• If a fire is verified, alert others in the immediate area.
• If more than one person is in the area:
  – All fires must be reported to 99-911 (remember you may have to dial a 9 or 99 to get an outside line at your location).
  – If the fire is small or confined and you are trained, attempt to extinguish with a fire extinguisher. If you extinguish a fire on your own or with others, you must call EMERGENCY NUMBER 875-8550 to report the incident to the FRANKFORT FIRE DEPARTMENT.
  – If you are alone, you must decide which to do first depending upon the situation and the extent of the fire.
  – Activate a fire pull station
  – If you are told to evacuate, use the nearest exit to the safe assembly area. The elevator will be reserved for disabled employees and the Frankfort Fire Department personnel.
  – Disabled persons will be assisted to the elevator for pick up by floor monitors or volunteers.
2-3 Medical Procedures

- If illness or injury occurs in your area, render whatever aid you can. Call **99-911** being as specific as possible and give the exact location of individual(s) needing help. Stay on the phone if requested.
- Be prepared to meet or have someone meet the emergency personnel at your floor.
- Protect the injured or ill person from on-lookers.
- If you have called **99-911** without contacting **Neal Lanham and Robert Brown**, call immediately to notify or for other assistance.
- You may call **EMERGENCY NUMBER 99-911** and allow the person receiving the call to implement the proper medical emergency procedures.
2-4 Severe Weather

• Call **EMERGENCY NUMBER 99-911** if you believe you have information that is not known to state officials. Report facts as you know them. Stay on the line if asked to do so.

• If you receive an announcement to seek shelter, please evacuate to the area designated as **TORNADO SHELTER**. The **TORNADO SHELTER** area for the KY Deferred Comp **101 Sea Hero Road** building is located in the Board & Training Rooms.

• Remember your options: center hallway on the lower floor, center hallway regardless of the floor, or get under something sturdy as a last resort. Stay away and clear of all glass.
2-5 Earthquake Procedures

- **Indoors:** *Drop, cover, and hold on.* Drop to the floor; take cover under a sturdy desk or table, and hold on to it firmly. Be prepared to move with it until the shaking stops. If you are not near a desk or table, drop to the floor against the interior wall and protect your head and neck with your arms. Avoid exterior walls, windows, hanging objects, mirrors, tall furniture, large appliances, and kitchen cabinets with heavy objects or glass. Do not go outside!

- **In a high-rise:** Drop, cover, and hold on. Avoid windows and other hazards. Do not use elevators. Do not be surprised if sprinkler systems or fire alarms activate.

- **Outdoors:** Move to a clear area if you can safely do so; avoid power lines, trees, signs, buildings, vehicles, and other hazards.

- **Driving:** Pull over to the side of the road, stop, and set the parking brake. Avoid overpasses, bridges, power lines, signs and other hazards. Stay inside the vehicle until the shaking is over. If a power line falls on the car, stay inside until a trained person removes the wire.

When law enforcement officials arrive, it is important that you:
