

UnitedHealthcare Provider Agreement Submission

As you will see from the various provider participation agreements(or base contract document) submitted by United, the underlying provider participation agreements capture many of the foundational elements of a healthcare services agreement regardless of the type of benefit plan (i.e. Medicaid, Medicare or Commercial). In order to ensure consistency and clarity, United attaches a Kentucky State Programs Regulatory Requirements Appendix (“Appendix”) to each of the provider participation agreements which captures all of the applicable KENTUCKY MEDICAID /Medicaid requirements. All providers must comply with the provisions of the Appendix and the Appendix supersedes the underlying participation agreement if there is a conflict.

Document #	Document Title	Kentucky Medicaid	Material Type (i.e. contract, letter)	Description/Summary	Kentucky Agreement Requirement Overview
