REPORT OF INDEPENDENT AUDITORS

To the Board of Directors
Turnpike Authority of Kentucky
Frankfort, Kentucky

Report on the Financial Statements

We have audited the accompanying Statement of Assets, Liabilities and Fund Balances – Trust Indenture Basis and Statements of Revenues, Expenses and Changes in Fund Balances - Trust Indenture Basis of the Economic Development Revitalization Road Projects of the Turnpike Authority of Kentucky (the “Authority”), as of and for the year ended June 30, 2015, as listed in the table of contents, and the related notes.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these special-purpose financial statements in accordance with the accounting principles specified in Section 709 of the Trust Indenture dated October 1, 1990, as amended, between the Authority and Citizens Fidelity Bank and Trust Company; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the special-purpose financial statements that are free from material misstatement, whether due to error or fraud.

Auditor’s Responsibility

Our responsibility is to express an opinion on the special-purpose financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the special-purpose financial statements. The procedures selected depend on the auditor’s judgment, including assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s
preparation and fair presentation of the special-purpose financial statements in order to
design audit procedures that are appropriate in the circumstances, but not for the
purpose of expressing an opinion on the effectiveness of the entity’s internal control.
Accordingly, we express no such opinion. An audit also includes evaluating the
appropriateness of accounting policies used and the reasonableness of significant
accounting estimates made by management, as well as evaluating the overall
presentation of the special-purpose financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to
provide a basis for our audit opinion.

Opinion

In our opinion, the special-purpose financial statements referred to above present fairly,
in all material respects, the assets, liabilities, and fund balances – trust indenture basis
of the Economic Development Revitalization Road Projects of the Authority, as of June
30, 2015, and the revenues, expenses, and changes in fund balances – trust indenture
basis, for the year then ended in conformity with the basis of accounting described in
Note 1.

Basis of Accounting

We draw attention to Note 1 of the special-purpose financial statements, which
describes that the accompanying special-purpose financial statements were prepared in
conformity with the accounting principles specified in Section 709 of the Trust Indenture,
as amended, between the Authority and Citizens Fidelity Bank and Trust Company,
which is a basis of accounting other than accounting principles generally accepted in
the United States of America, to comply with the requirements of the Trust Indenture
referred to above, and are not intended to be a presentation in conformity with
accounting principles generally accepted in the United States of America. Our opinion is
not modified with respect to that matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming opinions on the Authority’s special-
purpose financial statements. The accompanying bond fund – combining schedule of
accounts and construction fund – schedule of project costs (collectively, “the
schedules”) are presented for purposes of additional analysis and are not a required
part of the special-purpose financial statements as a whole.

The accompanying schedules are the responsibility of management and were derived
from and relate directly to the underlying accounting and other records used to prepare
the special-purpose financial statements. Such information has been subjected to the
auditing procedures applied in the audit of the special-purpose financial statements and
certain additional procedures, including comparing and reconciling such information
directly to the underlying accounting and other records used to prepare the special-
purpose financial statements or to the special-purpose financial statements themselves,
and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying schedules are fairly stated in all material respects in relation to the special-purpose financial statements as a whole.

**Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards we have also issued our report dated December 7, 2015, on our consideration of the Authority’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards in considering the Authority’s internal control over financial reporting and compliance.

** Restriction on Use **

This report is intended solely for the information and use of the board of directors and management of the Authority and The Bank of New York Mellon Trust Company, N.A. as successor to Citizens Fidelity Bank and Trust, and is not intended to be and should not be used anyone other than these specified parties.

1. **Summary of Significant Accounting Policies**

**Basis of Presentation**

As provided by authorizing legislation, the Turnpike Authority of Kentucky (the “Authority”) has issued bonds to construct various economic development roads to preserve and enhance the economic viability of the Commonwealth of Kentucky (the Commonwealth). To set forth obligations and agreements of the Authority with regard to these bonds, the Authority adopted the 1990 Trust Indenture Agreement, dated as of October 1, 1990, as supplemented by the First Supplemental Trust Indenture, dated as of November 15, 2000, as amended by the First Supplemental Agreement, dated October 1, 1992; the Second Supplemental Agreement, dated as of April 1, 1993; the Third Supplemental Agreement, dated as of April 1, 1995; the Fourth Supplemental Agreement, dated as of April 1, 1999; the Fifth Supplemental Agreement, dated as of February 1, 2001; the Sixth Supplemental Agreement, dated as of March 1, 2001; the Seventh Supplemental Agreement, dated as of April 1, 2005; the Ninth Supplemental Agreement, dated as of March 1, 2006; the Tenth Supplemental Agreement, dated as of September 1, 2007; the Eleventh Supplemental Agreement, dated as of June 1, 2010; the Twelfth Supplemental Agreement, dated as of March 1, 2012; the Fourteenth Supplemental Agreement, dated as of September 1, 2013; and the Fifteenth Supplemental Agreement, dated as of June 1, 2014.

Among other requirements, the Trust Indenture and the Supplemental Agreements set forth various accounting principles which are to be followed by the Authority. These principles differ in certain respects from accounting principles generally accepted in the United States of America for governmental funds, principally as follows:

**Costs of Projects**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method expenditures for capital assets are reported as fund expenditures in the period incurred. The cost of projects balance differs from this accounting principle in that this balance represents the Authority’s cumulative design, right-of-way, utilities and construction expenditures for road projects.
**Economic Development Road Revenue Bonds**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method long-term debt and obligations are not recognized as liabilities. The reported balance for the Economic Development Road Revenue Bonds differs from this accounting principle in that the bonds are reported at the outstanding principal balance.

**Debt Issuance Costs**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method costs related to the issuance of long-term debt are reported as fund expenditures in the period incurred. The reported balance for debt issuance costs differs from this accounting principle in that these costs are capitalized and amortized over the life of the bond issue applying the effective interest method.

**Bond Premium and Discounts**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method long-term debt and obligations are not recognized as liabilities. The reported balance for the Economic Development Road Revenue Bonds differs from this accounting principle in that bond premium and discounts are reported as additions to or reductions of bonds outstanding and are amortized over the life of the bond issue applying the effective interest method.

**Deferred Loss on Refunding**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method long-term debt and obligations are not recognized as liabilities. The reported balance for the Economic Development Road Revenue Bonds differs from this accounting principle in that the deferred loss on early retirement of debt is reported as a reduction of bonds outstanding and is amortized applying the effective interest method over the remaining life of the old debt or the life of the new debt, whichever is less.
Other Revenue Sources

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Authority occasionally receives income from the sale of excess of surplus property acquired for construction of roads. Also, the Authority receives excess earnings from funds previously escrowed for bond defeasance. However, these items are considered to be measureable and available only when cash is received.

The Authority's special-purpose financial statements are reported in a format which differs from accounting principles generally accepted in the United States of America. Therefore, the accompanying financial statements, which are prepared in accordance with the aforementioned accounting principles are not intended to, and do not, present financial position or results of operations in conformity with accounting principles generally accepted in the United States of America.

Cash and Investments

The Authority's cash and cash equivalents include all demand deposits and all highly liquid investments with a maturity of three months or less from the date of acquisition.

All investments of the Authority are accounted for at fair value based on quoted market prices.

Lease Income

The Trust Indenture Agreement provides for the Authority, at six month intervals, to request sufficient funds from the Transportation Cabinet to make principal and interest payments due on outstanding bonds plus supplemental lease income to pay administrative expenses for the succeeding six months. This supplemental lease income is recorded as income in the period for which it is to be expended.
Use of Estimates

Management uses estimates and assumptions that affect the reported amounts in the special-purpose financial statements and accompanying notes. Actual results could differ from those estimates.

Build America Bonds

The America Recovery and Reinvestment Act of 2009 (ARRA) authorizes the Authority to issue taxable bonds known as “Build America Bonds” to finance capital expenditures for which it could issue tax-exempt bonds and to elect to receive a subsidy payment from the federal government equal to the amount of 35% of each interest payment on such taxable bonds. The Authority has determined to issue all of the 2010 Series B Bonds as Build America Bonds. The subsidy payments will be paid to the Authority or to the Trustee on the Authority’s behalf; holders of the 2010 Series B Bonds will not be entitled to a tax credit and interest paid on the 2010 Series B Bonds will be includable in gross income of the holder for purposes of federal income taxation but will be exempt from Kentucky income tax. The subsidy payments have not been pledged to the payment of the 2010 Series B Bonds. To the extent the federal government pays such subsidy payments to the Authority, such amounts would be part of the Authority’s general revenues. The subsidy payments are not full faith and credit obligations of the United States.

These financial statements include only the activities of the Economic Development Road Projects bond issues and are not intended to present the activities of the Turnpike Authority of the Commonwealth of Kentucky, as a whole.

**Security**

The Bonds are special obligations of the Authority secured by and payable solely from monies pledged for the payment thereof under the 1990 Trust Indenture as supplemented by the First Supplemental Trust Indenture dated as of November 15, 2000 (the “Indenture”) as amended by the First Supplemental Agreement, dated as of October 1, 1992; the Second Supplemental Agreement, dated as of April 1, 1993; the Third Supplemental Agreement, dated as of April 1, 1995; the Fourth Supplemental Agreement, dated as of April 1, 1999; the Fifth Supplemental Agreement, dated as of February 1, 2001; the Sixth Supplemental Agreement, dated as of March 1, 2001; the Seventh Supplemental Agreement, dated as of May 1, 2004; the Eighth Supplemental Agreement, dated as of April 1, 2005; the Ninth Supplemental Agreement, dated as of March 1, 2006; the Tenth Supplemental Agreement, dated as of September 1, 2007; the Eleventh Supplemental Agreement, dated as of June 1, 2010; the Twelfth Supplemental Agreement, dated as of April 1, 2011; the Thirteenth Supplemental Agreement, dated as of March 1, 2012; the Fourteenth Supplemental Agreement, dated as of September 1, 2013; and the Fifteenth Supplemental Agreement, dated as of June 1, 2014. There are to be deposited in such funds, (i) proceeds derived from the sale of the Bonds, (ii)
monies received by the Authority as rental payments from the Cabinet under the Lease, the First Supplemental Lease, dated October 1, 1992; the Second Supplemental Lease, dated as of April 1, 1993; the Third Supplemental Lease, dated as of April 1, 1995; the Financing/Fourth Supplemental Lease, dated as of October 1, 1999, which has been amended by a First Amendment to Financing/Fourth Supplemental Lease Agreement, dated as of November 15, 2000; the Fifth Supplemental Lease, dated as of February 1, 2001; the Sixth Supplemental Lease, dated as of March 1, 2001; a Financing/Seventh Supplemental Lease Agreement, dated as of May 1, 2004; the Eighth Supplemental Lease, dated as of April 1, 2005; the Ninth Supplemental Lease, dated as of March 1, 2006; a Financing/Tenth Supplemental Agreement, dated September 1, 2007, which has been amended by a First Amendment to Financing/Tenth Supplemental Lease Agreement, dated as of August 1, 2008 and by a Second Amendment to Financing/Tenth Supplemental Lease Agreement, dated as of April 1, 2009; an Eleventh Supplemental Lease, dated as of June 1, 2010; a Twelfth Supplemental Lease, dated as of April 1, 2011; a Thirteenth Supplemental Lease Agreement, dated as of March 1, 2012; a Fourteenth Supplemental Lease Agreement, dated as of September 1, 2013; a Fifteenth Supplemental Lease Agreement, dated as of June 1, 2014, and (iii) during such times as the lease shall not be in effect, the Transportation Cabinet must collect from the Commonwealth and pay over to the Authority motor fuel taxes and surtaxes collected by the Commonwealth on gasoline and other motor fuels consumed on the Economic Development Revitalization Projects not directed by law or previous binding contact to be applied to uses other than payment of the principal of and interest on the Bonds.

The Authority does not expect that it will have a source of revenues sufficient to pay Bonds if required rentals are not received under the lease. There is no indication that the required rentals will not be received.

The Authority does not have any taxing power. The Bonds do not constitute a debt of the Commonwealth, and neither the faith and credit nor the taxing authority of the Commonwealth is pledged to the payment of the principal or interest on the Bonds.

**Trust Indenture**

In connection with the issuance of the Bonds, the Authority entered into the Indenture with PNC Bank of Kentucky (the "Trustee" and formerly Citizens Fidelity Bank and Trust).
The Indenture, dated as of October 1, 1990, as supplemented by a First Supplemental Trust Indenture dated as of November 15, 2000 (and subsequent amendments shown in Note 1) between the Authority and The Bank of New York Mellon Trust Company, N.A. (formerly Chase Manhattan Trust Company N. A.), Louisville, Kentucky, as trustee, contain provisions establishing funds and accounts for segregation of assets and restricting the use of the proceeds of Bonds as well as other funds received. Cash and marketable securities of the various funds and accounts are restricted for the following purposes:

**Construction Fund** - construction costs are to include costs of preliminary studies, land acquisition (less consideration received for land sold), engineering, legal, administrative and maintenance expenses during construction (less interest earned on unexpended construction funds). Construction costs are not amortized.

The Construction Fund records debt incurred to finance not only the construction of roads as provided in the indenture, but has also borrowed funds to defease and partially defease bonds issued under this indenture and other indentures. When funds are borrowed to defease or partially defease bonds issued under other indentures, this causes an outflow of funds and can result in a negative fund balance.

The Construction Fund has also incurred debt to finance the construction and improvement of roads owned by various local governments in the Commonwealth of Kentucky. When these funds are expended, this outflow of funds can result in a negative fund balance.

**Revenue Fund** - a depository for collections of monies received under lease agreements with the Cabinet. Transfers are made from this fund according to funding requirements of the Indenture. The Revenue Fund also has an operating account for payment of administrative costs.

**Debt Service Reserve Fund** - assets held as a reserve for payment of Bond principal and interest if monies in the Bond Service Account are insufficient to make required payments.

**Escrow Fund** - this Fund was established October 1, 1992 as a depository for certain payments required under the First Supplemental Lease dated October 1, 1992 which will be used to purchase certain United States Government obligations in the amounts and on the dates as set forth in the Escrow Agreement dated October 1, 1992.
**Bond Fund** - this Fund is comprised of the following four accounts:

- **Capitalized Interest Account** - payment of bond interest as may be provided in a Series Resolution;
- **Bond Service Account** - payment of bond principal and interest;
- **Redemption Account** - retirement of bonds, and;
- **Rebate Account** - this Account was established October 1, 1990 as a depository for amounts required to be paid to the United States of America pursuant to Section 148(F) of the Internal Revenue Code as determined by the Authority's rebate consultant.

**3. Concentration of Credit Risk**

At June 30, 2015, the Authority maintained $78,297,387 of cash and investments with the State Investment Pool of the State Investment Commission of the Commonwealth of Kentucky.

The State Investment Commission ("The Commission") is charged with the oversight of the Commonwealth’s investment programs pursuant to KRS 42.500.

The Commission delegates the day-to-day management of the Commonwealth’s investments to the Office of Financial Management ("OFM"). The purpose of the investment pools is to provide: economies of scale that enhance yield, ease of administration for both the user agencies and OFM and increased accountability and control. All investments shall be permitted investments as defined in KRS 42.500 and as further limited by 200 KAR Chapter 14. Funds residing in the pools are available to be spent at any time. The Commonwealth has a custodial agreement with State Street Bank, which clears all security transactions and holds its securities. The Commonwealth also has tri-party custodial accounts with Bank of New York and J. P. Morgan Chase to facilitate the execution of repurchase agreements. The information concerning these investment pools has been obtained from OFM. The Authority had no collateral or insurance as security for the balances with the State Investment Commission at June 30, 2015, but they own a proportionate interest in the securities held in the respective pools.
4. Cash, Cash Equivalents, and Investments

At June 30, 2015, the Economic Development Revitalization Road Projects of the Turnpike Authority of Kentucky held cash and cash equivalents consisting of the following:

State pool cash and equivalents $3,326,648
U.S. Government money market funds 119,794,130
$123,120,778

At June 30, 2015, the Economic Development Revitalization Road Projects of the Turnpike Authority of Kentucky had the following investments and maturities:

<table>
<thead>
<tr>
<th>Fair Value</th>
<th>Less than One Year</th>
<th>1 - 5 Years</th>
</tr>
</thead>
<tbody>
<tr>
<td>State pool investments</td>
<td>$74,970,739</td>
<td>$0</td>
</tr>
</tbody>
</table>

Interest Rate Risk

The State Investment Pools are managed within statute, administrative regulation and under review of the State Investment Commission. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's investment policy requires, at a minimum, an annual review of the investment maturities.

Credit Risk

The Economic Development Revitalization Road Projects indenture limits investments to U. S. Government backed securities, any corporation of the U. S. Government, Certificates of Deposit and Bankers Acceptances issued by highly rated banks, commercial paper in the highest rating category, securities issued by a state or local government rated in one of the three highest categories by a nationally-recognized rating agency, and any other investment permitted by KRS 42.500. The Authority did not have any investments at June 30, 2015, that were subject to credit risk.
Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments, or collateral securities that are in the possession of an outside party. At June 30, 2015, all of the Economic Development Revitalization Road Project’s cash, cash equivalents, and investments are insured, collateralized, or held by the Authority’s counterparty in the Authority’s name.

6. Prior Year’s Debt Defeasance

Concurrent with the issuance of the 2014 Series A in June 2014, the Authority refunded a portion of the 2005 Series B. Proceeds from the new bonds were used to purchase certain direct obligations of the United States of America, which were deposited with the Trustee in a refunding escrow account and pledged to pay debt service and interest on the refunded bonds. For financial reporting purposes, the debt has been considered defeased, and therefore removed as a liability from the Authority’s financial statements. The total amount of defeased debt that remains outstanding at June 30, 2015, is approximately $132.4 million.
7. **Encumbrances**

At June 30, 2015, there were encumbrances outstanding at the Transportation Cabinet for construction costs on the Economic Development Revitalization Road Projects in the amount of $111,067,161, which the Authority will be responsible for in future years.

8. **Subsequent Events**

On July 22, 2015, Economic Development Road Revenue 2015 Series A and Series B Bonds were issued by the Turnpike Authority of Kentucky pursuant to a resolution adopted on May 12, 2015. This issue provides for the financing of certain Economic Development Road Projects, provides funds to advance refund certain serial maturities of outstanding Economic Development Road Revenue Bonds (2006 Series A and 2006 Series B), and provides funds to pay certain costs of the issuance of the 2015 Series A and Series B Bonds. The aggregate par value of the 2015 Series A and Series B Bonds is $190,885,000.

REPORT OF INDEPENDENT AUDITORS ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Turnpike Authority of Kentucky

We have audited, in accordance with the auditing standards generally accepted in the
United States of America and the standards applicable to financial audits contained in
Government Auditing Standards issued by the Comptroller General of the United
States, the special-purpose financial statements of the Economic Development
Revitalization Road Projects of the Turnpike Authority of Kentucky (the Authority), as of
and for the year ended June 30, 2015, and the related notes to the special-purpose
financial statements, and have issued our report thereon dated as of the date of this
letter. The special-purpose financial statements present only the Economic
Development Revitalization Road Projects Fund and do not purport to, and do not,
present fairly the financial position of the Turnpike Authority of Kentucky, as of June 30,
2015, and the changes in its financial position, or, where applicable, its cash flows for
the year then ended in conformity with accounting principles generally accepted in the
United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit of the special-purpose financial statements, we
considered the Authority’s internal control over financial reporting (internal control) to
determine the audit procedures that are appropriate in the circumstances for the
purpose of expressing our opinion on the special-purpose financial statements, but not
for the purpose of expressing an opinion on the effectiveness of the Authority’s internal
control. Accordingly, we do not express an opinion on the effectiveness of the
Authority’s internal control.
A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Authority’s special-purpose financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority’s special-purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of the special-purpose financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
