the period from, and including, May 15, 2018 to the close of business on the business day immediately preceding August 19, 2018; or
- at any time on or after February 15, 2044 until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert their 1.625% Notes, in integral multiples of $1,000 principal amount, at the option of the holder regardless of the foregoing circumstances.

As of June 30, 2016, the 1.625% Notes were not convertible.

We may not redeem the 1.625% Notes prior to August 19, 2018. On or after August 19, 2018, we may redeem all or part of the 1.625% Notes for cash, except for the 1.625% Notes we are required to repurchase in connection with a fundamental change or on any specified repurchase date. The redemption price for the 1.625% Notes will equal 100% of the principal amount of the 1.625% Notes being redeemed, plus accrued and unpaid interest. In addition, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes for cash on August 19, 2018, August 19, 2024, August 19, 2029, August 19, 2034 and August 19, 2039, in each case, at a specified price equal to 100% of the principal amount of the 1.625% Notes to be repurchased, plus accrued and unpaid interest.

Because the 1.625% Notes are net share settled and have cash settlement features, we have allocated the principal amount between a liability component and an equity component. The reduced carrying value on the 1.625% Notes resulted in a debt discount that is amortized back to the 1.625% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. The expected life of the debt is approximately four years, beginning on the issuance date and ending on the first date we may redeem the 1.625% Notes in August 2018. As of June 30, 2016, the 1.625% Notes have a remaining amortization period of 2.1 years. This has resulted in our recognition of interest expense on the 1.625% Notes at an effective rate approximating what we would have incurred had nonconvertible debt with otherwise similar terms been issued, or approximately 5%. The outstanding 1.625% Notes' if-converted value did not exceed their principal amount at June 30, 2016 and exceeded their principal amount at December 31, 2015 by approximately $10 million. At June 30, 2016 and December 31, 2015, the equity component of the 1.625% Notes, including the impact of deferred taxes, was $23 million.

11. Derivatives

The following table summarizes the fair values and the presentation of our derivative financial instruments (defined and discussed individually below) in the consolidated balance sheets:

	Balance Sheet Location	June 30, 2016	December 31, 2015
		(In millions)	
Derivative asset:			
1.125% Call Option	Current assets: Derivative asset	$ —	$ 374
	Non-current assets: Derivative asset	$ 226	$ —
Derivative liability:			
1.125% Conversion Option	Current liabilities: Derivative liability	$ —	$ 374
	Non-current liabilities: Derivative liability	$ 226	$ —

Our derivative financial instruments do not qualify for hedge treatment; therefore the change in fair value of these instruments is recognized immediately in our consolidated statements of income, and reported in other expense, net. Gains and losses for our derivative financial instruments are presented individually in the consolidated statements of cash flows, supplemental cash flow information.

1.125% Notes Call Spread Overlay. Concurrent with the issuance of the 1.125% Notes in 2013, we entered into privately negotiated hedge transactions (collectively, the 1.125% Call Option) and warrant transactions (collectively, the 1.125% Warrants), with certain of the initial purchasers of the 1.125% Notes (the Counterparties). We refer to these transactions collectively as the Call Spread Overlay. Under the Call Spread Overlay, the cost of the 1.125% Call Option we purchased to cover the cash outlay upon conversion of the 1.125% Notes was reduced by proceeds from the sale of the 1.125% Warrants. Assuming full performance by the Counterparties (and 1.125% Warrants strike prices in excess of the conversion price of the 1.125% Notes), these transactions are intended to offset cash payments in excess of the principal amount of the 1.125% Notes due upon any conversion of the 1.125% Notes.

1.125% Call Option. The 1.125% Call Option, which is indexed to our common stock, is a derivative asset that requires mark-to-market accounting treatment due to cash settlement features until the 1.125% Call Option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Call Option, refer to Note 5, "Fair Value Measurements."

1.125% Conversion Option. The embedded cash conversion option within the 1.125% Notes is accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the cash conversion option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Conversion Option, refer to Note 5, "Fair Value Measurements."

As of June 30, 2016, the 1.125% Call Option and the 1.125% Conversion Option were classified as a non-current asset and non-current liability, respectively, because the 1.125% Notes may not be converted within 12 months of June 30, 2016, as described in Note 10, "Debt."

12. Stockholders' Equity

Stockholders' equity increased $84 million during the six months ended June 30, 2016 compared with stockholders' equity at December 31, 2015. The increase was primarily due to net income of $57 million, $8 million of other comprehensive income and $19 million related to employee stock transactions.

1.125% Warrants. In connection with the Call Spread Overlay transaction described in Note 11, "Derivatives," in 2013, we issued 13,490,236 warrants with a strike price of $53.8475 per share. The number of warrants and the strike price are subject to adjustment under certain circumstances. If the market value per share of our common stock exceeds the strike price of the 1.125% Warrants on any trading day during the 160 trading day measurement period (beginning on April 15, 2020) under the 1.125% Warrants, we will be obligated to issue to the Counterparties a number of shares equal in value to the product of the amount by which such market value exceeds such strike price and 1/160th of the aggregate number of shares of our common stock underlying the 1.125% Warrants, subject to a share delivery cap. The 1.125% Warrants could separately have a dilutive effect to the extent that the market value per share of our common stock exceeds the applicable strike price of the 1.125% Warrants. Refer to Note 3, "Net Income per Share," for dilution information for the periods presented. We will not receive any additional proceeds if the 1.125% Warrants are exercised.

Securities Repurchase Program. Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Stock Incentive Plans. In connection with our equity incentive plans and employee stock purchase plan, approximately 446,000 shares of common stock vested, net of shares used to settle employees' income tax obligations, during the six months ended June 30, 2016.

Charged to general and administrative expenses, total share-based compensation expense was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
	(In millions)			
Restricted stock and performance awards	$ 8	$ 2	$ 13	$ 7
Employee stock purchase plan and stock options	1	1	3	2
	$ 9	$ 3	$ 16	$ 9

As of June 30, 2016, there was $45 million of total unrecognized compensation expense related to unvested restricted share awards, including those with performance conditions, which we expect to recognize over a remaining weighted-average period of 1.8 years. This unrecognized compensation cost assumes an estimated forfeiture rate of 4.3% for non-executive employees as of June 30, 2016.

Restricted stock. Restricted and performance stock activity for the six months ended June 30, 2016 is summarized below:

	Shares	Weighted Average Grant Date Fair Value
	(In thousands)	
Unvested balance as of December 31, 2015	1,035	$ 46.68
Granted	505	64.22
Vested	(329)	41.45
Forfeited	(19)	52.01
Unvested balance as of June 30, 2016	1,192	55.47

The total fair value of restricted and performance awards granted during the six months ended June 30, 2016 and 2015 was $32 million and $27 million, respectively. The total fair value of restricted awards, including those with performance and market conditions, which vested during the six months ended June 30, 2016 and 2015 was $21 million and $24 million, respectively.

As of June 30, 2016, there were approximately 603,000 unvested restricted shares outstanding which contained one or more performance measures. In the event the vesting conditions are not achieved, the awards will lapse. Based on our assessment as of June 30, 2016, we expect the performance conditions for approximately 425,000 of these outstanding restricted share awards to be met in full.

13. Segment Information

We have three reportable segments. These segments include our Health Plans and Molina Medicaid Solutions segments, which comprise the vast majority of our operations, and our Other segment. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015, which is reported in Other.

Our reportable segments are consistent with how we currently manage the business and view the markets we serve. The Health Plans segment consists of our health plans and our direct delivery business. Our health plans are operating segments that have been aggregated for reporting purposes because they share similar economic characteristics. The Molina Medicaid Solutions segment provides Medicaid management information system (MMIS) design, development, and implementation; business process outsourcing solutions; hosting services; and information technology support services to state Medicaid agencies. Our Other segment includes other businesses, such as our Pathways behavioral health and social services provider, that do not meet the quantitative thresholds for a reportable segment as defined by GAAP, as well as corporate amounts not allocated to other reportable segments.

Gross margin is the appropriate earnings measure for our reportable segments, based on how our chief operating decision maker currently reviews results, assesses performance, and allocates resources.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." Medical margin represents the amount earned by the Health Plans segment after medical costs are deducted from premium revenue. The medical care ratio represents the amount of medical care costs as a percentage of premium revenue, and is one of the key metrics used to assess the performance of the Health Plans segment. Therefore, the underlying medical margin is the most important measure of earnings reviewed by the chief operating decision maker. The service margin is equal to service revenue minus cost of service revenue.

	Health Plans	Molina Medicaid Solutions	Other	Consolidated
		(In millions)		
Three Months Ended June 30, 2016				
Total revenue (1)	$ 4,223	$ 46	$ 90	$ 4,359
Gross margin	435	5	14	454
Six Months Ended June 30, 2016				
Total revenue (1)	$ 8,424	$ 98	$ 180	$ 8,702
Gross margin	842	11	21	874
Three Months Ended June 30, 2015				
Total revenue (1)	$ 3,477	$ 47	$ 1	$ 3,525
Gross margin	375	14	—	389
Six Months Ended June 30, 2015				
Total revenue (1)	$ 6,593	$ 99	$ 4	$ 6,696
Gross margin	710	30	—	740
Total Assets				
June 30, 2016	$ 5,521	$ 252	$ 1,429	$ 7,202
December 31, 2015	4,707	213	1,656	6,576

(1) Total revenue consists primarily of premium revenue for the Health Plans segment, and service revenue for the Molina Medicaid Solutions and Other segments.

The following table reconciles gross margin by segment to consolidated income before income tax expense:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
	(In millions)			
Gross margin:				
Health Plans	$ 435	$ 375	$ 842	$ 710
Molina Medicaid Solutions	5	14	11	30
Other	14	—	21	—
Total gross margin	454	389	874	740
Add: other operating revenues (1)	195	174	403	322
Less: other operating expenses (2)	(544)	(447)	(1,083)	(864)
Operating income	105	116	194	198
Other expenses, net	(25)	(15)	(50)	(30)
Income before income tax expense	$ 80	$ 101	$ 144	$ 168

_____

(1) Other operating revenues include premium tax revenue, health insurer fee revenue, investment income and other revenue.

(2) Other operating expenses include general and administrative expenses, premium tax expenses, health insurer fee expenses and depreciation and amortization.

14. Commitments and Contingencies

Legal Proceedings. The health care and business process outsourcing industries are subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly funded programs, and the repayment of previously billed and collected revenues.

We are involved in legal actions in the ordinary course of business, some of which seek monetary damages, including claims for punitive damages, which are not covered by insurance. We have accrued liabilities for certain matters for which we deem the loss to be both probable and estimable. Although we believe that our estimates of such losses are reasonable, these estimates could change as a result of further developments of these matters. The outcome of legal actions is inherently uncertain and such pending matters for which accruals have not been established have not progressed sufficiently through discovery and/or development of important factual information and legal issues to enable us to estimate a range of possible loss, if any. While it is not possible to accurately predict or determine the eventual outcomes of these items, an adverse determination in one or more of these pending matters could have a material adverse effect on our consolidated financial position, results of operations, or cash flows.

State of Louisiana. On June 26, 2014, the state of Louisiana filed a Petition for Damages against Molina Medicaid Solutions, Molina Healthcare, Inc., Unisys Corporation, and Paramax Systems Corporation, a subsidiary of Unisys, in the Parish of Baton Rouge, 19th Judicial District, versus number 631612. The Petition alleges that between 1989 and 2012, the defendants utilized an incorrect reimbursement formula for the payment of pharmaceutical claims. We believe we have several meritorious defenses to the claims of the state, and any liability for the alleged claims is not currently probable and is not reasonably estimable.

United States of America, ex rel., Anita Silingo v. Mobile Medical Examination Services, Inc., et al. On or around October 14, 2014, Molina Healthcare of California, Molina Healthcare of California Partner Plan, Inc., Mobile Medical Examination Services, Inc. (MedXM), and other health plan defendants were served with a Complaint previously filed under seal in the Central District Court of California by Relator, Anita Silingo, Case No. SACV13-1348-FMO(SHx). The Complaint alleges that MedXM improperly modified medical records and otherwise took inappropriate steps to increase members' risk adjustment scores, and that the defendants, including Molina Healthcare of California and Molina Healthcare of California Partner Plan, Inc., purportedly turned a "blind eye" to these unlawful practices. On October 22, 2015, the Relator filed a third amended complaint. On July 11, 2016, the District Court dismissed with prejudice the third amended complaint, without leave to amend, thereby concluding this litigation.

Rodriguez v. Providence Community Corrections. On October 1, 2015, seven individuals, on behalf of themselves and all others similarly situated, filed a complaint in the District Court for the Middle District of Tennessee, Nashville Division, Case No. 3:15-cv-01048 (the "Rodriquez Litigation"), against Providence Community Corrections, Inc. (now known as Pathways Community Corrections, Inc., or "PCC"). Rutherford County, Tennessee formerly contracted with PCC for the administration of misdemeanor probation, which involved the collection of court costs and fees from probationers. The complaint alleges, among other things, that PCC illegally assessed fees and surcharges against probationers and made improper threats of arrest and probation revocation if the probationers did not pay such amounts. The plaintiffs in the Rodriguez Litigation seek alleged compensatory, treble, and punitive damages, plus attorneys' fees, for alleged federal and state constitutional violations, as well as alleged violations of the Racketeer Influenced and Corrupt Organization Act. PCC's agreement with Rutherford County terminated effective December 29, 2015. On November 1, 2015, one month after the Rodriguez Litigation had been commenced, we acquired PCC from The Providence Service Corporation ("Providence") pursuant to a membership interest purchase agreement. We have notified Providence that, for its failure to disclose the Rodriguez Litigation, we intend to seek indemnification from Providence under the membership interest purchase agreement for any liability arising from the Rodriguez Litigation.

Provider Claims. Many of our medical contracts are complex in nature and may be subject to differing interpretations regarding amounts due for the provision of various services. Such differing interpretations have led certain medical providers to pursue us for additional compensation. The claims made by providers in such circumstances often involve issues of contract compliance, interpretation, payment methodology, and intent. These claims often extend to services provided by the providers over a number of years.

Various providers have contacted us seeking additional compensation for claims that we believe to have been settled. These matters, when finally concluded and determined, will not, in our opinion, have a material adverse effect on our business, consolidated financial position, results of operations, or cash flows.

States' Budgets. From time to time, the states in which our health plans operate may experience financial difficulties, which could lead to delays in premium payments. It has been our practice in the past to continue to serve our members and pay health care providers for services rendered in circumstances where state (or Commonwealth) governments are temporarily unable to pay us, so long as we continue to believe that such state (or Commonwealth) governments will ultimately pay us.

Regulatory Capital and Dividend Restrictions. Our health plans, which are operated by our respective wholly owned subsidiaries in those states, are subject to state laws and regulations that, among other things, require the maintenance of minimum levels of statutory capital, as defined by each state. Regulators in some states may also attempt to enforce capital requirements upon us that require the retention of net worth in excess of amounts formally required by statute or regulation. Such statutes, regulations and informal capital requirements also restrict the timing, payment, and amount of dividends and other distributions that may be paid to us as the sole stockholder. To the extent our subsidiaries must comply with these regulations, they may not have the financial flexibility to transfer funds to us.

Based on current statutes and regulations, the net assets in these subsidiaries (after intercompany eliminations) which may not be transferable to us in the form of loans, advances, or cash dividends was approximately $1,299 million at June 30, 2016, and $1,229 million at December 31, 2015. Because of the statutory restrictions that inhibit the ability of our health plans to transfer net assets to us, the amount of retained earnings readily available to pay dividends to our stockholders is generally limited to cash, cash equivalents and investments held by the parent company – Molina Healthcare, Inc. Such cash, cash equivalents and investments amounted to $466 million and $612 million as of June 30, 2016 and December 31, 2015, respectively.

The National Association of Insurance Commissioners (NAIC) adopted rules effective December 31, 1998, which, if implemented by the states, set minimum capitalization requirements for insurance companies, HMOs, and other entities bearing risk for health care coverage. The requirements take the form of risk-based capital (RBC) rules which may vary from state to state.

As of June 30, 2016, our health plans had aggregate statutory capital and surplus of approximately $1,384 million compared with the required minimum aggregate statutory capital and surplus of approximately $854 million. All of our health plans were in compliance with the minimum capital requirements at June 30, 2016. We have the ability and commitment to provide additional capital to each of our health plans when necessary to ensure that statutory capital and surplus continue to meet regulatory requirements.

15. Related Party Transactions

Our California health plan has entered into a provider agreement with Pacific Healthcare IPA (Pacific), which is 50% owned by the brother-in-law of Dr. J. Mario Molina, our Chief Executive Officer, and John C. Molina, our Chief Financial Officer. Under the terms of this provider agreement, the California health plan pays Pacific for medical care Pacific provides to health plan members. For the three and six months ended June 30, 2016 and 2015, the amounts paid to Pacific were insignificant.

Refer to Note 16, "Variable Interest Entities (VIEs)," for a discussion of the Joseph M. Molina, M.D. Professional Corporations.

16. Variable Interest Entities (VIEs)

Joseph M. Molina M.D., Professional Corporations

The Joseph M. Molina, M.D. Professional Corporations (JMMPC) were created to further advance our direct delivery business. JMMPC's primary shareholder is Dr. J. Mario Molina, our chief executive officer, president, and chairman of the board of directors. Dr. Molina is paid no salary and receives no dividends in connection with his work for, or ownership of, JMMPC. JMMPC provides primary care medical services through its employed physicians and other medical professionals. JMMPC also provides certain specialty referral services to our California health plan members through a contracted provider network. Substantially all of the individuals served by JMMPC are members of our health plans. JMMPC does not have agreements to provide professional medical services with any other entities.

Our wholly owned subsidiary, Molina Medical Management, Inc. (MMM), has entered into services agreements with JMMPC to provide clinic facilities, clinic administrative support staff, patient scheduling services and medical supplies to JMMPC. The services agreements were designed such that JMMPC will operate at break even, ensuring the availability of quality care and access for our health plan members. The services agreements provide that the administrative fees charged to JMMPC by MMM are reviewed annually to assure the achievement of this goal.

Separately, our California, Florida, New Mexico, Utah and Washington health plans have entered into primary care services agreements with JMMPC. These agreements direct our health plans to perform a monthly reconciliation, to either fund

JMMPC's operating deficits, or receive JMMPC's operating surpluses, such that JMMPC will derive no profit or loss. Because the MMM services agreements described above mitigate the likelihood of significant operating deficits or surpluses, such monthly reconciliation amounts are generally insignificant. For the three months ended June 30, 2016 and 2015, our health plans paid $31 million and $27 million, respectively, to JMMPC for health care services provided by JMMPC to the health plans' members. For the six months ended June 30, 2016 and 2015, our health plans paid $61 million and $52 million, respectively, to JMMPC for health care services provided by JMMPC to the health plans' members.

We have determined that JMMPC is a VIE, and that we are its primary beneficiary. We have reached this conclusion under the power and benefits criterion model according to GAAP. Specifically, we have the power to direct the activities that most significantly affect JMMPC's economic performance, and the obligation to absorb losses or right to receive benefits that are potentially significant to the VIE, under the agreements described above. Because we are its primary beneficiary, we have consolidated JMMPC. JMMPC's assets may be used to settle only JMMPC's obligations, and JMMPC's creditors have no recourse to the general credit of Molina Healthcare, Inc. As of June 30, 2016, JMMPC had total assets of $13 million, and total liabilities of $13 million. As of December 31, 2015, JMMPC had total assets of $17 million, and total liabilities of $17 million.

Our maximum exposure to loss as a result of our involvement with JMMPC is generally limited to the amounts needed to fund JMMPC's ongoing payroll, employee benefits and medical care costs associated with JMMPC's specialty referral activities. We believe that such loss exposures will be immaterial to our consolidated operating results and cash flows for the foreseeable future.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements regarding our business, financial condition, and results of operations within the meaning of Section 27A of the Securities Act of 1933, or Securities Act, and Section 21E of the Securities Exchange Act of 1934, or Securities Exchange Act. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we are including this statement for purposes of complying with these safe harbor provisions. All statements, other than statements of historical facts, included in this quarterly report may be deemed to be forward-looking statements for purposes of the Securities Act and the Securities Exchange Act. Without limiting the foregoing, we use the words "anticipate(s)," "believe(s)," "estimate(s)," "expect(s)," "intend(s)," "may," "plan(s)," "project(s)," "will," "would," "could," "should" and similar expressions to identify forward-looking statements, although not all forward-looking statements contain these identifying words. We cannot guarantee that we will actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements and, accordingly, you should not place undue reliance on our forward-looking statements. There are a number of important factors that could cause actual results or events to differ materially from the forward-looking statements that we make. You should read these factors and the other cautionary statements as being applicable to all related forward-looking statements wherever they appear in this Quarterly Report. We caution you that we do not undertake any obligation to update forward-looking statements made by us. Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected, estimated, expected, or contemplated. Those known risks and uncertainties include, but are not limited to, the following:

- the success of our profit improvement and cost-cutting initiatives;
- uncertainties and evolving market and provider economics associated with the implementation of the Affordable Care Act (the "ACA"), the Medicaid expansion, the insurance marketplaces, the effect of various implementing regulations, and uncertainties regarding the Medicare-Medicaid dual eligible demonstration programs in California, Illinois, Michigan, Ohio, South Carolina, and Texas;
- management of our medical costs, including our ability to reduce over time the high medical costs commonly associated with new patient populations;
- our ability to predict with a reasonable degree of accuracy utilization rates, including utilization rates in new plans, geographies, and programs where we have less experience with patient and provider populations, and also including utilization rates associated with seasonal flu patterns or other newly emergent diseases;
- our ability to manage growth, including maintaining and creating adequate internal systems and controls relating to authorizations, approvals, provider payments, and the overall success of our care management initiatives designed to control costs;
- our receipt of adequate premium rates to support increasing pharmacy costs, including costs associated with specialty drugs and costs resulting from formulary changes that allow the option of higher-priced non-generic drugs;
- our ability to operate profitably in an environment where the trend in premium rate increases lags behind the trend in increasing medical costs;
- the interpretation and implementation of federal or state medical cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit sharing arrangements, and risk adjustment provisions;
- the interpretation and implementation of at-risk premium rules regarding the achievement of certain quality measures, and our ability to recognize revenue amounts associated therewith;
- the interpretation and implementation of state contract performance requirements regarding the achievement of certain quality measures, and our ability to avoid liquidated damages associated therewith;
- cyber-attacks or other privacy or data security incidents resulting in an inadvertent unauthorized disclosure of protected health information;
- the success of our health plan in Puerto Rico, including the resolution of the Puerto Rico debt crisis, payment of all amounts due under our Medicaid contract, the effect of the newly enacted PROMESA law, and our efforts to better manage the health care costs of our Puerto Rico health plan;
- significant budget pressures on state governments and their potential inability to maintain current rates, to implement expected rate increases, or to maintain existing benefit packages or membership eligibility thresholds or criteria, including the resolution of the Illinois budget impasse and continued payment of all amounts due to our Illinois health plan;
- the accurate estimation of incurred but not reported or paid medical costs across our health plans;
- subsequent adjustments to reported premium revenue based upon subsequent developments or new information, including changes to estimated amounts due to or receivable from CMS under the ACA's "three R's" marketplace premium stabilization programs;
- efforts by states to recoup previously paid amounts, including our dispute with the state of New Mexico related to reimbursement for retroactively enrolled members in 2014;

- the success of our efforts to retain existing government contracts and to obtain new government contracts in connection with state requests for proposals (RFPs) in both existing and new states;
- the continuation and renewal of the government contracts of our health plans, Molina Medicaid Solutions, and Pathways, and the terms under which such contracts are renewed;
- complications, member confusion, or enrollment backlogs related to the annual renewal of Medicaid coverage;
- government audits and reviews, and any fine, enrollment freeze, or monitoring program that may result therefrom;
- changes with respect to our provider contracts and the loss of providers;
- approval by state regulators of dividends and distributions by our health plan subsidiaries;
- changes in funding under our contracts as a result of regulatory changes, programmatic adjustments, or other reforms;
- high dollar claims related to catastrophic illness;
- the favorable resolution of litigation, arbitration, or administrative proceedings;
- the relatively small number of states in which we operate health plans;
- the effect on our Los Angeles County subcontract of Centene Corporation's acquisition of Health Net Inc.;
- the availability of adequate financing on acceptable terms to fund and capitalize our expansion and growth, repay our outstanding indebtedness at maturity and meet our liquidity needs, including the interest expense and other costs associated with such financing;
- the failure of a state in which we operate to renew its federal Medicaid waiver;
- changes generally affecting the managed care or Medicaid management information systems industries;
- increases in government surcharges, taxes, and assessments, including but not limited to the deductibility of certain compensation costs;
- newly emergent viruses or widespread epidemics, including the Zika virus, public catastrophes or terrorist attacks, and associated public alarm;
- changes in general economic conditions, including unemployment rates;
- the sufficiency of our funds on hand to pay the amounts due upon conversion of our outstanding notes; and
- increasing competition and consolidation in the Medicaid industry.

Investors should refer to Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 and Part II, Item 1A of this Quarterly Report on Form 10-Q, for a discussion of certain risk factors that could materially affect our business, financial condition, cash flows, or results of operations. Given these risks and uncertainties, we can give no assurance that any results or events projected or contemplated by our forward-looking statements will in fact occur.

This document and the following discussion of our financial condition and results of operations should be read in conjunction with the accompanying consolidated financial statements and the notes to those statements appearing elsewhere in this report, and the audited financial statements and Management's Discussion and Analysis appearing in our Annual Report on Form 10-K for the year ended December 31, 2015.

Company Overview

Molina Healthcare, Inc. provides quality health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments include our Health Plans and Molina Medicaid Solutions segments, which comprise the vast majority of our operations, and our Other segment. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015, which is reported in Other. All prior periods reported conform to this presentation.

Update on 2016 Financial Performance

Second Quarter 2016 Compared With First Quarter 2016

Second quarter 2016 financial performance improved significantly when compared with the first quarter of 2016. Earnings per diluted share increased to $0.58 in the second quarter of 2016 from $0.43 in the first quarter. Adjusted earnings per diluted share increased to $0.67 in the second quarter of 2016 from $0.51 in the first quarter.

Higher profitability in the second quarter was primarily the result of improvements at the Ohio and Texas health plans. The medical care ratio of the Ohio health plan decreased to 89.7% in the second quarter of 2016 from 92.0% in the first quarter. The medical care ratio of the Texas health plan decreased to 78.5% in the second quarter of 2016 from 92.8% in the first quarter. Even without the benefit of out-of-period quality revenue adjustments discussed below, the medical care ratio of the Texas health plan would have been approximately 85.3% in the second quarter, still well under the 92.8% medical care ratio reported in the first quarter.

In total, out-of-period adjustments related to 2015 dates of service were not significant to second quarter performance. Out-of-period adjustments were significant, however, on a geographic and program basis. Out-of-period adjustments were the result of changes in accounting estimates made as new information became available to the Company. The table below will help the reader to understand the discussion that follows.

Summary of Significant Out-of-Period Adjustments Affecting 2016 Financial Results

	Three Months Ended June 30, 2016		Six Months Ended June 30, 2016	
	(In millions, except per diluted share amounts)			
	Amount	Per diluted share	Amount	Per diluted share
Marketplace adjustments for 2015 dates of service	$ (37)	$ (0.42)	$ (68)	$ (0.76)
Texas quality revenue adjustment for 2014/2015 dates of service	44	0.50	44	0.49
Texas quality revenue adjustment for 1Q 2016 dates of service	7	0.08	N/A	N/A
Puerto Rico premium revenue adjustment for 2015 dates of service	(11)	(0.12)	(11)	(0.12)
Florida premium revenue adjustment for 2014/2015 dates of service	—	—	18	0.20
Total out-of-period adjustments, net	$ 3	$ 0.04	$ (17)	$ (0.19)

Out-of-period adjustments increased pretax income by approximately $3 million in the second quarter of 2016. Specifically:

- Adjustments related to 2015 dates of service reduced Marketplace pretax income by approximately $37 million in the second quarter. On June 30, 2016, the Centers for Medicare and Medicaid Services released the final update on risk adjustment and reinsurance payments for the 2015 benefit year, and we adjusted our accruals accordingly.
- During the second quarter, we were informed by the Texas Department of Health and Human Services that it will not recoup any quality revenue for calendar years 2014, 2015, and 2016. Therefore, we recognized previously deferred quality revenue amounting to approximately $51 million in the second quarter of 2016. Of the $51 million adjustment, $44 million related to 2015 and 2014 dates of service, and $7 million related to the first quarter of 2016.
- Reductions to revenue previously recorded for 2015 dates of service in Puerto Rico decreased pretax income by approximately $11 million in the second quarter.

Understanding the First Half of 2016

We reported pretax income of $144 million for the first half of 2016. These results were affected by several out-of-period adjustments related to dates of service in 2015 and 2014. In total, these adjustments reduced pretax income in the first half of 2016 by approximately $17 million. Specifically:

- Adjustments related to 2015 dates of service reduced Marketplace pretax income by approximately $68 million in the first half of 2016. We now estimate that the medical care ratio for our Marketplace program for all of 2015 was approximately 80%. Through June 30, 2016, the medical care ratio of our Marketplace program for months of service in the first half of 2016 alone (exclusive of out-of-period adjustments) was approximately 78%.
- As described above, the recognition of Texas quality revenue associated with calendar years 2014 and 2015 increased pretax income in the first half of 2016 by approximately $44 million.
- Also as noted above, reductions to 2015 premium revenue in Puerto Rico reduced pretax income by approximately $11 million in the first half of 2016.
- Retroactive adjustments to premium revenue in Florida for dates of service in 2014 and 2015 increased pretax income by approximately $18 million in the first half of 2016. Prior to reporting first quarter 2016 results, we were informed by the Florida Agency for Health Care Administration that we were due a retroactive increase to Medicaid premium revenue relating to dates of service prior to 2016. We reported this development in our first quarter 2016 results.

Management Expectations Regarding the Second Half of 2016

We expect the following factors, among others, to affect our financial performance in the second half of 2016:

- The ultimate savings to be realized from various cost savings initiatives and the speed at which such savings will be realized.
- Medicaid rate increases (excluding Medicaid Expansion) of approximately 3.0% in California (effective July 1, 2016); approximately 2.5% in Puerto Rico (effective July 1, 2016); and approximately 3.0% in Texas (effective September 1, 2016). All rate changes are consistent with our previous expectations.
- Medicaid Expansion rate decreases of approximately 11.0% in California (effective July 1, 2016) and approximately 2.0% in Ohio (effective July 1, 2016). All rate changes are consistent with our previous expectations.
- The implementation of a medical care ratio floor of 86.0% for the South Carolina Medicaid program effective July 1, 2016.
- Declining margins for our Marketplace business during the second half of 2016 due to normal membership attrition; the addition of higher cost members through the special enrollment process; higher costs as members reach the limits of the cost-sharing provisions of their insurance coverage; and increasing utilization as members become more engaged with our care networks. This is consistent with our previous expectations.

Market Updates

Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 1, "Basis of Presentation," for a discussion of the current year market updates.

Understanding Our Business

Health Plans Segment

Our Health Plans segment consists of health plans in 11 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of June 30, 2016, these health plans served 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. Additionally, we serve Health Insurance Marketplace (Marketplace) members, most of whom receive government premium subsidies.

Health Plan Segment Membership by Health Plan and Program. The following tables set forth our Health Plans membership as of the dates indicated:

	June 30, 2016	March 31, 2016	December 31, 2015	June 30, 2015
Ending Membership by Health Plan:				
California	680,000	676,000	620,000	593,000
Florida	565,000	576,000	440,000	348,000
Illinois	201,000	206,000	98,000	101,000
Michigan	393,000	399,000	328,000	260,000
New Mexico	251,000	246,000	231,000	225,000
Ohio	341,000	336,000	327,000	332,000
Puerto Rico	336,000	339,000	348,000	361,000
South Carolina	105,000	102,000	99,000	114,000
Texas	367,000	380,000	260,000	266,000
Utah	151,000	151,000	102,000	92,000
Washington	709,000	672,000	582,000	553,000
Wisconsin	134,000	137,000	98,000	107,000
	4,233,000	4,220,000	3,533,000	3,352,000
Ending Membership by Program:				
Temporary Assistance for Needy Families (TANF) and Children's Health Insurance Program (CHIP)	2,500,000	2,485,000	2,312,000	2,180,000
Medicaid Expansion	654,000	632,000	557,000	475,000
Marketplace	597,000	630,000	205,000	261,000
Aged, Blind or Disabled (ABD)	387,000	380,000	366,000	353,000
Medicare-Medicaid Plan (MMP) – Integrated (1)	51,000	50,000	51,000	39,000
Medicare Special Needs Plans (Medicare)	44,000	43,000	42,000	44,000
	4,233,000	4,220,000	3,533,000	3,352,000

(1) MMP members who receive both Medicaid and Medicare coverage from Molina Healthcare.

Health Plan Segment Premiums by Program. The amount of the premiums paid to our health plans may vary substantially between states and among various government programs. The following table sets forth the ranges of premiums paid to our state health plans by program on a per-member per-month (PMPM) basis, for the six months ended June 30, 2016. The "Consolidated" column represents the weighted-average amounts for our total membership by program.

	PMPM Premiums		
	Low	High	Consolidated
TANF and CHIP	$ 120.00	$ 290.00	$ 180.00
Medicaid Expansion	310.00	490.00	370.00
Marketplace	170.00	350.00	230.00
ABD	400.00	1,530.00	980.00
MMP – Integrated	970.00	3,190.00	2,160.00
Medicare	790.00	1,080.00	1,010.00

Health Plan Segment Medical Care Costs by Type. The following table provides the details of consolidated medical care costs by type for the periods indicated (dollars in millions except PMPM amounts):

	Three Months Ended June 30,					
	2016			2015		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee for service	$ 2,620	$ 206.01	72.9%	$ 2,103	$ 209.34	71.8%
Pharmacy	529	41.59	14.7	392	39.01	13.3
Capitation	304	23.87	8.5	248	24.72	8.5
Direct delivery	18	1.39	0.5	27	2.78	1.0
Other	123	9.68	3.4	159	15.80	5.4
	$ 3,594	$ 282.54	100.0%	$ 2,929	$ 291.65	100.0%

	Six Months Ended June 30,					
	2016			2015		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee for service	$ 5,357	$ 213.77	74.6%	$ 4,051	$ 217.05	72.8%
Pharmacy	1,054	42.05	14.7	743	39.81	13.4
Capitation	599	23.87	8.3	465	24.90	8.3
Direct delivery	34	1.36	0.5	54	2.93	1.0
Other	138	5.52	1.9	252	13.49	4.5
	$ 7,182	$ 286.57	100.0%	$ 5,565	$ 298.18	100.0%

Molina Medicaid Solutions Segment

Our Molina Medicaid Solutions segment provides business processing and information technology development and administrative services to Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and drug rebate administration services in Florida. Operations in each of those jurisdictions are performed pursuant to separate contracts with each respective Medicaid agency.

Other Segment

Our Other segment includes other businesses, such as our Pathways behavioral health and social services provider that do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to the other reportable segments.

How We Assess Performance

One of the key metrics used to assess the performance of our most significant segment, the Health Plans segment, is the medical care ratio. The medical care ratio represents the amount of medical care costs as a percentage of premium revenue. Therefore, the underlying gross margin, or the amount earned by the Health Plans segment after medical costs are deducted from premium revenue, is the most important measure of earnings reviewed by management.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." The service margin is equal to service revenue minus cost of service revenue. The following table presents gross margin for our segments. Management's discussion and analysis of the changes in the individual components of gross margin, by reportable segment, is presented below under Results of Operations.

	Three Months Ended June 30,				Six Months Ended June 30,			
	2016	2015	$ Change	% Change	2016	2015	$ Change	% Change
	(In millions)				(In millions)			
Health Plans:								
Premium revenue	$ 4,029	$ 3,304	$ 725	22 %	$ 8,024	$ 6,275	$ 1,749	28 %
Less: medical care costs	3,594	2,929	665	23	7,182	5,565	1,617	29
Medical margin	$ 435	$ 375	$ 60	16 %	$ 842	$ 710	$ 132	19 %
Medical care ratio	89.2%	88.7%			89.5%	88.7%		
Molina Medicaid Solutions:								
Service revenue	$ 46	$ 47	$ (1)	(2)%	$ 98	$ 99	$ (1)	(1)%
Less: cost of service revenue	41	33	8	24	87	69	18	26
Service margin	$ 5	$ 14	$ (9)	(64)%	$ 11	$ 30	$ (19)	(63)%
Service cost ratio	89.5%	69.5%			89.1%	69.3%		
Other:								
Service revenue	$ 89	$ —			$ 177	$ —		
Less: cost of service revenue	75	—			156	—		
Service margin	$ 14	$ —			$ 21	$ —		
Service cost ratio	84.6%	—%			88.3%	—%		

Our Use of Non-GAAP Financial Measures

We use two non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry. These non-GAAP financial measures should be considered as supplements to, and not as substitutes for or superior to, GAAP measures. The year over year changes for the individual components of both of these measures are described below in Results of Operations.

The first of these non-GAAP measures is earnings before interest, taxes, depreciation and amortization (EBITDA). We believe that EBITDA is particularly helpful in assessing our ability to meet the cash demands of our operating units. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to EBITDA.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
	(In millions)			
Net income	$ 33	$ 39	$ 57	$ 67
Adjustments:				
Depreciation, and amortization of intangible assets and capitalized software	39	29	76	58
Interest expense	25	15	50	30
Income tax expense	47	62	87	101
EBITDA	$ 144	$ 145	$ 270	$ 256

The second of these non-GAAP measures is adjusted net income (including adjusted net income per diluted share). We believe that adjusted net income per diluted share is very helpful in assessing our financial performance exclusive of the non-cash impact of the amortization of purchased intangibles. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to adjusted net income.

	Three Months Ended June 30,				Six Months Ended June 30,			
	2016		2015		2016		2015	
	(In millions, except diluted per-share amounts)							
Net income	$ 33	$ 0.58	$ 39	$ 0.72	$ 57	$ 1.01	$ 67	1.29
Adjustment, net of tax:								
Amortization of intangible assets	5	0.09	3	0.05	10	0.17	6	0.10
Adjusted net income (1)	$ 38	$ 0.67	$ 42	$ 0.77	$ 67	$ 1.18	$ 73	$ 1.39

(1) Beginning in the first quarter of 2016, we revised our calculation of adjusted net income. We no longer subtract "Amortization of convertible senior notes and lease financing obligations" from net income to arrive at adjusted net income. We made this change because various capital transactions completed in 2015 reduced our relative reliance on convertible notes and lease financing as sources of capital. We believe that this change enhances the comparability of these non-GAAP measures with the corresponding non-GAAP measures used by our competitors. All periods presented conform to this presentation.

Results of Operations

Health Plans Segment

Three Months Ended June 30, 2016 Compared with Three Months Ended June 30, 2015

Strong enrollment growth generated approximately $725 million, or 22% more premium revenue in the second quarter of 2016 compared with the second quarter of 2015. Enrollment growth was primarily due to increased Marketplace enrollment, and acquisitions that added Medicaid membership. Consolidated premium revenue measured on a PMPM basis decreased approximately 4% in the second quarter of 2016 when compared with the second quarter of 2015. The decline in PMPM premium revenue was primarily the result of lower PMPM premiums for Medicaid Expansion membership and an increase in the percentage of our premium revenue derived from TANF and Marketplace membership.

The medical care ratio increased to 89.2% in the second quarter of 2016, from 88.7% in the second quarter of 2015. The increase in our medical care ratio was driven by lower percentage margins for TANF, Medicaid Expansion and Marketplace membership. Consolidated medical care costs measured on a PMPM basis decreased approximately 3% in the second quarter of 2016 when compared with the second quarter of 2015. The PMPM decrease in medical care costs, which was primarily related to increased Marketplace membership, was more than offset by the declines in PMPM revenue as described above.

Financial Performance by Program. The following tables present the components of premium revenue and medical care costs by program (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions).

	Three Months Ended June 30, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	7.5	$ 1,302	$ 173.57	$ 1,202	$ 160.26	92.3%	$ 100
Medicaid Expansion	1.9	742	378.19	634	323.56	85.6	108

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.

The following discussion highlights the primary drivers of our performance, by program.

Medicaid Expansion. Although member months have increased 41%, premium revenue decreased 10% on a PMPM basis in the second quarter of 2016, when compared with the second quarter of 2015. This decline was due to premium rate decreases in multiple states that went into effect for Medicaid Expansion members between June 30, 2015 and January 1, 2016.

Marketplace. Adjustments related to 2015 dates of service reduced Marketplace pretax income by approximately $37 million in the second quarter. On June 30, 2016, the Centers for Medicare and Medicaid Services released the final update on risk adjustment and reinsurance payments for the 2015 benefit year, and we adjusted our accruals accordingly. We now estimate that the medical care ratio for our Marketplace business for all of 2015 was approximately 80%.

Financial Performance by State Health Plan. The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by state health plan for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Three Months Ended June 30, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
California	2.0	$ 554	$ 268.95	$ 493	$ 239.63	89.1%	$ 61

	10.1	$ 3,304	$ 328.96	$ 2,929	$ 291.65	88.7%	$ 375

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.
(3) "Other" medical care costs include primarily medically related administrative costs of the parent company, and direct delivery costs.

The following discussion highlights the primary drivers of our performance, by health plan.

California. Premium revenue grew to $554 million in the second quarter of 2016, from $503 million in the second quarter of 2015, as a result of higher membership. The medical care ratio decreased to 89.1% in the second quarter of 2016, from 91.1% in the second quarter of 2015, due to improvement in medical care ratios for the MMP and Medicaid Expansion programs, offset partially by a higher medical care ratio in the TANF and ABD programs.

Florida. Premium revenue grew to $464 million in the second quarter of 2016, from $257 million in the second quarter of 2015, due to increased Marketplace membership and the addition of over 100,000 members from Medicaid contract acquisitions most of which closed in the fourth quarter of 2015. The medical care ratio increased to 91.9% in the second quarter

of 2016, from 84.3% in the second quarter of 2015, primarily as a result of adjustments related to 2015 dates of service for Marketplace membership, which more than offset the Medicaid rate increase of approximately 5% effective September 1, 2015.

Illinois. Premium revenue grew to $154 million in the second quarter of 2016, from $102 million in the second quarter of 2015, and the medical care ratio decreased to 88.9% in the second quarter of 2016, from 96.6% in the second quarter of 2015. The plan added over 100,000 members from Medicaid contract acquisitions in the first quarter of 2016. The decrease in the medical care ratio was primarily due to higher margins for TANF membership.

Michigan. Premium revenue grew $131 million, or 55%, in the second quarter of 2016 compared with the second quarter of 2015, due to the addition of over 100,000 members from Medicaid contract acquisitions closed in the third quarter of 2015 and the first quarter of 2016. The medical care ratio increased to 90.6% in the second quarter of 2016, from 84.2% in the second quarter of 2015, primarily as a result of lower margins for TANF and Medicaid Expansion membership.

New Mexico. The medical care ratio increased to 89.3% in the second quarter of 2016, from 85.8% in the second quarter of 2015, primarily as a result of lower margins for TANF membership.

Ohio. Premium revenue declined $25 million, or 5%, in the second quarter of 2016 compared with the second quarter of 2015, due to reduced reimbursement rates and unfavorable member mix. The medical care ratio increased to 89.7% in the second quarter of 2016, from 85.0% in the second quarter of 2015. The increase in the 2016 medical care ratio was primarily the result of a blended rate decrease of approximately 2.5% effective January 1, 2016.

Puerto Rico. The medical care ratio increased to 102.6% in the second quarter of 2016, from 95.0% in the second quarter of 2015, primarily due to increased pharmacy costs, decreased membership and premium revenue, and reductions to revenue previously recorded for 2015 dates of service which decreased pretax income by approximately $11 million.

South Carolina. The medical care ratio increased to 81.6% in the second quarter of 2016, from 71.3% in the second quarter of 2015.

Texas. Premium revenue grew $123 million, or 24%, in the second quarter of 2016 compared with the second quarter of 2015. Growth in premium revenue was primarily the result of the recognition of approximately $51 million in out-of-period quality revenue and increased Marketplace enrollment. Of the total $51 million adjustment, $44 million related to 2015 and 2014 dates of service, and $7 million related to the first quarter of 2016. The plan's medical care ratio of 78.5% in the second quarter of 2016 was significantly lower than the second quarter of 2015. Even without the benefit of out-of-period quality revenue adjustments, the medical care ratio of the Texas health plan would have been approximately 85.3%, still well under the 91.5% medical care ratio reported in the second quarter of 2015.

Utah. The medical care ratio increased to 97.0% in the second quarter of 2016, from 89.7% in the second quarter of 2015, primarily due to an increase in the medical care ratio of the growing Marketplace program.

Washington. Premium revenue grew $149 million, or 36%, in the second quarter of 2016 compared with the second quarter of 2015, primarily due to membership growth in the Medicaid (both TANF and ABD) and Medicaid Expansion programs. The medical care ratio decreased to 89.4% in the second quarter of 2016, from 90.4% in the second quarter of 2015, due to improved medical cost efficiency across nearly all programs.

Wisconsin. Premium revenue grew $24 million, or 32%, in the second quarter of 2016 when compared with the second quarter of 2015 as a result of increased Marketplace enrollment. The medical care ratio increased to 96.3% in the second quarter of 2016, from 75.3% in the second quarter of 2015 due to adjustments related to 2015 dates of service for Marketplace membership and the comparatively higher medical care ratio of the growing Marketplace membership.

Six Months Ended June 30, 2016 Compared with Six Months Ended June 30, 2015

In the first half of 2016, a 33% increase in membership, was partially offset by a 5% decrease in revenue PMPM, resulted in increased premium revenue of approximately 28%, or $1.8 billion, when compared with the first half of 2015. The decline in PMPM premium revenue was primarily the result of lower PMPM premiums for Medicaid Expansion membership and an increase in the percentage of our premium revenue derived from TANF and Marketplace membership.

Medical care costs as a percent of premium revenue increased to 89.5% in the first half of 2016, from 88.7% in the first half of 2015. The increase in our medical care ratio was driven by lower percentage margins for Medicaid Expansion and Marketplace membership. Medical margin increased 19% in the first half of 2016 over the first half of 2015.

Financial Performance by Program. The following tables present the components of premium revenue and medical care costs by program (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions).

	Six Months Ended June 30, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	14.9	$ 2,626	$ 176.00	$ 2,400	$ 160.85	91.4%	$ 226
Medicaid Expansion	3.8	1,421	371.82	1,208	316.13	85.0	213
Marketplace	3.4	782	228.19	657	191.62	84.0	125

MMP	0.2	423	1,986.04	413	1,942.20	97.8	10
Medicare	0.3	274	1,036.95	269	1,020.01	98.4	5
	18.7	$ 6,275	$ 336.21	$ 5,565	$ 298.18	88.7%	$ 710

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.

The following discussion highlights the primary drivers of our performance, by program.

Medicaid TANF, CHIP and ABD. TANF, CHIP and ABD revenue increased in the first half of 2016 when compared to the first half of 2015 due to the acquisitions made after July 1, 2015, as well as the inclusion of a full two quarters of Puerto Rico operations in the first half of 2016 (Puerto Rico began operations effective April 1, 2015).

Medicaid Expansion. Increased enrollment of Medicaid Expansion members in the first half of 2016 when compared to the first half of 2015 was offset by lower PMPM premium revenue discussed above and a higher medical care ratio.

Marketplace. Adjustments related to 2015 dates of service reduced Marketplace pretax income by approximately $68 million in the first half of 2016. We now estimate that the medical care ratio for our Marketplace program for all of 2015 was approximately 80%. Through June 30, 2016, the medical care ratio of our Marketplace program for months of service in the first half of 2016 alone (exclusive of out-of-period adjustments) was approximately 78%.

Financial Performance by State Health Plan. The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by state health plan for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Six Months Ended June 30, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin

Other(3)	—	20	—	51	—	—	(31)
	18.7	$ 6,275	$ 336.21	$ 5,565	$ 298.18	88.7%	$ 710

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.
(3) "Other" medical care costs include primarily medically related administrative costs of the parent company, and direct delivery costs.

California. Premium revenue grew to $1,095 million in the six months ended June 30, 2016, from $1,014 million in the six months ended June 30, 2015, as a result of higher membership. The medical care ratio decreased to 87.9% in the six months ended June 30, 2016, from 89.9% in the six months ended June 30, 2015, due to improvements in the medical care ratios for the MMP and TANF programs as well as the favorable medical care ratio and growth in Marketplace. These improvements more than offset a higher medical care ratio for the ABD program.

Florida. Premium revenue grew to $953 million in the six months ended June 30, 2016, from $568 million in the six months ended June 30, 2015, due to increased Marketplace membership, an $18 million retroactive increase to Medicaid premium revenue for dates of service in 2014 and 2015 in the first quarter of 2016, and the addition of over 100,000 members from Medicaid contract acquisitions, most of which closed in the fourth quarter of 2015. The medical care ratio increased to 88.1% in the six months ended June 30, 2016, from 87.7% in the six months ended June 30, 2015, primarily as a result of adjustments

related to 2015 dates of service for Marketplace membership, partially offset by the Medicaid rate increase of approximately 5% effective September 1, 2015, and the retroactive increase to Medicaid premium revenue noted above.

Illinois. Premium revenue grew to $303 million in the six months ended June 30, 2016, from $206 million in the six months ended June 30, 2015, and the medical care ratio decreased to 88.8% in the six months ended June 30, 2016, from 91.2% in the six months ended June 30, 2015. The plan added over 100,000 members from Medicaid contract acquisitions in the first quarter of 2016. The decrease in the medical care ratio was primarily due to higher margin TANF membership.

Michigan. Premium revenue grew $299 million, or 65%, in the six months ended June 30, 2016 compared with the six months ended June 30, 2015, due to the addition of over 100,000 members from Medicaid contract acquisitions in the third quarter of 2015 and the first quarter of 2016. The medical care ratio increased to 90.2% in the six months ended June 30, 2016, from 84.2% in the six months ended June 30, 2015, primarily as a result of lower margins for TANF and Medicaid Expansion membership.

New Mexico. The medical care ratio decreased to 88.6% in the six months ended June 30, 2016, from 89.4% in the six months ended June 30, 2015, due to a lower medical care ratio for the TANF membership.

Ohio. Premium revenue declined $53 million, or 5%, in the six months ended June 30, 2016 compared with the six months ended June 30, 2015, due to reduced overall state Medicaid enrollment and Medicaid premium rate cuts effective January 1, 2016. The medical care ratio increased to 90.8% in the six months ended June 30, 2016, from 82.6% in the six months ended June 30, 2015, as a result of a blended rate decrease of approximately 2.5% effective January 1, 2016 (which included a 5% decrease in Medicaid Expansion rates) and favorable development of prior period medical liability estimates in the first half of 2015 compared with the first half of 2016.

Puerto Rico. The medical care ratio increased to 99.4% in the six months ended June 30, 2016, from 95.0% in the six months ended June 30, 2015, primarily due to increased pharmacy costs, decreased membership and premium revenue, and reductions to revenue previously recorded for 2015 dates of service which decreased pretax income by approximately $11 million. The plan served its first members effective April 1, 2015.

South Carolina. The medical care ratio increased to 80.8% in the six months ended June 30, 2016, from 76.2% in the six months ended June 30, 2015.

Texas. Premium revenue grew $361 million, or 40%, in the six months ended June 30, 2016 compared with the six months ended June 30, 2015. Growth in premium revenue was primarily the result of the recognition of approximately $44 million in out-of-period quality revenue (discussed above), increased Marketplace enrollment and the revenue associated with additional nursing home services provided to some ABD members effective March 1, 2015 and the start-up of the Texas MMP program on that same date. The plan's medical care ratio decreased to 85.5% in the six months ended June 30, 2016, from 91.7% in the six months ended June 30, 2015. Without the benefit of out-of-period quality revenue, the medical care ratio of the Texas health plan would have been approximately 88.6% in the first half of 2016.

Utah. Premium revenue grew $67 million, or 42%, in the six months ended June 30, 2016 compared with the six months ended June 30, 2015, primarily due to higher Marketplace enrollment. The medical care ratio increased slightly to 93.0% in the six months ended June 30, 2016, from 92.8% in the six months ended June 30, 2015, primarily due to an increase in the medical care ratio of the growing Marketplace program.

Washington. Premium revenue grew $279 million, or 36%, in the six months ended June 30, 2016 compared with the six months ended June 30, 2015, primarily due to membership growth in the Marketplace, TANF and Medicaid Expansion programs. The medical care ratio decreased to 89.9% in the six months ended June 30, 2016, from 91.9% in the six months ended June 30, 2015, due to improved medical cost efficiency across nearly all programs.

Wisconsin. Premium revenue grew $61 million, or 45%, in the six months ended June 30, 2016 when compared with the six months ended June 30, 2015 as a result of increased Marketplace enrollment. The medical care ratio increased to 95.7% in the six months ended June 30, 2016, from 77.7% in the six months ended June 30, 2015 due to adjustments related to 2015 dates of service for Marketplace membership and the comparatively higher medical care ratio of the growing Marketplace membership.

Molina Medicaid Solutions Segment

Service margin declined $9 million in the second quarter of 2016 compared with the second quarter of 2015, and $19 million in the six months ended June 30, 2016 compared with the six months ended June 30, 2015, primarily due to increased service costs associated with legacy state contracts that were recently re-procured.

Other Segment

Service margin was $14 million and $21 million for the three and six months ended June 30, 2016, respectively. Because we acquired our Pathways behavioral health and social services provider in November 1, 2015, there was no service margin for the three and six months ended June 30, 2015.

Income Statement Components that are Not Unique to Individual Segments

General and Administrative Expenses. General and administrative expenses as a percentage of total revenue (the "general and administrative expense ratio") were 8.1% in the second quarters of both 2016 and 2015. The general and administrative expense ratio decreased to 7.9% for the six months ended June 30, 2016, compared with 8.1% for the six months ended June 30, 2015.

Premium Tax Expenses. The premium tax ratio (premium tax expense as a percentage of premium revenue plus premium tax revenue) was 2.6% in the second quarter of 2016, compared with 2.8% in the second quarter of 2015, and 2.6% in the six months ended June 30, 2016, compared with 2.9% in the six months ended June 30, 2015. For both periods, the decrease was primarily due to the current year increase in MMP revenues. The Medicare portion of MMP revenue is not subject to premium tax.

Health Insurer Fee Revenue and Expenses. For our Medicaid program, actuarial standards require that we be reimbursed by state Medicaid agencies for both the expense associated with the HIF and the absence of tax deductibility for that expense. Subsequent to the first quarter of 2015, we secured full reimbursement for our expenses under the HIF (including the absence of tax deductibility). As a result, HIF revenue, as a percentage of premium revenue, increased to 2.1% in the six months ended June 30, 2016, from 1.9% in the six months ended June 30, 2016. HIF expenses were consistent year over year.

Depreciation and Amortization. As a percentage of total revenue, the year over year change in depreciation and amortization was insignificant.

Interest Expense. Interest expense increased to $25 million for the second quarter of 2016, from $15 million for the second quarter of 2015. Interest expense increased to $50 million for the six months ended June 30, 2016, from $30 million for the six months ended June 30, 2015. The increase was primarily due to our issuance of $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, in the fourth quarter of 2015.

Interest expense includes non-cash interest expense relating primarily to the amortization of the discount on convertible senior notes, which amounted to $7 million and $8 million for the second quarter of 2016 and 2015, respectively and $15 million for both the six months ended June 30, 2016 and 2015.

Income Tax Expense. The provision for income taxes was recorded at an effective rate of 59.8% for the second quarter of 2016, compared with 61.3% for the second quarter of 2015, and 60.7% for the six months ended June 30, 2016 compared with 60.1% for the six months ended June 30, 2015. Differences in the effective tax rate between periods are the result of different amounts of non-deductible expenses and discrete tax events.

Liquidity and Capital Resources

Introduction

We manage our cash, investments, and capital structure to meet the short- and long-term obligations of our business while maintaining liquidity and financial flexibility. Our regulated subsidiaries generate significant cash flows from premium revenue. Such cash flows are our primary sources of liquidity. Thus, any future decline in our profitability may have a negative impact on our liquidity. We generally receive premium revenue a short time before we pay for the related health care services. A majority of the assets held by our regulated subsidiaries is in the form of cash, cash equivalents, and investments. After considering expected cash flows from operating activities, we generally invest cash of regulated subsidiaries that exceeds our expected short-term obligations in longer term, investment-grade, and marketable debt securities to improve our overall investment return. These investments are made pursuant to board-approved investment policies that conform to applicable state laws and regulations.

As of June 30, 2016, a substantial portion of our cash was invested in a portfolio of highly liquid money market securities, and our investments consisted solely of investment-grade debt securities. All of our investments are classified as current assets, except for our restricted investments, which are classified as non-current assets. Our restricted investments are invested principally in certificates of deposit and U.S. treasury securities. Investments and restricted investments are subject to interest rate risk and will decrease in value if market rates increase. We have the ability to hold our restricted investments until maturity. Declines in interest rates over time will reduce our investment income.

Investment income increased to $16 million for the six months ended June 30, 2016, compared with $7 million for the six months ended June 30, 2015, primarily due to an increase in invested assets.

Cash in excess of the capital needs of our regulated health plans is generally paid to us in the form of dividends, when and as permitted by applicable regulations, for general corporate use. For the six months ended June 30, 2016, we received $50

million in dividends from our regulated health plan subsidiaries. For the six months ended June 30, 2015, we received $25 million in dividends from our regulated health plan subsidiaries, and $17 million from our unregulated subsidiaries.

Liquidity

A condensed schedule of cash flows to facilitate our discussion of liquidity follows:

	Six Months Ended June 30,		
	2016	2015	Change
	(In millions)		
Net cash provided by operating activities	$ 278	$ 648	$ (370)
Net cash used in investing activities	(273)	(557)	284
Net cash provided by financing activities	11	384	(373)
Net increase in cash and cash equivalents	$ 16	$ 475	$ (459)

Operating Activities. Net cash provided by operating activities decreased $370 million in the six months ended June 30, 2016 compared with the six months ended June 30, 2015.

The year over year changes in the following accounts decreased cash provided by operating activities:

- Receivables. Cash flows from operations in each year were impacted by the timing of payments we receive from our states. In general, states may delay our premium payment, which we record as a receivable, or they may prepay the following month premium payment, which we record as deferred revenue. We typically receive capitation payments monthly; however, the states in which we operate may decide to adjust their payment schedules which could positively or negatively impact our reported cash flows from operating activities in any given period. In the current year, the timing of premiums received in California, Florida and Illinois negatively impacted our cash flows from operating activities.
- Medical claims and benefits payable. In the six months ended June 30, 2016, medical claims and benefits payable increased at a slower pace than the same period in 2015. In particular, our Puerto Rico health plan commenced operations on April 1, 2015, leading to a significant increase in medical claims and benefits payable at June 30, 2015, compared with a much smaller increase in the current year as the membership base has stabilized.

These changes were partially offset by the increase in amounts due government agencies. In connection with Health Plans segment membership growth in programs that contain medical cost floors, medical cost corridors, or risk adjustment provisions, a portion of certain Medicaid, Medicare, and Marketplace premiums received by our health plans may be returned to the federal or state governments.

Investing Activities. Net cash used in investing activities was $273 million in the six months ended June 30, 2016, compared with $557 million in the six months ended June 30, 2015. In the current year, we received approximately $271 million more in proceeds from sales and maturities of investments than in the prior year.

Financing Activities. Net cash provided by financing activities decreased $373 million in the six months ended June 30, 2016 compared with the six months ended June 30, 2015, primarily due to the prior year proceeds from a common stock offering, with no comparable activity in the current year.

Financial Condition

We believe that our cash resources and internally generated funds will be sufficient to support our operations, planned acquisitions, regulatory requirements, and capital expenditures for at least the next 12 months.

On a consolidated basis, at June 30, 2016, our working capital was $1,899 million, compared with $1,484 million at December 31, 2015. At June 30, 2016, our cash and investments amounted to $4,422 million, compared with $4,241 million at December 31, 2015. Cash, cash equivalents and investments held by the parent company (Molina Healthcare, Inc.) amounted to $466 million and $612 million as of June 30, 2016 and December 31, 2015, respectively.

Regulatory Capital and Dividend Restrictions. For more information on our regulatory capital and dividend restrictions, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 14, "Commitments and Contingencies."

Debt Ratings. Our 5.375% Notes are rated "BB" by Standard & Poor's, and "Ba3" by Moody's Investor Service, Inc. A downgrade in our ratings could adversely affect our borrowing capacity and costs.

Future Sources and Uses of Liquidity

Announced Acquisition. As described in Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 1, "Basis of Presentation," we announced a Health Plans segment acquisition on April 19, 2016, that we expect to close in the second half of 2016. We expect the purchase price for this acquisition to amount to approximately $41 million, subject to certain closing adjustments.

States' Budgets. From time to time, the states in which our health plans operate may experience financial difficulties, which could lead to delays in premium payments. It has been our practice in the past to continue to serve our members and pay health care providers for services rendered in circumstances where state (or Commonwealth) governments are temporarily unable to pay us, so long as we continue to believe that such state (or Commonwealth) governments will ultimately pay us.

Credit Facility. In June 2015, we entered into an unsecured $250 million revolving credit facility (Credit Facility). Borrowings under the Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. The Credit Facility has a term of five years and all amounts outstanding will be due and payable on June 12, 2020. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $350 million. Our ability to borrow under the Credit Facility is subject to compliance with certain financial covenants. At June 30, 2016, we were in compliance with all financial covenants under the Credit Facility. As of June 30, 2016, outstanding letters of credit amounting to $6 million reduced the borrowing capacity to $244 million, and no amounts were outstanding under the Credit Facility.

Convertible Senior Notes. In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes due January 15, 2020 (1.125% Notes), unless earlier repurchased or converted. In September 2014, we issued $302 million aggregate principal amount of 1.625% convertible senior notes due August 15, 2044 (1.625% Notes), unless earlier repurchased, redeemed, or converted. The principal amounts of both our 1.125% Notes and our 1.625% Notes are convertible into cash prior to their respective maturity dates under certain circumstances, one of which relates to the closing price of our common stock over a specified period. We refer to this conversion trigger as the stock price trigger.

The 1.125% Notes did not meet the $53.00 stock price trigger in the quarter ended June 30, 2016, therefore, the 1.125% Notes were not convertible as of June 30, 2016. The 1.625% Notes did not meet the $75.52 stock price trigger in the quarter ended June 30, 2016, therefore, the 1.625% Notes were not convertible as of June 30, 2016.

Securities Repurchase Program. Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Shelf Registration Statement. We have a shelf registration statement on file with the Securities and Exchange Commission to register an unlimited amount of any combination of debt or equity securities in one or more offerings. Specific information regarding the terms and securities being offered will be provided at the time of an offering. Proceeds from future offerings are expected to be used for general corporate purposes, including, but not limited to, the repayment of debt, investments in or extensions of credit to our subsidiaries and the financing of possible acquisitions or business expansion.

Contractual Obligations

A summary of future obligations under our various contractual obligations and commitments as of December 31, 2015, was disclosed in our 2015 Annual Report on Form 10-K. There were no material changes to this previously filed information outside the ordinary course of business during the six months ended June 30, 2016. For further discussion and maturities of our long-term debt, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, in Note 10, "Debt."

Critical Accounting Estimates

When we prepare our consolidated financial statements, we use estimates and assumptions that may affect reported amounts and disclosures; actual results could differ from these estimates. Our critical accounting estimates relate to:

- *Health Plans segment medical claims and benefits payable*. Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 9, "Medical Claims and Benefits Payable," for a table which presents the components of the change in medical claims and benefits payable, and for additional information regarding the factors used to determine our changes in estimates for all periods presented in the accompanying consolidated financial statements. Other than the discussion as noted above, there have been no significant changes during the six months ended June 30, 2016, to our disclosure reported in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015.

- *Health Plans segment contractual provisions that may adjust or limit revenue or profit*. Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies," for a discussion of amounts recorded in the six months ended June 30, 2016 in connection with such contractual provisions.
- *Health Plans segment quality incentives*. For a discussion of this topic, including amounts recorded in our consolidated financial statements, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies."
- *Molina Medicaid Solutions segment revenue and cost recognition*. There have been no significant changes during the six months ended June 30, 2016, to our disclosure reported in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For information regarding market risk, see Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies," Note 5, "Fair Value Measurements," and Note 6, "Investments."

Inflation

We use various strategies to mitigate the negative effects of health care cost inflation. Specifically, our health plans try to control medical and hospital costs through contracts with independent providers of health care services. Through these contracted providers, our health plans emphasize preventive health care and appropriate use of specialty and hospital services. There can be no assurance, however, that our strategies to mitigate health care cost inflation will be successful. Competitive pressures, new health care and pharmaceutical product introductions, demands from health care providers and customers, applicable regulations, or other factors may affect our ability to control health care costs.

Compliance Costs

Our health plans are regulated by both state and federal government agencies. Regulation of managed care products and health care services is an evolving area of law that varies from jurisdiction to jurisdiction. Regulatory agencies generally have discretion to issue regulations and interpret and enforce laws and rules. Changes in applicable laws and rules occur frequently. Compliance with such laws and rules may lead to additional costs related to the implementation of additional systems, procedures and programs that we have not yet identified.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures: Our management, with the participation of our chief executive officer and our chief financial officer, has concluded, based upon its evaluation as of the end of the period covered by this report, that the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), are effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control Over Financial Reporting: There has been no change in our internal control over financial reporting during the fiscal quarter ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For information regarding legal proceedings, see Part I, Item 1 of this Form 10-Q, Note 14, "Commitments and Contingencies."

Item 1A. Risk Factors

Certain risk factors may have a material adverse effect on our business, financial condition, cash flows, or results of operations, and you should carefully consider them. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, Item 1A – Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2015 and under Part II, Item 1A – Risk Factors, in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2016. The risk factors described in our 2015 Annual Report and 2016 first quarter Quarterly Report are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition, cash flows, or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Issuances of Equity Securities

None.

Issuer Purchases of Equity Securities

Share repurchase activity during the three months ended June 30, 2016 was as follows:

	Total Number of Shares Purchased (a)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (b)
April 1 - April 30	12,534	$ 64.91	—	$ 50,000,000
May 1 - May 31	1,490	$ 51.76	—	$ 50,000,000
June 1 - June 30	399	$ 49.29	—	$ 50,000,000
Total	14,423	$ 63.12	—	

(a) During the three months ended June 30, 2016, we withheld 14,423 shares of common stock under our 2011 Equity Incentive Plan to settle our employees' income tax obligations.

(b) Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

Item 6. Exhibits

Reference is made to the accompanying Index to Exhibits.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, Joseph M. Molina, M.D., certify that:

1. I have reviewed the annual report on Form 10-K for the period ended June 30, 2016 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

MOLINA HEALTHCARE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
March 31, 2016

1. Basis of Presentation

Organization and Operations

Molina Healthcare, Inc. provides quality health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments include our Health Plans and Molina Medicaid Solutions segments, which comprise the vast majority of our operations, and our Other segment. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015, which is reported in Other. All prior periods reported conform to this presentation.

Our Health Plans segment consists of health plans in 11 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of March 31, 2016, these health plans served 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. Additionally, we serve Health Insurance Marketplace (Marketplace) members, most of whom receive government premium subsidies. The health plans are operated by our respective wholly owned subsidiaries in those states, each of which is licensed as a health maintenance organization (HMO). Our direct delivery business consists primarily of the operation of primary care clinics in several states in which we operate.

Our Molina Medicaid Solutions segment provides business processing and information technology development and administrative services to Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and drug rebate administration services in Florida.

Our Other segment includes businesses, such as our Pathways behavioral health and social services provider, that do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

Market Updates - Health Plans

Illinois. On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business of, Accountable Care Chicago, LLC, also known as MyCare Chicago. See Note 4, "Business Combinations," for further information.

On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Loyola Physician Partners, LLC. See Note 4, "Business Combinations," for further information.

On March 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Better Health Network, LLC. See Note 4, "Business Combinations," for further information.

Michigan. On January 1, 2016, our Michigan health plan closed on its acquisition of the Medicaid and MIChild membership, and certain Medicaid and MIChild assets, of HAP Midwest Health Plan, Inc. See Note 4, "Business Combinations," for further information.

New York. On April 19, 2016, we entered into an agreement with Universal American Corp. to acquire all outstanding equity interests of Today's Options of New York, Inc., which operates the Total Care Medicaid plan. Subject to regulatory approvals and the satisfaction of other closing conditions, we expect the transaction to close in the second half of 2016.

Washington. On January 1, 2016, our Washington health plan closed on its acquisition of the Medicaid contracts, and certain assets related to the operation of the Medicaid business, of Columbia United Providers, Inc. See Note 4, "Business Combinations," for further information.

Consolidation and Interim Financial Information

The consolidated financial statements include the accounts of Molina Healthcare, Inc., its subsidiaries, and variable interest entities (VIEs) in which Molina Healthcare, Inc. is considered to be the primary beneficiary. Such VIEs are insignificant to our consolidated financial position and results of operations. In the opinion of management, all adjustments considered necessary for a fair presentation of the results as of the date and for the interim periods presented have been included; such adjustments consist of normal recurring adjustments. All significant intercompany balances and transactions have been eliminated. The consolidated results of operations for the current interim period are not necessarily indicative of the results for the entire year ending December 31, 2016.

The unaudited consolidated interim financial statements have been prepared under the assumption that users of the interim financial data have either read or have access to our audited consolidated financial statements for the fiscal year ended December 31, 2015. Accordingly, certain disclosures that would substantially duplicate the disclosures contained in the December 31, 2015 audited consolidated financial statements have been omitted. These unaudited consolidated interim financial statements should be read in conjunction with our December 31, 2015 audited consolidated financial statements.

2. Significant Accounting Policies

Revenue Recognition – Health Plans Segment

Premium revenue is fixed in advance of the periods covered and, except as described below, is not generally subject to significant accounting estimates. Premium revenues are recognized in the month that members are entitled to receive health care services, and premiums collected in advance are deferred. Certain components of premium revenue are subject to accounting estimates and fall into the following categories:

Contractual Provisions That May Adjust or Limit Revenue or Profit

Medicaid

Medical Cost Floors (Minimums), Medical Cost Corridors, and Administrative Cost Ceilings (Maximums): A portion of certain premiums received by our health plans may be returned if certain minimum amounts are not spent on defined medical care costs. In the aggregate, we recorded a liability under the terms of such contract provisions of $278 million and $214 million at March 31, 2016 and December 31, 2015, respectively, to amounts due government agencies. Approximately $270 million and $208 million of the liability accrued at March 31, 2016 and December 31, 2015, respectively, relates to our participation in Medicaid Expansion programs.

In certain circumstances, the health plans may receive additional premiums if amounts spent on medical care costs exceed a defined maximum threshold. We recorded receivables of $1 million and $3 million at March 31, 2016 and December 31, 2015, respectively, relating to such provisions.

Profit Sharing and Profit Ceiling: Our contracts with certain states contain profit-sharing or profit ceiling provisions under which we refund amounts to the states if our health plans generate profit above a certain specified percentage. In some cases, we are limited in the amount of administrative costs that we may deduct in calculating the refund, if any. Under these provisions we recorded a receivable of $2 million at March 31, 2016, for estimated amounts overpaid for prior periods, and a liability of $10 million at December 31, 2015, for profit in excess of the amount we are allowed to retain.

Retroactive Premium Adjustments: The state Medicaid programs periodically adjust premium rates on a retroactive basis. In these cases, we must adjust our premium revenue in the period in which we learn of the adjustment, rather than in the months of service to which the retroactive adjustment applies. For example, in the first quarter of 2016 we recorded a retroactive increase to Medicaid premium revenue of approximately $18 million, relating to dates of service prior to 2016.

Cost Plus Retroactive Premium Adjustments: In New Mexico, when members are retroactively enrolled into our health plan we earn revenue only to the extent of the actual medical costs incurred by us for services provided during those retroactive periods, plus a small percentage of that medical cost for administration and profit. This cost plus arrangement for members retroactively enrolled in our health plan first became effective July 1, 2014 (retroactive to January 1, 2014). We are paid normal monthly capitation rates for the retroactive eligibility periods, and the difference between those capitation rates and the amounts due us on a cost plus basis are periodically settled with the state. To date, no such settlement has been made with the state. During the years ended December 31, 2014 and 2015, our New Mexico contract was not specific as to the definition of retroactive membership, and the amount we owe the state (or that the state owes us) for the difference between capitation received and amounts due to us under the cost plus arrangement during those periods varies widely depending upon the definition of retroactive membership.

In August 2015, the state provided us with a request for payment under the terms of this contract provision for the period January 1, 2014 through December 31, 2014. That request was based upon definitions of retroactive membership that were at odds with our interpretations of that term. Using the state's definition of retroactive membership, we estimate that the state may ultimately seek repayment of an amount that ranges from $25 million to $30 million higher than the amount we have accrued. We do not believe that any reasonable definition of retroactive membership supports the state's position, and expect to resolve this matter with payment of the amount we have accrued at March 31, 2016. We are currently engaged in discussions with the state regarding the appropriate amount, if any, owed to the state under this contract term.

Medicare

Risk Adjustment: Our Medicare premiums are subject to retroactive increase or decrease based on the health status of our Medicare members (measured as a member risk score). We estimate our members' risk scores and the related amount of Medicare revenue that will ultimately be realized for the periods presented based on our knowledge of our members' health care utilization patterns, risk scores and CMS practices. Based on our estimates, we have recorded a net receivable of $13 million and a net payable of $4 million for anticipated Medicare risk adjustment premiums at March 31, 2016 and December 31, 2015, respectively.

Marketplace

Premium Stabilization Programs: The Affordable Care Act (ACA) established Marketplace premium stabilization programs effective January 1, 2014. These programs, commonly referred to as the "3R's," include a permanent risk adjustment program, a transitional reinsurance program, and a temporary risk corridor program.

- Permanent risk adjustment program: Under this permanent program, our health plans' composite risk scores are compared to the overall average risk score for the relevant state and market pool. Generally, our health plans will pay into the pool if their composite risk scores are below the average risk score, and will receive funds from the pool if their composite risk scores are above the average risk score. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk adjustment program as an adjustment to premium revenue in our consolidated statements of income. To better estimate amounts to be accrued, we utilize third party sources that attempt to estimate the overall average risk score for the relevant state and market pools. In the first quarter of 2016, we recorded an additional liability of approximately $20 million related to 2015 based upon new information primarily obtained from third party sources.
- Transitional reinsurance program: This program is designed to provide reimbursement to insurers for high cost members. Our health plans pay an annual contribution on a per-member basis, and are eligible for recoveries if claims for individual members exceed a specified threshold, up to a maximum amount. This three-year program will end on December 31, 2016. We recognize the assessments to fund the transitional reinsurance program as a reduction to premium revenue in our consolidated statements of income. We recognize recoveries under the reinsurance program as a reduction to medical care costs in our consolidated statements of income.
- Temporary risk corridor program: This program is intended to limit gains and losses of insurers by comparing allowable costs to a target amount as defined by the U.S. Department of Health and Human Services (HHS). Variances from the target amount exceeding certain thresholds may result in amounts due to or receivables due from HHS. This three-year program will end on December 31, 2016. Due to uncertainties as to the amount of federal funding available to support the risk corridor program, we do not recognize amounts receivable under this program. All liabilities are recognized as incurred. We estimate our ultimate premium based on insurance policy year-to-date experience, and recognize estimated premiums relating to the risk corridor program as an adjustment to premium revenue in our consolidated statements of income.

Additionally, the ACA established a minimum annual medical loss ratio (Minimum MLR) of 80% for the Marketplace. The medical loss ratio represents medical costs as a percentage of premium revenue. What constitutes medical costs and premium revenue are specifically defined by federal regulations. If the Minimum MLR is not met, we may be required to pay rebates to our Marketplace policyholders. Each of the 3R programs is taken into consideration when computing the Minimum MLR. We recognize estimated rebates under the Minimum MLR as an adjustment to premium revenue in our consolidated statements of income.

We record receivables or payables related to the 3R programs and the Minimum MLR when the amounts are reasonably estimable as described above, and, for receivables, collection is reasonably assured.

Our receivables (payables) for each of these programs, as of the dates indicated, were as follows:

	March 31, 2016	December 31, 2015
	(In millions)	
Risk adjustment	$ (301)	$ (214)
Reinsurance	47	36
Risk corridor	(15)	(10)
Minimum MLR	(11)	(3)

Quality Incentives

At several of our health plans, revenue ranging from approximately 1% to 4% of certain health plan premiums is earned only if certain performance measures are met.

The following table quantifies the quality incentive premium revenue recognized for the periods presented, including the amounts earned in the period presented and prior periods. Although the reasonably possible effects of a change in estimate related to quality incentive premium revenue as of March 31, 2016 are not known, we have no reason to believe that the adjustments to prior years noted below are not indicative of the potential future changes in our estimates as of March 31, 2016.

	Three Months Ended March 31,	
	2016	2015
	(In millions)	
Maximum available quality incentive premium - current period	$ 40	$ 30
Amount of quality incentive premium revenue recognized in current period:		
Earned current period	$ 18	$ 10
Earned prior periods	5	—
Total	$ 23	$ 10
Quality incentive premium revenue recognized as a percentage of total premium revenue	0.6%	0.3%

Income Taxes

The provision for income taxes is determined using an estimated annual effective tax rate, which is generally greater than the U.S. federal statutory rate primarily because of state taxes, nondeductible expenses such as the Health Insurer Fee (HIF), certain compensation, and other general and administrative expenses. The effective tax rate may be subject to fluctuations during the year, particularly as a result of the level of pretax earnings, and also as new information is obtained. Such information may affect the assumptions used to estimate the annual effective tax rate, including factors such as the mix of pretax earnings in the various tax jurisdictions in which we operate, valuation allowances against deferred tax assets, the recognition or the reversal of the recognition of tax benefits related to uncertain tax positions, and changes in or the interpretation of tax laws in jurisdictions where we conduct business. We recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of our assets and liabilities, along with net operating loss and tax credit carryovers.

Recent Accounting Pronouncements

In April 2016, the Financial Accounting Standards Board (FASB) issued ASU 2016-10, *Identifying Performance Obligations and Licensing*, which amends certain aspects of ASC 606, *Revenue from Contracts with Customers*. ASU 2016-10 amends step two of the new revenue standard's five-step model to include guidance on immaterial promised goods or services, shipping and handling activities and identifying when promises represent performance obligations. ASU 2016-10 also provided guidance related to licensing such as, but not limited to, sales-based and usage-based royalties and renewals of license that provide a right to use intellectual property. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

In March 2016, the FASB issued ASU 2016-09, *Compensation-Stock Compensation*, which simplifies several aspects of accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax and classification in the statement of cash flows. ASU 2016-09 is effective for fiscal periods beginning after December 15, 2016 and must be adopted using the modified retrospective approach except for classification in the statement of cash flows, which must be adopted using either the prospective or retrospective approach. Early adoption is permitted. We are evaluating the potential effects of the adoption to our financial statements.

In March 2016, the FASB issued ASU 2016-08, *Revenue from Contracts with Customers - Principal vs. Agent Considerations*, which amends the principal–versus–agent implementation guidance in ASC 606. ASU 2016-08 clarifies that an entity should evaluate whether it is the principal or agent for each specified good or service promised in a contract with a customer as defined in ASC 606. The entity must first identify each specified good or service to be provided to the customer and then assess whether it controls each specified good or service. The ASU also removed two of the five indicators used in evaluating control under the old guidance and reframes the remaining three indicators. We intend to adopt this standard on January 1, 2018. We are evaluating the potential effects of the adoption to our financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the American Institute of Certified Public Accountants, and the Securities and Exchange Commission (SEC) did not have, or are not believed by management to have, a material impact on our present or future consolidated financial statements.

3. Net Income per Share

The following table sets forth the calculation of basic and diluted net income per share:

	Three Months Ended March 31,	
	2016	2015
	(In millions, except net income per share)	
Numerator:		
Net income	$ 24	$ 28
Denominator:		
Denominator for basic net income per share	55	49
Effect of dilutive securities:		
Share-based compensation	1	—
1.125% Warrants (1)	1	1
Denominator for diluted net income per share	57	50
Net income per share: (2)		
Basic	$ 0.44	$ 0.58
Diluted	$ 0.43	$ 0.56

(1) For more information regarding the 1.125% Warrants, refer to Note 11, "Derivatives."
(2) Source data for calculations in thousands.

Certain potentially dilutive common shares issuable are not included in the computation of diluted net income per share because to do so would be anti-dilutive.

4. Business Combinations

In the first quarter of 2016, we closed on several business combinations in the Health Plans segment. For all of these transactions we applied the acquisition method of accounting, where the total purchase price was allocated, or preliminarily allocated, to tangible and intangible assets acquired, and liabilities assumed based on their respective fair values. For Health Plans acquisitions, in general, only intangible assets are acquired. All of these acquisitions were funded using available cash and acquisition-related costs were insignificant.

Health Plans

Consistent with our strategy to grow in our existing markets, we closed the following Health Plans acquisitions in 2016:

Illinois. On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business of, Accountable Care Chicago, LLC, also known as MyCare Chicago. The initial purchase price was approximately $35 million, and the Illinois health plan added approximately 58,000 Medicaid members as a result of this transaction.

On January 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Loyola Physician Partners, LLC. The initial purchase price was approximately $15 million, and the Illinois health plan added approximately 21,000 Medicaid members as a result of this transaction.

On March 1, 2016, our Illinois health plan closed on its acquisition of the Medicaid membership, and certain assets related to the Medicaid business, of Better Health Network, LLC. The initial purchase price was approximately $18 million, and the Illinois health plan added approximately 34,000 Medicaid members as a result of this transaction.

Michigan. On January 1, 2016, our Michigan health plan closed on its acquisition of the Medicaid and MIChild membership, and certain Medicaid and MIChild assets, of HAP Midwest Health Plan, Inc. The initial purchase price was approximately $36

million, and the Michigan health plan added approximately 81,000 Medicaid and MIChild members as a result of this transaction.

Washington. On January 1, 2016, our Washington health plan closed on its acquisition of the Medicaid contracts, and certain assets related to the operation of the Medicaid business, of Columbia United Providers, Inc. The final purchase price was approximately $28 million, and the Washington health plan added approximately 57,000 Medicaid members as a result of this transaction.

For the acquisitions described above, we recorded goodwill to the Health Plans segment amounting to $98 million in the aggregate, which relates to future economic benefits arising from expected synergies to be achieved. Such synergies include use of our existing infrastructure to support the added membership. The amount recorded as goodwill is deductible for income tax purposes.

The following table presents the intangible assets identified in the transactions described above. The weighted-average amortization period, in the aggregate, is 5.9 years. For these acquisitions in the aggregate, we expect to record amortization of approximately $6 million per year in the years 2016 through 2020 and $1 million in 2021.

	Fair Value	Life
	(In millions)	(Years)
Intangible asset type:		
Contract rights - member list	$ 28	5
Provider network	6	10
	$ 34	

5. Fair Value Measurements

We consider the carrying amounts of cash and cash equivalents and other current assets and current liabilities (not including derivatives and current portion of long-term debt) to approximate their fair values because of the relatively short period of time between the origination of these instruments and their expected realization or payment. For our financial instruments measured at fair value on a recurring basis, we prioritize the inputs used in measuring fair value according to a three-tier fair value hierarchy as follows:

Level 1 — Observable Inputs

Level 1 financial instruments are actively traded and therefore the fair value for these securities is based on quoted market prices on one or more securities exchanges.

Level 2 — Directly or Indirectly Observable Inputs

Level 2 financial instruments are traded frequently though not necessarily daily. Fair value for these investments is determined using a market approach based on quoted prices for similar securities in active markets or quoted prices for identical securities in inactive markets.

Level 3 — Unobservable Inputs

Level 3 financial instruments are valued using unobservable inputs that represent management's best estimate of what market participants would use in pricing the financial instrument at the measurement date. Our Level 3 financial instruments include the following:

Derivative financial instruments. Derivative financial instruments include the 1.125% Call Option derivative asset and the 1.125% Conversion Option derivative liability. These derivatives are not actively traded and are valued based on an option pricing model that uses observable and unobservable market data for inputs. Significant market data inputs used to determine fair value as of March 31, 2016 included the price of our common stock, the time to maturity of the derivative instruments, the risk-free interest rate, and the implied volatility of our common stock. As described further in Note 11, “Derivatives,” the 1.125% Call Option asset and the 1.125% Conversion Option liability were designed such that changes in their fair values would offset, with minimal impact to the consolidated statements of income. Therefore, the sensitivity of changes in the unobservable inputs to the option pricing model for such instruments is mitigated.

The changes in fair value of Level 3 financial instruments for the three months ended March 31, 2016 were insignificant.

Our financial instruments measured at fair value on a recurring basis at March 31, 2016, were as follows:

	Total	Level 1	Level 2	Level 3
		(In millions)		
Corporate debt securities	$ 1,425	$ —	$ 1,425	$ —
Government-sponsored enterprise securities (GSEs)	214	214	—	—
Municipal securities	165	—	165	—

1.125% Conversion Option derivative liability	$ 374	$ —	$ —	$ 374
Total liabilities measured at fair value on a recurring basis	$ 374	$ —	$ —	$ 374

Fair Value Measurements – Disclosure Only

The carrying amounts and estimated fair values of our senior notes, which are classified as Level 2 financial instruments, are indicated in the following table.

	March 31, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
		(In millions)		
5.375% Notes	$ 689	$ 721	$ 689	$ 700
1.125% Convertible Notes	454	914	448	865
1.625% Convertible Notes	276	379	273	365
	$ 1,419	$ 2,014	$ 1,410	$ 1,930

6. Investments

The following tables summarize our investments as of the dates indicated:

	March 31, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,424	$ 3	$ 2	$ 1,425
GSEs	214	—	—	214
Municipal securities	164	1	—	165
U.S. treasury notes	114	—	—	114
Certificates of deposit	78	—	—	78
Asset-backed securities	74	—	—	74
	$ 2,068	$ 4	$ 2	$ 2,070

	December 31, 2015			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
	(In millions)			
Corporate debt securities	$ 1,189	$ —	$ 5	$ 1,184
GSEs	212	—	1	211
Municipal securities	186	—	1	185
U.S. treasury notes	78	—	—	78
Certificates of deposit	80	—	—	80
Asset-backed securities	63	—	—	63
	$ 1,808	$ —	$ 7	$ 1,801

The contractual maturities of our investments as of March 31, 2016 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 1,109	$ 1,109
Due after one year through five years	938	940
Due after five years through ten years	21	21
	$ 2,068	$ 2,070

Gross realized gains and losses from sales of available-for-sale securities are calculated under the specific identification method and are included in investment income. Gross realized investment gains and losses for the three months ended March 31, 2016 and 2015 were insignificant.

We have determined that unrealized gains and losses at March 31, 2016 and December 31, 2015, are temporary in nature, because the change in market value for these securities has resulted from fluctuating interest rates, rather than a deterioration of the credit worthiness of the issuers. So long as we maintain the intent and ability to hold these securities to maturity, we are unlikely to experience gains or losses. In the event that we dispose of these securities before maturity, we expect that realized gains or losses, if any, will be immaterial.

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of March 31, 2016:

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 453	$ 2	274	$ —	$ —	—

The following table segregates those available-for-sale investments that have been in a continuous loss position for less than 12 months, and those that have been in a loss position for 12 months or more as of December 31, 2015:

	In a Continuous Loss Position for Less than 12 Months			In a Continuous Loss Position for 12 Months or More		
	Estimated Fair Value	Unrealized Losses	Total Number of Positions	Estimated Fair Value	Unrealized Losses	Total Number of Positions
	(Dollars in millions)					
Corporate debt securities	$ 825	$ 4	588	$ 119	$ 1	87
GSEs	182	1	77	—	—	—
Municipal securities	128	1	181	—	—	—
	$ 1,135	$ 6	846	$ 119	$ 1	87

7. Receivables

Receivables consist primarily of amounts due from government Medicaid agencies, which may be subject to potential retroactive adjustments. Because all of our receivable amounts are readily determinable and substantially all of our creditors are governmental authorities, our allowance for doubtful accounts is immaterial. The information below is presented by segment.

	March 31, 2016	December 31, 2015
	(In millions)	
California	$ 121	$ 104
Florida	62	22

Other segment	58	49
	$ 863	$ 597

(1) See Note 14, Commitments and Contingencies, for further discussion of Puerto Rico health plan receivables.

8. Restricted Investments

Pursuant to the regulations governing our Health Plans segment subsidiaries, we maintain statutory deposits and deposits required by government authorities in certificates of deposit and U.S. treasury securities. We also maintain restricted investments as protection against the insolvency of certain capitated providers. The following table presents the balances of

restricted investments:

	March 31, 2016	December 31, 2015
	(In millions)	
Florida	$ 34	$ 34
Illinois	3	—
Michigan	1	1
New Mexico	47	43
Ohio	12	12
Puerto Rico	10	10
Texas	4	4
Utah	4	4
Wisconsin	1	1
Total Health Plans segment	$ 116	$ 109

The contractual maturities of our held-to-maturity restricted investments as of March 31, 2016 are summarized below:

	Amortized Cost	Estimated Fair Value
	(In millions)	
Due in one year or less	$ 111	$ 111
Due after one year through five years	5	5
	$ 116	$ 116

9. Medical Claims and Benefits Payable

The following table provides the details of our medical claims and benefits payable (including amounts payable for the provision of long-term services and supports, or LTSS) as of the dates indicated.

	March 31, 2016	December 31, 2015
	(In millions)	
Fee-for-service claims incurred but not paid (IBNP)	$ 1,392	$ 1,191
Pharmacy payable	111	88
Capitation payable	138	140
Other	299	266
	$ 1,940	$ 1,685

"Other" medical claims and benefits payable include amounts payable to certain providers for which we act as an intermediary on behalf of various government agencies without assuming financial risk. Such receipts and payments do not impact our consolidated statements of income. Non-risk provider payables amounted to $191 million and $167 million as of March 31, 2016 and December 31, 2015, respectively.

The following table presents the components of the change in our medical claims and benefits payable for the periods indicated. The amounts presented for “Components of medical care costs related to: Prior periods” represent the amount by which our original estimate of medical claims and benefits payable at the beginning of the period were more than the actual amount of the liability based on information (principally the payment of claims) developed since that liability was first reported.

	Three Months Ended March 31, 2016	Year Ended December 31, 2015
	(Dollars in millions)	
Medical claims and benefits payable, beginning balance	$ 1,685	$ 1,201
Components of medical care costs related to:		
Current period	3,755	11,935
Prior periods	(167)	(141)
Total medical care costs	3,588	11,794
Change in non-risk provider payables	24	48
Payments for medical care costs related to:		
Current period	2,241	10,448
Prior periods	1,116	910
Total paid	3,357	11,358
Medical claims and benefits payable, ending balance	$ 1,940	$ 1,685
Benefit from prior period as a percentage of:		
Balance at beginning of period	10.0%	11.8%
Premium revenue, trailing twelve months	1.2%	1.1%
Medical care costs, trailing twelve months	1.3%	1.2%

The portion of our total medical claims and benefits payable liability that is most subject to variability in the estimate is fee-for-service claims incurred but not paid (IBNP). Our IBNP, as included in medical claims and benefits payable, represents our best estimate of the total amount of claims we will ultimately pay with respect to claims that we have incurred as of the balance sheet date. We estimate our IBNP monthly using actuarial methods based on a number of factors.

Assuming that our initial estimate of IBNP is accurate, we believe that amounts ultimately paid would generally be between 8% and 10% less than the IBNP liability recorded at the end of the period as a result of the inclusion in that liability of the provision for adverse claims deviation and the accrued cost of settling those claims. Because the amount of our initial liability is merely an estimate (and therefore not perfectly accurate), we will always experience variability in that estimate as new information becomes available with the passage of time. Therefore, there can be no assurance that amounts ultimately paid out will fall within the range of 8% to 10% lower than the liability that was initially recorded. Furthermore, because our initial estimate of IBNP is derived from many factors, some of which are qualitative in nature rather than quantitative, we are seldom able to assign specific values to the reasons for a change in estimate – we only know when the circumstances for any one or more factors are out of the ordinary.

The use of a consistent methodology in estimating our liability for medical claims and benefits payable minimizes the degree to which the under– or overestimation of that liability at the close of one period may affect consolidated results of operations in subsequent periods. In particular, the use of a consistent methodology should result in the replenishment of reserves during any given period in a manner that generally offsets the benefit of favorable prior period development in that period. Facts and circumstances unique to the estimation process at any single date, however, may still lead to a material impact on consolidated results of operations in subsequent periods. Any absence of adverse claims development (as well as the expensing through general and administrative expense of the costs to settle claims held at the start of the period) will lead to the recognition of a benefit from prior period claims development in the period subsequent to the date of the original estimate.

As indicated above, the amounts ultimately paid out on our medical claims and benefits payable liabilities in fiscal years 2016 and 2015 were less than what we had expected when we had established those liabilities. The differences between our original estimates and the amounts ultimately paid out (or now expected to be ultimately paid out) for the most part related to IBNP. While many related factors working in conjunction with one another determine the accuracy of our estimates, we are seldom able to quantify the impact that any single factor has on a change in estimate. In addition, given the variability inherent in the reserving process, we will only be able to identify specific factors if they represent a significant departure from expectations. As a result, we do not expect to be able to fully quantify the impact of individual factors on changes in estimates.

We believe that the most significant uncertainties surrounding our IBNP estimates at March 31, 2016 are as follows:

- In the first quarter of 2016, our Marketplace enrollment across all health plans increased by approximately 425,000 members. Some of the states with significant increases included:
    - California: 57,000

- Florida: 114,000
- Texas: 122,000
- Utah: 48,000
- Wisconsin: 39,000

Because these new Marketplace members may have different utilization patterns than our legacy members, the reserves are subject to more than the usual amount of uncertainty.

- Our Illinois health plan added over 100,000 new members under acquisitions of three Medicaid contracts during the first quarter of 2016. Because these new members may have different utilization patterns than our legacy members, the reserves are subject to more than the usual amount of uncertainty.
- Our Florida health plan added approximately 100,000 new members under an acquisition in the fourth quarter of 2015. Because these new members may have different utilization patterns than our legacy members, the reserves are subject to more than the usual amount of uncertainty.
- At our New Mexico health plan, we overpaid certain inpatient and outpatient facility claims. We adjusted our claims payment history to reflect the claims payment pattern that would have occurred without these overpayments. For this reason, the reserves are subject to more than the usual amount of uncertainty.

We recognized favorable prior period claims development in the amount of $167 million for the three months ended March 31, 2016. This amount represents our estimate as of March 31, 2016, of the extent to which our initial estimate of medical claims and benefits payable at December 31, 2015 was more than the amount that will ultimately be paid out in satisfaction of that liability. We believe the overestimation was due primarily to the following factors:

- A new version of diagnostic codes was required for all claims with dates of service October 1, 2015, and later. As a result, payment was delayed or denied for a significant number of claims due to provider submission of claims with diagnostic codes that were no longer valid. Once providers were able to submit claims with the correct diagnostic codes, our actual costs were ultimately less than expected.
- At our New Mexico health plan, we overstated the impact of several pending high-dollar claims, and our actual costs were ultimately less than expected.
- At our Washington health plan, we overpaid certain outpatient facility claims in 2015 when the state converted to a new payment methodology. We did not include an estimate in the reserves for this potential recovery as of December 31, 2015.

10. Debt

As of March 31, 2016, contractual maturities of debt for the years ending December 31 are as follows:

	Total	2016	2017	2018	2019	2020	Thereafter
				(In millions)			
5.375% Notes	$ 700	$ —	$ —	$ —	$ —	$ —	$ 700
1.125% Convertible Notes	550	—	—	—	—	550	—
1.625% Convertible Notes (1)	302	—	—	—	—	—	302
Other	1	1	—	—	—	—	—
	$ 1,553	$ 1	$ —	$ —	$ —	$ 550	$ 1,002

(1) The 1.625% Notes have a contractual maturity date in 2044; however, on specified dates beginning in 2018 as described below, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes, or we may redeem any or all of the 1.625% Notes.

Substantially all of our debt is held at the parent, which is reported in the Other segment. The principal amounts, unamortized discount (net of premium related to 1.625% Notes), unamortized issuance costs, and net carrying amounts of debt were as follows:

	Principal Balance	Unamortized Discount	Unamortized Issuance Costs	Net Carrying Amount
		(In millions)		
March 31, 2016:				
5.375% Notes	$ 700	$ —	$ 11	$ 689
1.125% Convertible Notes	550	89	7	454
1.625% Convertible Notes	302	22	4	276
Other	1	—	—	1
	$ 1,553	$ 111	$ 22	$ 1,420
December 31, 2015:				
5.375% Notes	$ 700	$ —	$ 11	$ 689
1.125% Convertible Notes	550	95	7	448
1.625% Convertible Notes	302	25	4	273
Other	1	—	—	1
	$ 1,553	$ 120	$ 22	$ 1,411

	Three Months Ended March 31,	
	2016	2015
	(In millions)	
Interest cost recognized for the period relating to the:		
Contractual interest coupon rate	$ 12	$ 3
Amortization of the discount	7	7
	$ 19	$ 10

5.375% Senior Notes due 2022. On November 10, 2015, we completed the private offering of $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, unless earlier redeemed. Interest is payable semiannually in arrears on May 15 and November 15, beginning on May 15, 2016. The 5.375% Notes are not convertible into our common stock or any other securities.

The 5.375% Notes are guaranteed by certain of our wholly owned subsidiaries. The 5.375% Notes and the guarantees are effectively subordinated to all existing and future secured debt of us and our guarantors to the extent of the assets securing such debt. In addition, the 5.375% Notes and the guarantees are structurally subordinated to all indebtedness and other liabilities and preferred stock of our subsidiaries that do not guarantee the 5.375% Notes.

We may redeem some or all of the 5.375% Notes at any time, and prior to August 15, 2022, at a price equal to 100% of the principal amount redeemed plus accrued and unpaid interest thereon, plus a "make-whole" premium. Thereafter, we may redeem some or all of the 5.375% Notes at a price equal to 100% of the principal amount redeemed plus accrued and unpaid interest thereon. The 5.375% Notes contain customary non-financial covenants and change of control provisions.

In connection with the issuance and sale of the 5.375% Notes, we entered into a registration rights agreement. Under this agreement, we will use commercially reasonable efforts to register substantially identical notes (the Exchange Notes) with the SEC in 2016. We will then offer such freely tradable Exchange Notes in exchange for the 5.375% Notes. We will pay additional interest on the 5.375% Notes if the Exchange Notes offering is not completed timely.

Credit Facility. In June 2015, we entered into an unsecured $250 million revolving credit facility (Credit Facility). The Credit Facility has a term of five years and all amounts outstanding will be due and payable on June 12, 2020. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $350 million. As of March 31, 2016, outstanding letters of credit amounting to $6 million reduced the borrowing capacity to $244 million, and no amounts were outstanding under the Credit Facility.

Borrowings under the Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. In addition to interest payable on the principal amount of indebtedness outstanding from time to time under the Credit Facility, we are required to pay a quarterly commitment fee.

Although the Credit Facility is not secured by any of our assets, certain of our wholly owned subsidiaries have jointly and severally guaranteed our obligations under the Credit Facility.

The Credit Facility contains customary non-financial and financial covenants, including a minimum fixed charge coverage ratio, a maximum debt-to-EBITDA ratio and minimum statutory net worth. At March 31, 2016, we were in compliance with all financial covenants under the Credit Facility.

1.125% Cash Convertible Senior Notes due 2020. In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes (1.125% Notes) due January 15, 2020, unless earlier repurchased or converted. Interest is payable semiannually in arrears on January 15 and July 15.

The 1.125% Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the 1.125% Notes; equal in right of payment to any of our unsecured indebtedness that is not subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities of our subsidiaries.

The 1.125% Notes are convertible only into cash, and not into shares of our common stock or any other securities. The initial conversion rate for the 1.125% Notes is 24.5277 shares of our common stock per $1,000 principal amount of the 1.125% Notes. This represents an initial conversion price of approximately $40.77 per share of our common stock. Upon conversion, in lieu of receiving shares of our common stock, a holder will receive an amount in cash, per $1,000 principal amount of 1.125% Notes, equal to the settlement amount, determined in the manner set forth in the indenture. We may not redeem the 1.125% Notes prior to the maturity date. Holders may convert their 1.125% Notes only under the following circumstances:

- during any calendar quarter (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;

- during the five business day period immediately after any five consecutive trading day period (the measurement period) in which the trading price per $1,000 principal amount of 1.125% Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day;

- upon the occurrence of specified corporate events; or

- at any time on or after July 15, 2019 until the close of business on the second scheduled trading day immediately preceding the maturity date.

The 1.125% Notes met the stock price trigger in the quarter ended March 31, 2016, and are convertible to cash through at least June 30, 2016. Because the 1.125% Notes may be converted into cash within 12 months, the $454 million carrying amount is reported in current portion of long-term debt as of March 31, 2016.

The 1.125% Notes contain an embedded cash conversion option (the 1.125% Conversion Option), which was separated from the 1.125% Notes and accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the 1.125% Conversion Option settles or expires. The initial fair value liability of the 1.125% Conversion Option simultaneously reduced the carrying value of the 1.125% Notes (effectively an original issuance discount). This discount is amortized to the 1.125% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. This has resulted in our recognition of interest expense on the 1.125% Notes at an effective rate of approximately 6%. As of March 31, 2016, the 1.125% Notes have a remaining amortization period of 3.8 years. The 1.125% Notes' if-converted value exceeded their principal amount by approximately $239 million and $332 million as of March 31, 2016 and December 31, 2015, respectively.

1.625% Convertible Senior Notes due 2044. In September 2014, we issued $125 million principal amount of 1.625% convertible senior notes (1.625% Notes) due August 15, 2044, unless earlier repurchased, redeemed or converted. Combined with the 1.625% Notes issued in connection with the 3.75% Exchange described below, the aggregate principal amount issued under the 1.625% Notes was $302 million.

Interest is payable semiannually in arrears on February 15 and August 15. In addition, beginning with the semiannual interest period commencing immediately following the interest payment date on August 15, 2018, contingent interest will accrue on the 1.625% Notes during any semiannual interest period in which certain conditions or events occur, or under certain events of default. For example, additional interest of 0.25% per year will be payable on the 1.625% Notes for any semiannual interest period for which the principal amount of 1.625% Notes outstanding is less than $100 million.

The 1.625% Notes are senior unsecured obligations and rank senior in right of payment to any of our indebtedness that is expressly subordinated in right of payment to the 1.625% Notes; equal in right of payment to any of our unsecured indebtedness that is not subordinated; effectively junior in right of payment to any of our secured indebtedness to the extent of the value of the assets securing such indebtedness; and structurally junior to all indebtedness and other liabilities of our subsidiaries.

The initial conversion rate for the 1.625% Notes is 17.2157 shares of our common stock per $1,000 principal amount of the 1.625% Notes. This represents an initial conversion price of approximately $58.09 per share of our common stock. Upon conversion, we will pay cash and, if applicable, deliver shares of our common stock to the converting holder in an amount per $1,000 principal amount of 1.625% Notes equal to the settlement amount (as defined in the related indenture).

Holders may convert their 1.625% Notes only under the following circumstances:

- during any calendar quarter (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;
- during the five business day period after any five consecutive trading day period (the measurement period) in which the trading price per $1,000 principal amount of 1.625% Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day;
- upon the occurrence of specified corporate events;
- if we call any 1.625% Notes for redemption, at any time until the close of business on the business day immediately preceding the redemption date;
- during the period from, and including, May 15, 2018 to the close of business on the business day immediately preceding August 19, 2018; or
- at any time on or after February 15, 2044 until the close of business on the second scheduled trading day immediately preceding the maturity date, holders may convert their 1.625% Notes, in integral multiples of $1,000 principal amount, at the option of the holder regardless of the foregoing circumstances.

As of March 31, 2016, the 1.625% Notes were not convertible.

We may not redeem the 1.625% Notes prior to August 19, 2018. On or after August 19, 2018, we may redeem for cash all or part of the 1.625% Notes, except for the 1.625% Notes we are required to repurchase in connection with a fundamental change or on any specified repurchase date. The redemption price for the 1.625% Notes will equal 100% of the principal amount of the 1.625% Notes being redeemed, plus accrued and unpaid interest. In addition, holders of the 1.625% Notes may require us to repurchase some or all of the 1.625% Notes for cash on August 19, 2018, August 19, 2024, August 19, 2029, August 19, 2034 and August 19, 2039, in each case, at a specified price equal to 100% of the principal amount of the 1.625% Notes to be repurchased, plus accrued and unpaid interest.

Because the 1.625% Notes are net share settled and have cash settlement features, we have allocated the principal amount between a liability component and an equity component. The reduced carrying value on the 1.625% Notes resulted in a debt discount that is amortized back to the 1.625% Notes' principal amount through the recognition of non-cash interest expense over the expected life of the debt. The expected life of the debt is approximately four years, beginning on the issuance date and ending on the first date we may redeem the 1.625% Notes in August 2018. As of March 31, 2016, the 1.625% Notes have a remaining amortization period of 2.4 years. This has resulted in our recognition of interest expense on the 1.625% Notes at an effective rate approximating what we would have incurred had nonconvertible debt with otherwise similar terms been issued, or approximately 5%. The outstanding 1.625% Notes' if-converted value exceeded their principal amount by approximately $30 million and $10 million as of March 31, 2016 and December 31, 2015, respectively. At March 31, 2016 and December 31, 2015, the equity component of the 1.625% Notes, including the impact of deferred taxes, was $23 million.

11. Derivatives

The following table summarizes the fair values and the presentation of our derivative financial instruments (defined and discussed individually below) in the consolidated balance sheets:

	Balance Sheet Location	March 31, 2016	December 31, 2015
		(In millions)	
Derivative asset:			
1.125% Call Option	Current assets: Derivative asset	$ 377	$ 374
Derivative liability:			
1.125% Conversion Option	Current liabilities: Derivative liability	$ 377	$ 374

Our derivative financial instruments do not qualify for hedge treatment; therefore the change in fair value of these instruments is recognized immediately in our consolidated statements of income, and reported in other expense, net. Gains and losses for our derivative financial instruments are presented individually in the consolidated statements of cash flows, supplemental cash flow information.

1.125% Notes Call Spread Overlay. Concurrent with the issuance of the 1.125% Notes in 2013, we entered into privately negotiated hedge transactions (collectively, the 1.125% Call Option) and warrant transactions (collectively, the 1.125% Warrants), with certain of the initial purchasers of the 1.125% Notes (the Counterparties). We refer to these transactions collectively as the Call Spread Overlay. Under the Call Spread Overlay, the cost of the 1.125% Call Option we purchased to cover the cash outlay upon conversion of the 1.125% Notes was reduced by proceeds from the sale of the 1.125% Warrants. Assuming full performance by the Counterparties (and 1.125% Warrants strike prices in excess of the conversion price of the 1.125% Notes), these transactions are intended to offset cash payments in excess of the principal amount of the 1.125% Notes due upon any conversion of the 1.125% Notes.

1.125% Call Option. The 1.125% Call Option, which is indexed to our common stock, is a derivative asset that requires mark-to-market accounting treatment due to cash settlement features until the 1.125% Call Option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Call Option, refer to Note 5, "Fair Value Measurements."

1.125% Conversion Option. The embedded cash conversion option within the 1.125% Notes is accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the cash conversion option settles or expires. For further discussion of the inputs used to determine the fair value of the 1.125% Conversion Option, refer to Note 5, "Fair Value Measurements."

As of March 31, 2016, the 1.125% Call Option and the 1.125% Conversion Option were classified as a current asset and current liability, respectively, because the 1.125% Notes may be converted within 12 months of March 31, 2016, as described in Note 10, "Debt."

12. Stockholders' Equity

Stockholders' equity increased $33 million during the three months ended March 31, 2016 compared with stockholders' equity at December 31, 2015. The increase was primarily due to net income of $24 million, $6 million of other comprehensive income and $3 million related to employee stock transactions.

1.125% Warrants. In connection with the 1.125% Notes Call Spread Overlay transaction described in Note 11, "Derivatives," in 2013, we issued 13,490,236 warrants with a strike price of $53.8475 per share. The number of warrants and the strike price are subject to adjustment under certain circumstances. If the market value per share of our common stock exceeds the strike price of the 1.125% Warrants on any trading day during the 160 trading day measurement period (beginning on April 15, 2020) under the 1.125% Warrants, we will be obligated to issue to the Counterparties a number of shares equal in value to the product of the amount by which such market value exceeds such strike price and 1/160th of the aggregate number of shares of our common stock underlying the 1.125% Warrants, subject to a share delivery cap. The 1.125% Warrants could separately have a dilutive effect to the extent that the market value per share of our common stock exceeds the applicable strike price of the 1.125% Warrants. Refer to Note 3, "Net Income per Share," for dilution information for the periods presented. We will not receive any additional proceeds if the 1.125% Warrants are exercised.

Securities Repurchase Program. Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Stock Incentive Plans. In connection with our equity incentive plans and employee stock purchase plan, we issued approximately 200,000 shares of common stock, net of shares used to settle employees' income tax obligations, for the three months ended March 31, 2016.

Charged to general and administrative expenses, total share-based compensation expense was as follows:

	Three Months Ended March 31,	
	2016	2015
	(In millions)	
Restricted stock and performance awards	$ 5	$ 5
Employee stock purchase plan and stock options	2	1
	$ 7	$ 6

As of March 31, 2016, there was $53 million of total unrecognized compensation expense related to unvested restricted share awards, including those with performance conditions, which we expect to recognize over a remaining weighted-average period of 2.1 years. This unrecognized compensation cost assumes an estimated forfeiture rate of 3.8% for non-executive employees as of March 31, 2016.

Restricted stock. Restricted and performance stock activity for the three months ended March 31, 2016 is summarized below:

	Shares	Weighted Average Grant Date Fair Value
	(In thousands)	
Unvested balance as of December 31, 2015	1,035	$ 46.68
Granted	498	64.21
Vested	(291)	39.09
Forfeited	(1)	33.53
Unvested balance as of March 31, 2016	1,241	55.50

The total fair value of restricted and performance awards granted during the three months ended March 31, 2016 and 2015 was $18 million and $11 million, respectively. The total fair value of restricted awards, including those with performance and market conditions, which vested during the three months ended March 31, 2016 and 2015 was $32 million and $23 million, respectively.

As of March 31, 2016, there were approximately 603,000 unvested restricted shares outstanding which contained one or more performance measures. In the event the vesting conditions are not achieved, the awards will lapse. Based on our assessment as of March 31, 2016, we expect the performance conditions for approximately 425,000 of these outstanding restricted share awards to be met in full.

13. Segment Information

We have three reportable segments. These segments include our Health Plans and Molina Medicaid Solutions segments, which comprise the vast majority of our operations, and our Other segment. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015, which is reported in Other.

Our reportable segments are consistent with how we currently manage the business and view the markets we serve. The Health Plans segment consists of our health plans and our direct delivery business. Our health plans represent operating segments that have been aggregated for reporting purposes because they share similar economic characteristics. The Molina Medicaid Solutions segment provides MMIS design, development, and implementation; business process outsourcing solutions; hosting services; and information technology support services to state Medicaid agencies. Our Other segment includes other businesses, such as our Pathways behavioral health and social services provider, that do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

The following table presents gross margin as the appropriate earnings measure for our reportable segments, based on how our chief operating decision maker currently reviews results, assesses performance, and allocates resources.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." Medical margin represents the amount earned by the Health Plans segment after medical costs are deducted from premium revenue. The medical care ratio represents the amount of medical care costs as a percentage

of premium revenue. One of the key metrics used to assess the performance of the Health Plans segment is the medical care ratio; therefore, the underlying medical margin is the most important measure of earnings reviewed by the chief operating decision maker. The service margin is equal to service revenue minus cost of service revenue. We previously reported our segment results to the operating income level, where we reported the cost of all centralized services within our most significant segment, the Health Plans segment.

	Health Plans	Molina Medicaid Solutions	Other	Consolidated
		(In millions)		
Three Months Ended March 31, 2016				
Total revenue (1)	$ 4,201	$ 52	$ 90	$ 4,343
Gross margin	407	6	7	420
Three Months Ended March 31, 2015				
Total revenue (1)	3,117	52	2	3,171
Gross margin	335	16	—	351
Total Assets				
March 31, 2016	5,302	250	1,631	7,183
December 31, 2015	4,707	213	1,656	6,576

(1) Total revenue consists primarily of premium revenue for the Health Plans segment, and service revenue for the Molina Medicaid Solutions and Other segments.

The following table reconciles gross margin by segment to consolidated income before income tax expense:

	Three Months Ended March 31,	
	2016	2015
	(In millions)	
Gross margin:		
Health Plans	$ 407	$ 335
Molina Medicaid Solutions	6	16
Other	7	—
Other operating revenues (1)	208	148
Less: other operating expenses (2)	539	417
Operating income	89	82
Other expenses, net	25	15
Income before income tax expense	$ 64	$ 67

(1) Other operating revenues include premium tax revenue, health insurer fee revenue, investment income and other revenue.

(2) Other operating expenses include general and administrative expenses, premium tax expenses, health insurer fee expenses and depreciation and amortization.

14. Commitments and Contingencies

Legal Proceedings. The health care and business process outsourcing industries are subject to numerous laws and regulations of federal, state, and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly funded programs, and the repayment of previously billed and collected revenues.

We are involved in legal actions in the ordinary course of business, some of which seek monetary damages, including claims for punitive damages, which are not covered by insurance. We have accrued liabilities for certain matters for which we deem

the loss to be both probable and estimable. Although we believe that our estimates of such losses are reasonable, these estimates could change as a result of further developments of these matters. The outcome of legal actions is inherently uncertain and such pending matters for which accruals have not been established have not progressed sufficiently through discovery and/or development of important factual information and legal issues to enable us to estimate a range of possible loss, if any. While it is not possible to accurately predict or determine the eventual outcomes of these items, an adverse determination in one or more of these pending matters could have a material adverse effect on our consolidated financial position, results of operations, or cash flows.

State of Louisiana. On June 26, 2014, the state of Louisiana filed a Petition for Damages against Molina Medicaid Solutions, Molina Healthcare, Inc., Unisys Corporation, and Paramax Systems Corporation, a subsidiary of Unisys, in the Parish of Baton Rouge, 19th Judicial District, versus number 631612. The Petition alleges that between 1989 and 2012, the defendants utilized an incorrect reimbursement formula for the payment of pharmaceutical claims. We believe we have several meritorious defenses to the claims of the state, and any liability for the alleged claims is not currently probable and not reasonably estimable.

United States of America, ex rel., Anita Silingo v. Mobile Medical Examination Services, Inc., et al. On or around October 14, 2014, Molina Healthcare of California, Molina Healthcare of California Partner Plan, Inc., Mobile Medical Examination Services, Inc. (MedXM), and other health plan defendants were served with a Complaint previously filed under seal in the Central District Court of California by Relator, Anita Silingo, Case No. SACV13-1348-FMO(SHx). The Complaint alleges that MedXM improperly modified medical records and otherwise took inappropriate steps to increase members' risk adjustment scores, and that the defendants, including Molina Healthcare of California and Molina Healthcare of California Partner Plan, Inc., purportedly turned a "blind eye" to these unlawful practices. The Department of Justice has declined to intervene. The District Court dismissed this action as to Molina without leave to amend as to some allegations and with leave to amend as to other allegations. On October 22, 2015, the Relator filed a third amended complaint. We believe that we have several meritorious defenses to the claims of the Relator, and any liability for the alleged claims is not currently probable and not reasonably estimable.

Provider Claims. Many of our medical contracts are complex in nature and may be subject to differing interpretations regarding amounts due for the provision of various services. Such differing interpretations have led certain medical providers to pursue us for additional compensation. The claims made by providers in such circumstances often involve issues of contract compliance, interpretation, payment methodology, and intent. These claims often extend to services provided by the providers over a number of years.

Various providers have contacted us seeking additional compensation for claims that we believe to have been settled. These matters, when finally concluded and determined, will not, in our opinion, have a material adverse effect on our business, consolidated financial position, results of operations, or cash flows.

States' Budgets. From time to time the states in which our health plans operate may experience financial difficulties, which could lead to delays premium payments. For example, the state of Illinois is currently operating without a budget for its fiscal year ending June 30, 2016. As of March 31, 2016, our Illinois health plan served approximately 206,000 members, and recognized premium revenue of approximately $149 million in the first quarter of 2016. As of April 25, 2016, Illinois is current with its premium payments through February 29, 2016, but has not paid us for March 2016.

In another example, the Commonwealth of Puerto Rico has reported that it may lack sufficient resources to fund all necessary governmental programs, including health care-related programs, as well as meet its debt obligations for its fiscal year ending June 30, 2016. On May 2, 2016, Puerto Rico defaulted on approximately $422 million in debt repayment obligations to certain bondholders. In addition, it is likely to default on the $2 billion debt repayment obligation due to such bondholders on July 1, 2016.

As of April 29, 2016, the Commonwealth had paid us the first three weekly installments due for the month of April 2016. However, in a letter dated April 29, 2016, the Puerto Rico Health Insurance Administrator notified our Puerto Rico health plan that it would be unable at this time to make the fourth and final 25% installment payment of the capitation amount due for April 2016, or approximately $15 million. We are uncertain when the Puerto Rico health plan will be paid the fourth and final capitation amount for April 2016, as well as when our health plan will be paid the initial weekly capitation installments for May 2016.

As of March 31, 2016, the plan served approximately 339,000 members and recognized premium revenue of approximately $181 million in the first quarter of 2016, or approximately $60 million per month. Total premiums receivable from the Commonwealth as of March 31, 2016, were approximately $30 million, of which approximately $15 million has been collected.

Puerto Rico Member Eligibility and Premium Revenue. It is the practice of the Commonwealth to pay us for eligible members only after those members have been assigned to us, and our plan has sent electronic confirmation of the receipt of eligibility.

Particularly in the early stages of our contract with Puerto Rico, the plan's confirmation of eligibility of certain members was not accepted by the Commonwealth as a result of various technical issues. The plan has continued to pay for medical services for all members in question, but the Commonwealth is withholding payment of approximately $12 million of premium revenue related to those members. We believe we have a valid claim to all of the premiums withheld and we are in discussions with the Commonwealth regarding this matter.

It has been our practice in the past to continue to serve our members and pay health care providers for services rendered in circumstances where state (or Commonwealth) governments are temporarily unable to pay us, so long as we continue to believe that such state (or Commonwealth) governments will ultimately pay us. We are continuing to closely monitor the situation in Puerto Rico, including whether we should exit the Puerto Rico market.

Regulatory Capital and Dividend Restrictions. Our health plans, which are operated by our respective wholly owned subsidiaries in those states, are subject to state laws and regulations that, among other things, require the maintenance of minimum levels of statutory capital, as defined by each state. Regulators in some states may also attempt to enforce capital requirements upon us that require the retention of net worth in excess of amounts formally required by statute or regulation. Such statutes, regulations and informal capital requirements also restrict the timing, payment, and amount of dividends and other distributions that may be paid to us as the sole stockholder. To the extent our subsidiaries must comply with these regulations, they may not have the financial flexibility to transfer funds to us.

Based on current statutes and regulations, the net assets in these subsidiaries (after intercompany eliminations) which may not be transferable to us in the form of loans, advances, or cash dividends was approximately $1,221 million at March 31, 2016, and $1,229 million at December 31, 2015. Because of the statutory restrictions that inhibit the ability of our health plans to transfer net assets to us, the amount of retained earnings readily available to pay dividends to our stockholders is generally limited to cash, cash equivalents and investments held by the parent company – Molina Healthcare, Inc. Such cash, cash equivalents and investments amounted to $542 million and $612 million as of March 31, 2016 and December 31, 2015, respectively.

The National Association of Insurance Commissioners (NAIC) adopted rules effective December 31, 1998, which, if implemented by the states, set minimum capitalization requirements for insurance companies, HMOs, and other entities bearing risk for health care coverage. The requirements take the form of risk-based capital (RBC) rules which may vary from state to state.

As of March 31, 2016, our health plans had aggregate statutory capital and surplus of approximately $1,349 million compared with the required minimum aggregate statutory capital and surplus of approximately $854 million. All of our health plans were in compliance with the minimum capital requirements at March 31, 2016. We have the ability and commitment to provide additional capital to each of our health plans when necessary to ensure that statutory capital and surplus continue to meet regulatory requirements.

15. Related Party Transactions

Our California health plan has entered into a provider agreement with Pacific Healthcare IPA (Pacific), which is 50% owned by the brother-in-law of Dr. J. Mario Molina and John C. Molina. Under the terms of this provider agreement, the California health plan pays Pacific for medical care Pacific provides to health plan members. For the three months ended March 31, 2016 and 2015, the amounts paid to Pacific were insignificant.

Refer to Note 16, "Variable Interest Entities (VIEs)," for a discussion of the Joseph M. Molina, M.D. Professional Corporations.

16. Variable Interest Entities (VIEs)

Joseph M. Molina M.D., Professional Corporations

The Joseph M. Molina, M.D. Professional Corporations (JMMPC) were created to further advance our direct delivery business. JMMPC's primary shareholder is Dr. J. Mario Molina, our chief executive officer, president, and chairman of the board of directors. Dr. Molina is paid no salary and receives no dividends in connection with his work for, or ownership of, JMMPC. JMMPC provides primary care medical services through its employed physicians and other medical professionals. JMMPC also provides certain specialty referral services to our California health plan members through a contracted provider network. Substantially all of the individuals served by JMMPC are members of our health plans. JMMPC does not have agreements to provide professional medical services with any other entities.

Our wholly owned subsidiary, Molina Medical Management, Inc. (MMM), has entered into services agreements with JMMPC to provide clinic facilities, clinic administrative support staff, patient scheduling services and medical supplies to JMMPC. The services agreements were designed such that JMMPC will operate at break even, ensuring the availability of quality care and

access for our health plan members. The services agreements provide that the administrative fees charged to JMMPC by MMM are reviewed annually to assure the achievement of this goal.

Separately, our California, Florida, New Mexico, Utah and Washington health plans have entered into primary care services agreements with JMMPC. These agreements direct our health plans to perform a monthly reconciliation, to either fund JMMPC's operating deficits, or receive JMMPC's operating surpluses, such that JMMPC will derive no profit or loss. Because the MMM services agreements described above mitigate the likelihood of significant operating deficits or surpluses, such monthly reconciliation amounts are generally insignificant. For the three months ended March 31, 2016 and 2015, our health plans paid $31 million and $25 million, respectively, to JMMPC for health care services provided by JMMPC to the health plans' members.

We have determined that JMMPC is a VIE, and that we are its primary beneficiary. We have reached this conclusion under the power and benefits criterion model according to GAAP. Specifically, we have the power to direct the activities that most significantly affect JMMPC's economic performance, and the obligation to absorb losses or right to receive benefits that are potentially significant to the VIE, under the agreements described above. Because we are its primary beneficiary, we have consolidated JMMPC. JMMPC's assets may be used to settle only JMMPC's obligations, and JMMPC's creditors have no recourse to the general credit of Molina Healthcare, Inc. As of March 31, 2016, JMMPC had total assets of $12 million, and total liabilities of $12 million. As of December 31, 2015, JMMPC had total assets of $17 million, and total liabilities of $17 million.

Our maximum exposure to loss as a result of our involvement with JMMPC is generally limited to the amounts needed to fund JMMPC's ongoing payroll, employee benefits and medical care costs associated with JMMPC's specialty referral activities. We believe that such loss exposures will be immaterial to our consolidated operating results and cash flows for the foreseeable future.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements regarding our business, financial condition, and results of operations within the meaning of Section 27A of the Securities Act of 1933, or Securities Act, and Section 21E of the Securities Exchange Act of 1934, or Securities Exchange Act. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we are including this statement for purposes of complying with these safe harbor provisions. All statements, other than statements of historical facts, included in this quarterly report may be deemed to be forward-looking statements for purposes of the Securities Act and the Securities Exchange Act. Without limiting the foregoing, we use the words "anticipate(s)," "believe(s)," "estimate(s)," "expect(s)," "intend(s)," "may," "plan(s)," "project(s)," "will," "would," "could," "should" and similar expressions to identify forward-looking statements, although not all forward-looking statements contain these identifying words. We cannot guarantee that we will actually achieve the plans, intentions, or expectations disclosed in our forward-looking statements and, accordingly, you should not place undue reliance on our forward-looking statements. There are a number of important factors that could cause actual results or events to differ materially from the forward-looking statements that we make. You should read these factors and the other cautionary statements as being applicable to all related forward-looking statements wherever they appear in this quarterly report. We caution you that we do not undertake any obligation to update forward-looking statements made by us. Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual results in future periods to differ materially from those projected, estimated, expected, or contemplated. Those known risks and uncertainties include, but are not limited to, the following:

- uncertainties and evolving market and provider economics associated with the implementation of the Affordable Care Act, the Medicaid Expansion, the insurance marketplaces, the effect of various implementing regulations, and uncertainties regarding the Medicare-Medicaid dual eligible demonstration programs in California, Illinois, Michigan, Ohio, South Carolina, and Texas;
- management of our medical costs, including seasonal flu patterns and rates of utilization that are consistent with our expectations, our ability to reduce over time the high medical costs commonly associated with new patient populations, and the success of our care management initiatives;
- our ability to predict with a reasonable degree of accuracy utilization rates in newly acquired plans and new geographies where we have less experience with both the patient and the provider populations;
- our ability to manage growth, including maintaining and creating adequate internal systems and controls relating to authorizations, approvals, and the overall success of care management initiatives designed to control costs;
- our ability to deal with increased pharmacy costs, including the increasing cost of high-cost specialty drugs, and formulary changes that allow the option of higher priced nongeneric drugs;
- our ability to manage in an environment where the overall trend suggests lower premiums per patient per month (PMPM) than past experience;
- federal or state medical cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit sharing arrangements, risk adjustment and conflicting interpretations thereof;
- the interpretation and implementation of at-risk premium rules regarding the achievement of certain quality measures, and our ability to recognize revenue amounts associated therewith;
- the interpretation and implementation of state contract performance requirements regarding the achievement of certain quality measures, and our ability to avoid liquidated damages associated therewith;
- cyber-attacks or other privacy or data security incidents resulting in an inadvertent unauthorized disclosure of protected health information;
- the success of our new health plan in Puerto Rico, including the resolution of the Puerto Rico debt crisis, payment of all amounts due under our Medicaid contract, and our efforts to have providers prescribe generics notwithstanding recent changes to Puerto Rico's formulary;
- specialty drugs or generic drugs that are exorbitantly priced but not factored into the calculation of our capitated rates;
- significant budget pressures on state governments and their potential inability to maintain current rates, to implement expected rate increases, or to maintain existing benefit packages or membership eligibility thresholds or criteria, including the resolution of the Illinois budget impasse and continued payment of all amounts due to our Illinois health plan;
- the accurate estimation of incurred but not reported or paid medical costs across our health plans;
- retroactive adjustments to premium revenue or accounting estimates which require adjustment based upon subsequent developments or new information;
- efforts by states to recoup previously paid amounts, including but not limited to our dispute with the state of New Mexico related to reimbursement for retroactively enrolled members in 2014;
- the success of our profit improvement and cost-cutting initiatives;
- the success of our efforts to retain existing government contracts and to obtain new government contracts in connection with state requests for proposals (RFPs) in both existing and new states;

- the continuation and renewal of the government contracts of both our health plans and Molina Medicaid Solutions and the terms under which such contracts are renewed;
- complications, member confusion, or enrollment backlogs related to the annual renewal of Medicaid coverage;
- government audits and reviews, and any fine, enrollment freeze, or monitoring program that may result therefrom;
- changes with respect to our provider contracts and the loss of providers;
- approval by state regulators of dividends and distributions by our health plan subsidiaries;
- changes in funding under our contracts as a result of regulatory changes, programmatic adjustments, or other reforms;
- high dollar claims related to catastrophic illness;
- the favorable resolution of litigation, arbitration, or administrative proceedings;
- the relatively small number of states in which we operate health plans;
- the effect on our Los Angeles County subcontract of Centene's acquisition of Health Net;
- the availability of adequate financing on acceptable terms to fund and capitalize our expansion and growth, repay our outstanding indebtedness at maturity and meet our liquidity needs, including the interest expense and other costs associated with such financing;
- the failure of a state in which we operate to renew its federal Medicaid waiver;
- changes generally affecting the managed care or Medicaid management information systems industries;
- increases in government surcharges, taxes, and assessments, including but not limited to the deductibility of certain compensation costs;
- newly emergent viruses or widespread epidemics, including the Zika virus, and associated public alarm;
- changes in general economic conditions, including unemployment rates;
- the sufficiency of our funds on hand to pay the amounts due upon conversion of our outstanding notes; and
- increasing competition and consolidation in the Medicaid industry.

Investors should refer to Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015 and Part II, Item 1A of this Quarterly Report on Form 10-Q, for a discussion of certain risk factors that could materially affect our business, financial condition, cash flows, or results of operations. Given these risks and uncertainties, we can give no assurance that any results or events projected or contemplated by our forward-looking statements will in fact occur.

This document and the following discussion of our financial condition and results of operations should be read in conjunction with the accompanying consolidated financial statements and the notes to those statements appearing elsewhere in this report, and the audited financial statements and Management's Discussion and Analysis appearing in our Annual Report on Form 10-K for the year ended December 31, 2015.

Company Overview

Molina Healthcare, Inc. provides quality health care to people receiving government assistance. We offer cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program. We have three reportable segments. These segments include our Health Plans and Molina Medicaid Solutions segments, which comprise the vast majority of our operations, and our Other segment. As of December 31, 2015, we changed our reporting structure as a result of the Pathways acquisition in November 2015, which is reported in Other. All prior periods reported conform to this presentation.

First Quarter 2016 Compared with First Quarter 2015

Net income per diluted share decreased to $0.43 in the first quarter of 2016 compared with $0.56 reported for the first quarter of 2015. The primary reason for the decline in earnings year over year was reduced Medicaid Expansion premium rates that lowered income before taxes by approximately $50 million ($0.55 per diluted share).

Strong enrollment growth generated approximately $1 billion, or 34% more premium revenue in the first quarter of 2016 compared with the first quarter of 2015. Enrollment growth was primarily due to increased Marketplace enrollment, the start-up of the Puerto Rico health plan in April 2015, and acquisitions. Consolidated premium revenue measured on a per-member per-month (PMPM) basis decreased approximately 6% in the first quarter of 2016 when compared with the first quarter of 2015. The decline in PMPM premium revenue was primarily the result of lower PMPM premiums for Medicaid Expansion and the Marketplace.

The medical care ratio increased to 89.8% in the first quarter of 2016, from 88.7% in the first quarter of 2015. Consolidated medical care costs measured on a PMPM basis decreased approximately 5% in the first quarter of 2016 when compared with the first quarter of 2015. The PMPM decrease in medical care costs, which was primarily related to increased Marketplace membership, was more than offset by the declines in PMPM revenues as described above.

General and administrative expenses as a percentage of total revenue (the "general and administrative expense ratio") decreased slightly to 7.8% in the first quarter of 2016, from 8.1% in the first quarter of 2015, primarily the result of improved leverage of fixed administrative expenses over higher total revenue.

Market Updates
Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 1, "Basis of Presentation," for a discussion of the current year market updates.

Understanding Our Business

Health Plans Segment

Our Health Plans segment consists of health plans in 11 states and the Commonwealth of Puerto Rico, and includes our direct delivery business. As of March 31, 2016, these health plans served 4.2 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals. Additionally, we serve Health Insurance Marketplace (Marketplace) members, most of whom receive government premium subsidies.

Health Plan Segment Membership by Health Plan and Program. The following tables set forth our Health Plans membership as of the dates indicated:

	March 31, 2016	December 31, 2015	March 31, 2015
Ending Membership by Health Plan:			
California	676,000	620,000	574,000
Florida	576,000	440,000	352,000
Illinois	206,000	98,000	102,000
Michigan	399,000	328,000	256,000
New Mexico	246,000	231,000	222,000
Ohio	336,000	327,000	350,000
Puerto Rico (1)	339,000	348,000	—
South Carolina	102,000	99,000	111,000
Texas	380,000	260,000	268,000
Utah	151,000	102,000	90,000
Washington	672,000	582,000	533,000
Wisconsin	137,000	98,000	107,000
	4,220,000	3,533,000	2,965,000
Ending Membership by Program:			
Temporary Assistance for Needy Families (TANF) and CHIP (2)	2,485,000	2,312,000	1,825,000
Medicaid Expansion	632,000	557,000	437,000
Aged, Blind or Disabled (ABD)	380,000	366,000	358,000
Marketplace	630,000	205,000	266,000
Medicare-Medicaid Plan (MMP) – Integrated (3)	50,000	51,000	34,000
Medicare Special Needs Plans (Medicare)	43,000	42,000	45,000
	4,220,000	3,533,000	2,965,000

(1) The Puerto Rico health plan began serving members effective April 1, 2015.
(2) CHIP stands for Children's Health Insurance Program.
(3) MMP members who receive both Medicaid and Medicare coverage from Molina Healthcare.

Health Plan Segment Premiums by Program. The amount of the premiums paid to our health plans may vary substantially between states and among various government programs. The following table sets forth the ranges of premiums paid to our state health plans by program on a PMPM basis, for the three months ended March 31, 2016. The "Consolidated" column represents the weighted-average amounts for our total membership by program.

	PMPM Premiums		
	Low	High	Consolidated
TANF and CHIP	$ 120.00	$ 290.00	$ 180.00
Medicaid Expansion	320.00	490.00	370.00
ABD	410.00	1,530.00	960.00
Marketplace	180.00	370.00	250.00
MMP – Integrated	1,210.00	3,220.00	2,220.00
Medicare	810.00	1,100.00	1,030.00

Health Plan Segment Medical Care Costs by Type. The following table provides the details of consolidated medical care costs by category for the periods indicated (dollars in millions except PMPM amounts):

	Three Months Ended March 31,					
	2016			2015		
	Amount	PMPM	% of Total	Amount	PMPM	% of Total
Fee for service	$ 2,737	$ 221.77	76.3%	$ 1,948	$ 226.04	73.9%
Pharmacy	525	42.53	14.6	351	40.75	13.3
Capitation	295	23.87	8.2	217	25.10	8.2
Direct delivery	16	1.34	0.5	27	3.11	1.0
Other	15	1.23	0.4	93	10.80	3.6
	$ 3,588	$ 290.74	100.0%	$ 2,636	$ 305.80	100.0%

Molina Medicaid Solutions Segment

Our Molina Medicaid Solutions segment provides business processing and information technology development and administrative services to Medicaid agencies in Idaho, Louisiana, Maine, New Jersey, West Virginia, and the U.S. Virgin Islands, and drug rebate administration services in Florida. Operations in each of those jurisdictions are performed pursuant to separate contracts with each respective Medicaid agency.

Other Segment

Our Other segment includes other businesses, such as our Pathways behavioral health and social services provider, that do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

How We Assess Performance

One of the key metrics used to assess the performance of our most significant segment, the Health Plans segment, is the medical care ratio. The medical care ratio represents the amount of medical care costs as a percentage of premium revenue. Therefore, the underlying gross margin, or the amount earned by the Health Plans segment after medical costs are deducted from premium revenue, is the most important measure of earnings reviewed by management.

Gross margin for our Health Plans segment is referred to as "Medical margin," and for our Molina Medicaid Solutions and Other segments, as "Service margin." The service margin is equal to service revenue minus cost of service revenue. The following table presents gross margin for the Health Plans and Molina Medicaid Solutions segments; the comparison of results for the Other segment was not meaningful for the periods presented. Management's discussion and analysis of the changes in the individual components of gross margin, by reportable segment, is below under Results of Operations.

	Three Months Ended March 31,			
	2016	2015	$ Change	% Change
	(In millions)			
Health Plans:				
Premium revenue	$ 3,995	$ 2,971	$ 1,024	34 %
Less: medical care costs	3,588	2,636	952	36
Medical margin	$ 407	$ 335	$ 72	21 %
Medical care ratio	89.8%	88.7%		
Molina Medicaid Solutions:				
Service revenue	$ 52	$ 52	$ —	— %
Less: cost of service revenue	46	36	10	28
Service margin	$ 6	$ 16	$ (10)	(63)%
Service cost ratio	88.8%	69.2%		

Our Use of Non-GAAP Financial Measures

We use two non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry. These non-GAAP financial measures should be considered as supplements to, and not as substitutes for or superior to, GAAP measures. The year over year changes for items comprising both of these measures are described below in Results of Operations, in the components of net income.

The first of these non-GAAP measures is earnings before interest, taxes, depreciation and amortization (EBITDA). We believe that EBITDA is particularly helpful in assessing our ability to meet the cash demands of our operating units. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to EBITDA.

	Three Months Ended March 31,	
	2016	2015
	(In millions)	
Net income	$ 24	$ 28
Adjustments:		
Depreciation, and amortization of intangible assets and capitalized software	37	29
Interest expense	25	15
Income tax expense	40	39
EBITDA	$ 126	$ 111

The second of these non-GAAP measures is adjusted net income (including adjusted net income per diluted share). We believe that adjusted net income per diluted share is very helpful in assessing our financial performance exclusive of the non-cash impact of the amortization of purchased intangibles. The following table reconciles net income, which we believe to be the most comparable GAAP measure, to adjusted net income.

	Three Months Ended March 31,			
	2016		2015	
	(In millions, except diluted per-share amounts)			
Net income	$ 24	$ 0.43	$ 28	$ 0.56
Adjustment, net of tax:				
Amortization of intangible assets	5	0.08	3	0.06
Adjusted net income (1)	$ 29	$ 0.51	$ 31	$ 0.62

(1) Beginning in the first quarter of 2016, we revised our calculation of adjusted net income. We no longer subtract "Amortization of convertible senior notes and lease financing obligations" from net income to arrive at adjusted net income. We made this change because various capital transactions that we completed in 2015 reduced our relative reliance on convertible notes and lease financing as sources

of capital. We believe that this change enhances the comparability of these non-GAAP measures with the corresponding non-GAAP measures used by our competitors. All periods presented conform to this presentation.

Results of Operations

Three Months Ended March 31, 2016 Compared with Three Months Ended March 31, 2015

Health Plans Segment

In the first quarter of 2016, a 41% increase in membership and a 6% decrease in revenue PMPM (which was primarily the result of lower Medicaid Expansion and Marketplace revenue PMPM) resulted in increased premium revenue of approximately 34%, or $1.0 billion, when compared with the first quarter of 2015.

Medical care costs as a percent of premium revenue increased to 89.8% in the first quarter of 2016 from 88.7% in the first quarter of 2015. Medical margin increased 21% in the first quarter of 2016 over the first quarter of 2015.

Financial Performance by Program. The following tables present the components of premium revenue and medical care costs by program (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions).

	Three Months Ended March 31, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	7.4	$ 1,324	$ 178.47	$ 1,198	$ 161.46	90.5%	$ 126
Medicaid Expansion	1.9	679	365.11	574	308.30	84.4	105
ABD	1.2	1,112	961.49	1,041	899.79	93.6	71
Marketplace	1.6	409	251.85	334	205.86	81.7	75
MMP	0.1	340	2,220.68	317	2,070.23	93.2	23
Medicare	0.1	131	1,029.10	124	980.49	95.3	7
	12.3	$ 3,995	$ 323.73	$ 3,588	$ 290.74	89.8%	$ 407

	Three Months Ended March 31, 2015						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
TANF and CHIP	5.5	$ 972	$ 177.40	$ 897	$ 163.67	92.3%	$ 75
Medicaid Expansion	1.3	507	397.99	393	308.59	77.5	114
ABD	1.0	940	894.70	863	820.72	91.7	77
Marketplace	0.6	194	332.52	156	268.60	80.8	38
MMP	0.1	225	2,206.17	199	1,950.71	88.4	26
Medicare	0.1	133	1,013.66	128	977.09	96.4	5
	8.6	$ 2,971	$ 344.65	$ 2,636	$ 305.80	88.7%	$ 335

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.
(2) "MCR" represents medical costs as a percentage of premium revenue.

The following discussion highlights the primary drivers of our performance, by program, for the first quarter of 2016.

Medicaid TANF, CHIP and ABD. In the first quarter of 2016, we recorded a retroactive increase to Medicaid premium revenue of approximately $18 million, relating to dates of service prior to 2016.

Medicaid Expansion. Income before taxes for the first quarter of 2016 declined approximately $50 million ($0.55 per diluted share) in the first quarter of 2016, when compared with the first quarter of 2015, as a result of premium rate cuts to our Medicaid Expansion product. Rate decreases of 13% in California, 8% in New Mexico, and 5% in Ohio went into effect for Medicaid Expansion members on January 1, 2016.

Marketplace. In the first quarter of 2016, in response to new information, we increased Marketplace liabilities related to 2015 dates of service by approximately $30 million, approximately $20 million of which relates to our liability for risk adjustment payments that we expect to make to the federal government. Our estimated liability for risk adjustments is based on the relative health of our members (measured as an average risk score for each health plan), as compared to the expected average risk score

for all Marketplace plans measured over each calendar year. At December 31, 2015, we estimated that our Marketplace risk adjustment liability for 2015 was approximately $214 million. This liability was based on our estimate of the difference between our risk scores for 2015 in each state where we operate, compared with the average of all Marketplace plans within each state. During the first quarter of 2016, analysis performed by third party sources indicated that difference between the risk scores of our health plans and those of other Marketplace health plans for the year ended December 31, 2015 has widened even further. Accordingly, in the first quarter of 2016, we increased our risk adjustment liability for dates of service in 2015 by approximately $20 million.

During the first quarter of 2016, we also accrued the cost of certain provider settlements related to Marketplace member utilization in 2015.

We now estimate that the medical care ratio for our Marketplace business for all of 2015 was approximately 77%.

Financial Performance by State Health Plan. The following tables summarize member months, premium revenue, medical care costs, medical care ratio, and medical margin by state health plan for the periods indicated (PMPM amounts are in whole dollars; member months and other dollar amounts are in millions):

	Three Months Ended March 31, 2016						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
California	2.0	$ 541	$ 273.42	$ 469	$ 236.92	86.7%	$ 72
Florida	1.6	489	295.42	413	249.45	84.4	76
Illinois	0.6	149	267.10	132	236.76	88.6	17
Michigan	1.2	387	320.14	347	287.34	89.8	40
New Mexico	0.7	336	449.52	296	394.77	87.8	40
Ohio	1.0	488	489.14	449	450.11	92.0	39
Puerto Rico (3)	1.0	181	176.85	174	170.43	96.4	7
South Carolina	0.3	84	275.97	67	220.78	80.0	17
Texas	1.1	620	580.81	575	538.91	92.8	45

Washington	2.0	506	255.41	458	231.18	90.5	48
Wisconsin	0.4	97	250.36	92	238.01	95.1	5
Other (4)	—	3	—	14	—	—	(11)
	12.3	$ 3,995	$ 323.73	$ 3,588	$ 290.74	89.8%	$ 407

	Three Months Ended March 31, 2015						
	Member Months[1]	Premium Revenue		Medical Care Costs		MCR[2]	Medical Margin
		Total	PMPM	Total	PMPM		
California	1.7	$ 511	$ 305.10	$ 452	$ 270.37	88.6%	$ 59
Florida	0.9	311	346.46	281	313.51	90.5	30
Illinois	0.3	104	341.86	90	293.58	85.9	14
Michigan	0.7	220	290.29	185	244.32	84.2	35
New Mexico	0.7	314	458.75	292	426.82	93.0	22
Ohio	1.0	515	488.26	413	391.56	80.2	102
Puerto Rico (3)	—	—	—	—	—	—	—
South Carolina	0.3	91	266.42	74	216.67	81.3	17
Texas	0.8	382	492.38	352	453.30	92.1	30
Utah	0.3	77	290.27	74	278.99	96.1	3
Washington	1.6	376	240.83	352	225.49	93.6	24
Wisconsin	0.3	60	199.61	49	161.13	80.7	11
Other (4)	—	10	—	22	—	—	(12)
	8.6	$ 2,971	$ 344.65	$ 2,636	$ 305.80	88.7%	$ 335

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.

(2) "MCR" represents medical costs as a percentage of premium revenue.

(3) The Puerto Rico health plan began serving members effective April 1, 2015.
(4) "Other" medical care costs include primarily medically related administrative costs of the parent company, and direct delivery costs.

The following discussion highlights the primary drivers of our performance, by health plan, for the first quarter of 2016.

California. Premium revenue grew to $541 million in the first quarter of 2016, from $511 million in the first quarter of 2015, as a result of higher membership. The medical care ratio decreased to 86.7% in the first quarter of 2016, from 88.6% in the first quarter of 2015, because higher medical care ratios for the MMP and Medicaid Expansion programs were more than offset by lower medical care ratios for other programs.

Florida. Premium revenue grew to $489 million in the first quarter of 2016, from $311 million in the first quarter of 2015, due to increased Marketplace membership, and the addition of over 100,000 members from Medicaid contract acquisitions primarily in the fourth quarter of 2015. The medical care ratio decreased to 84.4% in the first quarter of 2016, from 90.5% in the first quarter of 2015, primarily as a result of a Medicaid rate increase of approximately 5% effective September 1, 2015, a retroactive rate increase and various cost containment activities undertaken by the health plan; which were partially offset by retroactive increases to 2015 Marketplace liabilities. Absent out of period adjustments recorded in the first quarter of 2016, the medical care ratio for the Florida health plan would have been approximately 87% in the first quarter of 2016.

Illinois. Premium revenue grew to $149 million in the first quarter of 2016, from $104 million in the first quarter of 2015, and the medical care ratio increased to 88.6% in the first quarter of 2016, from 85.9% in the first quarter of 2015. The plan added over 100,000 members from Medicaid contract acquisitions in the first quarter of 2016. The medical care ratio increased for the TANF, ABD and Medicaid Expansion programs.

Michigan. Premium revenue grew $167 million, or 76%, in the first quarter of 2016 compared with the first quarter of 2015, due to the addition of over 100,000 members from Medicaid contract acquisitions in the third quarter of 2015 and the first quarter of 2016. The medical care ratio increased to 89.8% in the first quarter of 2016, from 84.2% in the first quarter of 2015. The medical care ratio increased in the first quarter of 2016 due to the launch of the comparatively lower margin MMP program subsequent to the first quarter of 2015, a rate decrease of approximately 1% effective January 1, 2016 and a reduction to revenue of approximately $5 million in 2016 for the true up of the medical cost floor related to 2015.

New Mexico. The medical care ratio decreased to 87.8% in the first quarter of 2016, from 93.0% in the first quarter of 2015, due to lower medical care ratios for the TANF and ABD programs, which more than offset an increase in the medical care ratio for the Medicaid Expansion and Medicare programs.

Ohio. Premium revenue declined $27 million, or 5%, in the first quarter of 2016 compared with the first quarter of 2015, due to reduced overall state Medicaid enrollment and reimbursement rates. The medical care ratio increased to 92.0% in the first quarter of 2016, from 80.2% in the first quarter of 2015. The increase in the 2016 medical care ratio was the result of a blended rate decrease of approximately 2.5% effective January 1, 2016 (which included a 5% decrease in Medicaid Expansion rates); substantially higher utilization of medical services in the first quarter of 2016 when compared to the same period in 2015; and a shift from very favorable development of prior period medical liability estimates in the first quarter of 2015 to slightly unfavorable development in the first quarter of 2016.

Puerto Rico. The medical care ratio was 96.4% in the first quarter of 2016. The plan served its first members effective April 1, 2015. See further information regarding our Puerto Rico health plan below under Part II, Item 1A – Risk Factors.

South Carolina. The medical care ratio decreased to 80.0% in the first quarter of 2016, from 81.3% in the first quarter of 2015.

Texas. Premium revenue grew $238 million, or 62%, in the first quarter of 2016 compared with the first quarter of 2015, primarily due to the addition of Marketplace membership, the addition of ABD members receiving nursing facility benefits effective March 1, 2015, and the start-up of the Texas MMP program on that same date. The plan's medical care ratio of 92.8% in the first quarter of 2016 was slightly higher than the first quarter of 2015.

Utah. The medical care ratio decreased to 89.1% in the first quarter of 2016, from 96.1% in the first quarter of 2015, due to improved medical cost efficiency across all programs.

Washington. Premium revenue grew $130 million, or 35%, in the first quarter of 2016 compared with the first quarter of 2015, primarily due to membership growth in the TANF, Medicaid Expansion and Marketplace programs. The medical care ratio decreased to 90.5% in the first quarter of 2016, from 93.6% in the first quarter of 2015, due to improved medical cost efficiency across nearly all programs.

Wisconsin. Premium revenue grew $37 million, or 61%, in the first quarter of 2016 when compared with the first quarter of 2015 as a result of increased Marketplace enrollment. The medical care ratio increased to 95.1% in the first quarter of 2016, from 80.7% in the first quarter of 2015 due to the higher medical care ratio of the Marketplace membership. Absent out of period costs recorded in the first quarter of 2016 that were related to 2015 Marketplace activity, the medical care ratio for the Wisconsin health plan would have been approximately 85% in the first quarter of 2016.

Molina Medicaid Solutions Segment

Service revenue was consistent between the first quarter of 2016 and the first quarter of 2015. Service margin declined $10 million in the first quarter of 2016 compared with the first quarter of 2015, primarily due to increased service costs associated with legacy state contracts that were recently re-procured.

Other Segment

The Other segment service margin for the three months ended March 31, 2016, was insignificant.

Income Statement Categories that are Not Unique to Individual Segments

General and Administrative Expenses. General and administrative expenses as a percentage of total revenue (the "general and administrative expense ratio") decreased slightly to 7.8% in the first quarter of 2016, from 8.1% in the first quarter of 2015, primarily the result of improved leverage of fixed administrative expenses over higher total revenue.

Premium Tax Expenses. The premium tax ratio (premium tax expense as a percentage of premium revenue plus premium tax revenue) was 2.6% in the first quarter of 2016 compared with 3.1% in the first quarter of 2015. This decrease was primarily due to the current year increase in MMP revenues. The Medicare portion of MMP revenue is not subject to premium tax.

Health Insurer Fee Revenue and Expenses. For our Medicaid program, actuarial standards require that we be reimbursed by state Medicaid agencies for both the expense associated with the HIF and the absence of tax deductibility for that expense. Subsequent to the first quarter of 2015, we secured full reimbursement for our expenses under the HIF (including the absence of tax deductibility) and as a result HIF revenue, as a percentage of premium revenue, increased to 2.2% in the first quarter of 2016 from 1.6% in the first quarter of 2015. HIF expenses, as a percentage of premium revenue, were 1.5% in the first quarter of 2016, compared with 1.4% in the first quarter of 2015.

Depreciation and Amortization. Depreciation and amortization amounted to 0.8% of total revenue for both periods.

Interest Expense. Interest expense increased to $25 million for the first quarter of 2016, from $15 million for the first quarter of 2015. The increase was primarily due to our issuance of $700 million aggregate principal amount of senior notes (5.375% Notes) due November 15, 2022, in the fourth quarter of 2015.

Interest expense includes non-cash interest expense relating primarily to the amortization of the discount on convertible senior notes, which amounted to $8 million and $7 million for the three months ended March 31, 2016 and 2015, respectively.

Income Tax Expense. The provision for income taxes was recorded at an effective rate of 61.7% for the first quarter of 2016, compared with 58.2% for the first quarter of 2015. The effective tax rate for 2016 is higher than 2015 primarily as a result of higher non-deductible HIF expenses and nondeductible compensation.

Liquidity and Capital Resources

Introduction

We manage our cash, investments, and capital structure to meet the short- and long-term obligations of our business while maintaining liquidity and financial flexibility. Our regulated subsidiaries generate significant cash flows from premium revenue. Such cash flows are our primary sources of liquidity. Thus, any future decline in our profitability may have a negative impact on our liquidity. We generally receive premium revenue a short time before we pay for the related health care services. A majority of the assets held by our regulated subsidiaries is in the form of cash, cash equivalents, and investments. After considering expected cash flows from operating activities, we generally invest cash of regulated subsidiaries that exceeds our expected short-term obligations in longer term, investment-grade, and marketable debt securities to improve our overall investment return. These investments are made pursuant to board-approved investment policies that conform to applicable state laws and regulations.

As of March 31, 2016, a substantial portion of our cash was invested in a portfolio of highly liquid money market securities, and our investments consisted solely of investment-grade debt securities. All of our investments are classified as current assets, except for our restricted investments, which are classified as non-current assets. Our restricted investments are invested principally in certificates of deposit and U.S. treasury securities. Investments and restricted investments are subject to interest rate risk and will decrease in value if market rates increase. We have the ability to hold our restricted investments until maturity. Declines in interest rates over time will reduce our investment income.

Investment income increased to $8 million for the three months ended March 31, 2016, compared with $3 million for the three months ended March 31, 2015, primarily due to the increase in invested assets.

Cash in excess of the capital needs of our regulated health plans is generally paid to us in the form of dividends, when and as permitted by applicable regulations, for general corporate use. For the three months ended March 31, 2016, the parent received

no dividends from subsidiaries. For the three months ended March 31, 2015, we received dividends from our regulated health plan subsidiaries amounting to $25 million, and $17 million from our unregulated subsidiaries.

Liquidity

A condensed schedule of cash flows to facilitate our discussion of liquidity follows:

	Three Months Ended March 31,		
	2016	2015	Change
	(In millions)		
Net cash provided by operating activities	$ 139	$ 554	$ (415)
Net cash used in investing activities	(314)	(228)	(86)
Net cash provided by financing activities	2	5	(3)
Net (decrease) increase in cash and cash equivalents	$ (173)	$ 331	$ (504)

Operating Activities. Net cash provided by operating activities decreased $415 million in the three months ended March 31, 2016 compared with the three months ended March 31, 2015, primarily due to the following:

- The change in receivables resulted in a use of cash of $266 million in the first quarter of 2016, and was a source of cash of $105 million in the first quarter of 2015. In the current year, receivables increased due to the addition of receivables from our Puerto Rico health plan which began operations on April 1, 2015, and acquisition-related growth. In the prior year, receivables decreased due to significant collections of premiums receivable at our California health plan in the first quarter of 2015.
- The change in deferred revenue resulted in a use of cash of $129 million in the first quarter of 2016, and a use of cash of $26 million in the first quarter of 2015. In the current year, deferred revenue decreased due to the advance receipt of $146 million in premium revenue at our Washington health plan as of December 31, 2015, with no corresponding receipt as of March 31, 2016. In the first quarter of 2015, the Washington health plan received comparable advanced receipts of premiums at the end of both December 2014 and March 2015.

These changes were partially offset by the increase in amounts due government agencies, which provided additional cash of $86 million year over year. In connection with Health Plans segment membership growth in programs that contain medical cost floors or medical cost corridors, a portion of certain Medicaid, Medicare, and Marketplace premiums received by our health plans may be returned if certain minimum amounts are not spent on defined medical care costs.

Investing Activities. Net cash used in investing activities increased $86 million in the three months ended March 31, 2016 compared with the three months ended March 31, 2015, primarily due to higher purchases of investments, net of sales and maturities, in the current year.

Financing Activities. There was no significant year over year change in financing activities.

Financial Condition

We believe that our cash resources and internally generated funds will be sufficient to support our operations, regulatory requirements, and capital expenditures for at least the next 12 months.

On a consolidated basis, at March 31, 2016, our working capital was $1,387 million, compared with $1,484 million at December 31, 2015. At March 31, 2015, our cash and investments amounted to $4,344 million, compared to $4,241 million at December 31, 2015. Cash, cash equivalents and investments held by the parent company – Molina Healthcare, Inc. – amounted to $542 million and $612 million as of March 31, 2016 and December 31, 2015, respectively.

Regulatory Capital and Dividend Restrictions. For more information on our regulatory capital and dividend restrictions, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 14, "Commitments and Contingencies."

Debt Ratings. Our 5.375% Notes are rated "BB" by Standard & Poor's, and "Ba3" by Moody's Investor Service, Inc. A downgrade in our ratings could adversely affect our borrowing capacity and costs.

Future Sources and Uses of Liquidity

Announced Acquisition. As described in Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 1, "Basis of Presentation," we announced a Health Plans segment acquisition on April 19, 2016, that we expect to close in the second half of 2016. We expect the purchase price for this acquisition to amount to approximately $41 million, subject to certain closing adjustments.

States' Budgets. From time to time the states in which our health plans operate may experience financial difficulties, which could lead to delays premium payments. For example, the state of Illinois is currently operating without a budget for its fiscal year ending June 30, 2016. As of March 31, 2016, our Illinois health plan served approximately 206,000 members, and recognized premium revenue of approximately $149 million in the first quarter of 2016. As of April 25, 2016, Illinois is current with its premium payments through February 29, 2016, but has not paid us for March 2016.

In another example, the Commonwealth of Puerto Rico has reported that it may lack sufficient resources to fund all necessary governmental programs, including health care-related programs, as well as meet its debt obligations for its fiscal year ending June 30, 2016. On May 2, 2016, Puerto Rico defaulted on approximately $422 million in debt repayment obligations to certain bondholders. In addition, it is likely to default on the $2 billion debt repayment obligation due to such bondholders on July 1, 2016.

As of April 29, 2016, the Commonwealth had paid us the first three weekly installments due for the month of April 2016. However, in a letter dated April 29, 2016, the Puerto Rico Health Insurance Administrator notified our Puerto Rico health plan that it would be unable at this time to make the fourth and final 25% installment payment of the capitation amount due for April 2016, or approximately $15 million. We are uncertain when the Puerto Rico health plan will be paid the fourth and final capitation amount for April 2016, as well as when our health plan will be paid the initial weekly capitation installments for May 2016.

As of March 31, 2016, the plan served approximately 339,000 members and recognized premium revenue of approximately $181 million in the first quarter of 2016, or approximately $60 million per month. Total premiums receivable from the Commonwealth as of March 31, 2016, were approximately $30 million, of which approximately $15 million has been collected.

Puerto Rico Member Eligibility and Premium Revenue. It is the practice of the Commonwealth to pay us for eligible members only after those members have been assigned to us, and our plan has sent electronic confirmation of the receipt of eligibility. Particularly in the early stages of our contract with Puerto Rico, the plan's confirmation of eligibility of certain members was not accepted by the Commonwealth as a result of various technical issues. The plan has continued to pay for medical services for all members in question, but the Commonwealth is withholding payment of approximately $12 million of premium revenue related to those members. We believe we have a valid claim to all of the premiums withheld and we are in discussions with the Commonwealth regarding this matter.

It has been our practice in the past to continue to serve our members and pay health care providers for services rendered in circumstances where state (or Commonwealth) governments are temporarily unable to pay us, so long as we continue to believe that such state (or Commonwealth) governments will ultimately pay us. We are continuing to closely monitor the situation in Puerto Rico, including whether we should exit the Puerto Rico market.

Credit Facility. In June 2015, we entered into an unsecured $250 million revolving credit facility (Credit Facility). Borrowings under the Credit Facility bear interest based, at our election, on a base rate or an adjusted London Interbank Offered Rate (LIBOR), plus in each case the applicable margin. The Credit Facility has a term of five years and all amounts outstanding will be due and payable on June 12, 2020. Subject to obtaining commitments from existing or new lenders and satisfaction of other specified conditions, we may increase the Credit Facility to up to $350 million. Our ability to borrow under the Credit Facility is subject to compliance with certain covenants. As of March 31, 2016, outstanding letters of credit amounting to $6 million reduced the borrowing capacity to $244 million, and no amounts were outstanding under the Credit Facility.

Convertible Senior Notes. In February 2013, we issued $550 million aggregate principal amount of 1.125% cash convertible senior notes due January 15, 2020 (1.125% Notes), unless earlier repurchased or converted. In September 2014, we issued $302 million aggregate principal amount of 1.625% convertible senior notes due August 14, 2044 (1.625% Notes), unless earlier repurchased, redeemed, or converted. Both our 1.125% Notes and our 1.625% Notes are convertible into cash prior to their respective maturity dates under certain circumstances, one of which relates to the closing price of our common stock over a specified period. We refer to this conversion trigger as the stock price trigger. The 1.125% Notes met the stock price trigger in the quarter ended March 31, 2016, and are convertible to cash through at least June 30, 2016.

Because the 1.125% Notes may be converted into cash within 12 months, the $454 million net carrying amount is reported in current portion of long-term debt as of March 31, 2016. In addition, holders of our 1.625% Notes may convert their notes into cash during any calendar quarter (and only during such calendar quarter) if the last reported sales price of our common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to $75.51 per share. The last reported sale price of our common stock as reported on the New York Stock Exchange on May 2, 2016 was $49.79 per share. As of March 31, 2016, our 1.625% Notes were not convertible. If conversion requests are received, the settlement of the notes must be paid primarily in cash pursuant to the terms of the relevant indentures.

For economic reasons related to the trading market for our 1.125% Notes, we believe that the amount of the notes that may be converted over the next 12 months, if any, will not be significant. However, if the trading market for our 1.125% Notes becomes closed or restricted due to market turmoil or other reasons such that the notes cannot be traded, or if the trading price of our 1.125% Notes, which normally trade at a marginal premium to the underlying composite stock-and-interest economic value, no longer includes that marginal premium, holders of our 1.125% Notes may elect to convert the notes to cash. As of March 31, 2016, we had sufficient available cash, combined with borrowing capacity available under our Credit Facility, to fund such conversions.

Securities Repurchase Program. Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Shelf Registration Statement. We have a shelf registration statement on file with the Securities and Exchange Commission to register an unlimited amount of any combination of debt or equity securities in one or more offerings. Specific information regarding the terms and securities being offered will be provided at the time of an offering. Proceeds from future offerings are expected to be used for general corporate purposes, including, but not limited to, the repayment of debt, investments in or extensions of credit to our subsidiaries and the financing of possible acquisitions or business expansion.

Contractual Obligations

A summary of future obligations under our various contractual obligations and commitments as of December 31, 2015, was disclosed in our 2015 Annual Report on Form 10-K. There were no material changes to this previously filed information outside the ordinary course of business during the three months ended March 31, 2016. For further discussion and maturities of our long-term debt, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, in Note 10, "Debt."

Critical Accounting Estimates

When we prepare our consolidated financial statements, we use estimates and assumptions that may affect reported amounts and disclosures; actual results could differ from these estimates. Our critical accounting estimates relate to:

- *Health Plans segment medical claims and benefits payable*. Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 9, "Medical Claims and Benefits Payable," for a table which presents the components of the change in medical claims and benefits payable, and for additional information regarding the factors used to determine our changes in estimates for all periods presented in the accompanying consolidated financial statements. Other than the discussion as noted above, there have been no significant changes during the three months ended March 31, 2016, to our disclosure reported in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015.
- *Health Plans segment contractual provisions that may adjust or limit revenue or profit*. Refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies," for a discussion of amounts recorded in the first quarter of 2016 in connection with such contractual provisions.
- *Health Plans segment quality incentives*. For a discussion of this topic, including amounts recorded in our consolidated financial statements, refer to Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies."
- *Molina Medicaid Solutions segment revenue and cost recognition*. There have been no significant changes during the three months ended March 31, 2016, to our disclosure reported in Part II, Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2015.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For information regarding market risk, see Part I, Item 1 of this Form 10-Q, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies," Note 5, "Fair Value Measurements," and Note 6, "Investments."

Inflation

We use various strategies to mitigate the negative effects of health care cost inflation. Specifically, our health plans try to control medical and hospital costs through contracts with independent providers of health care services. Through these contracted providers, our health plans emphasize preventive health care and appropriate use of specialty and hospital services. There can be no assurance, however, that our strategies to mitigate health care cost inflation will be successful. Competitive pressures, new health care and pharmaceutical product introductions, demands from health care providers and customers, applicable regulations, or other factors may affect our ability to control health care costs.

Compliance Costs

Our health plans are regulated by both state and federal government agencies. Regulation of managed care products and health care services is an evolving area of law that varies from jurisdiction to jurisdiction. Regulatory agencies generally have discretion to issue regulations and interpret and enforce laws and rules. Changes in applicable laws and rules occur frequently. Compliance with such laws and rules may lead to additional costs related to the implementation of additional systems, procedures and programs that we have not yet identified.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures: Our management, with the participation of our chief executive officer and our chief financial officer, has concluded, based upon its evaluation as of the end of the period covered by this report, that the Company's "disclosure controls and procedures" (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), are effective to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms.

Changes in Internal Control Over Financial Reporting: There has been no change in our internal control over financial reporting during the fiscal quarter ended March 31, 2016 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For information regarding legal proceedings, see Part I, Item 1 of this Form 10-Q, Note 14, "Commitments and Contingencies."

Item 1A. Risk Factors

Certain risk factors may have a material adverse effect on our business, financial condition, cash flows, or results of operations, and you should carefully consider them. In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, Item 1A – Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2015. The risk factors described herein, and in our 2015 Annual Report on Form 10-K, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business, financial condition, cash flows, or results of operations.

The Commonwealth of Puerto Rico has defaulted on its May debt repayment obligation, and has also failed to pay our Puerto Rico health plan the final weekly capitation installment due for the month of April 2016.

On May 2, 2016, Puerto Rico defaulted on approximately $422 million in debt repayment obligations to certain bondholders. Governor Alejandro Garcia Padilla has said that the debt default was necessary in order to preserve the funding of public services, which include Medicaid services. Puerto Rico is scheduled to make another debt repayment to such bondholders in the amount of roughly $2 billion on July 1, 2016. Without Congressional action, it is expected that Puerto Rico will default on the July 1st debt repayment obligation as well.

Pursuant to a letter dated April 16, 2015, the Puerto Rico Health Insurance Administration (PRHIA) had agreed to pay our Puerto Rico health plan on a weekly basis in four allocated installments, with 20% of the monthly capitation amount being paid in each of the first and second weeks of the month, 35% of the capitation amount being paid in the third week, and the final 25% of the monthly capitation amount being paid in the final week of the month. In April 2016, the Puerto Rico Health Insurance Administration paid the first three installments due for the month of April. However, in a letter dated April 29, 2016, the Puerto Rico Health Insurance Administrator notified our Puerto Rico health plan that it would be "unable at this time to make the fourth and final payment" of the capitation amount for April 2016. We are uncertain when the Puerto Rico health plan will be paid the fourth and final capitation amount for April, as well as when our health plan will be paid the initial weekly capitation installments for May 2016. In addition, in connection with an unresolved enrollment dispute, Puerto Rico is continuing to withhold capitation payments to us we believe we are legally owed in the amount of approximately $12 million for periods in 2015.

Moreover, the Director for the Centers for Disease Control has been quoted as saying that, "Before the year is out, there could be hundreds of thousands of Zika infections in Puerto Rico." A high incidence of Zika cases in Puerto Rico could increase our Puerto Rico's health plan's medical expenses in 2016 beyond the amounts actuarially factored into the health plan's capitation rates.

We are continuing to closely monitor the situation in Puerto Rico, including whether we should exit the Puerto Rico market. The termination of our Puerto Rico Medicaid contract could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Unregistered Issuances of Equity Securities

None.

Issuer Purchases of Equity Securities

Share repurchase activity during the three months ended March 31, 2016 was as follows:

	Total Number of Shares Purchased (a)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (b)
January 1 - January 31	—	$ —	—	$ 50,000,000
February 1 - February 29	511	$ 54.40	—	$ 50,000,000
March 1 - March 31	102,583	$ 63.74	—	$ 50,000,000
Total	103,094	$ 63.69	—	

(a) During the three months ended March 31, 2016, we withheld 103,094 shares of common stock under our 2011 Equity Incentive Plan to settle our employees' income tax obligations.

(b) Effective as of December 16, 2015, our board of directors authorized the repurchase of up to $50 million in aggregate of our common stock or senior notes. This repurchase program extends through December 31, 2016.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information

None.

Item 6. Exhibits

Reference is made to the accompanying Index to Exhibits.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, Joseph M. Molina, M.D., certify that:

1. I have reviewed the annual report on Form 10-K for the period ended March 31, 2016 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Dated: May 2, 2016

EXHIBIT 31.2

CERTIFICATION PURSUANT TO
RULES 13a-14(a)/15d-14(a)
UNDER THE SECURITIES EXCHANGE
ACT OF 1934, AS AMENDED

I, John C. Molina, J.D., certify that:

1. I have reviewed this annual report on Form 10-K for the period ended March 31, 2016 of Molina Healthcare, Inc.;

2. Based on my knowledge, the report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by the report;

3. Based on my knowledge, the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in the report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended), and internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended), for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period for which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in the report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by the report based on such evaluation; and

(d) Disclosed in the report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

TABLE OF CONTENTS

This Annual Report on Form 10-K ("Form 10-K") contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties. Many of the forward-looking statements are located under the headings "Business," and "Management's Discussion and Analysis of Financial Condition and Results of Operations." Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Forward-looking statements can also be identified by words such as "future," "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," "will," "would," "could," "can," "may," and similar terms. Forward-looking statements are not guarantees of future performance and the Company's actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in Part I, Item 1A of this Form 10-K under the heading "Risk Factors." Each of the terms "Company," "Molina Healthcare," "we," "our," and "us," as used herein refers collectively to Molina Healthcare, Inc. and its wholly owned subsidiaries, unless otherwise stated. The Company assumes no obligation to revise or update any forward-looking statements for any reason, except as required by law.

PART I

Item 1: Business

OVERVIEW

Our Vision and Mission

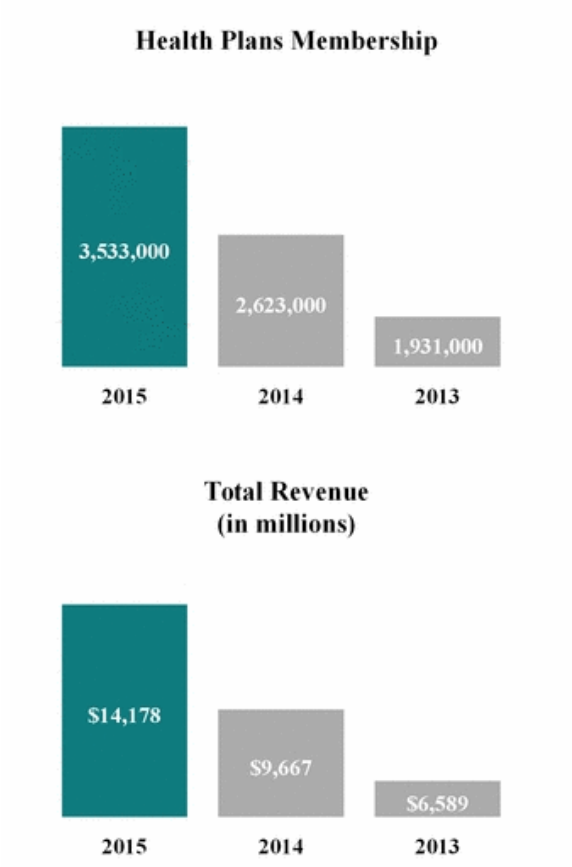
Molina Healthcare, Inc. offers cost-effective Medicaid-related solutions to meet the health care needs of low-income families and individuals, and to assist government agencies in their administration of the Medicaid program.We envision a future where everyone receives quality health care, and our mission is to provide quality health care to people receiving government assistance. To execute on our vision and mission, we dedicate ourselves to the following core values:

- Caring - We care about those we serve and advocate on their behalf.
- Enthusiasm - We enthusiastically address problems and seek creative solutions.
- Respect - We respect each other and value ethical business practices.
- Focus - We focus on our mission.
- Thrift - We are careful with scarce resources.
- Accountability - We are personally accountable for our actions and collaborate to get results.
- Feedback - We strive to improve the organization and achieve meaningful change through feedback and coaching.

Our Strategy

The primary objectives of our strategy over the past 35 years have been to grow and diversify our revenue; sustain our mission by being profitable; and to always remain focused on providing access to high quality healthcare for our members.

According to the U.S. Department of Health and Human Services (HHS), by late 2015 nearly 18 million people nationally gained health insurance by signing up for Medicaid or the Health Insurance Marketplace (Marketplace), since several of the Affordable Care Act's coverage provisions took effect. The uninsured rate has fallen from a high of 18% to nearly 11%; the lowest uninsured rate in 50 years according to an ongoing study by the Centers for Disease Control and Prevention. We have participated in this trend by enrolling approximately 1.6 million members since January 2014, including more than a half million Medicaid expansion members and 205,000 low-income Marketplace members. In total, as of December 31, 2015, our health plans served over 3.5 million members eligible for Medicaid, Medicare, and other government-sponsored health care programs for low-income families and individuals.



Beyond growing the number of members we serve, we believe our most important contribution lies in our commitment to provide access to quality health care for our members. To that end, we have set about expanding and deepening the care capabilities that we provide, focusing on quality outcomes, care integration, and measurable results. For example, the National Committee for Quality Assurance (NCQA) has accredited nine of our 12 Medicaid managed care plans. Our newer Illinois and South Carolina health plans are preparing for NCQA accreditation review in 2016. Our Puerto Rico health plan, which began serving members in 2015, will seek NCQA accreditation as soon as it is eligible to do so. We believe that these objective measures of the quality of the services we provide are increasingly important to state Medicaid agencies.

In addition, as states continue to seek cost-effective strategies to manage the care of individuals with more complex healthcare and behavioral needs, we believe that the movement toward the integration of behavioral health and medical care will continue.

Our growth strategy has four components:

- Growth and retention in our existing markets;
- Expansion into new geographies;
- Transitioning members and benefits from fee for service to managed care; and
- Developing and acquiring new products and capabilities.

Significant accomplishments in support of our strategic growth initiatives during 2015 and early 2016 included:

- *Growth and retention in our existing markets.*
    - We retained and grew existing business with our re-procurement wins in Michigan and Washington. Our new contract in Michigan expanded our service area across all of the Lower Peninsula, spanning an additional 18 counties. The Washington win, along with the acquisition described below, strengthens our position in the southwestern region of that state.
    - Our Florida and Michigan health plans acquired Medicaid contracts which added approximately 192,000 new members in 2015.
    - We have announced and/or closed on Medicaid contract acquisitions in Illinois, Michigan and Washington that we expect to add approximately 257,000 new members in the first quarter of 2016.
    - Our Marketplace enrollment grew from approximately 15,000 members in 2014, to over 200,000 members as of December 31, 2015.
    - Molina Medicaid Solutions entered into a 10-year contract with the state of New Jersey to design and operate that state's new Medicaid management information system (MMIS).
- *Expansion into new geographies.* Our Puerto Rico health plan began serving its first members in April 2015. As of December 31, 2015, our Puerto Rico plan enrollment amounted to approximately 348,000 members.

- *Transitioning members and benefits from fee for service to managed care.* In 2015, we saw strong growth in our Medicare-Medicaid Plan (MMP) and Aged, Blind or Disabled (ABD) programs. While smaller programs in total membership, they translate to strong revenue growth because these members bring much higher premiums when

compared with our other members, including those in the Temporary Assistance for Needy Families, Medicaid expansion and Marketplace programs.

- *Developing and acquiring new products and capabilities*. We acquired Pathways Health and Community Support LLC (Pathways), formerly known as Providence Human Services, LLC, a division of The Providence Service Corporation. Pathways is one of the largest national providers of accessible, outcome-based behavioral/mental health and social services with operations in 23 states and the District of Columbia. We believe this acquisition will complement our Health Plans segment services with behavioral health and other services that focus on social determinants of health, as we increasingly arrange for healthcare services for members with complex needs.

Finally, to support our future growth initiatives, in 2015 we raised approximately $1.1 billion under debt and equity financing transactions, and supplemented our financing resources under a new unsecured $250 million revolving credit facility.

Our Strengths

From a strategic perspective, we believe our organizational structure allows us to participate in an expanding sector of the economy and continue our mission to provide quality health care to people receiving government assistance. Our approach to our business is based on the following strengths:

Flexible Health Services Portfolio. We offer a comprehensive suite of Medicaid services, ranging from quality care, disease management, cost management, and direct delivery of health care services, to state-level Medicaid management information systems (MMIS) administration through our Molina Medicaid Solutions segment. Our health plan care delivery systems are diverse and readily adaptable to different markets and changing conditions. We arrange health care services with a variety of providers, including independent physicians and medical groups, hospitals, ancillary providers, and our own clinics. Our systems support multiple types of contract models. Our provider networks are well-suited, based on medical specialty, member proximity, and cultural sensitivity, to provide services to our members. We believe that our Molina Medicaid Solutions platform, which is based on commercial off-the-shelf technology, has the flexibility to meet a wide variety of state Medicaid administrative needs in a timely and cost-effective manner.

Focus on People Receiving Government Assistance. Our experience over more than 35 years has allowed us to develop strong relationships with the constituents we serve, establish significant expertise as a government contractor, and develop sophisticated disease management, care coordination and health education programs that address the particular health care needs of our members. We also benefit from a thorough understanding of the cultural and linguistic needs of Medicaid populations.

Scalable Administrative Infrastructure. Our operations share common systems platforms, which allow for economies of scale and common experience in meeting the needs of state Medicaid programs. We have centralized and standardized various functions and practices to increase administrative efficiency. In addition, we have designed our administrative and operational infrastructure to be scalable for cost-effective expansion into new and existing markets.

Consistent Medicaid National Brand. Since the founding of our company in 1980 to serve the Medicaid population in southern California through a small network of primary care clinics, we have increased our Health Plans membership to 3.5 million members as of December 31, 2015, added Molina Medicaid Solutions, and introduced new capabilities with the acquisition of Pathways.

Seasoned Management Team. Dr. C. David Molina founded our company in 1980 as a provider organization serving the Medicaid population in Southern California. Today, we remain a provider-focused company led by his son, Dr. J. Mario Molina, whose tenure with Molina is over 19 years. The rest of our named executive officers have been with Molina for periods ranging from 10 years to 20 years. We believe that this extensive experience allows senior management to take a longer-term view of our operations, while maintaining consistency.

Unique Culture. We believe that we are unique culturally because of our employees' dedication to our core values and our mission. Many of our employees seek to work here—and continue to work here—because of our shared belief that we envision a future where everyone receives quality healthcare.

OUR INDUSTRY

Medicaid

Medicaid was established in 1965 under the U.S. Social Security Act to provide health care and long-term care services and support to low-income Americans. Although jointly funded by federal and state governments, Medicaid is a state-operated and state-implemented program. Subject to federal laws and regulations, states have significant flexibility to structure their own programs in terms of eligibility, benefits, delivery of services, and provider payments. As a result, there are 56 separate Medicaid programs—one for each U.S. state, each U.S. territory, and the District of Columbia.

The federal government guarantees matching funds to states for qualifying Medicaid expenditures based on each state's federal medical assistance percentage (FMAP). A state's FMAP is calculated annually and varies inversely with average personal income in the state. The average FMAP across all jurisdictions is currently about 59%, and ranges from a federally established FMAP floor of 50% to as high as 74%.

The most common state-administered Medicaid program is the Temporary Assistance for Needy Families program (TANF), which covers primarily low-income mothers and children. In states that have elected to participate, Medicaid expansion provides eligibility to nearly all low-income people under age 65 with incomes at or below 138% of the federal poverty line. Another common state-administered Medicaid program is for ABD Medicaid beneficiaries, which covers low-income persons with chronic physical disabilities or behavioral health impairments. ABD beneficiaries represent a growing portion of all Medicaid recipients, and typically use more services because of their critical health issues. Additionally, the Children's Health Insurance Program (CHIP) is a joint federal and state matching program that provides health care coverage to children whose families earn too much to qualify for Medicaid coverage. States have the option of administering CHIP through their Medicaid programs.

Every state Medicaid program must balance many potentially competing demands, including the need for quality care, adequate provider access, and cost-effectiveness. To improve quality and provide more uniform and cost-effective care, many states have implemented Medicaid managed care programs. These programs seek to improve access to coordinated health care services, including preventive care, and to control health care costs. Under Medicaid managed care programs, a health plan receives capitation payments from the state. The health plan, in turn, arranges for the provision of health care services by contracting with a network of medical providers. The health plan implements care management and care coordination programs that seek to improve both care access and care quality, while controlling costs more effectively.

While many states have embraced Medicaid managed care programs, others continue to operate traditional fee-for-service programs to serve all or part of their Medicaid populations. Under fee-for-service Medicaid programs, health care services are made available to beneficiaries as they seek that care, without the benefit of a coordinated effort to maintain and improve their health. As a consequence, treatment is often postponed until medical conditions become more severe, leading to higher costs and more unfavorable outcomes. Additionally, providers paid on a fee-for-service basis are compensated based upon services they perform, rather than health outcomes, and therefore lack incentives to coordinate preventive care, monitor utilization, and control costs.

Medicare

Medicare is a federal program that provides eligible persons age 65 and over and some disabled persons with a variety of hospital, medical insurance, and prescription drug benefits. Medicare is funded by Congress, and administered by the Centers for Medicare and Medicaid Services (CMS). Medicare beneficiaries may enroll in a Medicare Advantage plan, under which managed care plans contract with CMS to provide benefits that are comparable to original Medicare. Such benefits are provided in exchange for a fixed per-member per-month (PMPM) premium payment that varies based on the county in which a member resides, the demographics of the member, and the member's health condition.

Since 2006, Medicare beneficiaries have had the option of selecting a new prescription drug benefit from an existing Medicare Advantage plan. The drug benefit, available to beneficiaries for a monthly premium, is subject to certain cost sharing depending upon the specific benefit design of the selected plan.

Medicaid Management Information Systems

Because Medicaid is a state-administered program, every state must have mechanisms, policies, and procedures in place to perform a large number of crucial functions, including the determination of eligibility and the reimbursement of medical providers for services provided. This requirement exists regardless of whether a state has adopted a fee-for-service or a managed care delivery model. MMIS are used by states to support these administrative activities. Although a small number of states build and operate their own MMIS, a far more typical practice is for states to sub-contract the design, development, implementation, and operation of their MMIS to private parties. Through our Molina Medicaid Solutions segment, we actively participate in this market.

Competition

The Medicaid managed care industry is fragmented, and the competitive landscape is subject to ongoing changes as a result of health care reform, business consolidations and new strategic alliances. We compete with a large number of national, regional, and local Medicaid service providers, principally on the basis of size, location, quality of provider network, quality of service, and reputation. Our primary competitors in the Medicaid managed care industry include Centene Corporation, WellCare Health Plans, Inc., UnitedHealth Group Incorporated, Anthem, Inc., and Aetna Inc. Competition can vary considerably from state to state. Below is a general description of our principal competitors for state contracts, members, and providers:

- Multi-Product Managed Care Organizations - National and regional managed care organizations that have Medicaid members in addition to numerous commercial health plan and Medicare members.
- Medicaid HMOs - National and regional managed care organizations that focus principally on providing health care services to Medicaid beneficiaries, many of which operate in only one city or state.
- Prepaid Health Plans - Health plans that provide less comprehensive services on an at-risk basis or that provide benefit packages on a non-risk basis.
- Primary Care Case Management Programs - Programs established by the states through contracts with primary care providers to provide primary care services to Medicaid beneficiaries, as well as to provide limited oversight of other services.

We will continue to face varying levels of competition. Health care reform proposals may cause organizations to enter or exit the market for government sponsored health programs. However, the licensing requirements and bidding and contracting procedures in some states may present partial barriers to entry into our industry.

We compete for government contracts, renewals of those government contracts, members, and providers. State agencies consider many factors in awarding contracts to health plans. Among such factors are the health plan's provider network, medical management, degree of member satisfaction, timeliness of claims payment, and financial resources. Potential members typically choose a health plan based on a specific provider being a part of the network, the quality of care and services available, accessibility of services, and reputation or name recognition of the health plan. We believe factors that providers consider in deciding whether to contract with a health plan include potential member volume, payment methods, timeliness and accuracy of claims payment, and administrative service capabilities.

Molina Medicaid Solutions competes with large MMIS vendors, such as HP Enterprise Services, ACS (owned by Xerox Corporation), Computer Services Corporation, and CNSI.

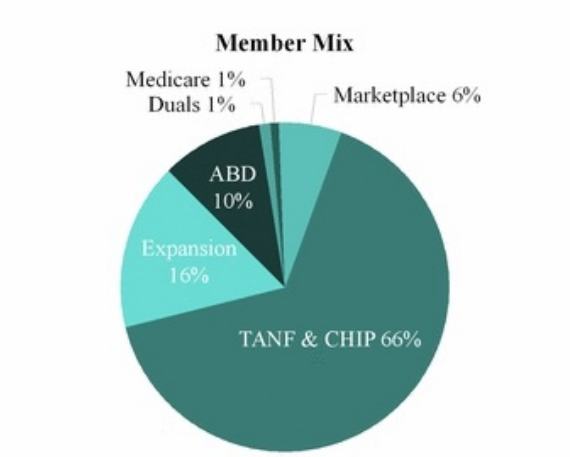
BUSINESS OPERATIONS

Our Structure

We currently manage our operations through three reportable segments: the Health Plans segment, the Molina Medicaid Solutions segment, and Other, which includes our recent Pathways acquisition described above. We regularly evaluate the appropriateness of our reportable segments, particularly in light of organizational changes, acquisition activity and changing laws and regulations. Therefore, these reportable segments may change in the future.

We derive our revenues primarily from health insurance premiums. Refer to Part II, Item 8 of this Form 10-K, Notes to Consolidated Financial Statements, Note 2, "Significant Accounting Policies," and Note 20, "Segment Information," for revenue information by state health plan, and segment revenue, profit and total asset information, respectively.

Health Plans. The Health Plans segment consists of operational health plans in 11 states and the Commonwealth of Puerto Rico, and our direct delivery business. The health plans are operated by our respective wholly owned subsidiaries in those states, each of which is licensed as a health maintenance organization (HMO). Our direct delivery business consists primarily of the operation of primary care clinics in several states in which we operate health plans. Our Health Plans segment operates in a highly regulated environment, with stringent minimum capitalization requirements that limit the ability of our health plan subsidiaries to pay dividends to us. As of December 31, 2015, the components of our membership by program, are indicated in the following chart.



Molina Medicaid Solutions. The Molina Medicaid Solutions segment provides design, development, implementation (DDI), and business process outsourcing (BPO) solutions to state governments for their Medicaid management information systems. MMIS is a core tool used to support the administration of state Medicaid and other health care entitlement programs. Molina Medicaid Solutions currently holds MMIS contracts with the states of Idaho, Louisiana, Maine, New Jersey, and West Virginia; the U.S. Virgin Islands; and a contract to provide pharmacy rebate administration services for the Florida Medicaid program. The Molina Medicaid Solutions segment supports state Medicaid agency administrative needs, reduces the variability in our earnings resulting from fluctuations in medical care costs, improves our operating profit margin percentages, and improves our cash flow by adding a business for which there are no restrictions on dividend payments.

Other. Our Other segment includes other businesses, such as our Pathways behavioral health and social services provider, that do not meet the quantitative thresholds for a reportable segment as defined by U.S. generally accepted accounting principles (GAAP), as well as corporate amounts not allocated to other reportable segments.

Our reliance on operations in a limited number of states could cause our revenue and profitability to change suddenly and unexpectedly. Additionally, our inability to continue to operate in any of the states in which we currently operate, or a significant change in the nature of our existing operations, could adversely affect our business, financial condition, cash flows, or results of operations.

Pricing

Medicaid. Under our Medicaid contracts, state government agencies pay our health plans fixed PMPM rates that vary by state, line of business and demographics; and we arrange, pay for and manage health care services provided to Medicaid beneficiaries. Therefore, our health plans are at risk for the medical costs associated with their members' health care. The rates we receive are subject to change by each state and, in some instances, provide for adjustments for health risk factors. CMS requires these rates to be actuarially sound. Payments to us under each of our Medicaid contracts are subject to the annual appropriation process in the applicable state.

Medicare. Under Medicare Advantage, managed care plans contract with CMS to provide benefits in exchange for a fixed PMPM premium payment that varies based on the county in which a member resides, and adjusted for demographic and health risk factors. CMS also considers inflation, changes in utilization patterns and average per capita fee-for-service Medicare costs in the calculation of the fixed PMPM premium payment.

Amounts payable to us under the Medicare Advantage contracts are subject to annual revision by CMS, and we elect to participate in each Medicare service area or region on an annual basis. Medicare Advantage premiums paid to us are subject to federal government reviews and audits which can result, and have resulted, in retroactive and prospective premium adjustments. Compared with our Medicaid plans, Medicare Advantage contracts generate higher average PMPM revenues and health care costs.

Marketplace. For our Marketplace plans, we develop premium rates during early spring each year for policies effective January 1st of the following year. We develop our premium rates based on our estimates of projected member utilization, medical unit costs, member risk acuity, and administrative costs, with the intent of realizing a target pretax percentage profit margin. Our

actuaries certify the actuarial soundness of Marketplace premiums in the rate filings submitted to the various state and federal authorities for approval.

Medical Management

Our experience in medical management extends back to our roots as a provider organization. Primary care physicians are the focal point of the delivery of health care to our members, providing routine and preventive care, coordinating referrals to specialists, and assessing the need for hospital care. This model has proved to be an effective method for coordinating medical care for our members. The underlying challenge we face is to coordinate health care so that our members receive timely and appropriate care from the right provider at the appropriate cost. In support of this goal, and to ensure medical management consistency among our various state health plans, we continuously refine and upgrade our medical management efforts at both the corporate and subsidiary levels.

We seek to ensure quality care for our members on a cost-effective basis through the use of certain key medical management and cost control tools. These tools include utilization management, case and health management, and provider network and contract management.

Utilization Management. We continuously review utilization patterns with the intent to optimize quality of care and ensure that only appropriate services are rendered in the most cost-effective manner. Utilization management, along with our other tools of medical management and cost control, is supported by a centralized corporate medical informatics function which utilizes third-party software and data warehousing tools to convert data into actionable information. We use predictive modeling that supports a proactive case and health management approach both for us and our affiliated physicians.

Case and Health Management. We seek to encourage quality, cost-effective care through a variety of case and health management programs, including disease management programs, educational programs, and pharmacy management programs such as the following:

- *Disease Management Programs.* We develop specialized disease management programs that address the particular health care needs of our members. "*motherhood matters!*℠" is a comprehensive program designed to improve pregnancy outcomes and enhance member satisfaction. "*breathe with ease!*" is a multi-disciplinary disease management program that provides health education resources and case management services to assist physicians caring for asthmatic members between the ages of three and 15. "*Healthy Living with Diabetes*" is a diabetes disease management program. "*Heart Healthy Living*" is a cardiovascular disease management program for members who have suffered from congestive heart failure, angina, heart attack, or high blood pressure.
- *Educational Programs.* Educational programs are an important aspect of our approach to health care delivery. These programs are designed to increase awareness of various diseases, conditions, and methods of prevention in a manner that supports our providers while meeting the unique needs of our members. For example, we provide our members with information to guide them through various episodes of care. This information, which is available in several languages, is designed to educate members on the use of primary care physicians, emergency rooms, and nurse call centers.
- *Pharmacy Management Programs.* Our pharmacy management programs focus on physician education regarding appropriate medication utilization and encouraging the use of generic medications. Our pharmacists and medical directors work with our pharmacy benefits manager to maintain a formulary that promotes both improved patient care and generic drug use. We employ full-time pharmacists and pharmacy technicians who work with physicians to educate them on the uses of specific drugs, the implementation of best practices, and the importance of cost-effective care.

Provider Network and Contract Management. The quality, depth, and scope of our provider network are essential if we are to ensure quality, cost-effective care for our members. In partnering with quality, cost-effective providers, we utilize clinical and financial information derived by our medical informatics function, as well as the experience we have gained in serving Medicaid members, to gain insight into the needs of both our members and our providers. As we grow in size, we seek to strengthen our ties with high-quality, cost-effective providers by offering them greater patient volume.

Provider Networks

We arrange health care services for our members through contracts with providers that include independent physicians and groups, hospitals, ancillary providers, and our own clinics. Our network of providers includes primary care physicians, specialists and hospitals. Our strategy is to contract with providers in those geographic areas and medical specialties necessary to meet the needs of our members. We also strive to ensure that our providers have the appropriate cultural and linguistic experience and skills.

Physicians. We contract with both primary care physicians and specialists, many of whom are organized into medical groups or independent practice associations (IPAs). Primary care physicians provide office-based primary care services. Primary care

physicians may be paid under capitation or fee-for-service contracts and may receive additional compensation by providing certain preventive services. Our specialists care for patients for a specific episode or condition, usually upon referral from a primary care physician, and are usually compensated on a fee-for-service basis. When we contract with groups of physicians on a capitated basis, we monitor their solvency.

Hospitals. We generally contract with hospitals that have significant experience dealing with the medical needs of the Medicaid population. We reimburse hospitals under a variety of payment methods, including fee-for-service, per diems, diagnostic-related groups (DRGs) capitation, and case rates.

Direct Delivery. The clinics we operate are located in neighborhoods where our members live, and provide us a first-hand opportunity to understand the special needs of our members. The clinics we operate assist us in developing and implementing community education, disease management, and other programs. Direct clinic management experience also enables us to better understand the needs of our contracted providers.

Reinsurance

Our health plans currently have reinsurance agreements with an unaffiliated insurer to cover certain claims. We enter into these contracts to reduce the risk of catastrophic losses which in turn reduce our capital and surplus requirements. We frequently evaluate reinsurance opportunities and review our reinsurance and risk management strategies on a regular basis.

Management Information Systems

All of our health plan information technology systems operate on a single platform. This approach avoids the costs associated with maintaining multiple systems, improves productivity, and enables medical directors to compare costs, identify trends, and exchange best practices among our plans. Our single platform also facilitates our compliance with current and future regulatory requirements.

The software we use is based on client-server technology and is scalable. We believe the software is flexible, easy to use, and allows us to accommodate anticipated enrollment growth and new contracts. The open architecture of the system gives us the ability to transfer data from other systems without the need to write a significant amount of computer code, thereby facilitating the integration of new plans and acquisitions.

We have designed our corporate website with a focus on ease of use and visual appeal. Our website has a secure ePortal which allows providers, members, and trading partners to access individualized data. The ePortal allows the following self-services:

- Provider Self Services - Providers have the ability to access information regarding their members and claims. Key functionalities include "Check Member Eligibility," "View Claim," and "View/Submit Authorizations."
- Member Self Services - Members can access information regarding their personal data, and can perform the following key functionalities: "View Benefits," "Request New ID Card," "Print Temporary ID Card," and "Request Change of Address/PCP."
- File Exchange Services - Various trading partners, such as service partners, providers, vendors, management companies, and individual IPAs, are able to exchange data files (such as those that may be required by federal health care privacy regulations, or any other proprietary format) with us using the file exchange functionality.

Best Practices. We continuously seek to promote best practices. Our approach to quality is broad, encompassing traditional medical management and the improvement of our internal operations. We have staff assigned full-time to the development and implementation of a uniform, efficient, and quality-based medical care delivery model for our health plans. These employees coordinate and implement company-wide programs and strategic initiatives such as preparation of the Healthcare Effectiveness Data and Information Set (HEDIS), and accreditation by the NCQA. We use measures established by the NCQA in credentialing the physicians in our network. We routinely use peer review to assess the quality of care rendered by providers.

Claims Processing. All of our health plans operate on a single managed care platform for claims processing (the QNXT system).

Centralized Management Services. We provide certain centralized medical and administrative services to our health plans pursuant to administrative services agreements, including medical affairs and quality management, health education, credentialing, management, financial, legal, information systems, and human resources services. Fees for such services are based on the fair market value of services rendered. Payment is subordinated to the health plan’s ability to comply with minimum capital and other restrictive financial requirements of the states in which they operate.

Compliance. Our health plans have established high standards of ethical conduct. Our compliance programs are modeled after the compliance guidance statements published by the Office of the Inspector General of the HHS. Our uniform approach to compliance makes it easier for our health plans to share information and practices and reduces the potential for compliance errors and any associated liability.

Disaster Recovery. We have established a disaster recovery and business resumption plan, with back-up operating sites, to be deployed in the case of a major disruptive event.

CONTRACTING AND REGULATORY COMPLIANCE

Government Contracts

Medicaid. In all the states in which we operate health plans, we enter into a contract with the state's Medicaid agency to offer managed care benefits to Medicaid-eligible individuals. Some states award contracts to any applicant demonstrating that it meets the state's requirements, while other states engage in a competitive bidding process. In all cases, we must demonstrate to the satisfaction of the state Medicaid program that we are able to meet the state's operational and financial requirements. These requirements are in addition to those required for a license and are targeted to the specific needs of the Medicaid population; for example:

- We must measure provider access and availability in terms of the time needed to reach the doctor's office using public transportation;
- Our quality improvement programs must emphasize member education and outreach and include measures designed to promote utilization of preventive services;
- We must have linkages with schools, city or county health departments, and other community-based providers of health care, to demonstrate our ability to coordinate all of the sources from which our members may receive care;
- We must be able to meet the needs of the disabled and others with special needs;
- Our providers and member service representatives must be able to communicate with members who do not speak English or who are deaf; and
- Our member handbook, newsletters, and other communications must be written at the prescribed reading level, and must be available in languages other than English.

To operate a health plan in a given state, we must apply for and obtain a certificate of authority or license from that state. We are regulated by the state agency with responsibility for the oversight of HMOs which, in most cases, is the state department of insurance. In California, however, the agency with responsibility for the oversight of HMOs is the Department of Managed Health Care. Licensing requirements are the same for us as they are for health plans serving commercial or Medicare members. For example, we must demonstrate that:

- Our provider network is adequate;
- Our quality and utilization management processes comply with state requirements;
- We have adequate procedures in place for responding to member and provider complaints and grievances;
- We can meet requirements for the timely processing of provider claims;
- We can collect and analyze the information needed to manage our quality improvement activities;
- We have the financial resources necessary to pay our anticipated medical care expenses and the infrastructure needed to account for our costs;
- We have the systems required to process enrollment information, to report on care and services provided, and to process claims for payment in a timely fashion; and
- We have the financial resources needed to protect the state, our providers, and our members against the insolvency of one of our health plans.

Our state contracts determine the type and scope of health care services that we arrange for our members. Generally, our contracts require us to arrange for preventive care, office visits, inpatient and outpatient hospital and medical services, and pharmacy benefits. The contracts also detail the requirements for operating in the Medicaid sector, including provisions relating to: eligibility; enrollment and dis-enrollment processes; covered benefits; eligible providers; subcontractors; record-keeping and record retention; periodic financial and informational reporting; quality assurance; marketing; financial standards; timeliness of claims payments; health education, wellness and prevention programs; safeguarding of member information; fraud and abuse detection and reporting; grievance procedures; and organization and administrative systems. A health plan's compliance with these requirements is subject to monitoring by state regulators. A health plan is subject to periodic comprehensive quality assurance evaluation by a third-party reviewing organization and generally by the insurance department of the jurisdiction that licenses the health plan.

The contractual relationship with the state is generally for a period of three to four years and is renewable on an annual or biennial basis at the discretion of the state. In general, either the state Medicaid agency or the health plan may terminate the state contract with or without cause upon 30 days to nine months' prior written notice.

Most of these contracts contain renewal options that are exercisable by the state. Our health plan subsidiaries have generally been successful in obtaining the renewal of their contracts in each state prior to the actual expiration of their contracts. Our state contracts are generally at greatest risk of loss when a state issues a new request for proposals (RFP), subject to competitive bidding by other health plans. If one of our health plans is not a successful responsive bidder to a state RFP, its contract may be subject to non-renewal. For instance, in early 2012 our Missouri health plan was notified that it was not awarded a new contract under that state's RFP, and therefore its contract expired in that year.

Medicare. Under annually renewable contracts with CMS, our state health plans offer Medicare Advantage special needs plans which include a mandatory Part D prescription drug benefit. Molina Medicare Options Plus, our trade name for these plans, serves beneficiaries who are dually eligible for both Medicare and Medicaid, such as low-income seniors and people with disabilities. We believe offering these Medicare plans is consistent with our historical mission of serving low-income and medically under-served families and individuals. We employ sales personnel, and engage independent brokers, agents and consultants to enroll new Molina Medicare Options Plus members. None of our health plans operates a Medicare Advantage private fee-for-service plan.

Federal regulations place prohibitions and limitations on certain sales and marketing activities of Medicare Advantage plans. Among other things, Medicare Advantage plans are not permitted to make unsolicited outbound calls to potential members or engage in other forms of unsolicited contact, establish appointments without documented consent from potential members, or conduct sales events in certain provider-based settings. Additionally, there are certain restrictions on agent and broker compensation.

Molina Medicaid Solutions. We continually monitor the status of various states' legacy MMIS capabilities and contracts to determine whether Molina Medicaid Solutions' value proposition and core strengths will address a state's MMIS goals. Once an RFP with a Medicaid agency is won, our Molina Medicaid Solutions contracts may extend over a number of years, particularly in circumstances where we deliver extensive and complex DDI services, such as the initial design, development and implementation of a complete MMIS. For example, the initial term of our most recently implemented Molina Medicaid Solutions contract in New Jersey is 10 years in total, consisting of 2.5 years allocated for the delivery of DDI services, followed by 7.5 years for the performance of BPO services. In most of these engagements option years are offered which span 2-3 years. The terms of some of our other established Molina Medicaid Solutions contracts—which primarily involve the delivery of BPO services with only minimal DDI activity (consisting of system enhancements)—are shorter in duration than our more recent contracts.

The federal government typically reimburses the states for 90% of the costs incurred in the design, development, and implementation of an MMIS and for 75% of the costs incurred in operating a certified MMIS. Federal certification increases the share of the claims processing costs the federal government will pay for monthly operations. With an uncertified system, the federal government contributes approximately 50% of claims processing costs, with the state paying the other half. With a certified system, the federal government pays 75% of costs, reducing the state's share.

Other. Substantially all of Pathways' revenue is derived from contracts with state or local government agencies and government intermediaries, the majority of which are negotiated fee-for-service arrangements. A significant number of these contracts allow the payer to terminate the contract immediately for cause, such as for our failure to meet our contract obligations. Additionally, these contracts typically permit the payer to terminate the contract at any time prior to its stated expiration date without cause, at will and without penalty to the payer, either upon the expiration of a short notice period, typically 30 days, or immediately, in the event federal or state appropriations supporting the programs serviced by the contract are reduced or eliminated.

Regulatory Compliance

Our health plans are highly regulated by both state and federal government agencies. Regulation of managed care products and health care services varies from jurisdiction to jurisdiction, and changes in applicable laws and rules occur frequently. Regulatory agencies generally have discretion to issue regulations and interpret and enforce laws and rules. Such agencies have become increasingly active in recent years in their review and scrutiny of health insurers and managed care organizations, including those operating in the Medicaid and Medicare programs.

States' Risk-Based Capital Requirements. Our health plans are required to file quarterly and annual reports of their operating results with the appropriate state regulatory agencies. These reports are accessible for public viewing. Each health plan undergoes periodic examinations and reviews by the state in which it operates. The health plans generally must obtain approval from the state before declaring dividends in excess of certain thresholds. Each health plan must maintain its net worth at an amount determined by statute or regulation. The minimum statutory net worth requirements differ by state, and are generally based on statutory minimum risk-based capital (RBC) requirements. The RBC requirements are based on guidelines established

by the National Association of Insurance Commissioners (NAIC) and are administered by the states. All of our state health plans are subject to RBC requirements, except California and Florida. Any acquisition of another plan's members or its state contracts must also be approved by the state, and our ability to invest in certain financial securities may be prescribed by statute. For further information regarding RBC requirements, refer to Part II, Item 8 of this Form 10-K, Notes to Consolidated Financial Statements, in Note 19, "Commitments and Contingencies."

In addition, we are also regulated by each state's department of health services or the equivalent agency charged with oversight of Medicaid and CHIP. These agencies typically require demonstration of the same capabilities mentioned above and perform periodic audits of performance, usually annually.

HIPAA. In 1996, Congress enacted the Health Insurance Portability and Accountability Act (HIPAA). All health plans are subject to HIPAA, including ours. HIPAA generally requires health plans to:

- Establish the capability to receive and transmit electronically certain administrative health care transactions, like claims payments, in a standardized format;
- Afford privacy to patient health information; and
- Protect the privacy of patient health information through physical and electronic security measures.

Health care reform created additional tools for fraud prevention, including increased oversight of providers and suppliers participating or enrolling in Medicaid, CHIP, and Medicare. Those enhancements included mandatory licensure for all providers, and site visits, fingerprinting, and criminal background checks for higher risk providers.

The Health Information Technology for Economic and Clinical Health Act (HITECH Act), a part of the American Recovery and Reinvestment Act of 2009, or ARRA, modified certain provisions of HIPAA by, among other things, extending the privacy and security provisions to business associates, mandating new regulations around electronic medical records, expanding enforcement mechanisms, allowing the state Attorneys General to bring enforcement actions, and increasing penalties for violations. As required by ARRA, the Secretary of HHS has promulgated regulations implementing various provisions of the HITECH Act. The Final Omnibus Rule promulgated by HHS in January 2013, included the Final Breach Notification Rule as well as provisions that apply the HIPAA regulatory scheme to business associates. We anticipate that HHS will promulgate additional rules under the HITECH Act to implement provisions of the statute which were not addressed in the Final Omnibus Rule. The various requirements of the HITECH Act and the Final Omnibus Rule have different compliance dates, and in some cases, the applicable compliance date may depend on the publication of additional rules or guidance by HHS. With respect to those requirements whose compliance dates have passed, we believe that we are in compliance with such provisions. With respect to additional requirements that may be issued in the future by HHS, it is our intention to implement any such new requirements on or before the applicable compliance dates.

Fraud and Abuse Laws. Our operations are subject to various state and federal health care laws commonly referred to as "fraud and abuse" laws. Fraud and abuse prohibitions encompass a wide range of activities, including kickbacks for referral of members, billing for unnecessary medical services, improper marketing, and violations of patient privacy rights. These fraud and abuse laws include the federal False Claims Act which prohibits the knowing filing of a false claim or the knowing use of false statements to obtain payment from the federal government. Many states have false claim act statutes that closely resemble the federal False Claims Act. If an entity is determined to have violated the federal False Claims Act, it must pay three times the actual damages sustained by the government, plus mandatory civil penalties up to fifty thousand dollars for each separate false claim. Suits filed under the Federal False Claims Act, known as "*qui tam*" actions, can be brought by any individual on behalf of the government and such individuals (known as "relators" or, more commonly, as "whistleblowers") may share in any amounts paid by the entity to the government in fines or settlement. *Qui tam* actions have increased significantly in recent years, causing greater numbers of health care companies to have to defend a false claim action, pay fines or be excluded from the Medicaid, Medicare or other state or Federal health care programs as a result of an investigation arising out of such action. In addition, the Deficit Reduction Act of 2005 (DRA) encourages states to enact state-versions of the federal False Claims Act that establish liability to the state for false and fraudulent Medicaid claims and that provide for, among other things, claims to be filed by *qui tam* relators.

Companies involved in public health care programs such as Medicaid are often the subject of fraud and abuse investigations. The regulations and contractual requirements applicable to participants in these public sector programs are complex and subject to change. Violations of certain fraud and abuse laws applicable to us could result in civil monetary penalties, criminal fines and imprisonment, and/or exclusion from participation in Medicaid, Medicare, other federal health care programs and federally funded state health programs.

Federal and state governments have made investigating and prosecuting health care fraud and abuse a priority. Although we believe that our compliance efforts are adequate, we will continue to devote significant resources to support our compliance efforts.

Federal and State Self-Referral Prohibitions. We may be subject to federal and state statutes banning payments for referrals of patients and referrals by physicians to healthcare providers with whom the physicians have a financial relationship. Section 1877 of the Social Security Act, also known as the "Stark Law," prohibits physicians from making a "referral" for "designated health services" for Medicare (and in many cases Medicaid) patients from entities or facilities in which such physicians directly or indirectly hold a "financial relationship." A financial relationship can take the form of a direct or indirect ownership, investment or compensation arrangement. A referral includes the request by a physician for, or ordering of, or the certifying or re-certifying the need for, any designated health services.

Certain services that we provide may be identified as "designated health services" for purposes of the Stark Law. We cannot provide assurance that future regulatory changes will not result in other services we provide becoming subject to the Stark Law's ownership, investment or compensation prohibitions in the future.

Many states, including some states where we do business, have adopted similar or broader prohibitions against payments that are intended to induce referrals of clients. Moreover, many states where we operate have laws similar to the Stark Law prohibiting physician self-referrals. We contract with a significant number of human services providers and practitioners, including therapists, physicians and psychiatrists, and arrange for these individuals or entities to provide services to our clients. While we believe that these contracts are in compliance with the Stark Law, no assurance can be made that such contracts will not be considered in violation of the Stark Law.

For-profit ownership. Certain of the agencies for which we provide services restrict our ability to contract directly as a for-profit organization. Instead, these agencies contract directly with a not-for-profit organization and in certain cases we negotiate to provide administrative and management services to the not-for-profit providers. The extent to which other agencies impose such requirements may affect our ability to continue to provide the full range of services that we provide or limit the organizations with which we can contract directly to provide services.

Corporate practice of medicine and fee splitting. Some states in which we operate prohibit general business entities, such as us, from "practicing medicine," which definition varies from state to state and can include employing physicians, professional therapists and other mental health professionals, as well as engaging in fee-splitting arrangements with these health care providers. Among other things, we currently contract with professional therapists to provide intensive home based counseling and with nurse practitioners to perform comprehensive health assessments. We believe that we have structured our operations appropriately, however, we could be alleged or found to be in violation of some or all of these laws. If a state determines that some portion of our business violates these laws, it may seek to have us discontinue those portions or subject us to penalties, fines, certain license requirements or other measures. Any determination that we have acted improperly in this regard may result in liability to us. In addition, agreements between the corporation and the professional may be considered void and unenforceable.

Professional licensure and other requirements. Many of our employees are subject to federal and state laws and regulations governing the ethics and practice of their professions. In addition, professionals who are eligible to participate in Medicare and Medicaid as individual providers must not have been excluded from participation in government programs at any time. Our ability to provide services depends upon the ability of our personnel to meet individual licensure and other requirements.

OTHER INFORMATION

Intellectual Property

We have registered and maintain various service marks, trademarks and trade names that we use in our businesses, including marks and names incorporating the "Molina" or "Molina Healthcare" phrase, and from time to time we apply for additional registrations of such marks. We utilize these and other marks and names in connection with the marketing and identification of products and services. We believe such marks and names are valuable and material to our marketing efforts.

Employees

As of December 31, 2015, we had approximately 21,000 employees. Our employee base is multicultural and reflects the diverse membership we serve. We believe we have good relations with our employees. None of our employees is represented by a union.

Available Information

Molina Healthcare, Inc. is a C corporation under Delaware law incorporated in 2002. Our principal executive offices are located at 200 Oceangate, Suite 100, Long Beach, California 90802, and our telephone number is (562) 435-3666.

You can access our website at *www.molinahealthcare.com* to learn more about our Company. From that site, you can download and print copies of our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and Current Reports on Form 8-K, along with amendments to those reports. You can also download our Corporate Governance Guidelines, Board of Directors

committee charters, and Code of Business Conduct and Ethics. We make periodic reports and amendments available, free of charge, as soon as reasonably practicable after we file or furnish these reports to the SEC. We will also provide a copy of any of our corporate governance policies published on our website free of charge, upon request. To request a copy of any of these documents, please submit your request to: Molina Healthcare, Inc., 200 Oceangate, Suite 100, Long Beach, California 90802, Attn: Investor Relations. Information on or linked to our website is neither part of nor incorporated by reference into this Annual Report on Form 10-K or any other SEC filings.

Executive Officers of the Registrant

The following sets forth certain information regarding our executive officers, including the business experience of each executive officer during the past five years:

Name	Age	Position
J. Mario Molina, M.D.	57	President and Chief Executive Officer
John C. Molina, J.D.	51	Chief Financial Officer
Terry P. Bayer	65	Chief Operating Officer
Joseph W. White	57	Chief Accounting Officer
Jeff D. Barlow	53	Chief Legal Officer and Corporate Secretary

Dr. Molina has served as President and Chief Executive Officer since succeeding his father and company founder, Dr. C. David Molina, in 1996. He has also served as Chairman of the Board of Directors since 1996. Dr. Molina is the brother of John C. Molina.

Mr. Molina has served as Chief Financial Officer since 1995. He also has served as a member of the Board of Directors since 1994. Mr. Molina is the brother of Dr. J. Mario Molina.

Ms. Bayer has served as Chief Operating Officer since 2005.

Mr. White has served as Chief Accounting Officer since 2007.

Mr. Barlow has served as Chief Legal Officer and Corporate Secretary since 2010.

Item 1A: Risk Factors

RISK FACTORS

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

This Annual Report on Form 10-K and the documents we incorporate by reference in this report contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Other than statements of historical fact, all statements that we include in this report and in the documents we incorporate by reference may be deemed to be forward-looking statements for purposes of the Securities Act and the Exchange Act. Such forward-looking statements may be identified by words such as "anticipates," "believes," "could," "estimates," "expects," "guidance," "intends," "may," "outlook," "plans," "projects," "seeks," "will," or similar words or expressions.

Investing in our securities involves a high degree of risk. Before making an investment decision, you should carefully read and consider the following risk factors, as well as the other information we include or incorporate by reference in this report and the information in the other reports we file with the U.S. Securities Exchange Commission, or SEC. Such risk factors should be considered not only with regard to the information contained in this annual report, but also with regard to the information and statements in the other periodic or current reports we file with the SEC, as well as our press releases, presentations to securities analysts or investors, or other communications made by or with the approval of one of our executive officers. No assurance can be given that we will actually achieve the results contemplated or disclosed in our forward-looking statements. Such statements may turn out to be wrong due to the inherent uncertainties associated with future events. Accordingly, you should not place undue reliance on our forward-looking statements, which reflect management's analyses, judgments, beliefs, or expectations only as of the date they are made.

If any of the events described in the following risk factors actually occur, our business, results of operations, financial condition, cash flows, or prospects could be materially adversely affected. The risks and uncertainties described below are those that we currently believe may materially affect us. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also affect our business and operations. As such, you should not consider this list to be a complete statement of all potential risks or uncertainties. Except to the extent otherwise required by federal securities laws, we do not undertake to address or update forward-looking statements in future filings or communications regarding our business or operating results, and do not undertake to address how any of these factors may have caused results to differ from discussions or information contained in previous filings or communications.

Risks Related to Our Health Plans Segment

Numerous risks associated with the Affordable Care Act and its implementation, and changes to health care regulatory laws, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

In March 2010, President Obama signed both the Patient Protection and Affordable Care Act and the Health Care and Education Affordability Reconciliation Act (collectively, the Affordable Care Act, or ACA). The ACA enacted comprehensive changes to the U.S. health care system, elements of which have been phased in at various stages over the past several years. The most significant changes effected by the ACA were implemented as of January 1, 2014. There are a multitude of risks associated with the scope of change in the health care system represented by the ACA, including, but not limited to, the following:

- *Risks associated with the duals expansion*. Nine million low-income elderly and disabled people are covered under both the Medicare and Medicaid programs. These beneficiaries are more likely than other Medicare beneficiaries to be frail, live with multiple chronic conditions, and have functional and cognitive impairments. Medicare is their primary source of health insurance coverage, as it is for the nearly 50 million elderly and under-65 disabled beneficiaries in 2012. Medicaid supplements Medicare by paying for services not covered by Medicare, such as dental care and long-term care services and support, and by helping to cover Medicare's premiums and cost-sharing requirements. Together, these two programs help to shield very low-income Medicare beneficiaries from potentially unaffordable out-of-pocket medical and long-term care costs. To coordinate care for those who qualify to receive both Medicare and Medicaid services (the "dual eligible"), and to deliver services to these individuals in a more financially efficient manner, some states have undertaken demonstration programs to integrate Medicare and Medicaid services for dual eligible individuals. The health plans participating in such demonstrations are referred to as Medicare-Medicaid Plans (MMPs). We operate MMPs in six states. Our MMPs in California, Illinois, and Ohio offered coverage beginning in 2014; our MMPs in South Carolina and Texas offered coverage beginning in the first quarter of 2015; and our MMP in Michigan offered coverage beginning in the second quarter of 2015. At December 31, 2015, our membership included approximately 51,000 integrated MMP members.

  There are numerous risks associated with the initial implementation of a new program, with a health plan's expansion into a new service area, and with the provision of medical services to a new population which has not previously been

in managed care. One such risk is the development of actuarially sound rates. Because there is limited historical information on which to develop rates, certain assumptions are required to be made which may subsequently prove to have been inaccurate. Rates of utilization could be significantly higher than had been projected, or the assumptions of policymakers about the amount of savings that could be achieved through the use of utilization management in managed care could be flawed. Moreover, because of our lack of actuarial experience for that program, region, or population, our reserve levels may be set at an inadequate level. For instance, these problems arose at our Texas health plan in 2012, leading to extremely elevated medical care costs and substantial losses at the health plan. All of these risks are present in the implementation of the duals demonstration programs. In the event these risks materialize at one or more of our health plans, the negative results of the health plan or plans could adversely affect our business, financial condition, cash flows, or results of operations.

- *Risks associated with Medicaid expansion*. In the states that have elected to participate, the ACA provides for the expansion of the Medicaid program to offer eligibility to nearly all low-income people under age 65 with incomes at or below 138% of the federal poverty line. Medicaid expansion membership phased in beginning January 1, 2014. Since that date, our health plans in California, Illinois, Michigan, New Mexico, Ohio, and Washington have participated in Medicaid expansion. At December 31, 2015, our membership included approximately 557,000 Medicaid expansion members, or 16% of total membership. The new enrollees in our health plans represent a population that is different from the population of Medicaid enrollees we have historically managed. All of the risk factors described above with regard to the duals demonstration programs apply equally to Medicaid expansion.
- *Risks associated with health insurance marketplaces*. The ACA authorized the creation of Marketplace insurance exchanges, allowing individuals and small groups to purchase health insurance that is federally subsidized, effective January 1, 2014. We participate in the Marketplace in all of the states in which we operate, except Illinois, Puerto Rico and South Carolina. At December 31, 2015, our membership included approximately 205,000 Marketplace members, with approximately 133,000, or 65%, of those members in Florida. All of the risk factors described above with regard to the duals demonstration programs apply equally to our participation in the insurance marketplaces.
- *Risk associated with implementing regulations*. There are many parts of the ACA that require further guidance in the form of regulations. Due to the breadth and complexity of the ACA, the lack of implementing regulations and interpretive guidance, and the phased nature of the ACA's implementation, the overall impact of the ACA on our business and on the health industry in general over the coming years is difficult to predict and not yet fully known, and implementing regulations could contain provisions that have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Changes to health care regulatory laws under the ACA, including the recently proposed Medicaid managed care rule, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

The health care regulatory law landscape is constantly changing. For example, on May 26, 2015, CMS posted a new proposed rule to the Federal Register regarding Medicaid programs and CHIP, Medicaid managed care, CHIP delivered in managed care, Medicaid and CHIP comprehensive quality strategies, and revisions related to third party liability that, if implemented, would, among other things, impose a medical loss ratio of 85% for Medicaid and CHIP programs, establish a Medicaid managed care quality rating system like the five-star system for Medicare Advantage plans, and expand health plans' responsibilities in program integrity efforts. It is difficult to predict what final rules may be adopted and implemented by CMS, and if the final rule would result in any material adverse effect on our business, financial condition, cash flows, or results of operations.

Our profitability depends on our ability to accurately predict and effectively manage our medical care costs.

Our profitability depends to a significant degree on our ability to accurately predict and effectively manage our medical care costs. Historically, our medical care cost ratio, meaning our medical care costs as a percentage of our premium revenue net of premium tax, has fluctuated substantially, and has also varied across our state health plans. Because the premium payments we receive are generally fixed in advance and we operate with a narrow profit margin, relatively small changes in our medical care cost ratio can create significant changes in our overall financial results. For example, if our overall medical care ratio, continuing operations of 89.1%, for the year ended December 31, 2015 had been one percentage point higher, or 90.1%, our net income from continuing operations for the year ended December 31, 2015 would have been approximately $1.08 per diluted share rather than our actual income from continuing operations of $2.58 per diluted share, a decrease of approximately 58%.

Factors that may affect our medical care costs include the level of utilization of health care services, unexpected patterns in the annual flu season, increases in hospital costs, an increased incidence or acuity of high dollar claims related to catastrophic illnesses or medical conditions for which we do not have adequate reinsurance coverage, increased maternity costs, payment rates that are not actuarially sound, changes in state eligibility certification methodologies, relatively low levels of hospital and specialty provider competition in certain geographic areas, increases in the cost of pharmaceutical products and services, changes in health care regulations and practices, epidemics, new medical technologies, and other various external factors. Many of these factors are beyond our control and could reduce our ability to accurately predict and effectively manage the costs of

providing health care services. The inability to forecast and manage our medical care costs or to establish and maintain a satisfactory medical care cost ratio, either with respect to a particular state health plan or across the consolidated entity, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

State and federal budget deficits may result in Medicaid, CHIP, or Medicare funding cuts which could reduce our revenues and profit margins.

Nearly all of our premium revenues come from the joint federal and state funding of the Medicaid and CHIP programs. Due to high unemployment levels, Medicaid enrollment levels and Medicaid costs remain elevated at the same time that state budgets are suffering from significant fiscal strain. Because Medicaid is one of the largest expenditures in every state budget, and one of the fastest-growing, it is a prime target for cost-containment efforts. The states in which we operate our health plans regularly face significant budgetary pressures. These budgetary pressures may result in unexpected Medicaid, CHIP, or Medicare rate cuts which could reduce our revenues and profit margins. Moreover, some federal deficit reduction or entitlement reform proposals would fundamentally change the structure and financing of the Medicaid program. A number of these proposals include both tax increases and spending reductions in discretionary programs and mandatory programs, such as Social Security, Medicare, and Medicaid.

We are unable to determine how any future congressional spending cuts will affect Medicare and Medicaid reimbursement. There likely will continue to be legislative and regulatory proposals at the federal and state levels directed at containing or lowering the cost of health care that, if adopted, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

The Commonwealth of Puerto Rico may become unable to pay the premiums of our Puerto Rico health plan.

The government of Puerto Rico currently faces major fiscal and liquidity challenges. The government recently warned that it may lack sufficient resources to fund all necessary governmental programs and services as well as meet debt service obligations for fiscal year 2016. The extreme financial difficulties faced by the Commonwealth may make it impossible for ASES, the Puerto Rico Medicaid agency, to pay our Puerto Rico health plan under the terms of the parties' Medicaid contract. As of December 31, 2015, our Puerto Rico health plan served approximately 348,000 members, and had recognized premium revenue of approximately $192 million in the fourth quarter of 2015, or approximately $64 million per month. It is the practice of the Commonwealth to pay us for eligible members only after those members have been assigned to us, and our plan has sent electronic confirmation of the receipt of eligibility. Particularly in the early stages of our contract with Puerto Rico, the plan's confirmation of eligibility of certain members was not accepted by the Commonwealth as a result of various technical issues. The plan has continued to pay for medical services for all members in question, but the Commonwealth is withholding payment of approximately $12 million of premium revenue related to those members. We believe we have a valid claim to all of the premiums withheld and we are in discussions with the Commonwealth regarding this matter. A default by ASES on its payment obligations under our Medicaid contract, or a determination by ASES to terminate our contract based on insufficient funds available, could result in our having paid, or in our having to pay, provider claims in amounts for which we are not paid reimbursement, and could make it unfeasible for the Puerto Rico health plan to continue to operate. A default by ASES or termination of our Puerto Rico Medicaid contract could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

A failure to accurately estimate incurred but not reported medical care costs may negatively impact our results of operations.

Because of the time lag between when medical services are actually rendered by our providers and when we receive, process, and pay a claim for those medical services, we must continually estimate our medical claims liability at particular points in time, and establish claims reserves related to such estimates. Our estimated reserves for such "incurred but not paid" (IBNP) medical care costs are based on numerous assumptions. We estimate our medical claims liabilities using actuarial methods based on historical data adjusted for claims receipt and payment experience (and variations in that experience), changes in membership, provider billing practices, health care service utilization trends, cost trends, product mix, seasonality, prior authorization of medical services, benefit changes, known outbreaks of disease or increased incidence of illness such as influenza, provider contract changes, changes to Medicaid fee schedules, and the incidence of high dollar or catastrophic claims. Our ability to accurately estimate claims for our newer lines of business or populations, such as with respect to duals, Medicaid expansion members, or aged, blind or disabled Medicaid members, is impacted by the more limited experience we have had with those populations.

The IBNP estimation methods we use and the resulting reserves that we establish are reviewed and updated, and adjustments, if deemed necessary, are reflected in the current period. Given the numerous uncertainties inherent in such estimates, our actual claims liabilities for a particular quarter or other period could differ significantly from the amounts estimated and reserved for that quarter or period. Our actual claims liabilities have varied and will continue to vary from our estimates, particularly in times of significant changes in utilization, medical cost trends, and populations and markets served.

If our actual liability for claims payments is higher than estimated, our earnings in any particular quarter or annual period could be negatively affected. Our estimates of IBNP may be inadequate in the future, which would negatively affect our results of operations for the relevant time period. Furthermore, if we are unable to accurately estimate IBNP, our ability to take timely corrective actions may be limited, further exacerbating the extent of the negative impact on our results.

Large-scale medical emergencies in one or more states in which we operate our health plans could significantly increase utilization rates and medical costs.

Large-scale medical emergencies can take many forms and be associated with widespread illness or medical conditions. For example, natural disasters, such as a major earthquake in Los Angeles or Cascadia, or a major hurricane in Florida or South Carolina, could have a significant impact on the health of a large number of our covered members. Other conditions that could impact our members include an influenza epidemic, or newly emergent mosquito-borne illnesses, such as the Zika virus, the West Nile virus, or the Chikungunya virus, conditions for which vaccines may not exist, are not effective, or have not been widely administered. In addition, federal and state law enforcement officials have issued warnings about potential terrorist activity involving biological or other weapons of mass destruction. All of these conditions, and others, could have a significant impact on the health of the population of wide-spread areas. We seek to set our IBNP reserves appropriately to account for anticipatable spikes in utilization, such as for the flu season. However, if one of our health plan states were to experience a large-scale natural disaster, a viral epidemic or pandemic, a significant terrorism attack, or some other large-scale event affecting the health of a large number of our members, our covered medical expenses in that state would rise, which could have a material adverse effect on our business, cash flows, financial condition, and results of operations, or, in the event of extreme circumstances, could threaten our viability.

If the responsive bids of our health plans for new or renewed Medicaid contracts are not successful, or if our government contracts are terminated or are not renewed, our premium revenues could be materially reduced and our operating results could be negatively impacted.

Our government contracts may be subject to periodic competitive bidding. In such process, our health plans may face competition as other plans, many with greater financial resources and greater name recognition, attempt to enter our markets through the competitive bidding process. In the event the responsive bid of one or more of our health plans is not successful, we will lose our Medicaid contract in the applicable state or states, and our premium revenues could be materially reduced as a result. If we are unable to renew, successfully re-bid, or compete for any of our government contracts, or if any of our contracts are terminated or renewed on less favorable terms, our business, financial condition, cash flows, or results of operations could be adversely affected. Alternatively, even if our responsive bids are successful, the bids may be based upon assumptions regarding enrollment, utilization, medical costs, or other factors which could result in the Medicaid contract being less profitable than we had expected.

If we sustain a cyber-attack or suffer privacy or data security breaches that disrupt our operations or result in the dissemination of sensitive personal or confidential information, we could suffer increased costs, exposure to significant liability, reputational harm, loss of business, and other serious negative consequences.

As part of our normal operations, we routinely collect, process, store, and transmit large amounts of data in our operations, including sensitive personal information as well as proprietary or confidential information relating to our business or third parties. We may be subject to breaches of the information technology systems we use. Experienced computer programmers and hackers may be able to penetrate our layered security controls and misappropriate or compromise sensitive personal information or proprietary or confidential information, vandalize our systems, create system disruptions, or cause shutdowns. They also may be able to develop and deploy viruses, worms, and other malicious software programs that attack our systems or otherwise exploit any security vulnerabilities. Our systems are also susceptible to human error. Because the techniques used to circumvent security systems can be highly sophisticated and change frequently, often are not recognized until launched against a target, and may originate from less regulated and remote areas around the world, we may be unable to proactively address these techniques or to implement adequate preventive measures. Our facilities may also be vulnerable to security incidents or security attacks, acts of vandalism or theft, misplaced or lost data, human errors, acts of malicious insiders, or other similar events that could negatively affect our systems and our and our members' data. The cost to eliminate or address the foregoing security threats and vulnerabilities before or after a cyber-incident could be significant. While we currently expend significant resources and have implemented solutions, processes and procedures to protect against cyber-attacks and security breaches, we may need to expend significant additional resources in the future to continue to protect against potential security breaches or to address problems caused by such attacks or any breach of our systems. Our remediation efforts may not be successful and could result in interruptions, delays, or cessation of service, and loss of members, vendors, and state contracts. In addition, breaches of our security measures and the unauthorized dissemination of sensitive personal information or proprietary information or confidential information about our members could expose our members to the risk of financial or medical identity theft, or expose us or other third parties to a risk of loss or misuse of this information, result in litigation and potential liability for us, damage our reputation, or otherwise have a material adverse effect on our business, financial condition, cash flows, or results of operations.

The exorbitant cost of specialty drugs and new generic drugs could have a material adverse effect on the level of our medical costs and our results of operations.

In 2014, Gilead's pricing of the hepatitis C drug, Sovaldi, at $84,000 per standard course of therapy received major attention as a health care policy and public policy matter. Because of the relatively high incidence of hepatitis C throughout the nation, particularly in the Medicaid population, the pricing of specialty drugs for the treatment of hepatitis C represents a major public health and public financing problem. In the case of Sovaldi, because of its advent on the health care market in early 2014, the cost of the drug was generally not factored into our 2014 capitation rates, thus threatening to undermine the actuarial soundness of those rates. New high priced specialty drugs and generic drugs are expected to enter the health care market in 2015. In addition, evolving regulations and state and federal mandates regarding coverage may impact the ability of our health plans to continue to receive existing price discounts on pharmaceutical products for our members. Other factors affecting our pharmaceutical costs include, but are not limited to, geographic variation in utilization of new and existing pharmaceuticals, and changes in discounts. We will seek to work with state Medicaid agencies to ensure that we receive appropriate and actuarially sound reimbursement for all new drug therapies and pharmaceuticals. In the event we are required to bear the high costs of new specialty drugs or generic drugs without an appropriate rate adjustment or other reimbursement mechanism, or if new regulations or mandates affect our pharmaceutical costs, our business, financial condition, cash flows, or results of operations could be adversely affected.

States may not adequately compensate us for the value of drug rebates that were previously earned by us but that are now collectible by the states.

The ACA includes certain provisions that change the way drug rebates are handled for drug claims filled by Medicaid managed care plans. Retroactive to March 23, 2010, state Medicaid programs are now required to collect federal rebates on all Medicaid-covered outpatient drugs dispensed or administered to Medicaid managed care enrollees (excluding certain drugs that are already discounted), and pharmaceutical manufacturers are required to pay specified rebates directly to the state Medicaid programs for those claims. This has impacted the level of rebates received by managed care plans from the manufacturers for Medicaid managed care enrollees. Many manufacturers have renegotiated or discontinued their rebate contracts with Medicaid managed care plans and pharmacy benefits managers to offset these new rebates paid directly to state Medicaid programs. As a result, the drug rebate amounts paid to managed care plans like ours continue to remain at levels that are much lower than prior to ACA implementation. There are provisions in the ACA that require rates paid to Medicaid managed care plans to be actuarially sound in regard to drug rebates. Although we will be pursuing rate increases with state agencies to make us whole for the rebate amounts lost, there can be no assurances that the premium increases we may receive, if any, will be adequate to offset the amount of the lost rebates. If such premium increases prove to be inadequate, our business, financial condition, cash flows, or results of operations could be adversely affected.

We derive our premium revenues from a relatively small number of state health plans.

We currently derive our premium revenues from 11 state health plans, and commenced operations with our Puerto Rico health plan in April 2015. If we are unable to continue to operate in any of those jurisdictions, or if our current operations in any portion of the jurisdictions we are in are significantly curtailed, our revenues could decrease materially. Our reliance on operations in a limited number of jurisdictions could cause our revenue and profitability to change suddenly and unexpectedly, depending on an abrupt loss of membership, significant rate reductions, a loss of a material contract, legislative actions, changes in Medicaid eligibility methodologies, catastrophic claims, an epidemic, an unexpected increase in utilization, general economic conditions, and similar factors in those jurisdictions. Our inability to continue to operate in any of the jurisdictions in which we currently operate, or a significant change in the nature of our existing operations, could adversely affect our business, financial condition, cash flows, or results of operations.

A large portion of our premium revenues are subject to risks related to medical cost expenditure floors and corridors, administrative cost and profit ceilings, premium stabilization programs, and cost-plus and performance-based reimbursement programs.

A substantial portion of our premium revenue is subject to contract provisions pertaining to medical cost floors and corridors, administrative cost and profit ceilings, cost-plus reimbursement, premium stabilization programs, and profit-sharing arrangements. Many of these contract provisions are complex, or are poorly or ambiguously drafted, and thus are potentially subject to differing interpretations by ourselves and the relevant government agency with whom we contract. In the event the applicable government agency disagrees with our interpretation or implementation of a particular contract provisions at issue, we could be required to adjust the amount of our obligations under these provisions and/or make a payment or payments to the government agency. Any interpretation of these contract provisions at variance with our interpretation and implementation of the provision, or that is inconsistent with our revenue recognition accounting treatment, could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

In addition, many of our contracts also contain provisions pertaining to at-risk premiums that require us to meet certain quality performance measures to earn all of our contract revenues. In the event we are unsuccessful in achieving the stated performance

measure, we will be unable to recognize the revenue associated with that measure. Any failure of our health plans to satisfy one of these performance measure provisions could have a material adverse effect on our business, financial condition, cash flows or results of operations.

Failure to attain profitability in any new start-up operations, including in our new Puerto Rico health plan, could negatively affect our results of operations.

Start-up costs associated with a new business can be substantial. For example, to obtain a certificate of authority to operate as a health maintenance organization in most jurisdictions, we must first establish a provider network, have infrastructure and required systems in place, and demonstrate our ability to obtain a state contract and process claims. Often, we are also required to contribute significant capital to fund mandated net worth requirements, performance bonds or escrows, or contingency guaranties. If we are unsuccessful in obtaining the certificate of authority, winning the bid to provide services, or attracting members in sufficient numbers to cover our costs, any new business of ours would fail. We also could be required by the state or commonwealth to continue to provide services for some period of time without sufficient revenue to cover our ongoing costs or to recover our significant start-up costs.

Even if we are successful in establishing a profitable health plan in a new state or commonwealth, increasing membership, revenues, and medical costs will trigger increased mandated net worth requirements which could substantially exceed the net income generated by the health plan. Rapid growth in an existing state or commonwealth will also result in increased net worth requirements. In such circumstances, we may not be able to fund on a timely basis or at all the increased net worth requirements with our available cash resources. The expenses associated with starting up a health plan in a new state or commonwealth, or expanding a health plan in an existing state or commonwealth could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Receipt of inadequate or significantly delayed premiums could negatively affect our business, financial condition, cash flows, or results of operations.

Our premium revenues consist of fixed monthly payments per member, and supplemental payments for other services such as maternity deliveries. These premiums are fixed by contract, and we are obligated during the contract periods to provide health care services as established by the state governments. We use a large portion of our revenues to pay the costs of health care services delivered to our members. If premiums do not increase when expenses related to medical services rise, our medical margins will be compressed, and our earnings will be negatively affected. A state could increase hospital or other provider rates without making a commensurate increase in the rates paid to us, or could lower our rates without making a commensurate reduction in the rates paid to hospitals or other providers. In addition, if the actuarial assumptions made by a state in implementing a rate or benefit change are incorrect or are at variance with the particular utilization patterns of the members of one of our health plans, our medical margins could be reduced. Any of these rate adjustments in one or more of the states in which we operate could have a material adverse effect our business, financial condition, cash flows, or results of operations.

Furthermore, a state undergoing a budget crisis may significantly delay the premiums paid to one of our health plans. Any significant delay in the monthly payment of premiums to any of our health plans could have a material adverse effect on our business, financial condition, cash flows, or results of operations.

Centene's acquisition of Health Net could affect the Los Angeles county subcontract of our California health plan.

Our California health plan operates in Los Angeles County, California as a subcontractor to Health Net, which holds a direct Medi-Cal contract with the state of California. Health Net has entered into a merger agreement with Centene Corporation, with the merger expected to close in early 2016. We currently do not expect there to be any material change to our Los Angeles county subcontract in connection with Centene's acquisition of Health Net. However, if Centene seeks to modify our subcontract or otherwise refuses to perform under the contract, our business, financial condition, cash flows, or results of operations may be adversely affected.

Reductions in Medicare payments could reduce our earnings potential for our Medicare Advantage plans and our duals demonstration programs.

The Sequestration Transparency Act of 2012 included a 2% reduction of payments from CMS to our Medicare Advantage plans beginning April 1, 2013. Medicare Advantage plans will continue to be affected until Congress lifts the sequestration mandated under the Sequestration Transparency Act of 2012. Such reduction in our Medicare payments may have an adverse effect on our earnings potential for our Medicare Advantage plans and our duals demonstration programs. In addition, reductions to provider reimbursement rates associated with sequestration may adversely impact our relations with the impacted providers.

Difficulties in executing our acquisition strategy could adversely affect our business.

The acquisitions of other health plans and the assignment and assumption of Medicaid contract rights of other health plans have accounted for a significant amount of our growth over the last several years. Although we cannot predict with certainty our rate of growth as the result of acquisitions, we believe that additional acquisitions of all sizes will be important to our future growth

strategy. Many of the other potential purchasers of these assets—particularly operators of large commercial health plans—have significantly greater financial resources than we do. Also, many of the sellers may insist on selling assets that we do not want, such as commercial lines of business, or may insist on transferring their liabilities to us as part of the sale of their companies or assets. Even if we identify suitable targets, we may be unable to complete acquisitions on terms favorable to us, or at all, or obtain the necessary financing for these acquisitions. For these reasons, among others, we cannot provide assurance that we will be able to complete favorable acquisitions, especially in light of the volatility in the capital markets over the past several years, or that we will not complete acquisitions that turn out to be unfavorable. Further, to the extent we complete an acquisition, we may be unable to realize the anticipated benefits from such acquisition because of operational factors or difficulty in integrating the acquisition with our existing business. This may include problems involving the integration of:

- additional employees who are not familiar with our operations or our corporate culture,
- new provider networks which may operate on terms different from our existing networks,
- additional members who may decide to transfer to other health care providers or health plans,
- disparate information, claims processing, and record-keeping systems,
- internal controls and accounting policies, including those which require the exercise of judgment and complex estimation processes, such as estimates of claims incurred but not reported, accounting for goodwill, intangible assets, stock-based compensation, and income tax matters, and
- new regulatory schemes, relationships, practices, and compliance requirements.

Also, we are generally required to obtain regulatory approval from one or more state agencies when making acquisitions of health plans. In the case of an acquisition of a business located in a state in which we do not already operate, we would be required to obtain the necessary licenses to operate in that state. In addition, although we may already operate in a state in which we acquire a new business, we would be required to obtain regulatory approval if, as a result of the acquisition, we will operate in an area of that state in which we did not operate previously. Furthermore, we may be required to renegotiate contracts with the network providers of the acquired business. We may be unable to obtain the necessary governmental approvals, comply with these regulatory requirements or renegotiate the necessary provider contracts in a timely manner, if at all.

In addition, we may be unable to successfully identify, consummate, and integrate future acquisitions, including integrating the acquired businesses on our information technology platform, or to implement our operations strategy in order to operate acquired businesses profitably. Furthermore, we may incur significant transaction expenses in connection with a potential acquisition which may or may not be consummated. These expenses could impact our selling, general and administrative expense ratio.

For all of the above reasons, we may not be able to consummate our proposed acquisitions as announced from time to time to sustain our pattern of growth or to realize benefits from completed acquisitions.

We face periodic routine and non-routine reviews, audits, and investigations by government agencies, and these reviews and audits could have adverse findings, which could negatively impact our business.
